USAF SCIENTIFIC ADVISORY BOARD, GUIDANCE AND CONTROL PANEL

Notice of Meeting

JANUARY 5, 1973.

The USAF Scientific Advisory Board, Guidance and Control Panel will hold a closed meeting on January 15–16, 1973, at Holloman Air Force Base, N. Mex.

The agenda will include topics pertinent to the ongoing review of all-weather terminal guidance system.

Any person desiring information about the panel may telephone (202—697-4648) or write the Assistant Executive Secretary, USAF Scientific Advisory Board, Headquarters U.S. Air Force, Washington, D.C. 20330.

JOHN W. FAHRNEY,
Colonel, USAF, Chief, Legislative Division, Office of the Judge Advocate General.

[Docket No. 73-2]

HEXAGON LABORATORIES, INC.

Notice of Hearing

Notice is hereby given that on November 24, 1972, the Bureau of Narcotics and Dangerous Drugs, Department of Justice, issued to Hexagon Laboratories, Inc., an order to show cause as to why the Bureau of Narcotics and Dangerous Drugs should not deny the application for registration under the Controlled Substances Act of 1970, of the respondent, executed on October 25, 1972, pursuant to section 303 of the Controlled Substances Act (21 U.S.C. 823).

Thirty days having elapsed since said order was received by Hexagon Laboratories, Inc., and written request for a hearing having been filed with the Director of the Bureau of Narcotics and Dangerous Drugs, notice is hereby given that a hearing in this matter will be held commencing at 10 a.m. on January 18, 1973, in room 812 of the Bureau of Narcotics and Dangerous Drugs, 1405 I Street NW., Washington, DC 20537.

Dated: January 4, 1973.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

SEMIDI NATIONAL WILDLIFE REFUGE

Notice of Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with provisions of the Wilderness Act of September 3, 1964 (Public Law 85–577; 78 Stat. 890–896; 16 U.S.C. 1131–1136), that a public hearing will be held beginning at 7 p.m. on February 20, 1973, at Loussac Library, Anchorage, Third Judicial District, Alaska, on a proposal leading to a recommendation to be made to the President of the United States by the Secretary of the Interior regarding the desirability of including all or part of the Semidi National Wildlife Refuge within the National Wilderness Preservation System. The wilderness proposal consists of approximately 256,000 acres of lands and waters located in the Gulf of Alaska.

A study summary containing a map and information about the Semidi Wilderness proposal may be obtained from the Refuge Manager, Aleutian Islands National Wildlife Refuge, Cold Bay, Alaska 99571; or from the Area Director, Bureau of Sport Fisheries and Wildlife, 813 D Street, Anchorage, AK 99501.

Individuals or organizations may express their oral or written views by appearing at this hearing, or they may submit written comments for inclusion in the official record of the hearing to the area director at the above address by March 22, 1973.

SPENCER H. SMITH,
Director, Bureau of Sport Fisheries and Wildlife.

Office of the Secretary

NATIONAL ADVISORY BOARD ON WILD FREE-ROAMING HORSES AND BURROS

Administrative Procedures

On page 11276 of the FEDERAL REGISTER of June 6, 1972, there was published a notice and text of proposed administrative procedures (charter) for the National Advisory Board on Wild Free-Roaming Horses and Burros.

Interested persons were given 45 days within which to submit written comments, suggestions, or objections. Upon consideration of these comments and suggestions, certain changes have been incorporated. Additionally, language has been added to reflect the requirements of newly enacted Public Law 92–463, the Federal Advisory Committee Act.

The changes required by Public Law 92–463 are as follows:

1. The wording of IIIA5, *Compensation*, has been amended to clarify the provisions for payment of travel expenses.

2. A sentence has been added to IIIC, *Meetings*, to give the estimated number of meetings per year, annual operating costs, and man-years required.

3. A new clause reading: "* * * who is authorized to adjourn any meeting whenever he considers adjournment to be in the public interest." has been added to IIIC3, *Official participation*.

4. Part IIIC4, *Executive session*, has been eliminated, and part IIIC5 renumbered IIIC4.

5. Part IIIE, *Public participation*, has been renumbered IIIC5, reworded to insure that all meetings will be open to the public, and to provide for the making of presentations and the filing of statements.

6. The portion of IIIE, *Public participation*, concerning advance public notice of meetings has been separated and expanded under part IIIC6, *Advance public notice*.

7. A part IIIC7, *Support services*, has been added to spell out responsibility for such services.

8. Part IIIF, *Record of proceedings*, has been renumbered IIIE, and the word "official" dropped from subpart (c). Subpart (d) has been changed to read, "a description of matters discussed and conclusions reached;". Subpart (f) has been amended to provide for certification of the accuracy of records by the Board chairman. Additionally, a sentence has been added to indicate where copies of Board records may be inspected and copied.

9. Part IIIG, *Rules and procedures*, has been renumbered IIIF, and the words "* * * is solely advisory and * * *" added between "Board" and "shall" of the first sentence. A sentence has been added to prescribe responsibility for actions to be taken with respect to any report or recommendation of the Board.

10. A part IIIH, *Termination*, has been added.

The following changes were made in response to comments:

1. The second sentence of II *Authority* has been eliminated. Although the sentence was an accurate statement of the law, its repetition in the charter could be interpreted as a limitation on the broad scope of the Board's advisory functions.

2. IIID *Chairmanship* has been revised to make clear that the chairman and vice chairman would be selected from among the membership of the Board. The word "principal" has been deleted from the first sentence of the second paragraph.

V 38 - 6 JAN 10 73 XUM

3. IIIE *Public participation* has been revised to show that their duly authorized representatives, as well as the two Secretaries, can call emergency meetings.

4. IIIH *Advice and recommendations*, renumbered IIIG, has been amended by changing "dissents from majority views" to "minority views" in the second sentence.

It was concluded that no further change was necessary to reflect the fact that State university staff members are qualified to serve on the Board, and that the Secretaries will seek a proper balance of interests on the Board. The suggestion that "land use" be added to the list of qualified disciplines was not adopted because the law itself specifies the qualifications. Similarly, there were recommendations to appoint officials of State government. The Act specifically prohibits such appointments.

The procedures are hereby adopted as revised and as set forth below. They shall become effective January 1, 1973.

I. *Purpose.* This document provides for the operation and describes the purpose, composition, and functions of the National Advisory Board on Wild Free-Roaming Horses and Burros.

II. *Authority.* The Act of December 15, 1971 (16 U.S.C. 1131–1340) requires the protection and management of wild free-roaming horses and burros on the public lands. Section 7 authorizes and directs the Secretary of the Interior and the Secretary of Agriculture to appoint a joint advisory board to advise them on any matter relating to the protection and management of wild free-roaming horses and burros, and specifies the qualifications required for membership on the advisory board.

III. *National Advisory Board on Wild Free-Roaming Horses and Burros. A. Membership.* The Board shall consist of nine members, none of whom shall be an employee of the Federal Government or State governments.

1. *Qualifications.* Each member must have specialized knowledge in one or more of the following fields: The protection of horses and burros, the management of wildlife, animal husbandry, and natural resource management. At least one of each of the above disciplines shall be represented on the Board at all times.

2. *Selection.* All members shall be selected on the basis of experience and established competence in their respective fields of specialized knowledge.

3. *Appointments.* All members will be jointly appointed by the Secretary of the Interior and the Secretary of Agriculture.

4. *Term.* The term of appointment will be 1 year. If a member does not serve his full term, the Secretary of the Interior and the Secretary of Agriculture may appoint a successor for the remainder of the unexpired term. Members may be reappointed for additional 1-year terms not to exceed 10 years of total service.

5. *Compensation.* Members shall serve without compensation, except for reimbursement of travel expenses, including per diem, in connection with their duties as members.

B. *Functions.* The Board shall advise, consult with, and make recommendations to the Secretary of the Interior and the Secretary of Agriculture, or their duly authorized representatives, on any matter relating to wild free-roaming horses and burros.

C. *Meeting.* The Board shall meet at times and places to be determined by the Secretary of the Interior or the Secretary of Agriculture, or both, or their duly authorized representatives. It is estimated that there will be four meetings per year at an annual cost of $30,000 and one man year of support.

1. *Call to meet.* The Secretary of the Interior and/or the Secretary of Agriculture, or their respective designees, will issue a formal call for each Board meeting.

2. *Agenda.* The Secretary of the Interior and/or the Secretary of Agriculture, or their respective designees will, in consultation with the chairman, formulate and approve the agenda for each meeting in advance.

3. *Official participation.* All meetings will be conducted in the presence of a duly authorized full-time salaried official or employee of the Department of the Interior or the Department of Agriculture, who is authorized to adjourn any meeting whenever he considers adjournment to be in the public interest.

4. *Quorum.* A majority of Board members holding office shall constitute a quorum which shall be required for the conduct of Board business.

5. *Public participation.* All meetings of the Board will be open to public observation. Any interested person may attend meetings, make a presentation upon request to the chairman, or file a statement with the Board. However, the authorized Department of Agriculture or Department of the Interior representative may establish reasonable limits as to the numbers of persons who may attend and the nature of their participation to the extent that available accommodations and time require limitation.

6. *Advance public notice.* To provide interested parties in opportunity to attend and participate, advance public notice of the date, place, and general subject matter of scheduled meetings will be given through publication in the FEDERAL REGISTER and appropriate local news media.

7. *Support services.* The Secretary of the Interior or his delegate shall be responsible for providing support services for the Board, including advance public notice of meetings.

D. *Chairmanship.* The Secretary of the Interior and the Secretary of Agriculture will designate one of the members as chairman and another as vice chairman for the first year. Thereafter, members will annually elect the chairman and vice chairman among their own members.

The chairman will be the liaison between the Secretary of the Interior and the Secretary of Agriculture or their duly authorized representatives in working with the Departments in formulating agendas and otherwise arranging for the orderly conduct of business. He will preside at meetings and appoint members of working groups of the Board. The vice chairman will act for the chairman in his absence.

E. *Record or proceedings.* A written record shall be made of all proceedings of Board and working group meetings. A verbatim transcript may be made but is not required. As a minimum, each record of proceedings shall include: (a) the agenda; (b) the date(s) and place(s) of the meeting; (c) the names and addresses of all in attendance and the capacity in which they participated; (d) a description of matters discussed and conclusions reached; (e) the recommendations made and reasons therefor; together with concurring or minority views and, at the request of any individual member, individual views; and, (f) copies of all reports received, issued, or approved by the Board. The Board chairman shall certify to the accuracy of the record of proceedings of each meeting. Such records, together with appendices, working papers, drafts, studies, and other documents, made available to or prepared or used by the Board, will be available for public inspection and copying in the Office of the Director of the Bureau of Land Management, Washington, D.C. Additionally, copies of the record of proceedings for each meeting shall be available for viewing at the libraries of the Department of the Interior and Department of Agriculture and the Library of Congress, Washington, D.C.

F. *Rules and procedures.* The Board is solely advisory and shall function in accordance with applicable Federal committee management requirements, and any supplementary and complementary guidelines which the Secretary of the Interior and the Secretary of Agriculture, or their respective authorized representatives, may jointly prescribe. Determinations of actions to be taken and policy to be expressed with respect to any report or recommendation of the Board shall be made only by the Secretary of the Interior, Secretary of Agriculture, or their authorized representatives.

G. *Advice and recommendations.* All advice and recommendations of the Board shall be made with the approval of a majority of the members present. Advice and recommendations of individual members, including minority views, may be made by the individuals involved. Each report of advice and recommendations shall be addressed only to the Secretary of the Interior or the Secretary of Agriculture, or both, or to their respective authorized representatives, and shall address only matters covered in the record of the Board's proceedings.

H. *Termination.* The term of the Board is indefinite.

HARRISON LOESCH,
Assistant Secretary of the Interior.
T. K. COWDEN,
Assistant Secretary of Agriculture.

JANUARY 2, 1973.

GOVERNMENT-OWNED INVENTIONS

Notice of Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the GSA patent licensing regulations.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Va. 22151, at the prices cited. Requests for copies of patent applications must include the patent application number and the title. Inquiries and requests for licensing information should be directed to the address cited on the first page of each copy of the patent application.

Paper copies of patents cannot be purchased from NTIS but are available from the Commissioner of Patents, Washington, D.C. 20231 at $0.50 each. Inquiries and requests for licensing information should be directed to the "Assignee" as indicated on the copy of the patent.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-570]

AMERICAN CYANAMID CO.

Polyotic Intramuscular 5 Gm.; Notice of Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of August 5, 1970 (35 FR 12493, DESI 0013NV), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on Polyotic Intramuscular 5 Gm.; marketed by American Cyanamid Co., Post Office Box 400, Princeton, NJ 08540.

American Cyanamid Co. advised the Commissioner that the product is no longer marketed. They further requested withdrawal of the veterinary application for this product.

Based on the grounds set forth in said announcement and the firm's request, the Commissioner concludes that the above-named product should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of the new animal drug application for Polyotic Intramuscular 5 Gm. is hereby withdrawn effective on the date of publication of this document.

Dated: January 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-486 Filed 1-9-73;8:45 am]

SPECIAL PACKAGING REQUIREMENTS FOR ASPIRIN, METHYL SALICYLATE, AND CONTROLLED SUBSTANCES

Denial of Requests for Extension of Time for Compliance

The Commissioner of Food and Drugs has received requests from manufacturers for an extension of time to comply with the following three regulations establishing the requirement of special packaging under the Poison Prevention Packaging Act:

1. Aspirin products (37 FR 3427), effective as of August 14, 1972.

2. Liquid preparations containing methyl salicylate (37 FR 6184), effective as of September 21, 1972.

3. Controlled substances (37 FR 8433), effective as of October 24, 1972.

The reason given for the requested extension of time is that orders have been placed by manufacturers of these products for appropriate safety packaging but these orders cannot be filled by package or closure manufacturers at this time. The effective date for compliance with these three regulations has previously been extended to January 22, 1973, conditioned upon certain requirements, for retail pharmacists but not for manufacturers (37 FR 22987).

The Commissioner concludes that the reason given for these requests is inadequate and all such requests are therefore denied.

The Commissioner recognizes that certain of the package or closure manufacturers may have misled some manufacturers and packers of these three types of products, and perhaps others, into believing that an adequate supply of safety closures would be available to meet their need within the effective date of regulations issued under the Poison Prevention Packaging Act. The Act provides no penalty against package or closure manufacturers under these circumstances. Because the Act requires only that special packaging shall be technically feasible, practicable, and appropriate, and does not excuse compliance because of the failure of package or closure manufacturers to provide a sufficient supply or to keep their promises with respect to production, there is no basis for extending the effective dates of the regulations issued under the Act.

The Commissioner has refrained from instituting regulatory action with respect to compliance with these regulations pending action on the requests for extension of time. The Act permits inventories of already produced products to be exhausted, and one noncomplying package marketed under the conditions proposed in the FEDERAL REGISTER of October 18, 1972 (37 FR 22001), but otherwise does not permit the packaging of new products after the effective date of the regulations except in full compliance with the requirements of those regulations. The Commissioner hereby gives notice that any production in violation of these regulations after the date of publication of this notice in the FEDERAL REGISTER (1–10–73) will be the subject of regulatory action. The Commissioner requests that any information relating to violation of these regulations immediately be brought to his attention by any interested person.

Dated: January 8, 1973.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

V38-6 JAN 10 73 XUM

AMERICAN REVOLUTION BICENTENNIAL COMMISSION

VARIOUS ADVISORY COMMITTEES AND PANELS

Notice of Meetings

Notice is hereby given, pursuant to Executive Order 11671, that the following American Revolution Bicentennial Commission Advisory Committee and Panel Meetings will be held the month of January 1973:

PHILATELIC PANEL

The Philatelic Advisory Panel will hold an open meeting (with the exception of the agenda item asterisked below) on Thursday, January 11, 1973, in the ARBC Conference Room, 736 Jackson Place NW., Washington, DC, from 10 a.m. to 4:30 p.m. The Panel membership consists of leaders in the philatelic field and representatives of organizations such as the American Philatelic Society, Society of Philatelic Americans, American Stamp Dealers Association, etc. The agenda items to be discussed are:

Future bicentennial commemorative stamps.*
ARBC stamp show awards.
ARBC participation in stamp shows.
Bicentennial stamp publications.

COINS AND MEDALS PANEL

The Coins and Medals Advisory Panel will hold an open meeting (with the exception of the agenda item asterisked below) on Friday, January 12, 1973, in the Board Room of the National Trust for Historic Preservation, 740 Jackson Place NW., Washington, DC. The panel is composed of experts in the numismatic arts. The agenda items to be discussed are:

Coinage and currency.*
Panel organization.
Commemorative medal series.
National medal and awards medal.
U.S. Treasury 3-inch medal.

HORIZONS '76 ADVISORY GROUP

The Horizons '76 Advisory Group will hold an open meeting (with the exception of the agenda item asterisked below) on January 16, 1973, from 9:30 a.m. to 4 p.m. in Room 2010 of the New Executive Office Building, 726 Jackson Place NW., Washington, DC.

The Advisory Group membership consists of leaders in the fields of transportation, communications, health, learning, leisure, the environment, community development, citizenship, and the economy.

The agenda will include discussion of:

Development of Horizons '76 National Action Guide.
Evaluation of bicentennial cities criteria.
Discussion of program proposals.
Budget consideration.*

Dated: January 5, 1973.

HUGH A. HALL,
Acting Director, American Revolution Bicentennial Commission.

[FR Doc.73-618 Filed 1-9-73;8:45 am]

COUNCIL OF ECONOMIC ADVISERS

ADVISORY COMMITTEE ON THE ECONOMIC ROLE OF WOMEN

Notice of Closed Meeting

JANUARY 6, 1973.

Pursuant to Public Law 92-463, the Federal Advisory Committee Act, notice is hereby given that a meeting of the Advisory Committee on the Economic Role of Women will take place in Washington, D.C., on January 16, 1973.

The agenda for the meeting, which will be the Committee's first, includes the responsibilities of the Committee, a review of draft material for the 1973 Economic Report of the President, and planning the future work of the Committee.

Based on section b(5) of 5 U.S.C. 552, the meeting will not be open to public participation.

HERBERT STEIN,
Chairman.

[FR Doc.73-609 Filed 1-9-73;8:45 am]

ATOMIC ENERGY COMMISSION

[Dockets Nos. 50-295, 50-304]

COMMONWEALTH EDISON CO.

Notice and Order for Prehearing Conference

In the matter of Commonwealth Edison Co. (Zion Station, Units 1 and 2).

Take notice that pursuant to the direction of the Board at its special prehearing conference on November 17, 1972, in Zion, Ill., and as set forth in its special prehearing conference order dated December 5, 1972, and in response to the motion of the applicant herein, to which motion no other party has filed objection, the Board hereby orders that a prehearing conference will be held in this proceeding on January 25, 1973, in Chicago, Ill. This prehearing conference will commence at 10:30 a.m. local time at the following address: Everett McKinley Dirksen Building, Court Room 2119, 21st Floor, 219 South Dearborn Street, Chicago, IL 60604.

At the subject conference, the parties, by their attorneys will:

1. Report on the status of discovery,
2. Propose a date for the termination of all discovery, in view of the agreed starting date for the evidentiary hearing (April 2, 1973),
3. Submit a stipulation of the parties listing:

(a) The contentions or issues to be resolved,

(b) The contentions or issues which need not be resolved,

(c) The contentions or issues on which the parties cannot agree that they are necessary to the disposition of this proceeding, and as to which the Board is requested to rule.

The parties should be prepared to either submit written memoranda or offer brief oral argument in support of their positions regarding item 3(c) above, so as to enable the Board to make a final resolution of the specific matters in controversy.

All members of the public are entitled to attend the prehearing conference, as well as the evidentiary hearing itself.

It is so ordered.

Issued at Washington, D.C., this 3d day of January 1973.

For the Atomic Safety and Licensing Board.

THOMAS W. REILLY,
Chairman.

FEDERAL COMMUNICATIONS COMMISSION

AD HOC TASK GROUP OF DIALER DEVICES ADVISORY SUBCOMMITTEE

Notice of Public Meeting

DECEMBER 27, 1972.

In accordance with Executive Order 11671, dated June 7, 1972, announcement is made of a public meeting of the Dialer Devices Advisory Subcommittee Ad Hoc Task Group of the FCC D&A Devices Advisory Committee to be held January 10 and 11, 1973, at 195 Broadway, Room 939-B, New York, NY, 9:30 a.m. until 5 p.m.

1. *Purpose.* The purpose of the Dialer Devices Subcommittee is to prepare recommended standards and procedures for submission to the FCC, in order to permit the interconnection of dialer devices to the public switched network without the need for carrier provided connecting arrangements. The purpose of the Ad Hoc Task Group is to prepare recommended procedures for review and approval by the Dialer Devices Subcommittee.

2. *Membership.* The Task Group is chaired by H. Marcheschi and is composed of the following: R. Mosely, A. Jackson, and R. Whitefleet.

3. *Activities.* This Ad Hoc Task Group will prepare a recommended draft of procedures and enforcement to the Dialer Devices Subcommittee.

4. *Agenda.* The agenda for the January 10 and 11, 1973, meeting will be as follows:

1. Review of document previously submitted related to enforcement and procedures.
2. Review and establishment of basic elements or procedures and enforcement document.
3. Review of A.T. & T. submission of September 29, 1972.

It is suggested that those desiring more specific information, contact the Domestic Rates Division on (202) 632-6457.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-527 Filed 1-9-73;8:45 am]

ANSWERING DEVICES SUBCOMMITTEE AD HOC EDITING GROUP

Notice of Public Meeting

DECEMBER 27, 1972.

In accordance with Executive Order 11671, dated June 7, 1972, announcement is made of a public meeting of the Answering Devices Advisory Subcommittee Ad Hoc Editing Group to be held January 8, 1973 at 90 Church Street, Room 604 in New York, NY, 10 a.m. until 4:30 p.m. Those attending the meeting should check at the guard's desk and call X 7321 for sign-in clearance.

1. *Purpose.* The purpose of the Answering Devices Subcommittee is to prepare recommended standards and procedures for submission to the FCC, in order to permit the interconnection of answering devices to the public switched network without the need for carrier provided connecting arrangements. The purpose of the Ad Hoc Group is to edit the technical standards being prepared by the Answering Devices Subcommittee.

2. *Membership.* The Editing Group is chaired by F. Warden and is composed of the following: J. Rosenbaum, L. Hohmann, and R. Rivenes.

3. *Activities.* This Ad Hoc Task Group will devote itself solely to the task of editing the technical standards in conformance with the Subcommittee directions.

4. *Agenda.* The agenda for the January 8, 1973 meeting will be as follows:

1. Review of technical standards draft.
2. Editing of technical standards.
3. Schedule of next meeting.

It is suggested that those desiring more specific information, contact the Domestic Rates Division on (202) 632-6457.

NONVOICE TASK GROUP MEETING

Notice of Public Meeting

DECEMBER 21, 1972.

In accordance with Executive Order 11671, dated June 7, 1972, announcement is made of a public meeting of the Nonvoice Task Group of the PBX Advisory Committee to be held January 10 and 11, 1973. The Task Group will meet at 590 Madison Avenue, New York, NY, Room A-2d, at 10 a.m.

1. *Purposes.* The purpose of the PBX Advisory Committee is to prepare recommended standards to permit the interconnection of customer provided and maintained PBX equipment to the public switched network. The purpose of this Task Group is to prepare recommendations to the PBX Advisory Committee regarding the most practicable means by which a noncertified device may be used with a combined voice/nonbarrier PBX.

2. *Membership.* The Task Group is chaired by J. Merkel and is composed of the following: P. Bennett, M. J. Birck, G. Jahn, A. Marthens, H. A. Montgomery, G. Orelli, J. L. Wheeler. Observers include P. D. Aoust, L. K. Armstrong, L. L. Butler, J. L. Caldwell, R. B. King, R. F. Norian, J. T. Walker and W. L. Weikl.

3. *Activities.* Members and observers review existing interface criteria in some detail with the aim of identifying any additional harms which might accrue from nonvoice (noncarbon transmitter) devices. Any new criteria or need for modifications to the existing documents are highlighted.

4. *Agenda.* The agenda for the January 10 and 11 meeting will be as follows:

a. Review of report from last meeting.
b. Review of homework assignments.
c. Continued review of test standards.
d. Homework assignments.

It is suggested that those desiring more specific information, contact the Domestic Rates Division on (202) 632-6457.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[Dockets Nos. 18906, 18907; FCC 72R-398]

SOUTHERN BROADCASTING CO. AND FURNITURE CITY TELEVISION COMPANY, INC.

Applications for Hearing; Memorandum Opinion and Order Enlarging Issues

In regard applications of Southern Broadcasting Co. (WGHP-TV), High Point, N.C., Docket No. 18906, File No. BRCT-574, for renewal of broadcast license; and Furniture City Television Co., Inc., High Point, N.C., Docket No. 18907, File No. BPCT-4302, for construction permit for new television broadcast station.

1. By order, FCC 70-706 (35 FR 11277) published July 14, 1970, the Commission designated the above-captioned mutually exclusive applications for hearing on a standard comparative issue. By memorandum opinion and order, 26 FCC 2d 998, 20 RR 2d 689, released November 7, 1970, the Review Board added a promise versus performance issue against Southern Broadcasting Co. (Southern), licensee of television Station WGHP-TV in High Point, N.C.[1] The Commission redesignated the applications for hearing by order, FCC 72-147, 37 FR 4304, released March 1, 1972. Now before the Review Board is a petition to enlarge issues, filed May 30, 1972, by Furniture City Television Co., Inc. (Furniture City), requesting programing and staffing misrepresentation issues, as well as log falsification and log violation issues, against Southern.[2]

I. *Timeliness.* 2. Furniture City argues that its petition is timely filed in accordance with § 1.229(b) of the Commission's rules and regulations, although it was not filed within 15 days after publication of the redesignation order in the FEDERAL REGISTER. The petition is still timely, Furniture City argues, because the photocopies of WGHP-TV's program logs, which provide the "raw data" for the requested issues, were not received until February 22, 1972, and 3 months have been required to analyze the 15,000 pages of logs to prepare this petition. The Broadcast Bureau contends that Furniture City has not adequately explained why it has taken 3 months from the date it received Southern's logs, February 22, 1972, until May 30, 1972, the date it filed its petition. Without further explanation, the Bureau argues, "the petition must be considered untimely and summarily dismissed." In reply, Furniture City asserts that 3 months was a reasonable time to analyze and compare Southern's 15,000 pages of program logs with its 16 volumes of exhibits. At the hearing held on March 3, 1971, Furniture City asserts, Southern "required 9 months to 1 year" to examine the 15,000 pages of its own logs in order to prepare its exhibits.

3. The Review Board believes petitioner has shown good cause for the late filing of its petition with respect to the requested programing misrepresentation, log falsification, and logging rule violation issues. It does not seem unreasonable that it would take Furniture City 3 months to develop the allegations in its petition, due to the many pages and amount of detail involved in both the exhibits and the program logs. We do not believe, however, that good cause has been shown for the late filing of the staffing misrepresentation issue. Southern's assertion that it allowed petitioner to see and copy its payroll records on November 2 and 3, 1971, is uncontested by Furniture City. Petitioner's explanation for the late filing is premised on the receipt of Southern's program logs on February 22, 1972, but petitioner does not specifically mention when it received Southern's payroll and disbursement records. Furthermore, on the merits, petitioner has not alleged sufficient facts to warrant the addition of an issue. The Edgefield-Saluda Radio Co., 5 FCC 2d 148, 8 RR 2d 611 (1969). See paragraph 8, infra.

II. *Misrepresentation of programing and staffing.* 4. In support of its requested issue concerning alleged misrepresentations in Southern's programing exhibits,[3] Furniture City asserts that portions of Southern's Exhibit 102, which is a

[1] The issue reads as follows:
To determine whether Southern Broadcasting Co. failed to carry out representations made in Docket No. 13072 as to programing, staffing, studios and equipment in operation of WGHP-TV, High Point, N.C., and, if so, the effect of such conduct on the requisite and comparative qualifications of Southern Broadcasting Co., to be a Commission licensee.
The issue encompasses not only the latest license period (1966-69), but also the 1963-66 license period.

[2] Also before the Review Board are the following related pleadings: (a) Opposition, filed June 9, 1972, by Southern; (b) Broadcast Bureau's opposition, filed June 9, 1972; and (c) reply, filed June 21, 1972, by Furniture City.

[3] The exhibits in question were prepared in response to the promise versus performance issue added by the Board in 1970. See paragraph 1, supra.

V 38 - 6 JAN 10 73 XUM

month-by-month breakdown of Southern's programing for 1965 indicating types of programing and their origination (network, recorded or local live),[4] do not correspond with Southern's actual recorded logs. That is, the exhibit totals for local live programing do not correspond with the totals for the same programing in the logs, Furniture City asserts. According to petitioner, total local live public service programing for 1965 contained in the logs is 1167:46 minutes, while Southern claims in its exhibit a total of 1544:34 minutes of local live public service programing. In order to show the manner in which Southern falsely represented the content of its program logs, Furniture City states that it studied the logs for the week of April 4–10, 1965. According to Furniture City, its analysis (a copy of which is attached to the petition) shows that, contrary to Southern's exhibit showing 32:07 minutes of live public service programs, the logs reveal that only 21:13 minutes were actually logged as public service programs. Furthermore, Furniture City maintains, Southern ignored the Commission's policy stated in "Television Program Forms," 5 FCC 2d 175, 8 RR 2d 1512 (1966), and included commercials in its total times. As a corollary to the misrepresentations of program times, Furniture City argues, the log-exhibit analysis reveals that Southern changed some of its program classifications—for example, "Science All Stars", logged as "entertainment", appears in the exhibit as "educational"; "Around Town", logged as "entertainment", appears in the exhibit as "discussion". Furniture City states that it found nineteen such discrepancies. To support its request for a staffing misrepresentation issue, petitioner relies on Southern's Exhibits 134 and 135 as well as WGHP–TV's payroll records and station disbursements ledger. Exhibit 134 was submitted by Southern in response to that aspect of the promise versus performance issue that inquiries into whether Southern had carried out the staffing proposals made in its initial application. The exhibit represents WGHP–TV's staff as of "March 15, 1965"; however, according to Furniture City, seven employees claimed to be employed on March 15 cannot be found in the payroll records or in the disbursement records. Furniture City argues that this discrepancy warrants addition of a staffing misrepresentation issue.

5. In opposition, Southern argues that the subject matter of both of Furniture City's requests is encompassed in the promise versus performance issue. In this regard, Southern alleges that at a prehearing conference held on October 27, 1971, it agreed to provide Furniture City with certain logs and payroll records. Thereafter, Southern continues, on November 2 and 3, 1971, Furniture City's counsel reviewed and copied program logs for programing periods including 1963, 1965, and 1966,[5] as well as payroll records for the same periods and for periods in 1964. Hearings began on December 9, 1971, and counsel for Furniture City cross-examined Philip Lombardo, present general manager of Station WGHP–TV, on the classification question. Southern acknowledges that some programs designated one way in the exhibit were designated differently in the logs;[6] however, in Southern's opinion, exploration of these inconsistencies is more properly left for cross-examination under the promise versus performance issue. Southern states that it cannot understand why Furniture City is raising the classification question at this time when exhibits were submitted 8 months ago, cross-examination was conducted 6 months ago, and Furniture City was given all of Southern's logs 3 months ago. Next, Southern argues that it included commercial times in the programing length calculations represented in the exhibits because in its original program proposals, Southern included commercial matter, which was at that time consistent with Commission policy.[7]

6. In its opposition, the Bureau notes that Southern explained in Exhibit 102, pp. 3–4, that some logs had programs that were occasionally coded incorrectly, and as a consequence thereof Furniture City's timing calculations, based on the actual logs, would differ from Southern's calculations in its exhibits which are "corrected" to the proper code. The Bureau asserts that the coding errors are presently under consideration at the hearing and that appropriate findings and conclusions can be drawn from this evidence under present issues; therefore, no new issue is warranted. As for the requested staffing misrepresentation issue, the Bureau states that it compared Southern's payroll record and disbursement ledger with Southern's Exhibit 134 and could find no discrepancy. The Bureau claims that it cannot be determined from Furniture City's showing who the seven unreported individuals are; therefore, no staffing misrepresentation issue is warranted.[8]

7. In reply, Furniture City insists that the requested issues cannot be dealt with by cross-examination under the present issues, and that cross-examination of Southern's sole witness through which the exhibits were offered into evidence only raised the suspicion that the exhibits did not accurately reflect the logs contents. In its voir dire cross-examination, Furniture City explains, it attempted to prevent the exhibits from being received into evidence. Furniture City argues that when the exhibits were accepted into evidence, any further cross-examination into their deceptive nature was mooted; therefore, the requested issues are necessary for a more thorough examination of the licensee's candor. Furniture City argues that the program reclassification admitted to by Southern is merely a "corollary" to the misrepresentation in time amounts in WGHP–TV's claimed public service programing. The issues requested, Furniture City asserts, are aimed at the discrepancies between Southern's exhibits and its logs, and not, as the Bureau seems to argue, at promise versus performance as such. With respect to the requested staffing misrepresentation issue, Furniture City again asserts that the Bureau has misunderstood its request by pointing out that the number of employees found in the payroll records and disbursements ledger exceed the numbers found in Southern's staffing exhibit. While it is true that the total number of persons contained in the payroll records and disbursements ledger exceeds the number in the exhibits, Furniture City argues, the seven employees are listed in the exhibits but cannot be found in the payroll records or disbursements ledger. Such carelessness, Furniture City finally argues, demonstrates Southern's lack of cooperation in this proceeding.

8. The Review Board is of the opinion that Furniture City has made sufficient allegations of fact concerning Southern's program exhibits to warrant further exploration at the hearing under a separate issue. It appears from Furniture City's allegations that Southern may have inflated its live local public interest programing figures in its exhibits. According to Furniture City's figures, Southern's logs for 1965 reveal 1167:56 minutes of local live public service programing, while Southern's exhibit reveals 1544:34 minutes. This disparity of 376:88 minutes raises a serious question of whether Southern misrepresented its live public service programing to put itself in a more favorable position for securing a renewal. While we have some reservations about how Furniture City arrived at these figures, we are still persuaded to add the issue because we do not find Southern's opposition pleading to be responsive and enlightening with respect to the specific allegations raised by Furniture City. We appreciate the coding errors, Southern's candor in explaining how they occurred, and how the corrections affect the exhibits. However, Southern, in its responsive pleading, did not explain how the coding errors specifically relate to the substantial time disparity between the logs and the exhibits. On the basis of the foregoing, it appears that Southern may have misrepresented the exhibit figures. Cf. Seaboard Broadcasting Corp., 26 FCC 2d 649, 20 RR 2d 786 (1970). Finally, in addition to its untimeliness, we believe there is no merit to Furniture City's request for a staffing misrepresentation issue. Furniture City premises its request on its alleged discovery that there were seven individuals listed in Southern's exhibits who did not appear in its payroll records and disbursement ledgers. Furniture City concedes, however, that more total employees are listed in the payroll records than in Southern's exhibit for March 15, 1965. Since the promise versus performance issue seeks an explanation as to why Southern retained only a staff of 79 at the time of its 1966 renewal and a staff of 73 at the time the present application was filed, when it proposed in its initial application a staff of 92 full-time employees, it would be to Southern's advantage to list as many employees as possible in its exhibits. We believe, therefore, that Furniture City has not shown any deliberate attempt by Southern to deceive the Commission to warrant addition of a staffing misrepresentation issue.

[4] Furniture City notes that Southern selected 1965 as the best representative year to present a breakdown of its programing into a detailed and comprehensive summary to meet the promise versus performance issue.

[5] Southern explains that its program logs for 1964 had been "disposed of".

[6] In its Exhibit 102, Southern stated that: "When an incorrect coding was given to a public service program, the content of the program was analyzed, and based on its contents, the proper coding was assigned."

[7] Southern notes that the Commission's policy, Television Program Forms, supra, excluding commercial matter in computing programing length, did not take effect until October, 1966, 1 month before the license period (1963–66) ended.

[8] The Bureau notes that Furniture City's Attachment C, which is Southern's payroll and disbursement records, shows 75 permanent employees and 40 free-lance employees as of March 15, 1965, whereas Southern's Exhibit 134 shows 74 full-time and 39 part-time employees as of March 15, 1965.

III. *Log falsification.* 9. Furniture City requests a log falsification issue against Southern on the ground that during the 1963–66 license period Southern "regularly and frequently misclassified entertainment programs as public service programs."[9] Relying on the logs and Southern's exhibits, Furniture City cites the following examples of false logging:

	Logged as entertainment	Logged as public service	Classification claimed in examples
Industry on Parade.	March–April–June—1 hr. 15 min.	October–November—45 min.	Talk.
ABC's Nightlife.	August–October—70 hrs. 15 min.	March–July—146 hrs. 53 min.	Discussion.
Accent.....	May—30 min..	March–April—2 hrs. 30 min.	Discussion, talk or news.
Around Town.	January–July—152 hrs. 15 min.	August–December—145 hrs. 08 min.	Discussion.
Harvesters.	July–October—14 hrs.	November–December—6 hrs. 30 min.	Religion.
Championship Bowling.	October—1 hr.	January–April and October–December—17 hrs.	Talk.
Major League Baseball.	May–July—42 hrs. 40 min.	April, August–October—33 hrs. 50 min.	Talk.

As a result of this "false" logging, Furniture City asserts, Southern increased its total 1965 public service broadcast time by 352 hours and 36 minutes or nearly 14 percent; consequently, "on paper," Southern appears to have an adequate amount of public service programing "which could be used to dispel any challenge which might arise to renewal of its license." Thus, Furniture City argues, Southern's logging practice violates Commission rules §§ 73.669–73.674, the Commission's television logging rules.

10. In opposition, Southern argues that the cases cited by Furniture City in support of its requested log falsification issue (see note 8, supra) are inapposite. In those cases, Southern notes, the broadcaster in question had deliberately altered or falsified its logs; for example, adding more public service announcements in the logs than were actually broadcast or failure to log the number and length of commercial spots, while, in this case, "certain program classifications were changed—not in the logs but exchange exhibits." Southern also contends that the public interest will be protected if the requested issue is denied because Furniture City's allegations are and will be the subject of cross-examination at the hearing. In its opposition, the Bureau argues that a false logging issue is not warranted because Furniture City has only shown that the logs used by Southern to prepare its exhibits contained errors. Southern, the Bureau notes, has admitted that inaccuracies exist in its logs. Also, the Bureau contends, Furniture City has submitted no affidavits from individuals having personal knowledge as required by Commission rule § 1.229(b).

11. In reply, Furniture City asserts that the heart of its requested log falsification issue centers on Southern's deliberate misclassification of its programing during 1963–66. Corrections were made for the months of June, July, and August, and a sheet dated October 27, 1965, with the corrections was attached to the logs, Furniture City asserts. Petitioner queries why Southern did not also make corrections for the rest of the months in that year.

12. The Board does not believe a log falsification issue is warranted. Simply put, Furniture City has not raised a substantial question as to whether Southern intentionally and deliberately falsified its logs. Compare The Prattville Broadcasting Co., supra. KOKA Broadcasting Co., Inc., supra. Folkways Broadcasting, Inc., 23 FCC 2d 987 21 RR 2d 163 (1972).[10] We note that Rule 73.670(a)(1)(i) requires the licensee of a television station to include within its logs "an entry identifying the program by name or title" and subsection (a)(1)(iii) and (iv) of § 73.670 requires the licensee to classify each program as to "type" and as to "source" respectively. In our opinion, however, the number of errors allegedly made by Southern in logging programs under § 73.670 are not so numerous as to suggest carelessness or inattentiveness to the Commission's logging rules which would warrant the addition of the issue. We have previously denied request for issues predicated on alleged rule violations where, as here, only one rule was violated, no pattern of violation was shown, and the licensee corrected the violation (see, e.g., Harvit Broadcasting Corp., 33 FCC 2d 743, 23 RR 2d 479 (1972); Regal Broadcasting Corp., 27 FCC 2d 694, 21 RR 2d 61 (1971)),[11] and in our view, this precedent is applicable here.

IV. *Logging rule violation.* 13. In support of its request for a logging rule violation issue, Furniture City asserts that Southern failed to delineate in its logs the beginning and ending times of its "weather news" and "sports news" programs throughout the months of March, June, October, November, and December of 1965, and the months of January through April, June, and July of 1966 for both the 7 p.m. and the 11 p.m. news programs in violation of § 73.670(a)(1)(ii).[12] Therefore, petitioner, argues, an issue concerning Southern's violation of the Commission's logging rules is warranted.[13] Both the Broadcast Bureau and Southern oppose the request, noting the pertinent part of the Commission's logging Rule § 73.670(a)(1)(ii) provides that: "The program units which the licensee wishes to count separately shall then be entered underneath the entry for a longer program, with the beginning and ending time of each such unit. * * *" Southern asserts that it chose not to count weather and sports separately.

[9] Furniture City cites the following cases in support of its requested issue: Continental Broadcasting, Inc., 15 FCC 2d 120, 14 RR 2d 813, reconsideration denied 17 FCC 2d 485, 16 RR 2d 30 (1969), affirmed 142 U.S. App. D.C. 70, 439 F.2d 560, 20 RR 2d 2126 (1971), cert. denied 403 U.S. 905; KOKA Broadcasting Co., Inc., FCC 71–232, 21 RR 2d 981 (1971); The Prattville Broadcasting Co., 4 FCC 2d 555, 8 RR 2d 120 (1966).

[10] In Prattville and Folkways, there was evidence in the form of affidavits and witness' testimony which strongly suggested that the licensee intentionally and deliberately falsified the airing of certain programs which were never shown or indicating a lesser time for commercial spots than they actually ran. Furniture City has not presented any allegation of fact suggesting that Southern actually falsified in its logs the broadcast of a program which was not broadcast.

[11] Petitioner notes that Southern had attached correction sheets to its station's logs correcting certain classification of programs mis-coded. Sheets, dated Oct. 27, 1965, were attached to the logs showing corrections for the months of June, July, and August 1965. We believe the correction sheets indicate a realization by Southern of errors in its logs and a willingness to correct the errors. Granted, correction sheets do not appear for every month; however, since these sheets could have been lost or misplaced, the absence of additional corrections does not indicate anything other than that Southern attempted to correct errors in its logs.

[12] Section 73.670(a)(1)(ii) of the Commission's rules reads as follows: "(a) The following entries shall be made in the program log: (1) * * *

(ii) An entry of the time each program begins and ends. If programs are broadcast during which separately identifiable program units of a different type or source are presented, and if the licensee wishes to count such units separately, the beginning and ending time for the longer program need be entered only once for the entire program. The program units which the licensee wishes to count separately shall then be entered underneath the entry for a longer program, with the beginning and ending time for each such unit, and with the entry indented or otherwise distinguished so as to make it clear that the program unit referred to was broadcast within the longer program."

[13] Furniture City attaches to its petition Southern's program log for Oct. 7, 1965, as an illustration of the failure to delineate the beginning and ending time of its weather news and sports news programs.

V 38 - 6 JAN 10 73 XUM

Clearly Rule § 73.670(a)(1)(ii) leaves to the broadcaster's discretion whether he will indicate shorter unit programing time under longer programs in his logs.[14] Therefore, the Board finds no basis for the addition of this requested issue.

14. *Accordingly, it is ordered*, That the petition to enlarge issues, filed May 30, 1972, by Furniture City Television Co., Inc., is granted to the extent indicated below, and is denied in all other respects; and

15. *It is further ordered*, That the issues in this proceeding are enlarged to include the following issue:

To determine whether Southern Broadcasting Co. (WGHP–TV) misrepresented to the Commission material matters with respect to its programing exhibits and, if so, whether such conduct reflects on the applicant's basic or comparative qualifications.

16. *It is further ordered*, That the burden of proceeding with the introduction of the evidence under the issue herein specified shall be on Furniture City Television Co., Inc., and the burden of proof shall be on Southern Broadcasting Co. (WGHP–TV).

Adopted: December 27, 1972.

Released: January 2, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[15]

[SEAL] BEN F. WAPLE, *Secretary.*

[FR Doc.73-523 Filed 1-9-73;8:45 am]

[Docket No. 19664; FCC 72-1195]

UNITED BROADCASTING CO. OF FLORIDA, INC.

Order Designating Application for Hearing on Stated Issues and Notice of Apparent Liability

In regard application of United Broadcasting Co. of Florida, Inc., Docket No. 19664, File No. BR-4447, for renewal of license for station WFAB, Miami, Fla.

1. The Commission has before it for consideration: (a) The captioned application and (b) its inquiries into the operations of Station WFAB, Miami, Fla.

2. Information before the Commission raises serious questions as to whether the applicant possesses the qualifications to be or to remain licensee of the captioned station. In view of these questions, the Commission is unable to find that a grant of the renewal application would serve the public interest, convenience, and necessity, and must, therefore, designate the application for hearing.

3. *Accordingly, it is ordered*, That the application is designated for hearing pursuant to section 309(e) of the Communications Act of 1934, as amended, at a time and place specified in a subsequent order, upon the following issues:

(a) To determine whether, and, if so, the extent to which the applicant engaged in fraudulent billing practices in the operation of Station WFAB in violation of § 73.1205 of the Commission's rules;

(b) To determine whether, in the light of evidence adduced under the foregoing issue, the applicant possesses the requisite qualifications to remain a licensee; and

(c) To determine, in light of the evidence adduced pursuant to the foregoing issue, whether the grant of the captioned application would serve the public interest, convenience and necessity.

4. *It is further ordered*, That if it is determined that the hearing record does not warrant an order denying the captioned application for renewal of license for Station WFAB, it shall also be determined whether the applicant has willfully violated § 73.1205 of the Commission's rules,[1] and, if so, whether an order of forfeiture pursuant to section 503(b) of the Communications Act of 1934, as amended, in the amount of $10,000 or some lesser amount should be issued for violations which occurred within 1 year of the issuance of the bill of particulars in this matter.

5. *It is further ordered*, That this document constitutes a notice of apparent liability for forfeiture for violations of the Commission's rules set out in the preceding paragraph. The Commission had determined that, in every case designated for hearing involving revocation or denial of renewal of license for alleged violations which also come within the purview of section 503(b) of the Act, it shall, as a matter of course, include this forfeiture notice so as to maintain the fullest possible flexibility of action. Since the procedure is thus a routine or standard one, we stress that inclusion of this notice is not to be taken as in any way indicating what the initial or final disposition of the case should be; that judgment is, of course, to be made on the facts of each case.

6. *It is further ordered*, That in the event United Television Co., Inc., and United Broadcasting Co., Inc., are determined to be the otherwise qualified and preferred applicants in Dockets Nos. 18559 and 18562, respectively, in regard their applications for renewal of licenses of WFAN–TV and WOOK, the grant of the applications shall be withheld pending the resolution of the issue in this matter. United Television Co. of New Hampshire, Inc., United Television Co. of Eastern Maryland, Inc., and KECC Television Corp. are parties to a renewal and revocation proceeding involving, respectively, Stations WMUR–TV, WMET–TV, and KECC–TV (Dockets Nos. 19336–8). If it should be determined that the public interest would be served by allowing these licensees or applicants to operate or continue to operate these facilities, then the granting of such authority shall be withheld pending resolution of the issue in the instant proceeding. Further, in the event Friendly Broadcasting Co. (Docket No. 19412) is determined to be qualified to continue to be the licensee of Stations WJMO and WLYT(FM), the grant of the applications for renewal of the licenses shall be withheld pending resolution of the issue in this matter. The resolution of the issues in this docketed proceeding shall be binding on any other licensee commonly owned or controlled with the captioned licensee and will be res judicata as to any such other licensee.

7. *It is further ordered*, That the Chief of the Broadcast Bureau is directed to serve upon the captioned applicant within thirty (30) days of the release of this order, a bill of particulars with respect to issue (a).

8. *It is further ordered*, That the Broadcast Bureau proceed with the initial presentation of the evidence with respect to issue (a), an applicant then proceed with its evidence and have the burden of establishing that it possesses the requisite qualifications to be and to remain licensee of Station WFAB and that a grant of its application would serve the public interest, convenience, and necessity.

9. *It is further ordered*, That to avail itself of the opportunity to be heard, the applicant, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

10. *It is further ordered*, That the applicant herein, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, shall give notice of the hearing within the time and in the manner prescribed in such rule and shall advise the Commission thereof as required by § 1.594(g) of the rules.

11. *It is further ordered*, That the Secretary of the Commission send a copy of this order by certified mail—return receipt requested to United Broadcasting Co. of Florida, Inc.

Adopted: December 20, 1972.

Release: January 2, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] BEN F. WAPLE, *Secretary.*

[FR Doc.73-524 Filed 1-9-73;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CI73-436]

SOUTHWESTERN ELECTRIC POWER CO. AND CODY C. BEASLEY

Notice of Application

JANUARY 2, 1973.

Take notice that on December 18, 1972, Southwestern Electric Power Co., Post Office Box 1106, Shreveport, LA 71156, and Cody C. Beasley, 2056 East Texas Street, Bossier City, LA 71010, filed in Docket No. CI73-436 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corp. from the Elm Grove Field Area, Bossier Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants propose to sell approximately 180,000 Mcf of gas per month at 35 cents per Mcf at 15.025 p.s.i.a. for 6 months within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before January 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in the subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-356 Filed 1-9-73;8:45 am]

FEDERAL RESERVE SYSTEM

AMERICAN NATIONAL HOLDING CO.

Order Approving Acquisition of Bank

American National Holding Co., Kalamazoo, Mich., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to the American Bank of Three Rivers, N.A., Three Rivers, Mich. (Bank).

The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant presently controls one bank [1] with deposits of approximately $183 million, representing less than 1 percent of total deposits in commercial banks in Michigan, and is the 18th largest banking organization in the State. (All banking data are as of December 31, 1971, unless otherwise indicated.) Upon acquisition of Bank ($5.8 million deposits), applicant's share of State deposits would remain less than 1 percent, and applicant's ranking among the State's banking organizations would remain unchanged.

Bank, which has been closely associated with applicant through common ownership since 1968, operates both its main office and its sole branch office in Three Rivers in the St. Joseph County banking market (approximated by the boundaries of St. Joseph County) and, with approximately 5.4 percent of market deposits, is the sixth largest of nine banking organizations operating therein. Applicant's present subsidiary bank operates a branch office in the relevant market at Mendon, approximately 13 miles northeast of Bank's two offices in Three Rivers. Based on June 30, 1970 deposit data, applicant, by virtue of the deposits in the Mendon office held approximately 2.8 percent of commercial bank deposits in the market, thereby ranking as the eighth largest of the nine banking organizations in the market. Consummation of the proposed transaction would give applicant control of 8.2 percent of deposits in the market thus making applicant the fifth largest of eight banking organizations in a market in which approximately 70 percent of the total deposits are held by the three largest banking organizations.

Bank derives an insignificant portion of its deposits and loans from areas served by applicant's present or proposed banking subsidiaries. Similarly, those banks derive only an insignificant portion of their deposits and loans from the service area of Bank. It appears, therefore, that no significant competition between Bank and applicant's present or proposed subsidiary banks would be eliminated as a result of consummation of applicant's proposal.

In addition, Michigan branching law effectively prohibits applicant's subsidiary bank and Bank from branching into each other's service areas, except at locations which appear unattractive as sites for branch offices. For the same reason, it appears unlikely that Bank and applicant's proposed subsidiary banks could or would establish branch offices in competition with one another irrespective of Bank's longstanding affiliation with applicant. Further, Bank does not appear to be such a significant competitor that applicant should be expected to enter the St. Joseph market through a less significant acquisition or by de novo means, nor does Bank possess the resources to be considered a potential lead bank in a new bank holding company. The Board concludes therefore that it is unlikely that any significant competition would develop between any of applicant's present or proposed subsidiaries and Bank in the future. On the basis of the facts of record, the Board concludes that consummation of the proposed acquisition would have no significant adverse effects on existing competition, nor would it foreclose the development of significant competition.

The financial condition, managerial resources, and prospects of applicant are considered satisfactory and consistent with approval of the application. The same conclusions apply with respect to applicant's present subsidiary particularly in view of applicant's recent contribution of $2½ million to the equity account of that bank. The financial condition, managerial resources, and future prospects of Bank appear favorable. Considerations relating to banking factors, therefore, are regarded as consistent with approval of the application. Applicant does not intend to introduce any services at Bank not presently available in the community; however, considerations relating to the convenience and needs of the communities to be served are consistent with approval of the application. It is the Board's judgment that consummation of the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above.[2] The transaction shall not be consummated (a) before January

[14] We note that no provision of the television logging rules would require the licensee, once he has indicated shorter unit programming times under longer programs in his logs, to thereafter always so indicate his programing.

[15] Board member Berkemeyer would add a log falsification issue. Board member Kessler absent.

[1] See bill of particulars for specific dates and details of each alleged violation.

[1] Commissioner Hooks dissenting.

[1] By order dated December 5, 1972, the Board approved applicant's application to acquire shares of a second bank, the successor by merger to the Niles National Bank and Trust Co., Niles, Mich. Also, by separate order issued today, the Board approved applicant's application to acquire shares of the American National Bank in Portage, Portage, Mich.

25, 1973, or (b) later than March 26, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[2] effective December 26, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-480 Filed 1-9-73;8:45 am]

BANCOHIO CORP.

Order Approving Acquisition of Bank

BancOhio Corp., Columbus, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of the Capital National Bank, Cleveland, Ohio (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest banking organization in Ohio, is the 36th largest of 37 banking organizations in the Cleveland banking market (approximated by Cuyahoga, Geauga, Lake, and portions of Summit, Portage, Lorain, and Medina Counties) with one branch office of one of its subsidiary banks controlling less than 0.05 percent of deposits of commercial banks in that market. (All banking data are as of December 31, 1971, except market deposit data which are as of June 30, 1970.)

Bank ($101.4 million of deposits) is the tenth largest, based on market deposits, of 37 banking organizations in the Cleveland banking market and controls 1.2 percent of total deposits of commercial banks in that area. The nearest office of applicant's banking subsidiaries to Bank's offices is located approximately 10 miles from a branch of Bank. However, due to the number of branches of the larger Cleveland banks in the intervening area and since neither bank derives a significant amount of business from the service area of the other, it appears that no meaningful competition exists between any of applicant's subsidiary banks and Bank; and in view of the distances involved and the Ohio law restricting branch banking within county lines, significant competition between Bank and any of applicant's subsidiary banks is unlikely to develop.

Although applicant is considered one of the most likely potential entrants into the Cleveland banking market, Bank's market share is considered insubstantial and Bank's deposits have not demonstrated consistent growth recently, its growth rate, in any case, being less than that of smaller banks in the market. The proposed transaction therefore appears to represent a foothold acquisition by applicant. Moreover, acquisition of Bank by applicant should have a substantial beneficial effect on competition among commercial banks in the Cleveland market in which the four largest banking organizations account for approximately 76 percent of the deposits. The proposed acquisition should enable Bank to strengthen its role as a competitor in the market particularly for consumer business by permitting it to draw needed financial, technical, and management resource strength from applicant. The Board concludes that consummation of the proposed transaction will not have an adverse effect on competition in any relevant area and may, in fact, serve to stimulate competition among commercial banks in the Cleveland banking market.

The financial condition and managerial resources of applicant and its subsidiaries appear satisfactory and future prospects appear favorable. The managerial resources of Bank appear good, as do its financial condition and future prospects particularly in view of applicant's stated intention to inject $2 million in the equity capital account of Bank upon consummation of the proposed transaction.

The major banking needs of the residents of the Cleveland area appear to be adequately served at the present time by existing institutions. However, applicant's entry into the Cleveland area through acquisition of Bank should benefit individual consumers by enabling Bank to become a significant alternative source of such consumer banking services as mortgage and installment loans. Considerations relating to the convenience and needs of the residents of the Cleveland area are consistent with and lend some weight toward approval of the application. It is the Board's judgment that consummation of the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before February 1, 1973, or (b) later than April 2, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[1] effective January 2, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Governor Bucher.

BANCOHIO CORP.

Order Approving Acquisition of Bank

BancOhio Corp., Columbus, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to the Peoples Savings Bank Co., Delta, Ohio (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest banking organization and the largest multi-bank holding company in Ohio, controls 32 banks[1] with deposits totaling approximately $1.9 billion, representing 7.8 percent of the commercial banking deposits in the State. (All banking data are as of June 30, 1972, and reflect holding company formations and acquisitions approved by the Board through Sept. 25, 1972.)

Bank ($9.7 million in deposits), the fourth largest of eight banks in Fulton County (which approximates the relevant banking market), controls 11.4 percent of the county deposits. The largest bank in the county, the Farmers & Merchants State Bank, Archbold, Ohio, controls approximately 32 percent of all deposits in the county. Therefore, Applicant's acquisition of Bank would not result in Applicant's gaining a dominant share of Fulton County banking resources.

Applicant's closest subsidiary to Bank is located 20 miles away. There is no meaningful competition between any of Applicant's subsidiary banks and Bank, nor does it appear likely that such competition will develop in the future in the light of the facts presented, notably the distances separating Bank from Applicant's subsidiaries, the number of intervening banks and Ohio's restrictive branching law. Consummation of the proposal would not appear to have an adverse effect on any competing bank. Accordingly, the Board concludes that competitive considerations are consistent with approval.

The financial and managerial resources and future prospects of Bank, and of Applicant and its present subsidiaries, are regarded as satisfactory and, accordingly, considerations relating to the banking factors are consistent with approval. Applicant proposes to assist Bank in arranging loan participation which should enable Bank to undertake loans far in excess of its current lending limit, and to make the extensive expertise of its staff available to Bank. Considerations relating to the convenience and needs of the community to be served are consistent with approval. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before February 1, 1973, or (b) later than April 2, 1973, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[2] effective January 2, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-472 Filed 1-9-73;8:45 am]

[1] Applicant has also submitted applications to acquire the Western Security Bank, Sandusky, Ohio (deposits of $44.5 million, or 0.19 percent of total State deposits) and the Capital National Bank, Cleveland, Ohio (deposits of $101.4 million, or 0.42 percent of total State deposits).

BANCOHIO CORP.

Order Approving Acquisition of Bank

BancOhio Corp., Columbus, Ohio, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to the Western Security Bank, Sandusky, Ohio (Bank).

The bank into which Bank will be merged has no significance except as a means of acquiring the voting shares of Bank. Accordingly, the proposed acquisition of the successor organization is treated as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 32 banks with aggregate deposits of approximately $1.9 billion. (All banking data are as of Dec. 31, 1971, and reflect bank holding company formations and acquisitions approved by the Board through Nov. 15, 1972.) Based on its percentage share of total commercial bank deposits in the market, Bank is the third largest of the 12 banking organizations in the Sandusky banking market (approximated by Erie County, the northern portion of Huron County, the eastern portion of Ottawa County and the northeast corner of Sandusky County) and holds 12.9 percent of total deposits held by the commercial banks located in that market. No banking subsidiary of Applicant is located in the market, and the closest banking subsidiary of Applicant is located some 37 miles southwest of Sandusky. There is no substantial existing competition between Applicant's present banking subsidiaries and Bank; and, for several reasons, including the distances involved, the presence of banking alternatives in the intervening areas, and Ohio's prohibition against branch banking beyond county lines, there is no substantial likelihood of future competition developing between those subsidiaries and Bank. On the basis of the record before it, the Board concludes that consummation of the proposed acquisition would not adversely affect competition in any relevant area.

Considerations relating to the financial and managerial resources and future prospects of Applicant and its subsidiaries and Bank are regarded as satisfactory. Applicant proposes to provide, through Bank, trust services—presently unavailable in Sandusky—and to aid Bank in starting international and leasing services. Convenience and needs considerations relating to the communities to be served are consistent with approval. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before January 26, 1973, or (b) later than March 27, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Minneapolis pursuant to delegated authority.

By order of the Board of Governors,[1] effective December 27, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-473 Filed 1-9-73;8:45 am]

DELTA BANK

Order Approving Application for Merger of Banks

The Delta Bank, Delta, Ohio, a proposed State member bank of the Federal Reserve System, has applied for the Board's approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) of the merger of that bank with the Peoples Savings Bank Co., Delta, Ohio, under the name of the Peoples Savings Bank Co.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered the application in light of the factors set forth in the Act.

On the basis of the record, the application is approved for the reasons summarized in the Board's order of this date relating to the application of BancOhio Corp. to acquire the successor by merger to the Peoples Savings Bank Co.: *Provided*, That said merger shall not be consummated: (a) Before February 1, 1973, or (b) later than April 2, 1973, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[1] effective January 2, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

HOUSTON NATIONAL CO.

"Grandfather Privileges"

There appeared in the FEDERAL REGISTER of October 19, 1972, a notice that the Board would be reviewing, pursuant to section 4(a)(2) of the Bank Holding Company Act (12 U.S.C. 1843), the nonbanking activities of Houston National Co., Houston, Tex., that the company engaged in on, and continuously since, June 30, 1968 (37 FR 22414). A footnote in that notice explained that Houston National Co. based its claim to "grandfather privileges" with respect to the listed activities on its alleged status as a "successor" corporation, and that the Board had not yet made a determination with respect to that claim.

The Board has recently considered the above-described claim and, on the basis of the evidence presented, has rejected it. The Board regards Houston National Co. as being neither a "successor" nor a "company covered in 1970" as those terms are defined in section 2 of the Act (12 U.S.C. 1841). No grandfather privileges under the proviso in section 4(a)(2) of the Act accrue to Houston National Co.

Board of Governors of the Federal Reserve System, January 2, 1973.

V 38 - 6 JAN 10 73 XUM

Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to the First National Bank of Eagle Pass, Eagle Pass, Tex. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 30, 1973.

Board of Governors of the Federal Reserve System, January 3, 1973.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.73-479 Filed 1-9-73;8:45 am]

SANDUSKY SECURITY BANK

Order Approving Merger Under Bank Merger Act

The Sandusky Security Bank, Sandusky, Ohio (Applicant), a proposed State member bank of the Federal Reserve System, has applied pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) for the Board's prior approval to merge with the Western Security Bank, Sandusky, Ohio, under the charter of Applicant and the name of the Western Security Bank and to operate branches at the locations at which the Western Security Bank presently operates branch offices.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered all relevant material contained in the record in the light of the factors set forth in the Act.

On the basis of the record, the application is approved for the reasons summarized in the Board's order of this date relating to the application of BancOhio Corp., Columbus, Ohio, to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to the Western Security Bank, Sandusky, Ohio. The transaction shall not be consummated: (a) Before January 26, 1973, or (b) later than March 27, 1973, and (c) the Sandusky Security Bank, Sandusky, Ohio, shall be opened for business not later than June 27, 1973. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[1] effective December 27, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-476 Filed 1-9-73;8:45 am]

TENNESSEE HOMESTEAD CO.

Order Approving Acquisition of Bank Shares

Tennessee Homestead Co., Ogden, Utah (THC), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to consolidate Budget Finance Co., Jonathan Edmund Browning Corp., and Frank M. Browning, Inc. (Subsidiaries) into THC and thereby to acquire direct ownership of additional shares of Bank of Utah and Bank of Ben Lomond, both of Ogden, Utah, which additional shares are presently indirectly held by THC through the Subsidiaries.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant presently controls one bank (Bank of Utah, Ogden, Utah) with deposits of about $32 million.[2] This bank is controlled by THC through its direct ownership of approximately 16.8 percent of the voting stock of Bank of Utah and through the Subsidiaries, which together own an additional 36 percent of the shares of Bank of Utah. THC also directly holds 6.20 percent of the shares of Bank of Ben Lomond, Ogden, Utah, with deposits of approximately $7 million. The Subsidiaries together hold an additional 12.31 percent of the shares of that bank. The proposal by THC to merge Subsidiaries into itself is essentially a corporate reorganization and would have no effect on existing or future competition. The Board concludes that competitive considerations are consistent with approval of the applications.

The financial and managerial resources and future prospects of Applicant and its subsidiary bank are generally satisfactory and consistent with approval of the applications. Considerations relating to the convenience and needs of the communities to be served are also consistent with approval of the applications. The Board finds that the proposed applications are consistent with the public interest and should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transactions shall not be consummated (a) before January 26, 1973, or (b) later than March 27, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of San Francisco pursuant to delegated authority.

By order of the Board of Governors,[3] effective December 27, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-477 Filed 1-9-73;8:45 am]

WELLS FARGO & CO.

Order Approving Acquisition of Grayco Land Escrow, Ltd.

Wells Fargo & Co., San Francisco, Calif., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y to acquire all of the voting shares of Grayco Land Escrow, Ltd., Pasadena, Calif. (Grayco), a company that engages in the activities of acting as a trustee under subdivision trust agreements and providing to real estate developers and lot purchasers a computerized accounting and collection system. Such activities have been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(4) and (8)(ii)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 FR 18121). The time for filing comments and views has expired, and none has been timely received.

Applicant, a one-bank holding company, controls Wells Fargo Bank, National Association, San Francisco, Calif. (Bank), the third largest bank in California with domestic deposits of $5.4 billion as of December 31, 1971, representing 8.8 percent of total commercial bank deposits in the State. In Los Angeles County, where a substantial number of Grayco's customers are located, Bank holds but 0.9 percent of the county-wide commercial bank deposits. Applicant also has nonbanking subsidiaries engaged principally in management of a real estate investment trust and in providing equipment lease financing and data processing services.

Grayco is a small, family-owned business,[4] engaged in providing an accounting, collection, and fiduciary service for developers and purchasers of lots in real estate subdivisions (all in the State of California). Its data processing activities consist of furnishing reports to developers and lot purchasers containing detailed information on accounts receivable, commissions payable, and other financial data concerning real estate sales. In addition, Grayco is licensed under California law as an escrow company and serves as trustee in the sale of subdivided land under regulations of the California Real Estate Commissioner. In its fiduciary capacity, Grayco holds legal title to and executes sales contracts covering unimproved subdivision lots. Additionally, Grayco receives and disburses installment payments from contract vendees, ultimately conveying title upon fulfillment of all contract terms. Grayco does not search or insure real estate titles nor does it engage in property management, development or consulting. Its fiduciary activities are those performed or carried on by a trust company under California law.

The relevant product market in which Applicant and Grayco may compete with each other may be broadly defined as land escrow services, comprising the total package of fiduciary, collection, and data processing services provided both developers and purchasers of real property. As such services are necessarily restricted by State law, the Board concludes that the relevant geographic market in this case is the entire State of California. Neither Applicant nor any of its subsidiaries are currently engaged in providing land escrow services in California, although Bank does act as trustee, under a subdivision trust agreement, for one customer in the State of Illinois. Bank has both the financial resources and managerial capability to offer similar services in California.

Grayco is one of approximately 15 firms that offer land escrow services in California. In addition, there are a large number of firms, including data processors and title companies, that offer one of the services associated with the package of land escrow services. Moreover, there are an even greater number of other potential entrants with similar capabilities since the barriers to providing land escrow services are relatively low. The Board therefore concludes that consummation of the proposal herein would foreclose no existing competition and that the adverse effect upon potential competition would not be significant.

There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, unsound banking practices or other adverse effects on the public interest. It is anticipated that Grayco's affiliation with Applicant will provide it with the financial and managerial resources that will enable it to compete more effectively with other land escrow firms and to improve as well as broaden the services presently offered.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[5] effective January 2, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

NATIONAL ENDOWMENT FOR THE ARTS

ADVISORY COMMITTEES

Public Disclosure of Information and Activities

The National Endowment for the Arts utilizes advice and recommendations of advisory committees, including the National Council on the Arts, in carrying out many of its functions and activities.

The Federal Advisory Committee Act (Public Law 92-463) governs the formation, use, conduct, management, and accessibility to the public of committees formed to advise and assist the Federal Government. Section 10 of the Act specifies that department and agency heads shall make adequate provisions for participation by the public in the activities of advisory committees, except to the extent a determination is made in writing by the department or agency head that committee activities are matters which fall within policies analogous to those recognized in the Freedom of Information Act, section 552(b) of title 5 of the United States Code, and the public interest requires such activities to be withheld from disclosure.

In administering the Freedom of Information Act, the Endowment's policy is to make fullest possible disclosure of records to the public, limited only by obligations of confidentiality and administrative necessity. Consistent with this policy, the Endowment will open to the public as many advisory committee meetings as possible.

Committees while engaged in the review, discussion, evaluation, and/or ranking of grant applications and contract proposals, or in evaluation of grantee and contractor performance, should not, however, be required to hold open meetings. The Endowment, grant applicants, and persons submitting contract proposals have long and customarily treated as confidential information submitted in support of grant applications and contract proposals. Information and data are furnished to the Endowment with assurance they will be treated on a confidential basis and not disclosed to the public. This information may include such matters as details relating to the type or design of work to be performed, adequacy of the applicant's facilities, competence of the applicant's or contractor's staff, proposed budget, and other material which would not otherwise be disclosed.

In addition, to operate most effectively, the grant and contract review and evaluation process requires that members of committees considering such matters be free to engage in full and frank discussion. If the process were not to continue on a confidential basis, grant applicants and potential contractors would not supply sufficiently detailed information so essential for complete and effective review.

Grant applications, contract proposals, and detailed records of deliberations of the committees reviewing them are presently exempt from mandatory disclosure under the Freedom of Information Act.

When an advisory committee considers, discusses, and formulates its advice, conclusions or report, effective functioning of a committee requires that its members have an opportunity to express their individual views and judgments to each other without the presence of the public in arriving at the views and judgments of the committee.

In the interest of meeting our obligations of confidentiality of matters submitted as part of grant applications and contract proposals and encouraging candid expression of opinion concerning the merits of grant applications and contract proposals and the evaluation of grantee and contractor performance, so vital to the review process, and in the interest of assuring committee members necessary opportunity to express their views and judgments to each other in the process of formulating advice to the chairman of the Endowment on matters of Endowment policy:

It is hereby determined in accordance with the provisions of section 10(d) of the Act:

(1) The confidentiality required for grant applications and contract proposals, and evaluations and for the free discussion thereof as outlined herein is analogous to the policies recognized in the Freedom of Information Act, section 552(b) of title 5 of the United States Code, and in particular, subsections 552(b)(4), (5), and (6);

(2) The public interest requires such matters not be disclosed so the Endowment may continue to receive information and advice necessary to appropriate decisions with respect to grant and contract matters; and

(3) The public interest also requires that there be closed to the public meetings or portions thereof held for the sole purpose of considering and formulating advice which the committee will

[2] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Governor Bucher.

V 38 6 JAN 10 73 XUM

give or any report it will render and involving exclusively the internal expression of views and judgments of the members, which if reduced to writing would be exempt as internal memoranda from mandatory disclosure under section 3(e)(5) of the Freedom of Information Act (5 USC 552(b)(5)).

Therefore, meetings or portions thereof, of all Endowment advisory committees, including the National Council on the Arts devoted to review, discussion, evaluation, and/or ranking of grant applications, contract proposals, or performance by grantees and contractors or the formulation of advice shall not be open to the public.

The Executive Secretary of each such committee shall prepare a summary of any meeting or portion thereof not open to the public within three (3) business days following the conclusion of the meeting of the National Council on the Arts next following such meeting. Such summaries shall be consistent with the considerations which justified the closing of the meeting.

All other advisory committee meetings shall be open to the public unless the chairman of the National Endowment for the Arts or his designee determines otherwise in accordance with Section 10(d) of the Act.

The Advisory Committee Management Officer shall be responsible for publication in the FEDERAL REGISTER or as appropriate in local media, of a notice of all advisory committee meetings. Such notice shall be published in advance of the meeting and contain:

(1) Name of the committee and its purpose;

(2) Date, and time of the meeting, and, if the meeting is to be open to the public, its location and agenda; and

(3) A statement that the meeting is open to the public, or, if the meeting or any portion thereof is not to be open to the public, a statement to that effect.

The Advisory Committee Management Officer is designated as the person from whom rosters of committee members may be obtained and from whom minutes of meetings may be requested, if available.

Subject to the availability of space any interested persons may attend, as observers, meetings, or portions thereof, of advisory committees which are open to the public.

Members of the public attending a meeting will be permitted to participate in the committee's discussion at the discretion of the chairman of the committee, if the chairman is a full-time Federal employee; if the chairman is not a full-time Federal employee, then public participation, will be permitted at the chairman's discretion with the approval of the full-time Federal employee in attendance at the meeting in compliance with the order.

NANCY HANKS,
Chairman,
National Endowment for the Arts.

DECEMBER 1972.

NATIONAL ENDOWMENT FOR THE HUMANITIES

ADVISORY COMMITTEES

Public Disclosure of Information and Activities

The National Endowment for the Humanities utilizes advice and recommendations of advisory committees, including the National Council on the Humanities, in carrying out many of its functions and activities.

The Federal Advisory Committee Act (Public Law 92-463) governs the formation, use, conduct, management, and accessibility to the public of committees formed to advise and assist the Federal Government. Section 10 of the Act specifies that department and agency heads shall make adequate provisions for participation by the public in the activities of advisory committees, except to the extent a determination is made in writing by the department or agency head that committee activities are matters which fall within policies analogous to those recognized in the Freedom of Information Act, section 552(b) of title 5 of the United States Code, and the public interest requires such activities to be withheld from disclosure.

In administering the Freedom of Information Act, the Endowment's policy is to make fullest possible disclosure of records to the public, limited only by obligations of confidentiality and administrative necessity. Consistent with this policy, the Endowment will open to the public as many advisory committee meetings as possible.

Committees while engaged in the review, discussion, evaluation, and/or ranking of grant applications and contract proposals, or in evaluation of grantee and contractor performance, should not, however, be required to hold open meetings. The Endowment, grant applicants, and persons submitting contract proposals have long and customarily treated as confidential information submitted in support of grant applications and contract proposals. Information and data are furnished to the Endowment with assurance they will be treated on a confidential basis and not disclosed to the public. This information may include such matters as details relating to the type or design of work to be performed, adequacy of the applicant's facilities, competence of the applicant's or contractor's staff, proposed budget, and other material which would not otherwise be disclosed.

In addition, to operate most effectively, the grant and contract review and evaluation process requires that members of committees considering such matters be free to engage in full and frank discussion. If the process were not to continue on a confidential basis, grant applicants and potential contractors would not supply sufficiently detailed information so essential for complete and effective review.

Grant applications, contract proposals, and detailed records of deliberations of the committees reviewing them are presently exempt from mandatory disclosure under the Freedom of Information Act.

When an advisory committee considers, discusses, and formulates its advice, conclusions, or report, effective functioning of a committee requires that its members have an opportunity to express their individual views and judgments to each other without the presence of the public in arriving at the views and judgments of the committee.

In the interest of meeting our obligations of confidentiality of matters submitted as part of grant applications and contract proposals and encouraging candid expression of opinion concerning the merits of grant applications and contract proposals and the evaluation of grantee and contractor performance, so vital to the review process, and in the interest of assuring committee members necessary opportunity to express their views and judgments to each other in the process of formulating advice to the Chairman of the Endowment on matters of Endowment policy:

It is hereby determined in accordance with the provisions of section 10(d) of the Act:

(1) The confidentiality required for grant applications and contract proposals, and evaluations and for the free discussion thereof as outlined herein is analogous to the policies recognized in the Freedom of Information Act, section 552(b) of title 5 of the United States Code, and in particular, subsections 552 (b) (4), (5), and (6);

(2) The public interest requires such matters not be disclosed so the Endowment may continue to receive information and advice necessary to appropriate decisions with respect to grant and contract matters; and

(3) The public interest also requires that there be closed to the public meetings or portions thereof held for the sole purpose of considering and formulating advice which the committee will give or any report it will render and involving exclusively the internal expression of views and judgments of the members, which if reduced to writing would be exempt as internal memoranda from mandatory disclosure under section 3(e)(5) of the Freedom of Information Act (5 U.S.C. 552(b)(5)).

Therefore, meetings or portions thereof, of all Endowment advisory committees, including the National Council on the Humanities, devoted to review, discussion, evaluation, and/or ranking of grant applications, contract proposals, or performance by grantees and contractors or the formulation of advice shall not be open to the public.

The Executive Secretary of each such committee shall prepare a summary of any meeting or portion thereof not open to the public within three (3) business days following the conclusion of the meeting of the National Council on the Humanities next following such meeting. Such summaries shall be consistent

with the considerations which justified the closing of the meeting.

All other advisory committee meetings shall be open to the public unless the Chairman of the National Endowment for the Humanities or his designee determines otherwise in accordance with section 10(d) of the Act.

The Advisory Committee Management Officer shall be responsible for publication in the FEDERAL REGISTER or as appropriate in local media, of a notice of all advisory committee meetings. Such notice shall be published in advance of the meeting and contain:

(1) Name of the committee and its purpose;

(2) Date, and time of the meeting, and, if the meeting is to be open to the public, its location and agenda; and

(3) A statement that the meeting is open to the public, or, if the meeting or any portion thereof is not to be open to the public, a statement to that effect.

The Advisory Committee Management Officer is designated as the person from whom rosters of committee members may be obtained and from whom minutes of meetings may be requested, if available.

Subject to the availability of space any interested persons may attend, as observers, meetings, or portions thereof, of advisory committees which are open to the public.

Members of the public attending a meeting will be permitted to participate in the committee's discussion at the discretion of the Chairman of the committee, if the Chairman is a full-time Federal employee; if the Chairman is not a full-time Federal employee, then public participation will be permitted at the Chairman's discretion with the approval of the full-time Federal employee in attendance at the meeting in compliance with the order.

DAINTY MAID FOOTWEAR, INC.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of Dainty Maid Footwear, Inc., Gettysburg, Pa., the U.S. Tariff Commission, on January 5, 1973, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women (of the types provided for in items 700.43, 700.45, and 700.55 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed by January 22, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: January 5, 1973.

By order of the Commission.

[22-30]

NONFAT DRY MILK

Notice of Investigation and Date of Hearing

At the request of the President (reproduced herein), the U.S. Tariff Commission, on the 4th day of January 1973, instituted an investigation under subsection (d) of section 22 of the Agricultural Adjustment Act, as amended (7 U.S.C. 624), to determine whether 25 million pounds of nonfat dry milk described in item 115.50 of the Tariff Schedules of the United States (TSUS) may be imported into the United States during the period beginning December 30, 1972, and ending February 15, 1973, in addition to the quota-quantity specified for such article under TSUS item 950.02, without rendering or tending to render ineffective, or materially interfering with, the price support program now conducted by the Department of Agriculture for milk, or reducing substantially the amount of products processed in the United States from domestic milk.

The text of the President's letter of December 30, 1972, to the Commission follows:

Pursuant to section 22 of the Agricultural Adjustment Act, as amended, I have been advised by the Secretary of Agriculture, and I agree with him that there is reason to believe that additional quantities of nonfat dried milk may be imported for a temporary period without rendering or tending to render ineffective, or materially interfering with, the price support program for milk now conducted by the Department of Agriculture, or reducing substantially the amount of products processed in the United States from domestic milk.

Specifically, reference is made to the following article presently subject to section 22 quantitative limitations under item 950.02 of the Tariff Schedules of the United States:

Dried milk, provided for in part 4 of schedule 1 of the Tariff Schedules of the United States Annotated (1972), described in item 115.50 (dried milk, other than buttermilk, containing not over 3 percent of butterfat).

The Secretary has also advised me, pursuant to section 22(b) of the Agricultural Adjustment Act, as amended, that a condition exists requiring emergency treatment with respect to nonfat dried milk and has therefore recommended that I take immediate action under section 22(b) to authorize the importation of 25 million pounds during a temporary period ending February 15, 1973. I have therefore this day issued a proclamation establishing a special temporary quota of 25 million pounds to be effective through February 15, 1973. This quota is in addition to the existing quota of 1,807,000 pounds per annum previously proclaimed under the section 22 authority.

The U.S. Tariff Commission is therefore directed to make an investigation under section 22 of the Agricultural Adjustment Act, as amended, to determine whether the above-described article may be imported in the amount and for the period specified above without rendering or tending to render ineffective, or materially interfering with, the price support program now conducted by the Department of Agriculture for milk, or reducing substantially the amount of products processed in the United States from domestic milk, and to report its findings and recommendations at the earliest practicable date.

Sincerely,

(Signed) RICHARD NIXON.

Hearing. A public hearing in connection with this investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, Eighth and E Streets NW., Washington, D.C., beginning at 9:30 a.m. e.s.t., on January 15 and 16, 1973. All parties will be given opportunity to be present, to produce evidence, and to be heard at such hearing. Interested parties desiring to appear at the public hearing should notify the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., at least by the close of business on January 11, 1973. The notification should indicate the name, address, telephone number, and organization of the person filing the request, and the name and organization of the witnesses who will testify.

Because of the limited time available, the Commission reserves the right to limit the time assigned to witnesses. Questioning of witnesses will be limited to members of the Commission and officials of the Department of Agriculture.

Written submissions. Interested parties may submit written statements of information and views, in lieu of their appearance at the public hearing, or they may supplement their oral testimony by written statements of any desired length. In order to be assured of consideration, all written statements should be submitted at the earliest practicable date, but not later than the close of business on January 19, 1973.

With respect to any of the aforementioned written submissions, interested parties should furnish a signed original and nineteen (19) true copies. Business data to be treated as business confidential shall be submitted on separate sheets, each clearly marked at the top "Business Confidential," as provided for in § 201.6 of the Commission's rules of practice and procedure.

Issued: January 5, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

[FR Doc.73-541 Filed 1-9-73;8:45 am]

DEPARTMENT OF LABOR

Office of the Secretary

WISE SHOE CO.

Investigation Regarding Certification of Eligibility of Workers To Apply for Adjustment Assistance

The Department of Labor has received a Tariff Commission report containing an affirmative finding under section 301(c)(2) of the Trade Expansion Act of 1962, with respect to its investigation of a petition for determination of eligibility to apply for adjustment assistance filed on behalf of workers of Wise Shoe Co., Exeter, N.H. (TEA-W-161). In view of the report and the responsibilities delegated to the Secretary of Labor under section 8 of Executive Order 11075 (28 FR 473), the Acting Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, has instituted an investigation, as provided in 29 CFR 90.5 and this notice. The investigation relates to the determination of whether any of the group of workers covered by the Tariff Commission report should be certified as eligible to apply for adjustment assistance, provided for under Title III, Chapter 3, of the Trade Expansion Act of 1962, including the determination of related subsidiary subjects and matters, such as the date unemployment or underemployment began or threatened to begin and the subdivision of the firm involved to be specified in any certification to be made, as more specifically provided in Subpart B of 29 CFR Part 90.

Interested persons should submit written data, views, or arguments relating to the subjects of investigation to the Acting Director, Office of Foreign Economic Policy, U.S. Department of Labor, Washington, D.C. on or before January 20, 1973.

Signed at Washington, D.C. this 3d day of January 1973.

MARVIN M. FOOKS, *Acting Director, Office of Foreign Economic Policy.*

[FR Doc.73-533 Filed 1-9-73;8:45 am]

FOURTH SECTION APPLICATIONS FOR RELIEF

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed by January 25, 1973. FSA No. 42596—*Processed Clay to Pryor, Okla.* Filed by M. B. Hart, Jr., Agent (No. A6331), for interested rail carriers. Rates on clay, processed, in carloads, as described in the application, from Toomsboro, Ga., and points subject thereto, in tariff referenced in the application, to Pryor, Okla. Grounds for relief: Rate relationship. Tariff: Supplement 25 to Southern Freight Association, Agent, tariff ICC S-973. Rates are published to become effective on February 8, 1973.

FSA No. 42597—*Joint Water-Rail Container Rates—Kawasaki Kisen Kaisha, Ltd.* Filed by Kawasaki Kisen Kaisha, Ltd., (No. 6), for itself and interested rail carriers. Rates on general commodities, between ports in Macao, Portuguese Colony, on the one hand, and rail stations on the U.S. Atlantic and Gulf Seaboard, on the other. Grounds for relief: Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 1]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JANUARY 5, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed devation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

V38-6 JAN 10 73 XUM

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC-109780 (Deviation No. 43), CONTINENTAL TRAILWAYS, INC., 300 South Broadway Avenue, Wichita, KS 67201, filed December 22, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers*, in the same vehicle with passengers, over deviation routes as follows: (1) from Wichita, Kans., over Interstate Highway 35–W and access roads to Newton, Kans., (2) from Newton, Kans., over Interstate Highway 35–W and access roads to McPherson, Kans., (3) from McPherson, Kans., over Interstate Highway 35–W and access roads to Lindsborg, Kans., (4) from Lindsborg, Kans., over Interstate Highway 35–W and access roads to Salina, Kans., and (5) from Salina, Kans., over Interstate Highway 35–W and access roads to junction U.S. Highway 81, located approximately 2 miles east of Minneapolis, Kans., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: from Lincoln, Nebr., over U.S. Highway 6 to junction unnumbered highway near Dorchester, Nebr., thence over unnumbered highway to Dorchester, Nebr., thence return over unnumbered highway to junction U.S. Highway 6, thence over U.S. Highway 6 to junction U.S. Highway 81, thence over U.S. Highway 81 via Salina, McPherson, Newton, Wichita, and Wellington, Kans., to South Haven, Kans., and return over the same route.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 1]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JANUARY 5, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-69116 (Deviation No. 43), SPECTOR FREIGHT SYSTEM, INC., 205 West Wacker Drive, Chicago, IL 60606, filed December 27, 1972. Carrier's representative: Leonard R. Kofkin, 39 South La Salle Street, Chicago, IL 60603. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) from Memphis, Tenn., over Interstate Highway 40 to junction Interstate Highway 81, thence over Interstate Highway 81 (using U.S. Highways 11–W and 11–E where portions of Interstate Highway 81 is not completed) to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Interstate Highway 70–N, thence over Interstate Highway 70–N to Baltimore, Md., and (2) from Memphis, Tenn., over Interstate Highway 40 to junction Interstate Highway 81, thence over Interstate Highway 81 (using U.S. Highways 11–W and 11–E where portions of Interstate Highway 81 is not completed) to junction Interstate Highway 66, thence over Interstate Highway 66 to junction Interstate Highway 95, thence over Interstate Highway 95 to Baltimore, Md., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: from Memphis, Tenn., over U.S. Highway 79 to Milan, Tenn., thence over U.S. Highway 45 to junction U.S. Highway 45–E, thence over U.S. Highway 45–E to Fulton, Ky., thence over U.S. Highway 45 to Vienna, Ill., thence over Illinois Highway 146 to West Vienna, Ill., thence over Illinois Highway 37 to Marion, Ill., thence over Illinois Highway 37 to Effingham, Ill., thence over U.S. Highway 40 to Indianapolis, Ind., thence over U.S. Highway 40 to junction U.S. Highway 22, thence over U.S. Highway 22 to Harrisburg, Pa., thence over U.S. Highway 111 to Baltimore, Md., and return over the same route.

By the Commission.

[Notice 1]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JANUARY 5, 1973.

The following publications[1] are governed by the new special rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

NOTICE FOR FILING PETITION

No. MC 133106 (Sub-No. 3) (Notice of filing of petition to amend a permit), filed September 21, 1970, published in the FEDERAL REGISTER issue of November 19, 1970, and republished, in part, this issue.

Applicant: NATIONAL CARRIERS, INC., 1501 East Eighth Street (Box 1358) Liberal, Kans. 67901. Applicant's representative: Frederick J. Coffman, 521 South 14th Street (Post Office Box 80806), Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Drugs, medicines, toilet preparations, and disinfectants*, moving in vehicles equipped with mechanical temperature control devices, from Lilitz, Pa., to points in Washington, Oregon, California, Nevada, Utah, Idaho, Arizona, New Mexico, Colorado, Nebraska, Kansas, Oklahoma, Texas, Iowa, Missouri, and Rockford, Ill., under a continuing contract with Warner-Lambert Pharmaceutical Co. and its divisions and subsidiaries. NOTE: This amendment adds the commodity "disinfectants" to the applicant's previously issued authority, as described, in part, above.

APPLICATION UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240)

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MOTOR CARRIERS OF PROPERTY

No. MC-F-11756. Authority sought for purchase by P. CALLAHAN, INC., 5240 Comly Street, Philadelphia, PA 19135, of a portion of the operating rights of SOMCO FREIGHT LINES, INC., (Frank G. Masini, receiver), Paterson Plank Road, and Route 3, Rutherford, N.J. 07073, (MATCO TRANSPORTATION, INC., assignee), and for acquisition by JAMES M. CALLAHAN, also of Philadelphia, Pa. 19135, of control of such rights through the purchase. Applicants' attorneys: Terrence L. Bowers, 5240 Comly Street, Philadelphia PA 19135, and Arthur J. Piken, 1 Lefrak City Plaza, Flushing, N.Y. 11368. Operating rights sought ot be transferred: *General commodities*, excepting among others, classes A and B explosives, and commodities in bulk, as a *common carrier* over irregular routes, between Carlstadt, N.J., on the, one hand, and, on the other, points in Nassau and Suffolk Counties, N.Y., on and west of New York Highway 112, extending between Patchogue and Port Jefferson, Long Island, N.Y. Vendee is authorized to operate as a *common carrier* in Pennsylvania, New York, New Jersey, Maryland, Rhode Island, Massachusetts, New Hampshire, Connecticut, and Delaware, and as a *contract carrier* in Pennsylvania, Delaware, New Jersey, New York, Maryland, Virginia, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11757. Authority sought for purchase by TANKSLEY TRANSFER COMPANY, 901 Harrison St., Nashville, TN 37203, of the operating rights of IDEAL MOVING AND STORAGE COMPANY, INC., 404 James Robertson Parkway, Nashville, TN 37219, and for acquisition by ROY TANKSLEY, MILTON G. TANKSLEY, GORDON B. TANKSLEY, AND NOVELLA H. TANKSLEY, all of 901 Harrison Street, Nashville, TN 37203, of control of such rights through the purchase. Applicants' attorney: Charles Carter Baker, Jr., 1800 Third National Bank Building, Nashville, Tenn. 37219. Operating rights sought to be transferred: *Household goods* as defined by the Commission, as a *common carrier* over irregular routes, between points in Marshall County, Tenn., on the one hand, and, on the other, points in Alabama, Georgia, Kentucky, North Carolina, South Carolina, Indiana, Ohio, and Michigan, between Shelbyville, Tenn., and points within 65 miles of Shelbyville, on the one hand, and, on the other, points in Alabama, Georgia, Kentucky, North Carolina, Ohio, South Carolina, and Tennessee. Vendee is authorized to operate as a *common carrier* in Tennessee, Mississippi, Alabama, Ohio, Kentucky, North Carolina, South Carolina, Georgia, Arkansas, Florida, Louisiana, Missouri, and Virginia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-11758. Authority sought for purchase by SUN INVESTMENT, INC., a noncarrier, 1835 West Main Street, Zanesville, OH, of the operating rights and property of DIECKBRADER EXPRESS, INC. (MARTIN A. GREENBERGER, operating trustee), 5391 Wooster Road, Cincinnati, OH 45226, and for acquisition by ORIN S. NEIMAN, 3893 Market Street NE., Warren, OH 44484, and ROBERT W. SPADE, Flint and Denman Streets, Cincinnati, Ohio 45214, of control of such rights and property through the purchase. Applicants' attorney: Paul F. Beery, 89 East Broad Street, Columbus, OH 43215. Operating rights sought to be transferred: Numerous *specified commodities*, as a *common carrier*, over regular and irregular routes, from, to, and between specified points in the States of Illinois, Missouri, Indiana, Kentucky, Ohio, Michigan, West Virginia, Iowa, Minnesota, Wisconsin, New York, New Jersey, Pennsylvania, Tennessee, Maryland, Connecticut, Delaware, Kansas, Louisiana, Massachusetts, North Dakota, Rhode Island, Texas, Colorado, Nebraska, South Dakota, North Carolina, Virginia, Arkansas, and the District of Columbia, with certain restrictions, as more specifically described in Docket No. MC-119531 and Sub-numbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. Vendee holds no authority from this Commission. However it is affiliated with OHIO FAST FREIGHT, INC., 300 Liberty Road, Warren, OH 44482, which is authorized to operate as a *common carrier* in Ohio, West Virginia, Pennsylvania, New Jersey, Virginia, Maryland, Connecticut, Illinois, Indiana, Massachusetts, Michigan, New York, Delaware, Kentucky, Maine, New Hampshire, Tennessee, Vermont, Rhode Island, Alabama, Arizona, Arkansas, California, Colorado, Idaho, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wisconsin, Wyoming, and the District of Columbia, and SPADE CONTINENTAL EXPRESS, INC., Post Office Box 14424, Cincinnati, OH 45214, which is authorized to operate as a *common carrier* in Ohio and Kentucky. Application has been filed for temporary authority under section 210a(b).

No. MC-F-11759. Authority sought for purchase by FRONTIER DISTRIBUTION LINE, INC., 1285 William Street, Buffalo, NY 14206, of the operating rights of MURRAY'S TRUCKING SERVICE, INC. (U.S. Treasury Department-Internal Revenue Service), 111 West Huron Street, Buffalo, NY 14202, and for acquisition by BERNARD A. CESAR, 1328 Delaware Avenue, Buffalo, NY 14209, of control of such rights through the purchase. Applicants' attorney: Robert D. Gunderman, Suite 1708, Statler Hilton, Buffalo, N.Y. 14202. Operating rights sought to be transferred: General commodities, excepting among others, classes A and B explosives, commodities in bulk, and household goods, as a *common carrier*, over irregular routes, from Buffalo, N.Y., to points in Cattaraugus, Chatauqua, Erie, Genesee, Niagara, Orleans, and Wyoming Counties, N.Y. Vendee is authorized to operate as a *common carrier* in New York and Pennsylvania. Application has been filed for temporary authority under section 210a(b), in Docket No. MC-FC-72439, and granted by order of the Commission dated June 30, and served July 13, 1972.

No. MC-F-11760. Authority sought for purchase by T. E. QUINN TRUCK LINES LTD., Box 401, Niagara Falls, Ontario, Canada, of a portion of the operating rights and property of BEANEY TRANSPORT, LIMITED, Post Office Box 392, Lansdale, PA 19446, and for acquisition by THOMAS E. QUINN, also of Niagara Falls, Ontario, Canada, of control of such rights and property through the purchase. Applicants' attorney: Maxwell A. Howell, 1511 K Street NW., Washington, DC 20005. Operating rights sought to be transferred: *Frozen foods*, as a common carrier over irregular route, from Brockport, N.Y., and points within 75 miles thereof, to New York, N.Y., Allentown, Bethlehem, and Philadelphia, Pa., and points in New Jersey, Massachusetts, Connecticut, and Rhode Island; *packinghouse products* as described in paragraphs A, B and C of the appendix in Ex Parte No. MC-38, *Modification of Motor Contract Carriers of Packing-House Products*, 46 M.C.C. 23, from ports of entry on the United States-Canada boundary line at Buffalo and Niagara Falls, N.Y., to New York, N.Y., and points within 50 miles thereof; *fresh fruits, fresh vegetables*, and *the commodities* described in paragraphs A, B, and C, in the appendix to the report in *Modification of Permits Packing-House Products*, 48 M.C.C. 628, between ports of entry on the United States-Canada boundary line at Alexandria Bay, Buffalo, and Niagara Falls, N.Y., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and the District of Columbia, with restriction. Vendee holds no authority from this Commission. However, it is affiliated with KEY EXPRESS, INC., Post Office Box 401, Niagara Falls, ON Canada, which is authorized to operate as a *common carrier* in New York, New Jersey, Maryland, and Pennsylvania. Application has been filed for temporary authority under section 210a(b).

NOTICE

Fort Worth and Denver Railway Co. hereby gives notice that on November 1, 1972, it filed an application with the Interstate Commerce Commission at Washington, D.C., under section 5(2) of the Interstate Commerce Act for authority to purchase and operate a line of railroad from Stamford, Tex. to Rotan, Tex. This application has been assigned Finance Docket No. 27227. The line of railroad is now owned and operated by the Texas Central Railroad Co. and is approximately 43.55 miles in length, extending between Stamford and Rotan, Tex., in Jones and Fisher Counties, Tex. The line now connects with applicant, Fort Worth and Denver Railway's existing line of railroad at Stamford, Tex.

V 38 I 6 JAN 10 73 XUM

Texas Central Railroad Co. is a class II common carrier railroad and performs interstate, intrastate transportation. Fort Worth and Denver Railway Co. will perform interstate and intrastate transportation over the Stamford to Rotan Branch line commensurate with its common carrier obligation.

Applicant's attorneys are Richard M. Gleason, Attorney, Fort Worth and Denver Railway Co., 176 East Fifth Street, St. Paul, MN 55101, and T. E. Shell, General Counsel, Texas Central Railroad Co., Post Office Drawer 220, Dublin, TX 76446.

In the opinion of the applicant, the proposal is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc 73-532 Filed 1-9 73;8:45 am]

MOTOR CARRIER INTRASTATE APPLICATIONS

JANUARY 5, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by special rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Arkansas Docket No. M-7385, filed December 15, 1972. Applicant: ATLAS TRANSIT, INC., Post Office Box 707, Little Rock, AR 72203. Applicant's representative: James N. Clay III, 2700 Sterick Building, Memphis, TN 38103. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities*, over regular and/or irregular routes, between all points and places in Arkansas presently authorized to be served by Atlas Transit, Inc. by certificate of public convenience and necessity No. 651 over the shortest or most feasible highway routes, as alternate routes only. Both intrastate and interstate authority sought. HEARING: January 22, 1973, at the Arkansas Transportation Commission, Justice Building, Little Rock, Ark., at 10 a.m. Requests for procedural information should be addressed to the Arkansas Transportation Commission, Justice Building, Little Rock, Ark., 72201, and should not be directed to the Interstate Commerce Commission.

Kansas Docket No. 48,292M, filed November 30, 1972. Applicant: FRANCIS J. GORRELL, doing business as: TOPLIFF TRUCK LINE, 746 North Santa Fe, Salina, Kans. 67401. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading. *Extension of Route 4278:* From Glade, Kans., west over Highway K9 to Leonora, Kans., and return over the same route, with service authorized in either direction from, to and between Glade, Kans., and Leonora, Kans., and the intermediate points of Speed, Logan, Densmore, and Edmond and between said points and all points on the existing Route 4278. Also: From Jewell, Kans., over Highways K14-28 and K14 to Burr Oak, Kans., and return over the same route, with service authorized in either direction from, to and between Jewell, Kans., and Burr Oak, Kans., and the intermediate point of Mankato, Kans., and between said points and all points on the existing Route 4278.

Also: From Jewell, Kans., east over Highway K28 to Jamestown, Kans., thence west and south over county roads to Scottsville, Kans., and south over county road to its junction with Highway U.S. 24, with service authorized in either direction and between Jewell, Kans., and Scottsville, Kans., and the intermediate points of Randall and Jamestown and between said points and all points on existing Route 4278. Also: For operating convenience only—From Jamestown, Kans., east on Highway K28 to its junction with Highway U.S. 81, thence south on said highway U.S. 81 to its junction with Highway U.S. 24, with no transportation for compensation except as otherwise authorized. Both intrastate and interstate authority sought. Hearing: February 13, 1973, at the State Corporation Commission, Transportation Division, Fourth Floor, State Office Building, Topeka, Kans. Requests for procedural information including the time for filing of protests concerning this application should be addressed to the State Corporation Commission, Transportation Division, Fourth Floor, State Office Building, Topeka, Kans. 66612 and should *not* be directed to the Interstate Commerce Commission.

California Docket No. 53751, filed December 15, 1972. Applicant: C-LINE EXPRESS, 525 Silverado Trail, Napa, Calif. 94558. Applicant's representative: Marvin Handler, 405 Montgomery Street, Suite 1400, San Francisco, CA 94104. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities*, between points and places in the San Francisco territory described as follows: San Francisco territory includes all of the city of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Co. right-of-way at Arastradero Road; southeasterly along the Southern Pacific Co. right-of-way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to West Parr Avenue; easterly along West Parr Avenue to Capri Drive; southerly along Capri Drive to East Parr Avenue; easterly along East Parr Avenue to the Southern Pacific Co. right-of-way; southerly along the Southern Pacific Co. right-of-way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the city of Richmond; southwesterly along the highway extending from the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the

shore line of the Pacific Ocean to point of beginning. Between points in San Francisco territory on the one hand, and, on the other, all points presently served by applicant as a highway common carrier as set forth in the decisions enumerated in paragraph III herein, specifically as follows:

(A) Between points in the San Francisco territory, on the one hand, and Calistoga, on the other hand. Service is authorized to all intermediate points on Interstate Highway 80 between San Francisco-Oakland and the junction of Interstate Highway 80 and State Highway No. 29 on said Highway No. 29 between its junction with Interstate Highway 80 and Calistoga. Service is also authorized to the off-route points of Benicia and Mont La Salle.

(B) Between all points and places specified in A above, on the one hand, and, on the other hand, (a) State Highway 121 between Napa and Moskowite's Corners, inclusive; (b) State Highway 128 between Moskowite's Corners and the junction of said highway with Knoxville Road, inclusive; (c) Knoxville Road between the junction of said road and State Highway 128 and Knoxville, inclusive; (d) Knoxville Road between Knoxville and Pope Valley junction, inclusive; (e) Pope Canyon Road between Pope Valley junction and Pope Valley, inclusive; (f) Unnumbered highways between Pope Valley and St. Helena, inclusive; (g) State Highway 128 between Moskowite's Corners and Rutherford, inclusive; (h) Steel Canyon Road between Moskowite's Corners and Steele Canyon Park, inclusive; (i) State Highway 128 between Moskowite's Corners and Monticello Dam, inclusive; (j) State Highway 128 between Monticello Dam and the junction of said highway with Pleasants Valley Road, inclusive; (k) Pleasants Valley Road between the junctions of said road with State Highway 128 and Interstate Highway 80, inclusive; (l) Interstate Highway 80 between Vallejo and the junction of said highway with Pleasants Valley Road, inclusive; (m) Suisun Valley Road between the junctions of said road with Interstate Highway 80 and Wooden Valley Road, inclusive, including the off-route point of Mankas Corner; and (n) Wooden Valley Road between the junctions of said road with Suisun Valley Road and State Highway 121, inclusive. Carrier may use the highways named in this order and any other public roadways necessary or convenient to perform the service authorized above.

(C) Between points in San Francisco territory, on the one hand, and, on the other hand, (a) Orinda, Lafayette, Walnut Creek, Danville and Concord, and points intermediate thereto on State Highway Nos. 24 and 21; (b) Port Chicago, Pittsburg, Antioch and points intermediate thereto on State Highway Nos. 24, 21, and 4 and on unnumbered State highways between Concord and Port Chicago and between Port Chicago and Pittsburg; (c) Martinez and Avon and all intermediate points and places on and along State Highway Nos. 24, 21, and 4 and unnumbered State highway between said points; (d) Oakley, Brentwood, and Byron and all intermediate points and places on and along State Highway No. 4 between Antioch and Byron; also via Marsh Creek Road but without serving points thereon between Clayton and Byron; (e) Bethel Island; (f) Clayton and all points intermediate to Concord and Clayton on and along Clayton Road and Marsh Creek Road, serving also the off-route point of Cowell; and (g) San Ramon and all intermediate points and places on and along State Highway No. 21 between Danville and San Ramon. Applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10-C of Minimum Rate Tariff No. 4-A. (2) Automobiles, trucks and buses, viz.: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses, and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3) Livestock, viz.: bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags or swine. (4) Commodities requiring protection from heat by the use of ice (either water or solidified carbon dioxide) or by mechanical refrigeration. (5) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles. (6) Commodities when transported in bulk in dump trucks or in hopper-type trucks. (7) Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (8) Logs. (9) High explosives and (10) trailer coaches and campers, including integral parts and contents when the contents are within the trailer coach or camper. Both intrastate and interstate authority sought. HEARING: Date, time, and place not shown. Requests for procedural information including the time for filing protests concerning this application should be addressed to the California Public Utilities Commission, California State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, CA 94102 and should not be directed to the Interstate Commerce Commission.

California Docket No. 53758, filed December 18, 1972. Applicant: MORRIS TRANSPORTATION, INC., 730 11th Avenue, Oakland, CA 94102. Applicant's representative: E. H. Griffiths, 1182 Market Street, Suite 207, San Francisco, CA 94102. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities*, except as hereinafter provided: Between all points and places in the San Francisco territory, which is described as follows: San Francisco territory includes all the city of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Co. right of way at Arastradero Road; southeasterly along the Southern Pacific Co. right of way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to West Parr Avenue; easterly along West Parr Avenue to Capri Drive; southerly along Capri Drive to East Parr Avenue; easterly along East Parr Avenue to the Southern Pacific Co. right of way; southerly along the Southern Pacific Co. right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue, northerly along College Avenue to Dwight Way; easterly along Dwight Way to Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the city of Richmond; southwesterly along the highway extending from the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning.

Except that applicant shall not transport any shipments of: (1). Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of item No. 10-C of minimum

V 38 6 JAN 10 73 XUM

rate tariff No. 4–A. (2). Automobiles, trucks, and buses, viz: new and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses and taxis; freight automobiles, automobiles chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis. (3). Livestock, viz: bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags, or swine. (4). Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles. (5). Commodities when transported in bulk in dump trucks or in hopper-type trucks. (6). Commodities when transported in motor vehicles equipped for mechanical mixing in transit. (7). Cement. (8). Logs. (9). Commodities of unusual or extraordinary value. (10). Fresh fruits and vegetables. Both intrastate and interstate authority sought. HEARING: Date, time, and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, CA 94102, and should not be directed to the Interstate Commerce Commission.

Alaska Docket No. 72-290-MF-O, filed October 10, 1972. Applicant: TRYGVE M. OLSEN AND JOHN & ETHEL ADCOX, a Partnership doing business as ILIAMNA BARGE AND TRUCKING CO., Iliamna, Alaska 99606. Applicant's representative: Theodore R. Dunn, 429 D Street, Anchorage, AK 99501. Certificate of public convenience and necessity sought to operate a powered barge service as follows: Transportation of *freight* between Iliamna and Naknek, Alaska. In addition the powered barge would be used to make deliveries of freight around the perimeter of Lake Iliamna. The trucking operation would supplement this by permitting freight one off loaded from the barges to be delivered to its final location destination. In addition the community of Nondalton, Alaska, would be served from Iliamna by truck as it is inaccessible by barge. Both intrastate and interstate authority sought. HEARING: Date, time, and place unknown. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Alaska Transportation Commission, State of Alaska, Department of Commerce, 750 Mackay Building, 338 Denali Street, Anchorage, AK 99501, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 178]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 4, 1973.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131), published in the FEDERAL REGISTER issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 56640 (Sub-No. 28 TA), filed December 21, 1972. Applicant: DELTA LINES, INC., Mail: Post Office Box 2081, 96204, 8201 Edgewater Drive, Oakland, CA 94621. Applicant's representative: Marshall G. Berol, 100 Bush Street, San Francisco, CA 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General Commodities* except those of unusual value, household goods as defined by the Commission, and commodities in bulk, and commodities requiring special equipment, between Colton, Calif., and Calexico, Calif., serving all intermediate points; from Colton via Interstate Highway 10 to junction California Highway 111 (near Indio) thence via California Highway 111 to Calexico and return over the same route; between Riverside and Beaumont, Calif., serving all intermediate points; from Riverside over California Highway 60 to Beaumont and return over the same route; between junction California Highway 111 and Interstate Highway 10 (near Whitewater) and junction Interstate Highway 10 and California Highway 111 (near Indio), serving all intermediate points; from junction California Highway 111 and Interstate Highway 10 via California Highway 111 to junction California Highway 111 and Interstate Highway 10 and return over the same route; between junction California Highway 111 and California Highway 86 (near Coachella) to junction California Highway 111 and California Highway 86 (near Calexico), serving all intermediate points; from junction California Highway 111 and California Highway 86 via California Highway 86 to junction California Highway 111 and California Highway 86 and return over the same route; between junction California Highway 62 and Interstate Highway 10 and Twentynine Palms, Calif., serving all intermediate points and the off-route point of the Marine Corps Training Center near Twentynine Palms; from junction California Highway 62 and Interstate Highway 10 via California Highway 62 to Twentynine Palms, and return over the same route; between San Diego and Winterhaven, Calif., serving all intermediate points; from San Diego via Interstate Highway 8 (also U.S. Highway 80) to Winterhaven, and return over the same route; between San Diego, Calif., and junction Interstate Highway 8 and California Highway 94 near Live Oak Springs, Calif., serving all intermediate points; from San Diego via California Highway 94 to junction California Highway 94 and Interstate Highway 8, and return over the same route; between junction unnumbered road and Interstate Highway 8 west of Live Oak Springs, Calif., and junction unnumbered road and Interstate Highway 8, serving all intermediate points; from junction unnumbered road and Interstate Highway 10 via unnumbered road through Live Oak Springs, Boulevard and Jacumba to junction unnumbered road and Interstate Highway 8, and return over the same route; between junction Interstate Highway 8 and California Highway 98 (near Ocotillo) and junction Interstate Highway 8 and California Highway 98 via California Highway 98 to junction Interstate Highway 8 and California Highway 98 (near Gordon's Wells), serving all intermediate points; from junction Interstate Highway 8 and California Highway 98 via California Highway 98 to junction Interstate Highway 8 and California Highway 98, and return over the same route; between Calipatria, Calif., and junction California Highway 115 and California Highway 98, serving all intermediate points; from Calipatria via California Highway 115 to junction California Highway 115 and California Highway 98, and return over the same route; for 180 days. NOTE: Applicant states it does intend to tack with its own authority in MC 56640 and subs, and interline with other carriers at any common service point. Supported by: There are approximately 105 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: A. J. Rodriguez, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 450 Golden Gate Avenue, Box 36004, San Francisco, CA 94102.

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 92168 (Sub-No. 2 TA), filed December 11, 1972. Applicant: BEATRICE M. RICHARDS, (HARRY F. RICHARDS, EXECUTOR), doing business as THEATRICAL FILM SERVICE, 61 Greenfield Street, Lawrence, MA 01843. Applicant's representative: Mary E. Kelley, 11 Riverside Avenue, Medford, MA 02155. [Notice 179]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 5, 1973.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 53321 (Sub-No. 9 TA), filed December 21, 1972. Applicant: RAU CARTAGE, INC., 1107 East Noble Avenue, Monroe, MI 48161. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, MI 48080. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paperboard*, from Monroe, Mich., to Celina, Tenn., for 180 days. Supporting shipper: Time Container Corp., 1151 West Elm Street, Monroe MI 48161. Send protests to: District Supervisor Melvin F. Kirsch, Bureau of Operations, Interstate Commerce Commission, 1110 Broderick Tower, 10 Witherell, Detroit, Mich. 48226.

No. MC 115841 (Sub-No. 447 TA), filed December 21, 1972. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., Office: 1215 Bankhead Highway West, Birmingham, AL 35204, Post Office Box 168, Concord, TN 37720. Applicant's representative: Roger M. Shaner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products and articles distributed by meat packinghouses*, from the plant and warehouse facilities of Needham Packing Co., Sioux City, Iowa, and Omaha, Nebr., to points in Florida, Georgia, North Carolina, South Carolina, and Tennessee, for 180 days. Supporting shipper: Needham Packing Co., 220 Badgerow Building, Sioux City, Iowa 51101. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 814, 2121 Building, Birmingham, Ala. 35203.

No. MC 128575 (Sub-No. 9 TA), filed December 21, 1972. Applicant: GOLDEN WEST TRUCK CO., 12780 Southwest Prince Albert Street, Tigard, OR 97223. Applicant's representative: William F. Fox (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Laminated wooden beams, trusses, arches, plywood, groundwood sheets, lumber, timbers*, fabricated or not fabricated, and *necessary connecting hardware*, from (1) points in Lane County, Oreg., to points in Washington; and (2) Snohomish, King, Pierce, Pacific, Gray Harbor, Lewis, Cowlitz, Skamania and Clark Counties, Wash., to points in Oregon, for 180 days. Supporting shipper: Al Disdero Lumber Co., Post Office Box 42247, Portland, OR 97242. Send protests to: A. E. Odoms, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 138180 (Sub-No. 1 TA), filed December 21, 1972. Applicant: FRED O'BAKER AND FAY E. LEYDIG, doing business as VALLEY TRUCKING COMPANY, Post Office Box 176, Corriganville, MD 21524. Applicant's representative: D. L. Bennett, 129 Edgington Lane, Wheeling, WV 26003. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bulk rock salt*, from Corriganville, Md., to points in Mineral, Hampshire, Hardy, and Morgan Counties, W. Va., for 180 days. Supporting shipper: Morton Salt Co., Main Street, Wadsworth, OH 44281. Send protests to: Joseph A. Niggemyer, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 416 Old Post Office Building, Wheeling, W. Va. 26003.

No. MC 138255 (Sub-No. 1 TA), filed December 14, 1972. Applicant: HERSCHEL A. WIMMER AND CHARLES T. HACKER, doing business as DAYTON AIR FREIGHT, 9000 Peters Pike, Vandalia, OH 45377. Applicant's representative: Herschel A. Wimmer (Same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except Classes A and B explosives, household goods, commodities in bulk and those requiring special equipment, between Cox Municipal Airport at Vadalia, Ohio and Detroit Metropolitan Airport at Romulus, Mich., restricted to the transportation of shipments having an immediately prior or subsequent movement by air, for 180 days. Supporting shipper: United Air Lines, Dayton Minicipal Airport, Vandalia, Ohio 54377. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5514-B Federal Building, 550 Main Street, Cincinnati, OH 45202.

No. MC 138255 (Sub-No. 2 TA), filed December 14, 1972. Applicant: HERSCHEL A. WIMMER AND CHARLES T. HACKER, doing business as DAYTON AIR FREIGHT, 9000 Peters Pike, Vandalia, OH 45377. Applicant's representative: Herschel A. Wimmer (Same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except Classes A and B explosives, household goods, commodities in bulk and those requiring special equipment, between Cox Municipal Airport at Vadalia, Ohio, on the one hand, and, on the other, John F. Kennedy Airport and LaGuardia Airport, Jamaica, N.Y., and O'Hara Airport, Chicago, Ill., restricted to the transportation of shipments having an immediately prior or subsequent movement by air, for 180 days. Supporting shipper: Trans World Airlines, Inc., James M. Cox Municipal Airport, Vandalia, Ohio 45377. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5514-B Federal Building, 550 Main Street, Cincinnati, OH 45202.

No. MC 138229 (Sub-No. 1 TA), filed December 21, 1972. Applicant: P & M TRANSPORT, INC., Box 518, Morrisville, VT 05661. Applicant's representative: John P. Monte, 61 Summer Street, Barre, VT 05641. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Talc, talc tailings and asphalt filler*, in bags and in bulk, from Johnson, Vt., to Burlington, and St. Johnsbury, Vt., for 90 days. Supporting shipper: Eastern Magnesia Talc Co., Subsidiary of: Engelhard Minerals & Chemical Corp., Menlo Park, N.J. 08817. Send protests to: District Supervisor Martin P. Monaghan, Jr., Bureau of Operations, Interstate Commerce Commission, 52 State Street, Room 5, Montpelier, VT 05602.

No. MC 138282 TA, filed December 22, 1972. Applicant: HENRY D. MAAS, Box 264, Arlee, MT 59821. Applicant's representative: Craig S. Sternberg, fourth Floor Hoge Building Seattle, Wash. 98104. Authority sought to operate a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Junk automotive and farm machinery bodies and parts and scrap iron*, from points in Montana and Idaho to Spokane, Wash., for 180 days. Supporting shipper: American Recycling Corp., P.O. Box 337, Parkwater Station, Spokane, WA 99211. Send protests to: Paul J. Labane, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 251 U.S. Post Office Building, Billings, Mont. 59101.

No. MC 138283 TA, filed December 22, 1972. Applicant: DANA CORPORATION, Round Lake, Minn. 56167. Applicant's representative: Earl H. Schdder, Jr.,

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 38-6 JAN 10 73 XUM

P.O. Box 82028, Lincoln NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Candy, confectionery products, nuts and cookies and related advertising material*, from the facilities used by Sather Cookie Co. at Round Lake, Minn., to points in the United States (except Alaska and Hawaii); and (2) the *commodities* in (1) above and *materials and supplies* used in the packaging, processing, storage and distribution of the commodities enumerated in (1) above from points in the United States (except Alaska and Hawaii) to the facilities used by Sather Cookie Co. at Round Lake, Minn., for 150 days. Supporting shipper: Sather Cookie Co., Round Lake, Minn. 56167. Send protests to: District Supervisor A. N. Spath, Interstate Commerce Commission, Bureau of Operations, 448 Federal Building, 110 South Fourth Street, Minneapolis, MN 55401.

By the Commission.

REGULATION OF FUELS AND FUEL ADDITIVES

No. 6—Pt. II——1

V 38 - 6 JAN 10 73 XUM

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER C—AIR PROGRAMS

PART 80—REGULATION OF FUELS AND FUEL ADDITIVES

On February 23, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 3882), setting forth proposed regulations promulgating Federal standards for the use of lead and phosphorus additives in gasoline. Pursuant to the above notice, several public hearings were held. In addition, numerous written comments were received during an extended public comment period. After consideration of the hearings' testimony and other comments, and after further consideration of the available information on health effects of airborne lead and the adverse effect of leaded gasoline on emission control devices, the regulations have been divided into two separate pieces of regulatory action: proposed regulations based upon the health effects of airborne lead, which provide for the reduction of lead in all grades of leaded gasoline, and final regulations, which provide for the general availability of lead-free gasoline. The regulations on reduction of lead for health reasons are being reproposed because the Agency's basis for the reduction has been substantially revised. The proposed regulations are published in this issue of the FEDERAL REGISTER, accompanied by an explanation of the basis for the reproposal. The regulations providing for the availability of lead-free and phosphorus-free fuel, modified as determined to be appropriate by the Agency, are promulgated below. The basis for this promulgation is explained below.

When the proposed regulations were published, the Administrator had determined that emission products of lead and phosphorus additives would impair to a significant degree the performance of emission control systems which include catalytic converters that motor vehicle manufacturers are developing to meet the 1975–76 motor vehicle emission standards and that are likely to be in general use if lead and phosphorus additives are controlled or prohibited for use in certain motor vehicle gasolines. This determination was based upon consideration of the available scientific and economic data including a cost-benefit analysis comparing motor vehicle emission control devices or systems which are or will be in general use and require control or prohibition of lead additives in gasolines with emission control devices or systems which are or will be in general use and do not require such control or prohibition of those additives. After identifying the emission control systems or devices under consideration by automobile manufacturers for meeting the 1975–76 standards, the Administrator determined that one system, the catalytic converter, would be in general use in the 1975 model year. Accordingly, a comparison of systems or devices was not feasible. Since publication of the proposed rule making, additional information on this subject has been submitted to the Agency during public hearings on the suspension of 1975 model year light duty motor vehicle emission standards, and the lead regulations hearings and comment period. This information provides further support for the Administrator's determination.

Therefore, the proposed provision for the general availability by July 1, 1974, of essentially lead-free and phosphorus-free gasolines of an octane quality suitable for 1975 and subsequent model year light duty vehicles is included in the final regulations. Copies of the cost-benefit analysis referred to above, entitled Aerospace Report, PB–205–981, are available for $4.50 each from National Technical Information Service, Department of Commerce, 5285 Port Royal Road, Springfield, VA 22151.

At the time of the proposed rule making, the Administrator concluded that the proposed control of the use of lead additives and phosphorus-containing additives in lead-free gasoline would not cause the use of any other fuel or fuel additive that will produce emissions which will endanger the public health or welfare to the same or greater degree. Since that time, additional information has been developed which further supports the Administrator's earlier conclusion. This additional information and the basis for the original finding are set forth in a paper entitled "Effects of Reduced Use of Lead in Gasoline on Vehicle Emissions and Photochemical Reactivity" (with addendum). Copies of this paper are available from the Publications Section, Environmental Protection Agency, 401 M Street SW., Room 238W, Washington, DC 20460.

In the preamble to the proposed regulations, the Administrator invited comments concerning the effect of various levels of sulfur concentrations in lead-free and phosphorus-free gasoline on catalytic emission control systems, the impact of a sulfur limitation on the petroleum industry, and the impact of a sulfur limitation on motor vehicle performance and the cost of gasoline to the consumer. In light of these comments, the Administrator has determined that the currently available information is not adequate to clearly determine the impact of gasoline sulfur levels on emission control devices. Accordingly, additional information on both the effects of sulfur on catalyst deterioration and the impact of a sulfur regulation on the oil industry is required before regulatory action can be proposed.

The regulations as proposed provided that the lead content of unleaded gasoline not exceed 0.05 gram of lead per gallon. This maximum trace lead level is based upon the determination that it would provide adequate protection for catalyst emission control devices and that delivery of unleaded gasoline meeting this specification is within the capability of the petroleum industry.

Most of the auto manufacturers initially asserted that the standard should be set at a maximum of 0.03 gram per gallon or less to prevent impairment of the effectiveness of the catalytic emission control devices. More recently, several manufacturers have stated that the proposed trace lead standard of 0.05 gram per gallon would be acceptable if such a standard assured that the average lead content of unleaded gasoline were 0.03 gram per gallon.

Spokesmen for the petroleum industry urged that the trace lead standard be set at 0.07 gram per gallon, the specification for unleaded gasoline established by the American Society for Testing and Materials. This specification was chosen on the basis of: (a) The capacity of the distribution system to deliver gasoline with low trace lead levels and (b) the reproducibility of the test methods. The experience of the petroleum industry as a whole in delivery of unleaded gasoline was conceded to be limited. The one company with substantial experience in the distribution of unleaded product is currently able to meet a 0.05 standard most of the time.

The regulations provide for the general availability of a lead-free and phosphorus-free gasoline with specified trace lead levels of 0.05 gram of lead per gallon. It is the Administrator's determination that without regulatory action requiring retail outlets to market at least one grade of such gasoline, availability of that product to the general public in all areas of the country would be uncertain, and may not be sufficient to assure the protection of catalytic control devices. This regulation will determine the range of trace lead in gasoline which will be available to the consuming public for use in motor vehicles with control devices (e.g., from 0 gram lead to 0.05 gram lead). Based on the available data on marketing of unleaded gasolines, the Agency projects that a 0.05 gram of lead per gallon maximum will result in a 0.03 gram per gallon average lead content. Since the Agency's motor vehicle certification regulations require that gasoline generally available at retail outlets be used in vehicle certification tests, 1975 model year vehicle certification testing will be required to be conducted using gasolines having a minimum lead content of 0.03 gram per gallon.

EPA has received numerous comments from the automobile industry requesting that the trace phosphorus level in the lead-free and phosphorus-free gasoline be lowered from the proposed level of 0.01 gram of phosphorus per gallon to 0.005 gram of phosphorus per gallon and below. After evaluating the catalyst deterioration data submitted in support of these requests, the Administrator has determined that the trace phosphorus level must be lowered to 0.005 gram of phosphorus per gallon in order to prevent

catalyst deterioration which would preclude compliance with the emission standards for the useful life of 1975 and later model year vehicles. Though some members of the oil industry contend that a lower phosphorus level would remove some of the existing flexibility in the use of phosphorus detergent additives, the Agency has determined that the need for any such flexibility is outweighed by the need to prevent catalyst deterioration. Moreover, nonphosphorus additives are fast becoming the predominant detergents in unleaded gasoline and are already in large scale use.

Representatives of the petroleum industry have sought clarification of the term "owner or operator" of a retail outlet used in paragraphs (c), (d), and (g) of § 80.22 of the regulations as proposed. These paragraphs have been modified to adopt the terms of the definition of "owner or operator" contained in section 111(a)(5) of title I of the Clean Air Act which defines an "owner or operator" as any person who "owns, leases, operates, controls, or supervises" a regulated facility.

The final regulations do not include the proposed prohibition of the dyeing of unleaded gasolines or the proposed requirement that leaded gasolines be conspicuously colored. Based on comments received on the control of transport of unleaded gasoline, the Agency has determined that a color-coding system is not necessary to the implementation of this regulation.

The Agency agrees with comments received that engine octane demand decreases with increase in altitude, and has added to the requirement that retail outlets market unleaded gasoline of at least 91 octane a provision allowing reduction in octane number in high altitude areas.

The proposed regulations set forth labeling requirements for retail outlets and motor vehicles and dimensions specifications for pump nozzles and automobile fuel filler inlets to prevent accidental use of leaded gasoline in vehicles equipped with emission control devices requiring the use of unleaded fuel. The regulations include slight changes in the required fuel filter inlet and pump nozzle dimensions proposed, in accordance with the recommendations of the Society of Automotive Engineers.

The country's independent gasoline marketers have expressed concern that the major refiners, who currently provide their supply of leaded gasoline, will not produce enough unleaded gasoline during the transition period following the regulation's effective date to supply both the majors' branded outlets and the independent outlets. Based on the results of the Agency's evaluation of the independent marketers' supply problems, the Administrator has determined that it would be premature to conclude that gasoline refiners will be unable or unwilling to provide adequate supplies of unleaded gasoline to retail outlets required by these regulations to offer it. If the shortage of unleaded gasoline feared by the independent marketers materializes, this Agency will consider whether additional measures are necessary to assure the general availability of unleaded gasoline.

Comments were received which objected to the imposition of liability upon major brand refiners for sales at their retail outlets of unleaded gasoline containing lead in violation of the standard. The regulation retains this provision, with slight wording changes, based upon the Agency's determination that the contamination of unleaded gasoline associated with transportation of the product can best be prevented by the major refiners who have control or the ability to control their distribution networks. However, in order to clearly indicate that there is a positive duty on the major brand refiner to prevent any violation of the unleaded gasoline standard at his retail outlets, the Agency is proposing in this issue of the FEDERAL REGISTER a regulation specifically imposing this duty.

The regulations promulgated below shall be effective on February 9, 1973.

Dated: January 4, 1973.

WILLIAM D. RUCKELSHAUS,
Administrator,
Environmental Protection Agency.

A new Part 80 is added to Chapter I, Title 40 of the Code of Federal Regulations, as follows:

Subpart A—General Provisions

Sec.
80.1 Scope.
80.2 Definitions.
80.3 Test methods.
80.4 Right of entry; tests and inspections.
80.5 Penalties.

Subpart B—Controls and Prohibitions

80.20 [Reserved]
80.21 Controls applicable to gasoline distributors.
80.22 Controls applicable to gasoline retailers.
80.23 Liability for violations.
80.24 Controls applicable to motor vehicle manufacturers.

AUTHORITY: Secs. 211 and 301(a) of the Clean Air Act, as amended (42 U.S.C. 1857f–6c).

Subpart A—General Provisions

§ 80.1 Scope.

This part prescribes regulations for the control and/or prohibition of fuels and additives for use in motor vehicles and motor vehicle engines. These regulations are based upon a determination by the Administrator that the emission product of a fuel or additive will impair to a significant degree the performance of a motor vehicle emission control device in general use or which the Administrator finds has been developed to a point where in a reasonable time it would be in general use were such regulations promulgated; and certain other findings specified by the Act.

§ 80.2 Definitions.

As used in this part:

(a) "Act" means the Clean Air Act, as amended (42 U.S.C. 1857 et seq.).

(b) "Administrator" means the Administrator of the Environmental Protection Agency.

(c) "Gasoline" means any fuel sold in any State[1] for use in motor vehicles and motor vehicle engines, and commonly or commercially known or sold as gasoline.

(d) "Research octane number" means a measurement of a gasoline's knock characteristics which is determined by American Society for Testing and Materials analytical method designated D–2699.

(e) "Lead additive" means any substance containing lead or lead compounds.

(f) "Leaded gasoline" means gasoline which is produced with the use of any lead additive or which contains more than 0.05 gram of lead per gallon or more than 0.005 gram of phosphorus per gallon.

(g) "Unleaded gasoline" means gasoline containing not more than 0.05 gram of lead per gallon and not more than 0.005 gram of phosphorus per gallon.

(h) "Refinery" means a plant at which gasoline is produced.

(i) "Refiner" means any person who owns, leases, operates, controls, or supervises a refinery.

(j) "Retail outlet" means any establishment at which gasoline is sold or offered for sale to the public.

(k) "Retailer" means any person who owns, leases, operates, controls, or supervises a retail outlet.

(l) "Distributor" means any person who transports or stores or causes the transportation or storage of gasoline at any point between any gasoline refinery and any retail outlet.

§ 80.3 Test methods.

The lead and phosphorus content of gasoline shall be determined in accordance with test methods to be prescribed by the Administrator.

§ 80.4 Right of entry; tests and inspections.

The Administrator or his authorized representative upon presentation of appropriate credentials shall have a right to enter upon or through any retail outlet or the premises or property of any distributor and shall have the right to make inspections, take samples, and conduct tests to determine compliance with this part and the Act.

§ 80.5 Penalties.

Any person who violates these regulations shall forfeit and pay to the United States a civil penalty of $10,000 for each and every day of the continuance of

[1] "State" means a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

V 38 N 6 JAN 10 73 XUM

such violation, which shall accrue to the United States and be recovered in a civil suit in the name of the United States, brought in the district where such person has his principal office or any district in which he does business. The Administrator may, upon application by the person against whom any such penalty has been assessed, remit or mitigate any such forfeiture. The Administrator shall have authority to determine the facts upon all such applications.

Subpart B—Controls and Prohibitions

§ 80.20 [Reserved]

§ 80.21 Controls applicable to gasoline distributors.

After July 1, 1974, no distributor shall sell to any distributor or retailer any gasoline which he represents is unleaded gasoline unless such gasoline does, in fact, meet the defined requirements for unleaded gasoline in § 80.2(g).

§ 80.22 Controls applicable to gasoline retailers.

(a) After July 1, 1974, no retailer or his employee or agent shall introduce, or cause or allow the introduction of leaded gasoline into any motor vehicle which is labeled "unleaded gasoline only," or which is equipped with a gasoline tank filler inlet which is designed for the introduction of unleaded gasoline.

(b) After July 1, 1974, every person who owns, leases, operates, controls, or supervises a retail outlet at which 200,000 or more gallons of gasoline was sold during any calendar year beginning with the year 1971 shall offer for sale at least one grade of unleaded gasoline of not less than 91 Research Octane Number at such retail outlet: *Provided, however,* That the octane number of unleaded gasoline offered for sale in areas where altitude is greater than 2,000 feet may be reduced one (1) octane number for each succeeding 1,000 feet but not more than three (3) octane numbers in total.

(c) After July 1, 1974, every person who owns, leases, operates, controls, or supervises six or more retail outlets shall offer for sale at least one grade of unleaded gasoline of not less than 91 Research Octane Number at no fewer than 60 percent of such outlets; *Provided, however,* That the octane number of unleaded gasoline offered for sale in areas where altitude is greater than 2,000 feet may be reduced one (1) octane number for each succeeding 1,000 feet but not more than three (3) octane numbers in total.

(d) After July 1, 1974, every retailer shall prominently and conspicuously display in the immediate area of each gasoline pump stand the following notice:

Federal law prohibits the introduction of any gasoline containing lead or phosphorus into any motor vehicle labeled "UNLEADED GASOLINE ONLY."

Such notice shall be no smaller than 36-point bold type and shall be located so as to be readily visible to the retailer's employees and customers.

(e) After July 1, 1974, every retailer shall affix to each gasoline pump stand a permanent legible label as follows:

(1) For gasoline pump stands containing pumps for introduction of unleaded gasoline into motor vehicles, the label shall state:

Unleaded gasoline.

(2) For gasoline pump stands containing pumps for introduction of leaded gasoline into motor vehicles, the label shall state:

Contains lead antiknock compounds.

Any label required under this paragraph shall be located so as to be readily visible to the retailer's employees and customers.

(f) After July 1, 1974, every retailer shall equip all gasoline pumps as follows:

(1) Each pump from which leaded gasoline is sold shall be equipped with a nozzle spout having a terminal end with an outside diameter of not less than 0.930 inch (2.362 centimeters).

(2) Each pump from which unleaded gasoline is sold shall be equipped with a nozzle spout which meets the following specifications:

(i) The outside diameter of the terminal end shall not be greater than 0.840 inch (2.134 centimeters);

(ii) The terminal end shall have a straight section of at least 2.5 inches (6.34 centimeters) in length;

(iii) The retaining spring shall terminate 3.0 inches (7.6 centimeters) from the terminal end.

(g) If more than one grade of gasoline is dispensed from a gasoline pump or pump stand, the Administrator may grant an exception to paragraph (e) or (f) of this section where it has been demonstrated to his satisfaction that an alternate system of labeling or equipment will comply with the objectives of paragraph (e) or (f) of this section.

§ 80.23 Liability for violations.

Liability for violations of paragraph (a) of § 80.22 shall be determined as follows:

(a) (1) Where the corporate, trade, or brand name of a gasoline refiner or any of its marketing subsidiaries appears on the pump stand or is displayed at the retail outlet from which the gasoline was sold, the retailer and such gasoline refiner shall be deemed in violation. The refiner shall be deemed in violation irrespective or whether any refiner, distributor, or retailer, or the employee or agent of any refiner, distributor, or retailer may have caused or permitted the violation.

(2) Where the corporate, trade, or brand name of a gasoline refiner or any of its marketing subsidiaries does not appear on the pump or pump stand or is not displayed at the retail outlet from which the gasoline was sold, the retailer and any distributor who sold the retailer gasoline contained in the retail outlet storage tank which supplied that pump at the time of the violation shall be deemed in violation.

(b) (1) In any case in which a retailer and any gasoline refiner or distributor would be in violation under paragraph (a) (1) or (2) of § 80.22 the retailer shall not be liable if the retailer can demonstrate that the violation was not caused by him or his employee or agent.

(2) In any case under paragraph (a) (2) of § 80.22 in which two or more distributors have sold the retailer gasoline contained in the retail outlet storage tank which supplied the pump from which the gasoline was sold, any of such distributors who can demonstrate that the violation was not caused by him or his employee or agent shall not be liable.

(c) In any case in which a retailer or his employee or agent introduced leaded gasoline from a pump from which leaded gasoline is sold into a motor vehicle which is equipped with a gasoline tank filler inlet designed for the introduction of unleaded gasoline, only the retailer shall be deemed in violation.

§ 80.24 Controls applicable to motor vehicle manufacturers.

The manufacturer of any motor vehicle equipped with an emission control device which the Administrator has determined will be significantly impaired by the use of leaded gasoline shall:

(a) Affix two permanent, legible labels reading "Unleaded Gasoline Only" to such vehicle at the time of its manufacture, as follows:

(1) One label shall be located on the instrument panel so as to be readily visible to the operator of the vehicle: *Provided, however,* That the required statement may be incorporated into the design of the instrument panel rather than provided on a separate label; and

(2) One label shall be located immediately adjacent to the gasoline filler tank inlet, outside of any filler inlet compartment, and shall be located so as to be readily visible to any person introducing gasoline to such filler inlet.

Such labels shall be in the English language in block letters which shall be of a color that contrasts with their background.

(b) Manufacture such vehicle with a gasoline tank filler inlet having a restriction with an inside diameter not greater than 0.910 inch (2.311 centimeters), which prevents the insertion of a nozzle with a spout larger than prescribed in § 80.22(f)(2)(i). Such filler inlet shall be designed so as to activate immediately any automatic shutoff device on any nozzle subject to § 80.22(f)(1) when the introduction of gasoline into such filler inlet from such a nozzle is attempted.

REGULATION OF FUELS AND FUEL ADDITIVES

Notice of Proposed Rule Making

V 38 - 6 JAN 10 73 XUM

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 80]

REGULATION OF FUELS AND FUEL ADDITIVES

Notice of Proposed Rule Making

On February 23, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 3882), setting forth the proposed text of regulations promulgating Federal standards for the use of lead and phosphorus additives in gasoline. Pursuant to the above notice, several public hearings were held. In addition, numerous written comments were received from interested persons during an extended public comment period. After consideration of the hearings testimony and other comments, and after further consideration of the available information on the health effects of airborne lead and the adverse effect of leaded gasolines on emission control devices, the Administrator has determined that the originally proposed regulation should be divided into two parts. The sections which provide for the availability of lead-free gasoline to protect emission control devices are promulgated, with some modifications from the proposal, in this issue of the FEDERAL REGISTER. The sections providing for a reduction in the lead content of leaded gasolines for health protective reasons are reproposed below.

Based on the evidence available at the time of the proposed regulations' publication, the Administrator concluded that airborne lead levels exceeding 2 micrograms per cubic meter, averaged over a period of 3 months or longer, were associated with a sufficient risk of adverse physiologic effects to constitute endangerment of public health. Since airborne lead levels in many major urban areas currently range from 2 to over 5 micrograms and since motor vehicles are the predominant source of airborne lead in such areas, attainment of a 2-microgram level in many areas would require at least 60 to 65 percent reduction in lead emissions from motor vehicles. Accordingly, the Administrator proposed to regulate the lead content of "regular" and "premium" leaded gasolines by providing for the reduction of lead over a 4-year period, beginning January 1, 1974. It was the Agency's judgment that these reductions, together with the introduction of one grade of lead-free gasoline would provide for the protection of health in major urban areas within the shortest time reasonably possible.

In the preamble to the proposed regulations and in a subsequent publication (June 14, 1972; 37 FR 11786), the Administrator invited all interested parties to submit additional information on the health effects of airborne lead. Based upon additional information received as hearing testimony and written comments, reanalysis of the previously available data, and examination of recently developed information, the Agency's position on the health effects of airborne lead has been reevaluated.

Through EPA's reevaluation, the Administrator determined that it is difficult if not impossible to rely on the analysis presented in the earlier proposal to establish a precise level of airborne lead (2 μg. per m.^{3}) acceptable as the basis for a control strategy. Because earlier data lack such precision, and because new data have become available in the interim, the original health position can no long be considered sufficient.

EPA's new health position is based upon the following factors. Currently, considerable numbers of urban residents have abnormally elevated blood lead levels resulting from excessive exposure to environmental lead principally through food, water, paint, air, and dust. Emissions from motor vehicles using leaded gasoline account for over 90 percent of the lead emitted into the atmosphere. The resulting airborne lead can: (a) Be directly absorbed through the lungs as people breathe, or (b) settle out of the air to contaminate the dirt and dust which may be consumed by children. Strong evidence exists to support the view that through these routes airborne lead contributes to excessive lead exposure in urban adults and children.

Adults. Correlations between likelihood of exposure to airborne lead and high blood lead levels have been demonstrated in several selected adult groups. For example, Table I shows that urban male and female samples have significantly higher blood lead levels than their suburban counterparts. Women exposed to the higher air lead levels of the city are consistently found to have higher blood lead levels than women residing in suburban areas (see Table IIa). Although one cannot prove conclusively that airborne lead levels were solely responsible for this difference, the observation that women living in homes close to a highway have increased blood lead compared to women living greater distances from that highway further suggests that airborne lead and consequently lead in gasoline is contributing to these blood lead elevations (see Table IIb). Studies of urban women are especially significant since blood levels in newborn babies are known to be well correlated with lead levels in expectant mothers. Among urban exposed adults (see Table III) exposure by occupation (parking attendants vs. post office employees) and time of exposure (commuters vs. downtown residents) demonstrates that urban dwellers are more likely to have abnormal blood lead levels, and those most directly exposed to airborne lead typically have the highest blood lead levels.

TABLE I.—URBAN-SUBURBAN BLOOD LEAD COMPARISONS IN ADULTS

Children. Though airborne lead also contributes to total lead exposure in children, a possibly more important route of exposure may be ingestion of leaded nonfood items such as leaded paint and dirt. Exposure of children to lead-based peeling paint commonly found in deteriorating housing has been traditionally recognized as a hazard for young children. However, recent studies indicate that the presence of lead contaminated dirt and dust in urban areas represents another potentially significant source of lead exposure for children. Levels of lead in dust and dirt are known to decrease with increased distance from roadways and hence are directly related to the use of lead in gasoline. Continued ingestion of only fractions of a teaspoon per day of the lead contaminated dirt and dust presently found in urban areas would easily exceed the daily permissible intake of lead for children (300 μg. per day). A report by the National Academy of Sciences concludes that "the swallowing of lead contaminated dust may well account in large part for higher mean blood lead content in urban children."

Though none of the above findings viewed individually and in the context of possible experimental error can be taken as conclusive evidence that airborne lead by itself is a current public health problem, considered together, they do suggest that airborne lead is contributing to excessive total lead exposures among the general urban population. In light of this evidence, the Administrator has concluded that it would be prudent to reduce preventable lead exposures from automobile emitted airborne lead to the fullest extent possible.

In setting forth this conclusion, the Administrator recognizes that uncertainties exist concerning the relative significance of various sources of lead exposure and the most cost-effective approach to prevent excessive exposure. Currently, the contribution of any one source such as lead in gasoline to the general problem of excessive lead exposure has not been quantified and requires additional investigation. Due in part to this situation, the most cost-effective approach to the aggregate prevention of excessive lead exposure has not been defined. Several questions remain unanswered concerning the emphasis which should be placed on preventative measures such as the removal of lead-based paint from existing structures, the complete versus partial or gradual elimination of lead from gasoline, and stricter controls on the lead content of food and water. The lead in gasoline issue presents particular difficulties regarding the cost-effectiveness of reducing lead contents below the level of 0.5 gram per gallon.

The proposal set forth in this notice, is limited to reducing the lead content in leaded gasoline to 1.25 grams per gallon. It is the Administrator's intention that lead in gasoline should be reduced as much as possible. In determining if further reductions will be required the Administrator will consider: (a) The degree of lead reduction that will occur as a result of the use of unleaded gasoline. If it appears that the choice of emission control systems eventually will require the universal use of unleaded gasoline, this would influence the type of reduction schedule considered by the Administrator for the period following January 1, 1978. On the other hand, if lead sensitive emission control systems are not employed universally, the Administrator will take appropriate actions to reduce lead content in leaded grades as much as possible; (b) evidence on the feasibility of reducing lead from other environmental sources.

The lead reduction specified in this proposal will augment the final lead additive regulations which provide for the general availability of lead-free gasoline. EPA recognizes that if lead-free gasoline is required in all 1975 and later model vehicles, lead-free gasolines would eventually replace leaded gasolines. However, the removal of lead from gasoline according to this approach would be dependent upon the fuel requirements of future emission control devices and consequently would not assure the reduction or elimination of motor vehicle lead emissions. Even if unleaded fuel ultimately displaces all leaded gasolines, the action to reduce lead content in leaded gasoline to 1.25 grams per gallon significantly accelerates the total lead reduction during the next 5 years. Though the benefits associated with the accelerated lead reductions have not been quantified, the Administrator has concluded that this approach is not unreasonably costly and will prudently prevent unnecessary exposure to airborne lead.

Because of the need for public comment on the foregoing issues and since the restated health position is based upon a health effects document which has not been reviewed and commented upon by the public or the scientific community, the Administrator has determined that the previously proposed lead reductions for leaded grades of gasoline should be reproposed for public comment and discussion in a somewhat revised form. The scientific community particularly is encouraged to comprehensively study and comment upon the relative significance of various lead exposure routes in the environment, the cost effectiveness of various approaches to controlling these exposure routes, and the benefits gained by reducing the lead content of leaded gasolines as well as providing for the general availability of lead-free fuel. Such efforts could complement additional investigation of this subject by EPA and other Federal agencies. A detailed examination of the health effects information which forms the basis for EPA's position is included in a paper entitled "EPA's Position on the Health Effects of Airborne Lead." Copies of this paper are available from the Publications Section, Environmental Protection Agency, 401 M Street SW., Room W238, Washington, DC 20460.

The Administrator is required to assure that substitute fuel formulations or additives will not produce emissions that would endanger the public health or welfare to the same or greater degree than lead emissions. The lead reductions required by these regulations and the lead reductions resulting from the general availability of lead-free gasoline will not cause an increase in other harmful emissions. The basis for this finding is set forth in a paper entitled "Effects of Reduced Use of Lead in Gasoline on Vehicle Emissions and Photochemical Reactivity." Copies of this paper are available from the Publications Section, Environmental Protection Agency, 401 M Street SW., Room 238W, Washington, DC 20460.

The Administrator has considered whether it would be more economically and technologically feasible to provide for the protection of public health by

V38-6-JAN 10 73 XUM

means of a new vehicle emission standard for lead particles than by means of the proposed reduction of gasoline lead content. It is considered unlikely that new motor vehicles could be equipped with lead emission control devices prior to the 1975 model year. Beginning in that model year, vehicles will be equipped with catalytic emission control systems which are rendered ineffective by lead emissions, and all evidence available to the Administrator indicates that lead trap devices adequate to protect the catalysts will not be available by 1975. Furthermore, the Administrator does not have authority to prescribe a lead emission standard applicable to other-than-new vehicles so that even a zero lead emission standard could be applied to new motor vehicles only. Older vehicles would continue to use leaded gasolines. Accordingly, the Administrator has determined that providing for the protection of public health by means of a new motor vehicle emission standard for lead is not feasible.

The February proposal provided for control of lead additives in leaded grades of gasoline by specifying a maximum lead content for each gallon of leaded gasoline sold during a given year. The regulations provided for a maximum of 2 grams per gallon effective January 1, 1974; 1.7 grams per gallon effective January 1, 1975; 1.5 grams per gallon effective January 1, 1976; and 1.25 grams per gallon effective January 1, 1977.

The regulations proposed below provide for the lead reductions set forth in the February proposal with certain modifications. Due to the lead time needed by the petroleum industry to prepare for the proposed lead reductions, the regulations proposed below defer the reduction schedule by 1 year. Furthermore, the regulations provide for an average lead level per gallon of leaded gasoline produced by an individual refinery during any quarter rather than a maximum lead content per gallon of gasoline sold. Accordingly, the regulations proposed below provide for a quarterly average lead content in the leaded grades of gasoline produced by any refinery of 2 grams per gallon effective January 1, 1975; 1.7 grams per gallon effective January 1, 1976; 1.5 grams per gallon effective January 1, 1977; and 1.25 grams per gallon effective January 1, 1978.

The proposal's specified average lead levels in the leaded grades of gasoline rather than the maximum lead level per gallon sold responds to comments received on the February proposal. Gasoline refiners emphasized that establishing a maximum lead level for each grade or batch of gasoline restricts flexibility in production of gasoline. The optimum quantity of lead to be added to a particular blend of gasoline varies with the octane quality of the blending stocks and their susceptibility to octane boost from lead additives. These factors result in different lead levels to maximize the utility of lead additives in refining gasoline.

In addition, the ability to add amounts of lead exceeding the standard to particular batches is useful in correcting blending errors or to cover cases where refining units are shutdown for repairs. The alternative would be to store as insurance against shutdowns and to reblend stocks not meeting the octane blending stocks specifications unless additional lead is added. The elimination of flexibility in the use of lead would increase costs and also increase the use of crude oil to some extent.

For these reasons, the refiners urged that each refinery be permitted to allocate lead over gasoline production to make optimal use of lead additives so long as the average lead content of gasoline produced by each refinery did not exceed the maximum levels necessary to achieve the reduction in lead additive usage and lead emissions determined by EPA to be necessary each year.

Several types of averaging have been proposed. Under one system proposed, each refinery (not company) would be permitted to allocate lead over all leaded grades produced so long as the average lead content per gallon of leaded gasoline produced did not exceed EPA's standard for the particular year over a given period. Various companies have proposed quarterly, semiannual, or annual averaging and reporting periods.

The second system recommended would permit a refinery to average its lead usage over all grades of gasoline produced, including the unleaded grade. The unleaded grade will be produced without the use of lead additives. This approach would require that the lead reduction schedule be recomputed to take account of production of unleaded gasoline in establishing the permissible average lead level. The effect would be to reduce the average lead levels allowable for all gasoline produced.

The Administrator finds that optimum refining flexibility consistent with attainment of the necessary reductions in lead usage can be best attained by providing for averaging of lead usage over each refinery's quarterly production of leaded gasoline. Analysis of industry comments and a study commissioned by EPA suggests that leaded pool averaging affords maximum flexibility to the refining industry as a whole, provides for the most efficient use of natural resources, accomplishes the necessary reduction in lead usage and lead emissions throughout the country, and will not cause a variation in the lead content of gasoline sold in different geographic regions. Accordingly, a system of leaded pool averaging is proposed for comment.

Monitoring of lead usage by refineries in production of leaded gasoline requires that quarterly reports be submitted by each refinery showing lead inventories on the first and last days of the reporting period, total gallons of leaded gasoline produced during the period, and the average lead content in each gallon of leaded gasoline produced during the period. Information on quarterly lead shipments to each refinery by lead additive manufacturers is also required for verification of lead usage reported by refineries. Regulations requiring these reports and providing for confidentiality of information reported as appropriate are proposed below.

This issue of the FEDERAL REGISTER sets forth regulations providing for the liability of major brand refiners for sales at their retail outlets of unleaded gasoline containing lead in violation of the standard presented in those regulations. In order to clearly indicate that there is a positive duty on the major brand refiner to prevent any violation of the unleaded gasoline standard at his retail outlets, the Agency is proposing below a regulation specifically defining this duty.

Interested persons may participate in the proposed rule making by submitting written comments in triplicate. Comments on the proposed regulations' lead reduction schedule and the health rationale for this action should be submitted to the Assistant Administrator for Air and Water Programs, Environmental Protection Agency, Waterside Mall, 401 M Street SW., Washington, DC 20460. All relevant comments postmarked not later than 60 days after publication of this notice will be considered. Comments received will be available for public inspection during normal working hours (8 a.m. to 4:30 p.m.) at the Office of Public Affairs, Waterside Mall, 401 M Street SW., Room 329C, Washington, DC 20460.

This notice of proposed rule making is issued under the authority of sections 211 and 301 of the Clean Air Act as amended (42 U.S.C. 1857f–6c, 1857g(a)).

Dated: January 4, 1973.

WILLIAM D. RUCKELSHAUS,
Administrator,
Environmental Protection Agency.

It is proposed to amend Part 80 of Chapter I, Title 40 of the Code of Federal Regulations as follows:

1. In § 80.1, the second sentence is revised to read as follows:

§ 80.1 Scope.

• • • These regulations are based upon a determination by the Administrator that the emission product of a fuel or additive will endanger the public health, or will impair to a significant degree the performance of a motor vehicle emission control device in general use or which the Administrator finds has been developed to a point where in a reasonable time it would be in general use were such regulations promulgated; and certain other findings specified by the Act.

2. In § 80.2, a new paragraph (m) is added as follows:

§ 80.2 Definitions.

• • • • • •

(m) "Lead additive manufacturer" means any person who produces a lead additive or sells a lead additive under his own name.

3. A new § 80.20 is added as follows:

§ 80.20 Controls applicable to gasoline refiners.

(a) (1) In the manufacture of leaded gasoline at any refinery, no gasoline refiner shall exceed the average lead content per gallon specified below for each 3-month period (January through March, April through June, July through September, October through December):

(i) 2.0 grams of lead per gallon, after January 1, 1975;

(ii) 1.7 grams of lead per gallon, after January 1, 1976;

(iii) 1.5 grams of lead per gallon, after January 1, 1977;

(iv) 1.25 grams of lead per gallon, after January 1, 1978.

(2) For each 3-month period (January through March, April through June, July through September, October through December) the average lead content per gallon shall be computed by dividing total grams of lead used at a refinery in the manufacture of gasoline by total gallons of leaded gasoline manufactured at such refinery.

(3) For each 3-month period (January through March, April through June, July through September, October through December) commencing with the period January 1, 1975, through March 31, 1975, each refiner shall submit to the Administrator a report showing for each refinery: (i) The total grams of lead in lead additive inventory on the first day of the period, (ii) the total grams of lead received during the period, (iii) the total grams of lead in lead additive inventory on the last day of the period, (iv) the total gallons of leaded gasoline produced by such refinery during the period, and (v) the average lead content in the total gallonage of leaded gasoline produced during the period. Reports shall be submitted within 15 days after the close of the reporting period, on forms supplied by the Administrator upon request.

(b) The provisions of paragraph (a) (1) (i) of this section shall not apply to any refiner which does not have more than 30,000 barrels per day crude oil or bona fide feed stock capacity from owned or leased facilities or from facilities made available to such refiner under an arrangement such as, but not limited to, an exchange agreement (except one on a refined product for refined product basis), or a throughput or other form of processing agreement, with the same effects as though such facilities had been leased.

(c) After July 1, 1974, no refiner shall cause or permit any violation of § 80.22 (a) by any retailer at whose retail outlet or on whose gasoline pumps or pumpstands the corporate, trade, or brand name of the refiner or any of the refiner's marketing subsidiaries appears or is displayed.

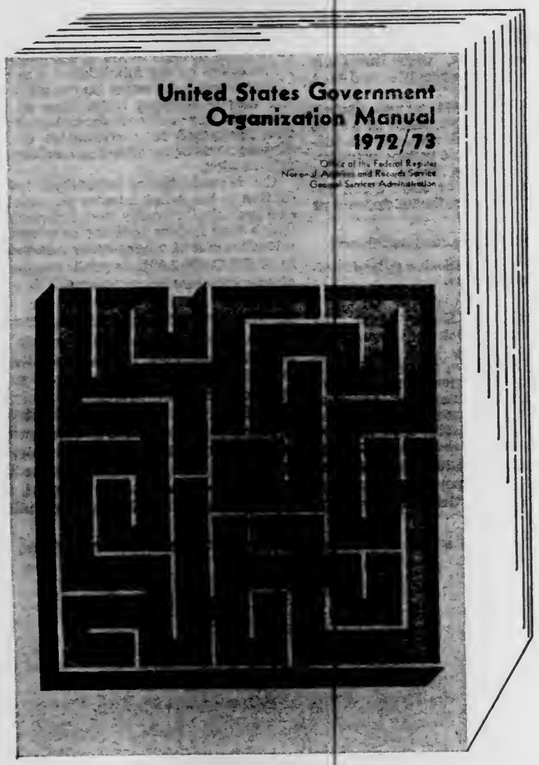
4. A new § 80.25 is added as follows:

§ 80.25 Controls applicable to lead additive manufacturers.

For each 3-month period (January through March, April through June, July through September, October through December) commencing with the period January 1, 1975, through March 31, 1975, each additive manufacturer shall submit to the Administrator a report showing the total grams of lead shipped to each refinery by such lead additive manufacturer during the period. Reports shall be submitted within 15 days after the close of the reporting period, on forms supplied by the Administrator upon request.

5. A new § 80.26 is added as follows:

§ 80.26 Confidentiality of information.



(a) All information reported to the Administrator or his representatives pursuant to this part, which information contains or relates to a trade secret or other matter referred to in 18 U.S.C. 1905, shall be considered confidential for the purpose of such 18 U.S.C. 1905, except that such information may be disclosed to other officers or employees of the United States concerned with carrying out this Act or when relevant in any proceeding under the Act. Nothing in this part shall authorize the withholding of information by the Administrator or any officer or employee under his control from the duly authorized committees of the Congress. Any such confidential information forwarded to a committee of the Congress will be identified as confidential information.

(b) Manufacturers submitting information to the Administrator pursuant to this part shall identify that information which they believe contains or relates to a trade secret or other matter referred to in 18 U.S.C. 1905. Where public disclosure of any information so identified is contemplated by the Administrator, the manufacturer will be notified and allowed a reasonable time in which to satisfy the burden of showing the applicability of 18 U.S.C. 1905 to such information. If the Administrator determines that the manufacturer has sustained this burden of proof, the information in question will not be disclosed. If the Administrator determines that the manufacturer has not sustained this burden of proof, the Administrator may disclose such information.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

FEDERAL REGISTER
Area Code 202 Phone 962–8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for filing, publishing, and making available to the public, regulations and legal notices issued by the Executive Branch of the Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

PESTICIDES—EPA exempts from requirement of a tolerance the use of xylene as an inert ingredient in pesticide formulations applicable to stored grain ... 1275

ENVIRONMENT—EPA proposals describing policy and procedures for issuing or denying permits under the National Pollutant Discharge Elimination System ... 1361

ANTIBIOTIC DRUGS—FDA notice reclassifying effectiveness claims for oxytetracycline hydrochloride and polymyxin B sulfate vaginal tablets ... 1297

MOTOR VEHICLE EXEMPTIONS—
DoT notice of exemption granted General Motors from front seat restraint requirements on 1,000 Chevrolets ... 1298
DoT notice of temporary exemption granted Lotus Cars, Ltd. from compliance with side door strength requirement ... 1299

PROCUREMENT—GSA regulations on bidding and forms for building service contracts ... 1276

OPERATING SUBSIDY FOR CARGO VESSELS CARRYING GRAIN TO USSR—Maritime Admin. regulations ... 1277

NEW ANIMAL DRUGS—FDA approves use of ethylisobutrazine hydrochloride injection and tablets, veterinary, as tranquilizers in dogs, and bambermycins in broiler chicken feed (2 documents) ... 1273, 1274

ECONOMIC STABILIZATION—
Price Commission issues instructions for reporting profit margin overages on form, pending revision ... 1269
Pay Board/IRS rulings on escalator clauses in wage increases ... 1270

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Title 6—ECONOMIC STABILIZATION

Chapter III—Price Commission

PART 300—PRICE STABILIZATION

Reporting Profit Margin Overages

The purpose of this amendment to Appendix II to Part 300 of the Price Commission's regulations (6 CFR Part 300), is to clarify the profit margin reporting requirements as they apply to firms whose accounting procedures call for the establishment of a liability or contingent liability to reflect profit margin overages.

Section 300.54 of the Price Commission's regulations sets forth rules with respect to remedial orders which the Commission may issue in cases of profit margin violations by manufacturers, service organizations, retailers, wholesalers, and providers of health services.

The Price Commission has consistently interpreted its regulations to require that the amount of the profit margin overage is to be determined before any adjustment is made in the accounts of a firm by entering the amount of the overage as a liability or contingent liability.

The Price Commission has received inquiries concerning the method by which profit margin overages are to be reflected in the reports (Form PC–51) required by §§ 300.51 and 300.52 of the Commission's regulations.

It is understood that, in some cases, the use of generally accepted accounting principles would require a firm which has determined that its profits had exceeded its base period profit margin to make adjustments in its accounts after its fiscal period has closed to reflect the liability for that overage and a corresponding reduction in net sales. In those cases, the profit margin stated on the firm's Form PC–51 would not fairly state the amount of the overage as a result of its being eliminated by the adjustment.

Accordingly, the establishment of a liability or contingent liability in the accounts of a firm (including any Price Category III firm) will not eliminate the possible imposition of the sanctions described in § 300.54 for a violation of the firm's base period profit margin. Instructions on future editions of Form PC–51 will be modified to more clearly provide for the reporting of these profit margin overages by Price Category I or II firms. Pending the republication of modified Form PC–51, an addition to the existing instructions for preparation of Form PC–51 is being prescribed.

Since this amendment provides clarification and immediate guidance and information for the effective implementation of the price stabilization program, further notice and procedure thereon is impracticable and good cause exists for making it effective in less than 30 days after publication in the FEDERAL REGISTER.

(Economic Stabilization Act of 1970, as amended, Public Law 91–379, 84 Stat. 799; Public Law 91–558, 84 Stat. 1468; Public Law 92–8, 85 Stat. 13; Public Law 92–15, 85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92–210, 85 Stat. 743; E.O. No. 11640, 37 FR 1213, Jan. 27, 1972; Cost of Living Council Order No. 4, 46 FR 20202, Oct. 16, 1971)

In consideration of the foregoing, Appendix II to Part 300 of Title 6 of the Code of Federal Regulations is amended as set forth below effective January 9, 1973.

Issued in Washington, D.C., on January 9, 1973.

C. JACKSON GRAYSON, JR.,
Chairman, Price Commission.

V 38 - 7 JAN 11 73 XUM

Appendix II to Part 300 of Title 6 of the Code of Federal Regulations is amended by inserting the following clause at the end of the "Addendum to instructions for preparation of Form PC-51".

ADDENDUM TO INSTRUCTIONS FOR THE PREPARATION OF FORM PC-51

. . . . . .

PROFIT MARGIN OVERAGE

If, except for the fact that the firm's accounting procedures call for profit margin overages to be treated as a liability or contingent liability, Part II (Summary Income Report) would reflect a profit margin overage, the firm shall attach a schedule to Form PC-51 showing (a) the amount of that overage; (b) the detail computation of that overage; and (c) the item in Part II to which that overage was charged.

[FR Doc.73-730 Filed 1-10-73;8:45 am]

Rulings—Internal Revenue Service, Department of the Treasury

[Pay Board Ruling 1973-1]

ESCALATOR CLAUSES

Pay Board Ruling

Facts. An independent local union has negotiated with several employers a labor contract the terms of which provide that there will not be an initial wage increase but wages will increase as the cost of living rises. More specifically, the terms provide for a raise of 15 cents per hour for each rise of 1 point in the Labor Department's Consumer Price Index. The amount of the increase in the index, and thus wages, is to be determined every 6 months. Presently, the average salary of a covered employee is $5.60 per hour. A 1-point rise in the Consumer Price Index will result in a 2.7-percent increase in salary pursuant to the terms of the negotiated contract.

Issue. Does the above cost-of-living adjustment formula constitute a generally acceptable escalator clause for purposes of Economic Stabilization Regulations, § 201.64(a), 37 FR 24979 (1972), in which case it will be entitled to the special computational rules contained in such section?

Ruling. No. To qualify as a generally accepted escalator clause, such clause must meet, inter alia, the following requirements:

(1) Be directly related to a rise in the cost of living as measured by the Bureau of Labor Statistics Consumer Price Index for either the locale of the work force or for some broader area which includes that locale;

(2) Provide for a periodic review of movement in the CPI and appropriate wage adjustments in response thereto, in accordance with a previously stated formula (downward adjustments do not have to be specified to fulfill this criterion);

(3) Cause a percentage rise in average straight-time hourly pay which does not exceed the percentage rise in the Consumer Price Index;

(4) In those instances where the escalator is adopted after November 14, 1971, be implemented prospectively. Thus, for example, a formula initially adopted in the 10th month of a control year which provided for an increase to reflect the CPI rise in the first 9 months of the control year would not meet this last requirement. The formula would have to be geared to CPI increases occurring after the 10th month of the control year.

The escalator clause negotiated in the above factual situation provides for a 2.7 percent increase in salary for each one point rise in the Consumer Price Index; at its level in October 1972 (126.6; 1967=100), a 1-point rise in the CPI would be a percentage rise of 0.78 percent, or substantially less than 2.7 percent. Therefore, the formula does not meet requirement No. 3 indicated above and will not qualify as a generally accepted escalator clause for purposes of § 201.64(a).

The agreement reached represents a general wage and salary increase which is subject to the 5.5 percent general wage and salary standard and the standard sum of the percentage increases method will be used to determine the appropriateness of each raise under the formula without the time weighting allowed in § 201.64(a).

This ruling has been approved by the General Counsel of the Pay Board.

Dated: January 9, 1973.

LEE H. HENKEL, Jr.,
Chief Counsel,
Internal Revenue Service.

Approved: January 9, 1973.

SAMUEL R. PIERCE, Jr.,
General Counsel,
Department of the Treasury.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 283]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period January 12-18, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.583 Navel Orange Regulation 283.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) (i) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(ii) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges has weakened because of poor quality shipments. However, there is a demand for good quality fruit which is in short supply in the markets. Prices f.o.b. the week ended January 4, 1973, average $3.59 a carton on 638 carloads compared to $3.71 on 682 carloads the previous week. Track and rolling supplies at 375 cars were down 48 cars from last week.

(iii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 9, 1973.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period January 12, 1973, through January 18, 1973, are hereby fixed as follows:

(i) District 1: 810,000 cartons;

(ii) District 2: 150,000 cartons;

(iii) District 3: 40,000 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: January 10, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-786 Filed 1-10-73;12:50 pm]

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 0—CONDUCT OF EMPLOYEES

Solicitations and Indebtedness

The Atomic Energy Commission is amending Part 0 of its regulations concerning the credit affairs of its employees.

Because these amendments relate to a matter of agency management and personnel, notice of proposed rule making and public procedure thereon are unnecessary. These amendments are effective on January 11, 1973.

Part 0 is amended as set out below:

1. Section 0.735-42(d) of Subpart D, Chapter I, Title 10 of the Code of Federal Regulations is amended to read as follows:

§ 0.735-42 Gifts, entertainment, and favors.

. . . . . .

(d) An employee shall not solicit a contribution from another employee for a gift to an official superior, make a donation to an official superior, or accept a gift from an employee receiving less pay than himself (5 U.S.C. 7351), nor shall an employee directly or indirectly solicit from, accept from, offer to, or grant to an official superior or subordinate employee a loan of more than a nominal amount. However, this paragraph does not prohibit (1) a voluntary gift of nominal value or donation in a nominal amount made on a special occasion such as marriage, illness, or retirement, or (2) a loan as described above of more than a nominal amount where a special personal or business relationship is involved, with prior approval of the higher-ranking employee's supervisor, after consultation with the counselor for AEC, or a deputy counselor, as provided in § 0.735-3(h). A copy of such approval shall be filed as provided for in § 0.735-28(e)(11).

. . . . . .

2. Section 0.735-45 of Subpart D, Chapter I, Title 10 of the Code of Federal Regulations is amended to read as follows:

§ 0.735-45 Employee indebtedness.

Except as provided in § 0.735-42(d), the AEC considers the credit affairs of its employees essentially their own concern. However, employees are expected to conduct their credit affairs in a manner which does not reflect adversely on the Government as their employer. The AEC will not be placed in the position of acting as a collection agency or of determining the validity or amount of contested debts. An employee is expected to pay each just financial obligation in a proper and timely manner, especially one imposed by law such as Federal, State, or local taxes. Failure on the part of an employee without good reason to honor just financial obligations or to make or adhere to satisfactory arrangements for settlement may be cause for disciplinary action. For the purpose of this section, a "just financial obligation" means one acknowledged by the employee or reduced to judgment by a court, and "in a proper and timely manner" means in a manner which AEC determines does not, under the circumstances, reflect adversely on the Government as his employer.

Dated this 4th day of January 1973.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.73-575 Filed 1-10-73;8:45 am]

MISCELLANEOUS AMENDMENTS TO CHAPTER

The Atomic Energy Commission in early 1972 announced major organizational changes in the regulatory staff. Commission regulations contain numerous references to the previous organizational units with respect to the filing of applications and reports.

The amendments of Commission regulations set forth below change the names of the former regulatory divisions, Regional Compliance Offices, and District Safeguards Offices to conform with the names of the new regulatory units.

Because these amendments relate solely to agency management, and minor matters, good cause exists for omitting notice of proposed rule making, and public procedure thereon, as unnecessary, and for making the amendments effective upon publication in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 20, 30, 31, 32, 34, 35, 36, 40, 50, 55, 70, 71, 73, 100, 115, 140, and 150, are published as a document subject to codification to be effective on January 11, 1973.

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

1. Sections 20.402 (a) and (b), 20.403 (a) and (b), and 20.405(a) are amended by substituting "Regulatory Operations Regional Office" for "Regional Compliance Office" and substituting "Director of Regulatory Operations" for "Director, Division of Compliance."

2. The heading of Appendix D is amended by substituting "Regulatory Operations Regional Offices" for "Compliance Offices."

PART 30—RULES OF GENERAL APPLICABILITY TO LICENSING OF BYPRODUCT MATERIAL

3. Section 30.32(a) is amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing."

4. Section 30.55(c) is amended by substituting "Director of Regulatory Operations" for "Director, Division of Nuclear Materials Safeguards" and for "Division of Nuclear Materials Safeguards."

PART 31—GENERAL LICENSES FOR BYPRODUCT MATERIAL

5. Sections 31.5(d) (1) and (5) are amended by substituting "Regulatory Operations Regional Office" for "Regional Compliance Office."

6. Sections 31.6(a) and 31.11 (b) and (e) are amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing."

PART 32—SPECIFIC LICENSES TO MANUFACTURE, DISTRIBUTE, OR IMPORT EXEMPTED AND GENERALLY LICENSED ITEMS CONTAINING BYPRODUCT MATERIAL

7. Sections 32.12, 32.16, 32.20, 32.25 (c), 32.29(c), 32.52(a), 32.56, 32.60, and 32.63 are amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing."

PART 34—LICENSES FOR RADIOGRAPHY AND RADIATION SAFETY REQUIREMENTS FOR RADIOGRAPHIC OPERATIONS

8. Section 34.25(d) is amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing" and substituting "Regulatory Operations

V 38 - 7 JAN 11 73 XUM

Regional Office" for "Regional Compliance Office."

PART 35—HUMAN USES OF BYPRODUCT MATERIAL

9. Sections 35.31(b) and (d) are amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing."

PART 36—EXPORT AND IMPORT OF BYPRODUCT MATERIAL

10. Sections 36.2 (a) and (b), 36.11, 36.22(c), and 36.24(c) are amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing" and for "Director, Division of State and Licensee Relations."

PART 40—LICENSING OF SOURCE MATERIAL

11. Sections 40.5 and 40.23 (a) and (e) are amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing" and for "Director, Division of State and Licensee Relations".

12. The first sentence of § 40.31(a) is amended to read as follows:

§ 40.31 Applications for specific licenses.

(a) Applications for specific licenses should be filed in quadruplicate on Form AEC–2, "Application for Source Material License," or on Form AEC–7, "Application for License to Export Byproduct or Source Material," as appropriate, with the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545. * * *

* * * * *

13. Section 40.64(c) is amended by substituting "Director of Regulatory Operations" for "Director, Division of Nuclear Materials Safeguards".

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

14. Sections 50.4, 50.30(c), and 50.59 are amended by substituting "Director of Licensing" for "Director, Division of Reactor Licensing".

15. The first sentence of § 50.30(a) is amended to read as follows:

§ 50.30 Filing of applications for licenses; oath or affirmation.

(a) *Place of filing.* Each application for a license, including whenever appropriate a construction permit or amendment thereof, should be filed with the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545. * * *

* * * * *

16. Footnote 1 of Appendix E is amended to read as follows:

[1] The guide is available for inspection at the Commission's Public Document Room, 1717 H Street NW., and copies may be obtained by addressing a request to the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

17. In § 50.55(e), subparagraphs (2) and (3) are amended by substituting "Regulatory Operations Regional Office" for "Regional Compliance Office" and substituting "Director of Regulatory Operations" for "Director, Division of Compliance", and subparagraph (4) is amended by substituting "Director of Regulatory Operations" for "Division of Compliance".

PART 55—OPERATORS' LICENSES

18. Sections 55.5, 55.10(a), 55.60, and the note which follows 55.60 are amended by substituting "Director of Licensing" for "Director, Division of Reactor Licensing."

PART 70—SPECIAL NUCLEAR MATERIAL

19. Section 70.5 is amended to read as follows:

§ 70.5 Communications.

Except where otherwise specified, all communications and reports concerning the regulations in this part and applications filed under them should be addressed to the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545. Communications, reports, and applications may be delivered in person at the Commission's offices at 1717 H Street NW., Washington, DC; 7920 Norfolk Avenue, Bethesda, MD; or at Germantown, Md.

20. The first sentence of § 70.21(a) is amended to read as follows:

§ 70.21 Filing.

(a) Applications for licenses should be filed in sextuplicate, provided that 25 copies of an application for a license to possess and use special nuclear material in a plutonium processing and fuel fabrication plant shall be filed with the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545. * * *

* * * * *

21. Footnote 1., which follows § 70.22 (b)(1) is amended by substituting "Director of Licensing" for "Director, Division of Nuclear Materials Safeguards".

22. Section 70.39(d) is amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing".

23. Footnote 4., which follows § 70.51 (c)(1) is amended by substituting "Director of Licensing" for "Director, Division of Nuclear Materials Safeguards".

24. Section 70.52 is amended to read as follows:

§ 70.52 Reports of accidental criticality or loss of special nuclear material.

Each licensee shall report immediately to the Director of the appropriate Atomic Energy Commission Regulatory Operations Regional Office listed in Appendix A, by telephone, telegram, or teletype, any case of accidental criticality and any loss, other than normal operating loss, of special nuclear material.

PART 71—PACKAGING OF RADIOACTIVE MATERIAL FOR TRANSPORT AND TRANSPORTATION OF RADIOACTIVE MATERIAL UNDER CERTAIN CONDITIONS

25. Section 71.10 is amended by substituting "Director of Licensing" for "Director, Division of Materials Licensing".

26. Section 71.61 is amended by substituting "Director of Licensing" for "Division of Materials Licensing".

PART 73—PHYSICAL PROTECTION OF SPECIAL NUCLEAR MATERIAL

27. Sections 73.5, 73.31(d), and 73.42 are amended by substituting "Director of Regulatory Operations" for "Director, Division of Nuclear Materials Safeguards" and for "Division of Nuclear Materials Safeguards" and substituting "Regulatory Operations Regional Office" for "District Safeguards Offices."

28. Appendix A of Part 73 is revised to read as follows:

APPENDIX A

U.S. ATOMIC ENERGY COMMISSION
REGULATORY OPERATIONS REGIONAL OFFICES

Region and address	Telephone: Daytime	Telephone: Nights and Holidays
Region I, Directorate of Regulatory, Operations, USAEC, 970 Broad St., Newark, NJ 07102	201–645 3960	201–645 3960
Region II, Directorate of Regulatory, Operations, USAEC, Suite 818, 230 Peachtree St. NW., Atlanta, GA 30303	404–526 1503	404–526 1503
Region III, Directorate of Regulatory, Operations, USAEC, 799 Roosevelt Rd., Glen Ellyn, IL 60137	312–858 2660	312–739 7711
Region V, Directorate of Regulatory, Operations, USAEC, 2111 Bancroft Way, Berkeley, CA 94701	415–841 5121 (Ext. 655)	415–841 9214

For the purposes of this regulation, the geographical areas assigned to the Regional Offices are as follows:

REGION I

Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont.

REGION II

Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virginia, and West Virginia.

REGION III

Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, and Wisconsin.

REGION V

Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington, and Wyoming.

PART 100—REACTOR SITE CRITERIA

29. The note at the end of § 100.11 is amended by substituting the words "Director of Licensing" for "Director, Division of Reactor Licensing".

PART 115—PROCEDURES FOR REVIEW OF CERTAIN NUCLEAR REACTORS EXEMPTED FROM LICENSING REQUIREMENTS

30. Sections 115.6, 115.20 (a) and (c), and 115.47(d) are amended by substituting the words "Director of Licensing" for "Director, Division of Reactor Licensing".

31. Section 115.43(c) is amended by substituting the words "Regulatory Operations Regional Office" for "Regional Compliance Office" and substituting "Director of Regulatory Operations" for "Director, Division of Compliance" and for "Division of Compliance".

PART 140—FINANCIAL PROTECTION REQUIREMENTS AND INDEMNITY AGREEMENTS

32. Section 140.5 is amended by substituting "Director of Licensing" for "Director, Division of State and Licensee Relations".

PART 150—EXEMPTIONS AND CONTINUED REGULATORY AUTHORITY IN AGREEMENT STATES UNDER SECTION 274

33. Sections 150.17(c), 150.19(c), and 150.20(b) are amended by substituting "Director of Regulatory Operations" for "Director, Division of Nuclear Materials Safeguards" and for "Division of Nuclear Materials Safeguards" and substituting "Regulatory Operations Regional Office" for "Regional Compliance Office".

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated at Bethesda, Md., this 27th day of December 1972.

For the Atomic Energy Commission.

L. MANNING MUNTZING,
Director of Regulation.

[FR Doc.73-577 Filed 1-10-73;8:45 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72-GL-49]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On pages 20953 and 20954 of the FEDERAL REGISTER dated October 5, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Macomb, Ill.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Moines, Ill., on December 15, 1972.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (38 FR 435), the following transition area is amended to read:

MACOMB, ILL.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Macomb Municipal Airport (latitude 40°31'11" N., longitude 90°39'17" W.); and within 3 miles each side of the 084° bearing from the airport extending from the 5-mile-radius area to 8 miles east of the airport.

[FR Doc.73-545 Filed 1-10-73;8:45 am]

[Airspace Docket No. 72-WA-64]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to change the using agency of the Sailor Creek, Idaho, Restricted Area R–3202. This change was requested by the Department of the Air Force.

This amendment is minor in nature and effects no substantive change in the regulation; therefore, notice and public procedure thereon are deemed unnecessary, and good cause exists to make this amendment effective without regard to the 30-day period preceding effectiveness.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective on January 11, 1973, as hereinafter set forth.

In § 73.32 (38 FR 648) the Sailor Creek, Idaho, Restricted Area R–3202 is amended by changing the using agency from "Commander, 347th Tactical Fighter Wing, Mountain Home AFB, Idaho." to "Commander, 366th Tactical Fighter Wing, Mountain Home AFB, Idaho."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 3, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-544 Filed 1-10-73;8:45 am]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. 8863-o]

PART 13—PROHIBITED TRADE PRACTICES

Brown Auto Stabilizer Co., and Charles R. Brown

Correction

In FR Doc. 72-22116 appearing on page 28504 of the issue for Wednesday, December 27, 1972, in the ninth line of the first paragraph the reference to "§ 13.70" should read "§ 13.1740".

[Docket No. C-2320]

PART 13—PROHIBITED TRADE PRACTICES

Stark, Roschelle & Alchas, Inc., et al.

Correction

In FR Doc. 72-21969 appearing on page 28281 of the issue for Friday, December 22, 1972, the following should be inserted after the fourth line of the first ordering paragraph: "Alchas, individually and as officers of".

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Ethylisobutrazine Hydrochloride Injection, Veterinary, and Ethylisobutrazine Hydrochloride Tablets, Veterinary

The Commissioner of Food and Drugs has evaluated supplemental new animal drug applications for ethylisobutrazine hydrochloride injection, veterinary (35–265V), and ethylisobutrazine hydrochloride tablets, veterinary (11–222V), filed by Jensen-Salsbery Laboratories, Division of Richardson-Merrell, Inc., Kansas City, Mo. 64141, proposing the safe and effective use of the drugs as tranquillizers in dogs. The supplemental applications are approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135b and 135c are amended as follows:

V38-7 JAN 11 73 XUM

1. Part 135b is amended by adding the following new section:

§ 135b.73 **Ethylisobutrazine hydrochloride injection, veterinary.**

(a) *Specifications.* The drug is a sterile aqueous solution. Each milliliter contains 50 milligrams of ethylisobutrazine hydrochloride.

(b) *Sponsor.* See code No. 062 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) It is used in dogs as a tranquilizer.

(2) It is administered intramuscularly at a dosage level of 2 to 5 milligrams of ethylisobutrazine hydrochloride per pound of body weight for profound tranquilization. It is administered intravenously at a dosage level of 1 to 2 milligrams of ethylisobutrazine hydrochloride per pound of body weight to effect.

(3) It is not to be used in conjunction with organophosphates and/or procaine hydrochloride because phenothiazines may potentiate the toxicity of organophosphates and the activity of procaine hydrochloride.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

2. Part 135c is amended by adding the following new section:

§ 135c.89 **Ethylisobutrazine hydrochloride tablets, veterinary.**

(a) *Specifications.* Each tablet contains either 10 milligrams or 50 milligrams of ethylisobutrazine hydrochloride.

(b) *Sponsor.* See code No. 062 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) It is administered orally to dogs as a tranquilizer.

(2) It is administered once daily at a dosage level of 2 to 5 milligrams of ethylisobutrazine hydrochloride per pound of body weight.

(3) It is not to be used in conjunction with organophosphates and/or procaine hydrochloride because phenothiazine may potentiate the toxicity of organophosphates and the activity of procaine hydrochloride.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date. This order shall be effective on January 11, 1973.

(Sec. 512(1), 82 Stat. 347; 21 U.S.C. 3606b(1))

Dated: January 4, 1973.

FRED J. KINGMA,
Acting Director,
Bureau of Veterinary Medicine.

[FR Doc.73-562 Filed 1-10-73;8:45 am]

BAMBERMYCINS

The Commissioner of Food and Drugs has evaluated a new animal drug application (44-759V) filed by Hoechst Pharmaceuticals, Inc., Route 202-206, Somerville, N.J. 08876, proposing the safe and effective use of bambermycins in broiler chicken feed. The application is approved.

The Commissioner concludes that to assure that edible tissues are safe for human consumption the regulations should be amended to provide safe tolerances for residues of the drug in edible tissues of chickens.

To facilitate referencing, Hoechst Pharmaceuticals, Inc., is being assigned a code number and is placed in the list of firms in § 135.501 (21 CFR 135.501).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b (i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135, 135e, and 135g are amended as follows:

PART 135—NEW ANIMAL DRUGS

Subpart C—Sponsors of Approved Applications

1. Part 135 is amended in § 135.501(c) by adding a new code No. 090 as follows:

§ 135.501 **Names, addresses, and code numbers of sponsors of approved applications.**

* * * * * * *

(c) * * *

Code No.	*Firm name and address*
* * *	* * *
090	Hoechst Pharmaceuticals, Inc., Route 202-206, Somerville, N.J. 08876.

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

2. Part 135e is amended by adding a new § 135e.65 as follows:

§ 135e.65 **Bambermycins.**

(a) *Specifications.* Bambermycins are the dried fermentation residues produced by the fermentation of *Streptomyces bambergiensis, Streptomyces ghanaensis, Streptomyces ederensis, Streptomyces geysiriensis,* and mutants and variants of these organisms.

(b) *Approvals.* Premix level of 2 grams of bambermycin activity per pound of premix has been granted; for sponsor see Code No. 090 in § 135.501(c) of this chapter.

(c) *Assay limits.* Premix must contain not less than 90 percent nor more than 110 percent of labeled amount of bambermycin activity. Finished feed must contain not less than 70 percent nor more than 130 percent of the labeled amount of bambermycin activity.

(d) *Related tolerances.* See § 135g.84 of this chapter.

(e) *Conditions of use.* It is used as follows:

	Grams per ton	Limitations	Indications for use
Bambermycins	1-2	For broiler chickens; feed continuously as the sole ration.	For increased rate of weight gain and improved feed efficiency.

PART 135g—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

3. Part 135g is amended by adding a new § 135g.84 as follows:

§ 135g.84 **Bambermycins.**

Tolerances are established for residues of bambermycins in uncooked edible tissues of chickens as follows:

(a) In muscle tissues: 0.75 part per million.

(b) In liver: 0.50 part per million.

(c) In kidney, skin, and fat of chickens: 1.00 part per million.

Effective date. This order shall be effective on January 11, 1973.

(Sec. 512(1), 82 Stat. 347; 21 U.S.C. 360b(1))

Dated: January 4, 1973.

FRED J. KINGMA,
Acting Director,
Bureau of Veterinary Medicine.

Title 32A—NATIONAL DEFENSE, APPENDIX

Chapter X—Office of Oil and Gas, Department of the Interior

[Oil Import Reg. 1 (Rev. 5), Amdt. 50]

OI REG. 1—OIL IMPORT REGULATION

Fuel Oil Imports From the Virgin Islands

The President's Proclamation of December 18, 1972, "Modifying Proclamation 3279, Relating to Imports of Petroleum and Petroleum Products", among other changes, added the following sentence at the end of subparagraph (4) of paragraph (b) of section 3:

Whenever the Secretary, upon recommendation of the Director of the Office of Emergency Preparedness finds that there may be shortages in the supply of any finished product or products in Districts I–IV which products are deemed by the Director of the Office of Emergency Preparedness to be important to the national security, the Secretary may allocate imports of any such product or products manufactured in the Virgin Islands in excess of the limitation in the preceding sentence for such product or products, for such time and under such conditions as he may deem consistent with the purposes of this proclamation.

The substantially colder than normal weather experienced this year to date, particularly in the midwest, has resulted in an unexpectedly high level of natural gas curtailments and local propane and No. 2 fuel oil shortages.

In view of the complex interrelationships of these fuels and estimates of the increasingly tight demand-supply situation with respect to distillates in Districts I–IV and upon the recommendation of the Director of the Office of Emergency Preparedness, I find that there may be shortages this heating season in Districts I–IV of No. 2 fuel oil, a product which the Director of the Office of Emergency Preparedness has deemed to be important to the national security.

In order to contribute to the alleviation of potential supply dislocations as rapidly as possible, it is not considered necessary to give notice of proposed rule making respecting this amendment, and it shall become effective immediately.

Accordingly, a new section 13A is added to Oil Import Regulation 1 (Revision 5), as amended.

ROGERS C. B. MORTON,
Secretary of the Interior.

I concur: January 5, 1973.

G. A. LINCOLN,
Director,
Office of Emergency Preparedness.

§ 13A **Emergency finished products allocation.**

(a) For the purpose of this section, (1) the term "No. 2 fuel oil" means a finished product which has the physical and chemical characteristics as set forth in subparagraph (1), paragraph (a) of section 30 of this regulation. (2) The term "eligible applicant" means any person in the business of selling No. 2 fuel oil in Districts I–IV.

(b) (1) For the period January 1, 1973 through April 30, 1973, hereafter referred to as the "period" within the allocation period which begins January 1, 1973, No. 2 fuel oil which has been or is to be manufactured in the Virgin Islands may be imported by eligible applicants who comply with the provisions of this section.

(2) For the "period," the Director shall make an allocation of imports of No. 2 fuel oil into Districts I–IV to any eligible applicant who certifies that such imports are required to meet obligations under contracts with, or purchase orders from, customers in Districts I–IV, and that such eligible applicant, through contract of purchase or otherwise, has the right to take delivery of such No. 2 fuel oil in the Virgin Islands or elsewhere.

(3) An application for allocations under this section may be filed in letter or telegraphic form during the "period."

(c) (1) The Director shall process applications in the sequence in which they are received and make allocations in the quantity which the applicant has certified in accordance with paragraph (b) (2) of this section. Any person making application based upon the certification in this section is cautioned against making false statements in, or in connection with application filed with the Director or in connection with any stated contractual commitment with his buyers, and is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both.

(2) When an allocation has been made to a person under this section, the Director shall issue a license or licenses based on the allocation specifying the amount of No. 2 fuel oil which may be imported from the Virgin Islands into Districts I–IV. All licenses issued under allocations made pursuant to this section shall be valid only during the period January 1, 1973 through May 15, 1973. No licenses issued pursuant to this section may be sold, assigned, or otherwise transferred. No. 2 fuel oil imported pursuant to an allocation and license issued under this section must not be further processed in any manner, including blending or mixing with other petroleum products, by mechanical means. It is intended that No. 2 burner fuel oil which is imported pursuant to an allocation and license under this section be for use in fuel oil burning equipment for the generation of heat in furnaces for heating buildings or the generation of steam. Importers are urged to verify its ultimate use to the best of their ability.

(d) Shipments of No. 2 fuel oil made pursuant to this section 13A will not be credited as shipments of product to meet any other written or exising contractual or allocation agreements made with the Department of the Interior.

[FR Doc.73-604 Filed 1-8-73;2:00 pm]

Title 39—POSTAL SERVICE

Chapter I—U.S. Postal Service

INCORPORATION BY REFERENCE OF REGULATIONS GOVERNING "MAIL TRANSPORTATION CONTRACTING"

Part 601 sets forth the regulations of the Postal Service relating to the incorporation by reference of the Postal Contracting Manual. Section 601.102(a) of that part provides as follows: "The Postal Contracting Manual applies to all Postal Service procurements of property services, except the purchase of mail transportation and related services by contract (see Part 619 of this subchapter). Provisions relating to the purchase of mail transportation and related services by contract may, however, be incorporated at a later date into the Postal Contracting Manual and may be subject to later incorporation by reference in the Code of Federal Regulations."

The Postal Service has now amended its Postal Contracting Manual to include therein provisions relating to the purchase of mail transportation and related services by contract. (Notice of the amendment to the Postal Contracting Manual will be published separately in accordance with the provisions of 39 CFR 601.105.) The purpose of this document is to delete those provisions of Title 39 which duplicate or are inconsistent with the provisions included within the Postal Contracting Manual.

Accordingly Chapter I of Title 39 is amended as follows:

PARTS 510–570—[DELETED]

1. Delete all of Subchapter G consisting of Parts 510, 520, 530, 540, 550, 560, and 570.

PART 601—PROCUREMENT OF PROPERTY AND SERVICES

2. Revise the heading of Part 601 to read as set forth above.

3. Revise the authority citations to read as follows:

AUTHORITY: 5 U.S.C. 552(a), 39 U.S.C. 401, 404, 410, 411, 2008, 5001–5605.

4. Revise § 601.102(a) to read as follows:

§ 601.102 **Applicability and coverage.**

(a) The Postal Contracting Manual applies to all Postal Service procurements of property and services.

* * * * * *

PART 619—[DELETED]

5. Delete Part 619.

Effective date. This document is effective January 15, 1973.

(39 U.S.C. 401, 404, 2008, 5001–5605)

ROGER P. CRAIG,
Deputy General Counsel.

[FR Doc.73-574 Filed 1-10-73;8:45 am]

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Xylene

A notice was published by the Environmental Protection Agency in the FEDERAL REGISTER of October 20, 1972 (37 FR 22627), proposing that § 180.1001 *Exemptions from the requirements of a tolerance* of the pesticide regulations be amended in paragraph (c) to provide for the use of xylene as an inert ingredient in pesticide formulations applied to stored grain only. No comments or requests for referral to an advisory committee were received.

It is concluded that the proposal should be adopted.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 FR 9038), § 180.1001 is amended by alphabetically inserting a new item in the table in paragraph (c) as follows:

§ 180.1001 **Exemptions from the requirement of a tolerance.**

* * * * * *

(c) * * *

V 38-7 JAN 11 73 XUM

Inert ingredients	Limits	Uses
• • •	• • •	• • •
Xylene meeting the specifications listed in § 121.1182(b)(4) of Chapter I, Title 21, Code of Federal Regulations.	In pesticide formulations for grain storage only.	Solvent, cosolvent.
• • •	• • •	• • •

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, Fourth and M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on January 11, 1973.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e))

Dated: January 4, 1973.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticides Programs.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 5B—Public Buildings Service, General Services Administration

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following revisions delete the requirement for Central Office approval on amendments issued for projects released by the Central Office for bidding purposes, and prescribe and illustrate the revised editions of GSA Forms 1467-A, 1468, and 1903 and Standard Form 21 (GSA Overprint).

PART 5B-2—PROCUREMENT BY FORMAL ADVERTISING

Subpart 5B-2.2—Solicitation of Bids

Section 5B-2.207 is revised as follows:

§ 5B-2.207 Amendment of invitations for bids.

Amendments regarding questions raised by prospective bidders shall not be issued later than 10 days before the date set for receipt of bids. Amendments involving wage determinations shall be issued as provided in §§ 1-12.404-2 and 5B-12.404-2.

PART 5B-16—PROCUREMENT FORMS

The table of contents of Part 5B-16 is amended to include the following new entries:

Sec.
5B-16.901-21 Standard Form 21 (GSA Overprint, May 1971), Bid Form (Construction Contract).
5B-16.950-1903 GSA Form 1903, May 1971, Notice to Bidder (Construction Contract).

Subpart 5B-16.70—Forms for Building Service Contracts

Section 5B-16.7001 is revised as follows:

§ 5B-16.7001 Forms prescribed.

The following GSA forms are prescribed for use in procuring building services:

(a) GSA Form 1467, December 1966 edition, Invitation, Bid, and Award (Contract for Building Services).

(b) GSA Form 1467-A, September 1970 edition, Bidding Instructions, Terms, and Conditions (Contract for Building Services).

(c) GSA Form 1468, July 1969 edition, General Provisions (Contract for Building Services).

NOTE: Copies of the forms listed in §§ 5B-16.901-21 and 5B-16.950-1903 are filed with the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1.101(c))

Effective date. This amendment is effective on January 11, 1973.

Dated: January 3, 1973.

JOHN F. GALUARDI,
Acting Commissioner, Public Buildings Service.

[FR Doc.73-407 Filed 1-10-73;8:45 am]

Chapter 9—Atomic Energy Commission

PART 9-7—CONTRACT CLAUSES

Subpart 9-7.50—Use of Standard Clauses

PART 9-59—ADMINISTRATION OF COST-TYPE CONTRACTOR PROCUREMENT ACTIVITIES

Miscellaneous Amendments

These changes are being made to (1) revise the language in § 9-7.5004-7(b) to clarify the policy that the clause regarding payment of interest on contractors' claims, as set forth in FPR 1-1.322(b), is to be included in all subcontracts containing the Disputes clause set forth in § 9-7.5004-3(b); and (2) revise the language in § 9-59.003(j) to clarify the policy that the Disputes clause may be included in lower-tier subcontracts provided all subcontracts of a higher tier are cost type.

1. In Subpart 9-7.50, Use of Standard Clauses, § 9-7.5004-7, *Payment of interest on contractors' claims*, paragraph (b), is revised to read as follows:

Subpart 9-7.50—Use of Standard Clauses

§ 9-7.5004 Standard AEC clauses which are mandatory as to text.

§ 9-7.5004-7 Payment of interest on contractors' claims.

• • • • • •

(b) The clause referenced in paragraph (a) of this section applies to subcontracts under cost-type contracts in the manner the Disputes clause applies to such subcontracts pursuant to § 9-59.003(j).

• • • • • •

2. In Part 9-59, Administration of cost-type Contractor Procurement Activities, § 9-59.003, *Policies for cost-type contractor procurement*, paragraph (j) is revised to read as follows:

§ 9-59.003 Policies for cost-type contractor procurement.

• • • • • •

(j) (1) First-tier subcontracts and purchase orders for supplies and services for the AEC work normally should include provisions for resolving disputes to the same extent and in the same manner as in similar AEC direct contracts.

(2) The disputes provision referred to in paragraph (j)(1) of this section may be applied to lower-tier subcontracts and purchase orders provided all subcontracts and purchase orders of a higher tier are cost type.

(3) A Disputes clause which can be used to carry out the policy in paragraph (j) (1) and (2) of this section is set forth in § 9-7.5004-3(b).

• • • • • •

(Sec. 161, Atomic Energy Act of 1954, as amended, 68 Stat. 948, 42 U.S.C. 2201; sec. 205, Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486)

Effective date. These amendments are effective on January 11, 1973.

Dated at Germantown, Md., this 4th day of January 1973.

For the U.S. Atomic Energy Commission.

ROBERT A. KOHLER,
Acting Director, Division of Contracts.

[FR Doc.73-576 Filed 1-10-73;8:45 am]

Title 46—SHIPPING

Chapter I—Coast Guard, Department of Transportation

[CGD 71-12D]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

Prohibition of Motor Vehicles Containing Gasoline in Closed Containers

This amendment is to prohibit the carriage of motor vehicles and mechanized equipment with fuel in their tanks in closed containers. Also the reference in § 146.21-45 dealing with gas tight holds will be deleted.

Both these amendments are outstanding issues that have not been finalized subsequent to their publication in a notice of proposed rule making in the March 20, 1971 FEDERAL REGISTER (36 FR 5400). Previous amendments based on this notice were published in the July 21, 1972 FEDERAL REGISTER (37 FR 14586).

One comment was received on each of these issues. The comment on the stowage of motor vehicles containing gasoline in closed containers was from a major U.S. containership operator. It was pointed out by this particular operator that they had been carrying vehicles safely in this manner for 10 years, they were reasonably sure other container operators were doing it the same way, and they had been unable to document any incidents aboard vessels or ashore to justify this change. Subsequent to commenting to the U.S. Coast Guard on this proposal this company carried out tests to indicate that the atmosphere in a closed container containing vehicles with gasoline did not contain detectable explosive vapors.

The Coast Guard agrees with the comment and the test results; however, there is one overriding consideration in this issue. There is no control over the condition of an automobile fuel system when it is shipped; therefore, the likelihood of a leak in a motor vehicle fuel system is an unknown factor. Leaking gasoline within a closed container would be an unacceptable situation. The Coast Guard considers the effort required to empty the fuel tank in order to carry vehicles in this manner is not an undue hardship considering the added safety it provides.

The comment on gas tight holds asked that the Coast Guard consider allowing these holds for the stowage of flammable liquids. This comment is being studied by the Coast Guard at the present time and a decision on this will be published at a later date. For the present the reference to gas tight holds in § 146.21-45 will be deleted.

In consideration of the foregoing Title 46 CFR Part 146 is amended as follows:

1. By revising § 146.21-45 to read as follows:

§ 146.21-45 Ventilation.

All cargo holds in which flammable liquids are to be stowed and which are provided with means for ventilating shall, before any flammable liquid cargo in a quantity in excess of 1 ton be stowed in such hold, have fire screens fitted at the weather end of the vent ducts. This fire screen shall consist of two layers of fine brass wire screen of at least a 20 x 20 mesh spaced not less than ½ inch or more than 1½ inches apart. This screen may be removable, and if so fitted, means for effectively securing the same in place when in service shall be provided. Mushroom type heads shall have similar fire screens so fitted as to completely and efficiently cover the open area. Stowage of flammable liquids in a quantity in excess of 1 ton shall not be permitted in holds or compartments that are fitted with gooseneck type vent trunk heads.

2. By revising § 146.27 as follows:

a. By adding to § 146.27-30(c) the following:

§ 146.27-30 Motor vehicles and mechanized equipment powered by internal combustion engines and fueled by flammable liquids or flammable compressed gases.

• • • • • •

(c) *Conditions of acceptance and stowage.* • • •

(11) Vehicles with fuel in their tanks may not be stowed in closed containers.

• • • • • •

b. By adding to § 146.27-31(c) the following:

§ 146.27-31 Motor vehicles and mechanized equipment powered by internal combustion engines and fueled by combustible liquids.

• • • • • •

(c) *Conditions of acceptance and stowage.* • • •

(9) Vehicles with fuel in their tanks may not be stowed in closed containers.

• • • • • •

This amendment becomes effective on April 13, 1973.

(R.S. 4472, as amended; R.S. 4417a, as amended; sec. 1, 19 Stat. 252, 49 Stat. 1889, sec. 6(b)(1), 80 Stat. 937; 46 U.S.C. 170, 391a, 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b))

Dated: January 2, 1973.

C. R. BENDER,
Admiral, U.S. Coast Guard, Commandant.

[FR Doc.73-602 Filed 1-10-73;8:45 am]

Chapter II—Maritime Administration, Department of Commerce

SUBCHAPTER C—REGULATIONS AFFECTING SUBSIDIZED VESSELS AND OPERATORS

[General Order 116, Rev. (Amdt. 1)]

PART 294—OPERATING-DIFFERENTIAL SUBSIDY FOR BULK CARGO VESSELS ENGAGED IN CARRYING BULK RAW AND PROCESSED AGRICULTURAL COMMODITIES FROM THE UNITED STATES TO THE UNION OF SOVIET SOCIALIST REPUBLICS

Miscellaneous Amendments

The following additional regulations have been adopted by the Maritime Subsidy Board to govern the operating-differential subsidy program with respect to bulk cargo vessels engaged in carrying export bulk raw and processed agricultural commodities from the United States to the Union of Soviet Socialist Republics. These regulations are in addition to those appearing in the FEDERAL REGISTER on November 16, 1972 (37 FR 24349) as corrected on December 14, 1972 (37 FR 26601).

Rule making involving the operating-differential subsidy program is exempt from the requirements of section 553 of title 5, United States Code. A new definition, "(7) Subsidized voyage days," is added to existing § 294.5(c), a revision of existing § 294.10 accommodates the effective date of these amendments and new § 294.11, "Voyage Reporting Requirements," and § 294.12 *Partial payment billings,*" are hereby added to Part 294, Title 46, Chapter II, Code of Federal Regulations, as follows:

§ 294.5 Definitions.

• • • • • •

(c) *Subsidized voyage.* • • •

(7) *Subsidized voyage days.* For subsidy payment purposes subsidized voyage days are divided into two categories: Port days and sea days. Port days are those subsidized days (i) from commencement of a voyage to time of departure from the first loading port, (ii) from time of arrival to time of departure from any subsequent port or ports of call, and (iii) if the vessel is engaged in the bulk carriage of inbound cargo, from the time of arrival at the final discharge port until termination of the voyage. Port days are computed for the voyage on the basis of accumulated days and hours per voyage to the nearest full day. Sea days are those subsidized days within the voyage exclusive of port days and are computed for the voyage on the basis of accumulated days and hours per voyage to the nearest full day. Cumulatively port days and sea days may not exceed total approved voyage days.

§ 294.11 Voyage reporting requirements.

(a) *In general.* In order to determine compliance with the requirements of the operating-differential subsidy contract and this part, a voyage report is required to be submitted to the Office of Subsidy Administration, Maritime Administration, Washington, D.C. 20235, after termination of each approved voyage but prior to or sumultaneously with the first billing for the partial payment as specified in §§ 294.8(a)(2) and 294.12.

(b) *Contents of report.* The report shall include the following items to the extent they are applicable to the approved voyage:

(1) Name of vessel.

(2) Contract number.

(3) Attach a copy of the Certificate of Readiness issued by the National Cargo Bureau.

(4) U.S. loading port(s): Following information by port:

(i) Date and time of arrival.

(ii) Date and time of commencement of loading.

(iii) Date and time of completion of loading.

(iv) Date and time of departure.

(v) Quantity, commodity and freight rate of cargo loaded.

V 38-7 JAN 11 73 XUM

(5) Foreign discharge port(s): Following information by port:
(i) Date and time of arrival.
(ii) Date and time of commencement of discharge.
(iii) Date and time of completion of discharge.
(iv) Date and time of departure.
(v) Quantity and commodity discharged.

(6) Foreign loading port(s): Following information by port, if applicable:
(i) Date and time of arrival.
(ii) Date and time of commencement of loading.
(iii) Date and time of completion of loading.
(iv) Date and time of departure.
(v) Quantity and commodity loaded by port(s) of destination.

(7) U.S. discharge port(s): Following information regarding discharge of U.S. import cargo by port, if applicable:
(i) Date and time of arrival.
(ii) Date and time of commencement of discharge.
(iii) Date and time of completion of discharge.
(iv) Quantity and commodity discharged.

(8) U.S. port of arrival in ballast:
(i) If port of arrival is the same as that at which vessel loaded outbound cargo: Date and time of arrival.
(ii) If port of arrival is different from that at which vessel loaded outbound cargo: Estimated date and time vessel would have arrived at U.S. port at which outbound cargo was loaded.

(9) If the vessel engaged in the carriage of U.S. import cargo during the subsidized voyage, the operator's calculation of the number of days and hours that the steaming time of the inbound voyage exceeded the normal steaming time required for a ballast return voyage from the last port of discharge of the U.S. export cargo to the first port of discharge of the U.S. import cargo. (A maximum of 3 days and 12 hours excess is allowed for subsidy purposes.)

(10) If the vessel engaged in the carriage of foreign-to-foreign trade, the date and hour that the vessel deviated from the general track of the normal ballast return voyage.

(11) Number of subsidized days:
(i) Days at sea.
(ii) Days in port.
(iii) Total subsidized days.

(12) Pursuant to § 294.5(c)(4), the report must contain a detailed explanation of (i) any period of idleness or delay in excess of 2 days more than the normal operating time in port or (ii) any excessive delay at sea.

The Voyage Report shall be submitted in duplicate and certified as correct by an official of the subsidized company.

(c) *Approval of voyage days.* After review, the operator will be notified by letter of the approved voyage days, in port and at sea, for use in preparing subsequent billings with respect to the subsidized voyage.

§ 294.12 Partial payment billings.

(a) *In general.* Upon termination of an approved voyage a partial payment billing may be submitted for payment of an amount not to exceed 90 percent of the estimated operating-differential subsidy due in accordance with § 294.8(a)(2). The partial payment billing is to be prepared using the voyage days reported on, or approved based upon, the Voyage Report submitted pursuant to § 294.11, and the tentative per diem subsidy amounts and differential percentages incorporated in the operating-differential subsidy contract.

(b) *Partial payments of subsidy applicable to maintenance and repairs and stores, supplies and expendable equipment*—(1) *Negative differentials.* If the tentative per diem subsidy amounts incorporated in the contract for maintenance and repairs and/or stores, supplies and expendable equipment are negative, the partial payment will be reduced by 90 percent of the product of such negative per diem amount times the number of subsidized voyage days.

(2) *Positive differentials.* Where the tentative per diem subsidy amounts incorporated in the contract for maintenance and repairs and/or stores, supplies and expendable equipment are positive, the partial payment will be limited to the lesser of (i) an amount determined by multiplying the differential percentage for such category of expense by the costs incurred for such items by the operator in any of the United States or the Commonwealth of Puerto Rico subsequent to commencement of the subsidized voyage or (ii) 90 percent of the tentative per diem amounts for such category of expense times the number of subsidized voyage days.

(c) *Reduction in subsidy payments due to deviations, idleness, or delays.* In accordance with § 294.5(c)(4) a subsidized vessel is allowed a maximum of 3½-days steaming time in excess of the normal total steaming time for a ballast return voyage when engaging in the bulk carriage of U.S. import commerce. Any time in excess of the allowable 3½-days steaming time will result in a reduction of subsidy. Similarly, any time that is disallowed by the Maritime Subsidy Board applicable to periods of idleness or delay pursuant to § 294.5(c)(5) will result in a reduction in subsidy. The required reduction in subsidy will be accomplished by reducing the "total voyage days" on schedule A of the billing format by the excess deviation time or unallowable period of idleness or delay.

(d) *Reduction in subsidy payments applicable to abatements.* The total subsidy determined as above will be reduced by the amount of the abatement calculated pursuant to § 294.6(e).

(e) *Forms.* The partial payment billing is to be prepared on a public voucher, standard forms 1034 and 1034a which can be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 and is to be submitted in five copies, made up of an original supported copy (SF 1034), three supported copies and one unsupported copy (SF 1034a). The unsupported copy will be returned to the payee by the Treasury Department. The following schedules are to be used for computing the operating-differential subsidy due and as support of the public voucher. Each operator shall furnish his own required supply of these schedules.

(f) *Operator's affidavit.* An operator's affidavit, substantially in the form shown below is to be submitted with each billing.

AFFIDAVIT

State of ____
City of ____,
County/Parish of ____

I, ____, being duly sworn, depose and say, that I am ____ of ____ (herein referred to as the "Operator"), and as such am familiar with (a) the provisions of the Operating-Differential Subsidy Agreement, Contract No. ____, dated as of ____ to which the Operator is a party; and (b) the operation of the vessel(a) covered by said Agreement; and (c) the accounts, books, records, and disbursements of the Operator relating to such operation.

Referring to the public voucher dated ____, covering (vessel name) ____, on a voyage which commenced ____ and terminated ____, and attached, submitted by said Operator concurrently herewith for a payment on account in the sum of ____, under said Agreement, I further depose and say that to the best of my knowledge and belief, the Operator has fully complied with the terms and conditions of said Agreement and applicable orders, regulations, rulings and provisions of the Merchant Marine Act, 1936, as amended, and is entitled under the provisions of said Agreement and orders, regulations and rulings applicable thereto, to the amount of the payment on account requested; and further depose and say that the vessel named in the attached schedules was in authorized service for the voyage on which the payment on account is requested and has not included in the calculations of the amount of subsidy claimed in the attached voucher any costs of a character that the Maritime Administration, or Secretary of Commerce, acting by and through the Maritime Subsidy Board, or any predecessor or successor, had advised the Operator to be ineligible to be so included, or any costs collectible from insurance, or from any other source; and further depose and say that during the course of this voyage the vessel named did not carry (1) any cargo in the domestic commerce of the United States; or (2) any U.S. preference cargo, including that covered by 10 U.S.C. 2631, 46 U.S.C. 1241 and 15 U.S.C. 616a; or (3) any other commercial cargo simultaneously with the export bulk raw and processed agricultural commodities being carried to the U.S.S.R., except equipment which may be needed to facilitate unloading of such agricultural commodities.

Payment by the Maritime Administration of all or part of the amount claimed herein shall not be construed as approval as the correctness of the amount stated to have been due, nor a waiver of any right or remedy the Maritime Administration, or Secretary of Commerce, acting by and through the Maritime Subsidy Board, or any predecessor or successor, may have under the terms of said Agreement, or otherwise.

I further depose and say that this affidavit is made for and on behalf and at the direction of the Operator for the purpose of inducing the Maritime Administration to make a payment on account pursuant to the provisions of the aforesaid Operating-Differential Subsidy Agreement.

Subscribed and sworn to before me, a Notary Public, in and for the aforesaid County and State, this ____ day of ____, 19____. My commission expires ____

Notary Public

(g) *Submission of partial payment billing.* The partial payment billing is to be submitted to the Maritime Administration, Office of Budget and Accounts, Washington, D.C. 20235 for processing and payment.

(h) *Supplemental partial payment billing.* Supplemental partial payment billings for maintenance and repairs and store supplies and expendable equipment costs incurred by the operator in any of the United States or the Commonwealth of Puerto Rico subsequent to the preparation of the initial partial payment billing may be submitted not more frequently than once every 30 calendar days. Supplemental partial payment billings will be prepared and submitted in the same manner as the initial partial payment billing.

In order to accommodate the effective date of the foregoing amendments, § 294.10 is revised to read as follows:

§ 294.10 Effective period.

The provisions of this part, except §§ 294.5(c)(7), 294.11, and 294.12 shall be effective on October 21, 1972. The provisions of §§ 294.5(c)(7), 294.11, and 294.12 shall be effective January 2, 1973. The provisions of this part shall terminate on June 30, 1973, except that they shall continue in effect for (a) the subsidized voyages in progress on that date, and (b) the purposes of § 294.8(b).

To conform with the foregoing amendments, the section headings index is amended to add the following:

294.11 Voyage reporting requirements.
294.12 Partial payment billings.

NOTE: The reporting requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Dated: January 3, 1973.

By order of the Assistant Secretary of Commerce for Maritime Affairs and the Maritime Subsidy Board.

JAMES S. DAWSON, JR.,
Secretary, Maritime Administration.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

Tamarac National Wildlife Refuge, Minn.

The following special regulations are issued and are effective on January 11, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MINNESOTA

TAMARAC NATIONAL WILDLIFE REFUGE

Sport fishing on the Tamarac National Wildlife Refuge, Rochert, Minn., is permited from January 1, 1973, through December 31, 1973, and shall be in accordance with all applicable State fishing laws and refuge regulations. Areas open for fishing comprise 13,675 acres and are designated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111.

Refuge waters open to fishing include Wauboose, Two Island, Lost and Upper Egg Lakes plus all lakes south of the "Governor's Consent Line." Fishing in

V 38-7 JAN 11 73 XUM

the Ottertail River at the bridge on County Road 26 is limited, as posted by signs, to 50 yards upstream and 100 yards downstream from the bridge.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Part 33, and are effective through December 31, 1973.

OMER N. SWENSON,
Refuge Manager, Tamarac National Wildlife Refuge, Rochert, Minn.

JANUARY 4, 1973.

[FR Doc.73-595 Filed 1-10-73;8:45 am]

PART 33—SPORT FISHING

Carolina Sandhills National Wildlife Refuge, S.C.

The following special regulations are furnished and are effective on January 1, 1973.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

SOUTH CAROLINA

CAROLINA SANDHILLS NATIONAL WILDLIFE REFUGE

Sport fishing on the Carolina Sandhills National Wildlife Refuge, McBee, S.C., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 135 acres, are delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Peachtree-Seventh Building, Atlanta, Ga. 30323. Sport fishing shall be in accordance with all applicable State regulations except the following special conditions:

(1) The sport fishing season on the refuge extends from January 1, 1973 through December 31, 1973 on Lake Bee; from March 15, 1973 through October 15, 1973 on Martin's Lake, Lake 16, Pools A, B, C, D, G, and H; and from March 15, 1973 through September 14, 1973 on Lake 17, Pool J, and the Black Creek Bridge areas on Wire Road, State Road 33, State Road 145, and U.S. Highway 1, as posted.

(2) Fishing permited from official local sunrise until one-half hour after official local sunset.

(3) Boats with electric motors permitted only in Lake Bee, Lake 16, Lake 17, and Martin's Lake. Other type motors prohibited. The other areas are open only for bank fishing.

(4) Alcoholic beverages prohibited.

(5) All boats and fishermen must remain at least 30 feet away from wood duck nesting boxes or goose nesting areas. Nesting areas in Martin's Lake are closed and posted with closed area signs.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

C. EDWARD CARLSON,
Regional Director, Bureau of Sport Fisheries and Wildlife.

JANUARY 3, 1973.

[FR Doc.73-557 Filed 1-10-73;8:45 am]

PART 33—SPORT FISHING

Lacreek National Wildlife Refuge, S. Dak.

The following special regulation is issued and is effective on January 11, 1973.

§ 33.5 Special regulation; sport fishing; for individual wildlife refuge areas.

SOUTH DAKOTA

LACREEK NATIONAL WILDLIFE REFUGE

Public sport fishing on South Dakota Lacreek National Wildlife Refuge, Martin, S. Dak. 57551 is permitted only on the Little White River Recreation Area, that portion of Water Management Unit No. 10, designated by signs as open to fishing and those portions of Cedar Creek Dams 1 and 2 designated by signs as open to fishing. These open areas comprising a total of about 265 acres are delineated on maps available at the Refuge Headquarters and from the office of the Area Manager, Bureau of Sport Fisheries and Wildlife, Federal Building, Pierre, S. Dak. 57501.

Sport fishing shall be in accordance with all applicable State regulations, subject to the following special conditions:

(1) The open season for sport fishing on the Little White River Recreation Area extends from January 1 through December 31, 1973, inclusive; daylight hours only.

(2) The open season for winter sport fishing on Water Management Unit No. 10 extends from January 1 through February 28, 1973 inclusive; daylight hours only.

(3) The open season for sport fishing on Cedar Creek Dams No. 1 and 2 extends from July 1 through September 15, 1973.

(4) The use of motorized vehicles on ice is prohibited.

(5) The use of boats on Water Management Unit No. 10 and on Cedar Creek is prohibited.

(6) The use of live minnows as bait on Cedar Creek Dams is prohibited.

(7) Public fishing on Lacreek National Wildlife Refuge may be closed whenever the access roads are temporarily closed or whenever refuge wildlife needs further protection.

The provision of these special regulations supplement the regulations which govern fishing on Wildlife Refuge Areas, generally, which are set forth in Title SD, Part 33 and are effective through December 31, 1973.

HAROLD H. BURGESS,
Refuge Manager, Lacreek National Wildlife Refuge, Martin, S. Dak.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 3110]

SIMULTANEOUS OFFERS

Noncompetitive Leases; Oil and Gas Leasing

Pursuant to the authority vested in the Secretary of the Interior by the Act of February 25, 1920, as amended (43 U.S.C. 181 et seq.), and Revised Statute 2478 (43 U.S.C. 1201), it is proposed to amend 43 CFR Subpart 3112 as set forth below.

The purpose of the amendment is (a) to clarify the regulation by specifying that an applicant may file only one lease application on any parcel offered under the simultaneous oil and gas leasing procedures and (b) to eliminate the requirement that advance rental must be submitted with simultaneous lease offers.

In accordance with the Department's policy on public participation in rule making (36 FR 8336), interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until February 9, 1973.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Office of Information, Bureau of Land Management, Room 5643, Interior Building, Washington, D.C., during regular business hours (7:45 a.m.–4:15 p.m.).

Subpart 3112—Simultaneous Offers

Subpart 3112 of Chapter II is amended as follows:

1. Subparagraphs (1), (2), and (3) of paragraph (a) of § 3112.2–1 are deleted and a new paragraph (b) is added as follows:

§ 3112.2–1 Offer to lease.

(a) • • •

(1)–(3) [Deleted]

(b) Only one complete leasing unit, identified by parcel number, may be included in one entry card. Lands not on the posted list may not be included. An offeror (applicant) is permitted to file only one offer to lease (entry card) for each numbered parcel on the posted list. Submission of more than one entry card by or on behalf of the offeror for any parcel on the posted list will result in the disqualification of all offers submitted by that applicant for the drawing to be held for that particular parcel. Only one entry card will be drawn for each unit.

2. Section 3112.4–1 is revised to read as follows:

§ 3112.4–1 Rental payment.

A lease will be issued in the name of the successful drawee shall have fifteen (15) days from the date of receipt of notification of the issuance of the lease to tender the first year's rental. Failure to tender the rental within the time allowed will result in the automatic cancellation of the lease. The unpaid rental will remain a debt owed to the United States and may be collected by any means available to the United States for the collection of unpaid debts.

ROGERS C. B. MORTON,
Secretary of the Interior.

JANUARY 4, 1973.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1062]

[Docket No. AO 10-A46]

MILK IN THE ST. LOUIS-OZARKS MARKETING AREA

Notice of Recommended Decision and Opportunity To File Written Exceptions on Proposed Amendments to Tentative Marketing Agreement and to Order

Notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to proposed amendments to the tentative marketing agreement and order regulating the handling of milk in the St. Louis-Ozarks marketing area.

Interested parties may file written exceptions to this decision with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by January 26, 1973. The exceptions should be filed in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The above notice of filing of the decision and of opportunity to file exceptions thereto is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

PRELIMINARY STATEMENT

The hearing on the record of which the proposed amendments, as hereinafter set forth, to the tentative marketing agreement and to the order as amended, were formulated, was conducted at Bridgeton, Mo., on November 1, 1972, pursuant to notice thereof which was issued October 10, 1972 (37 FR 21641).

The material issue on the record of the hearing relates to reducing the location adjustment in Zone II of the marketing area.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

The plus location adjustment applicable to the Class I price and uniform price at a plant in Zone II (the southeastern Missouri counties of Cape Girardeau, Bollinger, St. Francois, Perry, and Ste. Genevieve) should be reduced from 15 cents to 7 cents.

The hearing notice proposal was submitted by a handler at Cape Girardeau who operates the only regulated plant in Zone II. He proposed to eliminate the present plus 15-cent location adjustment, claiming that it places him at a disadvantage in competing for sales with those handlers under the St. Louis-Ozarks order whose Class I price is not subject to a plus location adjustment. Also, he testified that his producers, even without the plus 15-cent location adjustment, still would realize a better return than they could obtain by delivering their milk a greater distance to plants in St. Louis.

There was significant opposition at the hearing to removing the 15-cent location adjustment. Operators of regulated plants under the Memphis and Central Arkansas orders, who compete for sales with the Cape Girardeau handler in southeastern Missouri and in the Memphis area, claimed that removal of the plus 15-cent adjustment in Zone II would misalign the Class I price applicable at the Cape Girardeau location with the Class I prices under other orders.

Spokesmen for a cooperative representing a majority of the producers under the Memphis and Central Arkansas orders contended that removal of the plus 15-cent location adjustment would jeopardize the supply of the Cape Girardeau handler, because Cape Girardeau area producers would ship instead to nearby plants under the other orders where they could realize a higher return for their deliveries.

A Paducah order handler and the principal cooperative under that order also opposed removing the plus 15-cent location adjustment at Cape Girdardeau. They claimed that it would give the Cape Girardeau handler an advantage over Paducah handlers in their common sales areas and would cause an inappropriate alignment of prices between the two orders.

A major cooperative under the St. Louis-Ozarks order represents all but

V38-7 JAN 11 73 XUM

one of the producers supplying the Cape Girardeau handler. It took the position that any change in location pricing resulting from the hearing should be directed to achieving comparable Class I prices at Cape Girardeau under both the St. Louis-Ozarks and Memphis orders. Its spokesman also stated that the Class I price applicable in Zone II should be at a level that would price neither the Cape Girardeau handler nor handlers under the other nearby orders at a competitive disadvantage with the other.

A cooperative whose members ship to St. Louis-Ozarks regulated plants, and that also operates a distributing plant regulated by the southern Illinois order, similarly opposed eliminating the plus 15-cent location adjustment. Its spokesman proposed, however, to reduce the location adjustment 7 or 8 cents, stating that such a reduction would more appropriately align the Class I price at Cape Girardeau with the Southern Illinois order Class I price.

Besides his distribution in Zone II of the St. Louis-Ozarks marketing area, the Cape Girardeau handler proposing the price reduction sells in the Memphis marketing area, in the Missouri portion of the Paducah marketing area, and in several counties in southeastern Missouri that are not in any Federal order marketing area. His sales in the Paducah marketing area are, however, not a significant proportion of his total Class I distribution or of the total Class I sales in that marketing area.

Currently, Class I distribution from the Cape Girardeau plant in the Memphis marketing area is only slightly less than its sales in the St. Louis-Ozarks marketing area. In fact, in some months (but not for 3 consecutive months) the plant's sales in the Memphis marketing area have been more than in the St. Louis-Ozarks marketing area. Both orders specify that a plant's distribution in an other order marketing area must exceed those in the order under which it is currently regulated for 3 consecutive months before it may be regulated by the other order.

The Cape Girardeau plant has been a fully regulated plant under the St. Louis-Ozarks order (or its predecessor, the St. Louis order) since February 1, 1965. The plus 15-cent location adjustment at Cape Girardeau has been effective since February 1, 1965, when the five counties in Zone II were added to the marketing area of the St. Louis order (which became the St. Louis-Ozarks order October 1, 1968). The decision of the Assistant Secretary on November 5, 1964 (28 FR 15130), concluded that the plus 15-cent adjustment in Zone II was necessary to insure an adequate supply for plants in such area and to improve the alignment of prices among orders regulating competing handlers.

The St. Louis-Ozarks Class I price and those in the nearby Federal order markets are computed by adding stated amounts, commonly referred to as Class I differentials, to the basic formula price (Minnesota-Wisconsin manufacturing milk price). The St. Louis-Ozarks Class I differential of $1.60 is applicable in the St. Louis metropolitan area, the principal population center under the order. With the plus 15-cent location adjustment, the applicable Class I differential at Cape Girardeau is $1.75. Under both the Memphis and Central Arkansas orders the Class I differential (over the same basic formula price) is $1.94.

The Class I differential applicable at the Cape Girardeau plant, if regulated by the Memphis order, would be $1.67. This results from subtracting from the $1.94 Class I differential the 27-cent location adjustment that applies at a plant 175 miles from Memphis. In effect, if the Cape Girardeau plant were regulated by the Memphis order, its Class I price would be 8 cents less ($1.67 versus $1.75) than is now provided under the St. Louis-Ozarks order.

Cape Girardeau, which is near the main north-south highway between St. Louis and Memphis, is about 175 miles from Memphis. In view of relatively small differences between the plant's volumes of sales under the two orders in recent months, there is the possibility that at least at times it could become a fully regulated plant under the Memphis order.

Paragould is about 85 miles northwest of Memphis and 148 miles south of Cape Girardeau. The Class I price differential at the Paragould location under the Central Arkansas order is $1.805, or 15 cents higher than the price that would be applicable under such order for a plant regulated thereby and located at Cape Girardeau. A principal competitor of the Cape Girardeau handler for sales in southeastern Missouri is a handler at Paragould, Arkansas, regulated by the Central Arkansas order.

The Class I price in the Paducah marketing area is 10 cents higher than at Cape Girardeau. Paducah, the principal city in the Paducah marketing area, is about 70 miles southeast of Cape Girardeau. While the Cape Girardeau handler has no Class I distribution in the city of Paducah, he has limited competition for sales with handlers under that order in the southeastern Missouri counties of the Paducah marketing area.

Although the Cape Girardeau handler competes for sales with St. Louis handlers in the Cape Girardeau vicinity, he has no distribution of his own in the St. Louis metropolitan area. Neither does he compete for sales with handlers regulated under the nearby Southern Illinois marketing area, in or outside such area.

The alternatives available to producers delivering their milk to the Cape Girardeau plant are not limited to plants located in St. Louis. The economic value of their milk may be expected to be more affected by the best of their opportunities pricewise than by their lowest-priced alternative outlets. The Paragould, Ark., plant is an outlet for additional quantities of milk on a direct-delivery basis. The Cape Girardeau producers are situated to take advantage of this outlet. The return to such producers after the haul to Paragould would be significantly more than if the milk were delivered to St. Louis. Also, the higher blend price under the Central Arkansas order at the Paragould plant could reasonably be expected to return to such producers more than they would realize at Cape Girardeau after a 15-cent reduction, as was proposed. Consequently, there can be no strong presumption that such producers would gravitate to the lowest-priced outlets in the region.

It was concluded in a previous decision on the St. Louis-Ozarks order that price alignment among regulated markets where intermarket handler competition occurs is an important factor to be considered by the Secretary in his efforts to achieve market stability for producers under a given order and reasonable market allocation of available milk supplies where market milksheds tend to overlap. These intermarket relationships involving St. Louis-Ozarks with Memphis, Central Arkansas and Paducah have been referred to herein above.

The primary problem of market price alignment on this record relates to the St. Louis-Ozarks-Memphis relationship. The Cape Girardeau handler, as previously indicated, sells approximately as much milk in the Memphis marketing area as in his home market at Cape Girardeau.

The Class I price relationship between this order and the Memphis order has changed significantly since Zone II was added to the marketing area. From February 1965 through July 1968 the Memphis Class I price exceeded the St. Louis Zone II Class I price an average of 61 cents. Since July 1968 the Memphis Class I price has been 19 cents more than the Zone II Class I price in each month.

When Zone II was added to the marketing area, the existing differences between the monthly Class I price under the St. Louis and Memphis orders was a matter considered in establishing the plus 15-cent location adjustment. The revised basis of pricing at Cape Girardeau herein provided gives recognition to the current relationship of prices in the St. Louis-Ozarks and Memphis orders.

The handler competition between these markets calls for a close price alinement for the purposes described above. The plus location adjustment of 7 cents proposed herein for Cape Girardeau will promote orderly marketing by providing a Class I price at Cape Girardeau equivalent to that prevailing for the same location under the Memphis order.

It was found further in a prior decision on the St. Louis-Ozarks order that the greater the distance that an order market is situated geographically from the heavy production region of the country, the higher the Class I price tends to be. For the St. Louis-Ozarks market and other markets to the south of St. Louis-Ozarks, the Chicago milkshed is an important alternative source of supply when outside milk is needed for fluid use.

A basic reason for this is that local supplies for those markets farther removed from the Chicago milkshed tend to be less adequate for their year-round needs than those nearer the Chicago production area. In 1971, for example, the Class I utilization of producer deliveries under the Memphis, central Arkansas and Paducah orders was 85 percent, 89 percent, and 74 percent, respectively. Under the St. Louis-Ozarks and Southern Illinois orders, Class I utilization of producer receipts was 64 percent and 60 percent, respectively, for the same period. These conditions are reflected in the relative prices of the Memphis, central Arkansas and Paducah markets. The Memphis, central Arkansas, and Paducah Class I prices are 34 cents, 34 cents, and 25 cents, respectively, more than the Zone I Class I price in the St. Louis-Ozarks order.

Since Cape Girardeau is about 65 miles farther from Chicago than St. Louis proper, the 7-cent plus adjustment adopted is reasonable in respect of the greater distance, and consequent cost of delivery, to such location from the basic source of alternative supplies.

Both the proponent Cape Girardeau handler and a Paducah order handler contended that there is misalignment of prices between the Paducah order and St. Louis-Ozarks order at Cape Girardeau, primarily because the Paducah Class I price is too high relative to the Class I price under the St. Louis-Ozarks order. The level of the Paducah price was not, of course, an issue at this hearing. However, a proposal to reduce the Paducah Class I price 15 cents was considered at a hearing held in Paducah December 12, 1972 (37 FR 24760). Official notice is here taken of the fact of that hearing. If an adjustment in the Class I price differential of the Paducah order is warranted, the appropriate action can be taken on the basis of that hearing.

The available supply of milk relative to local Class I needs at Cape Girardeau approximates that for total deliveries and total Class I utilization under the St. Louis-Ozarks order. That is, about 65 percent of producer deliveries are utilized in Class I. Consequently, the 8-cent reduction in the location adjustment at Cape Girardeau adopted in this decision should not impair the maintenance of an adequate supply of milk at that location, but will tend to promote orderly marketing by assisting producers delivering to Cape Girardeau to maintain this nearby outlet for their milk.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Recommended Marketing Agreement and Order Amending the Order

The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be the same as those contained in the order, as hereby proposed to be amended. The following order amending the order, as amended, regulating the handling of milk in the St. Louis-Ozarks marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

In § 1062.53, paragraph (b) is revised as follows:

§ 1062.53 Location differentials to handlers.

• • • • •

(b) In Zone II of the marketing area, shall be the Zone I price plus a location adjustment of 7 cents;

• • • • •

Signed at Washington, D.C., on January 8, 1973.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 73]

[Airspace Docket No. 72-SW-80]

TEMPORARY RESTRICTED AREA

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations which would designate a temporary joint-use restricted area near Killeen, Tex.

Interested persons are invited to participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received by February 12, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The Air Force has requested the establishment of a temporary joint-use restricted area in the vicinity of Killeen, Tex. The proposed restricted area would be utilized for a 9-day period beginning April 23, 1973, for the Joint Training Exercise GALLANT HAND 73. The restricted airspace is required to effectively test participating tactical aircraft squadrons under the most realistic conditions.

The proposed area would overlie approximately 30 general aviation airports and a number of low altitude airways and jet routes. However, temporary rerouting procedures would be established to handle airways traffic during the exercise period. A reverse-charge telephone number would be made available by the Air Force for the use of general aviation pilots to request clearance to operate within the restricted area on an individual basis. Procedures would also be developed to permit unrestricted air carrier operations into and out of Brownwood, Tex.

The proposed amendment would designate the following temporary restricted area:

R-6314 KILLEEN, TEX.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 270]

[Release No. IC-7571, S7-467]

QUANTITY DISCOUNTS FOR CERTAIN GROUP PURCHASES OF MUTUAL FUND SHARES

Notice of Proposed Rule Making

In its recent announcement of hearings on mutual fund distribution and the potential impact of the repeal of section 22(d) of the Act (15 U.S.C. 80a-22(d)), (Investment Company Act Release No. 7475, Nov. 3, 1972 (37 FR 24449)) the Commission stated one of the issues to be a reconsideration of the provision of Rule 22d-1 (17 CFR 270.22d-1) which precludes quantity discounts for certain group purchases of redeemable securities issued by investment companies. The Commission believes that a specific proposal to amend the rule would provide a helpful focal point for comments of the public. Rather than simply reactivate a pending 1968 proposal (33 FR 15263), however, the Commission is hereby (1) withdrawing that proposal and (2) publishing a new proposal, significantly revised, for comments. The period for comments on this proposal has been set by the Commission to expire on March 30, 1973, a date estimated to be substantially after the projected close of the forthcoming hearings. The Commission hopes that this proposal will stimulate discussion at the hearings and that the discussion will lead to more informed comments on the rule itself.

PROPOSED AMENDMENT TO RULE 22d-1

(1) Notice is hereby given that the Securities and Exchange Commission has under consideration the amendment of Rule 22d-1 under the Investment Company Act of 1940 ("Act") (15 U.S.C. 80a-1 et seq.) to permit under certain circumstances quantity discounts for certain group purchases of redeemable securities issued by investment companies. The proposed amendment to the rule would be adopted pursuant to the authority granted to the Commission in sections 6(c), 22(d), and 38(a) of the Act. (15 U.S.C. 80a-6(c), 80a-22(d), 80a-37(a).)

Section 22(d) of the Act prohibits a registered investment company, its principal underwriter, or a dealer in its redeemable securities from selling such securities to "any person" except "at a current public offering price described in the prospectus." The purpose of the section, as described in the congressional reports on the Act, is to prohibit investment companies from selling redeemable securities to any person other than a dealer or principal underwriter at a price less than that at which the security is sold to the public. Section 6(c) of the Act provides that the Commission by rule, regulation, or order may exempt any person or transaction or any class of persons or transactions from any provision of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Section 38(a) of the Act authorizes the Commission to issue such rules as are necessary or appropriate to the exercise of the power conferred upon the Commission in the Act.

In 1958 the Commission adopted Rule 22d-1, which in most respects codified prior administrative interpretations of section 22(d) of the Act as well as exemptive orders granted under section 6(c) of the Act. The rule permits reductions in the sales loads charged upon the sale of mutual fund shares in connection with quantity purchases and in other specified circumstances. (Investment Company Act of 1940 Release No. 2798, Dec. 2, 1958 (23 FR 9601).) The provision in the last sentence of paragraph (a) of Rule 22d-1 that quantity discounts would not be available to "a group of individuals whose funds are combined, directly or indirectly, for the purchase of reedemable securities of a registered investment company jointly or through a trustee, agent, custodian, or other representative • • • of such a group of individuals," reflects Commission concern in 1958 that, if continued, quantity discounts in such circumstances could disrupt the orderly effective distribution of mutual fund shares.

In 1968 the Commission proposed the removal of the present restrictive definition of "person" in the rule so as to provide organized groups of small investors with the opportunity to purchase mutual fund shares at the lower sales charges presently available only to investors of large sums (Investment Company Act Release No. 5507, Oct. 7, 1968 (33 FR 15263)). Such proposed amendment of Rule 22d-1 would have deleted the proviso clause in the last sentence of paragraph (a) and made it clear that, as used in the rule, the term "person" shall have the meaning set forth in section 2(a)(28) of the Act,[1] but shall also include the other classes presently enumerated in the definition of "any person"

[1] This antigrouping provision defines "any person" more narrowly than sections 2(a)(28) and 2(a)(8) of the Act, taken together (15 U.S.C. 80a-2(a)(28), 80a-2(a)(8)). Section 2(a)(28) provides that "person" means a natural person or a company. Section 2(a)(8) provides (among other things) that "company" means a corporation, a partnership, an association, a joint-stock company, a trust, a fund, or any organized group of persons whether incorporated or not.

in the rule. However, the Commission has held that rule proposal in abeyance while the effects of the repeal of section 22(d) of the Act were being studied by its staff.

The staff has now completed the study and the Commission has determined to withdraw its earlier proposal (see (2) below) and to propose in its place a modified version which, in effect, gives each issuer a choice between (a) giving quantity discounts, but denying them to groups in the manner the present rule provides or (b) offering quantity discounts to certain "bona fide" groups as well as to purchasers presently eligible. This is accomplished by retaining paragraph (a) of the rule and inserting a new paragraph (b) which is for the most part similar to paragraph (a) except that paragraph (b) employs a new term "purchaser" with a broader definition than the term "any person" now used in paragraph (a). Thus, an investment company would have the option of distribution to "persons" in the manner specified in Rule 22d-1(a) or to "purchasers" in the manner specified in Rule 22d-1(b).

Proposed paragraph (b) has no antigrouping clause but does include a narrower, more precise definition of group than the 1968 proposal. The definition includes any organized group of purchasers, whether incorporated or not, but excludes any group not in existence for at least 6 months or which has no other purpose than to purchase mutual fund shares at a discount. For example, these modifications in the 1968 proposal would make it clear that all customers of a single broker are not a "group" eligible for a quantity discount. These modifications would also make more certain the continued viability of any groups the fund and its distributor might deal with.

It should be noted that paragraph (a) of the present rule requires that any scale of reducing sales loads offered by a fund or its distributor "shall be applicable to sales to all persons." Therefore, an investment company offering a quantity discount to a "person", as defined in the present rule, is required also to offer it to any group of persons presently within the definition of "person" in the rule. For example, a pension trust accumulating shares for a number of beneficiaries is presently treated as a single person. Hence, if other groups were included within the definition of "any person" in present paragraph (a) the only choice of investment companies and their distributors would be to offer quantity discounts to all, including groups, or to no one. As noted above, the Commission's present proposal would give each issuer a choice between restricting quantity discounts to purchasers as provided in the present rule or affording such discounts to the kinds of groups specified in new paragraph (b).

If adopted, the amendment would not relax the obligation under the Securities Act of 1933 of broker-dealers and other distributors of investment company shares to provide prospectuses to all persons who are solicited. Thus, it is assumed that a prospectus would be furnished to each member of any group being solicited. Similarly, it is assumed that after purchases of investment company shares, all proxy soliciting material and reports to shareholders required by the Act and rules thereunder would be provided in some manner to each participating group member. In this connection the Commission staff is considering other rule changes which would result in lower administrative costs for group sales. The rules in question relate to the requirements that shareholders receive individual notices, confirmations, dividend statements, and shareholder reports. The staff is now exploring whether these rules can be revised without diminishing the basic shareholder protections they provide.

It should also be noted that in order to avoid problems under the Securities Act of 1933, the Securities Exchange Act of 1934, and the Investment Company Act of 1940 (15 U.S.C. 77a et seq., 78a et seq., 80a-1 et seq.), all group purchases would be required to be handled in a manner substantially similar to ordinary brokerage transactions. Thus, where limitations are imposed on the rights of an individual participant, or special charges are made, a separate security may be created which would be required to be registered under the Securities Act of 1933 and the issuer of which may be an investment company required to register under the Investment Company Act of 1940. For example, such problems would arise if: (1) Sums were accumulated for material periods of time before investment; (2) special fees or charges, such as a front-end load, were imposed;[2] (3) limitations were imposed on the right of participants to withdraw securities held in custody; or (4) limitations were imposed on the rights and privileges of participants as shareholders. (See Securities Act of 1933 Release No. 4790, July 13, 1965 (30 FR 9059).)

The text of the proposed Commission action is as follows:

Rule 22d-1 under the Investment Company Act of 1940 is amended as follows:

A new paragraph (b) is inserted. The first two paragraphs of new paragraph (b) are identical to the first two paragraphs of present paragraph (a) except that wherever the word "person(s)" appears, it is changed to read "purchaser(s)." The last paragraph of the proposed new paragraph (b) reads as follows:

As used in this paragraph (b), the term "purchaser" shall have the same meaning as the word "person" set forth in section 2(a)(28) of the Act but shall also include: (i) An individual, or an individual, his spouse and their children under the age of 21, purchasing securities for his or their own account, and (ii) a trustee or other fiduciary purchasing securities for a single trust estate or single fiduciary account (including a pension, profit-sharing, or other employee benefit trust created pursuant to a plan qualified under Section 401 of the Internal Revenue Code) although more than one beneficiary is involved: *Provided, however,* That the term "purchaser" shall not include any group of individuals which has not been in existence as an organized group for at least 6 months: *And further provided,* The term "organized group" shall not include a group which has no other purpose than to purchase investment company shares at a discount.

[2] In this connection, it should be borne in mind that any person who is paid any portion of a sales load or who receives other special compensation in connection with the purchase or sale of securities will probably be required to register as a broker-dealer pursuant to section 15(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78o(a)).

Commission action. The Securities and Exchange Commission, pursuant to authority in sections 6(c), 22(d), and 38(a) of the Investment Company Act, proposes to amend § 270.22d-1 of Chapter II of Title 17 of the Code of Federal Regulations (1) by redesignating paragraphs (b), (c), (d), (e), (f), (g), and (h) thereof as paragraphs (c), (d), (e), (f), (g), (h), and (i), respectively and (2) by adding thereunder a new paragraph (b) to read as follows:

§ 270.22d-1 Variations in sales load permitted for certain sales of redeemable securities.

• • • • • •

(b) In accordance with a scale of reducing sales load varying with the quantity of securities purchased by any purchaser. The quantity entitling any purchaser to any such reduced sales load may be computed on any of the following bases, and may include redeemable securities of other registered investment companies having the same principal underwriter as the issuer of such securities: (1) The aggregate quantity of securities being purchased at any one time; (2) the aggregate quantity of securities previously purchased or acquired and then owned plus the securities being purchased; or (3) the aggregate quantity of securities purchased by any purchaser within a period of no more than 13 months from the date of and pursuant to a written statement of his intention, accepted by the underwriter, which provides that the purchaser intends, but is not obligated, to purchase securities within such period in a specified aggregate amount which would entitle the purchaser to a quantity discount if purchased at one time, and which further provides that each purchase made pursuant to the statement shall be made either (i) at the price applicable to the quantity of securities being purchased in each separate transaction until at least a sufficient quantity of securities has been purchased to qualify for a discount pursuant to the statement, or until the aggregate quantity specified therein has been purchased, whereupon a retroactive price adjustment for all purchases theretofore made under the statement to reflect the quantity discount to which the purchaser is then entitled pursuant to the statement shall be made by the underwriter and the dealer involved, if any, or (ii) at the price applicable to the intended aggregate quantity of securities specified by the purchaser: *Provided,* That an amount of

V38-7 JAN 11 73 XUM

the securities purchased shall be retained by the underwriter or held by a bank escrow agent pursuant to terms and conditions which will reasonably assure that the full applicable sales load will be charged if the purchaser does not complete the intended purchases. The statement of intention may also provide that, if the total purchases made within the period covered by the statement exceed the amount specified by the purchaser as his expected aggregate purchases, and equal an aggregate amount which would, if purchased at a single time, qualify for an additional quantity discount, a retroactive price adjustment shall be made by the underwriter and the dealer involved, if any, for all purchases made under the statement to reflect the quantity discount applicable to the aggregate amount of such purchases.

(A) The scale of reducing sales load and the method of computation utilized shall be specifically described in the prospectus and shall be applicable to sales to all purchasers.

(B) As used in this paragraph (b), the term "purchaser" shall have the same meaning as the word "person" set forth in section 2(a)(28) of the Act but shall also include (*1*) an individual, or an individual, his spouse and their children under the age of 21, purchasing securities for his or their own account, and (2) a trustee or other fiduciary purchasing securities for a single trust estate or single fiduciary account (including a pension, profit-sharing, or other employee benefit trust created pursuant to a plan qualified under section 401 of the Internal Revenue Code) although more than one beneficiary is involved: *Provided, however,* That the term "purchaser" shall not include any group of individuals which has not been in existence as an organized group for at least 6 months: *And further provided,* The term "organized group" shall not include a group which has no other purpose than to purchase investment company shares at a discount.

* * * * *

(Secs. 6(c), 22(d), 38(a), 54 Stat. 800, 823, 841, 15 U.S.C. 80a-6(c), 80a-22(d), 80a-37(a))

Withdrawal of prior proposal. (2) Notice is hereby given that the Commission hereby withdraws its proposal to adopt an amendment of Rule 22d-1 published in Investment Company Act Release No. 5507, October 7, 1968.

The Commission has announced that it will conduct public hearings on the subject of mutual fund distribution (Investment Company Act Release No. 7475, November 3, 1972). Group sales will be among the issues to be considered in those hearings. Although this proposal may serve as a reference point for those hearings, they are policy proceedings while this is a specific rule proposal which should be commented upon separately from the record in the hearings. Accordingly, all interested persons are invited to submit their views and comments on the above proposal in writing, to the Securities and Exchange Commission, Washington, D.C. 20549, on or before March 30, 1973, and reference should be made to File No. S7-467. All such communications will be considered available for public inspection.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

DIRECTOR AND DEPUTY DIRECTOR, OFFICE OF HOUSING

Redelegation of Authority

Pursuant to the authority delegated to me by Delegation of Authority No. 88, as amended, from the Administrator, AID, dated November 4, 1970 (35 FR 17675), I hereby amend further the redelegation of authority to the Director and Deputy Director, Office of Housing, dated November 5, 1970 (35 FR 17675), as follows:

1. Section 1,A is revised to read, as follows:

A. All of the authorities delegated to me by the above-mentioned Delegation of Authority No. 88, as amended, except for the following reserved authorities:

(1) The authority to execute guaranties;

(2) The authority to prescribe and amend interest rates provided in section 223(f) of the Foreign Assistance Act of 1961, as amended.

2. Section 2 is revised to read as follows:

2. The authorities redelegated herein may be further redelegated provided that redelegations under this section other than to officials in the Office of Housing or Regional Assistant Administrators, shall be subject to approval by the appropriate Regional Assistant Administrator or his designee.

This amendment to the redelegation of authority to the Director and Deputy Director, Office of Housing, shall be effective immediately.

Dated: January 4, 1973.

Fiscal Service

[Dept. Circ. 570, 1972 Rev., Supp. No. 11]

MOHAWK INSURANCE COMPANY

Surety Companies Acceptable on Federal Bonds; Change of Name

Jersey Insurance Company of New York, N.Y., a New York corporation, has formally changed its name to Mohawk Insurance Company. Documents evidencing the change of name are on file in the Treasury.

A new Certificate of Authority as an acceptable surety on Federal bonds, dated October 11, 1972, has been issued by the Secretary of the Treasury to Mohawk Insurance Company, Allentown, Pennsylvania, under sections 6 to 13 of Title 6 of the United States Code, to replace the Certificate issued July 1, 1972 (37 FR 13597, July 11, 1972) to the Company under its former name, Jersey Insurance Company of New York. The underwriting limitation of $1,126,000 previously established for the Company remains unchanged.

The change in name of Jersey Insurance Company of New York does not affect its status or liability with respect to any obligation in favor of the United States or in which the United States has an interest, which it may have undertaken pursuant to the Certificate of Authority issued by the Secretary of the Treasury.

Certificates of Authority expire on June 30 each year, unless sooner revoked and new Certificates are issued on July 1, so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1, in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Copies of the Circular, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Audit Staff, Washington, DC 20226.

Dated: January 8, 1973.

Order Providing for Opening of Public Lands

JANUARY 4, 1973.

1. By order dated December 6, 1972, and published at pages 26547-8 in the FEDERAL REGISTER, December 13, 1972, the Federal Power Commission ordered that (a) "The land withdrawal pursuant to the filing for Project No. 885 is hereby vacated insofar as it may pertain to lands described in the attached land list." That land list appears below; and, (b) "The land withdrawals pursuant to the filings for Project Nos. 1379, 1854, 2141, are hereby vacated in their entirety." No specific lands are identified for these projects:

MONTANA

Proposed Withdrawal and Reservation of Lands

JANUARY 2, 1973.

The Department of Transportation, on behalf of the Montana Highway Commission, has filed application, M 23941, for the withdrawal of the lands described below, from location and entry under the mining laws, subject to existing valid claims.

The applicant desires the land for proposed highway construction.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 316 North 26th Street, Billings, MT 59101.

The Department's regulations (43 CFR 2351.4(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

PRINCIPAL MERIDIAN, MONTANA

DEER LODGE NATIONAL FOREST

T. 5 N., R. 3 W.,
Sec. 30, Lots 1, 2, 3, and 4, E½W½; and
Sec. 31, Lots 1, 2, 3, and 4, E½, E½W½.
T. 5 N., R. 4 W.,
Sec. 15, Lot 1, NE¼, W½, NE¼SE¼, W½SE¼;
Sec. 22, Lots 1 and 2, S½NE¼;
Sec. 23, all;
Sec. 24, Lots 3 and 4, S½NW¼, SW¼; and
Sec. 25, Lots 1, 2, 3, and 4, W½E½.

The areas described aggregate 2,991.16 acres in Jefferson County, Mont.

ROLAND F. LEE,
Chief, Branch of Lands and Minerals Operations.

MONTANA

Notice of Proposed Withdrawal and Reservation of Lands

JANUARY 3, 1973.

The Department of Transportation, on behalf of the Montana Highway Commission, has filed application, M 23948, for the withdrawal of the lands described below, from location and entry under the mining laws, subject to existing valid claims.

The applicant desires the land for proposed highway construction.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 316 North 26th Street, Billings, MT 59101.

The Department's regulations (43 CFR 2351.4(c)) provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

PRINCIPAL MERIDIAN, MONTANA

T. 3 N., R. 2 W.,
Sec. 8, SW¼.
T. 2 N., R. 3 W.,
Sec. 4, Lots 1 and 2, S½NE¼ and S½; and
Sec. 24, NE¼.
T. 3 N., R. 3 W.,
Sec. 2, Lots 2, 3, and 4, S½NW¼, SW¼, NE¼SE¼, and S½SE¼; and
Sec. 24, N½.
T. 5 N., R. 3 W.,
Sec. 19, Lot 4;
Sec. 30, SE¼; and
Sec. 32, W½NE¼, SE¼NE¼, and NW¼.
T. 5 N., R. 4 W.,
Sec. 13, Lot 3; and
Sec. 14, Lots 1, 2, 3, and 4, SW¼NW¼, N½SW¼, and NW¼SE¼.

The areas described aggregate 2,409.25 acres in Jefferson County, Mont.

ROLAND F. LEE,
Chief, Branch of Lands and Mineral Operations.

NEVADA

Notice of Proposed Withdrawal and Reservation of Lands

JANUARY 3, 1973.

The Forest Service, U.S. Department of Agriculture has filed the above application for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, but not the mining and mineral leasing laws.

The applicant desires the lands for inclusion in the Toiyabe National Forest.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Room 3008 Federal Building, 300 Booth Street, Reno, NV 89502.

The Department's regulations (43 CFR 2351.4(c)), provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands

and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

The public lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 14 N., R. 18 E.,
Sec. 34, N½NE¼, E½SW¼NE¼, N½NW¼ SW¼NE¼, SE¼NE¼.

containing 145 acres.

SOIL CONSERVATION SERVICE

BIG RUNNING WATER DITCH WATERSHED PROJECT, ARKANSAS

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Big Running Water Ditch Watershed Project, Lawrence and Randolph Counties, Ark., USDA–SCS–ES–WS–(ADM)–73–33(D).

The environmental statement concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement include conservation land treatment measures and 82 miles of channel modification with mitigation features.

This draft environmental statement was transmitted to CEQ on December 19, 1972.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, DC 20250.

Soil Conservation Service, USDA, Post Office Box 2323, Little Rock, AR 72203.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please use name and number of statement above when ordering. The estimated cost is $3.75.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Einer L. Roget, State Conservationist, Soil Conservation Service, Post Office Box 2323, Little Rock, AR 72203.

Comments must be received within 60 days of the date the statement was transmitted to CEQ in order to be considered in the preparation of the final environmental statement.

Dated: January 4, 1973.

W. B. DAVEY,
Deputy Administrator for Watersheds, Soil Conservation Service.

MUD CREEK WATERSHED PROJECT, S. DAK.

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Mud Creek Watershed Project, Grant and Deuel Counties, S. Dak. USDA–SCS–ES–WS–(ADM)–73–37(D).

The environmental statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, one floodwater retarding structure, 1.7 miles of channel improvement, and 9.5 miles of clearing and snagging.

This draft environmental statement was transmitted to CEQ on December 18, 1972.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, DC 20250.

Soil Conservation Service, USDA, 239 Wisconsin Avenue SW., Huron, SD 57350.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please use name and number of statement above when ordering. The estimated cost is $3.15.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to V. W. Shally, State Conservationist, Soil Conservation Service, 239 Wisconsin Avenue SW., Huron, SD 57350.

Comments must be received within 60 days of the date the statement was transmitted to CEQ in order to be considered in the preparation of the final environmental statement.

Dated: January 4, 1973.

W. B. DAVEY,
Deputy Administrator for Watersheds, Soil Conservation Service.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-323]

ALBANY RIVER TRANSPORT, INC. ET AL.

Notice of Multiple Applications

Notice is hereby given that applications have been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below listed applicants, and/or related persons or firms, employ ships in the domestic intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such applicant if its application for operating-differential subsidy is granted.

The following applicants have requested permission involving the domestic intercoastal or coastwise services described below:

Name of applicants: Albany River Transport, Inc. (Albany River); Empire Transport, Inc., (Empire); Meadowbrook Transport, Inc. (Meadowbrook); Ogden Merrimac Transport, Inc. (Ogden Merrimac); Platte Transport, Inc. (Platte); Rio Grande Transport, Inc. (Rio Grande); Mohawk Shipping Co., Inc. (Mohawk); Ogden Sacramento Trans., Inc. (Ogden Sacramento); Ogden Sea Transport, Inc. (Ogden Sea); James River Transport, Inc. (James River).

Description of domestic service and vessels. Albany River, Empire, Meadowbrook, Ogden Merrimac, Platte, Rio Grande, Mohawk, Ogden Sacramento, Ogden Sea, and James River, all affiliates of one another and of the other owning companies listed hereafter, have each requested written permission to continue employment in the domestic intercoastal and/or coastwise service for the below-listed vessels owned by each or their affiliates: *Provided, however,* The vessel(s) are not then currently receiving operating-differential subsidy.

Ship	*Owning Company*
Albany	Albany River.
Connecticut	Connecticut Transport, Inc.
James	James River.
Missouri	Meadowbrook.
Mohawk	Mohawk.
Ogden Wabash	Wabash Transport, Inc.
Ogden Willamette	Willamette Transport, Inc.
Ogden Yukon	Ogden Sea.
Yellowstone	Rio Grande.

Written permission is now required by the applicants notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

Interested parties may inspect these applications in the Office of The Secretary Maritime Administration, Department of Commerce Building, 14th and E Streets NW, Washington, DC 20235.

Any person, firm or corporation having any interest (within the meaning of section 805(a)) in any application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on January 17, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., January 19, 1973, Room 4896, Department of Commerce Building, 14th and E Streets NW., Washington, DC 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation, operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

Dated: January 5, 1973.

By order of the Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.73-642 Filed 1-10-73;8:45 am]

[Docket No. S-325]

MONTPELIER TANKER CO.

Notice of Application

Notice is hereby given that application has been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below listed Applicant, and/or related persons or firms, employ ships in the domestic intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such Applicant if its application for operating-differential subsidy is granted.

The following Applicant has requested permission involving the domestic intercoastal or coastwise services described below:

Name of Applicant. Montpelier Tanker Co. (Montpelier).

Description of Domestic Service and Vessels. The applicant, Montpelier, a subsidiary of Victory Carriers, Inc., owns the *Montpelier Victory* and *American Victory*, and has requested written permission to, directly or indirectly, own, operate or charter one or more vessels in the domestic intercoastal or coastwise service, and to own a pecuniary interest, directly or indirectly, in any person or concern that owns, charters or operates any vessels in the domestic intercoastal or coastwise service. The applicant is also affiliated with Monticello Tanker Co., Mount Vernon Tanker Co. and Mount Washington Tanker Co. who each own and operate a tanker operating in worldwide trading.

Written permission is now required by the applicant, Montpelier, notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

Interested parties may inspect this application in the Office of the Secretary, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, DC 20235.

Any person, firm or corporation having any interest (within the meaning of section 805(a)) in any application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on January 18, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., January 23, 1973 in Room 4896, Department of Commerce Building, 14th and E Streets NW., Washington, DC 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

Dated: January 8, 1973.

By order of the Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.73-641 Filed 1-10-73;8:45 am]

[Docket No. S-324]

MOORE-McCORMACK LINES, INC.

Notice of Application

Notice is hereby given that Moore-McCormack Lines, Inc. (Lines) has filed an application requesting written permission under section 805(a) of the Merchant Marine Act, 1936, as amended, (1) for Lines and Moore and McCormack Co., Inc. (Co., Inc.) (a) to own, charter out, and operate dry bulk cargo ships as contract carriers in the domestic trade between U.S. ports on the Great Lakes, and (b) to own a pecuniary interest, directly or indirectly, in a person or concern that owns or charters, and operates dry bulk cargo ships as contract carriers in the domestic trade between U.S. ports on the Great Lakes, and (2) for Messrs. Barker and Tregurtha to be directors, and Messrs. Hoyt and McInnes to be officers and directors of a proposed subsidiary, probably named Interlake Steamship Co. Lines has requested this permission in connection with Lines and Co., Inc.'s intention to acquire the assets and properties of Pickands Mather & Co. (PM), including 13 dry bulk cargo ships, listed hereafter, operating as contract carriers between U.S. ports on the Great Lakes. Upon acquisition it is proposed that the ships continue to be operated as contract carriers between U.S. ports on the Great Lakes.

Frank Armstrong.	Samuel Mather.
Charles M. Beeghly.	J. L. Mauthe.
Harry Coulby.	Colonel James Pickands.
E. G. Grace.	
Robert Hobson.	Charles M. Schwab
Elton Hoyt 2d.	John Sherwin.
Herbert C. Jackson.	Walter E. Watson.

Lines has requested the aforementioned written permission for domestic operation without prejudice to the claimed existence of a bona fide operation by PM or its predecessors as a contract carrier in domestic trade between U.S. ports on the Great Lakes in 1935 and continuous operations since that time, thereby establishing rights under section 805(a).

Interested parties may inspect this application in the Office of the Secretary, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent

V38-7 JAN 11 73 XUM

to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on January 18, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m. January 22, 1973, in Room 4896, Department of Commerce Building, 14th and E Streets, NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the subjects and policy of the Act.

Dated: January 8, 1973.

By order of the Maritime Administration.

JAMES S. DAWSON,
Secretary.

[FR Doc.73-639 Filed 1-10-73;8:45 am]

[Docket No. S-326]

OGDEN SEA TRANSPORT, INC., ET AL.

Notice of Multiple Applications

Notice is hereby given that the following corporations have filed application for an operating-differential subsidy contract to carry bulk cargoes to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and the trades in which each proposes to engage are also presented. The address of each of the applicants is the same, i.e., Two Pennsylvania Plaza, New York, NY 10001.

Applicant's Name	Type of Ship	Name of Ship
Ogden Sea Transport, Inc.	Bulk carrier	SS Columbia.
Do	Tanker	SS Ogden Yukon.
James River Transport, Inc.	General carrier.	SS James.
Ogden Sacramento Transport, Inc.	Bulk carrier	SS Sacramento.
Mohawk Shipping Co., Inc.	General carrier.	SS Mohawk.
Rio Grande Transport, Inc.	Bulk carrier.	SS Yellowstone.
Platte Transport, Inc.	do	SS Platte.
Ogden Merrimac Transport, Inc.	do	SS Merrimac.
Meadowbrook Transport, Inc.	do	SS Missouri.
Albany River Transport, Inc.	General carrier.	SS Albany.
Empire Transport, Inc.	Bulk carrier.	SS Potomac.

The foregoing applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C. during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the United States to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER on November 16, 1972 (37 FR 24349).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through June 30, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before January 18, 1973, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to any application(s), the purpose of such hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: January 8, 1973.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.73-640 Filed 1-10-73;8:45 am]

Office of Import Programs

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket Number: 72-00545-01-74600. Applicant: Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, MA 02139. Article: Digital correlator and probability analysis system, Type K7023. Manufacturer: Precision Devices and Systems, Ltd., United Kingdom. Intended use of article: The article will be used initially in an investigation of the variation of the relaxation time of local fluctuations in the order parameter of nematic, smetic, and cholesteric liquid crystals in their isotropic phases very near the phase transition between the isotropic phase and a liquid crystal phase. The materials to be studied include p-methoxy benzylidene, p-n-butyl aniline and p-ethoxy benzylidene, p-amino benezonitriile (nematic liquid) and several p-alkoxybenzylidene-p aminoacetophenons (smetic liquid).

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum

dated December 8, 1972, that the combination of speed of data collection and time resolution of input pulses that the foreign article provides is pertinent to the applicant's study which involves measurement of relaxation times of nematic and smetic liquid crystals. The most closely comparable domestic instrument is the Model SAI-43 correlation and probability analyzer manufactured by Saicor Analysis Industries Corp. HEW further advises that it knows of no comparable domestic instrument (including the SAI-43) which matches the pertinent combination provided by the foreign article. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

MERCY CATHOLIC MEDICAL CENTER ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00087-33-46040. Applicant: Mercy Catholic Medical Center, Lansdowne Avenue and Baily Road, Darby, Pa. 19023. Article: Electron Microscope, Model EM 9S-2, Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in studying the evolution of pulmonary edema in dogs. Specifically the article will be used for analysis of the fractional volume of interalveolar tissue. The article will also be used for training in pathology of electron microscope operation and electron micrograph interpretation. Application received by Commissioner of Customs: August 4, 1972. Advice submitted by Department of Health, Education, and Welfare on: December 8, 1972.

Docket No. 73-00100-33-46040. Applicant: St. Joseph Hospital, 1919 LaBranch, Houston, TX 77002. Article: Electron Microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in the elucidation of pathological entities to be reported in medical literature, and the study of more basic research problems, such as the fine structure of tissue cultures, and experimentally produced neoplasms in mice. In addition the article will be used in a formal training program in electron microscopy. Application received by Commissioner of Customs: August 10, 1972. Advice submitted by Department of Health, Education, and Welfare on: December 8, 1972.

Docket No. 73-00106-33-46040. Applicant: Beekman Downtown Hospital, 170 William Street, New York, NY 10038. Article: Electron Microscope, Model HS-8. Manufacturer: Hitachi Ltd., Japan. Intended use of article: The article is intended to be used for training of medical technologists and residents in the principles of electron microscopy and application of electron microscopy to tissues sections. In addition, the article will be used in research directed largely to the cardiovascular system in man and animals to improve the understanding of cardiac disease and diagnosis and provision of a rational basis for therapy. Application received by Commissioner of Customs: August 11, 1972. Advice submitted by Department of Health, Education, and Welfare on: December 8, 1972.

Docket Number: 73-00110-33-46040. Applicant: Shippensburg State College, Shippensburg, Pa. 17257. Article: Electron microscope, Model HS-8. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article is intended to be used to observe and photograph the various cellular organelles and membrane systems of animal and plant cells in order to establish relationships between structural properties of the organelles and functioning or metabolic state of the cell or organism from which they have been extracted. Specifically, the experiments to be conducted involve (1) ultrastructure of lysosomes in carrot embryoids, and their possible role in control of cell division and (2) the study of cellular components of certain flagellate protozoa, namely the kinetoplast and flagellar structures in trypanosomatids. The article will also be used in various graduate and undergraduate courses as a research tool to examine various cellular components; and as a training tool to teach techniques of specimen preparation, use of the electron microscope, and interpretation of electron micrographs. Application received by Commissioner of Customs: August 15, 1972. Advice submitted by Department of Health, Education, and Welfare on: December 8, 1972.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States. Reasons: Each applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. Each of the foreign articles to which the foregoing applications relate is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programming. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is a relatively complex instrument designed primarily for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its respectively cited memoranda, that the relative simplicity of design and ease of operation of the foreign articles described above are pertinent to the applicants' educational purposes. We, therefore, find that the Forgflo Model EMU-4C electron microscope is not of equivalent scientific value to any of the foreign articles described above for such purposes as these articles are intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

RUTGERS MEDICAL SCHOOL ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00092-33-46040. Applicant: Rutgers Medical School, New Brunswick, N.J. 08903. Article: Electron Microscope, Model JEM 100B. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to study the biosynthesis and degradation of collagen, the major protein found in tissues such as skin, bone, and small blood vessels. Sections of tissues and cells which are either synthesizing or degrading collagen and molecules such as enzymes which are involved in either the biosynthesis or degradation of collagen will be examined with the article. The article will also be used to teach students who are candidates for M.D. degree, students who are candidates for Ph. D. degrees in biochemistry and postdoctoral fellows who seek further research training. Application received by Commissioner of Customs:

V 38-7 JAN 11 73 XUM

August 3, 1972. Advice submitted by Department of Health, Education, and Welfare on: December 8, 1972.

Docket No. 73–00104–33–46040. Applicant: University of Iowa, Ultrastructure Division, College of Dentisty, Dental Science Building, Iowa City, Iowa 52240. Article: Electron microscope, Model Elmiskop 101. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used for biological research projects in the academic discipline of dentistry which include, among others, the following:

A. Computerization of electron densitometric data obtained from Faraday cage of electron microscope in quantitative and three-dimensional studies of the nervous system.

B. Comparative quantitative studies between light microscopy and low magnification electron microscopic technics, specifically with regard to nerve fiber size spectra.

C. High resolution electron microscopy of nerve twig myelin and axoplams with different functions.

D. Three-dimensional reconstructions of millimeter-long mammalian muscle spindles.

E. High resolution negative staining technic in characterization of proteinpolysaccharide-complexes of unknown size and composition in embryonic connective tissue from mice. Also students completing the course Electron Microscopy will use the instrument for training in three-dimensional ultrastructure, high-resolution electron microscopy, and maintenance of different makes of a modern electron microscope. Application received by Commissioner of Customs: August 11, 1972. Advice submitted by Department of Health, Education, and Welfare on: December 8, 1972.

Docket No. 73–00108–33–46040. Applicant: Veterans' Administration Hospital, General Medical Research Service, 3495 Bailey Avenue, Buffalo, NY 14215. Article: Electron microscope, Model Elmiskop 1A and accessories. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used in studies of tight junction of the proximal tubule of rabbit for determination of fine structure and modification of fine structure by hormones such as antidiuretic hormone. Other experiments to be conducted include: (1) Localization of lactic dehydrogenase isoenzymes in the heart muscle of experimental animals subjected to periods of hypoxia, and (2) identification of the components of amyloid in organs of experimental animals and human beings afflicted with the disease, and (3) identification of isolated and purified components prior to chemical characterization. Application received by Commissioner of Customs: August 15, 1972. Advice submitted by Department of Health, Education, and Welfare on: December 8, 1972.

Comments: No comments have been received in regard to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States. Reasons: Each foreign article has a specified resolving capability equal to or better than 3.5 Angstroms. The most closely comparable domestic instrument is the Model EMU–4C electron microscope which is manufactured by the Forgflo Corp. (Forgflo). The Model EMU–4C has a specified resolving capability of 5 Angstroms. (Resolving capability bears an inverse relationship to its numerical rating in Angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU–4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

B. Blankenheimer,
Acting Director,
Office of Import Programs.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72–00182–01–77030. Applicant: Yale University, Department of Chemistry, 225 Prospect Street, New Haven, CT 06520. Article: Nuclear Magnetic Resonance. Spectrometer, Model JNM–MH–100. Manufacturer: Japan Electron Optics Laboratory Co., Japan. Intended use of article: The article will be used in several areas of research including the following representative samples: (1) Structural investigations of sparingly soluble natural, products; (2) High sensitivity studies of ^{13}C sidebands to follow incorporation of labeled compounds in the elucidation of biosynthetic pathways; (3) Kinetic and mechanistic studies using accurate nmr line shape analysis of nonrigid organic, organometallic and inorganic complex compounds; (4) Studies of binding of small molecules to oligonucleotides; (5) Studies of isotope exchange; (6) Studies of rearrangement mechanisms in Vitamin B_{12} analogs; (7) NOE and high resolution studies of stereo-chemistry about the glycosidic linkage in nucleosides; (8) Studies involving relationships between electronic and molecular structure and nmr parameters in small ring and bicyclic alkanes and alkenes; (9) Kinetic and mechanistic studies of rearrangements of carbonium ions; and (10) Structural investigations of aqueous dispersions of lecithins and other model membrane systems. The article will also be used in the following courses: (1) Chemistry 42 (a,b), Research Problems in Chemistry; and (2) Chemistry 144, Organic Laboratory Techniques.

Comments: Comments were received from Varian Associates which allege inter alia that an NMR Spectrometer of equivalent scientific value (the Varian XL–100–15) for the purposes for which the article is intended to be used is being manufactured in the United States. (Comments dated January 28, 1972.) Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, could have been made available to the applicant institution without excessive delay at the time the foreign article was ordered (Sept. 2, 1970). Reasons: The foreign article is of the category that is customarily "produced on order" which is defined in § 701.2(j) of the Department's regulations as "an instrument, apparatus, or accessory which a manufacturer lists in a current catalog and is able and willing to produce and have available without unreasonable delay to the applicant." Section 701.11(b) of the regulations provides in pertinent part that "In determining whether a U.S. manufacturer is able and willing to produce a product on order, or custom-made instrument, apparatus, or accessory and have it available without unreasonable delay to the applicant, the Deputy Assistant Secretary shall take into account the normal commercial practices applicable to the production and delivery of instruments, apparatus, or accessories of the same general category."

The question of availability without unreasonable delay is associated with the issue of excessive delivery time which is explained in § 701.11(c) of the regulations as follows:

(c) *Excessive delivery time.* Duty-free entry of the article shall be considered justified without regard to whether there is being manufactured in the United States an instrument, apparatus, or accessory of equivalent scientific value for the purposes described in response to question 7 of the application form, if the delay in obtaining such domestic instrument, apparatus, or accessory (as indicated by the difference between the delivery times quoted by domestic manufacturer and foreign manufacturer) will seriously impair the accomplishment of the purposes. In determining whether the difference in delivery times is excessive, the Deputy Assistant Secretary shall take into account the relevancy of the applicant's program to other research programs with respect to timing, the applicant's need to have such instrument, apparatus, or accessory available at the scheduled time for the course(s) in which the article is intended to be used, and other relevant circumstances.

The foreign article was ordered September 2, 1970. The applicant alleges that the Varian XL–100–15, the most closely comparable domestic instrument, was not available "within a reasonable delivery period from the time of our purchase." In a letter dated August 5, 1970, to the Department of Commerce regarding the availability of the Varian XL–100–15 system, Varian advised that the delivery time for the XL–100–15 system, was 6 to 8 months. The delivery time for the foreign article was quoted as 90 days from the receipt of order. The National Bureau of Standards (NBS) advises in its memorandum dated October 7, 1972, that the difference in delivery time is significant for the applicant's requirement for use of the article during the 1970–71 academic year.

Accordingly, we find the difference in delivery time between the foreign article and the Varian XL–100–15 to be excessive within the meaning of § 701.11(c) as it would seriously impair the accomplishment of the applicant's program.

B. Blankenheimer,
Acting Director,
Office of Import Programs.

YESHIVA UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73–00052–01–10100. Applicant: Yeshiva University, Belfer Graduate School of Science, Amsterdam Avenue and 185th Street, New York, N.Y. 10033. Article: Temperature-jump instrument. Manufacturer: Hartley Measurements, Ltd., United Kingdom. Intended use of article: The article is intended to be used to determine the rates of extremely fast reactions in aqueous solutions. The temperature-jump technique consists of perturbing an equilibrium system with rapid change in temperature and observing the rapid exponential relaxation to the new equilibrium conditions. The relaxation times of the reactions to be studied are as fast as 1 or 2 microseconds. Particular emphasis will be placed on reactions of biochemical importance, differences between diastereoisomeric pairs, and differences between isotopic pairs.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article can be used to measure reactions taking place in as little as 1 microsecond. The most closely comparable domestic temperature-jump apparatus, the Model D–150, manufactured by the Durrum Instrument Corp. cannot be used to measure reaction times faster than 20 microseconds. The Department of Health, Education, and Welfare (HEW) in its memorandum dated December 8, 1972 advises that the capability of the article for measuring reactions occurring in a minimum time is pertinent to the purposes for which the article is intended to be used. HEW also advises that it knows of no comparable domestic instrument which matches the pertinent specification of the article.

For these reasons we find the Model D–150 is not of equivalent scientific value to the foreign article for the purposes for which the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. Blankenheimer,
Acting Director,
Office of Import Programs.

Office of Minority Business Enterprise

ADVISORY COUNCIL FOR MINORITY ENTERPRISE—EDUCATION COMMITTEE

Notice of Public Meeting

Pursuant to the provisions of the Federal Advisory Committee Act of October 6, 1972 (Public Law 92–463, 86 Stat. 770–776) notice is hereby given that a public meeting of the Education Committee of the Advisory Council for Minority Enterprise will be held on January 19 and 20, 1973 in Room Executive IV of the Ramada Inn, 6060 Central Expressway, Dallas, Tex. The meeting will be held from 1 p.m. to 5 p.m. on January 19 and from 9 a.m. to 12 noon on January 20, and will be open to the public. Any member of the public who wishes to do so may file a written statement with the Committee, before or after the meeting. Such statements may be filed at 1000 Vermont Avenue, Washington, D.C. (202/967–3922). Interested persons may make oral statements at the meeting to the extent that the time available for the meeting permits.

The purpose of the meeting is to formulate plans and priorities for the Education Committee for the forthcoming year.

Dated: January 8, 1973.

Charles Stein,
Executive Secretary of the Advisory Council for Minority Enterprise.

Office of Textiles

MANAGEMENT-LABOR TEXTILE ADVISORY COMMITTEE

Notice of Closed Meeting

A. Management-Labor Textile Advisory Committee (the Committee).

B. The meeting is scheduled for January 17, 1973, at 2 p.m., Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

C. The purpose of the meeting is to provide advice and information to Department officials on conditions in the textile industry and on trade in textiles and apparel.

D. The Acting Assistant Secretary of Commerce for Administration, pursuant to section 10(d) of Public Law 92–463, determined on January 8, 1973, that the Committee meeting scheduled for January 17, 1973, shall be exempt from the provisions of section 10 (a)(1) and (a)(3), relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in section 552(b)(5) of title 5, United States Code.

E. Further information may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

Arthur Garel,
Director, Office of Textiles, Bureau of Resources and Trade Assistance.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 9542; Docket No. FDC–D–535; NDA 9–542, etc.]

CERTAIN COMBINATION DRUGS CONTAINING RAUWOLFIA ALKALOIDS

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications; Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study

V 38 - 7 JAN 11 73 XUM

Group, on the following drugs for oral administration:

1. Reserpine with Pyrilamine Maleate Tablets containing pyrilamine maleate and reserpine; Nysco Laboratories, Inc., 34-24 Vernon Boulevard, Long Island City, NY 11106 (NDA 10-934).

2. Belserp Tablets containing reserpine, hyoscyamine sulfate, atropine sulfate, and scopolamine hydrobromide; Nysco Laboratories, Inc. (NDA 10-254).

3. Raudonna Tablets containing reserpine, hyoscyamine sulfate, atropine sulfate, and scopolamine hydrobromide; Mallinckrodt Pharmaceuticals, Division Mallinckrodt Chemical Works, Second and Mallinckrodt Street, St. Louis, Mo. 63160 (NDA 10-127).

4. Renir Tablets containing reserpine and ephedrine sulfate: The S. E. Massengill Co., 527 Fifth Street, Bristol, TN 37620 (NDA 10-407).

5. Pedresin Tablets containing rescinnamine, thiamine mononitrate, and cobalamin concentrate; Nysco Laboratories, Inc. (NDA 11-291).

6. Aminoserp Tablets containing aminophylline and reserpine; Nysco Laboratories, Inc. (NDA 10-164).

7. Solfo-Serpine Tablets and Capsules containing reserpine, phenobarbital, and colloidal sulfur; Wm. P. Poythress & Co., Inc., 16 North Street, Richmond, VA 23217 (NDA 11-139).

8. Sandril with Pyronil Tablets, containing reserpine and pyrrobutamine phosphate; Eli Lilly and Co., Post Office Box 618, Indianapolis, Ind. 46206 (NDA 9-542).

The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that combination drugs of the kinds described above will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling or that each ingredient of the combination preparations contributes to the total effects claimed for the drug.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto, including those providing for other oral dosage forms, on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the appplicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

Within 30 days after publication hereof in the FEDERAL REGISTER the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner withqut further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, within 30 days after publication of this notice in the FEDERAL REGISTER, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: January 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-566 Filed 1-10-73;8:45 am]

[DESI 6257; Docket No. FDC-D-540; NDA 6-257]

COMBINATION CONTAINING AMINOPHYLLINE, DIPHENHYDRAMINE, AND AMMONIUM CHLORIDE

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drug:

Hydryllin Compound, containing aminophylline, diphenhydramine, and ammonium chloride; G. D. Searle & Co., Post Office Box 5110, Chicago, Ill. 60680 (NDA 6-257).

The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that this fixed combination drug will have the effect that it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling and that each component of such drug contributes to the total effects claimed.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of pertinent parts of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

Within 30 days after publication hereof in the FEDERAL REGISTER the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of pertinent parts of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, within 30 days after publication of this notice in the FEDERAL REGISTER, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after the expiration of such 30 days, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: December 27, 1972.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.73-567 Filed 1-10-73;8:45 am]

MANUFACTURERS AND DISTRIBUTORS

Notice of Prescription Drugs for Human Use Affected by Drug Efficacy Study Implementation; Correction

The Commissioner of Food and Drugs issued a notice to manufacturers and distributors regarding prescription drugs for human use affected by Drug Efficacy Study Implementation, which was published in the FEDERAL REGISTER of Thursday, December 14, 1972 (37 FR 26623). The third sentence in the second paragraph of the first column on page 26625 reading "If infections with the gram-negative organisms are impetigo-like and not deep and spreading, they may be treated with topical antibiotics because systemically administered agents for these organisms would be used for most skin infections since they are usually due to staphylococci and streptococci." should be corrected to make two sentences that will read "If infections with the gram-negative organisms are impetigo-like and not deep and spreading, they may be treated with topical antibiotics because systemically administered agents for these organisms may produce serious side effects. Bacitracin (or gramicidin) and neomycin would be used for most skin infections since they are usually due to staphylococci and streptococci."

Dated: December 26, 1972.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.73-564 Filed 1-10-73;8:45 am]

[DESI 9036]

OXYTETRACYCLINE HYDROCHLORIDE AND POLYMYXIN B SULFATE VAGINAL TABLETS

Drugs for Human Use; Drug Efficacy Study Implementation Followup Notice

In a notice (DESI 9036) published in the FEDERAL REGISTER of April 4, 1972 (37 FR 6773), the Commissioner of Food and Drugs announced his conclusions pursuant to evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following preparations:

Terramycin Vaginal Tablets with Polymyxin B Sulfate, containing oxytetracycline hydrochloride and polymyxin B sulfate; Pfizer Inc., 235 East 42d Street, New York, NY 10017 (NDA 61-009).

The notice stated that the drug was regarded as effective and possibly effective for the various labeled indications.

The possibly effective indications have been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness of the drug has been submitted pursuant to the notice of April 4, 1972.

Pfizer Inc. has supplemented their antibiotic application to delete the possibly effective indications from the drug's labeling.

Batches of such drugs with labeling bearing indications for which substantial evidence of effectiveness is lacking are no longer acceptable for certification or release or eligible for exemption from certification.

V 38 - 7 JAN 11 73 XUM

Any person who will be adversely affected by the deletion from labeling of the indications for which the drug has been reclassified from possibly effective to lacking substantial evidence of effectiveness may, within 30 days after the date of publication of this notice in the FEDERAL REGISTER, petition for the issuance of a regulation providing for other certification of the drug for such indications. The petition must be supported by a full factual and well documented medical analysis which shows reasonable grounds for the issuance of such regulation.

A petition for issuance of said regulation should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: December 26, 1972.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing Management

[Docket No. D–73–213]

REGIONAL ADMINISTRATORS ET AL.

Redelegation of Authority With Respect to Loan and Contract Servicing

The Redelegation of Authority to Regional Administrators et al., with respect to Loan and Contract Servicing published at 35 FR 16104, October 14, 1970, and amended at 36 FR 1488, January 30, 1971, 36 FR 21539, November 10, 1971, 37 FR 104, January 5, 1972, and 37 FR 14427, July 20, 1972, is further amended as follows:

1. In section A a new paragraph 2 is added to read as follows:

2. In addition to the authority redelegated in section A.1, the Regional Administrator and Deputy Regional Administrator, San Francisco Regional Office, Region IX, and the Area Director, Deputy Area Director, and Director, Housing Management Division, San Francisco Area Office, Region IX, each is authorized to exercise within the jurisdiction of the San Francisco Area Office the following authority:

a. To approve and execute the modification in the terms of insured project mortgages subsequent to final insurance endorsement or HUD-held mortgages: *Provided*, That such authority is limited to deferment of principal not to exceed 1 year and only so long as the mortgagor continues to pay full interest, escrow requirements, and, as applicable, service charges on HUD-held mortgages.

b. To approve and execute Provisional Work-Out Arrangements with respect to HUD-held project mortgages even though in default: *Provided*, That such work-out arrangements shall not exceed 1 year and that the mortgagor continues to pay a monthly installment equal to the service charge, escrow requirements and not less than one-half (½) of the interest requirement.

2. In section A, paragraph 2 is renumbered 3 and is revised to read:

3. Each Director, Housing Management Division, Area Office and Insuring Office, is authorized to exercise the power and authority under section A,1, and each Chief, Management and Mortgage Servicing Section, Insuring Office, is authorized to exercise the power and authority under section A,1, paragraphs d–s.

(Secretary's delegation of authority published at 36 FR 5005, Mar. 16, 1971)

Effective date. This amendment to redelegation of authority is effective as of December 15, 1972.

NORMAN V. WATSON,
Assistant Secretary for Housing Management.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. EX 72–2; Notice 2]

GENERAL MOTORS CORP.

Temporary Exemption From Federal Motor Vehicle Safety Standard

The National Highway Traffic Safety Administration has decided to grant General Motors Corp. an exemption from compliance with Federal Motor Vehicle Safety Standard No. 208, *Occupant Crash Protection*, from January 8, 1973 to January 1, 1974, covering up to 1,000 Chevrolet passenger cars. The ground for the exemption is that it would facilitate the development and field evaluation of an innovational safety feature.

Notice of petition for the exemption was published in the FEDERAL REGISTER on December 13, 1972 (37 FR 26539) and an opportunity afforded for comment. Section 123(e) of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1410(e)) requires General Motors to "include in the application research, development, and testing documentation establishing the innovational nature of the safety features and a detailed analysis establishing that the level of safety of the new safety feature is equivalent to or exceeds the level of safety established in the standard from which the exemption is sought." The salient points of the petition in support of these factors may be summarized as follows:

1. A detailed description of the General Motors Air Cushion Restraint System has been filed in Docket No. 69–7, and the system is discussed in two papers of the Society of Automotive Engineers: No. 720407, "Air Cushion Restraint Systems Development and Vehicle Applications", by D. D. Campbell, and No. 720411, "Special Problems and Considerations in the Development of Air Cushion Restraint Systems", by E. H. Klove, Jr. and R. N. Oglesby.

2. The SAE papers and documentation submitted previously by General Motors establish the innovational nature of air cushions on a restraint system, and demonstrate that the level of safety exceeds the level of safety provided by the lap and shoulder restraints required by Standard No. 208.

The petition was supported by Allstate Insurance Co. and opposed by the Public Interest Research Group and Edward F. Kearney of Falls Church, Va. The principal issues raised by the comments, and involved in the matter, are as follows:

A. *Support for petition.* The Public Interest Research Group asserts that petitioner has submitted no research, development, or test data with the application to support its allegations that it is developing an innovational safety feature or that the feature provides a level of safety which equals or exceeds that required by Standard No. 208. The Research Group contends that it is unnecessarily burdensome for the public to search the files for the documents General Motors has referenced, and that the petitioner should submit the results of "development and certification tests conducted in accordance with MVSS 208" which apparently are not in the public domain.

The NHTSA has decided that General Motors has adequately made and documented its case, and that the exemption if granted would facilitate the development and field evaluation of an innovational safety feature, one which will provide a level of safety exceeding that required by Standard No. 208. The air cushion restraint system in question was developed by General Motors as a result of rulemaking proceedings of the NHTSA (Docket No. 69–7) culminating in the issuance of Standard No. 208, *Occupant Crash Protection*. The system is designed to satisfy the requirements of "Option 1" of that standard, providing complete passive protection. All aspects of the air cushion restraint system, including test data and discussions of its merits relative to other types of systems, are described in detail in the many thousands of pages of material contained in that docket, which is available to the public at the same location as the petition considered in this notice. In response to petitions for review of the

standard in the U.S. Court of Appeals for the Sixth Circuit, this agency took the position that passive systems such as the one considered in this petition provide an overall level of protection that is equivalent to, and in many respects superior to, the protection offered by belt systems presently in use. Although the court of appeals remanded the proceeding to the agency for further elaboration of its test dummy specifications, it upheld the NHTSA's judgment that the passive protection requirement was practicable and met the need for motor vehicle safety. (Chrysler Corp. v. DOT, No. 71–1339, 6th Cir. 1972.) Thus, this petition is unique in that it involves a system that is already exhaustively described in the public docket, and whose merits have already been favorably passed on in the course of both agency rulemaking and judicial review. For these reasons this agency has determined that further documentation of the features of General Motors' air cushion system for purposes of this petition is unnecessary.

B. *Scope of exemption.* Edward F. Kearney has commented that the exemption should not relieve the manufacturer of the obligation to provide lap belts in the driver's seating position, contending that failure of the driver to wear the lap belt can contribute to a crash or cause injuries to others.

The purpose of the exemption is to evaluate under actual driving conditions a restraint system for front seat occupants that is completely passive in nature, and not a hybrid active-passive system. To grant Mr. Kearney's request would tend to defeat the purpose of this exemption. Also, as noted above, the agency has determined that the air cushion system provides a level of safety at least equivalent to belt systems. The Allstate Insurance Co., which has equipped an experimental fleet of over 200 vehicles with both air cushions and lap belts, did not make a request similar to Mr. Kearney's in supporting the petition, as it has found that usage of the lap belt system is less than 17 percent.

C. *Timeliness of application.* The Research Group argued that an exemption cannot be granted in advance of the application procedures, alleging that the regulations are an integral part of the exemption scheme.

The NHTSA does not agree with this position. The new exemption authority (Public Law 92–548) was enacted on October 25, 1972. Although the legislation directed the Secretary to issue regulations, it did not state that no action on petitions should be taken until regulations were finally in effect. In this case, deferring consideration of the petition would delay field evaluation of a safety device which the agency believes has a great potential in reducing deaths and injuries resulting from traffic accidents. The NHTSA agrees that it is normally preferable to defer action until the implementing regulations are adopted, but in this case important countervailing considerations were found to exist.

In consideration of the foregoing, General Motors Corp. is granted NHTSA Exemption No. 73–2, exempting up to 1,000 Chevrolet passenger cars manufactured from January 8, 1973, to January 1, 1974, from compliance with the requirements of paragraphs S4.1.1.2, S4.1.1.3, and S4.1.2.2 of Federal Motor Vehicle Safety Standard No. 208, *Occupant Crash Protection*, applicable to front designated seating positions.

General Motors will be required to provide notification in the manner proposed (37 FR 25533, Dec. 1, 1972), in both a windshield label and the vehicle's certification label attached to the door or door post nearest the driver.

(Sec. 3, Public Law 92–548, 86 Stat. 1151, 15 U.S.C. 1410; delegation of authority at 49 CFR 1.51)

Issued on January 5, 1973.

[Docket No. EX 72–1; Notice 2]

LOTUS CARS, LTD.

Temporary Exemption from Federal Motor Vehicle Safety Standard

The National Highway Traffic Safety Administration has decided to grant Lotus Cars, Ltd. an exemption from compliance with Federal Motor Vehicle Safety Standard No. 214, *Side Door Strength*, from January 8, 1973, to August 15, 1973. The ground for the exemption is that compliance would cause the petitioner substantial economic hardship. The exemption is for the Lotus Europa model only.

Notice of petition for the exemption was published in the FEDERAL REGISTER on December 2, 1972 (37 FR 25768), and an opportunity afforded for comment. Section 123(e) of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1410(e)) requires Lotus to demonstrate that compliance with Standard No. 214 would cause it substantial economic hardship, and that it has made a good faith effort to comply with the standard. The salient points of the petition in support of these factors may be summarized as follows:

1. The basic design of the Europa door does not permit the introduction of a straight beam linking the door hinge to the door latch. Introduction of a sufficient reinforcement would incur tooling and development costs of $750,000, and necessitate an increase in retail price of $1,500. However, the reinforcement would reduce the window opening in the Europa to less than 3 inches.

2. Thirty-eight percent of the company's worldwide sales in 1972 have been in the American market. The Elan model, representing 20 percent of U.S. sales, has already been discontinued because of its inability to meet Standards No. 215 and No. 302, effective September 1, 1972. Failure to secure an exemption from Standard No. 214 would terminate the participation by Lotus in the American market for about a year until new conforming models are introduced. Projected losses of $444,000 would be incurred.

3. Lotus believes the exemption will not be necessary for more than 1,000 units, and the two new models scheduled for introduction in 1973 are designed to conform to Standard No. 214.

Comments supporting the petition were received from American Motors Corp. and Ecurie Shirlee Corp. of Manhattan Beach, Calif. The petition was opposed by the Center for Auto Safety, the Public Interest Research Group, and Mr. George J. Grumbach, Jr. of New York City, N.Y. The principal issues raised by the comments, and involved in the matter, are as follows.

A. *Substantial economic hardship.* The Public Interest Research Group argued that Lotus has failed to prove that lack of an exemption would result in an irretrievable loss of U.S. dealerships and permanent exclusion from the American market. It asserted that affidavits from dealers and market surveys should have been submitted by Lotus in support of its statement of expected consequences of a denial. The Research Group also contended that Lotus should have estimated whether the predicted economic loss of $444,000 could be made up in whole or in part by raising the price of vehicles sold outside the U.S. market, and showing, as an alternative, that the market outside the United States could not absorb the nonexempted Lotuses. The Research Group suggested that in the absence of such a demonstration, the only economic hardship suffered would be a reduction in profits, and expressed doubt that that alone constitutes "substantial economic hardship." The Center for Auto Safety asked for a clarification of "hardship," arguing that the need of Lotus for an exemption is predicated upon faulty management decisions and that the NHTSA should discourage applications growing out of such circumstances.

The NHTSA has decided that Lotus has adequately made and documented its case for substantial economic hardship. It is clear that a denial would cause Lotus to leave the American market until either a conforming Europa could be manufactured, late in 1973, or until its planned new models could be introduced. Bringing the Europa into conformity would necessitate large, unplanned-for expenditures, delay new models that will incorporate a higher level of overall safety than the Europa, and result in a vehicle whose reception by the public would be dubious because of its reduced window opening. Either course would deprive petitioner of almost 40 percent of its sales income for 1973.

It is possible that some lost volume could be diverted elsewhere, but other costs and risks would be incurred. The incremental inventory cost of equipping the vehicles to meet U.S. safety standards would either be substantially lost, or result in an additional price premium that would make the vehicles harder to sell. The effort to expand sales for a

V38-7 JAN 11 73 XUM

short period in other markets would entail major costs in overhead and management time, with uncertain results. It is probably true that Lotus has a sufficient reputation that denial of the exemption would not cause an irretrievable loss of its dealerships, or permanently exclude it from the U.S. market. But this agency does not interpret the exemption legislation (Public Law 92–548, 86 Stat. 1159) as requiring such a showing. It finds that Lotus has demonstrated that without an exemption this small producer will suffer a severe financial setback. That the projected loss may ultimately not be fatal is balanced by the fact that the exemption sought is limited to one standard and to a short period of time. Thus, on the basis of data presented, the NHTSA finds that conformity to Standard 214 would cause substantial economic hardship for Lotus within the meaning of section 123 of the Act.

The NHTSA cannot accept the view of the Center for Auto Safety that the agency should reject an application resulting from a risk that management consciously incurred. The Center argues that Lotus should have devoted its efforts to improving the Europa rather than gambling that its conforming model would be ready by January 1, 1973. It was, however, demonstrated that Lotus has given effort to upgrading the Europa. The basic design of the vehicle antedates its introduction in 1968, when the initial Federal safety standards became effective, and the company has not previously sought an exemption from any other standard.

Particularly in a small company, management cannot be expected to anticipate every contingency, and Lotus' inability to adhere to its production schedule for its new model should not be considered fatal to its application. The situation would be different where management deliberately avoided conformance, but no evidence of bad faith is present in the current situation.

B. *Good faith efforts to comply.* The Public Interest Research Group and the Center for Auto Safety argued that Lotus should demonstrate at what points and how its schedule for development of a model complying with Standard No. 214 was delayed, and that Lotus should state whether alternate methods were considered.

The NHTSA believes that the submission by Lotus demonstrates that the Europa could not be brought into conformity without major changes to the vehicle structure, which would create a problem of window clearance, and that the decision to introduce successor models was made at a reasonably early time, with a view to conforming to Standard No. 214 and presumably other standards coming into effect in the mid-70's. Submission of a development schedule would be relevant to the issue of good faith, but since a delay of less than a year is involved, the agency has found such a submission unnecessary to make a decision at this time. The question may be reconsidered, however, in the event of a petition for extension of the exemption.

C. *Public interest.* Mr. George J. Grumbach, Jr. commented that the economic hardship to Lotus should be weighed against the cost of injuries that could be suffered. He argued that damages from personal injuries of $100,000 could arise, and that if Lotus' profit on a sale of 1,000 units is $1,000 per unit, "no more than ten serious accidents would be required to counterbalance the economic hardship Lotus claims it would suffer." Mr. Grumbach suggested that as a minimum Lotus should indicate on its sales controls and literature, and on a permanent plaque on the dashboard, that the Europa fails to meet Standard No. 214.

Mr. Grumbach's comments point to an issue that much be considered in determining whether the exemption is in the public interest. It should be noted, however, that an analysis of direct public costs and benefits may not be conclusive in determining the merits of an exemption petition. The intent of the hardship exemption legislation was at least in part to mitigate the economic effects of the standards on small manufacturers, with a view to preserving their viability and the long-term public benefits of variety of choice in automotive transportation—benefits that cannot adequately be measured in financial terms.

The NHTSA has found that the safety detriment to drivers and passengers of Lotus Europas is not sufficient to outweigh the other considerations discussed herein, in light of the purposes of the exemption legislation. The exemption will enable Lotus to introduce in a relatively short time vehicles that will meet or exceed current and proposed standards. Again, the limited character of the Lotus petition is relevant, in that exemption is sought for only 1,000 vehicles from one standard for 8 months.

Mr. Grumbach's suggestion regarding purchaser notification has been filed in Docket No. 72–30 and will be considered in formulating the regulations for Temporary Exemption from Federal Motor Vehicle Safety Standards. Lotus will be required to provide notification in the manner proposed (37 FR 25533, Dec. 1, 1972), on both a windshield label and the vehicle's certification label attached to the door or door post nearest the driver. The certification label will read:

This Vehicle Conforms To All Applicable Federal Motor Vehicle Safety Standards In Effect on the Date of Manufacture Shown Above Except for Standard No. 214, Side Door Strength. Exempted Pursuant to NHTSA Exemption No. 73–1.

The windshield label will have the same statement, except that the words "shown above" will not be included.

D. *Timeliness of application.* The Public Interest Research Group argued that an exemption cannot be granted in advance of adoption of the application procedures, alleging that the regulations are an integral part of the exemption scheme.

The NHTSA does not agree with this position. The new exemption authority (Public Law 92–548) was enacted on October 25, 1972. Although the legislation directed the Secretary to issue regulations, it did not state that no action on petitions should be taken until the regulations were finally in effect. In this case, delay would create a hardship, since Standard No. 214, from which exemption is sought, was effective January 1, 1973. The NHTSA agrees that it is normally preferable to defer action until the implementing regulations are adopted, but in this case important countervailing considerations were found to exist.

In consideration of the foregoing, Lotus Cars, Ltd. is granted NHTSA Exemption No. 73–1, exempting its Europa model manufactured from January 8, 1973, to August 15, 1973, from compliance with Federal Motor Vehicle Safety Standard No. 214, *Side Door Strength.*

(Sec. 3, Public Law 92–548, 86 Stat. 1159, 15 U.S.C. 1410; delegation of authority at 40 CFR 1.51)

Issued on January 5, 1973.

PRIME GLAZING MATERIAL MANUFACTURERS

Assignment of Code Numbers

This notice publishes code numbers presently assigned by NHTSA to prime glazing material manufacturers.

Code numbers may be used by prime glazing material manufacturers as a means of certifying that glazing materials conform to Motor Vehicle Safety Standard No. 205, "Glazing Materials" (49 CFR 571.205). Pursuant to recent amendments to Standard No. 205 (37 FR 12237, June 21, 1972; 37 FR 24035, November 11, 1972), each prime glazing material manufacturer will be required, after April 1, 1973, to certify glazing materials manufactured by him by affixing the symbol DOT to them, in accordance with paragraph S6.2 of Standard No. 205, followed by a code number assigned by NHTSA. Code numbers will be assigned to prime glazing material manufacturers on their written request to the Associate Administrator, Motor Vehicle Programs, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, DC 20590.

(Sections 103, 114, 119, Public Law 89–563, 80 Stat. 718 15 U.S.C. 1392, 1403, 1407, and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on January 5, 1973.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

ATOMIC ENERGY COMMISSION

OAK RIDGE OPERATIONS OFFICE

Trespassing On Commission Property

The notice concerning unauthorized entry into or upon certain installations and facilities of the Oak Ridge Operations Office of the Atomic Energy Commission dated October 12, 1965, appearing at pages 13285–13287 of the FEDERAL REGISTER of October 19, 1965, 30 FR 13285 (FR Doc. 65–11108), and amended at page 5384 of the FEDERAL REGISTER of March 30, 1967, 32 FR 5384 (FR Doc. 67–3473), and at page 18302 of the FEDERAL REGISTER of December 1, 1970, 35 FR 18302 (FR Doc. 70–16033), is hereby further amended in the following respects:

The following installations and facilities are added to this notice:

The Atomic Energy Commission installation known as the Oak Ridge National Laboratory 7900 Area occupied by the High-Flux Isotope Reactor, High-Flux Isotope Reactor Office Building, Transuranium Processing Plant, and Thorium-Uranium Recycle Facility, located in the Second Civil District, Roane County, Tenn., within the corporate limits of the city of Oak Ridge, on the south side of Melton Valley Drive, approximately 0.7 mile west of the intersection of Melton Valley Drive and Melton Valley Access Road, said intersection being approximately 0.6 mile south of the intersection of Bethel Valley Road and Melton Valley Access Road. This installation contains approximately 36 acres and is enclosed by a 6-foot chain link fence.

Dated at Germantown, Md., this 3d day of January 1973.

ROBERT E. HOLLINGSWORTH,
General Manager.

[Docket No. 50-395]

SOUTH CAROLINA ELECTRIC AND GAS CO.

Availability of Final Statement on Environmental Considerations

Pursuant to the National Environmental Policy Act of 1969 and the U.S. Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a document entitled "Final Environmental Statement related to the proposed issuance of a construction permit to the South Carolina Electric and Gas Company for the Virgil C. Summer Nuclear Station, Unit 1", is being placed in the following locations where it will be available for inspection by members of the public: The Commission's Public Document Room at 1717 H Street NW., Washington, DC 20545, and in the Fairfield County Library, Vanderhorst Street, Winnsboro, SC 29180. The report is also being made available at the Office of the Governor, State Planning and Grants Division, Wade Hampton Office Building, Columbia, SC 29201, and at the Central Midlands Regional Planning Council, 1125 Blanding Street, Columbia, SC 29201.

The notice of availability of the Draft Environmental Statement for the Virgil C. Summer Nuclear Station and request for comments from interested persons was published in the FEDERAL REGISTER on September 30, 1972, 37 FR 20585 and 20586. The comments received from Federal, State, and local officials and interested members of the public have been included as appendixes to the final environmental statement.

V 38-7 JAN 11 73 XUM

Single copies of the statement may be obtained by writing to the U.S. Atomic Energy Commission, Washington, DC 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 8th day of January 1973.

For the Atomic Energy Commission.

GEORGE W. KNIGHTON,
Chief, Environmental Projects Branch No. 1, Directorate of Licensing.

Entry or Withdrawal From Warehouse for Consumption

JANUARY 5, 1973.

On December 22, 1972, the U.S. Government, in furtherance of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive bilateral cotton textile agreement with the Government of Portugal concerning exports of cotton textiles and cotton textile products from Macao to the United States over a 5-year period beginning January 1, 1973, and extending through December 31, 1977. Among the provisions of the agreement are those establishing an aggregate limit for the 64 categories and within the aggregate limit specific limits on Categories 50 and 62 for the agreement year which began on January 1, 1973.

There is published below a letter of January 5, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in Categories 50 and 62 produced or manufactured in Macao which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning January 1, 1973, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement but are designed to assist only in the implementation of certain of its provisions.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

JANUARY 5, 1973.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of December 22, 1972, between the Governments of the United States and Portugal, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective as soon as possible, and for the 12-month period beginning January 1, 1973, and extending through December 31, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 50 and 62 produced or manufactured in Macao, in excess of the following 12-month levels of restraint:

Category		12-month levels of restraint [1]
50	dozen	39,332
62	pounds	152,174

[1] These levels have not been adjusted to reflect any entries made on or after Jan. 1, 1973.

Cotton textiles and cotton textile products in Categories 50 and 62 produced or manufactured in Macao and which have been exported to the United States prior to January 1, 1973, shall not be subject to this directive.

Cotton textiles and cotton textile products which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of December 22, 1972, between the Governments of the United States and Portugal which provide, in part, that within the aggregate limit, the limitations on certain categories may be exceeded by not more than five (5) percent; for the limited carryover of shortfalls to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above will be made to you by letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Portugal and with respect to imports of cotton textiles and cotton textile products from Macao have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

CERTAIN WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN MACAO

Entry or Withdrawal from Warehouse for Consumption

JANUARY 5, 1973.

On December 22, 1972, the U.S. Government concluded a comprehensive bilateral Wool and Man-Made Fiber Textile Agreement with the Government of Portugal concerning exports of wool and man-made fiber textiles from Macao to the United States over a 5-year period beginning January 1, 1973, and extending through December 31, 1977. Among the provisions of the agreement are those establishing specific export limitations on man-made fiber textile products in Categories 219, 221, 222, 223, 224, 229, and 230, for the agreement year which began January 1, 1973.

Accordingly, there is published below a letter of January 5, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of man-made fiber textile products in the above categories produced or manufactured in Macao which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning January 1, 1973, and extending through December 31, 1973, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

JANUARY 5, 1973.

DEAR MR. COMMISSIONER: Under the provisions of the bilateral Wool and Man-Made Fiber Textile Agreement of December 22, 1972, between the Governments of the United States and Portugal, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective as soon as possible and for the 12-month period beginning January 1, 1973, and extending through December 31, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of man-made fiber textile products in Categories 219, 221, 222, 223, 224, 229, and 230, produced or manufactured in Macao, in excess of the following 12-month levels of restraints:

Category		12-month levels of restraint [1]
219	dozen	247,059
221	do	142,826
222	do	226,517
223	do	111,000
224	pounds	193,846
229	dozen	140,800
230	do	12,715

[1] These levels have not been adjusted to reflect any entries made on or after Jan. 1, 1973.

Entries of man-made fiber textile products in the above categories produced or manufactured in Macao and which have been exported to the United States prior to January 1, 1973, shall not be subject to this directive.

Man-made fiber textile products which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of December 22, 1972, between the Governments of the United States and Portugal which provide in part that within the aggregate limit, limits on specific categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustment pursuant to the provisions of the bilateral agreement referred to above will be made to you by letter.

A detailed description of the wool and man-made fiber textile categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802).

In carrying out this directive, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Portugal and with respect to the imports of wool and man-made fiber textile products from Macao have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary and Director, Bureau of Resources and Trade Assistance.

ENVIRONMENTAL PROTECTION AGENCY

MERCK SHARP & DOHME

Notice of Filing of Pesticide and Food Additive Petitions

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 409(b)(5), 68 Stat. 512; 72 Stat. 1786; 21 U.S.C. 346a(d)(1), 348(b)(5)), notice is given that a pesticide petition (PP 3F1332) has been filed by Merck Sharp & Dohme, Division of Merck & Co., Inc., Rahway, N.J. 07065, proposing establishment of a tolerance (40 CFR Part 180) for residues of the fungicide thiabendazole (2 - (4 - thiazolyl) benzimidazole) in or on the raw agricultural commodity citrus at 10 parts per million.

Notice is also given that the same firm has filed a related food additive petition (FAP 3H5023) proposing establishment of a food additive tolerance (21 CFR Part 121) of 35 parts per million for residues of thiabendazole in dried citrus pulp resulting from application of the fungicide to growing citrus fruit.

The analytical method proposed in the pesticide petition for determining residues of the fungicide is a procedure in which residues are extracted with ethyl acetate. The extract is purified by a series of extraction procedures and determined spectrophotofluorometrically.

Dated: January 4, 1973.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticides Programs.

PORT OF SEATTLE AND SEA-LAND SERVICE, INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreements filed by:

Gerald A. Malia, Esq., Ragan & Mason, The Farragut Building, 900 17th Street NW., Washington, DC 20006.

Agreement No. T-2005-8, between the Port of Seattle (Port) and Sea-Land Service, Inc. (Sea-Land), amends the basic lease between the parties (as heretofore amended) which provides for the lease to Sea-Land of certain marine terminal facilities at Seattle, Wash. The purpose of the modification is to provide for: (1) The construction by Sea-Land of a new warehouse, garage, and offices; (2) the demolition and removal by Sea-Land of certain construction to provide for a container yard, such area becoming preferentially assigned to Sea-Land; (3) extend the term of the basic agreement for an additional 5 years; (4) incorporate FMC Agreement No. T-2565 into the basic agreement; (5) grant options for the incorporation of two additional areas to the premises; and (6) describe with more specificity the circumstances under which the Port may permit third persons to use portions of the premises. While Sea-Land is to be reimbursed by the Port for the costs of the improvements made under this amendment, Sea-Land's rental for the facility will increase to the extent necessary to amortize the Port's expenditures on the improvements over the term. Sea-Land will be credited for all sums received by the Port from third parties for wharfage, wharf demurrage, and storage for the area preferentially assigned to Sea-Land.

Agreement No. T-2451-1, between the Port and Sea-Land, amends the basic agreement which provides for the lease of container cranes at the facility in Seattle leased by Sea-Land under the terms of Agreement No. T-2005, as amended. The purpose of the amendment is to: (1) Provide for an increase in the capacity of the existing three cranes and construction of a fourth crane, with the cost of the foregoing to be borne by the Port and amortized by Sea-Land; (2) extend the term of the basic agreement by 5 years; and (3) clarify the Port's right to permit third-person use of the cranes by redefining Sea-Land's rights to the cranes as a preferential assignee rather than a lessee.

Dated: January 4, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL RESERVE SYSTEM

BUDGET INDUSTRIES, INC.

Nonbanking Activities

Budget Industries, Inc., Los Angeles, Calif., has applied, pursuant to section 4(d) of the Bank Holding Company Act (12 U.S.C. 1843(d)), for an exemption from the provisions of the Act limiting the nonbanking activities of a bank holding company. Applicant controls Century Bank, Los Angeles, Calif.

Under section 4(d), the exemption may be granted "(1) to avoid disrupting business relationships that have existed over a long period of years without adversely affecting the banks or communities involved, or (2) to avoid forced sales of small locally owned banks to purchasers not similarly representative of community interests, or (3) to allow retention of banks that are so small in relation to the holding company's total interests and so small in relation to the banking market to be served as to minimize the likelihood that the bank's powers to grant or deny credit may be influenced by a desire to further the holding company's other interests."

Interested persons may express their views on this matter. The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of San Francisco. Any request for a hearing on this matter should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

Any views or requests for a hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than February 1, 1973.

Board of Governors of the Federal Reserve System, January 5, 1973.

CAMBRIDGE AGENCY, INC.

Order Approving Formation of Bank Holding Company, Acquisition of Insurance Agency, and Engaging De Novo in Insurance Agency Activities

Cambridge Agency, Inc., Cambridge, Nebr., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 100 percent of the voting shares of The Cambridge State Bank, Cambridge, Nebr. (Bank).

At the same time, Applicant has applied for the Board's approval under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y to acquire voting shares of Cambridge Insurance Agency, Inc., Cambridge, Nebr. (Agency). Applicant has also applied for permission, itself, to engage de novo in the sale of credit life and credit accident and health insurance.

Applicant states that Agency would engage in the activities of a general insurance agency in a community of less than 5,000 persons and that Applicant, itself, would engage de novo in the sale of credit life and credit accident and health insurance. Such activities have been determined by the Board to be

V 38 - 7 JAN 11 73 XUM

closely related to the business of banking (12 CFR 225.4(a)(9)).

Notice of receipt of these applications was published in the FEDERAL REGISTER on November 4, 1972 (37 FR 23593), and the time for filing comments and views has expired. One comment was received as discussed below. The Board has considered the applications in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)), and the considerations specified in section 4(c)(8) of the Act.

Applicant was organized to acquire the shares of Bank and Agency, and to engage de novo in the sale of credit life and credit accident and health insurance. Applicant's principal owners, as individuals, acquired Bank's shares in July 1971 and 81 percent of Agency's shares in September, 1971. Subsequently, Agency acquired the Louis Shaffert Agency, Inc. The proposed transaction involves the transfer of these shares to Applicant in return for Applicant assuming the debts arising from its organizers' purchase of Bank shares and the Louis Shaffert Agency, Inc.

Bank, the smaller of two banks located in Cambridge, a community of approximately 1,400 persons, had deposits as of June 30, 1972 of approximately $2 million. Since the proposed acquisition of Bank essentially involves only a change from individual to corporate ownership, consummation of the proposal will have no significant adverse effects on existing or potential competition.

Considerations relating to financial and managerial resources and prospects of Applicant and Bank appear to be satisfactory and consistent with approval. Although Applicant will assume the debt incurred by its organizers when Bank and the Louis Shaffert Agency, Inc., were acquired, it appears that such debt may be adequately serviced without placing an undue strain on Bank earnings. Since Applicant's principals acquired control of Bank in July 1971, the bank has increased its banking hours, and has added services, such as free checking accounts and passbook savings. While such services have already been introduced, approval of the application will assure continuation of the new management of Bank. Accordingly, considerations relating to the convenience and needs of the communities involved support approval of the transaction. It is the Board's judgment that the transaction would be in the public interest and that the application to acquire Bank should be approved.

Agency, which was formed in September 1971, by Applicant's principal owners, didn't begin business until January 1972, shortly after it had acquired an existing general insurance agency. Agency has its office in Bank's building and its day-to-day operations are handled by two employees not associated with Bank. Agency is one of five general insurance agencies in Cambridge.

Among the comments made by a competing insurance agency are that the use of bank premises and personnel causes the creation of a "captive" relationship in the provision of insurance on property of a borrower and that the "bank" may split its overhead among various activities. Applicant states that Agency and Bank are separate corporations and are operated by different personnel.

The Board notes the legislative policy stated in the National Bank Act that national banks in communities of less than 5,000 persons may sell insurance (12 U.S.C. 92) and the provisions of section 106 of the Bank Holding Company Act Amendments of 1970 which prohibit banks from tying an extension of credit to the purchase of insurance from the bank or its bank holding company. The Board finds that approval of Applicant's proposals to acquire Agency and to engage de novo in the sale of credit life and credit accident and health insurance is unlikely to result in any undue concentration of resources, decreased or unfair competition, unsound banking practices, or other adverse effects on the public interest. Furthermore, in the Board's judgment, the benefits to the public resulting from approval of these proposals, including assurance of the continued operation of an alternative source of banking and insurance services, and the availability of credit life and credit accident and health insurance in connection with Bank's lending transactions, lends substantial weight to approval. On the basis of the foregoing and other facts reflected in the record, the balance of the public interest factors the Board must consider regarding the acquisition of Agency and Applicant engaging de novo in the sale of credit life and credit accident and health insurance is favorable and the applications should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be consummated (a) before the 13th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority. The determination as to Agency's and Applicant's insurance agency activities is subject to the Board's authority to require reports by, and make examinations of, holding companies and their subsidiaries and to require modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By order of the Board of Governors,[1] effective January 4, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[1] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Chairman Burns and Governor Bucher.

CEDAR FALLS HOLDING CO., LTD.

Formation of Bank Holding Company

Cedar Falls Holding Co., Ltd., Cedar Falls, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 96.8 percent or more of the voting shares of Cedar Falls Trust & Savings Bank, Cedar Falls, Iowa. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than January 29, 1973.

Board of Governors of the Federal Reserve System, January 5, 1973.

CENTURY BANCORP, INC.

Order Approving Acquisition of Bank

Century Bancorp, Inc., Somerville, Mass., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 95 percent or more of the voting shares of North Shore Bank & Banking Co., Lynn, Mass. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none have been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls one bank, Century Bank & Trust Co., Somerville, Mass. (Century Bank), with deposits of $22.4 million, representing approximately 0.2 percent of total deposits in commercial banks in the State and in the Boston SMSA,[1] and ranking 30th of 56 banking organizations in the Boston SMSA.

Bank is a Morris Plan bank and it appears that State law authorizes it to accept demand deposits and make commercial loans.[2] Bank will provide such services either prior to or directly after consummation of the proposed acquisition. Bank has deposits of approximately $2.9 million, representing 0.036 percent of total deposits in commercial banks in the Boston SMSA, in which Bank ranks 53d of 56 banking organizations. The nearest existing office of Century Bank is located

[1] Banking deposit and market data are as of June 30, 1972. All data are adjusted to reflect holding company formations and acquisitions approved by the Board through Nov. 30, 1972.

[2] See Massachusetts General Laws, Ch. 172, section 1.

11 miles from Bank and Century Bank's proposed branch office will be 8 miles from Bank. Although Bank and Century Bank are both located in the Boston SMSA, each bank is located in a separate county and is prohibited by State law from branching into the county of the other organization. In light of the distances separating banking offices, Massachusetts' restrictive branching laws, and the presence of numerous banking alternatives in the intervening areas, no meaningful competition exists between Bank and Century Bank, and it appears unlikely that any such competition would develop in the future. In addition, Applicant's acquisition of Bank may have a procompetitive effect since Bank will become an additional source of commercial loan services in its area. On the basis of these facts, the Board concludes that consummation of the proposal would not eliminate existing or potential competition, nor would it have an adverse effect on any competing bank.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiary bank, and Bank are consistent with approval of the application. While it appears that the banking needs in the area are being adequately met at present, considerations relating to the convenience and needs of the communities to be served lend some weight toward approval of the application, since Bank will become an alternative source of commercial loan services. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Boston pursuant to delegated authority.

By order of the Board of Governors,[3] effective January 4, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-584 Filed 1-10-73;8:45 am]

FIRST NATIONAL BANKSHARES OF FLORIDA, INC.

Acquisition of Banks

First National Bankshares of Florida, Inc., Pompano Beach, Fla., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of the following banks:

(1) The Indian River Citrus Bank, Vero Beach, Fla.;

(2) The Beach Bank of Vero Beach, Fla.;

(3) The Westside Bank of Vero Beach, Vero Beach, Fla.; and

(4) The Sebastian River Bank, Sebastian, Fla.

The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 31, 1973.

Board of Governors of the Federal Reserve System, January 3, 1973.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.73-558 Filed 1-10-73;8:45 am]

FIRST NATIONAL FINANCIAL CORP.

Order Approving Acquisition of Bank

First National Financial Corp., Kalamazoo, Mich., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of the successor by merger to the Commercial Bank of Stambaugh, Stambaugh, Mich. (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls three banks with aggregate deposits of $296.9 million, representing 1.2 percent of the total commercial bank deposits in Michigan, and is the 11th largest banking organization in the State. (All banking data are as of Dec. 31, 1971, adjusted to reflect holding company formations and acquisitions approved by the Board through July 31, 1972.) The acquisition of Bank (deposits of $5.3 million) would increase Applicant's percentage share of the State's total deposits by 0.1 percent, and Applicant would become the 10th largest banking organization in Michigan. Consummation of the acquisition would not result in a significant increase in the concentration of banking resources in the State.

Bank, which operates its main office in the city of Stambaugh and its only branch office in the city of Caspian, holds 20.3 percent of the total commercial bank deposits in Iron County (the relevant market area), and is the smallest of four banks in the market. The three largest banks in the market hold, respectively, 31.2 percent, 28.0 percent, and 20.5 percent of the deposits. (Market data are as of Dec. 31, 1971.) Applicant's closest subsidiary banking office is located in a separate market area, approximately 110 miles north of Bank. There is no present competition between any of Applicant's subsidiary banks and Bank. Furthermore, it appears unlikely that any significant competition would develop between any of Applicant's subsidiaries and Bank in the future due to the distances separating the banking offices and the presence of numerous banking alternatives in the intervening areas. The Board concludes that consummation of the proposal would not eliminate existing or potential competition, nor would it have adverse effects on any competing bank.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are satisfactory and consistent with approval of the application. While it appears that major banking needs in the area are being met, considerations relating to the convenience and needs of the communities to be served are consistent with approval. It is the Board's judgment that the proposed transaction would be in the public interest, and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[1] effective January 4, 1973.

TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-585 Filed 1-10-73;8:45 am]

HAMILTON BANCSHARES, INC.

Order Approving Acquisition of Bank

Hamilton Bancshares, Inc., Chattanooga, Tenn., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 50.06 percent or more of the voting shares of Hardeman County Savings Bank, Bolivar, Tenn. (Bank).

Notice of the application affording opportunity for interested persons to submit comments and views has been given

[3] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Chairman Burns and Governor Bucher.

[1] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Chairman Burns and Governor Bucher.

V 38 - 7 JAN 11 73 XUM

in accordance with section 3(b) of the Act. The time for filing comments and views has expired and none have been timely received. The Board has considered the application in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fifth largest banking organization and bank holding company in the State, controls 11 banks with aggregate deposits of approximately $521 million representing about 6 percent of total deposits of commercial banks in Tennessee. (All banking data are as of Dec. 31, 1971, adjusted to reflect holding company formations and acquisitions approved by the Board through Oct. 31, 1972.) Acquisition of Bank (deposits of about $14.5 million) would add only 0.2 of 1 percentage point to Applicant's share of Statewide deposits and would not alter Applicant's ranking among the State's banking organizations and bank holding companies.

Bank is the largest of five banking organizations competing in the Hardeman County market and holds about 46 percent of the total commercial bank deposits therein. The nearest banking subsidiary of Applicant to Bank is located approximately 185 miles east of Bank, and neither it nor any of Applicant's other subsidiary banks complete with Bank to any significant extent, primarily due to the distances involved. Nor does it appear likely that significant competition would develop in the future in view of the distances separating Bank and Applicant's subsidiaries, the presence of numerous banks in the intervening areas, and Tennessee's restrictive branching laws. Furthermore, it appears unlikely that Applicant would establish a new bank in Hardeman County, since the area is unattractive for de novo entry with both the population to banking office ratio and the per capita income of the area being considerably lower than averages for the State. Even though Bank is the largest bank in the market, its total deposits are less than $15 million, and it does not appear that its acquisition by Applicant would place Bank in a dominant competitive position nor adversely affect the other competing banks in the area. On the basis of the facts of record, the Board concludes that competitive considerations are consistent with approval of the application.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiary banks and Bank are generally satisfactory and consistent with approval of the application. Considerations relating to the convenience and needs of the community to be served are also consistent with approval of the application.

In connection with its review of the proposal herein, the Board's attention has been called to the fact that Applicant has followed a practice of acquiring certain banks that are members of the Federal Reserve System and thereafter systematically withdrawing those banks from membership in the System. Six of Applicant's present 11 subsidiary banks are not now members of the System, and three of those six were converted to nonmember status after having been acquired by Applicant. Applicant now proposes to convert another of its subsidiaries to nonmember status within a month. Although the bank that is the subject of the present application is not now a member of the System and thus a consideration of the practice previously followed by Applicant with respect to its other subsidiary banks is not directly before the Board, the Board is concerned that large bank holding companies such as this one should shun the public responsibilities that large banks or large families of banks have to be a part of and support the policies of the Nation's central bank. Such a practice (if permitted to go unchecked) could significantly diminish the effectiveness of one of the major tools of the Board in administering monetary policy, i.e., the setting of reserve requirements for member banks of the System. If large banks or the members of a large family of banks shirk this public responsibility the task of implementing monetary policy becomes more difficult and one-sided in its impact on the banking system as a whole.

Late last year the Board amended its Regulation D governing reserve requirements in order to substantially remove discrimination in the application of such requirements among member banks that were similarly situated as to size and access to national money markets. Another type of discrimination has become of significant importance, namely between branching systems of member banks and bank holding company families. The reserve requirements of the former are based on the aggregate of the branching banks' deposits wherever located. For holding companies, on the other hand, deposits are fractioned according to the size of each separate unit or office. This results in lower requirements for a banking entity, the multiple bank holding company, which is essentially comparable and competitive with branching systems.

When the holding company amendments were considered in 1970 the Board advised the Congress it did not believe that, as a matter of law, membership in the Federal Reserve System should be required for the subsidiary banks of a holding company. In the light of developments in the past 2 years and the rapid spread of holding company form of banking organization in many States, the merit of that recommendation should be reexamined and the Board is in the process of doing so.

Nonetheless, on the basis of the facts in this case, and in light of the factors set forth in the Act, it is the Board's judgment that the proposed acquisition should be approved. The transaction shall not be consummated (a) before the 13th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective January 5, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-588 Filed 1-10-73;8:45 am]

KANSAS BANCORP, INC.

Formation of Bank Holding Company

Kansas Bancorp, Inc., Concordia, Kans., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent or more of the voting shares of the First National Bank, Concordia, Kans. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than January 22, 1973.

Board of Governors of the Federal Reserve System, January 5, 1973.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.73-589 Filed 1-10-73;8:45 am]

MINNESOTA SMALL LOAN CO.

Determination Regarding "Grandfather" Privileges

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determination within a 2-year period.

Notice of the Board's proposed review of the grandfather privileges of the Minnesota Small Loan Co., Minneapolis, Minn., and an opportunity for interested persons to submit comments and views or request a hearing has been given (37 FR 22414). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in § 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. Minnesota Small Loan Co., Minneapolis, Minn. (Registrant),[1] became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act, by virtue of Registrant's ownership of approximately 68.5 percent of the outstanding voting shares of First National Bank of Sioux City, Sioux City, Iowa (Bank) (assets of $92.6 million as of December 31, 1970). Bank, control of which was acquired by Registrant in September 1967, had total deposits of $78.2 million as of June 30, 1972, representing about 24 percent of the total deposits in the immediate Sioux City area (which includes the towns of South Sioux City, Nebr., and Sargeant Bluff, Iowa). Bank is the second largest of the seven banks located in Sioux City, as well as second among the 10 banks in the immediate Sioux City area. Bank's management, financial condition, and prospects are regarded as satisfactory, and the Board has found no evidence of any unsound banking practices.

Registrant (total assets of $7.7 million, as of December 31, 1971), is a small loan company and engages directly in making consumer loans and, to a limited extent, engages in selling credit life, health, and accident insurance related to such loans, and apparently has engaged in such activities continuously since before June 30, 1968. Bank is the only subsidiary of Registrant. Registrant conducts its small loan business from its sole office, located in Minneapolis, Minn. In addition to serving local consumers, Registrant makes consumer loans to school teachers in a 30-State area through a mail-order business. Registrant did not rank as one of the 150 largest finance companies in the United States as of December 31, 1971 (the most recent data available). Registrant's income in 1971, from interest and insurance commissions on small loan operations, was $0.6 million. The size of Registrant's total lending operation is not substantial (about $2 million in receivables as of December 31, 1971), and the number of local sources for consumer credit is diverse (20 firms with offices in the Minneapolis area, including six of the 10 largest finance companies in the country).

On the basis of the foregoing and all the facts before the Board, it appears that the volume, scope, and nature of the activities of Registrant and its subsidiary do not demonstrate an undue concentration of resources, decreased or unfair competition, conflicts of interest nor unsound banking practices.

There appears to be no reason to require Registrant to terminate its grandfathered activities. It is the Board's judgment that, at this time, termination of the grandfather privileges of Registrant is not necessary in order to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. However, this determination is not authority to enter into any activity that was not engaged in on June 30, 1968, and continuously thereafter, or any activity that is not the subject of this determination, nor authority for Registrant to engage in any additional type of insurance agency activity.

A significant alteration in the nature or extension of Registrant's activities or a change in location thereof (significantly different from any described in this determination) will be cause for a reevaluation by the Board of Registrant's activities under the provisions of section 4(a)(2) of the Act, that is, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils designated in the Act. No merger, consolidation, acquisition of assets other than in the ordinary course of business, nor acquisition of any interest in a going concern, to which the Registrant or any nonbank subsidiary thereof is a party, may be consummated without prior approval of the Board. Further, the provision of any credit, property, or service by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review, by the Board, of Registrant's nonbank activities and a future determination by the Board in favor of termination of grandfather benefits of Registrant. The determination herein is subject to the Board's authority to require modification or termination of the activities of Registrant as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By determination of the Board of Governors,[2] effective January 4, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-590 Filed 1-10-73;8:45 am]

SOUTHWEST BANCSHARES, INC.

Order Approving Acquisition of Bank

Southwest Bancshares, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Houston Intercontinental National Bank, Houston, Tex. (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fifth largest banking organization and third largest multibank holding company in Texas, controls 10 banks with aggregate deposits of $1,188.4 million, representing approximately 4 percent of the total deposits of commercial banks in Texas. (All banking data are as of June 30, 1972, and reflect bank holding company acquisitions approved through October 31, 1972.) Applicant is the third largest banking organization in the Houston market with five subsidiary banks holding 11.2 percent of total deposits of commercial banks in that market. Consummation of the proposal herein would increase insignificantly applicant's share of commercial bank deposits in the Houston area and its ranking among commercial banks in that market and in the State would be unchanged.[3]

[1] Voting for this action: Chairman Burns and Governors Robertson, Daane, Brimmer, Sheehan and Bucher. Absent and not voting: Governor Mitchell.

[1] On July 13, 1972, Registrant became a subsidiary of MEI Corp. Because MEI became a bank holding company with respect to Bank subsequent to December 31, 1970 (pursuant to the Board's order of May 9, 1972), MEI is not entitled to grandfather privileges and is required to divest its interest in Bank or in MEI's nonbanking interests by July 13, 1974, 2 years from the date upon which it became a bank holding company.

[2] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, and Bucher. Absent and not voting: Governor Sheehan.

[3] In addition to its 10 subsidiary banks, applicant holds approximately 20 percent of the outstanding voting shares of Commerce State Bank, Houston, Tex. ($20 million of deposits). On December 21, 1972, the Board approved applicant's application to acquire Gulf Coast National Bank, Houston, Tex. ($12.4 million of deposits). Applicant's minority interest of 24.7 percent of the voting shares of Kilgore National Bank, Kilgore, Tex., has recently been liquidated.

V 38 - 7 JAN 11 73 XUM

Bank ($2.7 million of deposits) ranks 141st in deposits among 149 commercial banks in the Houston market. Bank is located near the Houston Intercontinental Airport on the fringe of the Houston banking market, approximately 20 miles north of applicant's lead bank which is located in downtown Houston. Bank was organized in 1970 by officials and other individuals closely associated with applicant, and its lead bank and one or more officers or directors of applicant or its lead bank have served on Bank's board since it began operations in 1970. At the present time, there exists a significant degree of common stock ownership among shareholders of Bank and applicant. In view of Bank's small size, its location on the outskirts of the Houston banking market, and the presence of a large number of intervening banks, no meaningful competition exists between Bank and any of applicant's subsidiary banks. In the light of these factors, it appears unlikely that any significant competition between Bank and any of applicant's subsidiary banks would develop in the future. Acquisition of Bank by applicant will not have any adverse effect on the concentration of banking resources in the Houston area.

On the record before it, the Board concludes that consummation of applicant's proposal would not result in a monopoly nor be in furtherance of any combination, conspiracy, or attempt to monopolize the business of banking, nor have any significant anticompetitive effect, in any area of the State.

The financial condition and managerial resources of applicant and its subsidiaries appear satisfactory and future prospects of all seem favorable. The financial condition of Bank has deteriorated during the past year due to its experiencing capital inadequacies and substantial losses on loans. Applicant has recently moved to provide additional personnel from its lead bank in order to strengthen Bank's managerial resources—especially in the areas of asset management and loan administration. In addition, applicant has committed itself to add at least $350,000 of additional funds to Bank's capital accounts. This increased financial and managerial assistance from applicant which would be made available to Bank upon consummation of the proposed transaction should enable Bank to remedy its present financial and managerial problems. Although the banking needs of residents of the Houston area are adequately served by existing institutions, provision of applicant's broad range of services through Bank should provide a more convenient source for these sophisticated services to the increasing number of customers locating in Bank's immediate service area. Addition of these services should contribute positively to the convenience and needs of the communities served by Bank and, these considerations are consistent with approval of this application.

It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[2] effective January 4, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-591 Filed 1-10-73;8:45 am]

WEST MICHIGAN FINANCIAL CORP.

Formation of Bank Holding Company

West Michigan Financial Corp., Cadillac, Mich., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares of the successor by merger to The Cadillac State Bank, Cadillac, Mich. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than January 29, 1973.

Board of Governors of the Federal Reserve System, January 5, 1973.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.73-592 Filed 1-10-73;8:45 am]

ZIONS UTAH BANCORPORATION

Determination Regarding "Grandfather" Privileges

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of $60 million on or after December 31, 1970, the Board is required to make such a determinatin within a 2-year period.

Notice of the Board's proposed review of the grandfather privileges of the Zions Utah Bancorporation, Salt Lake City, Utah, and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 22414 and 25204). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. Zions Utah Bancorporation, Salt Lake City, Utah (Registrant), became a bank holding company on December 31, 1970, as a result of the 1970 amendments to the Act, by virtue of Registrant's ownership of approximately 52 percent of the outstanding voting shares of Zions First National Bank, Salt Lake City, Utah (Bank) (assets of $325.9 million as of December 31, 1970). Bank, control of which was acquired by Registrant in April 1960,[1] had total deposits of $339.2 million (as of December 31, 1971), representing about 16 percent of the total deposits in commercial banks in Utah. On the basis of its share of deposits, Bank ranks third of 13 banks in the Salt Lake County market, with about 21 percent of the deposits therein, and fourth of five banks in the Provo banking market, with about 14 percent of deposits therein. While Bank is a significant competitor among the State's banking organizations, it does not appear to be dominant. Bank's management financial condition and prospects are regarded as satisfactory, and the Board has found no evidence of unsound banking practices.

Registrant (consolidated assets of about $342 million in 1970) engages directly in insurance agency activities and real estate business, and apparently has engaged in such activities continuously since before June 30, 1968. Registrant's insurance agency activities consist of writing credit life insurance almost entirely for loans made by Registrant's subsidiaries and casualty insurance for property pledged as collateral against such loans. Registrant's principal real estate activity is the development of an industrial park in a 170 acre area acquired in 1955 in Salt Lake City. Registrant engages in the consumer finance business in Utah and has been engaged therein continuously since before June 30, 1968, through the Lockhart Co., Salt Lake City, and Lockhart Finance Co., Salt Lake City (both acquired in January 1966), and in Colorado through the following nonbanking subsidiaries: Rocky Mountain Industrial Bank, Colorado Springs (acquired in January 1966); Littleton First Industrial Bank, Littleton (acquired in May 1968); Fort Collins First Industrial Bank, Fort Collins (acquired in October 1971); Guaranty Industrial Bank, Loveland (acquired in November 1971); Arvada First Industrial Bank, Arvada (acquired in December 1971); and First Industrial Bank, Longmont (acquired in December 1971).[2] The two finance company subsidiaries located in Utah (combined assets of about $21 million in 1970) compete with over 150 lending offices of other small loan companies operating in Utah, including offices of two large national corporations engaged in consumer finance, and do not appear to be large enough to affect the position of Bank in the Utah markets served by it. The two finance company subsidiaries located in Colorado, which are eligible for grandfather benefits, had combined assets of less than $6 million in 1970, and are not regarded as significant competitors in the markets served by Registrant's banking subsidiary.

Through the Lockhart companies, Registrant also engages in the equipment leasing business. The Lockhart Co. conducts such activities directly, and the Lockhart Finance Co. engages in such activities through a wholly owned subsidiary formed in 1966, Zions Leasing Co., Salt Lake City, Utah (assets of about $3 million as of December 1970). In addition, Registrant operates a real estate business (Lockhart Realty Co., Salt Lake City, Utah), which was acquired in January 1966, and now limits its activities to collecting payments on contracts of sale of real estate previously made. The equipment leasing activities and the current real estate operations of Lockhart Realty appear eligible for grandfather benefits, and the nature and scope of such activities are such that curtailment or divestiture of such activities is not required.

Registrant also owns an electrical supplies distributing business and a company engaged in the sale of money orders. These businesses were not acquired by Registrant prior to June 30, 1968, and are not eligible for grandfather benefits.

On the basis of the foregoing and all the facts before the Board, it appears that the volume, scope, and nature of the activities of Registrant and its subsidiaries do not demonstrate an undue concentration of resources, decreased or unfair competition, conflicts of interest nor unsound banking practices.

There appears to be no reason to require Registrant to terminate its grandfathered interests. It is the Board's judgment that, at this time, termination of the grandfather privileges of Registrant is not necessary in order to prevent undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices. However, this determination is not authority to enter into any activity that was not engaged in on June 30, 1968 and continuously thereafter, or any activity that is not subject to this determination. Nor is this determination authority for Registrant to acquire any additional real property or additional types of insurance agency activity.

A significant alteration in the nature or extension of Registrant's activities or a change in location thereof (significantly different from any described in this determination) will be cause for a reevaluation by the Board of Registrant's activities under the provisions of section 4(a)(2) of the Act, that is, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils designated in the Act. No merger, consolidation, acquisition of assets other than in the ordinary course of business, nor acquisition of any interest in a going concern, to which the Registrant or any nonbank subsidiary thereof is a party, may be consummated without prior approval of the Board. Further, the provision of any credit, property, or service by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review by the Board, of Registrant's nonbank activities and a future determination by the Board in favor of termination of grandfather benefits of Registrant. The determination herein is subject to the Board's authority to require modification or termination of the activities of Registrant. The determination herein is subject to the Board's authority to require modification or termination of the activities of registrant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By determination of the Board of Governors,[3] effective January 4, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-593 Filed 1-10-73;8:45 am]

[1] Registrant acquired all of the remaining shares of Bank in April 1972.

[2] Registrant received approval of the Federal Reserve Bank of San Francisco pursuant to delegated authority to acquire three finance companies during 1971, under the provisions of section 4(c)(8) of the Act and § 225.4(b)(1) of the Board's Regulation Y.

[3] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Chairman Burns and Governor Bucher.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 73-3]

NASA LIFE SCIENCES SUBCOMMITTEE

Notice of Open Meeting

A special subcommittee of the NASA Life Sciences Committee will meet on January 23, 1973, at the Headquarters of the National Aeronautics and Space Administration, Washington, D.C. 20540. The meeting will be held in Room 5092 of the Federal Office Building 6, NASA Headquarters, 400 Maryland Avenue SW., Washington, DC. The meeting is open and members of the public will be admitted on a first-come first-served basis up to the seating capacity of the room, which is 35 persons.

The subcommittee is meeting for the purpose of reviewing and evaluating the standards for sterilizing spacecrafts to avoid carrying earth organisms to other celestial bodies. Special attention to this matter is being addressed at this time in preparation for the Project Viking flights to Mars in 1975.

The NASA Life Sciences Committee of which this subcommittee is a part serves in an advisory capacity only. In this capacity, it is concerned with man in relation to space and habitation, exobiology, with other life forms, and including: Physiology, behavior, clinical aerospace medicine, microbiology, radiobiology, biochemistry, nutrition and food technology, biology of gravity and rhythms, ecology and biotechnology. The current Chairman is Dr. Shields Warren.

The following agenda is proposed for the meeting on January 23, 1973. For further information, please contact Dr. Stanley C. White, Area Code 202—755-2350.

Time	*Topic*
9:00 a.m.	Planetary Quarantine Constraints Established by COSPAR and NASA—(Purpose: To review the international and national rules for safeguarding the planets from biological infection via spacecraft which could cause undesirable changes in the environments of the planets).
9:25 a.m.	Philosophy and Guidelines for Planetary Quarantine Research—(Purpose: To familiarize the subcommittee with the research requirements and guidelines imposed by NASA in forming the planetary quarantine research program).
9:50 a.m.	Lethality of Outer Space for Micro-organisms—(Purpose: To review the results of research performed to establish the effects of the forces in outer space (vacuum-temperature, ultraviolet radiation, solar winds, ionizing radiation) on the viability of micro-organisms on a spacecraft).

V38-7 JAN 11 73 XUM

Time	Topic
10:15 a.m.	Numbers and Characteristics of the Bio-load on a Spacecraft—(Purpose: To discuss the research which has been conducted to define the estimates of the number of viable micro-organisms which may be expected to be buried inside nonmetallic spacecraft elements and the number of organisms to be found on spacecraft surfaces).
11:20 a.m.	Release of Organisms from Space Hardware—(Purpose: To review the results of the research which has been conducted to determine the release of organisms from buried, mated surfaces and open surfaces of the spacecraft under conditions of normal and high velocity impact).
11:45 a.m.	Heat Resistance of Organisms—(Purpose: To discuss the details of the experience gained through research on the resistance of bacterial spores to dry heat, including the variables of temperature, time, and water activity. These results provide the basis for establishing the standards for sterilization).
1:30 p.m.	Growth of Organisms of the Martian Surface—(Purpose: To summarize the best data available on the ability of terrestrial microorganisms to replicate on the Martian surface).
2:20 p.m.	Estimation of the Contamination Hazard—(Purpose: To review the methods that have been used by the planetary quarantine program to interrelate all the factors involved in the potential contamination of Mars and to develop the parametric values to be used in the Viking sterilization program).
3:15 p.m.	Viking Planetary Quarantine Operations—(Purpose: To present the plans and procedures, based on the foregoing parameters, to be used in the preparation of the Viking vehicle prior to flight in order that NASA complies with the planetary quarantine requirements).
4:00 p.m.	Subcommittee Review and Recommendations — (Purpose: To develop the subcommittee comments and recommendations regarding the adequacy of current plans and procedures proposed for Viking).

HOMER E. NEWELL,
Associate Administrator, National Aeronautics and Space Administration.

JANUARY 5, 1972.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

ACCURATE CALCULATOR CORP.

Order Suspending Trading

JANUARY 4, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $0.01 par value, and all other securities of Accurate Calculator Corp., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from January 5, 1973 through January 14, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

[812-3136]

BACHE-HUNTOON PAIGE GINNY MAE TRUST, SERIES 1 (AND SUBSEQUENT SERIES)

Notice of Filing of Application for an Order of Exemption

JANUARY 3, 1973.

Notice is hereby given that Bache-Huntoon Paige Ginny Mae Trust, Series 1 (and subsequent series) (hereinafter called Applicant), a unit investment trust registered under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 6(c) of the Act for an order of the Commission exempting Applicant from compliance with the provisions of section 14(a) of the Act and Rule 22c-1 under the Act and pursuant to section 45(a) of the Act granting confidential treatment to the profit and loss statements of Bache & Co. Inc., 100 Gold Street, New York, NY 10038, and Huntoon Paige Securities Corp., 44 Wall Street, New York, NY 10005, the Sponsors of the Applicant, which statements Applicant has filed or may from time to time file with its registration statements under the Securities Act of 1933.

All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Section 14(a). Applicant includes Bache-Huntoon Paige Ginny Mae Trust, Series 1 and all subsequent series of "Bache-Huntoon Paige Ginny Mae Trust." Each series will be governed by trust instruments under which Bache & Co. Inc. and Huntoon Paige Securities Corp., and possibly others, will act as Sponsors and the Bank of New York will act as Trustee. The trust instruments for all series will contain similar terms and conditions of trust. Pursuant to such trust instruments, the Sponsors will deposit with the Trustee a portfolio of mortgaged-backed certificates (commonly known as Ginny Maes) guaranteed as to payment of principal and interest by Government National Mortgage Association, a corporate instrumentality of the U.S. Government. Simultaneously with such deposit of the portfolio the Sponsors will receive from the Trustee registered certificates evidencing units of undivided interest in the fund portfolio of a series.

Applicant alleges that when these two events occur the Trust is in existence and the Sponsors cease to have significant power over the underlying portfolio. No securities may be added to or substituted for those originally comprising the fund portfolio, nor may the number of units originally issued be increased. On the date of deposit of the portfolio securities for Series 1, and before any unit of that Series is offered to the public, Applicant will have a net worth of approximately $25 million represented by the market value of the Ginny Mae certificates deposited with the Trustee on that date. While the size of the portfolios of future series has not been established, the Sponsors anticipate that in no event would the portfolio of any series be less than $5 million. Applicant proposes to offer the units of Series 1 of the fund for sale to the public and for this purpose a registration statement under the Securities Act of 1933 has been filed with the Commission but has not yet become effective. After the Sponsors deposit the portfolio with the Trustee, and the Trust is in existence, an amendment to the registration statement under the Securities Act of 1933 will be filed. Upon the effectiveness of such registration statement, the units will be offered to the public by means of the final prospectus. The trust instruments do not provide for the issuance of additional units.

Section 14(a) of the Act provides, in pertinent part, that no registered investment company shall make a public offering of its securities unless either (i) such company has a net worth of at least $100,000 or (ii) provision is made as a condition of registration of its securities under the Securities Act of 1933 which adequately insures, in the opinion of the Commission, (A) that after the effective date of such registration statement such Company will not issue any security or receive any proceeds of any subscription until not more than 25 responsible persons have made agreements to purchase securities in an aggregate net amount which will give the company a net worth of at least $100,000; (B) that said amount will be paid into such company before subscriptions will be accepted from any person in excess of 25; (C) that arrangements will be made whereby any amount so paid in, as well as any sales load, will be refunded to any subscriber on demand in the event the net proceeds so received by the Company do not result in the company having a net worth of at least $100,000 within 90 days after such registration statement becomes effective.

In connection with this request for exemption, the Sponsors hereby agree that they will refund, on demand and without deduction, all sales charges to purchasers of units of a series if, within 90 days from the time when that series becomes effective under the Securities Act, the net worth of the series shall be reduced to less than $100,000 or if the series shall have been terminated. The Sponsors further agree to instruct the Trustee on the date of deposit of each series that in the event redemption by the Sponsors of units constituting a part of the unsold units shall result in that series having a net worth of less than $5 million, the Trustee shall terminate the series in the manner provided in the Trust Agreement and distribute all securities and other assets deposited with the Trustee pursuant to the Agreement as provided therein. The Sponsors further agree, in such event, to refund any sales charges to any purchaser of units purchased from the Sponsors or any dealer participating in the underwriting on demand and without deduction.

Rule 22c-1. The application also seeks an order pursuant to section 6(c) of the Act exempting the secondary market operations of Applicant's Sponsors from the provisions of Rule 22c-1 under the Act. The Sponsors propose to adopt the practice of valuing Applicant's units, for repurchase and resale by the Sponsors in the secondary market, at prices computed once a week as of the close of business on the last business day of the week, effective for all transactions made during the following week.

The trust instruments provide that Applicant's units may be tendered by the unit holders to the Trustee for redemption. The unit holder will receive cash from the Fund on the basis of the current bid side evaluation of the mortgaged-backed (Ginny Mae) certificates forming the portfolio of the fund. Applicant's Sponsors, Bache & Co., Inc., and Huntoon Paige Securities Corp., intend (though they will not be obligated) to maintain a secondary market for the fund and continuously to offer to repurchase units from holders at a price based on the offering side prices of the portfolio securities of the fund. Such price, according to the application, may exceed the redemption price (based upon the bid side evaluations of the underlying certificates) by an average of $10 per unit. In addition, the Sponsors will resell units at a public offering price based upon the offering side evaluation prices of the underlying certificates plus a sales charge of 3½ percent of the public offering price. To avoid the Sponsors' receiving more than the specified sales charge on the resale of the units, the Sponsors undertake not to resell any units which they purchase at a price below the then current offering side evaluation. Both the repurchase and resale prices are to be computed as of the close of business on the last business day of each week and will be effective for all purchases and sales by the Sponsors during the following week. The evaluation is made by Applicant's evaluator, Standard and Poor's Corp.

Rule 22c-1 provides, in part, that redeemable securities of registered investment companies must be sold, redeemed or repurchased at a price based on the current net asset value (computed on each day during which the New York Stock Exchange is open for trading not less frequently than once daily as of the time of the close of trading on such Exchange) which is next computed after receipt of a tender of such security for redemption or of an order to repurchase or sell such security.

Applicant asserts that the pricing by the Sponsors in the secondary market in no way affects Applicant's assets, and that the public unit holders benefit from such pricing procedure by receiving a normally higher repurchase price for their units without the cost burden of daily evaluations of the unit redemption value. In addition, the application states that the Sponsors have undertaken to adopt a procedure whereby the evaluator, without a formal evaluation, will provide estimated evaluations on trading days. In the case of a purchase by the Sponsors, if the evaluator cannot state that the previous Friday's offering side evaluation is at least equal to the current bid side evaluation, the Sponsors will order a new offering side evaluation for the purpose of such purchase. Also, in the case of such a purchase, if the evaluator cannot state that the previous Friday's offering side evaluation, to be paid to a holder, is no more than one-half point lower than the current offering side evaluation, a full evaluation will be ordered to determine the current offering side evaluation to be paid the holder. In the case of sale by the Sponsors, if the evaluator cannot state that the previous Friday's offering side evaluation is no more than one-half point ($5 on the purchase of a unit representing $1,000 face amount of underlying securities) greater than the current offering side evaluation, a full evaluation will be ordered. Applicant asserts that this procedure will minimize the risk to the selling holders of the units without imposing the expense of daily evaluations upon the fund's investors.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provisions of the Act or of any rules or regulations under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Section 45(a). Applicant also seeks an order of the Commission pursuant to section 45(a) of the Act granting confidential treatment to the profit and loss statements of Bache & Co., Inc., and Huntoon Paige Securities Corp., the Sponsors, submitted in connection with registration statements of Bache-Huntoon Paige Ginny Mae Trust, Series 1, filed with the Commission from time to time.

When a determination has been made by the Sponsors to offer a new series of the fund, the Sponsors will prepare and file with the Commission registration statements under the Act and the Securities Act of 1933. It is contemplated that current profit and loss statements of the Sponsors will be filed in connection with the registration statements of new series. The application requests confidential treatment for such statements and subsequent profit and loss statements which Applicant has filed or may from time to time file with the Commission.

Section 45(a) of the Act provides in pertinent part that information filed with the Commission "shall be made available to the public, unless and except insofar as the Commission * * * by order upon application, finds that public disclosure is neither necessary nor appropriate in the public interest or for the protection of investors."

Applicant submits that public disclosure of the Sponsors' profit and loss statements is neither necessary nor appropriate in the public interest or for the protection of investors. As stated above, Applicant alleges that after the securities forming the portfolio of the fund are deposited with the Trustee, the Trust is then in existence and the Sponsors cease to have significant power over the underlying portfolio. No securities may be added to or substituted for those originally comprising the fund portfolio. Investors in the fund are not offered an opportunity to acquire any interest whatsoever in the Sponsors. Apart from the Sponsors' minimal obligation under the trust instruments to designate Ginny Mae certificates for liquidation by the Trustee to the extent necessary to provide funds for redemption (which obligation may be performed by the Trustee if not performed by the Sponsors), and certain other contingent supervisory responsibilities, the Sponsors have virtually no discretionary authority relating to the management of the fund. Applicant states that the Sponsors thus function primarily as underwriters of the fund. Applicant asserts that there is no legitimate interest on the part of investors in the public disclosure of the profit and loss statements of the Sponsors, acting as underwriters from whom the units are purchased.

In addition, Applicant submits that to the extent that the Sponsors' solvency may conceivably be thought relevant to the maintenance of the secondary

V 38 - 7 JAN 11 73 XUM

market in the units of the fund, the Sponsors' statements of financial condition, which appear in the prospectus, contain adequate information in this regard. Moreover, there is clear disclosure in the prospectus of the Sponsors' right to terminate secondary market activities in a fund at any time. Even in the absence of a secondary market, unit holders nevertheless retain the protection of their right under the trust instruments to the redemption of their units upon presentation of such units to the Trustee. Upon such redemption, the unit holders receive cash equal to the "unit value" of the units computed with regard to the underlying assets of the fund. The soundness of the investors' interests in the funds, it is stated, is solely a function of the value of the underlying Ginny Mae certificates, the payment of principal of and interest on which is guaranteed by Government National Mortgage Association (a guaranty backed by the full faith and credit of the United States). Applicant thus represents that the profitability of the Sponsors will in no way enhance or diminish the prospect for an orderly payment of the underlying mortgage-backed certificates.

Notice is further given that any interested person may, not later than January 24, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address set forth above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

CAPITAL EXCHANGE FUND, INC., ET AL

Notice of Application for Exemption

JANUARY 4, 1973.

Notice is hereby given that Capital Exchange Fund, Inc., Depositors Fund of Boston, Inc., Diversification Fund, Inc., the Exchange Fund of Boston, Inc., Fiduciary Exchange Fund, Inc., Leverage Fund of Boston, Inc., and Second Fiduciary Exchange Fund, Inc. (the Funds), 111 Devonshire Street, Boston, MA 02109, all Massachusetts corporations registered as management investment companies under the Investment Company Act of 1940 (the Act), and Philip H. Theopold (Theopold), 294 Washington Street, Boston, MA 02108 (hereinafter collectively called Applicants), have filed an application for an order of the Commission pursuant to section 6(c) of the Act declaring that Theopold shall not be deemed an "interested person" of the Funds or any investment adviser of, or principal underwriter for, the Funds, within the meaning of section 2(a)(19) of the Act solely by reason of his status as a director, member of the Committee of Finance, and Chairman of the Real Estate Committee of John Hancock Mutual Life Insurance Co. (Hancock Life), or as a director and member of the U.S. Investment Advisory Committee of the Employers-Commercial Union Insurance Co., The Employers' Fire Insurance Co., the Northern Assurance Company of America, or American Employers' Insurance Company (ECU Subsidiaries). All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Theopold, a member of the board of directors of each of the Funds, is also a director of Hancock Life, a mutual insurance company which is in the business of selling life insurance and variable annuities. Hancock Life is a registered broker-dealer under the Securities Exchange Act of 1934 (the 1934 Act). It also has registered as an investment adviser under the Investment Advisers Act of 1940 for the purpose of advising the variable annuity separate accounts it has organized and for the purpose of selling its own variable annuity contracts through its independent and employee insurance agents. It wholly owns John Hancock Advisers, Inc., which is the investment adviser for John Hancock Growth Fund, Inc., and John Hancock Signature Fund, Inc., open-end investment companies registered under the Act, and John Hancock Investors, Inc., and John Hancock Income Securities Corp., closed-end investment companies registered under the Act (hereinafter collectively referred to as "John Hancock Funds"). The shares of the two open-end investment companies are offered for sale to the public only by independent and employee insurance agents of Hancock Life who are registered representatives of John Hancock Distributors, Inc. (Hancock Distributors), a wholly owned subsidiary of John Hancock Advisers, Inc., and a registered broker-dealer under the 1934 Act.

Vance, Sanders & Co. (VS), a Maryland corporation employed by the Funds as their investment adviser, does not sell shares of the John Hancock Funds, and neither does any affiliated person of VS. In his capacities as a director, member of the Committee of Finance, and Chairman of the Real Estate Committee of Hancock Life, Theopold has no direct supervisory authority over, or direct responsibility for, the day-to-day management or the broker-dealer operations of Hancock Life or of Hancock Distributors.

Theopold is also a member of the board of directors and the U.S. Investment Advisory Committee of the ECU Subsidiaries, which are wholly owned subsidiaries of ECU Corp., which, in turn, is a wholly owned subsidiary of Commercial Union Assurance Co., Ltd., a publicly owned company domiciled in London, England, which owns other subsidiary companies that are engaged in the insurance business. ECU Corp. owns 85 percent of the outstanding voting stock of Egret Holding Corp. which owns all of the outstanding voting stock of Egret Distributing Co., Inc. (Egret Distributing), CU Securities Corp. (CU Securities), and Egret Management Co., Inc., which furnishes Egret Growth Fund, Inc. (Egret Fund), an investment company registered under the Act, with investment advisory and management services. The remaining 15 percent of the outstanding voting stock of Egret Holding Corp. is owned by Employers-Commercial Union Insurance Co., of which Theopold is a director. It is expected, however, that prior to December 31, 1972, Employers-Commercial Union Insurance Co. will distribute a dividend consisting of all of its capital stock interest in Egret Holding Corp. to ECU Corp., and that thereafter, ECU Corp. will directly own all of the outstanding securities of Egret Holding Corp.

Egret Distributing is the principal underwriter of Egret Fund. CU Securities is a member of the PBW Stock Exchange. The only business of CU Securities at present is to execute transactions on the PBW Stock Exchange or otherwise recapture commissions for Egret Fund and subsidiaries of ECU Corp. It may not be so limited in the future. Both Egret Distributing and CU Securities are registered as broker-dealers under the 1934 Act. As a director of ECU Subsidiaries, Theopold is ultimately responsible, together with other directors, for setting the policies and managing the business of the ECU Subsidiaries. As a member of the U.S. Investment Advisory Committee of such corporation, he, together with other members of the committee, provide investment advice to the pension fund and insurance company subsidiaries of ECU Corp., but Theopold has no supervisory authority or responsibility for management or operations of Egret Distributing or CU Securities.

Applicants assert that neither Egret Distributing nor CU Securities, nor Hancock Life, nod Hancock Distributors engage in portfolio transaction with, or on behalf of, the Funds, nor, in the normal course, would they be considered by the Funds or VS as a potential firm through which to execute securities transactions. Each of the Funds and VS represent that so long as Theopold is a director of such Fund, such Fund and VS will not engage in any securities transactions through Hancock Life, Hancock Distributors, Egret Distributing, or CU Securities.

Section 2(a)(19) of the Act, in pertinent part, defines an "interested person," when used with respect to an investment company, to include any broker or dealer registered under the 1934 Act or any affiliated person of such a broker or dealer. Section 2(a)(3) defines an "affiliated person" of another person to include any director of such other person.

Section 6(c) of the Act provides that the Commission by order, upon application, may conditionally or unconditionally exempt any person, security, or transaction from any provision or provisions of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants assert that Theopold is subject to no conflicts of interest as a result of his relationships with Hancock Life or ECU Subsidiaries since his activities at Hancock Life and the ECU Subsidiaries are isolated from, and independent of, any business activities of the Funds and of VS.

Notice is further given that any interested person may, not later than January 29, 1973, submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[812-3290]

FEDERAL STREET FUND, INC.

Notice of Application for an Order Exempting a Proposed Transaction

JANUARY 5, 1973.

Notice is hereby given that Federal Street Fund, Inc. (Applicant), 225 Franklin Street, Boston, MA 02110, a diversified, open-end management investment company registered under the Investment Company Act of 1940, as amended (the "Act"), has filed an application pursuant to section 17(b) of the Act for an order of exemption from section 17(a) of the Act to permit the Estate of Howard Cullman (Estate), to tender shares of Applicant for redemption in kind. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was incorporated under the laws of Massachusetts and was created as a so-called "exchange type" fund. Since the completion of the initial public offering of its shares of common stock in exchange for outstanding stock or other securities of various business corporations, Applicant has not offered its shares to the general public, and until September 25, 1972, had not issued any additional shares except with respect to a 20 for 1 stock split in 1962, an acquisition of assets of a private investment company in 1968, and shares issued in payment of various optional stock dividends to Applicant's shareholders.

Applicant, in the ordinary course of its business, redeems shares tendered for redemption by its shareholders and has continuously followed the policy of paying the price of substantially all such redemptions in kind with securities from its portfolio. Applicant states that it intends to continue this policy for the foreseeable future.

On September 25, 1972, The Second Federal Street Fund, Inc., formerly a Massachusetts corporation registered under the Act as a diversified, open-end management investment company, was merged into Applicant and, as part of the merger plan, Applicant split its stock 3 for 1. Immediately thereafter, Applicant acquired $33,502,756 of marketable securities (market value as of September 22, 1972) and cash from Cullman Bros., Inc. (Cullman), a New York private investment company, in exchange for 1,021,920 shares of Applicant's common stock having a per share net asset value as of September 22, 1972 (adjusted for the aforesaid 3 for 1 stock split), of $31.49. Cullman was subsequently liquidated and the shares of Applicant were distributed to the Cullman stockholders. As of September 30, 1972, the former Cullman stockholders or their representatives held the following amounts and percentages of Applicant's outstanding shares:

Former Cullman stockholders	Shares of applicant held	Percentage of applicants outstanding stock
Joseph F. Cullman, 3d., Edgar M. Cullman, and W. Arthur Cullman, trustees u/w of Joseph F. Cullman, Jr.	311,682	3.54
Estate of Howard S. Cullman	207,859	2.36
Joseph F. Cullman, 3d	207,859	2.36
Edgar M. Cullman	207,859	2.36
Lawrence H. Levy	34,439	.39
Hugh Cullman	23,607	.27
W. Arthur Cullman	23,607	.27
Bernhard L. Cohn	5,008	.06

Applicant states that between the time when it reached a formal agreement with Cullman to acquire Cullman's assets and the effective completion date of such transaction, Mr. Howard S. Cullman, a former stockholder of Cullman, died. The executors of the Estate are Marguerite W. Cullman, Joseph F. Cullman, 3d, Hugh Cullman, and Bankers Trust Co. (New York). The Estate, which may be deemed to be an affiliated person of Applicant if its holdings are combined with the holdings of other members of the Cullman family, including the Estate of Joseph F. Cullman, Jr., desires to redeem a portion of the 207,859 shares of Applicant presently held by it in order to raise approximately $1 million to pay certain of its expenses, including Federal estate taxes.

Section 17(a) of the Act, as here pertinent, prohibits an affiliated person of a registered investment company, or any affiliated person of such a person, acting as principal, from selling to or purchasing from such registered company, or any company controlled by such registered company, any security, or other property. Section 17(b) of the Act: *Provides, however*, That the Commission, upon application, may exempt a transaction from the provisions of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of the registered investment company concerned and with the general purposes of the Act.

Applicant, in accordance with its continuous redemption policy described above, wishes to pay the redemption price of the shares to be tendered for redemption by the Estate with one or more marketable securities from Applicant's portfolio.

The portfolio securities of Applicant to be used to meet such redemption will be

V38-7 JAN 11 73 XUM

selected solely by Applicant in its investment discretion at the time of the redemption, and there is no arrangement or understanding with the executors of the estate as to what the securities will be. Such portfolio securities will be valued in accordance with the valuation practices of Applicant (as set forth in its governing instruments) for determining its net asset value per share as of the same time as the net asset value of the Applicant's shares tendered for redemption is determined. By paying the redemption price of its shares tendered by the estate for redemption with portfolio securities, Applicant will be adhering to its policy, in effect since its inception, of paying all redemptions of its shares, except for those involving an insubstantial amount, by delivery of portfolio securities. Applicant submits that if it were required to sell portfolio securities in order to raise cash to meet redemptions, it would, in consequence, be forced to realize substantial capital gains and thereby incur substantial capital gains tax liability and the expense of brokerage commissions, all of which would be to the detriment of its shareholders. No realization of capital gains or incurring of brokerage commission expense by Applicant will occur upon a redemption in which portfolio securities are delivered in satisfaction of the redemption price.

Notice is further given that any interested person may, not later than January 29, 1973, submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in the matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

FIRST WORLD CORP.

Order Suspending Trading

JANUARY 4, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the Class A and Class B common stocks, $0.15 par value, and all other securities of First World Corp. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors:

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from January 5, 1973 through January 14, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

INDIANA & MICHIGAN ELECTRIC CO.

Notice of Proposed Amendments of Articles of Acceptance, Increase in Permitted Short-Term Unsecured Indebtedness, and Solicitation of Proxies in Connection Therewith

JANUARY 4, 1973.

Notice is hereby given that Indiana & Michigan Electric Co. (I & M), 2101 Spy Run Avenue, Fort Wayne, IN 46801, an electric utility subsidiary company of American Electric Power Co., Inc., a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a)(2), 7, and 12(e) of the Act and Rule 62 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

I & M proposes to amend its Articles of Acceptance (Articles) to increase the number of authorized shares of its cumulative preferred stock. As of November 15, 1972, of the 1,250,000 authorized shares of I & M's cumulative preferred stock, 120,000 shares of its 4⅛ percent Series, 60,000 shares of its 4.56 percent Series, 40,000 shares of its 4.12 percent Series, 300,000 shares of its 7.08 percent Series, and 350,000 shares of its 7.76 percent Series were issued and outstanding. I & M now proposes, to provide funds with which to finance its expenditures for construction and other corporate purposes, to amend its Articles so as to increase its authorized cumulative preferred stock to 2,250,000 shares. The cost of I & M's construction program for the year 1973 is estimated, on the basis of presently existing conditions, to be approximately $140 million.

I & M proposes to obtain the consent and approval of the holders of the outstanding cumulative preferred stock to an increase in the amount of unsecured short-term debt, which the company is authorized to incur, to exceed 10 percent, but provided that combined short-term and long-term unsecured indebtedness would be not more than 20 percent of its total capitalization for a period ending on December 31, 1976, but with no maturity later than, June 30, 1977, except as otherwise provided by I & M's Articles. Authorization from the Commission for such an increase in the permissable amount of short-term debt, as required by I & M's debenture agreement is requested. The actual issue and sale of securities related to such proposed increase in short-term indebtedness will be subject to further authorization by this Commission.

I & M intends to submit the proposed amendments of its Articles and the proposed consent to its shareholders for their approval at a special meeting of shareholders to be held on March 7, 1973. In connection therewith, I & M proposes to solicit proxies from the holders of its preferred stock through the use of solicitation material which sets forth the proposals in detail. The declaration states that the proposed amendments require the affirmative vote of the holders of a majority of the outstanding shares of I & M's common stock and of the holders of a majority of the outstanding shares of each class of cumulative preferred stock, voting separately as a class. Consent of the holders of a majority of the outstanding cumulative preferred stock, voting as a class, is needed to increase the amount of short-term unsecured indebtedness. American Electric Power Co., Inc., holder of all of the outstanding shares of I & M's Power Co., Inc., has indicated that all such shares will be voted in favor of the proposed amendments.

The fees and expenses incurred and to be incurred in connection with the provided transactions are estimated not to exceed $21,500. The declaration states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given, that any interested person may, not later than January 25, 1973, request in writing that a hearing be held with respect to the proposed transactions, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as

it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[812–3333]

KEYSTONE CUSTODIAN FUNDS, INC., ET AL.

Notice of Filing of Application for Order Conditionally Exempting Certain Underwriting Contracts

JANUARY 4, 1973.

Notice is hereby given, that Keystone Custodian Funds, Inc. (Keystone), a Delaware corporation, as trustee of each of the following nine trusts, namely, Keystone Custodian Fund Series B–1, B–2, B–4, K–1, K–2, S–1, S–2, S–3, S–4 (Funds) each registered under the Investment Company Act of 1940 (Act) as an open-end diversified management investment company, the Keystone Company of Boston (Keystone-Boston), a Delaware corporation, and Cornerstone Financial Services, Inc. (Cornerstone), 99 High Street, Boston, MA 02104, a Delaware corporation, (collectively Applicants), have filed an application for an order pursuant to section 6(c) of the Act, exempting Keystone-Boston and Cornerstone from the provisions of section 15(b)(1) of the Act, on condition that the principal underwriting contracts dated April 1, 1971, between Keystone and Keystone-Boston and between Keystone and Cornerstone, and any future contracts of the type required by section 15(b) of the Act so entered into, shall continue in effect with respect to any of the Funds only so long as the continuance is specifically approved at least every 3 years by either written approval by holders of a majority of the outstanding shares of each of the Funds, or by the vote of a majority of such outstanding shares cast in person or by proxy at a meeting called for the purpose. If the requested order were not granted, such approval would be required annually. The exemption, if granted, shall not be operative with respect to any approval required from and after December 31, 1980. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

The Commission by Order dated September 24, 1965 (Investment Company Act Release No. 4361) (the "1965 Order") granted a conditional order to Keystone and Keystone-Boston similar to that requested by the present application. The 1965 Order provided that the exemption would not be operative with respect to any approval which would otherwise be required to continue such underwriting contracts in effect from and after December 31, 1972. New underwriting contracts with Keystone-Boston and Cornerstone (the latter not a party to the 1965 order), both Keystone subsidiaries, executed on April 1, 1971, were most recently submitted to and approved by shareholders of the nine Funds between March 8 and March 22, 1971. Applicants now seek an order exempting them from section 15(b)(1) and extending the 1965 Order to permit them to continue to submit the underwriting contracts with Keystone-Boston and Cornerstone or any future such contracts to shareholders of the Funds every 3 years beginning in 1974 and continuing through December 1980.

The nine Funds, created in 1935, are unincorporated common law trusts, each existing under a separate but substantially identical trust agreement between Keystone as Trustee of each fund and the investors in the Funds. Keystone is a corporation which, pursuant to the terms of the trust agreements, performs as trustee all of the investment, management, and administrative services required by the Funds. Except for the Trustee, the Funds have no employees.

As a principal underwriter, Keystone-Boston is authorized to sell shares of the Funds as agent for the Funds upon receipt of orders from retail dealers. It may also sell shares to the public acting as principal, although it does not presently do so. The contract allots the entire sales charge to Keystone-Boston. Keystone-Boston is required to pay the retail dealers' concessions, the cost of registration of shares sold by it under Federal and State securities laws and the cost of preparation and distribution of prospectuses and sales literature.

As a principal underwriter, Cornerstone is authorized to sell shares of the Funds as principal to the public. Cornerstone, with the approval of Keystone, may enter into sales contracts with other business entities, acting as either principal or agent for resale by such other business entities to the public although it does not presently do so. Cornerstone is required to pay the cost of registration of shares sold by it under Federal and State securities laws and the cost of preparation and distribution of prospectuses and sales literature.

Section 15(b)(1) of the Act makes it unlawful for any principal underwriter of a registered open-end investment company to offer securities of such company except pursuant to a written contract, which contract shall continue in effect for a period of more than 2 years from the date of its execution only so long as such continuance is specifically approved at least annually by the Board of Directors or by vote of a majority of the outstanding voting securities of such Fund.

In August 1960, certain shareholders of the Funds brought suit in the Court of Chancery of New Castle County, Del., against Keystone Individually and as trustee, its directors, and Keystone-Boston, in which, among other things, they challenged the validity of the underwriting contracts with Keystone-Boston. "Saminsky v. Abbott," 185 A. 2d 765 (Del. Ch. 1961). The defendants filed a motion for summary judgment which the court granted in part and denied in part. With respect to the challenge to the validity of the then existing underwriting contracts, the court held such contracts to be void on the ground that the contracts had been continued for more than 2 years without shareholder approval. Other issues, including the plaintiff's right to recover for violations of section 15(b) of the Act, were reserved for later decision.

Subsequent to the proceedings in the Delaware Chancery Court at special meetings held in January 1963 to consider various matters related to the litigation, the shareholders of each of the Funds voted to approve new underwriting contracts with Keystone-Boston and to ratify and approve past underwriting contracts and transactions thereunder. After these meetings, the parties to the aforementioned litigation agreed to settlement subject to court approval.

Applicants assert that the cost of an annual submission of the underwriting contracts to shareholders, which cost is borne by Keystone, would be large in relation to any interest of shareholders in the matter. Ordinarily, no other matters are submitted for shareholder approval. For example, the cost of the proxy solicitation and shareholders' meetings conducted in 1971, when there were approximately 460,000 shareholders in the nine Funds, was $90,000, of which about $53,000 represented postage. Based on the current number of shareholders (about 450,000 at Oct. 31, 1972) and higher postage and other costs, it is estimated that a solicitation at this time would cost more than $115,000. The cost will increase with each increase in the number of shareholders.

In addition Applicants state that there is substantial question whether sufficient shareholder interest can be obtained to secure the majority approval required by the Act when the underwriting contract is the only matter to be brought before the shareholders. Applicants know of no investment company situation where the only annual submission to shareholders is that of the underwriting contract. Applicants allege that failure to obtain necessary approval might make further sales of shares impossible and thus have a serious adverse effect on Keystone and the Funds.

Section 6(c) of the Act provides that the Commission may conditionally or unconditionally exempt any person or transaction from any provisions of the Act if such exemption is necessary or appropriate in the public interest and

V 38 - 7 JAN 11 73 XUM

consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than January 25, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of any attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[70-5288]

UTAH POWER & LIGHT CO.

Notice of Proposed Issue and Sale of Term Notes to Banks and Exception From Competitive Bidding

JANUARY 5, 1973.

Notice is hereby given that Utah Power & Light Co. (Utah), 1407 West North Temple Street, Post Office Box 899, Salt Lake City, UT 84110, an electric utility company and a registered holding company has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 of the Act and Rule 50(a)(2) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Utah proposes to issue and sell, from time to time prior to December 31, 1973, unsecured promissory term notes with 10-year maturities to commercial banks, in an aggregate amount not exceeding $50 million. The principal amount of the term notes will be payable at maturity or the principal amount may be prepaid, in whole or in part, at any time, without penalty or premium, upon payment of the interest accrued to the date of such prepayment on the principal prepaid.

The rate of interest per annum on each outstanding term note, or portion thereof, shall be: 1¼ percent of the prime rate during the first and second years; 1¼ percent of the prime rate plus one-fourth of 1 percent during the third and fourth years; 1¼ percent of the prime rate plus one-half of 1 percent during the fifth, sixth, and seventh years and 1¼ percent of the prime rate plus 2 percent during the eighth, ninth, and 10th years. Based on a prime rate at commercial banks of 5¾ percent per annum, the average interest cost on the term notes during a 7-year period would be approximately 6.8 percent per annum, and over a 10-year period approximately 7.4 percent per annum. During the first 7 years of each term note outstanding the maximum average interest rate is guaranteed to not exceed 8 percent per annum. There are no compensating balances required.

Utah further proposes to issue its notes, in accordance with the above-stated terms, in units of approximately $10 million to $15 million each to no less than two of the following banks:

First National City Bank, New York, N.Y.
Irving Trust Co., New York, N.Y.
Mellon National Bank & Trust Co., Pittsburg, Pa.
Morgan Guaranty Trust Company of New York, New York, N.Y.
The Chase Manhattan Bank, New York, N.Y.

The proceeds from the sale of the term notes will be used to pay for short-term notes and/or commercial paper then outstanding; and, together with other funds, to pay for Utah's construction program during 1973. Construction costs for 1973 are estimated to be $100 million. The sale of the term notes is excepted from the competitive bidding requirements of Rule 50 under the provisions of subparagraph (a)(2).

It is stated that the Idaho Public Utilities Commission and the Wyoming Public Service Commission has jurisdiction over the proposed transaction. No other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Miscellaneous expenses are estimated not to exceed $4,000.

Notice is further given that any interested person may, not later than January 29, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter,

including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.73-601 Filed 1-10-73;8:45 am]

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority No. 30—Region I; Amdt. 2]

DISTRICT DIRECTOR, DISTRICT OFFICE ET AL.

Delegation of Authority To Conduct Program Activities in the Field Offices

Delegation of Authority No. 30—Region I (37 FR 17590), as amended (37 FR 26557) is hereby further amended to expand disaster loan authority.

PART II—DISASTER PROGRAM

SECTION A. *Disaster Loan Authority.*

1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of (1) $50,000 per household for repairs or replacement of the home and/or not to exceed an additional $10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed $55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to $50,000; and (2) $500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan:

(1) District Director, District Office.
(2) Disaster Branch Manager, as assigned.
(3) Chief and Assistant Chief, Financing Division, Regional Office.
(4) Supervisory Loan Officer, Regional Office.
(5) Chief, Financing Division, District Office.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) in any amount and to aprove such loans up to the total SBA funds of $50,000:

(1) District Director, District Office.
(2) Disaster Branch Manager, as assigned.
(3) Chief and Assistant Chief, Financing Division, Regional Office.
(4) Supervisory Loan Officer, Regional Office.
(5) Chief, Financing Division, District Office.

3. To decline disaster guaranteed loans in any amount and to approve such loans up to an SBA guarantee of the following amounts:

(1) District Director, District Office	$500,000
(2) Disaster Branch Manager, as assigned	500,000
(3) Chief and Assistant Chief, Financing Division, Regional Office	500,000
(4) Supervisory Loan Officer, Regional Office	50,000
(5) Chief, Financing Division, District Office	350,000

4. To appoint as a processing representative any bank in the disaster area:

(1) District Director, District Office.
(2) Disaster Branch Manager, as assigned.
(3) Chief and Assistant Chief, Financing Division Regional Office.

Effective Date: July 1, 1972.

DAVID P. HEILNER,
Regional Director, Region I.

TARIFF COMMISSION

[TEA-W-170]

ANDAL SHOES, INC.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of Andal Shoes, Inc., Haverhill, Mass., the U.S. Tariff Commission, on January 5, 1973, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women (of the types provided for in Items 700.43, 700.45, and 700.55 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the customhouse.

By order of the Commission.

Issued: January 8, 1973.

INTERSTATE COMMERCE COMMISSION

[Notice 153]

ASSIGNMENT OF HEARINGS

JANUARY 8, 1973.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 136884, James J. Hamilton doing business as Hamilton's Towing Service, now assigned January 15, 1973, at Chicago, Ill., is canceled and reassigned January 15, 1973, will be held at the Kirkwood Hotel, Fourth and Walnut Streets, Des Moines, Iowa.

MC 66886 Sub 30, Belger Cartage Service, Inc., now assigned January 15, 1973, at Kansas City, Mo., is postponed indefinitely.

MC-121495 Sub 5, Englewood Transit Co., now assigned January 31, 1973, at Denver, Colo., is canceled and application dismissed.

AB-5 Sub 47, Penndel Co. and George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, trustees of the property of Penn Central Transportation Co., debtor, abandonment between New Castle and Houston Junction, in Mercer and Lawrence Counties, Pa., now being assigned hearing March 1, 1973 (2 days), at New Castle, Pa., in a hearing room to be later designated.

MC-115311 (Sub-No. 134), J & M Transportation Co., Inc., now assigned February 5, 1973, will be held in Room 305, 1252 West Peachtree Street NW., Atlanta, GA.

MC 63792, Tom Hicks Transfer Co., Inc., now assigned January 23, 1973, at Jackson, Miss., will be held in Room 536, U.S. Post Office and Courthouse, East Capitol and Southwest Streets.

MC 136468 Sub 1, Virginia Air Freight Inc., now assigned January 29, 1973, at Roanoke, Va., will be held in Room 301, U.S. Post Office Building, 212 Church Avenue SW., MC 115841 Sub 413, Colonial Refrigerated Transportation, Inc., now assigned February 5, 1973, at Washington, D.C., is postponed indefinitely.

[SEAL] ROBERT L. OSWALD,
Secretary.

V 38 - 7 JAN 11 73 XUM

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 8, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42598—*Methylene chloride from points in Texas and Louisiana.* Filed by Southwestern Freight Bureau, agent (No. B-375), for interested rail carriers. Rates on methylene chloride, in tank-car loads, as described in the application, from Nadeau and Texas City, Tex., to Chicago, Ill., and points taking same rates, also from specified points in Louisiana and Texas, to East St. Louis, Ill., and St. Louis, Mo.

Grounds for relief—Market competition.

Tariffs—Supplements 23 and 165 to Southwestern Freight Bureau, agent, tariffs ICC 5044 and 4899, respectively. Rates are published to become effective on February 1, 1973.

FSA No. 42599—*Resin plasticizers to points in Florida.* Filed by Southwestern Freight Bureau, agent (No. B-368), for interested rail carriers. Rates on resin plasticizers, in tank-car loads, as described in the application, from Bayport and Houston, Tex., to specified points in Florida.

Grounds for relief—Market competition.

Tariff—Supplement 39 to Southwestern Freight Bureau, agent, tariff ICC 5019. Rates are published to become effective on February 12, 1973.

FSA No. 42600—*Salt and related articles to points in southern territory.* Filed by Traffic Executive Association-Eastern Railroads, agent (E.R. No. 3030), for interested rail carriers. Rates on salt and salt compounds and mixtures, salt, common (sodium chloride), in bulk, in carloads, as described in the applicataion, from Seneca Lake, Retsof, and Ludlowville, N.Y., to points in southern territory.

Grounds for relief—Market competition.

Tariff—Supplement 108 to Traffic Executive Association-Eastern Railroads, agent, tariff ICC A-907. Rates are published to become effective on February 7, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Rev. S.O. 994; ICC Order 78, Amdt. 4]

LONG ISLAND RAILROAD CO.

Rerouting or Diversion of Traffic

Upon further consideration of ICC Order No. 78 (the Long Island Railroad Co.) and good cause appearing therefor:

It is ordered, That:

ICC Order No. 78 be, and it is hereby amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., January 19, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., January 5, 1973, and that this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., January 4, 1973.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[Notice 2]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JANUARY 5, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by special rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing: (1) That it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, or oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 1042 (Sub-No. 8), filed November 16, 1972. Applicant: C.P.T. FREIGHT, INC., 2600 Calumet Avenue, Hammond, IN 46320. Applicant's representative: E. H. Heisterberg (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles, and contractors' machinery, equipment, materials and supplies*, between Indian Oaks, Ill., and points in Indiana. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 1263 (Sub-No. 17) (Correction), filed October 17, 1972, published in

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

the FEDERAL REGISTER issue of November 16, 1972, and republished as corrected this issue. Applicant: MCCARTY TRUCK LINE, INC., 17th and Harris, Trenton, Mo. 64683. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, MO 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading) serving all points within 10 miles of St. Joseph, Mo., and 15 miles of Platte City, Mo., as off-route points in connection with McCarty's regular route operations between Kansas City and St. Joseph, Mo. NOTE: The purpose of this republication is to delete the phrase "for operating convenience only, serving no intermediate points," which was erroneously published. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 1641 (Sub-No. 99), filed November 20, 1972. Applicant: PEAKE TRANSPORT SERVICE, INC., Box 366, Chester, NE 68327. Applicant's representative: Einar Viren, 904 City National Bank Building, Omaha, NE 68102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fertilizer, fertilizer materials and ammonium nitrate*, in bulk, or in bags from Farmland Industries, Inc., plant or warehouse located at or near Hastings, Nebr., to points in Colorado, Kansas, South Dakota, and Wyoming; and (2) *liquid asphalt, road oils, and residual fuel oils*, in bulk, in tank vehicles from the Sioux City, Iowa-South Sioux City Nebraska commercial zone, including Bridgeport industrial park, to points in Iowa, Minnesota, Nebraska, and South Dakota. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Omaha, Nebr.

No. MC 2202 (Sub-No. 420) (Amendment), filed October 10, 1972, published in the FEDERAL REGISTER issue of November 16, 1972, and republished in part as amended this issue. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, Post Office Box 471, Akron, OH 44309. Applicant's representative: James W. Connor (same address as applicant). NOTE: The purpose of this partial republication is to show (1) as follows: From Davenport over U.S. Highway 61 to the junction of U.S. Highway 61 and Missouri 19, thence over Missouri Highway 19 to the junction of Missouri 19 and U.S. Highway 54, thence over U.S. Highway 54 to the junction of U.S. Highways 54 and 40, and return over the same route. The rest of the application remains the same.

No. MC 8535 (Sub-No. 44) (Amendment), filed November 9, 1972, published in the FEDERAL REGISTER issue of December 21, 1972, and republished as amended this issue. Applicant: GEORGE TRANSFER AND RIGGING COMPANY, INCORPORATED, Interstate 83 at Route 439, Baltimore, Md. 21120. Applicant's representative: John Guandolo, 1000 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment and those injurious or contaminating to other lading), between the site of applicant's terminal at or near South Hill, Va., on the one hand, and, on the other, points in North Carolina, serving South Hill, Va., for purpose of joinder only. NOTE: Applicant presently holds authority as above described between Victoria and Kenbridge, Va., on the one hand, and, on the other, points in North Carolina. Applicant presently holds authority to transport a number of special commodities between Virginia, on the one hand, and, on the other, points in the following States: Delaware, Kentucky, Maryland, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia. Under its existing certificates it is presently authorized to tack at either Victoria or Kenbridge to permit through movements of traffic between North Carolina, on the one hand, and, on the other, points in the States named above. Applicant states it does intend to continue to tack the two authorities involved but over the additional gateway of South Hill, Va. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 26396 (Sub-No. 65), filed November 24, 1972. Applicant: POPELKA TRUCKING CO., doing business as, THE WAGGONERS, Post Office Box 990, Livingston, MT 59047. Applicant's representative: Jacob P. Billig, 1108 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood fence and materials and wood poles*, from points in St. Regis, Superior, Troy, Montana; and Idaho, Boundry, Bonner, Kootenai, Shoshone, Ada, Benewah, Latah, Clearwater, Lewis, Nez Perce Counties, Idaho, to points in Indiana, Michigan, Ohio, Nebraska, Minnesota, Iowa, Missouri, Kansas, Illinois, Wisconsin, Oklahoma, Wyoming, Colorado, New Mexico, Arizona, Utah, Montana, Washington, Oregon, North and South Dakota. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 26396 (Sub-No. 67), filed November 27, 1972. Applicant: POPELKA TRUCKING CO., doing business as, THE WAGGONERS, a corporation, Post Office Box 990, Livingston, MT 59047. Applicant's representative: Jacob P. Billig, 1108 16th Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Treated and untreated poles, posts, piling, ties, and lumber*, from Flathead County, Mont., to points in North Dakota, South Dakota, Colorado, and Wyoming; and (2) *forest products*, from points in Montana to points in the United States (including Alaska and excluding Hawaii) on and west of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the Ohio River at the Illinois State line, thence along the Ohio River to its intersection with the eastern State boundary of Indiana, thence northward along the eastern State boundary of Indiana, to its intersection with the Michigan State line, and thence eastward along the Michigan State line to Lake Erie. NOTE: Applicant states that the requested authority can be tacked with the authority it holds in certificate No. MC 26396 at points in Wyoming within a 100-mile radius of Bridger, Mont., to serve points in Montana. If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 30844 (Sub-No. 445), filed November 20, 1972. Applicant: KROBLIN REFRIGERATED XPRESS, INC., Post Office Box 5000, Waterloo, IA 50704. Applicant's representative: Truman A. Stockton, The 1650 Grant Street Building, Denver, CO. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* from Ames, Iowa, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to shipments originating at the facilities of Carriage House Meat & Provision Co., Inc. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is demed necessary, applicant requests it be held at Des Moines, Iowa, or Washington, D.C.

No. MC 30844 (Sub-No. 446), filed November 20, 1972. Applicant: KROBLIN REFRIGERATED XPRESS, INC., Post Office Box 5000, Waterloo, IA 50704. Applicant's representative: Truman A. Stockton, The 1650 Grant Street Building, Denver, CO. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Mankato, Kans., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Maine, Maryland, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

V38-7 JAN 11 73 XUM

NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Kans., or Washington, D.C.

No. MC 30844 (Sub-No. 447), filed November 20, 1972. Applicant: KROBLIN REFRIGERATED XPRESS, INC., Post Office Box 5000, Waterloo, IA 50704. Applicant's representative: Truman A. Stockton, The 1650 Grant Street Building, Denver, CO. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Footwear, footwear accessories, and footwear display cases*, (1) from Brockton, Mass., to points in Colorado and Oklahoma and (2) from Norwood, Mass., to points in Colorado, Illinois (except Chicago and points in the Chicago commercial zone), Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Texas, and Wisconsin. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 46737 (Sub-No. 48), filed December 5, 1972. Applicant: GEO. F. ALGER COMPANY, a corporation, 3050 Lonyo Road, Detroit, MI 48209. Applicant's representative: Robert A. Sullivan, 1800 Buhl Building, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gypsum and gypsum products, and materials and supplies* used in the installation or distribution thereof, from the plantsite and facilities of United States Gypsum Co. at River Rogue, Mich., to points in Illinois, Kentucky, Pennsylvania, West Virginia, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 51146 (Sub-No. 300), filed November 27, 1972. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: Charles Singer, Suite 1000, 327 South La Salle Street, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefinished and unfinished plywood*, (1) from Baltimore, Md., Camden and Newark, N.J., to points in Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, North Carolina, South Carolina, West Virginia, Ohio, Kentucky, Tennessee, Illinois, Indiana, Michigan, Wisconsin, Minnesota, Iowa, and Missouri, and (2) from Joliet and Chicago, Ill., St. Louis, Mo., St. Paul, Minn., and Louisville, Ky., to points in Tennessee, Kentucky, Ohio, Michigan, Indiana, Wisconsin, Illinois, Arkansas, Oklahoma, Kansas, Nebraska, Missouri, Iowa, and Minnesota. NOTE: Common control may be involved. Applicant states that the requested authority could be tacked with various subs of MC 51146 and it will tack with its MC 51146 where feasible, but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states it has various duplicative items of authority under various subs but does not seek duplicative authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 51146 (Sub-No. 301), filed December 7, 1972. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: Charles Singer, Suite 1000, 327 South La Salle Street, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from Lenoir, N.C., to points in the Upper Peninsula of Michigan and points in Illinois on and north of U.S. Highway 30 (except points in Chicago, Ill., commercial zone as defined by the Commission). NOTE: Common control may be involved. Applicant states that the requested authority could be tacked with various subs of MC 51146 and it will tack with its MC 51146 where feasible, but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states it has various duplicative items of authority under various subs but does not seek duplicative authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 51146 (Sub-No. 303), filed December 11, 1972. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: Charles Singer, Suite 1000, 327 South La Salle Street, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from the plant and warehouse sites of Tri-Valley Growers located at Madera, Modesto and at or near Stockton, Calif., to points in North Dakota, South Dakota, Iowa, Minnesota, Wisconsin, Michigan, Illinois, Missouri, Indiana, Ohio, and Pennsylvania, restricted to traffic originating at the named plant and warehouse sites and destined to points in the above named States. NOTE: Common control may be involved. Applicant states that the requested authority could be tacked with various subs of MC 51146 and it will tack with its MC 51146 where feasible, but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states it has various duplicative items of authority under various subs but does not seek duplicative authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 51146 (Sub-No. 304) filed December 11, 1972. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: Charles Singer, Suite 1000, 327 South La Salle Street, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from the plant and warehouse sites of Tri-Valley Growers located at Madera, Modesto and at or near Stockton, Calif., to points in Texas, Louisiana, Arkansas, Mississippi, and Alabama, restricted to traffic originating at the named plant and warehouse sites and destined to points in the above named States. NOTE: Common control may be involved. Applicant states that the requested authority could be tacked with various subs of MC 51146 and it will tack with its MC 51146 where feasible, but does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states it has various duplicative items of authority under various subs but does not seek duplicative authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 52460 (Sub-No. 117), filed November 26, 1972. Applicant: HUGH BREEDING, INC., Post Office Box 9515, Tulsa, OK 74107. Applicant's representative: Steve B. McCommas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Materials and supplies* used in manufacturing of carpeting; (a) from Toccoa, Ga., to points in Arkansas, Kansas, Missouri, Oklahoma, and Texas; and (b) from Rome, Dalton, Oxford, and Columbus, Ga., to Poteau, Okla.; (2) *rugs and carpeting;* (a) from Bristow, Okla., to points in Arkansas, Kansas, Missouri, Texas, and Louisiana; and (b) from Poteau, Okla., to Des Moines, Iowa, Kansas City, Kansas-Missouri commercial zone and Dallas, Tex.; and (3) *finished carpeting*, from Columbus, Ga., to points in Arkansas, Kansas, Louisiana, Missouri, Oklahoma, and Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Oklahoma City, Okla.; Atlanta, Ga.; or Little Rock, Ark.

No. MC 52574 (Sub-No. 45), filed December 4, 1972. Applicant: ELIZABETH FREIGHT FORWARDING CORP., 120 South 20th Street, Irvington, NJ 07111. Applicant's representative: Edward F. Bowes, 744 Broad Street, Newark, NJ 07102. Authority songht to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products*, from Totowa, N.J., to Somerset, Altoona, and Pittsburgh, Pa., Dover, Del., and Berlin, Md., under a continuing contract, or contracts, with S. B. Thomas, Inc., at Totowa, N.J. NOTE: Applicant presently holds permanent contract carrier authority to transport similar commodities for S. B. Thomas, Inc., from Totowa, N.J., to various points in Maryland, Pennsylvania, and the District of Columbia. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 61592 (Sub-No. 294), filed November 27, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, from points in Beaverhead, Fergus, Flathead, Gallatin, Granite, Lake, Lincoln, Mineral, Missoula, Musselshell, Powell, Ravalli, Rosebud, and Sanders Counties, Mont., and Salmon, Idaho, to points in Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, and Wyoming. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 61592 (Sub-No. 295), filed November 27, 1972. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquors, wines, and spirits*, excluding beer and malt beverages, from Louisville, Frankfort, Bardstown, and Ownesboro, Ky., to Tulsa and Oklahoma City, Okla. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla.

No. MC 76266 (Sub-No. 123), filed December 1, 1972. Applicant: ADMIRAL-MERCHANTS MOTOR FREIGHT, INC., 2625 Territorial Road, St. Paul, MN 55114. Applicant's representative: Cecil L. Goettsch, 11th Floor Des Moines Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment) serving the warehouse site of Western Electric located at or near Underwood, Iowa, as an offroute point in connection with applicant's regular-route operations via Omaha, Nebr. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.; Omaha, Nebr.; or Des Moines, Iowa.

No. MC 85465 (Sub-No. 53), filed November 30, 1972. Applicant: WEST NEBRASKA EXPRESS, INC., The 1650 Grant Street Building, Denver, CO 80203. Applicant's representative: Stockton and Lewis (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Huron, S. Dak., to points in Wyoming and Colorado. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Rapid City, S. Dak.

No. MC 103498 (Sub-No. 30), filed December 6, 1972. Applicant: W. D. SMITH TRUCK LINE, INC., Post Office Drawer C, De Queen, Ark. 71832. Applicant's representative: Donald T. Jack, Jr., 1550 Tower Building, Little Rock, AR 72201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boards composed of wood fiber and cement combined and accessories therefor*, when moving incidental to and in the same vehicle with subject boards, returned of rejected and damaged materials; and return commodities used in the manufacture and distribution of the above-named commodity, from the plantsite and warehouse of the Gold Bond Building Products, Division of National Gypsum Co., at or near Arkadelphia, Ark., to points in Louisiana, Texas, Oklahoma, Iowa, Illinois, Wisconsin, Missouri, Kansas, Alabama, Colorado, Georgia, Minnesota, Mississippi, Nebraska, New Mexico, North Dakota, South Dakota, Florida, Kentucky, and Tennessee. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 104523 (Sub-No. 53), filed December 10, 1972. Applicant: HUSTON TRUCK LINE, INC., Friend, Nebr. 68359. Applicant's representative: David R. Parker, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Stone; and landscaping, building and stone products, materials and supplies*, from points in Colorado, New Mexico, and Utah to points in Arkansas, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Texas, Utah, Wisconsin, and Wyoming. NOTE: Applicant states that the requested authority can be tacked with its existing authority in MC 104523 (Sub-No. 40). If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Albuquerque, N. Mex.

No. MC 106644 (Sub-No. 145), filed November 13, 1972. Applicant: SUPERIOR TRUCKING COMPANY, INC., Post Office Box 916 (2770 Peyton Road NW.), Atlanta, GA 30301. Applicant's representative: Fred Coffman, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Switch gears, circuit breakers, bus bar systems and rectifiers; parts of the above named commodities*, from Camden, N.J., and Philadelphia, Pa., to points in the United States (including Alaska, but excluding Hawaii). NOTE: Applicant holds contract carrier authority under MC 104724 (Sub-No. 13), therefore dual operations and common control may be involved. Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the applications may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 106748 (Sub-No. 10), filed November 24, 1972. Applicant: GODDARD'S TRANSPORTATION, INC., Route 4, Fair Haven, Vt. 05743. Applicant's representative: John P. Monte, 61 Summer Street, Barre, VT 05641. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed, ground, and broken limestone* in dump vehicles, from points in Rutland County, Vt., to points in Connecticut, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, and Rhode Island. NOTE: Applicant states that the requested authority cannot be tacked

V 38-7 JAN 11 73 XUM

with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either (1) Montpelier, Vt.; (2) Concord, N.H.; or (3) Boston, Mass.

No. MC 107012 (Sub-No. 167), filed November 30, 1972. Applicant: NORTH AMERICAN VAN LINES, INC., Post Office Box 988, Lincoln Highway East and Meyer Road, Fort Wayne, IN 46801. Applicant's representative: Donald C. Lewis (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Carpet and carpet padding*, from Greenville, S.C., to Charleroi and Clarion, Pa. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 107012 (Sub-No. 169), filed November 30, 1972. Applicant: NORTH AMERICAN VAN LINES, INC., Post Office Box 988, Lincoln Highway East and Meyer Road, Fort Wayne, IN 46801. Applicant's representative: Donald C. Lewis (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fiberglass bathtub and shower enclosures*, from Cordele, Ga., to points in Louisiana, Arkansas, Tennessee, Mississippi, Alabama, Georgia, Florida, North Carolina, and South Carolina. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 107478 (Sub-No. 16), filed December 6, 1972. Applicant: OLD DOMINION FREIGHT LINE, a corporation, Post Office Box 1189, High Point, NC 27261. Applicant's representative: Francis W. McInerny, 1000 16th Street, NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, dangerous articles, household goods, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), (1) between Richmond, Va., and Henderson, N.C., from Richmond over Interstate Highway 95 to its junction with Interstate Highway 85, thence over Interstate Highway 85 to Henderson, N.C., and return over the same route; and (2) between Richmond, Va., and Roanoke Rapids, N.C., from Richmond over Interstate Highway 95 and/or U.S. Highway 301 to Roanoke Rapids, and return over the same route, as alternate routes for operating convenience only in connection with applicant's presently held regular-route authority and serving no intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or High Point, N.C.

No. MC 107743 (Sub-No. 19), filed October 12, 1972. Applicant: SYSTEM TRANSPORT, INC., East 6523 Broadway, Spokane, WA 99206. Applicant's representative: Gordon Roberts, Kearns Building, Salt Lake City, Utah 84101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, wood products, and millwork*, from points in Washington, Idaho, and Oregon, to points in Ohio, Michigan on, south and west of U.S. Highway 10 and Port Huron, Mich. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Spokane, Wash., or Portland, Oreg.

No. MC 107743 (Sub-No. 20), filed November 21, 1972. Applicant: SYSTEM TRANSPORT, INC., East 6523 Broadway, Spokane, WA 99206. Applicant's representative: S. J. Cully, Jr., Post Office Box 3456TA, Spokane, WA 99220. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel and iron and steel articles* (except those, the transportation of which, because of their size or weight, require the use of special equipment, and except pipe as described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from points in California to points in Oregon, Washington, Idaho, and Montana. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco or Los Angeles, Calif.

No. MC 109172 (Sub-No. 10), filed November 30, 1972. Applicant: NATIONAL TRANSFER, INC., 4100 East Marginal Way S., Seattle, WA 98134. Applicant's representative: James T. Johnson, 1610 IBM Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, in cargo vans and containers only; and *empty cargo vans and containers*; (1) between points in King, Pierce, Lewis, Clark, and Cowlitz Counties, Wash.; and (2) between points in King, Pierce, Lewis, Clark, and Cowlitz Counties, Wash., on the one hand, and, on the other, points in Multnomah, Clackamas, Yamhill, Washington, and Marion Counties, Oreg. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 110420 (Sub-No. 669), filed November 22, 1972. Applicant: QUALITY CARRIERS, INC., Post Office Box 186, Pleasant Prairie, WI 53158. Applicant's representative: Fred H. Figge (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn products and blends thereof*, in bulk, over irregular routes, from Dayton, Ohio, to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 110988 (Sub-No. 291), filed November 24, 1972. Applicant: SCHNEIDER TANK LINES, INC., 200 West Cecil Street, Neenah, WI 54956. Applicant's representative: E. Stephen Heisley, 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn products and blends thereof*, in bulk, in tank or hopper-type vehicles, from Dayton, Ohio, to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 110988 (Sub-No. 292), filed November 24, 1972. Applicant: SCHNEIDER TANK LINES, INC., 200 West Cecil Street, Neenah, WI 54956. Applicant's representative: E. Stephen Heisley, 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn products and blends*, in bulk, in tank or hopper-type vehicles, from the plantsite of the Hubinger Co. at or near Elk Grove Village, Ill., to points in Illinois, Indiana, Kentucky, Michigan, Minnesota, Ohio, Tennessee, West Virginia, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 111545 (Sub-No. 178), filed December 10, 1972. Applicant: HOME TRANSPORTATION COMPANY, INC., 1425 Franklin Road, Marietta, GA 30062. Applicant's representative: Robert E. Born, Post Office Box 6426, Station A, Marietta, GA 30062. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and tubing, iron and steel pipe and tubing and fittings for pipe and tubing*, from the plantsite of Tex-Tub Division, Detroit Steel Corp., a division of Cyclops Corp., at or near Houston, Tex., to points in the United States

(except Alaska and Hawaii). NOTE: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 111812 (Sub-No. 482), filed November 27, 1972. Applicant: MIDWEST COAST TRANSPORT, INC., 900 West Delaware, Post Office Box 1233, Sioux Falls, SD 57101. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Chicago and Deerfield, Ill., to points in California, restricted to traffic originating at the plantsites and warehouses utilized by the Kitchens of Sara Lee at the above-named origin points and destined to California. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 112750 (Sub-No. 291), filed December 11, 1972. Applicant: AMERICAN COURIER CORPORATION, 2 Nevada Drive, Lake Success, NY. Applicant's representative: John M. Delaney (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commercial papers, documents, written instruments, and business records* (except currency and negotiable securities) as are used in the business of banks and banking institutions, between Adrian, Mich., and Toledo, Ohio, under contract with banks and banking institutions. NOTE: Applicant holds common carrier authority under MC 111729 and subs thereto, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich.

No. MC 113382 (Sub-No. 15) (Amendment), filed October 11, 1972, published in the FEDERAL REGISTER issue of November 9, 1972, and republished as amended this issue. Applicant: NELSEN BROS., INC., Post Office Box 613, Nebraska City, NE 68410. Applicant's representative: J. Max Harding, Post Office Box 82028, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products, products* produced or distributed by manufacturers and converters of paper and paper products, from Minneapolis, Minn., to points in South Dakota, Nebraska, Kansas, and Missouri; and (2) *Materials and supplies* used in the manufacture and distribution of the commodities in (1) above (except commodities in bulk and commodities which by reason of size or weight require the use of special equipment), from points in South Dakota, Nebraska, Kansas, and Missouri to St. Paul and Minneapolis, Minn., under contract with Hoerner Waldorf Corp. Restriction: Restricted to traffic originating at or destined to the plantsites or warehouse facilities utilized by Hoerner Waldorf Corp. at St. Paul and Minneapolis, Minn. NOTE: The purpose of this republication is to redescribe the authority sought. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 113855 (Sub-No. 264), filed November 24, 1972. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, MN 55901. Applicant's representative: Alan Foss, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mining equipment and construction equipment, and attachments and parts of mining equipment and construction equipment*, between Salt Lake City and Monticello, Utah; Lebanon, Mo.; and Rock, Mich., on the one hand, and, on the other, points in the United States (except Hawaii but including Alaska). NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah.

No. MC 114045 (Sub-No. 374), filed August 25, 1972. Applicant: TRANS-COLD EXPRESS, INC., Post Office Box 5842, Dallas, TX 75222. Applicant's representative: J. B. Stuart (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum lubricating oils, cleaning, and polishing compounds*, in vehicles equipped with mechanical refrigeration, from Baltimore, Md., to points in Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 114840 (Sub-No. 13), filed November 27, 1972. Applicant: EUGENE EBY, GLENN EBY AND WAYNE EBY, a partnership, doing business as, EBY BROTHERS, Route 2, Boise, ID 83702. Applicant's representative: Kenneth G. Bergquist, Post Office Box 1775, Boise, ID 83701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber, lumber products, particle board, and poles*, from points in Baker, Grant, Harney, Malheur, Morrow, Umatilla, Union, and Wallowa Counties, Oreg., and points in Idaho to points in Nevada; (2) *precast and prestressed concrete products*, from points in Ada County, Idaho, to points in Baker, Grant Harney, Malheur, Umatilla, Union, and Wallowa Counties, Oreg., and points in Nevada; (3) *stone and clay products*, (a) from points in Ada County, Idaho, to points in Baker, Grant, Harney, Malheur, Umatilla, Union, and Wallowa Counties, Oreg., and points in Nevada; and (b) from points in Nevada to points in Ada County, Idaho; and (4) *corrugated steel pipe and steel storage tanks*, from points in Ada County, Idaho, to points in Baker, Grant, Harney, Malheur, Umatilla, Union and Wallowa Counties, Oreg. NOTE: Applicant states that portions of the requested authority can be tacked with applicant's presently held authority but has no present intention of tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho.

No. MC 115092 (Sub-No. 22), filed November 8, 1972. Applicant: WEISS TRUCKING, INC., Post Office Box 0, Vernal, UT 84078. Applicant's representative: Mark K. Boyle, 345 South State Street, Salt Lake City, UT 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Torches and accessories, metal heating or melting furnaces, liquefied petroleum gases in steel cylinders, portable gas stoves, lanterns, engine starters, steel tool boxes, hardware, camping equipment and accessories including, but not limitd to barrack, duffel, clothing or sleeping bags, waterproofing compound, mattresses, tents, tent poles or stakes, cotton piece goods, cloth awnings, tarpaulins, cotton clothing, portable toilet seats, folding camp seats, portable alcohol stoves, pads, cots and umbrellas*, from Sycamore, Ill., to points in Arizona, California, and Nevada and (2) *tents and accessories*, from Bellwood, Ill., to same destinations as (1) above. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 116459 (Sub-No. 46), filed November 30, 1972. Applicant: RUSS TRANSPORT, INC., Post Office Box 4022, Chattanooga, TN 37405. Applicant's representative: Leonard A. Jaskiewicz, Suite 501, 1730 M Street NW., Washington, DC 20036. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 124078 (Sub-No. 535), filed December 11, 1972. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28 Street, Milwaukee, WI 53246. Applicant's representative: James R. Ziperski (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn products and blends thereof*, in bulk, from Dayton, Ohio, to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio,

Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 124813 (Sub-No. 100), filed November 20, 1972. Applicant: UNTHUN TRUCKING CO., a corporation, 910 South Jackson Street, Eagle Grove, IA 50533. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Soybean flour and feed ingredients*, from points in Illinois to Muscatine, Iowa, and (2) *feed*, from Dundee, Ill., to points in Iowa, Minnesota, and Missouri. NOTE: Applicant states that the requested authority can be tacked at Muscatine to transport feed ingredients to points in Kansas, Missouri, and Nebraska and at Eagle Grove, Iowa, to transport feed to Nebraska, South Dakota, Colorado, and Wyoming. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., Des Moines, Iowa, or Chicago, Ill.

No. MC 125777 (Sub-No. 139), filed November 13, 1972. Applicant: JACK GRAY TRANSPORT, INC., 4600 East 15th Avenue, Gary, IN 46403. Applicant's representative: Axelrod, Goodman, Steiner & Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coke*, in dump vehicles, from Chicago, Ill., to points in Michigan. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 128375 (Sub-No. 87), filed November 30, 1972. Applicant: CRETE CARRIER CORPORATION, Box 249, Crete, NE 68333. Applicant's representative: Ken Adams (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicle parts and accessories*, and *those commodities* used in the manufacture, production, and distribution of motor vehicle parts and accessories (except in bulk) between Ripley, Tenn., on the one hand, and, on the other, points in the United States (including Alaska and Hawaii), under a continuing contract with the Maremont Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Lincoln, Nebr., or Chicago, Ill.

No. MC 128527 (Sub-No. 32), filed November 27, 1972. Applicant: MAY TRUCKING COMPANY, a corporation, Post Office Box 398, Payette, ID 83661. Applicant's representative: C. Marvin May (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat and meat products*, from Caldwell, Idaho, to points in Oregon west of the Cascade Mountain Range. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho.

No. MC 134097 (Sub-No. 2), filed November 27, 1972. Applicant: HAHN TRANSPORTATION, INC., New Market, Md. 21774. Applicant's representative: Francis J. Ortman, 1100 17th Street NW., Suite 613, Washington, DC 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gasoline*, in bulk, in tank vehicles, from Baltimore, Md., to the gasoline stations of Cheker Oil Co. in Winchester, Va., Harrisburg, and Middletown, Pa., under contract with Cheker Oil Co. NOTE: Applicant also holds common carrier authority under MC 56388 and subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 134369 (Sub-No. 3), filed December 6, 1972. Applicant: CARLSON TRANSPORT, INC., Post Office Box R, Byron, IL 61010. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand*, in bulk, from (1) Michigan City, Ind., to points in the Lower Peninsula of Michigan, Waukegan and North Chicago, Ill., and points in the Chicago, Ill., commercial zone as defined by the Commission. Points in Ohio; (2) points in Berrien County, Mich., to points in Indiana, points in Ohio and that part of Illinois north of U.S. Highway 36, and (3) Oregon, Ill., to points in Indiana, points in the Lower Peninsula of Michigan and points in Ohio, restricted to traffic originating at the plantsite and facilities of Martin-Marietta Corp. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 134601 (Sub-No. 4), filed October 26, 1972. Applicant: GOOSE CREEK TRANSPORT, INC., Rural Delivery No. 1, Ashville, N.Y. 14710. Applicant's representative: Kenneth T. Johnson, Bankers Trust of Jamestown Building, Jamestown, N.Y. 14701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products, dairy products and articles distributed by meat packinghouses* (except hides and commodities in bulk) as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the town of Harmony (located in Chautauqua County), N.Y. to points in Adams, Allegheny, Armstrong, Beaver, Bedford, Blair, Bradford, Butler, Cambria, Cameron, Centre, Clarion, Clearfield, Clinton, Columbia, Elk, Fayette, Forest, Franklin, Fulton, Greene, Huntingdon, Indiana, Jefferson, Juniata, Lawrence, Lycoming, Mercer, Mifflin, Montour, Northumberland, Perry, Potter, Schuylkill, Snyder, Somerset, Sullivan, Susquehanna, Tioga, Union, Washington, Westmoreland, Wyoming Counties, Pa., to points in Ashtabula, Columbiana, Mahoning, and Trumbull Counties, Ohio, under a continuing contract with Fairbank Farms, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

No. MC 134922 (Sub-No. 38), filed December 11, 1972. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, AR 72118. Applicant's representative: L. C. Cypert (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Clifton, N.J., to points in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, and South Carolina. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 136476 (Sub-No. 2), filed May 18, 1972. Applicant: TRANSPORT WEST, INC., 2115 Birchwood, Eugene, OR 97401. Applicant's representative: Hector E. Smith, 33 East 10th Avenue, Post Office Box 334, Eugene, OR 97401. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Reinforcing steel*, from McMinnville, Oreg. (Cascade Steel Rolling Mills), to San Jose, Calif., under contract with Cascade Steel Rolling Mills. NOTE: If a hearing is deemed necessary, applicant requests it be held at Eugene, McMinnville or Portland, Oreg.

No. MC 136769 (Sub-No. 3), filed November 13, 1972. Applicant: POP TRUCKING, INC., 20 North Main Street, Cornelia, GA. Applicant's representative: Guy H. Postell, Suite 713, 3384 Peachtree Road NE., Atlanta, GA 30326. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Nonalcoholic beverages*, in containers, and *nonalcoholic beverage concentrate and syrup*, other than frozen, in containers, from Augusta, Ga., Inman, S.C., and the plant and warehouse sites of Custom Canners, Inc., located at points in Gwinnett and De Kalb Counties, Ga., to points in Arkansas, Illinois, Indiana, Missouri, Ohio, Pennsylvania, and Texas; and (2) *materials, supplies, and equipment* used in the production and distribution of nonalcoholic beverages (except commodities in bulk), from the destination points named above to Augusta, Ga., Inman, S.C., and the plant and warehouse sites of Custom Canners, Inc., located at points in Gwinnett and De Kalb Counties, Ga. Restriction: The Service authorized herein is subject to the following conditions: The operations herein are limited to transportation service to be performed, under a continuing contract, or contracts, with Custom Canners, Inc., of Gwinnett County, Ga. Further the authority granted herein shall be subject to the right of the Commission, which is hereby expressly reserved, to impose such terms, conditions or limitations in the future as it may find necessary in order to insure that carrier's operations shall conform to the provisions of section 210 of the Act. Additionally, the operations authorized herein are subject to the condition that any transportation service performed by the carrier from and to the points set forth above shall only be performed under authority of and in accordance with the terms, express or implied, of the permit issued hereunder. NOTE: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 136879 (Sub-No. 1), filed November 24, 1972. Applicant: PAUL R. GARNSEY and PAUL Z. GARNSEY, doing business as PAUL GARNSEY & SON, Post Office Box 55, Rural Delivery 1, Schuylerville, NY 12871. Applicant's representative: Julius Braun, Port Administration Building, Albany, NY 12202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Manufactured shipping containers, fabricated steel units, shipping rigs, pulp and paper manufacturing machinery and parts thereof, and rough and finished castings*, between Hudson Falls, N.Y., on the one hand, and, on the other, points in Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and Wisconsin; (2) *paperboard boxes, folding cartons, and papermill supplies*, between Saratoga, N.Y., on the one hand, and, on the other, points in New Jersey, Nassau, and Suffolk Counties, N.Y., and New York City; and (3) *paper and paper mill supplies*, between Greenwich, N.Y., on the one hand, and, on the other, points in New Jersey, Nassau and Suffolk Counties, N.Y., and New York City, under contract with Sandy Hill Corp., Hollingsworth & Vose Co., and the A. L. Gerger Co. NOTE: Applicant also holds common carrier authority under MC 119297 and subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Albany or New York, N.Y.

No. MC 136980, filed August 3, 1972. Applicant: TERRANCE W. SHEARER, Rural Delivery No. 1, Hinsdale Highway, Box 337, Olean, NY 14760. Applicant's representative: David P. Feldman, 714 Genesee Building, Buffalo, NY 14202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes transporting: *Engines, pumps, compressors, and turbines, and parts of said commodities*; and *equipment and materials* used in the manufacture or assembly of said commodities, in units not exceeding 15,000 pounds in weight, from shipper plantsite and warehouse in Olean, Cattaraugus County, N.Y., to points in Allegany, Cattaraugus, Cayuga, Chautauqua, Delaware, Erie, Monroe, Nassau, Niagara, Onondaga, Ontario, Orleans, Oswego, St. Laurence, Steuben, Wayne, Wyoming, and Yates Counties, N.Y.; New York, N.Y.; Newark, N.J.; and points in Essex County, N.J., under contract with Clark Bros. Co., Division of Dresser Industries, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Olean, N.Y., Buffalo, N.Y., or Washington, D.C.

No. MC 138020, filed September 5, 1972. Applicant: E. & S. TRUCKING, INC. 43 West Calhoon Street, Memphis, TN 38100. Applicant's representative: David D. Brunson, 419 Northwest Sixth Street, Oklahoma City, OK 73102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment of expeditious transportation), between Memphis, Tenn., on the one hand, and, on the other, points in Tennessee, Mississippi, and Arkansas, restricted to shipments having prior and/or subsequent movements in interstate commerce by railroads, air and barge transportation systems. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., Jackson, Miss., or Oklahoma City, Okla.

No. MC 138050 (Sub-No. 2), filed December 10, 1972. Applicant: STILWELL CANNING COMPANY, INC., Post Office Box 432, Stilwell, OK 74960. Applicant's representative: Wilburn Williamson, 280 National Foundation Life Building, 3535 Northwest 58th, Oklahoma City, OK 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in Indiana, Iowa, Michigan, and Wisconsin to Arkansas City and Wichita, Kans., and Enid, Okla. NOTE: If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, or Tulsa, Okla.

No. MC 138164 (Sub-No. 1), filed November 27, 1972. Applicant: CAN-AM MARINE TRANSIT LTD., Cote St. Charles Road, Post Office Box 145, Hudson Heights, PQ, Canada. Applicant's representative: J. P. Vermette, 250 Napoleon-Provost Street, Repentigny, PQ, Canada. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sailboats and ancillary equipment*, using specialized equipment (extra low bed trailers or trucks with specially designed racks), from ports of entry on the international boundary line between the United States and Canada in Minnesota, Michigan, New York, Vermont, and Maine, to points in Maine, Connecticut, Delaware, Illinois, Indiana, Kentucky, Massachusetts, Maryland, Michigan, Minnesota, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, Wisconsin, and the District of Columbia, restricted to traffic in foreign commerce originating in the Province of Quebec, Canada: NOTE: If a hearing is deemed necessary, applicant requests it be held at Montpelier, Vt., or Albany, N.Y.

No. MC 138192, filed October 27, 1972. Applicant: JAMISON MOTOR LINES, INC., 516 Warren Avenue, Dade City, FL 33525. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tobacco products, advertising and promotional material including redemption premiums, and merchandise used in the sale and distribution of tobacco products*, from points in Florida, to points in Arizona, California, Oregon, Washington, Montana, Idaho, Utah, New Mexico, Colorado, Wyoming, and Nevada; and (2) *cigar boxes and materials, supplies and equipment used in the manufacture of tobacco products*, from points in California, to points in Florida. NOTE: If a hearing is deemed necessary, applicant requests it be held at Tampa or Miami, Fla.

No. MC 138249, filed August 31, 1972. Applicant: R. C. TRANSFER, INC., 833 Northeast Second Avenue, Fort Lauderdale, FL. Applicant's representative: John P. Bond, 30 Giralda Avenue, Coral Gables, FL 33134. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New crated furniture*, between points in Dade, Broward, and Palm Beach Counties, Fla.; all shipments to have a prior or subsequent movement by motor or rail carrier. NOTE: If a hearing is deemed necessary, applicant requests it be held at Miami, Fla., or Fort Lauderdale, Fla.

No. MC 138253, filed December 1, 1972. Applicant: MONFORT TRANSPORTATION COMPANY, a corporation, Post Office Box G, Greeley, CO 80631. Applicant's representative: Edward T. Lyons, Jr., 420 Denver Club Building, Denver, CO 80202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products and meat byproducts*, and *articles* distributed by meat packinghouses as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766, and such other *commodities* as are usually dealt in, or used by restaurants and restaurant supply houses, from Denver and Greeley, Colo., to points in the United States (except Alaska and Hawaii); and (2) *materials, equipment, and supplies*, and such other *commodities* as are used, or dealt in by persons (as defined in section 203 (a) of the Interstate Commerce Act) engaged in the production and distribution of the commodities named in (1) above, from points in the United States (except Alaska and Hawaii), to Denver and Greeley, Colo., under a continuing contract or contracts with Monfort Packing Co.; Monfort Portion Foods, Inc.; Monfort Food Distributing Co.; Monfort International Sales Corp.; Monfort Feed Lots, Inc.; Monfort-Gilcrest, Inc., and Monfort of Colorado International, Inc. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

APPLICATION FOR FREIGHT FORWARDER

No. FF-330 (Sub-No. 1) (Amendment) (HOME-PACK TRANSPORT, INC., extension—domestic service), filed December 1, 1972, published in the FEDERAL REGISTER issue of December 21, 1972, and republished, in part, as amended this issue. Applicant: HOME-PACK TRANSPORT, INC., 57–48 49th Street, Maspeth, NY 11378. Applicant's representatives: Alan F. Wohlstetter, 1700 K Street NW., Washington, DC 20006 and Edward M. Alfano, 2 West 45th Street, New York, NY 10036. NOTE: The purpose of this partial republication is to include Mr. Alfano's name as applicant's representative in addition to Mr. Wohlstetter.

APPLICATION FOR BROKERAGE LICENSE

No. MC 130185, filed December 1, 1972. Applicant: CRAWFORD COUNTY AUTOMOBILE CLUB, 314 South Sandusky Avenue, Bucyrus, OH 44820. Applicant's representative: Gerald P. Wadkoski, 85 East Gay Street, Columbus, OH 43215. For a license (BMC–5) to engage in operations as a *broker* at Bucyrus, Ohio, in arranging for transportation in interstate or foreign commerce in the transportation of: *Passengers and their baggage*, in all expense round trip tours, in special and charter operations, beginning and ending at points in Crawford, Morrow, Marion, and Wyandot Counties, Ohio, and extending to points in the United States including Alaska and Hawaii.

APPLICATION IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 113908 (Sub-No. 248) (Correction), filed November 17, 1972, published in the FEDERAL REGISTER issue of December 21, 1972, and republished as corrected this issue. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, Springfield, MO 65804. Applicant's representative: B. B. Whitehead (same address as applicant). NOTE: The purpose of this republication is to show that this application has been assigned No. MC 113908 Sub-No. 248 in lieu of MC 113908 Sub 247 which was in error. The rest of the notice remains as previously published.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

FEDERAL HOME LOAN BANK BOARD

■

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Conversions of Insured Institutions From Mutual Into Stock Associations

V 38 - 7 JAN 11 73 XUM

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 546]

[No. 73-25]

FEDERAL MUTUAL SAVINGS AND LOAN ASSOCIATIONS

Mutual to Stock Conversions

JANUARY 3, 1973.

The third unnumbered paragraph of section 5(i) of the Home Owners' Loan Act of 1933, as amended (12 U.S.C. 1464 (i)), among other things, authorizes Federal mutual savings and loan associations to convert to the stock form upon an equitable basis and subject to the approval by regulations or otherwise of the Federal Home Loan Bank Board and the Federal Savings and Loan Insurance Corporation. This authority has been implemented by § 546.5 of the Board's rules and regulations for the Federal savings and loan system (12 CFR 546.5).

In a companion proposal made on the same date as this proposal, the Board proposes to replace its existing regulations dealing with mutual to stock conversions with a new Part 563b of its rules and regulations for insurance of accounts (12 CFR Part 563b). If that companion proposal were adopted it would not be necessary for the Board to continue to provide for conversions of Federal associations to the stock form under the rules and regulations for the Federal savings and loan system. An extended preamble to that companion proposal describes the contents of proposed Part 563b and the Board's reasons for making the proposal.

For the reasons specified above and in that companion proposal, the Board would amend Part 546 of the Federal regulations by revoking § 546.5 thereof.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue NW., Washington, DC 20552, by March 12, 1973, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

[No. 73-26]

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Conversions of Insured Institutions From Mutual Into Stock Associations

JANUARY 3, 1973.

The third unnumbered paragraph of section 5(i) of the Home Owners' Loan Act of 1933, as amended (12 U.S.C. 1464 (i)), among other things, authorizes Federal mutual savings and loan associations to convert to the stock form upon an equitable basis and subject to the approval by regulations or otherwise of the Federal Home Loan Bank Board and the Federal Savings and Loan Insurance Corporation (FSLIC). This authority has been implemented by § 546.5 of the rules and regulations for the Federal savings and loan system (12 CFR 546.5). The laws of somewhat less than half the States permit the chartering of both mutual and stock savings and loan associations and the conversion of mutual associations into stock associations. Under Title IV of the National Housing Act, as amended (12 U.S.C. 1724 et seq.) the Board, as operating head of the Federal Savings and Loan Insurance Corporation, has authority to regulate any such conversion involving an association whose accounts are insured by the Corporation. This authority has been implemented by § 563.22–1 of the rules and regulations for insurance of accounts (12 CFR 563.22–1), whose requirements are substantially similar to those of said § 546.5.

Since December 5, 1963, the Board has maintained a moratorium on conversions of all FSLIC-insured institutions, both federally chartered and State-chartered, from the mutual to the stock form. This moratorium was imposed primarily because of abuses arising from earlier conversions and because of the absence of sufficient information and knowledge on how conversions can occur in a safe and fair manner and without undue injury to the stability of the financial and managerial structure of the savings and loan industry.

During the time that such moratorium has been in effect, the Board has engaged three detailed studies of this difficult subject (the so-called Scott report, Hester report, and Friend report). In order to gain further information and experience, the Board in February 1972 approved a test conversion involving Citizens Federal Savings and Loan Association of San Francisco, Calif. In an additional effort to obtain information and experience in this area, the Board in July 1972 called for study applications. Five such applications were received. On the basis of the foregoing, the Board in September 1972 directed the preparation of proposed revised conversion regulations and decided that the moratorium is terminated effective upon the final adoption of revised conversion regulations.

The proposed regulations would revoke said § 563.22–1 and replace it by adding a new Part 563b of the rules and regulations for insurance of accounts. A companion proposal would revoke § 546.5 of the rules and regulations for the Federal savings and loan system. New Part 563b would be applicable to both federally chartered and State-chartered FSLIC-insured associations. Part 563b would govern only ordinary conversions in which the converted institution is insured by the FSLIC. It would not govern conversions involving mergers and holding companies and conversions in which the converted institution is not insured by the FSLIC. In addition, certain related amendments dealing with management contracts, stock options, and Federal charter amendments are not proposed at this time. Proposed regulations on related matters are being prepared and it is expected that they will be proposed at a later date during the comment period for this proposal.

Included in these proposals are three forms, form PA, form PS, and form FA, to be used in connection with conversions and dealing respectively with preliminary approval, proxy and information statements, and final approval. Because of their integral and significant relationship to the operation of Part 563b, they are published for comment in the same manner as the proposed regulations.

The general contents of proposed Part 563b may be summarized as follows: Section 563b.1 deals with the scope of the proposed regulations and § 563b.2 contains necessary definitions. Section 563b.3 sets forth the general sequence of processing applications for conversion and provides for numerous administrative requirements such as number of copies, place of filing, format for filings, amendments, and incorporation by reference. Section 563b.3 is modeled on regulation C of the Securities and Exchange Commission (SEC) (17 CFR 230.400–494) and is designed in part to insure that the filings under Part 563b can be used by insured institutions without substantial additional expense to meet the formal filing requirements of the SEC. Section 563b.4 deals with notice of filing and confidentiality of filings. Section 563b.4 also deals with the difficult question of what statements may be made by the insured institution prior to preliminary approval of the plan of conversion. The Corporation is concerned that improper statements made prior to such approval may subject the association to serious liability.

Section 563b.5 is one of the most significant sections of proposed Part 563b. Primarily, it deals with prohibited and optional provisions in plans of conversion and specifies a formula for determining the eligibility of accountholders to participate in the conversion distribution and for calculating the amount of the distribution to which eligible accountholders are entitled. In general, eligibility would be determined as of a fixed distribution record date and such date would be shifted annually an automatically to December 31 of each succeeding year. In general, the formula for determining the amount of distribution is a system of forward time-weighting which operates to discount more recent deposits. It is the present conclusion of the Board that shifts of funds on a destabilizing scale may occur among insured institutions unless some system of time-weighting or time-averaging is employed uniformly throughout the industry. It is also the present conclusion of the Board that weighting or averaging on the basis of past deposits over any extended period of time is probably not feasible. It appears that it would be too expensive for insured institutions to reconstruct their past deposit records far enough backwards in time for weighting for averaging to be sufficiently effective in discouraging shifts of funds.

Section 563b.6 deals with proxies, solicitations of proxies, and the use of proxy and information statements prepared in accordance with form PS. This section and form PS are based on regulation 14A, schedule 14A and form 10 of the Securities and Exchange Commission (17 CFR 240.14a–1 to 14a–12, 240.14a–101, and 239.7 respectively). It is the intent of the Board that this section and form PS should operate to give eligible accountholders and association members all the information they may need to vote intelligently on the plan of conversion and to make informed investment decisions with respect to the securities distributed incident to conversion. It is also the intent of the Board that § 563b.6 and form PS should operate to produce a document which insured institutions may use without substantial additional expense to meet the registration requirements of section 12(g) of the Securities Exchange Act of 1934.

Section 563b.7 deals with form and content of financial statements to be filed under item 17 of form PS. This section is based on regulation S–X of the SEC (17 CFR Part 210). It should be clearly noted that § 563b.7, unlike other parts of this proposal, is designed to be applicable to conversions involving mergers and holding companies, as well as ordinary conversions. Therefore, some parts of § 563b.7 will not be relevant to ordinary conversions. It should also be noted that some parts of item 17 will not be relevant to most insured institutions since under present circumstances their subsidiaries considered as a whole do not constitute a significant subsidiary.

Section 563b.8 concerns requirements for voting by members and notice of the meeting of members to consider the plan of conversion. Section 563b.9 deals with pricing and distribution of securities incident to conversion. A primary requirement of this section is that the prices be arrived at only after thorough and independent appraisal. Section 563b.10 deals with certain reports to be filed following conversion.

In order to carry out these proposals, the Board would amend Subchapter D of Chapter V of Title 12 of the Code of Federal Regulations substantially as set forth below:

PART 563—OPERATIONS

§ 563.22–1 [Revoked]

1. It is proposed to revoke § 563.22–1.

PART 563b—CONVERSIONS

2. It is proposed to add a new Part 563b to read as follows:

Sec.
563b.1 Scope of part.
563b.2 General definitions.
563b.3 General procedures.
563b.4 Notice of filing, public statements, and confidentiality.
563b.5 General principles for conversions.
563b.6 Solicitation of proxies and use of proxy and information form.
563b.7 Form and content of financial statements.
563b.8 Vote by members; application to the corporation for final approval.
563b.9 Distribution of capital stock.
563b.10 Post-conversion reports.

Authority: Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730; Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071.

§ 563b.1 Scope of part.

This part shall govern conversions from a federally-chartered mutual insured institution to a State-chartered stock insured institution and conversions from a State-chartered mutual insured institution to a State-chartered stock insured institution. Except as provided in this part, a Federal or a State-chartered mutual insured institution may not convert to a stock institution. Any provision in a form prescribed under this part and covering the same subject matter as any provision in this part shall be controlling.

§ 563b.2 General definitions.

(a) As used in this part and in the forms under this part, the following definitions apply, unless the context otherwise requires:

(1) *Affiliate.* An "affiliate" of, or a person "affiliated" with, a specified person, is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, the person specified.

(2) *Amount.* The term "amount," when used in regard to securities, means the principal amount if relating to evidences of indebtedness, the number of shares if relating to shares, and the number of units if relating to any other kind of security.

(3) *Applicant.* An "applicant" is an insured institution which has applied to convert pursuant to this part.

(4) *Associate.* The term "associate," when used to indicate a relationship with any person, means (i) any corporation or organization (other than the applicant or a majority-owned subsidiary of the applicant) of which such person is an officer or partner or is, directly or indirectly, the beneficial owner of 10 percent or more of any class of equity securities, (ii) any trust or other estate in which such person has a substantial beneficial interest or as to which such person serves as trustee or in a similar fiduciary capacity, and (iii) any relative or spouse of such person, or any relative of such spouse, who has the same home as such person or who is a director or officer of the applicant or any of its parents or subsidiaries.

(5) *Association members.* The term "association members" refers to persons who, pursuant to the charter or bylaws of the applicant, are eligible to vote at the applicant's meeting at which conversion will be voted upon.

(6) *Board.* The term "Board" refers to the Federal Home Loan Bank Board.

(7) *Capital stock.* The term "capital stock" includes permanent stock, guaranty stock, permanent reserve stock, or any similar certificate evidencing nonwithdrawable capital.

(8) *Charter.* The term "charter" includes articles of incorporation, articles of association, or any similar instrument, as amended, effecting (either with or without filing with any governmental agency) the organization or creation of an incorporated or unincorporated person.

(9) *Control.* The term "control" (including the terms "controlling," "controlled by," and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

(10) *Corporation.* The term "Corporation" refers to the Federal Savings and Loan Insurance Corporation.

(11) *Dealer.* The term "dealer" means any person who engages either for all or part of his time, directly or indirectly, as agent, broker, or principal, in the business of offering, buying, selling, or otherwise dealing or trading in securities issued by another person.

(12) *Director.* The term "director" means any director of a corporation or any person performing similar functions with respect to any organization whether incorporated or unincorporated.

(13) *Eligible account holders.* The term "eligible account holders" refers to those persons who are eligible to receive a pro rata distribution of the ownership interest in the applicant upon its conversion pursuant to this part.

(14) *Employee.* The term "employee" does not include a director or officer.

V 38 I 7 JAN 11 73 XUM

(15) *Equity security.* The term "equity security" means any stock or similar security; or any security convertible, with or without consideration, into such a security, or carrying any warrant or right to subscribe to or purchase such security; or any such warrant or right.

(16) *Insured institution.* The term "insured institution" has the same meaning as in § 561.1 of this subchapter.

(17) *Material.* The term "material," when used to qualify a requirement for the furnishing of information as to any subject, limits the information required to those matters as to which an average prudent investor ought reasonably to be informed before purchasing an equity security of the applicant, or matters as to which an average prudent association member ought reasonably to be informed in voting upon the plan of conversion of the applicant, or matters as to which an average prudent eligible account holder ought reasonably to be informed in determining whether to purchase, sell, or retain the securities being issued incident to the plan of conversion of the applicant.

(18) *Member.* The term "member" means any person qualifying as a member of an insured institution pursuant to its charter or bylaws.

(19) *Offer.* The term "offer," "offer to sell," or "offer of sale" shall include every attempt or offer to dispose of, or solicitation of an offer to buy, a security or interest in a security, for value. These terms shall not include preliminary negotiations or agreements between an applicant and any underwriter or among underwriters who are or are to be in privity of contract with an applicant.

(20) *Officer.* The term "officer" means the chairman of the board, president, vice-president, secretary, treasurer or principal financial officer, comptroller or principal accounting officer, and any other person performing similar functions with respect to any organization whether incorporated or unincorporated.

(21) *Person.* The term "person" means an individual, a corporation, a partnership, an association, a joint-stock company, a trust, any unincorporated organization, or a government or political subdivision thereof.

(22) *Proxy.* The term "proxy" includes every form of authorization by which a person is, or may be deemed to be, designated to act for an association member in the exercise of his voting rights in the affairs of an insured institution. Such an authorization may take the form of failure to dissent or object.

(23) *Purchase.* The terms "purchase" and "buy" include every contract to purchase, buy, or otherwise acquire a security or interest in a security for value.

(24) *Sale.* The terms "sale" and "sell" include every contract to sell or otherwise dispose of a security or interest in a security for value.

(25) *Security.* The term "security" includes any note, stock, treasury stock, bond, debenture, transferable share, investment contract, voting-trust certificate, passbook savings account, savings account certificate of deposit, or in general, any instrument commonly known as a "security"; or any certificate of interest or participation in, temporary or interim certificate for, receipt for, or warrant or right to subscribe to or purchase, any of the foregoing.

(26) *Solicitation; solicit.* The terms "solicitation" and "solicit" refer to (i) any request for a proxy whether or not accompanied by or included in a form of proxy; (ii) any request to execute, not execute, or revoke a proxy; or (iii) the furnishing of a form of proxy or other communication to association members under circumstances reasonably calculated to result in the procurement, withholding, or revocation of a proxy. The terms do not apply, however, to the furnishing of a form of proxy to an association member upon the unsolicited request of such association member, the performance of acts required by § 563b.6(f), or to the performance by any person of ministerial acts on behalf of a person soliciting a proxy.

(27) *Subsidiary.* A "subsidiary" of a specified person is an affiliate controlled by such person, directly or indirectly through one or more intermediaries. (See also "majority-owned subsidiary," "significant subsidiary" and "totally-held subsidiary" in § 563b.7.)

(28) *Supervisory agent.* The term "Supervisory Agent" means (i) the president of the bank of the Federal home loan bank district in which the applicant has its principal office, or (ii) any other person who is specifically designated as a supervisory agent by the Corporation to act in its behalf in the administration of this part.

(29) *Underwriter.* The term "underwriter" means any person who has purchased from an applicant with a view to, or offers or sells for an applicant in connection with, the distribution of any security, or participates or has a direct or indirect participation in the direct or indirect underwriting of any such undertaking; but such term shall not include a person whose interest is limited to a commission from an underwriter or dealer not in excess of the usual and customary distributors' or sellers' commission.

§ 563b.3 General procedures.

(a) (1) *Preliminary approval.* An applicant that desires to convert in accordance with this part shall file an application for preliminary approval in 10 copies on forms prescribed by the Corporation. Copies of such forms may be obtained from any Federal home loan bank or the Office of the Secretary of the Board.

(2) *Approval of members.* The plan of conversion shall not be submitted to a vote of the members in accordance with § 563b.8, until the Corporation has given preliminary approval of the plan of conversion.

(3) *Final approval.* Upon approval by association members of a plan of conversion, an applicant may file an application for final approval in accordance with § 563b.8 in 10 copies on forms prescribed by the Corporation. Copies of such forms may be obtained from any Federal home loan bank or the Office of the Secretary of the Board.

(b) *Return of improperly executed or materially incomplete filings.* Any application for preliminary approval that is improperly executed, or that does not contain copies of a (1) plan of conversion, (2) preliminary proxy and information statement with signed financial statements and (3) form of proxy, shall not be accepted for filing and shall be returned to the applicant. Any application for preliminary approval containing a materially incomplete plan of conversion, proxy and information statement or form of proxy may be returned by the Corporation to the applicant.

(c) *Number of copies; place of filing; binding; signatures.* (1) Whenever a requirement is made under this part for the filing of four copies of any document with the Corporation, one copy shall be filed with the Supervisory Agent and three copies with the Office of the Secretary of the Board. Whenever a requirement is made under this part for the filing of 10 or more copies of any document with the Corporation, three copies shall be filed with the Supervisory Agent and the remaining copies with such Office of the Secretary of the Board. Whenever a requirement is made under this part that a document to be filed be manually signed, one manually signed copy shall be filed with the Supervisory Agent and another with such Office of the Secretary. Each of the copies filed under this part shall be bound, in one or more parts, without stiff covers. The binding shall be made on the side or stitching margin in such manner as to leave the reading matter legible.

(2) At least two copies of every application and every amendment thereto filed shall be manually signed by (i) a duly authorized representative of the applicant on its behalf, (ii) its principal executive officer, (iii) its principal financial officer, (iv) its principal accounting officer, and (v) at least two-thirds of its board of directors or persons performing similar functions.

(3) If any name is signed to an application or any amendment thereto pursuant to a power of attorney, four copies of such power of attorney, including two manually signed, shall be filed with the application.

(4) (i) Except as provided in paragraph (c) (4) (ii) of this section, the filing of any application or amendment thereto under this part shall constitute a representation of the applicant by its duly authorized representative, the applicant's principal executive officer, the applicant's principal financial officer, and the applicant's principal accounting officer, and each member of the applicant's board of directors (whether or not such director has signed the application or any amendment thereto) severally that (A) he has read such application or amendment, (B) in the opinion of each such person, he has made such examination and investigation as is necessary to enable him to express an informed opinion that such application or amendment complies to the best of his knowledge and belief with the applicable requirements of this part and forms prescribed thereunder, and (C) each such person holds such informed opinion.

(ii) The representations specified in paragraph (c) (4) (i) of this section shall not be deemed to have been made by any director of the applicant who did not sign the application or any amendment thereto, if, and only to the extent that, such director files with the Corporation within 10 business days after the filing of such application or amendment a statement describing those portions of such filing as to which he does not so represent.

(d) *Requirements as to paper and printing.* (1) Applications shall be filed on good quality, unglazed, white paper, approximately 8½ by 13 or 8½ by 11 inches in size, insofar as practicable. However, tables, charts, maps, and financial statements may be on larger paper if folded to such sizes, and the plan of conversion and proxy and information statement may be on smaller paper if the applicant so desires.

(2) Applications and, insofar as practicable, all papers and documents filed as a part thereof, shall be printed, lithographed, mimeographed, or typewritten. However, applications or any portion thereof may be prepared by any similar process which, in the opinion of the Corporation, produces copies suitable for a permanent record. Irrespective of the process used, all copies of any such material shall be clear, easily readable and suitable for repeated photocopying. Debits in credit categories and credits in debit categories shall be designated so as to be clearly distinguishable as such on photocopies.

(e) *Method of preparation.* Every application shall furnish information in item-and-answer form in response to the items of the appropriate form, and shall include the captions of the form, but omit the text of all items and instructions. Every proxy and information statement shall present information as provided in paragraph (k) of this section in response to the items of the appropriate form in lieu of furnishing the information in item-and-answer form, and shall omit the captions and text of all items and instructions. Every preliminary application shall include a cross-reference sheet showing the location in the proxy and information statement of the response to the items of the appropriate form. If any such item is inapplicable, or the answer thereto is in the negative and is omitted, a statement to that effect shall be made in the cross-reference sheet.

(f) *Interpretation of requirements.* (1) Unless the context indicates otherwise, the forms require information only as to the applicant.

(2) Whenever words relate to the future, they have reference solely to present intention.

(3) Any words indicating the holder of a position or office include persons, by whatever titles designated, whose duties are those ordinarily performed by holders of such positions or offices.

(g) *Additional information.* In addition to the information expressly required to be included in any application under this part, there shall be added such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

(h) *Information unknown or not reasonably available.* Information required need be given only insofar as it is known or reasonably available to the applicant. If any required information is unknown and not reasonably available to the applicant, either because the obtaining thereof would involve unreasonable effort or expense, or because it rests peculiarly within the knowledge of another person not affiliated with the applicant, the information may be omitted, subject to the following conditions:

(1) The applicant shall give such information on the subject as it possesses or can acquire without unreasonable effort or expense, together with the sources thereof.

(2) The applicant shall include a statement either showing that unreasonable effort or expense would be involved or indicating the absence of any affiliation with the person within whose knowledge the information rests and stating the result of a request made to such person for the information.

(i) *Incorporation of certain information by reference.* (1) Where an item in an application calls for information not required to be included in the proxy and information statement, matter contained in any part of the application, including exhibits, may be incorporated by reference in answer, or partial answer, to such item. No information may be incorporated by reference in a proxy and information statement, unless the document containing such information is attached thereto or is summarized or outlined as provided in paragraph (j) of this section.

(2) Material incorporated by reference shall be clearly identified in the reference. An express statement that the specified matter is incorporated by reference shall be made at the particular place in the application where the information is required. Matter shall not be incorporated by reference in any case where such incorporation would render the statement incomplete, unclear or confusing.

(j) *Summaries or outlines of documents.* Where a summary or outline of the provisions of any document is required, only a brief statement shall be made, in succinct and condensed form, as to the most important provisions of the document. In addition to such statement, the summary or outline may incorporate by reference particular items, sections or paragraphs of any exhibit and may be qualified in its entirety by such reference.

(k) *Legibility of materials.* The body of all printed plans of conversion and proxy and information statements, including all notes to financial statements and other tabular data included therein, shall be in roman type at least as large and as legible as 10-point modern type. However, to the extent necessary for convenient presentation, financial statements and other tabular data, including tabular data in notes, may be in roman type at least as large and as legible as 8-point modern type. All such type shall be leaded at least 2 points.

(l) *Presentation of information.* (1) The information required in a proxy and information statement need not follow the order of the items or other requirements in the appropriate form. Such information shall not, however, be set forth in such fashion as to obscure any of the required information or any information necessary to keep the required information from being incomplete or misleading. Where an item requires information to be given in tabular form it shall be given in substantially the tabular form specified in the item.

(2) All information contained in a plan of conversion and proxy and information statements shall be set forth under appropriate captions or headings reasonably indicative of the principal subject matter set forth thereunder. Except as to financial statements and other tabular data, all information set forth in any form under this part shall be divided into reasonably short paragraphs or sections.

(3) Every proxy and information statement shall include in the forepart thereof a reasonably detailed table of contents showing the subject matter of its various sections or subdivisions and the page number on which each such section or subdivision begins.

(4) All information required to be included in a proxy and information statement shall be clearly understandable without the necessity of referring to the particular form or to the regulations under this part. Except as to financial statements and information required in tabular form, the information set forth in a proxy and information statement may be expressed in condensed or summarized form. Financial statements are to be set forth in comparative form, and shall include the notes thereto and the accountants' certificate or certificates.

(m) *Application of amendments to regulations and forms.* (1) The form and contents of any filing under this part made after _____, 1973 (date of final adoption of this part) need conform only to the applicable regulations and forms in effect, and contain the information including financial statements specified therein, at the time the filing is made, notwithstanding subsequent amendments to such regulations, except as otherwise provided in any such amendment or in subparagraph (2) of this paragraph (m).

(2) Whenever the Corporation prohibits by order or otherwise the use of any filing under this part, the form and contents of any filing used thereafter shall conform to the requirements of

V 38 - 7 JAN 11 73 XUM

such order and the applicable regulations and forms in effect at the time such prohibition ceases to be effective.

(n) *Consents of experts.* (1) If any accountant, attorney, investment banker, appraiser, or other persons whose professions give authority to a statement made in any application under this part is named as having prepared, reviewed, passed upon, or certified any part thereof, or any report or valuation for use in connection therewith, the written consent of such person shall be filed with the application. If any portion of a report of an expert is quoted or summarized as such in any filing under this part, the written consent of the expert shall expressly state that the expert consents to such quotation or summarization.

(2) All written consents filed pursuant to this paragraph (n) shall be dated and signed manually. A list of such consents shall be filed with the application. Where the consent of the expert is contained in his report, a reference shall be made in the list to the report containing such consent.

(o) *Consents of persons about to become Directors.* If any person who has not signed an application is named in the proxy and information statement as about to become a director, the written consent of such person shall be filed with the appropriate form.

(p) *Date of filing.* The date on which any documents are actually received by the Office of the Secretary of the Board shall be the date of filing thereof.

(q) *Amendments.* All amendments to any application under this part shall be filed under cover of an appropriate facing sheet, shall be numbered consecutively in the order in which filed, and shall conform to all pertinent regulations applicable to the type of application which they amend.

(r) *Pre-filing conferences with applicants.* (1) The staff of the Board and the Supervisory Agent will be available for conferences with prospective applicants or their representatives in advance of filing an application to convert. These conferences may be held for the purpose of discussing generally the problems confronting an applicant in effecting conversion or to resolve specific problems of an unusual nature.

(2) Pre-filing review of an application may be refused by the staff of the Board and the Supervisory Agent if such review would delay the examination and processing of material which has already been filed or would favor certain applicants at the expense of others. In any conference under this paragraph (r), the staff of the Board and the Supervisory Agent will not undertake to prepare material for filing but will limit itself to indicating the kind of information required, leaving the actual drafting to the applicant and its representatives.

§ 563b.4 Notice of filing, public statements, and confidentiality.

(a) *Advertising of conversions.* No insured institution, or any director, officer or employee thereof, shall advertise, directly or indirectly, the benefits of conversion generally or of any plan of conversion, whether its own, or another institution's.

(b) *Information prior to preliminary approval of plan of conversion.* (1) An insured institution which is considering converting pursuant to this part and its directors, officers, and employees shall maintain such consideration in confidence to the extent consistent with the need to prepare information for filing an application for preliminary approval. If a public statement should become essential as a result of rumors prior to the adoption of a plan of conversion by the applicant's board of directors, such statement shall only be made with the prior approval of the General Counsel of the Corporation.

(2) Promptly after the adoption of a plan of conversion by its board of directors, the insured institution shall (i) notify its members of such action by issuing a press release and/or mailing a letter to each of its members and (ii) have copies of the adopted plan of conversion available for inspection by its members at its home office and each branch office. Copies of the proposed press release and letter are not required to be filed with the Corporation, but may be submitted for comment to the Office of General Counsel. Copies of the definitive press release and letter shall be filed with the Corporation as part of the application for preliminary approval.

(3) The press release and letter, unless otherwise authorized by the Corporation, shall only:

(i) State that the board of directors has adopted a proposed plan to convert the institution from a Federal (or State, as the case may be) mutual association to a State-chartered stock association;

(ii) State that the proposed plan of conversion must be approved by at least two-thirds of the votes eligible to be cast by association members at a meeting at which the plan will be submitted for their approval;

(iii) State that existing proxies held by the institution will not be voted with respect to the conversion, and that new proxies will be solicited for voting on the proposed plan of conversion;

(iv) State that a proxy and information statement setting forth more detailed information with respect to the proposed plan of conversion will be sent to association members prior to the meeting of members;

(v) State that the proposed plan of conversion must be approved by the Federal Home Loan Bank Board and by the appropriate State regulatory authority or authorities (naming such an authority or authorities) before such plan can become effective;

(vi) State that the proposed plan of conversion is also contingent upon obtaining favorable tax rulings from the Internal Revenue Service or an appropriate tax opinion;

(vii) State that there is no assurance that the approval of the Federal Home Loan Bank Board or the approval of the appropriate State authority or authorities will be obtained, and also no assurance that the favorable tax rulings or tax opinion will be received;

(viii) State the proposed record date for determining the eligible account holders entitled to receive the distribution;

(ix) Describe briefly the proposed distribution terms under the proposed plan of conversion;

(x) State that the proposed distribution will be in satisfaction of the eligible account holders' ownership interest in the institution in its mutual form and briefly describe the nature of such ownership interest;

(xi) State the title, par value (if any) and approximate amount of securities to be distributed under the proposed plan of conversion;

(xii) Describe briefly the extent to which directors, officers and employees will participate in the distribution of securities incident to the conversion;

(xiii) State that savings account holders will find their deposits in the converted institution identical as to dollar amount, rate of return and general terms, and that their accounts will continue to be insured identically by the Federal Savings and Loan Insurance Corporation;

(xiv) State that the institution will also continue to be a member of the Federal Home Loan Bank System;

(xv) State that borrowers' loans will be unaffected by conversion, and that the amount, rate, maturity, security and other conditions will remain contractually fixed as they existed prior to conversion;

(xvi) State that the normal business of the institution in accepting savings and making loans will continue without interruption; that the converted institution will continue after conversion to conduct its present services to savings account holders and borowers under current policies to be carried on in existing offices and by the present management and staff; and that an election of directors for the converted institution will occur at its first annual meeting after the adoption of the proposed plan of conversion (unless State law requires the election of directors at the meeting at which conversion is voted, in which case so state);

(xvii) State that the proposed plan of conversion, including the proposed distribution terms, may be substantively amended by the board of directors as a result of comments from the regulatory authorities or otherwise prior to the meeting, and that the proposed plan may also be terminated by the board of directors prior to such meeting; and

(xviii) State that questions of members will be answered in the proxy material to be sent after the regulatory approvals of the proposed plan of conversion have been obtained and that any questions at this time may be answered by telephoning or writing to the institution.

(4) Such press release and letter shall not in any manner solicit proxies, include financial statements, or describe the benefits of conversion or the value of the capital stock of the institution upon conversion. In replying to inquiries, the insured institution should limit its answers to the matters listed in subparagraph (3) of this paragraph (b).

(c) *Notice of filing.* (1) Promptly after filing an application for preliminary approval, the applicant shall publish a notice of such filing in a newspaper printed in the English language and having general circulation in each community in which an office of the applicant is located, as follows:

NOTICE OF FILING OF APPLICATION FOR PRELIMINARY APPROVAL TO CONVERT TO A STOCK SAVINGS AND LOAN ASSOCIATION

Notice is hereby given that, pursuant to Part 563b of the rules and regulations for Insurance of Accounts_____
(fill in name of applicant)
has filed an application with the Federal Savings and Loan Insurance Corporation for preliminary approval to convert to the stock form of organization. Copies of the application have been delivered to the Office of the Secretary of said Corporation, 101 Indiana Avenue NW., Washington, DC 20552 and to the Office of the Supervisory Agent of said Corporation at the Federal Home Loan Bank of _____, _____
(street address) (city)
_____, _____
(State) (Zip Code)

Written comments from any member of the applicant will be considered by the Corporation if filed within 10 business days after the date of this publication. Three copies of such comments should be sent to the aforementioned Office of the Secretary with one copy to said Office of the Supervisory Agent. The proposed plan of conversion is available for inspection by any savings account holder at said Office of the Secretary and at said Office of the Supervisory Agent. A copy of the plan may also be inspected at the home office and any branch office of the applicant.

If a significant number of the applicant's members speak a language other than English and a newspaper in that language is published in the area served by the applicant, an appropriate translation of such notice shall also be published in such newspaper.

(2) Promptly after publication of the notice or notices prescribed in subparagraph (1) of this paragraph (c), the applicant shall file four copies thereof with the Corporation accompanied by an affidavit of publication from each publisher.

(d) *Confidential information.* Should the applicant desire to submit any information it deems to be of a confidential nature regarding the answer to any item or a part of any exhibit included in any application under this part, such information pertaining to such item or exhibit shall be separately bound and labeled "confidential." Only general reference thereto need be made in that portion of the application which the applicant deems not to be confidential. Applications under this part shall be made available for inspection by the public, except for portions which are bound and labeled "confidential" and which the Corporation determines to withhold from public availability under 5 U.S.C. 552 and Part 505 of this chapter. The Corporation will withhold the public availability of preliminary copies of proxy soliciting materials without the necessity of their being bound and labeled as "confidential." The applicant will be advised of any decision by the Corporation to make public information designated as "confidential" by the applicant. Even though sections of the application are considered "confidential" as far as public inspection thereof is concerned, to the extent it deems necessary the Corporation may comment on such confidential submissions in any public statement in connection with its decision on the application without prior notice to the applicant.

§ 563b.5 General principles for conversions.

(a) *Prohibited provisions in plans.* No plan shall be approved which:

(1) Would result in any reduction of the Federal insurance reserve or would cause the applicant to fail to meet any net worth requirement of § 563.13 of this subchapter;

(2) Would result in a taxable reorganization of the applicant under the Internal Revenue Code of 1954, as amended, or in the distribution of any securities under the plan of conversion being a taxable event to eligible accountholders;

(3) Does not provide for the continuance of the present board of directors of the converting institution until the first annual meeting of the converted institution under its new charter and bylaws, unless Sate law requires an election of directors at the meeting of the members to consider the plan of conversion;

(4) Would result in the converted institution not being insured by the Corporation;

(5) Does not provide that each accountholder of the converting institution shall receive, without any payment, a withdrawable account or accounts in the converted institution equal in withdrawable amount to such accountholder's withdrawable account or accounts in the converting institution;

(6) Does not provide that each eligible accountholder's entitlement under the plan respecting his ownership interest in the association shall be pro rata to his interest in the association calculated in accordance with paragraphs (c), (d), and (e) of this section;

(7) Would constitute a preferential distribution to management on the basis of past services;

(8) Would result in a charge to eligible accountholders other than normal underwriting discount, commissions, or fees, a warrant subscription price, or the cost of purchasing the necessary number of shares to round up to a minimum number of shares;

(9) Does not provide a mechanism whereby each eligible accountholder may realize in cash the market value of the securities to be distributed if he so desires;

(10) Would result in the issuance of fractional shares;

(11) Provides for the distribution of capital stock, rather than cash, to eligible accountholders entitled to less than 25 shares, unless such accountholders elect under the plan of conversion to purchase a sufficient number of shares to round up to at least 25 shares;

(12) Would require eligible accountholders to purchase shares of capital stock to round up to more than 100 shares in order to receive shares in the distribution, or to pay more than $1,000 to purchase shares in order to round up to the minimum number of shares to be distributed;

(13) Provides for the distribution to eligible accountholders of a number of shares of capital stock, the expected initial price of which would be less than $5 per share or more than $40 per share (based on a reasonable price earnings multiplier applied to prior earnings of the applicant);

(14) Does not provide for the initial price of the capital stock to be based on an independent valuation of such stock at the expense of the applicant;

(15) Does not contain, if the applicant proposes to distribute subscription rights or warrants to eligible accountholders, adequate provision to insure that such holders who do not exercise or transfer such rights or warrants will receive fair value for their pro rata interest in the applicant, and that such value is supported by an independent valuation at the expense of the applicant;

(16) Provides that under the charter of the converted association its savings accountholders and borrowing members will have any vote unless State law requires or in such case more than the minimum number of votes required;

(17) Does not provide that under the charter of the converted association the applicant will solicit the proxies of the savings accountholders and borrowing members who have voting rights, if any, in the same manner as the applicant solicits the proxies of its capital stockholders; or

(18) Contains any other provision that the Corporation finds to be detrimental to the applicant, its accountholders and management, other insured institutions, or the public generally.

(b) *Optional provisions.* Unless State law otherwise requires, a plan of conversion may provide, among other things, for:

(1) Issuance to eligible accountholders without payment on a pro rata basis calculated in accordance with paragraphs (c), (d), and (e) of this section of subscription warrants or rights to purchase the capital stock representing the ownership of such holders;

(2) Issuance without payment of subscription warrants or rights to borrowing members, eligible accountholders, association members, and directors, officers and employees of the applicant to purchase additional capital stock to be sold incident to the plan of conversion: *Provided,* That the exercise price of such

V 38 - 7 JAN 11 73 XUM

warrants or rights shall not be less than the price of the capital stock representing the ownership interest in the applicant, and the exercise period shall not exceed 90 days from the date of final approval of the plan of conversion;

(3) Sale of additional capital stock incident to the plan of conversion: *Provided*, That the purchase price upon the sale of such additional capital stock shall not be less than the price of the capital stock representing the ownership interest of eligible accountholders;

(4) Internal matching of purchase and sell orders from eligible accountholders with respect to the securities representing their ownership interest and any additional capital stock;

(5) The mandatory payment of cash to eligible accountholders who do not return order forms or similar instruments within the time limits specified in the plan of conversion, and who are entitled to 25 or more shares and less than 100 shares in the distribution; and

(6) Authorization of management employment contracts and adoption of a stock option or stock purchase plan at the meeting at which the plan of conversion is voted upon and to take effect after conversion.

(c) *Distribution record date.* The distribution record date for eligible accountholders means, for plans adopted in any given year, (1) December 31 of the previous calendar year, or (2) such earlier date as the applicant may select with the approval of the Corporation or State law may require. No person shall be an eligible accountholder unless such person had an account in the applicant on the distribution record date. An applicant's plan of conversion may employ more than one distribution record date, a distribution record period, or distribution record periods, but only with the approval of the Corporation and only if none of such dates and no part of such period or periods is later than the date specified in paragraph (c)(1) of this section.

(d) *Distribution of securities.* (1) For the purposes of this paragraph—

(i) The term "adopted" means adopted by the applicant's board of directors;

(ii) The term "average" refers to the result reached by dividing a sum by the number of its addends;

(iii) The phrase "on the basis of qualifying deposits" means, with respect to an eligible accountholder having an account on a fixed date, the amount of securities obtained by multiplying the appropriate percentage of the total securities to be distributed by the ratio of the amount of his qualifying deposits on such date to the total amount of qualifying deposits on such date. The phrase "on the basis of the quarterly average of qualifying deposits" means, with respect to an eligible accountholder having an account open during all or part of a period, the amount of securities obtained by multiplying the appropriate percentage of the total securities to be distributed by the ratio of the amount of the quarterly average of his qualifying deposits during such period to the total amount of the quarterly average of all qualifying deposits during such period;

(iv) The term "predecessor account" means (A) a given account which is not open on the distribution record date and from which funds were transferred to an account open on the distribution record date at the time of or prior to the closing of such given account, and (B) a given account which is not open on the record date and from which funds were transferred to a predecessor account under paragraph (d)(1)(iv)(A) of this section at the time of or prior to the closing of such given account;

(v) The term "qualifying deposits" means deposits in accounts open on the distribution record date plus deposits in predecessor accounts; and

(vi) Whenever a fixed date is used, the phrase "or earlier" should be understood, in accordance with paragraph (d)(2) of the section.

(2) The amount of securities to which each eligible accountholder is entitled shall be calculated in accordance with this paragraph (d), whose operation may be summarized in the following table:

[In percent]

Plans of conversion adopted during year	July 13, 1972	Dec. 31, 1972	Average 1973	1974	1975	1976	1977
1972	100						
1973	90	10					
1974	75	15	10				
1975	0	75	15	10			
1976	0	55	20	15	10		
1977	0	30	25	20	15	10	
1978	0	0	30	25	20	15	10

(3) For plans adopted during 1972, 100 percent of the securities will be distributed to eligible accountholders on the basis of their qualifying deposits on July 13, 1972.

(4) For plans adopted during 1973, the distribution of securities will be made to persons having accounts on December 31, 1972. Ninety percent of the securities will be distributed on the basis of their qualifying deposits on July 13, 1972; and 10 percent on the basis of their qualifying deposits on December 31, 1972.

(5) For plans adopted during 1974, the distribution of securities will be made to persons having accounts on December 31, 1973. Seventy-five percent of the securities will be distributed on the basis of their qualifying deposits on July 13, 1972; 15 percent on the basis of their qualifying deposits on December 31, 1972; and 10 percent on the basis of the quarterly average of their qualifying deposits during 1973.

(6) For plans adopted during 1975, the distribution of securities will be made to persons having accounts on December 31, 1974. Seventy-five percent of the securities will be distributed on the basis of their qualifying deposits on December 31, 1972; 15 percent on the basis of the quarterly average of their qualifying deposits during 1973; and 10 percent on the basis of the quarterly average of their qualifying deposits during 1974.

(7) For plans adopted during 1976, the distribution of securities will be made to persons having accounts on December 31, 1975. Fifty-five percent of the securities wil be distributed on the basis of their qualifying deposits on December 31, 1972; 20 percent on the basis of the quarterly average of their qualifying deposits during 1973; 15 percent on the basis of the quarterly average of their qualifying deposits during 1974; and 10 percent on the basis of the quarterly average of their qualifying deposits during 1975.

(8) For plans adopted during 1977, the distribution of securities will be made to persons having accounts on December 31, 1976. Thirty percent of the securities will be distributed on the basis of their qualifying deposits on December 31, 1972; 25 percent on the basis of the quarterly average of their qualifying deposits during 1973; 20 percent on the basis of the quarterly average of their qualifying deposits during 1974; 15 percent on the basis of the quarterly average of their qualifying deposits during 1975; and 10 percent on the basis of the quarterly average of their qualifying deposits during 1976.

(9) For plans of conversion adopted during any given year following 1977, the distribution of securities will be made, in accordance with paragraph (c) of this section, to persons having accounts on the December 31 of the year preceding such given year. Thirty percent of the securities will be distributed on the basis of the quarterly average of their qualifying deposits during the fifth calendar year preceding such given year; 25 percent on the basis of the quarterly average of their qualifying deposits during the fourth calendar year preceding such given year; 20 percent on the basis of the quarterly average of their qualifying deposits during the third calendar year preceding such given year; 15 percent on the basis of the quarterly average of their qualifying deposits during the second calendar year preceding such given year; and 10 percent on the basis of the quarterly average of their qualifying deposits during the year preceding such given year.

(e) *Permissible variations and special rules.* With respect to the system prescribed by paragraph (d) of this section—

(1) An applicant which had adopted a plan during 1972 may refile during 1973 and employ the 1973 percentages if the applicant can show that no unusual inflows of funds occurred during the period between July 13, 1972 and December 31, 1972;

(2) An applicant may employ percentages different than those specified in paragraph (d) of this section if such different percentages do not operate to give greater weight to any more recent deposits. An applicant may, for example, employ 85 percent, 10 percent, and 5 percent for plans adopted during 1974, but may not employ 70 percent, 20 percent, 10 percent for plans adopted during 1974;

(3) An applicant may compute averages on a basis more frequent than quarterly;

(4) If the qualifying deposits or quarterly average of the qualifying deposits of any officer, director, or associate thereof on a 10 percent date or during a 10 percent period are greater than his qualifying deposits or the quarterly average of his qualifying deposits during the preceding 90 percent date, 15 percent date, or 15 percent period, as the case may be, the excess is to be disregarded in determining the amount of securities that is to be distributed to him for such 10 percent date or period.

(5) If the quarterly average of the qualifying deposits of any eligible accountholder (other than an officer, director, or associate thereof) during a 10 percent period is greater than his qualifying deposits or the quarterly average of his qualifying deposits on the preceding 15 percent date or during the preceding 15 percent period, as the case may be, the distribution with respect to the 10 percent period shall be based on the cumulative average of his qualifying deposits during such 10 percent period and during such 15 percent period or during such 10 percent period and on such 15 percent date, as the case may be; and

(6) In determining the amount of qualifying deposits or the quarterly average of qualifying deposits, the applicant shall deduct the amount of any share loans and may deduct or include interest and dividends provided such deduction or inclusion is performed consistently for all accounts.

(f) *Dividend and repurchase restrictions.* Without the prior approval of the Corporation, no insured institution that has converted under this part shall for 5 years after the date of such conversion (1) repurchase any of its capital stock from any director, officer, former director or officer, or associate thereof or (2) declare or pay a cash dividend on, or repurchase, any of its capital stock in an amount exceeding 25 percent of its earned surplus accumulated after the date of conversion; except that there shall be no such declaration, payment or repurchase unless the insured institution, upon giving effect thereto, shall satisfy the net worth requirements contained in § 563.13(b) of this subchapter.

(g) *Manipulative and deceptive devices.* In the offer, sale or purchase of stock issued incident to its conversion, no insured institution, or any director, officer or employee thereof, shall (1) employ any device, scheme, or artifice to defraud, or (2) obtain money of property by means of any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, or (3) engage in any act, transaction, practice, or course of business which operates or would operate as a fraud or deceit upon a purchaser or seller.

(h) *Reports and trading.* No plan of conversion shall be aproved, unless the applicant has furnished to the Corporation an agreement, in form satisfactory to the Corporation, from each of the applicant's present directors and officers and each person who incident to the conversion will become directly or indirectly the beneficial owner of more than 10 percent of its capital stock, that (1) each such person will file statements with the Corporation in the same manner as such person would be required to file with the Securities and Exchange Commission if section 16(a) of the Securities Exchange Act of 1934, as amended, and the rules and regulations under such section, applied to the applicant immediately upon conversion and (2) any profit realized by such person from any purchase and sale, or any sale and purchase, of any equity security of the applicant within any period of less than 6 months shall inure to and be recoverable by the applicant as if section 16(b) of the Securities Exchange Act of 1934, as amended, and the rules and regulations under such section, applied to the applicant immediately upon conversion. No plan of conversion shall be approved, unless the applicant has furnished to the Corporation an agreement, in form satisfactory to the Corporation, that the applicant will promptly obtain and furnish to the Corporation similar agreements from each person who subsequent to the conversion becomes a director, officer or beneficial owner directly or indirectly of more than 10 percent of the applicant's capital stock. The requirements of this paragraph shall automatically terminate whenever the applicant becomes registered under section 12(g) of the Securities Exchange Act of 1934, as amended.

§ 563b.6 Solicitation of proxies and use of proxy and information statement.

(a) *Solicitations to which rules apply.* This section applies to every solicitation of a proxy from an association member of an insured institution for the meeting at which a conversion plan will be voted upon, except the following:

(1) Any solicitation made otherwise than on behalf of the management of the insured institution where the total number of persons solicited is not more than 50;

(2) Any solicitation through the medium of a newspaper advertisement which informs association members, following preliminary approval of the plan of conversion, of a source from which they may obtain copies of a proxy and information statement, form of proxy, or any other soliciting material and does no more than (i) name the insured institution, (ii) state the reason for the advertisement, (iii) identify the proposal or proposals to be acted upon by association members, and (iv) urge the member to vote at the meeting.

(b) *Use of proxy soliciting material to be authorized.* No proxy soliciting material required to be filed with the Corporation prior to use shall be furnished to association members or otherwise released for distribution until the use of such material has been authorized in writing by the Corporation.

(c) *Information to be furnished association members.* No solicitation subject to this section shall be made unless each person solicited is concurrently furnished, or has previously been furnished, a written proxy and information statement the use of which has been authorized by the Corporation.

(d) *Requirements as to proxy.* (1) The form of proxy (i) shall indicate in bold face type whether the proxy is solicited on behalf of the management, (ii) shall provide specifically designated blank spaces for dating and signing the proxy, (iii) shall identify clearly and impartially each matter or group of related matters intended to be acted upon, (iv) shall be clearly labeled "Revocable Proxy" in bold face type (at least as large as 18 point), (v) shall describe any charter or State law requirement restricting or conditioning voting by proxy, (vi) shall contain an acknowledgement by the person giving the proxy that he has received a proxy and information statement prior to signing the form of proxy, (vii) shall contain the date, time and place of meeting, if practicable, and (viii) shall provide by a box or otherwise, a means whereby the person solicited is afforded an opportunity to specify by ballot a choice between approval or disapproval of each matter referred to therein as intended to be acted upon.

(2) No proxy subject to this section shall confer authority to vote at any meeting other than the meeting (or any adjournment thereof) to vote on conversion. A proxy may be deemed to confer authority to vote with respect to matters incident to the conduct of such meeting. If the plan of conversion is considered at an annual meeting, existing proxies may be voted with respect to matters not related to the plan of conversion.

(3) The proxy and information statement or form of proxy shall provide that the votes represented by the proxy will be voted and that, where the person solicited specifies by means of a ballot provided pursuant to paragraph (d)(1)(viii) of this section a choice with respect to any matter to be acted upon, the votes will be voted in accordance with the specifications so made.

(e) *Material required to be filed.* (1) Applicants shall file preliminary copies of such proxy materials as are required by the appropriate form for applying for preliminary approval to convert under this part.

(2) Ten preliminary copies of any additional soliciting material subject to this section including soliciting material in the form of press releases, and radio or television scripts, to be used or furnished to association members subsequent to furnishing the proxy and information statement, shall be filed with the Corporation at least 5 business days prior to the date on which the Corporation is requested to authorize the use of such material. Speeches may, but need not be, filed with the Corporation prior to use.

(3) Twenty-five copies of the proxy and information statement and 10

V 38 - 7 JAN 11 73 XUM

copies of the form of proxy and all other soliciting material, in the form in which such material is furnished to association members, shall be filed with or mailed for filing to the Corporation not later than the date such material is first sent or given to association members. All materials filed pursuant to this paragraph (e)(3) of this section shall be accompanied by a statement of the date on which copies of such materials are to be released to association members.

(4) If the solicitation is to be made in whole or in part by personal solicitation, 10 preliminary copies of all written instructions or other material which discusses or reviews, or comments upon the merits of, any matter to be acted upon and which is to be furnished to the individuals making the actual solicitation for their use directly or indirectly in connection with the solicitation shall be filed with the Corporation at least 5 days prior to the date on which the Corporation is requested to authorize the use of such material.

(5) All preliminary copies of material filed pursuant to subparagraphs (1), (2), and (4) of this paragraph (e) shall be clearly marked on the cover page "Preliminary Copy." Such preliminary copies shall be for the information of the Corporation only and shall not be deemed available for public inspection except that such material may be disclosed to any department or agency of the U.S. Government and the Corporation may make such inquiries or investigation in regard to the material as may be necessary for an adequate review thereof by the Corporation.

(6) Unless requested by the Corporation, copies of replies to inquiries from members of the insured institution and copies of communications which do no more than request that forms of proxy theretofore solicited be signed and returned need not be filed pursuant to this paragraph (e).

(7) Where any proxy and information statement, form of proxy or other material filed pursuant to this paragraph (e) is amended or revised, four copies of such amended or revised material filed with the Corporation shall be marked to indicate clearly and precisely the changes effected therein subsequent to the last prior filing.

(f) *Mailing communications for association members.* If the management of the applicant has adopted a plan of conversion, the applicant shall perform such of the following acts as may be duly requested in writing with respect to a matter to be considered at the meeting to vote on the plan of conversion by any association member who will defray the reasonable expenses to be incurred by the applicant in the performance of the act or acts requested.

(1) The applicant shall mail or otherwise furnish to such association member the following information as promptly as practicable after the receipt of such request:

(i) A statement of the approximate number of association members who have been or are to be solicited on behalf of the management, or any group of such holders which the association member shall designate.

(ii) An estimate of the cost of mailing a specified proxy and information statement, form of proxy or other communication to such association members.

(2)(i) Copies of any proxy and information statement, form of proxy or other communication furnished by the association member and as approved by the Corporation shall be mailed by the applicant to such of the association members specified in paragraph (f)(1)(i) of this section as the association member shall designate.

(ii) Any such material which is furnished by the association member shall be mailed with reasonable promptness by the applicant after receipt of the material to be mailed, envelopes or other containers therefor and postage or payment for postage.

(iii) Neither the management nor the applicant shall be responsible for such proxy and information statement, form of proxy or other communication.

(g) *False or misleading statements.* (1) No solicitation of a proxy by the applicant, its management, or any other person for the meeting to vote on conversion shall be made by means of any proxy and information statement, form of proxy, notice of meeting or other communication, written or oral, containing any statement which, at the time and in the light of the circumstances under which it is made, is false or misleading with respect to any material fact, or which omits to state any material fact necessary in order to make the statements therein not false or misleading or necessary to correct any statement in any earlier communication with respect to the solicitation of a proxy for such meeting which has become false or misleading.

(2) The fact that a proxy and information statement, form of proxy or other soliciting material has been filed with or examined by the Corporation and authorized for use shall not be deemed a finding by the Corporation that such material is accurate or complete or not false or misleading, or that the Corporation has passed upon the merits of or approved any proposal contained therein. No representation contrary to the foregoing shall be made by any person.

(3) If a solicitation by management violates any provision of this section, the Corporation may require remedial measures including:

(i) Correction of any such violation by means of a retraction and new solicitation;

(ii) Rescheduling of the meeting for a vote on the conversion;

(iii) Withholding final approval of the conversion; and

(iv) Any other actions the Corporation may deem appropriate in the circumstances in order to insure a fair vote.

(4) If a nonmanagement solicitation violates any provision of this section, the applicant shall be entitled with the concurrence of the Corporation to disregard any proxy given in response to such solicitation and may employ any other remedy available to it.

(h) *Prohibition of certain solicitations.* No person soliciting a proxy from an association member for the meeting to vote on conversion shall solicit:

(1) Any undated or post-dated proxy; or

(2) Any proxy which provides that it shall be deemed to be dated as of any date subsequent to the date on which it is signed by the association members; or

(3) Any proxy which is not revocable at will by the association member giving it; or

(4) Any proxy which is part of any other document or instrument (such as an account card).

§ 563b.7 Form and content of financial statements.

(a) *Application of this section.* This section states the requirements as to the form and content of all financial statements to be furnished with forms pursuant to this part. The term "financial statements" shall be deemed to include all notes to the statements and related schedules.

(b) *Definitions of terms used in this § 563b.7.* Unless the context otherwise requires, terms defined in § 563b.2 or in the instructions to the applicable form, when used in this § 563b.7 shall have the respective meanings given in such sections or instructions. In addition, the following terms shall have the meanings indicated in this section unless the context otherwise requires.

(1) *Accountant's report.* The term "accountant's report", when used in regard to financial statements, means a document in which an independent public or certified public accountant indicates the scope of the audit (or examination) which he has made and sets forth his opinion regarding the financial statements taken as a whole, or an assertion to the effect that an overall opinion cannot be expressed.

(2) *Audit (or examination).* The term "audit" (or "examination"), when used in regard to financial statements, means an examination of the statements by an independent accountant in accordance with generally accepted auditing standards for the purpose of expressing an opinion thereon.

(3) *Fifty-percent-owned person.* The term "50-percent-owned person", in relation to a specified person, means a person approximately 50 percent of whose outstanding voting shares is owned by the specified person either directly, or indirectly through one or more intermediaries.

(4) *Fiscal year.* The term "fiscal year" means the annual accounting period or if the applicant has previously used an audit period in connection with its certified financial statements which does not coincide with its fiscal year, such audit period may be used in place of any fiscal year requirement provided it covers a full 12 months' operations and is used consistently.

(5) *Majority-owned subsidiary.* The term "majority-owned subsidiary" means a subsidiary more than 50 percent of whose outstanding voting shares is owned by its parent and/or the parent's other majority-owned subsidiaries.

(6) *Parent.* A "parent" of a specified person is an affiliate controlling such person directly, or indirectly through one or more intermediaries.

(7) *Principal holder of equity securities.* The term "principal holder of equity securities", used in respect of an applicant or other person named in a particular statement or report, means a holder of record or a known beneficial owner of more than 10 percent of any class of equity securities of the applicant or other person, respectively, as of the date of the related balance sheet filed.

(8) *Share.* The term "share" means a share of stock in a corporation or unit of interest in an unincorporated person.

(9) *Significant subsidiary.* The term "significant subsidiary" means a subsidiary or a subsidiary and its subsidiaries, which meet either of the conditions described below based on the most recent annual financial statements, including consolidated financial statements, of such subsidiary which would be required to be filed if such subsidiary were an applicant and the most recent annual consolidated financial statements of the applicant being filed:

(i) The parent's and the parent's other subsidiaries' proportionate share of the total assets (after intercompany eliminations) of the subsidiary, or their investments in and advances to the subsidiary exceed 10 percent of the total assets of the parent and consolidated subsidiaries.

(ii) The parent's and the parent's other subsidiaries' proportionate share of the total sales and revenues (after intercompany eliminations) of the subsidiary exceed 10 percent of the total sales and revenues of the parent and consolidated subsidiaries.

(10) *Totally held subsidiary.* The term "totally held subsidiary" means a subsidiary (i) substantially all of whose outstanding equity securities are owned by its parent and/or the parent's other totally held subsidiaries, and (ii) which is not indebted to any person other than its parent and/or the parent's other totally held subsidiaries, excepting indebtedness incurred in the ordinary course of business which is not overdue and which matures within 1 year from the date of its creation, whether evidenced by securities or not. Indebtedness of a subsidiary which is secured by its parent by guarantee, pledge, assignment or otherwise is to be excluded for purposes of paragraph (a)(10)(ii) of this section.

(11) *Wholly owned subsidiary.* The term "wholly-owned subsidiary" means a subsidiary substantially all of whose outstanding voting shares are owned by its parent and/or the parent's other wholly owned subsidiaries.

(c) *Qualifications of accountants.* (1) For the purpose of this part, the Corporation will not recognize any person as a certified public accountant who is not duly registered and in good standing as such under the laws of the place of his residence or principal office. For the purposes of this part, the Corporation will not recognize any person as a public accountant who is not in good standing and entitled to practice as such under the laws of the place of his residence or principal office.

(2) For the purposes of this part, the Corporation will not recognize any certified public accountant or public accountant as independent who is not in fact independent. For example, an accountant will be considered not independent with respect to any person or any of its parents, its subsidiaries, or other affiliates (i) in which, during the period of his professional engagement to examine the financial statements being reported on or at the date of his report he or his firm or a member thereof had, or was committed to acquire, any direct financial interest or any material indirect financial interest or (ii) with which, during the period of his professional engagement to examine the financial statements being reported on, at the date of his report or during the period covered by the financial statements, he or his firm or a member thereof was connected as a promoter, underwriter, voting trustee, director, officer, or employee, except that a firm will not be deemed not independent in regard to a particular person if a former officer or employee of such person is employed by the firm and such individual has completely disassociated himself from the person and its affiliates and does not participate in auditing financial statements of the person or its affiliates covering any period of his employment by the person. For the purposes of this section the term "member" means all partners in the firm and all professional employees participating in the audit or located in an office of the firm participating in a significant portion of the audit.

(3) In determining whether an account may in fact be not independent with respect to a particular person, the Corporation will give appropriate consideration to all relevant circumstances, including evidence bearing on all relationships between the accountant and that person or any affiliate thereof, and will not confine itself to the relationships existing in connection with the filing of reports with the Corporation.

(d) *Accountants' reports*—(1) *Technical requirements.* The accountant's report (i) shall be dated; (ii) shall be signed manually; (iii) shall indicate the city and state where issued; and (iv) shall identify without detailed enumeration the financial statements covered by the report.

(2) *Representations as to the audit.* The accountant's report (i) shall state whether the audit was made in accordance with generally accepted auditing standards; and (ii) shall designate any auditing procedures deemed necessary by the accountant under the circumstances of the particular case, which have been omitted, and the reasons for their omission. Nothing in this subparagraph shall be construed to imply authority for the omission of any procedure which independent accountants would ordinarily employ in the course of an audit made for the purpose of expressing the opinions required by subparagraph (3) of this paragraph.

(3) *Opinion to be expressed.* The accountant's report shall state clearly: (i) The opinion of the accountant in respect of the financial statements covered by the report and the accounting principles and practices reflected therein; and (ii) the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have a material effect on the financial statements as required to be set forth in the appropriate proxy and information statement.

(4) *Exceptions.* Any matters to which the accountant takes exception shall be clearly identified, the exception thereto specifically and clearly stated, and, to the extent practicable, the effect of each such exception on the related financial statements given.

(e) *Examination of financial statements of persons other than the applicant.* If an applicant is required to file financial statements of any other person, such statements need not be examined if examination of such statements would not be required if such person were itself an applicant.

(f) *Examination of financial statements by more than one accountant.* If, with respect to the examination of the financial statements of the applicant, the principal accountant relies on an audit made by another accountant of certain of the accounts of such applicant or its subsidiaries, the report of such other accountant shall be filed (and the provisions of paragraphs (c) and (d) of this section shall be applicable thereto); however, the report of such other accountant need not be filed (1) if no reference is made directly or indirectly to such other accountant's audit in the principal accountant's report, or (2) if, having referred to such other accountant's audit, the principal accountant states in his report that he assumes responsibility for such other accountant's audit in the same manner as if it had been made by him.

(g) *Form, order, and terminology.* (1) Financial statements may be filed in such form and order, and may use generally accepted terminology, as will best indicate their significance and character in the light of the provisions applicable thereto.

(2) All money amounts required to be shown in financial statements may be expressed in whole dollars, in thousands of dollars or in hundred thousands of dollars, as appropriate: *Provided*, That when stated in other than whole dollars,

V 38 - 7 JAN 11 73 XUM

an indication to that effect is inserted immediately beneath the caption of the statement or schedule, or at the top of the money columns, or at an appropriate point in narrative material.

(3) Negative amounts (red figures) shall be shown in brackets or parentheses and so described in the related caption, columnar heading or a note to the statement or schedule, as appropriate.

(h) *Items not material.* If the amount which would otherwise be required to be shown with respect to any item is not material, it need not be separately set forth.

(i) *Inapplicable captions and omission of unrequired or inapplicable financial statements.* (1) No caption need be shown in any financial statements as to which the items and conditions are not present.

(2) Financial statements not required or inapplicable because the required matter is not present need not be filed.

(3) Financial statements omitted and the reasons for their omission shall be indicated in the list of financial statements required by the applicable form.

(j) *Omission of substantially identical notes.* If a note covering substantially the same subject matter is required with respect to two or more financial statements relating to the same or affiliated persons, for which separate sets of notes are presented, the required information may be shown in a note to only one of such statements: *Provided*, That a clear and specific reference thereto is made in each of the other statements with respect to which the note is required.

(k) *Additional information.* The information required with respect to any statement shall be furnished as a minimum requirement to which shall be added such further material information as is necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

(l) *Changes in accounting principles and practices and retroactive adjustments of accounts.* (1) Any change in an accounting principle or practice, or in the method of applying any accounting principle or practice, made during any period for which financial statements are being filed which materially affects comparability of such financial statements with those of prior periods, and the effect thereof upon the net income of the period in which such change is made and, if practicable, of the prior periods for which financial statements are being filed, shall be disclosed in an appropriate manner.

(2) Any material retroactive adjustment made in income statements during any period for which financial statements are being filed, and the effect thereof upon net income of prior periods shall be disclosed in a note to the appropriate financial statements.

(m) *Summary of accounting principles and practices.* Information required in notes as to accounting principles and practices reflected in the financial statements may be presented in the form of a single statement. In such case, specific references shall be made in the appropriate financial statements to the applicable portion of such single statement.

(n) *Valuation and qualifying accounts.* Valuation and qualifying accounts shall be shown separately in the financial statements as deductions from the specific assets to which they apply.

(o) *Basis of determining amounts—book value.* If an instruction requires a statement as to "the basis of determining the amount," the basis shall be stated specifically. The term "book value" will not be sufficiently explanatory unless, in a particular instruction, it is stated to be acceptable with respect to a particular item.

(p) *General notes to financial statements.* If present in regard to the applicant for which the financial statements are filed, the following shall be set forth on the face of the appropriate statement or in notes appropriately captioned and referred to in such statement. The information shall be provided for each statement required to be filed, except that the information required by paragraphs (p)(4), (6), (7), and (8) of this section, shall be provided as of the most recent audited statement of financial condition and any subsequent unaudited balance sheet being filed. When specific statements are presented separately the pertinent notes shall be attached unless cross-referencing is appropriate.

(1) *Principles of consolidation or combination.* With regard to consolidated or combined financial statements, refer to paragraph (q) of this section for requirements for supplemental information in notes to the financial statements.

(2) *Plan of conversion.* A brief description of the plan of conversion and the financial statement implications including any subsequent dividend restrictions. Reference may be made to other descriptions contained in the form.

(3) *Principles of translation of items in foreign currencies.* When items in foreign currencies are included in the financial statements being presented, there shall be stated (i) a brief description of the principles followed in translating the foreign currencies into United States currency and (ii) the amount and disposition of the unrealized gain or loss.

(4) *Assets subject to lien.* Assets mortgaged, pledged, or otherwise subject to lien, and the approximate amounts thereof, shall be designated and the obligations collateralized briefly identified.

(5) *Intercompany profits and losses.* The amount, and the effect upon any balance sheet item, of profits or losses resulting from transactions with affiliated companies and not eliminated shall be stated. If impracticable of accurate determination without unreasonable effort or expense, give an estimate or explain.

(6) *Defaults.* The facts and amounts concerning any default in principal, interest, sinking fund, or redemption provisions with respect to any issue of securities or credit agreements, or any breach of covenant of a related indenture or agreement, which default or breach existed at the date of the most recent balance sheet being filed and which has not been subsequently cured, shall be stated. Notation of such default or breach of covenant shall be made in the financial statements and the entire amount of obligations to which the default or breach relates shall be classified as a current liability if said default or breach accelerates the maturity of the obligations and makes it current under the terms of the related indenture or agreement. If a default or breach exists, but acceleration of the obligation has been waived for a stated period of time beyond the date of the most recent balance sheet being filed, state the amount of the obligation and the period of the waiver.

(7) *Pension and retirement plans.* A brief description of the essential provisions of any employee pension or retirement plan and of the accounting and funding policies related thereto shall be given. The estimated cost of the plan for each period for which an income statement is presented shall be stated.

(8) *Restrictions which limit the availability of reserves and undivided profits for dividend purposes.* Describe the most restrictive of any such restrictions, indicating briefly its source, its pertinent provisions, and, where appropriate and determinable, the amount of reserves and undivided profits (i) so restricted or (ii) free of such restrictions. These restrictions would include absolute restrictions, such as those imposed by State laws or credit agreements as well as those restrictions resulting from any additional income tax requirements before payment of dividends and disclose the amount of income tax which would become payable.

(9) *Commitments and contingent liabilities.* (i) If material in amount, there shall be disclosed the pertinent facts relative to firm commitments for the acquisition of permanent or long-term investments (excluding normal commitments made during the ordinary course of business) and property, plant and equipment and for the purchase, repurchase, construction, or rental of assets under material leases.

(ii) Where the annual rentals or obligations under noncancelable leases which have not been recorded as assets and liabilities are in excess of 1 percent of total sales and revenues of the most recent fiscal year, there shall be shown (A) the minimum annual rentals for the current and each of the 5 succeeding years; (B) the nature and effect of any provisions that would cause the annual rentals to vary from the minimum rentals; and (C) a description of the types of property leased, important obligations assumed or guarantees made, and any other significant provisions of such leases.

(iii) A brief statement as to contingent liabilities not reflected in the balance sheet shall be made.

(10) *Bonus, profit sharing, and other similar plans.* Describe the essential provisions of any such plans in which only directors, officers or key employees may participate, and state, for each of the fiscal periods for which income statements are required to be filed, the aggregate amount provided for all plans by charges to expense.

(11) *Significant changes in bonds, mortgages, and similar debt.* Any significant changes in the authorized or issued amounts of bonds, mortgages and similar debt since the date of the latest balance sheet being filed for a particular person or group shall be stated.

(12) *Depreciation, depletion, obsolescence, and amortization.* State the policy followed with respect to:

(i) The provision for depreciation, depletion, obsolescence, and amortization of physical properties and capitalized leases, including the methods and, if practicable, the rates used in computing the annual amounts;

(ii) The provision for depreciation and amortization of intangible assets or the lack of such provision, including the methods and, if practicable, the rates used in computing the annual amounts;

(iii) The accounting treatment for maintenance, repairs, renewals, and betterments; and

(iv) The adjustment of accumulated depreciation, depletion, obsolescence, and amortization at the time the properties are retired or otherwise disposed of, including the disposition of any gain or loss on sale of such properties.

(13) *Capital stock optioned, sold or offered for sale to directors, officers and key employees.* (i) A brief description of the terms of each option arrangement shall be given including (A) the title and amount of securities subject to option; (B) the year or years during which the options were granted; and (C) the year or years during which the optionees became, or will become, entitled to exercise the options.

(ii) State (A) the number of shares under option at the balance sheet date, and the option price and the fair value thereof, per share and in total, at the dates the options were granted; (B) the number of shares with respect to which options became exercisable during each period presented, and the option price and the fair value thereof, per share and in total, at the dates the options became exercisable; (C) the number of shares with respect to which options were exercised during each period, and the option price and the fair value thereof, per share and in total, at the dates the options were exercised; and (D) the number of unoptioned shares available, at the beginning and at the close of the latest period presented, for the granting of options under an option plan.

(iii) A brief description of the terms of each other arrangement covering shares sold or offered for sale to only directors, officers, and key employees shall be given, including the number of shares, and the offered price and the fair value thereof per share and in total, at the dates of sale or offer to sell, as appropriate.

(iv) The required information should be summarized and tabulated, as appropriate, with respect to all option plans as a group and other plans for shares sold or offered for sale as a group.

(v) State the basic of accounting for such arrangements and the amount of charges, if any, reflected in income with respect thereto.

(14) *Income tax expense.* Disclosure shall be made, in the income statement or a note thereto, of the components of income tax expense, including: (i) Taxes currently payable; (ii) the net tax effects, as applicable, of (iii) timing differences and (iv) operating losses; and (v) the net deferred investment tax credits. The applicant's status as a "savings and loan association" as defined in section 593 of the Internal Revenue Code, as amended, shall be stated in a note referred to in the appropriate statements. Such note shall also indicate briefly the principal present assumptions on which the applicant has relied in making or not making provisions for such taxes. Amounts applicable to Federal income taxes and to other income taxes shall be stated separately for each component, unless the amounts applicable to other income taxes do not exceed 5 percent of the total for the component and a statement to that effect is made.

(15) *Warrants or rights outstanding.* Information with respect to warrants or rights outstanding at the date of the related balance sheet shall be set forth as follows:

(i) Title of issue of securities called for by warrants or rights.

(ii) Aggregate amount of securities called for by warrants or rights outstanding.

(iii) Date from which warrants or rights are exercisable and expiration date.

(iv) Price at which warrant or right is exercisable.

(q) *Consolidated and combined financial statements.* This section shall govern the presentation of consolidated and combined financial statements.

(1) *Consolidated financial statements of the applicant and its subsidiaries.* (i) The applicant shall follow in the consolidated financial statements principles of inclusion or exclusion which will clearly exhibit the financial position and results of operations of the applicant and its subsidiaries: *Provided, however*, That the applicant shall not consolidate:

(*A*) Any subsidiary which is not majority owned; or

(*B*) Any subsidiary whose financial statements are as of a date or for periods different from those of the applicant, unless all the following conditions are met: (*1*) Such difference is not more than 93 days; (2) the closing date of the subsidiary is expressly indicated; and (3) the necessity for the use of different closing dates is briefly explained.

(ii) Notwithstanding the 93-day requirement specified in paragraph (q)(1)(i)(*B*)(*1*) of this section, in connection with the retroactive combination of the financial statements of entities following a "pooling of interests," the financial statements of the constituents may be combined even if their respective fiscal periods do not end within 93 days, except that the financial statements for the latest fiscal year shall be recast to dates which do not differ by more than 93 days, if practicable. Disclosure shall be made of the periods combined and of the sales or revenues, net income before extraordinary items and net income of any interim periods excluded from or included more than once in results of operations as a result of such recasting.

(iii) The 93-day requirement specified in paragraph (q)(1)(i)(*B*)(*1*) of this section is not applicable to the recognition of earnings or losses of 50 percent or less owned persons, the investments in which are accounted for by the equity method of accounting.

(2) *Group financial statements of subsidiaries not consolidated and 50 percent or less owned persons.* There may be filed financial statements in which majority-owned subsidiaries not consolidated with the parent are consolidated or combined in one or more groups, and 50 percent or less owned persons the investments in which are accounted for by the equity method are consolidated or combined in one or more groups, pursuant to principles of inclusion or exclusion which will clearly exhibit the financial position and results of operations of the group or groups.

(3) *Statement as to principles of consolidation or combination followed.* (i) A brief description of the principles followed in consolidating or combining the separate financial statements, including the principles followed in determining the inclusion or exclusion of (A) subsidiaries in consolidated or combined financial statements and (B) companies in consolidated or combined financial statements, shall be stated in the notes to the respective financial statements.

(ii) As to each consolidated financial statement and as to each combined financial statement, if there has been a change in the persons included or excluded in the corresponding statement for the preceding fiscal period which has a material effect on the financial statements, the persons included and the persons excluded shall be disclosed. If there have been any changes in the respective fiscal periods of the persons included made during the periods of the report which have a material effect on the financial statements, indicate clearly such changes and the manner of treatment.

(4) *Reconciliation of investment of a person in subsidiaries not consolidated and 50 percent or less owned persons accounted for by the equity method, and equity of such person in their net assets.* A statement shall be made in a note to the latest balance sheet of the amount and the accounting treatment of any difference between (i) the investment of a person and its consolidated subsidiaries, as shown in the consolidated balance sheet, in the unconsolidated subsidiaries and 50 percent or less owned persons accounted for by the equity method and (ii) their equity owned persons as shown in their financial statements.

(5) *Intercompany items and transactions.* In general, there shall be eliminated intercompany items and transactions between persons included in the (i) consolidated financial statements being filed and, as appropriate, (ii) unrealized

V 38 - 7 JAN 11 73 XUM

intercompany profits and losses on transactions between persons for which financial statements are being filed and persons the investment in which is presented in such statements by the equity method. If such eliminations are not made, a statement of the reasons and the methods of treatment shall be made.

(6) *Consolidation of financial statements of an applicant and its subsidiaries engaged in diverse financial activities.* (i) If the applicant and its subsidiaries are engaged in one or more types of financial activities, e.g., banking, insurance, finance, and savings and loan subsidiaries, consolidated financial statements may be filed unless deemed inappropriate: *Provided*, That, when more than one type of financial activity is involved, separate audited financial statements for each significant financial subsidiary or each significant group of financial subsidiaries shall be presented. Savings and loan and other direct or indirect subsidiaries of savings and loan holding companies engaged in savings and loan related finance activities are considered to be one type of financial activity for the purpose of this rule.

(ii) If the applicant and its subsidiaries are engaged in (A) manufacturing, merchandising or other nonfinancial activities as well as in (B) financial activities as described in paragraph (q)(6)(i) of this section, the subsidiaries related to whichever of group (A) or (B) is less significant shall not be consolidated with the operations of the major group; however, the group of lesser significance may be included in the consolidated financial statements if its activities are principally for the benefit of the operations of the major group. In interpreting the significance of the groups above, the applicant should consider factors in addition to those in the definition of significant subsidiary including the primary business activities of the registrant, trends, and other pertinent matters.

(r) *Financial statements for savings and loan associations*—(1) *Application of this section.* All financial statements shall be prepared in accordance with generally accepted accounting principles and practices applicable to the savings and loan industry and the accounting rules prescribed by the Board. Except as otherwise permitted by the Corporation, applicants shall comply with the following provisions:

STATEMENTS OF FINANCIAL CONDITION-ASSETS

(2) *Cash and cash items.* State separately (i) cash on hand and demand deposits; (ii) funds subject to repayment on call or immediately after the date of the balance sheet required to be filed; (iii) time deposits; and (iv) other funds, the amounts of which are known to be subject to withdrawal or usage restrictions, e.g., as compensating balances or special purpose funds. The general terms and nature of such repayment provisions and withdrawal or usage restrictions shall be described in a note referred to herein.

(3) *U.S. Government and Federal agency obligations.* State, parenthetically or otherwise, the basis of determining the amount shown in the balance sheet and state the alternate of the aggregate cost or the aggregate amount on the basis of market quotations at the balance sheet date. When the original cost of securities purchased on a yield basis has been properly adjusted to reflect amortization of premium or accumulation of discount since acquisition, the basis of determining their amount may be described "as cost" with appropriate footnote disclosures. Show separately (*a*) other securities and investments and (*b*) securities of affiliates.

(4) *Loans secured by savings accounts.* Include the balance of loans secured by the pledge of its savings account.

(5) *Mortgage loans.* State separately here, or in a note referred to herein, each major class, such as FHA and VA loans, conventional loans, loans to facilitate sales of real estate foreclosed, unimproved land, contracts to facilitate the sale of real estate. Indicate any amounts pledged to secure debt.

(6) *Other loans.* Include (i) improvement loans both insured and uninsured, (ii) education loans, (iii) mobile home loans, (iv) other loans. Show separately any significant category.

(7) *Accrued interest receivable on loans.* Accrued interest receivable should be shown separately.

(8) *Valuation allowance.* Loans known to be uncollectible shall be excluded from the assets as well as from the valuation allowance.

(9) *Real estate owned.* State, parenthetically or otherwise, (i) the basis of determining the amount shown on the balance sheet, (ii) a description of the real estate owned including if it was acquired by foreclosure, by deed in lieu of foreclosure, in judgment and subject to redemption, or for development or resale. Any accumulated depreciation or valuation allowances should be shown separately.

(10) *Accounts and notes receivable.* (i) State separately amounts receivable from (*a*) parents and subsidiaries; (*b*) other affiliates and other persons the investments in which are accounted for by the equity method; (*c*) underwriters, promoters, directors, officers, employees, and principal holders (other than affiliates) of equity securities of the person and its affiliates; and (*d*) others. Exclude from (*c*) amounts for purchases by such persons subject to usual trade terms, for ordinary travel and expense advances and for other such items arising in the ordinary course of business. With respect to (*c*) and (*d*), state separately in the applicant's balance sheet the amounts which in the related consolidated balance sheet are eliminated and not eliminated.

(ii) For receivables maturing after 1 year, state in a note to the financial statements the amount thereof and, if practicable, the amounts maturing in each year. Interest rates on major receivable items maturing after 1 year, or classes of receivables so maturing, shall be set forth, or an indication of the average interest rate, or the range of rates, on all receivables shall be given.

(iii) Receivables from a parent, a subsidiary, an affiliate or other person designated under subdivisions (1)(*c*) and (1)(*d*) above shall not be considered as current unless the net current asset position of such person justifies such treatment.

(iv) If the aggregate amount of notes receivable exceeds 10 percent of the aggregate amount of receivables, the above information shall be set forth separately for accounts receivable and notes receivable.

(11) *Securities of affiliates and other persons.* Include under this caption amounts representing investments in affiliates and investments in other persons which are accounted for by the equity method, and state the basis of determining these amounts. State separately in the applicant's statement of financial condition the amounts which in the related consolidated statement of financial condition are eliminated and not eliminated.

(12) *Other security investments.* State the basis of determining the amount shown in the balance sheet and state, parenthetically or otherwise, the alternate of the aggregate cost or the aggregate amount on the basis of market quotations at the balance sheet date.

(13) *Investment in stock of the Federal Home Loan Bank.* Indicate basis for determining amount shown in the balance sheet.

(14) *Other Investments.* State separately, by class of investments, any items in excess of 5 percent of total assets.

(15) *Premises and equipment.* State separately here, or in a note referred to herein, if practicable, each major class, such as land, buildings, machinery and equipment, leaseholds, or functional grouping such as revenue producing equipment or industry categories, and the basis of determining the amounts.

(16) *Accumulated depreciation, depletion and amortization of property, plant and equipment.* Show separately on the statement of financial condition or in a separate note.

(17) *Prepayment to FSLIC Secondary Reserve.* In a separate note indicate the nature of this asset.

(18) *Intangible assets.* State separately each major class, such as goodwill, franchises, patents or trademarks, and the basis of determining their respective amounts. Indicate if any of these amounts have been required to be written off for purposes of reports to the Corporation and the consequent effect on net worth requirements.

(19) *Accumulated amortization of intangible assets.* Show separately any applicable amortization indicating the policy for such amortization.

(20) *Other assets.* State separately (i) each pension or other special fund; and (ii) any other item not properly classed in one of the preceding asset captions which is in excess of 5 percent of total assets.

(21) *Preoperating expenses deferred organization expense and similar deferrals.* State separately each major class and, in a note referred to herein, the policy for deferral and amortization. Indicate whether any of these amounts have been required to be written off for purposes of the Corporation.

(22) *Deferred debt expense.* State, in a note referred to herein, the policy for deferral and amortization.

(23) *Deferred commissions and expense on capital shares.* State, in a note referred to herein, the policy for deferral and amortization. These items may be shown as deductions from additional capital.

(24) *Total assets and, when appropriate, other debits.*

LIABILITIES, RESERVES AND STOCKHOLDERS' EQUITY

(25) *Savings Accounts.* Include accrued interest, if appropriate.

(26) *Loans in Process.* Include the amount of all undisbursed loan proceeds only where a clear liability exists.

(27) *Advance payments by Borrowers for Taxes and Insurance.*

(28) *Advances from Federal Home Loan Bank.* State separately here, or in a note referred to herein, such information as will indicate (i) the general character of each type of debt including the rate of interest, (ii) the date or dates of maturity and the amounts maturing as of each date. Any assets pledged should be noted.

(29) *Accounts and notes payable.* (i) State separately amounts payable to (*a*) banks, for borrowings; (*b*) trade creditors; (*c*) parents and subsidiaries; (*d*) other affiliates and other persons the investments in which are accounted for by the equity method; (*e*) underwriters, promoters, directors, officers, employees, and principal holders (other than affiliates) of equity securities of the person and its affiliates; and (*f*) others. Exclude from (*e*) amounts for purchases from such persons subject to usual trade terms, for ordinary travel expenses, and for other such items arising in the ordinary course of business. With respect to (*c*) and (*d*), state separately in the applicant's balance sheet the amounts which in the related consolidated balance sheet are eliminated and not eliminated.

(ii) If the aggregate amount of notes payable exceeds 10 percent of the aggregate amount of payables, the above information shall be set forth separately for accounts payable and notes payable.

(30) *Accrued liabilities.* State separately (i) payrolls; (ii) taxes, indicating the current portion of deferred income taxes; (iii) interest (indicating nature of accrual); and (iv) any other material items, indicating any liabilities to affiliates.

(31) *Other liabilities.* State separately (i) dividends declared; (ii) any other item in excess of five percent of liabilities, indicating any liabilities to affiliates. The remaining items may be shown in one amount.

(32) *Bonds, mortgages and similar debt.* State separately here, or in a note referred to herein, each issue or type of obligation and such information as will indicate (i) the general character of each type of debt including the rate of interest; (ii) the date of maturity, or if maturing serially, a brief indication of the serial maturities, such as "maturing serially from 1980 to 1990"; (iii) if the payment of principal or interest is contingent, an appropriate indication of such contingency; (iv) a brief indication of priority; (v) if convertible, the basis; and (vi) the combined aggregate amount of maturities and sinking fund requirements for all issues, each year for the 5 years following the date of the balance sheet. For amounts owed to affiliates, state separately in the applicant's balance sheet the amounts which in the related consolidated balance sheet are eliminated and not eliminated.

The amounts of unamortized debt discount and premium applicable shall be deducted from or added to the face amounts of the issues under the particular caption either individually or in the aggregate, but if the aggregate method is used the face amounts of the individual issues and the applicable unamortized discount or premium shall be shown parenthetically or otherwise.

(33) *Deferred credits.* State separately amounts for (i) deferred income taxes, (ii) deferred tax credits, and (iii) material items of deferred income.

(34) *Commitments and contingent liabilities.* (See § 563b.7(p)(9).)

MINORITY INTERESTS

(35) *Minority interests in consolidated subsidiaries.* State separately in a note referred to herein, amounts represented by preferred stock and the applicable dividend requirements if the preferred stock is material in relation to the consolidated stockholders equity.

STOCKHOLDERS' EQUITY

(36) *Capital shares.* State for each class of shares the title of issue, the number of shares authorized, the number of shares issued or outstanding, as appropriate, and the dollar amount thereof, and, if convertible, the basis of conversion. Show also the dollar amount, if any, of capital shares subscribed but unissued, and show the deduction of subscriptions receivable therefrom. Show here, or in a note or statement referred to herein, the changes in each class of capital shares for each period for which an income statement is required to be filed.

(37) *Other stockholders' equity.* (i) Separate captions shall be shown for (*a*) paid-in additional capital, (*b*) other additional capital, and (*c*) retained earnings (*1*) appropriated and (*2*) unappropriated.

(ii) If undistributed earnings of unconsolidated subsidiaries and 50 percent or less owned persons are included, state the amount in each category parenthetically or in a note referred to herein.

(iii) For a period of at least 10 years subsequent to the effective date of a quasi-reorganization, any description of retained earnings shall indicate the point in time from which the new retained earnings dates and for a period of at least 3 years shall indicate the total amount of the deficit eliminated.

(iv) A summary of each account under this caption setting forth the information prescribed in 563b.7(r)(39) shall be given for each period for which a statement of operations is being filed.

(38) *Total liabilities, and stockholders' equity.*

STATEMENT OF STOCKHOLDERS' EQUITY

(39) A summary shall be given for each class of stockholders' equity set forth in the related statement of financial condition.

(i) *Balance at beginning of period.* State separately the adjustments to the statement of financial condition at the beginning of the first period of the report for items which were retroactively applied to periods prior to that period.

(ii) *Net income or loss from statement of operations.* (See § 563b.7(r)(55).)

(iii) *Other additions.* State separately any material amounts, indicating clearly the nature of the transactions out of which the items arose.

(iv) *Dividends.* For each class of shares state the amount per share and in the aggregate. Show separately cash and other (specify) dividends.

(v) *Other deductions.* State separately any material amounts, indicating clearly the nature of the transactions out of which the items arose.

(vi) *Balance at end of period.* The balance at the end of the most recent period shall agree with the related statement of financial condition caption.

STATEMENT OF OPERATIONS

All items of profit and loss given recognition in the accounts during each period covered by the statement of operations, except retroactive adjustments, shall be included in the statement of operations for each such period (see § 563b.7(1)). Only items entering into the determination of net income or loss may be included.

INCOME

(40) *Interest on loans.* Include amortization of any premium.

(41) *Interest and Dividends on Investments.* Show separately interest or dividends from affiliates. Exclude from this caption dividends from both subsidiaries and investments which are accounted for by the equity method.

(42) *Loan Origination Fees.* Include fees and charges received in connection with the making or acquisition of mortgage loans not subject to deferral by regulation.

(43) *Other fees.* Include loan servicing fees, prepayment charges, late charges, etc. showing separately, if material, any significant items.

(44) *Other income.* State separately any material amounts indicating clearly the nature of the transaction out of which the items arose. Other income may be stated net of applicable expenses, provided that any material amounts are set forth separately.

EXPENSES

(45) *Interest on Savings Accounts.* Include all interest or dividends paid or accrued on savings accounts.

(46) *Interest on Borrowings.* Include all interest paid or accrued on borrowings.

(47) *General and Administrative Expenses.* (See § 563b.7(r)(58).)

(48) *Other expenses.* Indicate separately any material items.

(49) *Income or loss before income tax expense and appropriate items below.*

(50) *Income Tax Expense.* (See § 563b.7(p)(14).) This caption only taxes based on income. Show separately current and deferred income taxes, if significant. Explain the nature of major items relating to deferred income taxes. Explain the method of calculating the bad debt deduction and the fact that the allowable deduction will be declining in future years. Include the amount of stockholders' equity for which no income taxes have been paid and explain the significance in terms of dividend payments on capital stock.

(51) *Minority interest in income of consolidated subsidiaries.*

(52) *Equity in earnings of unconsolidated subsidiaries and 50 percent or less owned person.* The amount reported under this caption shall be stated net of any applicable tax provisions. State, parenthetically or in a note referred to herein, the amount of dividends received from such persons. If justified by circumstances, this item may be presented in a different position and a different manner.

(53) *Extraordinary items, less applicable tax.* State separately any material items and disclose, parenthetically or otherwise, the tax applicable to each.

(54) *Cumulative effects of changes in accounting principles.* State separately, any material items and disclose parenthetically or otherwise, the tax applicable to each.

(55) *Net income or loss.* (See § 563b.7(r)(39)(ii).)

(56) *Allocation of net income.* Indicate the amounts of net income allocated to (i) appropriated retained earnings and (ii) unappropriated retained earnings.

(57) *Earnings per share data.* Show separately: (i) Earnings before any extraordinary items, (ii) earnings applicable to extraordinary items, and (iii) net earnings per share. In connection with any subsequent capital stock distributable to eligible account holders pursuant to a plan of conversion, reflect earnings per share data on a retroactive basis. Set forth in reasonable detail the computation of per share earnings.

(58) *Supplementary Information to the Statement of Operations.* Furnish the following schedule for each statement of operations in which operating revenues were of significant amount. This schedule may be omitted if the information required by Column B and instructions 3 and 4 thereof is furnished in the statement of operations or in a note thereto. This information shall be provided for each of the 3 fiscal years preceding the date of the latest statement of financial condition filed and for the period, if any, between the close of the latest of such fiscal years and the date of the latest statement of financial condition filed.

V 38-7 JAN 11 73 XUM

SUPPLEMENTARY INFORMATION TO THE STATEMENT OF OPERATIONS [1]

Item	Column A	Column B [2] Charged to general and administrative expenses and other accounts
1. Maintenance and repairs		
2. Depreciation, depletion and amortization of premises and equipment		
3. Depreciation and amortization of intangible assets		
4. Taxes, other than income taxes [3]		
5. Rents [4]		
6. Royalties		
7. Advertising costs [5]		
8. Provision for doubtful accounts and notes		
9. Expenses of conversion		

STATEMENT OF CHANGES IN FINANCIAL CONDITION

(59) The statement of changes in financial condition shall summarize the sources from which funds have been obtained and their application. Material changes in the components of net funds shall be shown in the statement or in a supporting tabulation. As a minimum, the following shall be reported:

(i) Sources of funds:

(a) Funds provided from operations (showing separately net income or loss and the addition and deduction of specific items which did not require the expenditure or receipt of funds; e.g., depreciation and amortization, deferred income taxes, undistributed earnings or losses of unconsolidated persons, etc.).

(b) Principal payments on loans.

(c) Sale of loans, if material.

(d) Sale of other assets (identifying separately such items such as real estate owned, fixed assets, intangibles, etc.).

(e) Issuance of longterm debt.

(f) Increase in savings accounts.

(g) Loan fees deferred.

(ii) Application of funds:

(a) Origination and purchase of loans (showing separately if material).

(b) Purchase of other assets (identifying separately such items as investments, fixed assets, intangibles, etc.).

(c) Repayment of longterm debt.

(60) *Schedules to financial statements.* No schedules to financial statements, other than Supplemental Information to the Statement of Operations, are required to be furnished. However, the Corporation may request that additional schedules be filed in order that the financial statements not be misleading or to insure that all information as would be meaningful be included. The applicant may consider the furnishing of such schedules as are required for any additional filings with the Securities and Exchange Commission.

[1] State, for each of the items noted in Column A which exceeds 1 percent of total revenues as reported in the related statement of operations, the amount called for in Column B.

[2] Indicate amounts charged to other accounts indicating account such as real estate owned or other income—from real estate operations.

[3] State separately each category of tax which exceeds 1 percent of total revenues.

[4] Include rents applicable to leased personal property.

[5] This item shall include all costs related to advertising the company's name, products or services in newspapers, periodicals or other advertising media.

§ 563b.8 Vote by members; application to the Corporation for final approval.

(a) *Vote at special meeting.* Following Corporation approval of an application for preliminary approval, the plan shall be submitted to a special meeting of members, unless State law requires that the plan be considered at an annual meeting of members.

(b) *Determining members eligible to vote.* The record date for determining those members eligible to vote at the meeting called to consider a plan of conversion shall be not more than 60 nor less than 35 days prior to the date of such meeting, unless State law requires a different voting record date.

(c) *Notice to members.* Notice of the meeting to consider a plan of conversion shall be given by the proxy and information statement authorized for use by the Corporation not more than 50 nor less than 30 days prior to the date of the meeting to each association member and each eligible account holder, postage prepaid, at his last address as shown on the books of the applicant, unless State law requires a different notice period.

(d) *Required vote.* The plan shall be approved by a vote of at least two-thirds of the total outstanding votes of the applicant's association members, unless State law requires a higher percentage, in which case the higher percentage shall be used. Voting may be in person or by proxy.

(e) *Application for final approval.* (1) Upon approval by the association members of the plan of conversion in accordance with the vote required by paragraph (d) of this section, the applicant shall submit to the Corporation an application for final approval of the plan of conversion on the appropriate form prescribed by the Corporation, as soon as practicable after the meeting.

(2) No plan of conversion under this part shall be implemented following approval of the plan by the members, unless an application for final approval shall have been approved by the Corporation.

(3) Approval by the Corporation of the application for final approval terminates the Federal charter of an applicant effective upon the issuance to it of a stock charter under the laws of the State in which the home office of the applicant is located. Such Federal charter shall promptly be surrendered to the Board for cancellation.

(4) Every applicant under this part shall promptly file with the Corporation a copy of the stock charter issued to it. Conversion shall be deemed to have occurred on the date of issuance of the stock charter. Upon the granting of final approval by the Corporation the accounts of the converted institution shall be insured to the same extent and in the same manner as the accounts of the converting institution. The certificate of insurance of the converting institution shall promptly be surrendered to the Corporation for cancellation, and the Corporation shall promptly issue a new certificate of insurance to the converted association.

§ 563b.9 Pricing and distribution of securities.

(a) *General.* No sale or distribution of securities of the applicant pursuant to the plan of conversion may be made prior to final approval of the plan pursuant to § 563b.8. No offer to sell or offer to buy such securities may be made prior to preliminary approval of the applicant's plan of conversion by the Corporation. This paragraph shall not apply to preliminary negotiations or agreements between an applicant and any underwriter or among underwriters who are or are to be in privity of contract with the applicant.

(b) *Distribution of proxy and information statement.* The appropriate proxy and information statement shall be distributed to eligible account holders at the same time it is mailed to association members pursuant to § 563b.8 (c). Only one proxy and information statement need be distributed to any person who is both an eligible account holder and an association member.

(c) *Specification of price in proxy and information statement.* The proxy and information statement shall set forth a price range for the securities of the applicant to be distributed to eligible account holders under the plan of conversion. The maximum of such price range shall be no more than 10 percent above the average of the minimum and maximum of such price range and the minimum shall be no more than 10 percent below such average.

(d) *Final pricing.* Prior to or at the time of final approval the applicant shall fix an actual price or a final price range for the securities to be distributed under the plan of conversion. The maximum of the price range under this paragraph shall be no more than 3 percent above the average of the minimum and maximum of such price range and the minimum shall be no more than 3 percent below such average. Following final approval only an actual price within such range may be used.

(e) *Representations as to pricing.* The Corporation will review the price ranges and actual prices described in paragraphs (c) and (d) of this section in determining whether to give preliminary and final approval to plans of conversion. No representations may be made in any manner by the applicant that such price ranges or actual prices have been approved by the Corporation.

(f) *Underwriting expenses.* The price ranges and actual prices described in paragraphs (c) and (d) of this section shall be net of any actual or estimated underwriting commissions, fees and discounts. Such underwriting commissions, fees and discounts shall not exceed an amount or percentage per share acceptable to the Corporation.

(g) *Pricing materials.* (1) In considering price ranges and actual prices under paragraphs (c) and (d) of this section, the Corporation will apply the following guidelines to the materials in support of such price ranges and prices:

(i) The materials shall be prepared by persons independent of the applicant, experienced and expert in the area of corporate appraisal, and acceptable to the Corporation;

(ii) The materials shall contain data which are sufficient to support the conclusions reached therein;

(iii) The materials shall contain a complete and detailed description of the appraisal methodology employed; and

(iv) To the extent that the appraisal is based on comparison of the proposed securities of the applicant with outstanding securities of existing stock associations, the materials must demonstrate the appropriate comparability of the form and substance of such outstanding securities and the appropriate comparability of such existing stock associations in terms of such factors as size, market area, competitive conditions, profit history, and expected future earnings.

(2) In addition to the information required in paragraph (g)(1) of this section, the applicant shall submit information demonstrating to the satisfaction of the Corporation the independence and expertise of any person preparing materials under this paragraph. However, a person will not be considered as lacking independence for the reason that such person will participate in effecting a distribution of securities under the plan of conversion.

(h) *Order forms.* (1) Concurrently with or after the distribution of the appropriate proxy and information statement pursuant to paragraph (b) of this section, the applicant may distribute to all eligible account holders and such association members who may have rights under the plan of conversion forms upon which such account holders and members may indicate decisions as to choices exercisable under the applicant's plan of conversion.

(2) The applicant may make provision for such order forms to be binding on such account holders and members even though such order forms, as permitted in paragraph (c) of this section, state a price range. However, an order form stating a price range as permitted in paragraph (c) of this section shall not be binding if it orders the purchase of securities, and if the actual price fixed by the applicant under paragraph (d) of this section is not within such range. Eligible account holders and association members may also revise a choice made on an earlier form up to the time of the meeting. If the form is distributed after the meeting, the minimum exercise period shall be 16 calendar days after completion of the mailing of the forms. The appropriate proxy and information statement shall contain a description of the conditions under which order forms will be binding and of the circumstances under which order forms may be revised.

(3) Forms distributed pursuant to paragraph (h)(1) of this section shall (i) indicate the total number of securities apportioned to the particular eligible account holder to whom the form is addressed, (ii) indicate the period for exercise of the form, (iii) state the price range or actual price of the securities determined in accordance with paragraph (c) or (d) of this section, (iv) provide specifically designated blank spaces for dating and signing the form, (v) contain an acknowledgment by the person completing the form that he has received a proxy and information statement prior to signing the form, (vi) indicate the effect of failing to complete and return the form, and (vii) describe the eligible account holder's right to revise a choice made on an earlier form.

(i) *Exercise and distribution periods.* The minimum exercise period for subscription warrants and rights shall be 16 calendar days after the mailing of such warrants or rights is completed. Distribution of the converted association's capital stock and such cash or credits to accounts as may be payable under the plan of conversion shall be completed as promptly as possible but no later than 30 calendar days after the later of (1) final approval of the conversion by the Corporation, or (2) the expiration date of such warrants or rights, or (3) commencement of a public offering of the applicant's securities, if any, pursuant to the plan of conversion.

§ 563b.10 Post-conversion reports.

(a) *Itemized expenses.* Within 90 days after distribution of capital stock under this part, the insured institution shall file the information required by the item in the appropriate proxy and information statement form relating to expenses incurred in converting to a stock association. Such information shall be final, and the expenses shall be separately stated to the extent required by such form.

(b) *Additional reports.* The insured institution shall file such other reports concerning its conversion as the Corporation may require.

PART 571—STATEMENTS OF POLICY

3. It is proposed to adopt a new Statement of Policy, § 571.8, as follows:

§ 571.8 Maintenance of records for conversions.

(a) Section 563b.5 of the rules and regulations for insurance of accounts requires in part that, in the conversion of an insured institution to the stock form, specified percentages of conversion securities be distributed on the basis of eligible accountholders' qualifying deposits and/or the quarterly average of their qualifying deposits over certain periods. This system of time adjustment for determining the amount of conversion securities to which each eligible accountholder is entitled is basically a system of forward time averaging and weighting, as opposed to back time averaging and weighting. This system was selected because it appears that most insured institutions do not have internal controls sufficient to trace predecessor accounts, as defined in § 563b.5 of this chapter, for any extended period prior to July 13, 1972, except at prohibitive cost. A system of forward time averaging or weighting thus gives insured institutions desiring to convert ample notice that they should establish the necessary internal controls.

(b) The Corporation nevertheless anticipates that there will be insured institutions which will form an intent to convert at a later date and which will not have previously established the necessary internal controls. Such institutions will then be in the posture of having to trace predecessor accounts as though the Corporation had initially adopted a requirement of back time averaging and weighting with respect to them. The Corporation therefore anticipates that it will receive requests from such institutions for a relaxation of time weighting and averaging requirements.

(c) It will be the policy of the Corporation not to consider such requests favorably. The Corporation is of the view that only a system of time adjustment which is applied on a uniform and consistent basis is sufficient to discourage shifts of savings funds on a destabilizing scale as a result of conversions. The Corporation encourages insured institutions to establish promptly the internal controls necessary to trace predecessor accounts whether or not the institution has any plans to convert.

4. In connection with proposed new Part 563b, the Board proposes to adopt and employ the following forms:

FORM PA

[Facing Sheet]

FEDERAL HOME LOAN BANK BOARD

Federal Savings and Loan Insurance Corporation

Washington, D.C. 20552

Application for Preliminary Approval of Conversion

(Exact name of applicant as specified in charter)

(Street address of applicant)

(City, State, and ZIP code)

(Date of application)

GENERAL INSTRUCTIONS

A. RULE AS TO USE OF FORM PA

Form PA shall be used by any insured institution seeking Federal Home Loan Bank Board or Federal Savings and Loan Insurance Corporation preliminary approval of conversion from the mutual to the stock form of organization pursuant to Part 563b of the rules and regulations for insurance of accounts.

B. APPLICATION OF RULES AND REGULATIONS

Attention is directed to insurance § 563b.3. That section contains general requirements regarding preparation and filing of this form. The definitions in insurance § 563b.2 also should be noted.

Item 1. *Form of application.* Set forth an application for preliminary approval of the applicant's plan of conversion in the following form:

(City) (State)

(Date)

V 38 - 7 JAN 11 73 XUM

FEDERAL HOME LOAN BANK BOARD

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Washington, D.C.

The undersigned hereby makes application for preliminary approval to convert into a stock association, and submits herewith a statement of its proposed plan of conversion and other information and exhibits as required by Part 563b of the rules and regulations for insurance of accounts of the Federal Savings and Loan Insurance Corporation.

In submitting this application the applicant understands and agrees that, if further examinations or appraisals, or both, are required by the Federal Home Loan Bank Board or the Federal Savings and Loan Insurance Corporation, they will be conducted by, or as approved by, the Board or the Corporation at the expense of the applicant; and applicant will pay the costs thereof as incurred by the Board or the Corporation.

This application has been approved by at least two-thirds of the board of directors of the applicant. In accordance with § 563b.3(c)(4) of the rules and regulations for insurance of accounts, by the filing of this application, the applicant by its duly authorized representative, the undersigned officers and each member of the applicant's board of directors severally represent, except to the extent otherwise provided in said section, (1) that each such person has read this application; (2) that in the opinion of each such person, he has made such examination and investigation as is necessary to enable him to express an informed opinion that this application complies to the best of his knowledge and belief with the applicable requirements of Part 563b of the rules and regulations for insurance of accounts and forms thereunder; and (3) that each such person holds such informed opinion.

Attest:

(Principal Financial Officer)

_____
(Principal Accounting Officer)

_____
(Two-thirds of the Board of Directors)

Item 2. *Plan of conversion.* Furnish the complete formal written plan adopted by the board of directors of the applicant for conversion of the applicant to the stock form of organization. The terms of the plan submitted pursuant to this Item will be a basis for the Corporation's approval and the plan as approved will be distributed as an attachment to the proxy and information statement distributed to association members and to eligible account holders.

Item 3. *Proxy and information statement.* Furnish preliminary copies of the proxy and information statement to be distributed by the applicant to association members and to eligible account holders. Attention is directed to § 563b.6(e) regarding additional requirements for filing of proxy solicitation materials.

Item 4. *Form of proxy.* Furnish preliminary copies of the form of proxy to be distributed to association members by the applicant's management.

Item 5. *Sequence and timing of the plan.* Set forth the expected chronological order of the events connected with the applicant's plan of conversion beginning with the filing of this application through distribution of the capital stock certificates pursuant to § 563b.9(i). Indicate the expected timing of any requisite approvals by State authorities. If there will be an underwritten public offering of the applicant's securities as part of the plan of conversion, indicate the proposed timing of all aspects of such offering beginning with the distribution of preliminary offering circulars. For purposes of completing this item, the applicant should allow a minimum of 30 business days after filing of this application for receipt of comments from the Corporation's staff and a minimum of 10 business days after filing amendments in response to such comments for preliminary approval of the plan of conversion by the Corporation.

Item 6. *Record date and percentages.* If the applicant's plan of conversion contains a distribution record date earlier than the latest such date approved by the Corporation, state the reasons for the selection of the earlier date. If the applicant's plan contains more than one distribution record date, a distribution record period, or distribution record periods, state the reasons for the selection of such provisions. If the applicant's plan of conversion contains percentages for allocation of stock which vary from the percentages specified in the table contained in § 563b.5, state the reasons for such variation. It should be noted that such percentage variation may be made only in accordance with § 563b.5(e)(2).

Item 7. *Savings account balances of personnel.* In the case of plans of conversion adopted during 1972 through 1977, for each director and officer of the applicant, and for each employee of the applicant whose total account balances, including the balances of each associate of such employee, as of the distribution record date were more than $20,000, set forth in tabular form his total account balances as of (1) the end of each quarterly period during 1972, unless the end of any such quarterly period is subsequent to the distribution record date under the applicant's plan of conversion; (2) the distribution record date under the applicant's plan of conversion; and (3) any other date or dates during 1972 as of which stock is to be allocated under the plan of conversion. This item need not be completed as to any officer, director, employee, or associate who is not an eligible account holder under the applicant's plan of conversion.

Item 8. *Management syndicate.* If the directors and officers of the applicant propose to form a group or syndicate for the purpose of purchasing the applicant's securities pursuant to the plan of conversion, give a detailed description of any financing arrangements to be employed. If the applicant presently proposes to issue new stock within 1 year following conversion and if the directors and officers of the applicant are to receive any priority right to purchase such stock, give a detailed description of such proposal and of any financing arrangements to be employed.

Item 9. *Subscription warrants or rights.* If subscription warrants or rights are to be employed pursuant to the applicant's plan of conversion, give a complete and detailed description of the operation and the feasibility of the use of such warrants or rights in addition to the information summarized in the proxy and information statement. The information called for by this item should explain fully how the applicant proposes to insure that fair value will be received by persons who do not exercise their warrants or rights.

Item 10. *Expenses of conversion.* With respect to the applicant's estimated expenses of conversion set forth pursuant to Item 5 of Form PS, describe briefly any transactions or proposed transactions giving rise to such expenses in which any of the following persons had or is to have a direct or indirect material interest, naming such person and stating his relationship to the applicant, the nature of his interest in the transaction and, where practicable, the amount of such interest:

(a) Any director or officer of the applicant; and

(b) Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same home as such person or who is a director or officer of any subsidiary of the applicant.

Instructions. 1. No information need be given in response to this Item 10 as to any remuneration or other transaction reported in response to Item 7 of Form PS.

2. No information need be given in answer to this Item 10 as to any specified person if the total direct and indirect material interest of such person in transactions or proposed transactions giving rise to the applicant's conversion expenses is less than $5.000.

3. It should be noted that this item calls for disclosure of indirect, as well as direct, material interests in transactions. A person who has a position or relationship with a firm, corporation, or other entity, which engages in a transaction with the applicant related to the applicant's conversion expenses may have an indirect interest in such transaction by reason of such position or relationship. However, a person shall be deemed not to have a material interest in a transaction within the meaning of this Item 10 where—

(a) The interest arises only (i) from such person's position as a director of another corporation or organization (other than a partnership) which is a party to the transaction, or (ii) from the direct or indirect ownership by such person and all other persons specified in paragraphs (a) and (b) of this Item 10, in the aggregate, of less than a 10 percent equity interest in another person (other than a partnership) which is a party to the transaction, or (iii) from both such position and ownership;

(b) The interest of such person arises solely from the holding of an equity interest (including a limited partnership interest but excluding a general partnership interest) or a creditor interest in another person which is a party to the transaction with the applicant or any of its subsidiaries and the transaction is not material to such other person.

4. The amount of the interest of any specified person shall be computed without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, the approximate amount involved in the transaction shall be indicated.

Item 11. *Indemnification of Directors and Officers.* State the general effect of any charter provisions, bylaw, contract, arrangement, statute, or regulation to be in effect after conversion under which any director or officer of the converted association will be insured or indemnified in any manner against any liability which he may incur in his capacity as such.

EXHIBITS

The following exhibits shall be attached to this form.

Exhibit 1. *Resolution of Board of Directors.* Set forth a certified copy or copies of a resolution or resolutions of the applicant's board of directors (1) adopting the plan of conversion filed with this application; (2) authorizing the filing of this application; and (3) applying for continued insurance of accounts by the Federal Savings and Loan Insurance Corporation and continued membership in the appropriate Federal Home Loan Bank. The action adopting the plan of conversion and authorizing the filing of this application must be approved by two-thirds of the applicant's board of directors.

Exhibit 2. *Copies of documents, contracts and agreements.* Furnish the following documents, contracts and agreements: (a) Proposed capital stock certificates to be issued; (b) proposed order forms, and the subscription warrants and rights; (c) proposed charter and bylaws of the applicant to take effect upon conversion; (d) any proposed stock option plan and form of option, any proposed stock purchase plan and form of agreement, and any proposed management employment contracts; (e) any contract described in response to Item 7(e) of Form PS; (f) the agreements executed pursuant to § 563b.5(h); (g) contracts or agreements with paid solicitors described in response to Item 3(b) of Form PS; (h) any material loan agreements relating to borrowings by the applicant other than from a Federal Home Loan Bank and other than subordinated debt securities approved by the Corporation; (i) proposed underwriting contracts and agreements among underwriters; (j) any contracts or agreements among the members of the group or syndicate regarding the purchase of the applicant's securities described in response to Item 9(g) of Form PS; and (k) any documents referred to in the answer to Item 11 of this form. Documents, contracts, and agreements which are furnished in proposed form pursuant to this item, shall be furnished in final form prior to final approval by the Corporation.

Exhibit 3. *Opinions of Counsel.* Furnish opinions by counsel for the applicant regarding each of the following matters: (a) The legal sufficiency of the applicant's proposed capital stock certificates, order forms, and subscription warrants and rights, (b) State law requirements applicable to the applicant's plan of conversion including citations to applicable State law and whether such requirements will be fulfilled by the plan, (c) the legal sufficiency of the applicant's proposed charter and bylaws, (d) the effect of any State escheat law or other applicable law on securities or cash distributions to eligible account holders who cannot be located by the applicant, (e) the type and extent of each class of voting rights in the applicant after conversion, including any requirement of State law that savings account holders or borrowers have voting rights in the converted institution, and (f) the legality and Federal income tax effect to the applicant of any proposed stock option plan or stock purchase plan described in response to Item 14 of Form PS.

Exhibit 4. *Federal and State tax opinions and rulings.* (a) Furnish an opinion of the applicant's tax advisor as to the Federal income tax consequences of the applicant's plan of conversion to the applicant, to eligible account holders, and to such association members who may have rights under such plan.

Instructions. 1. The applicant should obtain its Federal income tax opinion prior to adoption of the plan of conversion by the board of directors.

2. The Corporation recommends that all applicants obtain a ruling from the Department of Treasury Internal Revenue Service regarding the Federal income tax consequences of the applicant's plan of conversion. The Corporation may require that such a ruling be obtained if the applicant's plan of conversion is not substantially similar to plans of conversion which have received favorable rulings. The Corporation may also require that such a ruling be obtained if the applicant's plan of conversion contains novel provisions or there is otherwise a question as to the Federal income tax consequences of the plan.

(b) Furnish an opinion of the applicant's tax advisor as to any tax consequences of the plan of conversion under the laws of the State in which the applicant will be chartered upon conversion. Such opinion should relate to the applicant, to eligible account holders, and to such association members who may have rights under such plan.

Exhibit 5. *Appraisal materials.* Furnish the materials required by § 563b.9(g) regarding appraisal of the applicant.

Exhibit 6. *Notice to members prior to filing.* Furnish the notice to the applicant's members required by § 563b.4(b)(2).

Exhibit 7. *Statement as to account balances of management.* Attach a statement by an independent public accountant that he has reviewed the information furnished pursuant to Item 7 of this Form relating to account balances of officers, directors, employees and their associates and the procedures followed to obtain that information, and that, based on such review, he is aware of no reason to believe that the information furnished was misleading.

Exhibit 8. *Other materials.* (a) If information required by an appropriate form is not given for the reasons specified in § 563b.3(h), furnish the statement required for each such omission by § 653b.3(h)(2).

(b) Furnish all consents required to be filed by § 563b.3 (n) and (o).

(c) If applicable, furnish the statement required by the Instruction to Item 6(e) of Form PS regarding events which occurred within the last ten years to directors of the applicant.

(d) If information required by Item 17(h) of Form PS relating to historical financial information is omitted, furnish the statement required by Item 17(h)(1) of Form PS.

(e) Furnish any powers of attorney employed pursuant to § 563b.3(c)(3).

(f) Furnish the cross reference sheet referred to in § 563b.3(e).

Item 15. New charter, bylaws or other documents.
Item 16. Other matters.
Item 17. Financial statements.
Item 18. Consents of experts and reports.
Item 19. Attachments.

FORM PS

INFORMATION REQUIRED IN CONVERSION PROXY AND INFORMATION STATEMENT

NOTE: A. Except as otherwise specifically provided, where any item calls for information for a specified period in regard to directors, officers or other persons holding specified positions or relationships, the information shall be given in regard to any person who held any of the specified positions or relationships at any time during the period. However, information need not be included for any portion of the period during which such person did not hold any such position or relationship provided a statement to that effect is made.

Item 1. *Notice of meeting.* The cover page of the proxy and information statement shall give notice of the meeting of the association members called by the board of directors to act upon the conversion. The cover page shall include the date, time, and place of the meeting, a brief description of each matter to be acted upon at the meeting, the date of record for association members entitled to vote at the meeting, the date of the statement, and the full address, zip code and telephone number of the applicant.

Item 2. *Revocability of proxy.* State that the person giving the proxy has the power to revoke it before the proxy is exercised at the meeting. If the right of revocation is subject to compliance with any formal procedure, briefly describe such procedure. Briefly describe any charter or State law requirement otherwise restricting voting by proxy. State that the proxy is solicited for that meeting, and any adjournment thereof, and will not be used for any other meeting. (See also § 563b.6(d)(3).)

Item 3. *Persons making the solicitation.* (a) State whether the solicitation is made by the management of the applicant. Give the name of any director of the applicant who has informed the management in writing that he intends to oppose any action intended to be taken by the management and indicate the action which he intends to oppose.

(b) If the solicitation is to be made otherwise than by the use of the mails, describe the methods to be employed. If the solicitation is to be made by specially engaged employees or paid solicitors, state the material features of any contract or arrangement for such solicitation and identify the parties.

(c) If the solicitation is made otherwise than by the management of the applicant, so state and give the names of the persons by whom and on whose behalf it is made. Any such solicitation normally need not respond to items 6 through 19, but must include such information as to make such solicitations comply with § 563b.6(g)(1).

Item 4. *Voting rights and vote required for approval.* (a) Describe briefly the voting rights of each class of association members. State the approximate total number of votes entitled to be cast at the meeting, and the approximate number of votes to which each class is entitled.

V38-7 JAN 11 73 XUM

(b) As part of the description give the date of record for association members entitled to vote at the meeting.

(c) As to each matter which will be submitted to a vote of association members, state the vote required for its approval.

Item 5. *Expenses incident to the conversion.* (a) Provide in substantially the tabular form indicated below the estimated expense of the conversion and the estimated expense to the applicant of the public offering, if any, of the applicant's securities incident to the conversion:

	Allocable to conversion	Allocable to public offering	Total
Legal			
Postage and mailing			
Printing			
Escrow or agent fees			
Underwriting fees			
Appraisal fees			
Transfer agent fees			
Auditing and accounting			
Proxy solicitation fees			
Advertising			
Other expenses			
Total			

(b) State by whom the costs itemized above are to be borne, directly or indirectly. If the solicitation is conducted other than by management of the applicant, the information required in paragraph (a) shall be limited to the cost of such solicitation.

Instructions—1. As to paragraph (a), the applicant shall exclude costs represented by salaries and wages of regular employees and officers, and a statement to that effect shall be included in the proxy statement. The cost of solicitation by specially engaged employees or paid solicitors under paragraph (b) of Item 3 shall be stated under "Proxy Solicitation Fees" in paragraph (a) of this item.

2. If the applicant has any category of expense exceeding $10,000 which is not specified in paragraph (a), such expense shall be itemized rather than including it under the category "Other Expenses."

Item 6. *Directors and Executive Officers.* (a) List the names and ages of all directors of the applicant, indicate all positions and offices with the applicant held by each such person, state his term of office as director and the period during which he has served as such and briefly describe any arrangement or understanding between him and any other person pursuant to which he was selected as a director.

(b) List the names and ages of all executive officers of the applicant and indicate all positions and offices held with the applicant by each such person.

Instruction. The term "executive officer" means the president, vice president, secretary, treasurer, controller, principal accounting officer, any officer in charge of a principal lending or savings function, and any other officer or person who performs similar policy making functions for the applicant.

(c) State the nature of any family relationship between any director or executive officer and any other director or executive officer.

Instruction. The term "family relationship" means any relationship, by blood, marriage, or adoption, not more remote than first cousin.

(d) Give a brief account of the business experience during the past 5 years of each director and each executive officer, including his principal occupations and employments during that period and the name and principal business of any corporation or other organization in which such occupations and employments were carried on.

(e) Describe any of the following events which occurred during the past 10 years and which are material to an evaluation of the ability and integrity of any director of the applicant:

(1) A petition under the Bankruptcy Act or any State insolvency law was filed by or against, or a receiver, fiscal agent or similar officer was appointed by a court for the business or property of, such person, or any partnership in which he was a general partner at or within 2 years before the time of such filing, or any corporation or business association of which he was an executive officer at or within 2 years before the time of such filing;

(2) Such person was convicted in a criminal proceeding or is the subject of a criminal proceeding which is presently pending (excluding proceedings for traffic violations and other minor offenses); or

(3) Such person was the subject of any order, judgment, or decree of any court of competent jurisdiction permanently or temporarily enjoining him from acting as an investment adviser, underwriter, broker or dealer in securities, or as an affiliated person, director or employee of any investment company, bank or insurance company, or removing him from office and/or prohibiting him from further participation in any manner in the conduct of the affairs of an insured institution, or from engaging in or continuing any conduct or practice in connection with any such activity or in connection with the purchase or sale of any security, or was the subject of any order of a Federal or State authority barring or suspending, for more than 60 days, the right of such person to be engaged in any such activity, which order has not been reversed or suspended.

Instruction. If any event specified in paragraph (e) has occurred but information in regard thereto is omitted on the ground that it is not material, the applicant shall furnish, as supplemental information and not as a part of the statement the reasons for the omission of information in regard thereto.

(f) State whether control of the applicant has been exercised through the use of proxies and the nature of such control.

Item 7. *Remuneration and other transactions with management and others.* NOTE: Refer to Note 2 of Item 17 of this form.

(a) Furnish the following information in substantially the tabular form indicated below as to all direct remuneration paid by the applicant and its subsidiaries during the applicant's last fiscal year to the following persons for services in all capacities:

(1) Each director of the applicant whose aggregate direct remuneration exceeded $30,000, and each of the three highest paid officers of the applicant whose aggregate direct remuneration exceeded that amount, naming each such director and officer.

(2) All directors and officers of the applicant as a group, stating the number of persons in the group without naming them.

(A) Name of individual or number of persons in group	(B) Capacities in which remuneration was received	(C) Aggregate direct remuneration

Instructions. (1) The information is to be given on an accrual basis if practicable. The tables required by this paragraphs (a) and (b) below may be combined if the applicant so desires.

(2) Do not include remuneration paid to a partnership to which any director or officer was a partner, but see paragraph (e) below.

(b) Furnish the following information in substantially the tabular form indicated as to all annuity, pension or retirement benefits proposed to be paid to the following persons in the event of retirement at their normal retirement dates pursuant to any existing plan provided or contributed to by the applicant or any of its subsidiaries:

(1) Each director or officer named in answer to paragraph (a)(1), naming each such person.

(2) All directors and officers of the applicant as a group, stating the number of persons in the group without naming them.

(A) Name of individual or number of persons in group	(B) Amount set aside or accrued during applicant's last fiscal year	(C) Estimated annual benefits upon retirement

Instructions. (1) The term "plan" in this paragraph and in paragraph (c) includes all plans, contracts, authorizations or arrangements, whether or not set forth in any formal document.

(2) Column (B) need not be answered with respect to payments computed on an actuarial basis under any plan which provides for fixed benefits in the event of retirement at a specified number of years of service. In such case, Columns (A) and (C) need not be answered with respect to directors and officers as a group.

(3) The information called for by Column (C) may be given in the form of a table showing the annual benefits payable upon retirement to persons in specified salary classifications.

(4) In the case of any plan (other than those specified in Instruction (2) where the amount set aside each year depends upon the amount of earnings of the applicant or its subsidiaries for such year or a prior year, or where it is otherwise impracticable to state the estimated benefits upon retirement, there shall be set forth, in lieu of the information called for by Column (C), the aggregate amount set aside or accrued to date, unless it is impracticable to do so, in which case there shall be stated the method of computing such benefits.

(c) Describe briefly all remuneration payments (other than payments reported in (a) or (b) of this Item) proposed to be made in the future, directly or indirectly, by the applicant or any of its subsidiaries pursuant to any existing plan or arrangement to (i) each director or officer named in answer to paragraph (a)(1), naming each such person, and (ii) all directors and officers of the applicant as a group without naming them.

Instruction. Information need not be included as to payments to be made for, or benefits to be received from, group life or accident insurance, group hospitalization or similar group payments or benefits. If, it is impracticable to state the amount set aside or accrued to date in respect of such payments shall be stated, together with an explanation of the basis for future payments.

(d) State as to each of the following persons who was indebted to the applicant or its subsidiaries at any time during the last 3 years, (i) the largest aggregate amount of indebtedness and the nature of the transaction in which it was incurred, (ii) the amount thereof outstanding as of the largest practicable date, and (iii) the annual percentage rate paid or charged thereon (as computed under 12 CFR Part 226):

(1) Each director and officer of the applicant; and

(2) Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same home as such person or who is a director or officer of any subsidiary of the applicant.

Instructions. (1) Include the name of each person whose indebtedness is described and the nature of the relationship by reason of which the information is required to be given.

(2) This paragraph does not apply to amounts due a person for ordinary travel and expense advances and similar transactions.

(3) If the loans to such persons (a) are secured by a first lien on a single-family dwelling owned and occupied by a director or officer of the applicant at the time of making the loan and such loan at such time did not exceed the amount then specified in section 5(c) of the Home Owners' Loan Act of 1933, as amended, with respect to single-family dwellings if applicable or (b) are fully secured by a savings account, and if the lender is the applicant, such disclosure may consist of a statement, if such is the case, that the loans to such persons (i) were made in the ordinary course of business, (ii) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and (iii) did not involve more than normal risk of collectibility or present other unfavorable features.

(4) Computation of the annual percentage rate under paragraph (d)(iii) is to be done as though 12 CFR Part 226 was applicable to the transaction.

(e) Describe briefly any transactions during or since the applicant's last 3 fiscal years or any proposed transactions, to which the applicant or any of its subsidiaries was or is to be a party, in which any of the following persons had or is to have a direct or indirect material interest, naming such person and stating his relationship to the applicant, the nature of his interest in the transaction and, where practicable, the amount of such interest:

(1) Any director or officer of the applicant;

(2) Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same home as such person or who is a director or officer of any subsidiary of the applicant.

Instructions. 1. No information need be given in response to this Item 7(e) as to any remuneration or other transaction reported in response to Item 7 (a), (b), (c), or (d), or as to any transaction with respect to which information may be omitted pursuant to instructions relating to such Items.

2. No information need be given in answer to this Item 7(e) as to any transaction where—

(a) The amount involved in the transaction or a series of similar transactions, including all periodic installments in the case of any lease or other agreement providing for periodic payments or installments, does not exceed $30,000; or

(b) The interest of the specified person arises solely from the ownership of savings accounts of the applicant and the specified person receives no extra or special benefit not shared on a pro rata basis by all savings account holders as a class.

3. It should be noted that this Item calls for disclosure of indirect, as well as direct, material interests in transactions. A person who has a position or relationship with a firm, corporation, or other entity, which engages in a transaction with the applicant or its subsidiaries may have an indirect interest in such transaction by reason of such position or relationship. However, a person shall be deemed not to have a material indirect interest in a transaction within the meaning of this Item 7(e) where—

(a) The interest arises only (i) from such person's position as a director of another corporation or organization (other than a partnership) which is a party to the transaction, or (ii) from the direct or indirect ownership by such person and all other persons specified in subparagraphs (1) and (2) of paragraph (e), above, in the aggregate, of less than a 10 percent equity interest in another person (other than a partnership) which is a party to the transaction, or (iii) from both such position and ownership;

(b) The interest of such person arises solely from the holding of an equity interest (including a limited partnership interest but excluding a general partnership interest) or a creditor interest in another person which is a party to the transaction with the applicant or any of its subsidiaries and the transaction is not material to such other person.

4. The amount of the interest of any specified person shall be computed without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, the approximate amount involved in the transaction shall be indicated.

5. In describing any transaction involving the purchase or sale of the assets to the purchaser and, if acquired by the seller within 2 years prior to the transaction, the cost thereof to the seller.

6. The foregoing instructions specify certain transactions and interests as to which information may be omitted in answering paragraph (e) of this item. There may be situations where, although the foregoing instructions do not expressly authorize nondisclosure, the interest of a specified person in the particular transaction or series of transactions is not a material interest. In that case, information regarding such interest and transaction is not required to be disclosed in response to this item.

(f) Describe briefly any transactions during or since the applicant's last 3 fiscal years or any presently proposed transactions, to which any pension, retirement or similar plan provided by the applicant or any of its subsidiaries, was or is to be a party, in which any of the following persons had or is to have a direct or indirect material interest, naming such person and stating his relationship to the applicant, the nature of his interest in the transaction and, where practicable, the amount of such interest:

(1) Any director or officer of the applicant;

(2) Any relative or spouse of any of the foregoing persons, or any relative of such spouse, who has the same home as such person or who is a director or officer of any subsidiary of the applicant; or

(3) The applicant or any of its subsidiaries.

Instructions. 1. Instructions 2, 3, 4, and 5 to Item 7(e) shall apply to this Item 7(f).

2. Without limiting the general meaning of the term "transaction" there shall be included in answer to this Item 7(f) any remuneration received or any loans received or outstanding during the period, or proposed to be received.

3. No information need be given in answer to this paragraph (f) with respect to—

(a) Payments to the plan, or payments to beneficiaries, pursuant to the terms of the plan;

(b) Payment of remuneration for services not in excess of 5 percent of the aggregate remuneration received by the specified person during the applicant's last fiscal year from the applicant and its subsidiaries; or

(c) Any interest of the applicant or any of its subsidiaries which arises solely from its general interest in the success of the plan.

Item 8. *Business of the applicant*—(a) *Organization.* State the year in which the applicant was organized and whether its present charter was issued by the State or Federal Government. Describe briefly any previous conversion of the applicant.

(b) *Selected statement of financial condition and other items.* As of the end of each of the periods covered by the statements of operations required by item 17(b)(1) and as of the date of the latest statement of financial condition required by item 17(a), set forth in tabular form the amounts of the following items: (1) total assets, (2) real estate loans outstanding, (3) savings accounts, (4) advances from the Federal Home Loan Bank, (5) other borrowed money, if material, (6) net worth and (7) number of offices indicating any which are less than full service. The applicant may use other substantially similar captions, and may include other items such as number of real estate loans outstanding and number of savings accounts.

(c) *Mergers and acquisitions.* Indicate in tabular form, any mergers, bulk purchase of assets and similar acquisitions which have occurred in the periods covered by statements of operations required by item 17(b). With respect to each such acquisition, give names of the association involved, its location, its total assets immediately prior to such acquisition, the number of offices acquired, the method of accounting for such acquisition, and any excess of cost over the net assets acquired (goodwill) included in the latest balance sheet. The information provided in this section should be referenced to any appropriate notes to the financial statements required by item 17.

(d) *Lending activities.* (1) Describe briefly applicable regulations (both State and Federal) on the lending activities of the applicant including any applicable State usury laws or any other Federal or State laws affecting mortgage loan interest rates. Describe the applicant's general policy concerning loan to value ratios. Describe briefly the applicant's customary methods of obtaining loan originations such as the use of loan consultants and approval of security properties and use of a loan committee, if any. Describe briefly the applicant's policies as to requiring title insurance and fire and casualty insurance on security properties.

(2) As of the end of the periods covered by the statements of operations required by item 17(b)(1) and as of the date of the latest statement of financial condition required by item 17(a), set forth in tabular form the amount and percentage of the loan portfolio of the applicant (i) by type of loan and (ii) by type of security.

Instructions. 1. For the classification required by subparagraph (2)(i), separate types of loans into real estate loans and loans for other purposes. Also, separate real estate loans into conventional loans and FHA–VA loans, and conventional loans shall be separated into loans for construction, loans on existing property and loans refinanced.

2. For the classification required by subparagraph (2)(ii), type of security shall be separated into residential and other types. Residential loans shall be separated into single-family dwellings, two-to-four family dwellings, and other dwelling units. Also, indicate any material classification of other loans such as mobile home loans, home improvement loans, home equipping loans, passbook loans, commercial or industrial loans, and undeveloped land loans.

3. For each of the periods covered by the statements of operations required by item 17(b), set forth in tabular form the amount for each period of (i) loans originated, (ii) loans purchased, (iii) loans sold, and (iv) total net loan activity. Also describe briefly the applicant's total activity as of the date of the latest statement of financial condition required by item 17(a), and the applicant's

V 38 - 7 JAN 11 73 XUM

intended future activities in secondary mortgage markets including transactions with the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, or mortgage bankers. If significant, indicate loan service fee income as a percentage of gross income for the year ended as of the latest statement of financial condition required by Item 17(a).

Instructions. 1. For the classification required by subparagraph (3)(i), loans originated shall be separated into real estate loans, loans for other purposes, and total loans originated. Real estate loans shall be further separated into conventional loans and FHA-VA loans, and conventional loans shall be separated into loans for construction, loans on existing property, and loans refinanced.

2. For the classification required by subparagraph (3)(ii), loans purchased shall be separated into real estate loans, loans for other purposes, and total loans purchased. Real estate loans shall be further separated into conventional loans and FHA-VA loans.

3. For the classification required by subparagraph (3)(iii), loans sold shall be separated into whole loans, participation loans, and total loans sold.

4. For the classification required by subparagraph (3)(iv), total net loan activity shall be equal to total loans originated plus total loans purchased minus total loans sold.

(4) As to the lending area of the applicant, describe briefly (i) the lending area restrictions applicable to the applicant, (ii) the areas in which the applicant normally lends and areas in which it has a policy not to lend, and (iii) any material loan concentration areas of the applicant. Such descriptions may include a map illustrating one or more of these areas. Furnish an estimate of the housing vacancy rates in areas where the applicant's loan concentrations are located, if practicable.

(5) Describe briefly the general long term nature of investment in mortgage loans and the consequent effect upon the earnings spread of savings and loan associations. State the normal maturity of loans made by the applicant on the security of single-family dwellings and furnish an estimate as to the average length of time such loans are outstanding.

(6) As of the end of each of the periods covered by the statements of operations required by Item 17(b)(1) and as of the date of the latest statement of financial condition required by Item 17(a), set forth in tabular form, excluding origination fees, discounts and premiums on real estate loans originated, the following: (i) weighted average of return on loans originated and purchased during each period, (ii) weighted average rate of return on loans held at the end of each period, (iii) weighted average interest cost of savings at the end of each period, (iv) weighted average interest cost of Federal Home Loan Bank advances and other borrowings during the period, (v) total weighted average interest cost of savings and borrowings for the period (the total of (iii) and (iv)), and (vi) the gross margin ((ii) minus (v)).

Instruction. As an example of the calculation of the weighted average rate, the following method should be used to calculate the weighted average interest rate on savings:

1. Determine the percentage of total savings represented by each type of savings instrument.

2. Multiply these percentages by the contractual interest rate the applicant is committed to pay on such instruments.

3. The resulting percentages are then totaled, giving the weighted rate.

(7) As of the end of each of the periods covered by the statements of operations required by Item 17(b)(1) and as of the date of the latest statement of financial condition required by Item 17(a), set forth in tabular form loan origination fees charged to borrowers expressed as a percentage of the total amount of loans originated.

(8) Describe briefly the applicant's method of loan origination fee and discount amortization and the total of such balances deferred by the applicant as of the date of the latest statement of financial condition required by Item 17(a). Describe briefly the volatile nature of loan fee income.

(9) Describe briefly the regulatory classifications of scheduled items and the applicant's customary procedures regarding delinquent loans. As of the end of each of the periods covered by the statements of operations required by Item 17(b)(1) and as of the date of the latest statement of financial condition required by Item 17(a), set forth in tabular form the amounts and categories (slow loans, real estate owned, loans to facilitate, and others) of scheduled items and the ratio of such scheduled items to specified assets and to total assets. Where real estate owned is a significant portion of scheduled items, include a brief description of the major properties included therein and a statement as to the applicant's probable loss, if any, upon disposition of such properties.

(e) *Savings activities.* (1) As of the date of the latest statement of financial condition required by Item 17(a), set forth in tabular form the amounts and percentages of savings accounts by categories of interest rate. As to certificates of deposit, indicate the term and minimum balances required for each. As of the date of the latest statement of financial condition required by Item 17(a), also set forth in tabular form the amounts of such certificates maturing by quarter for each of the subsequent five quarters and the total maturing thereafter, the percentage of such amounts to total savings.

(2) Describe the applicant's methods of computing and paying interest for both passbook savings accounts and certificates of deposit. State that the maximum rate of interest which the applicant may pay is established by the Board. State that in the event of liquidation of the applicant after conversion, savings account holders will be entitled to full payment of their accounts prior to payment to stockholders. Also, indicate the percentage of total savings accounts which are from out-of-state sources, if such total is significant.

(f) *Insurance of accounts.* (1) Describe briefly insurance of accounts and the general regulatory authority of the Corporation.

(2) Describe the Federal insurance reserve requirements, the results of failure to meet those requirements, and the applicant's Federal insurance reserve account position in relation to those requirements. Also describe the annual insurance premium payment and prepayment requirements.

(g) *Federal Home Loan Bank System.* (1) Describe briefly the Federal Home Loan Bank System and state that the applicant is a member. Such description shall include (i) limitations on borrowings, (ii) recent loan policies of the applicant's Federal Home Loan Bank and current interest rates, and (iii) Federal Home Loan Bank stock purchase requirements and the applicant's position with respect to those requirements.

(2) Describe briefly applicable liquidity requirements under section 5A of the Federal Home Loan Bank Act, as amended, the regulations thereunder, and State law. State the applicant's position with respect to those requirements.

(h) *State Savings and Loan Association Law.* Describe briefly applicable provisions of State law which have a material effect on the business of the applicant.

(i) *Federal and State taxation.* Describe briefly the Federal income tax laws applicable to the applicant including (1) permissible bad debt reserves, (2) the applicant's position with respect to the maximum bad debt reserve limitations as of the date of the latest statement of financial condition required under Item 17(a), (3) future increases in the effective income tax rate, (4) the date through which the applicant's Federal income tax returns have been audited by the Internal Revenue Service, and (5) the tax effect to the applicant of the payment of cash dividends on capital stock of the applicant after conversion. Also describe briefly the State taxation of the applicant.

(j) *Competition.* Describe the material sources of competition for savings and loan associations generally and indicate to the extent practicable the applicant's position in its principal lending and savings markets.

(k) *Office and other material properties.* (1) Furnish the location of the applicant's home office and each existing and approved branch office and other office facilities (such as mobile or satellite offices). State the total net book value of all such offices as of the date of the latest statement of financial condition required by Item 17(a). If any such office is leased, state the expiration dates of such leases.

(2) Describe briefly undeveloped land owned by the applicant, including location, net book value, and prospective use and holding period. If the applicant or a subsidiary owns or leases electronic data processing equipment principally for its own use, describe briefly such equipment indicating net book value if owned or the principal lease terms if leased.

(l) *Employees.* State the number of persons employed fulltime by the applicant including executive officers listed under Item 6. State whether employes are represented by a collective bargaining group and whether the applicant's relations with its employees is satisfactory. Describe briefly any loans, profit sharing, retirement, medical, hospitalization or other remuneration plans provided for employees not already included pursuant to Item 7.

(m) *Service corporations.* Describe briefly the applicant's investment in any subsidiary and the major lines of business (including any joint ventures) of the subsidiary which are material to its operations.

(n) *Pending legal proceedings.* Briefly describe any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the applicant or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underly the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

(o) *Additional information.* The Corporation may, upon the request of the applicant, and where consistent with the protection of eligible account holders and others, permit the omission of any of the information required by this item or the furnishing in substitution therefor of appropriate information of comparable character. The Corporation may also require the furnishing of other information in addition to, or in substitution for, the information required by this item in any case where such information is necessary or appropriate for an adequate description of the applicant's business done or intended to be done.

Item 9. *Description of the applicant's plan of conversion.* (a) The following statement shall be inserted in the proxy and information statement immediately preceding the information required by this item: "The Federal Home Loan Bank Board (FHLBB) has given preliminary approval to this plan of conversion. However, the FHLBB preliminary approval does not constitute a recommendation or endorsement of this plan. Final approval of this plan will not be given by the FHLBB unless at least two-thirds of the outstanding votes of the association's members are cast for this plan."

(b) The proxy and information statement shall contain a description of the applicant's plan of conversion. Such description shall contain the information required by paragraphs (c) through (h) of this Item and such additional information as may be necessary to accurately describe the material provisions of the plan.

(c) Briefly describe the effects of conversion from a mutual association to a stock association including the following information: (1) Describe the ownership interest of a savings member of a mutual association and state that the purpose of the plan is to preserve that ownership interest on an equitable basis in conjunction with converting the applicant to a stock institution; (2) state that savings accounts of the applicant will not be affected by the conversion with respect to such matters as balances in the accounts and the extent of FSLIC insurance of savings accounts; (3) state whether savings and borrowing members of the applicant will continue to have voting rights in the applicant after conversion, and describe the voting rights they will have; (4) state that the rights and obligations of borrowers from the applicant will not be changed in any manner; (5) state that capital stock issued by the applicant will not be insured by the Corporation; (6) state that none of the assets of the applicant will be distributed in order to effect the conversion other than to pay expenses incident thereto; (7) state briefly the reasons why management is recommending the conversion, including any advantages to the community served by the applicant.

(d) With respect to the determination, valuation and distribution of the ownership of eligible account holders, furnish the following information:

(1) State (i) the record date(s) or record period(s) for determining the savings account holders eligible to receive a distribution of the ownership interest, and (ii) the formula used to determine the pro-rata ownership interest for each eligible account holder.

(2) As to the valuation of the ownership interest of eligible account holders, (i) describe briefly the results of the appraisal of the association made by an independent appraiser, (ii) as of the end of each of the periods covered by the profit and loss statements required by Item 17(b)(1) and as of the date of the latest balance sheet required by Item 17(a), set forth in tabular form the earnings per share of capital stock representing the ownership interest of eligible account holders on a pro-forma basis, and (iii) as of the date of the latest balance sheet required by Item 17(a), state the book value per share of capital stock representing the ownership interest of eligible account holders on a pro-forma basis.

(3) If capital stock is to be distributed, or is to be distributable, to eligible account holders, (i) state to what extent fractional shares will be computed (i.e., tenths, hundredths, etc.), that fractional shares will not be issued, and what provision will be made for disposition of fractional share interests on behalf of eligible account holders, (ii) state the minimum number of shares which will be issued and describe the provision under which eligible account holders will be entitled to purchase additional shares to reach the minimum, or to sell allocated shares less than the minimum, and (iii) furnish an example of the computation of the capital stock entitlement to a hypothetical eligible account holder.

(4) If rights or warrants to purchase capital stock are to be distributed, or are to be distributable, to eligible account holders, (i) furnish the information called for by subparagraph (3) above, (ii) describe in detail the nature of such rights or warrants including such matters as transferability and expiration, (iii) state the price at which the rights or warrants may be exercised, and (iv) describe briefly the reasons for using rights or warrants.

(5) In addition to the information furnished under paragraph (d), (1) describe briefly the use of the order forms which are enclosed with the proxy and information statement or which will be mailed to eligible account holders at a later date, (2) describe to the extent practicable present management intentions with respect to listing the capital stock on an exchange or otherwise providing a market for the purchase and sale of the capital stock in the future, (3) describe briefly the tax effect of the conversion both to the applicant and to eligible account holders, and (4) state that the plan of conversion as approved by the Corporation is attached as an exhibit to the proxy and information statement and should be consulted for further information.

(f) If the applicant proposes at or shortly after the time of conversion to issue capital stock in addition to the capital stock representing the ownership interest of eligible account holders, (1) state the number of additional shares which will be offered and state the expected price or price range of such additional shares or how that price will be determined, (2) state whether such additional capital stock will be offered on a preferential basis to eligible account holders and other members, and describe the terms of the offer, and (3) describe the dilution of the ownership interest of eligible account holders as a result of issuing such additional shares.

(g) If in connection with making a market for capital stock, rights, or warrants to be distributed, or for additional capital stock, directors and officers of the applicant and their associates, intend to purchase as a group or individually more than 5 percent of the total capital stock to be outstanding, state the price per share that will be paid and set forth in tabular form the name of each such purchaser, his position or relationship with the applicant, and the number of shares he intends to purchase.

(h) Furnish the following information in substantially the tabular form indicated below as to capital stock representing the ownership interest of eligible accountholders to be allocated to the directors and officers of the applicant, in their capacities as eligible accountholders, under the plan of conversion:

(1) As to each director and officer named in Item 7(a)(1), name him, state his position, and state the number of shares allocated to him.

(2) As to any director or officer not named in Item 7(a)(1) but who will be allocated 100 shares or more, name him, state his position, and state the number of shares to be allocated to him.

(3) State the number of shares to be allocated to all directors and officers of the applicant as a group, stating the number of persons in the group without naming them.

(A) Name of individual or number of persons in group	(B) Positions held in association	(C) Total shares to be allocated

Item 10. *Description of capital stock.* Furnish the following information concerning the capital stock of the applicant to be issued upon conversion:

(a) Outline briefly (1) dividend rights and restrictions; (2) voting rights; (3) liquidation rights; (4) preemptive rights; (5) liability to further calls or to assessment by the applicant; and (6) other material provisions.

(b) If the rights of holders of such capital stock may be modified otherwise than by a vote of a majority or more of the capital stock outstanding, voting as a class, so state and explain briefly.

(c) Outline briefly any restrictions on the repurchase or redemption of capital stock, or any part thereof, by the applicant.

Instructions. 1. This item requires only a brief summary of the provisions which are pertinent from an investment standpoint. A complete legal description of the provisions referred to is not required and should not be given. Do not set forth the provisions of the governing instruments verbatim; only a succinct resume is required.

2. If the rights evidenced by the capital stock will be materially limited or qualified by the rights of savings account holders or borrowers, include such information regarding such limitation or qualification as will enable investors to understand the rights evidenced by the capital stock.

Item 11. *Opposition to the plan of conversion.* (a) If any association member furnishes to the applicant within 10 days after publication of notice of filing for preliminary approval under § 563b.4(c) a statement in opposition to the applicant's plan of conversion, or any part thereof, the applicant, upon the written request of the association member, shall include such statement in its proxy and information statement. Any statement in opposition so included by the applicant need not be longer than 100 words exclusive of the name and address of the association member or members who furnished such statement.

(b) The proxy and information statement shall either include the name and address of the association member who submitted the statement in opposition or state that such information will be furnished by the applicant, orally or in writing as requested, promptly upon receipt of any oral or written request therefor. If the name and address is omitted from the proxy and information statement, it shall be furnished to the Corporation at the time of filing the preliminary proxy and information statement with the appropriate application for preliminary approval, or as an amendment thereto.

(c)(i) The applicant shall not include in its proxy and information statement any statement in opposition which, if implemented, would have the result of causing the applicant's plan of conversion to violate any applicable State or Federal law or regulation. (ii) The applicant may omit any statement in opposition with the prior approval of the Corporation. (iii) The applicant may combine statements in opposition which are substantially similar.

(d) The applicant may set forth a response to any statement in opposition included in

V 38 - 7 JAN 11 73 XUM

the proxy and information statement pursuant to paragraph (a) of this item.

(e) Neither the applicant nor its management shall be responsible for any statement in opposition included in the proxy and information statement, and a statement to that effect shall be set forth in the proxy and information statement immediately after the statements in opposition included pursuant to paragraph (a) of this item.

Item 12. *Capitalization.* Set forth in substantially the tabular form indicated below the dollar amounts of the capitalization of the applicant:

	(A) Capitalization as of latest balance sheet date	(B) Adjustments as a result of conversion	(C) Pro-forma capitalization after giving effect to the conversion	(D) Adjustments for additional stock (if applicable)	(E) Capitalization after issuance of additional stock (if applicable)
1. Savings accounts	$	$	$	$	$
2. FHL bank advances					
3. Subordinated debt securities					
4. Other borrowings					
5. Capital stock					
6. Paid in capital					
7. Federal insurance reserve					
8. Other reserves and undivided profits					
9. Total					

Instruction.—With respect to capital stock, indicate in the table or in a footnote the total number of shares to be authorized, the par or stated value of such shares, the number of shares to be issued as part of the conversion and the number of additional shares, if any, to be issued.

Item 13. *Use of proceeds.* If in connection with the conversion the applicant will issue securities for cash, state the principal purposes for which the net proceeds to the applicant from such securities are intended to be used and the approximate amount for each such purpose.

Instruction. Details of proposed expenditures are not to be given. There need be furnished, for example, only a brief statement of any activity of the applicant which will be affected materially by availability of the proceeds.

Item 14. *Options, warrants, or rights.* If action is to be taken with respect to the granting to directors, officers and employees of any options, warrants or rights to purchase capital stock of the converted association to take effect after conversion, furnish the following information:

(a) State (1) the title and amount of securities to be called for by such options, warrants or rights; (2) the prices, expiration dates, and other material conditions upon which the options, warrants or rights may be exercised; (3) the consideration to be received by the converted association for the granting of the options, warrants or rights; and (4) in the case of options, the Federal income tax consequences of the issuance and exercise of such options to the recipient and to the converted association.

(b) State separately the amount of options, warrants or rights to be received by the following persons, naming each such person: (i) each director or officer named in answer to Item 7(a); (2) each associate of such directors or officers; and (3) each other person who is to receive five percent or more of such options, warrants or rights to be received by all directors and officers of the converted association as a group, without naming them.

(c) Furnish such information, in addition to that required by Item 7, as may be necessary to describe adequately the provisions already made pursuant to all bonus, profit sharing, pension, retirement, deferred compensation or other remuneration or incentive plans, now in effect or in effect within the past five years, for (i) each director or officer named in answer to Item 7(a) who may participate in the plan to be acted upon; (ii) all directors and officers of the applicant as a group, if any director or officer may participate in the plan, and (iii) all employees, if employees may participate in the plan.

Instructions. 1. The term "plan" as used in this Item means any plan as defined in Instruction 1 to Item 7(b).

2. Paragraphs (b) and (c) do not apply to warrants or rights to be issued to stockholders of the converted association as such on a prorata basis.

3. If the options described in answer to this Item are to be issued pursuant to a plan which is set forth in a written document, three copies of such documents are to be filed at the time the proxy statement and form of proxy are filed with the appropriate form for preliminary approval.

Item 15. *New charter, bylaws or other documents.* Describe briefly any material differences between the provisions of existing charter, bylaws and any similar documents of the applicant and those which will take effect after conversion.

Instructions. This Item requires only a brief summary of the provisions which are pertinent from both an investment standpoint and a voting standpoint. A complete legal description of the provisions referred to is not required and should not be given. Do not set forth the provisions verbatim; only a succinct resume is required.

Item 16. *Other matters.* (a) State conditions under which the applicant will be required to register its capital stock under the Securities Exchange Act of 1934, as amended, and that upon such registration the applicant will be subject to the proxy rules, insider trading restrictions, reporting, and other requirements of that Act.

(b) Describe briefly the general terms and effect of the agreements executed by directors and officers of the applicant pursuant to section 563b.5(h).

Instruction. The instruction to Item 15 applies to paragraph (b) of this Item.

Item 17. *Financial statements.*

NOTE: 1. The following instructions specify the statements of financial condition, the statement of operations and statements of stockholders' equity required to be included in the proxy and information statement. Section 563b.7 governs the certification, form and content of such financial statements including the basis of consolidation.

2. If the applicant has previously used an audit period in connection with its certified financial statements which does not coincide with its fiscal year, such audit period may be used in place of any fiscal year requirement provided it covers a full 12 months' operations and is used consistently. The Board understands that this procedure is also acceptable to the Securities and Exchange Commission in fulfilling the requirements of the Commission's Form 10 for registration of the applicant's capital stock under section 12(g) of the Securities Exchange Act of 1934.

(a) *Statements of financial condition of the applicant.* (1) Furnish a certified statement of financial condition as of the close of the applicant's latest fiscal year. (2) If the statement furnished under (1) is in excess of 120 days from the date of filing for preliminary approval, furnish an additional statement of financial condition as of a date within 120 days of such filing. This additional statement need not be certified.

Instruction. The capital section of the statements of financial condition should give retroactive effect for the stock to be issued to eligible account holders in connection with the conversion, if practicable, with an explanation of the financial statement implications of the plan in a separate footnote.

(b) *Statements of operations and statements of stockholders' equity.* Furnish in comparative columnar form statements of operations and statements of stockholders' equity of the applicant (1) for each of the 5 fiscal years preceding the date of the statement of financial condition filed under paragraph (a) and (2) for the period, if any, between the close of the latest of such fiscal years and the date of the statement of financial condition filed under paragraph (a). Furnish a statement of operations for the period comparable to (b)(2) in the immediately preceding fiscal year. Statements for the three latest fiscal years under (b)(1) shall be certified.

Instructions. 1. Reflect information or explanation of material significance to investors in appraising the results shown, or refer to such information or explanation set forth elsewhere in the proxy and information statement. Include comparable data for any additional fiscal years necessary to keep the statements from being misleading. The statements shall reflect the retroactive adjustment of any material items affecting the comparability of the results.

2. In connection with capital stock distributable to the eligible account holders pursuant to the plan of conversion, the statements shall reflect earnings that would have been applicable to such outstanding stock.

(c) *Statements of changes in financial position.* Furnish certified statements of changes in financial position (1) for each of the 3 fiscal years preceding the date of the latest statement of financial condition filed under paragraph (a) and (2) for the period, if any, between the close of the latest of such fiscal years and the date of the latest statement of financial condition filed under paragraph (a).

(d) *Omission of applicant's statements in certain cases.* Notwithstanding paragraphs (a), (b), and (c), the individual financial statements of the applicant may be omitted if (1) the conditions specified in either of the following paragraphs are met, and (2) the Corporation is advised as to the reasons for such omission.

(1) The applicant is primarily an operating company and all subsidiaries included in the consolidated financial statements filed are totally-held subsidiaries; or

(2) The applicant's total assets, exclusive of investments in and advances to the consolidated subsidiaries, constitute 85 percent or more of the total assets shown by the consolidated statement of financial condition filed and the applicant's total gross revenues for the period for which its statements of operations would be filed, exclusive of interest and dividends received from the consolidated subsidiaries, constitute 85 percent or more of the total gross revenue shown by the consolidated statements of operations filed.

(e)(1) *Consolidated statements.* Furnish consolidated statements for the same periods and as of the same dates as would be required for the applicant. These statements shall be certified as would be required for the applicant's statements. (Paragraphs (a), (b), and (c) above.)

(2) *Unconsolidated subsidiaries and other persons.* Subject to § 563b.7(q)(2) regarding group statements of unconsolidated subsidiaries, there shall be set forth for each majority owned subsidiary of the applicant not consolidated the financial statements which would be required if the subsidiary were itself an applicant. Insofar as practicable, these financial statements shall be as of the same dates or for the same periods as those of the applicant.

(3) *Fifty-percent-owned persons and other persons.* If the applicant owns directly or indirectly approximately 50 percent of the voting securities of any person and approximately 50 percent of the voting securities of such person is owned directly or indirectly by another single interest, or if the applicant takes up the equity in undistributed earnings of any other unconsolidated person, there shall be set forth for each such person the financial statements which would be required if it were an applicant, subject to § 563b.7(q)(2) regarding group statements. The statements set forth for each person shall identify the other single interest, or other interests in any person operated jointly.

(4) *Omission of statements required by paragraphs (2) and (3).* Notwithstanding paragraphs (2) and (3), there may be omitted from the proxy and information statement all financial statements of any one or more unconsolidated subsidiaries or 50-percent-owned persons or other persons: (1) If all such subsidiaries and 50-percent-owned and other persons for which statements are so omitted, considered in the aggregate as a single subsidiary, would not constitute a significant subsidiary; or (2) if the income from the subsidiary reported by the applicant does not exceed 10 percent of the consolidated net income for the latest fiscal year for which income statements are filed.

(f) *Special provisions—(1) Succession to other business.* (i) If during the period for which its statements of operations are required, the applicant has by merger, consolidation or otherwise succeeded to one or more businesses, the additions, eliminations and other changes effected in the succession shall be appropriately set forth in a note or supporting schedule to the statements of financial condition set forth. In addition, statements of operations for each constituent business, or combined statements if appropriate, shall be set forth for such period prior to the succession as may be necessary when added to the time, if any, for which statements of operations after the succession are set forth to cover the equivalent of the period specified in paragraphs (a), (b), and (c) above.

(ii) If the applicant by merger, consolidation or otherwise is about to succeed to one or more businesses, there shall be filed for the constituent businesses financial statements, combined, if appropriate, which would be required by these instructions. In addition, there shall be set forth a statement of financial condition of the applicant giving effect to the plan of succession. These statements of financial condition shall be set forth in such form, preferably columnar, as will show in related manner the statements of financial condition of the constituent business, the changes to be effected in the succession and the statement of financial condition of the applicant after giving effect to the plan of succession. By a footnote or otherwise, a brief explanation of the changes shall be given.

(iii) This subparagraph (1) shall not apply with respect to the applicant's succession to the business of any totally held subsidiary, or to the acquisition of one or more businesses by purchase if such businesses, considered in the aggregate as a single subsidiary, would not constitute a significant subsidiary.

(2) *Acquisition of other businesses.* (i) There shall be set forth for any business directly or indirectly acquired by the applicant after the date of the statement of financial condition set forth pursuant to paragraph (a) and for any business to be directly or indirectly acquired by the applicant, the financial statements which would be required if such business were an applicant.

(ii) The acquisition of securities shall be deemed to be the acquisition of a business if such securities give control of the business or combined with securities already held give such control. In addition, the acquisition of securities which will extend the applicant's control of a business shall be deemed the acquisition of the business if any of the capital stock of the applicant is to be offered in exchange for the securities to be acquired.

(iii) No financial statements need be set forth pursuant to this subparagraph (2), however, for any business acquired or to be acquired from a totally held subsidiary. In addition, the statements of any one or more businesses may be omitted if such businesses, considered in the aggregate as a single subsidiary, would not constitute a significant subsidiary.

(g) *Filing of other statements in certain cases.* The Corporation may, upon the request of the applicant, and where consistent with the protection of eligible account holders and others, permit the omission of one or more of the statements herein required or the filing in substitution therefor of appropriate statements of comparable character. The Corporation may also require the inclusion of other statements in addition to, or in substitution for, the statements herein required in any case where such statements are necessary or appropriate for an adequate presentation of the financial condition of any person whose financial statements are required, or whose statements are otherwise necessary for the protection of eligible account holders and others.

(h) *Historical financial information—(1) Applicability of paragraph (h).* The information required by this paragraph (h) shall be included in the proxy and information statement if in the opinion of the applicant it is material to the understanding of its financial condition. If the applicant determines to omit the information required by this paragraph, it shall file with the appropriate form for preliminary approval a statement briefly explaining such omission.

(2) *Scope of paragraph (h).* The information required by paragraph (h) shall be furnished for the 7-year period preceding the period for which statements of operations are set forth, as to the accounts of each person whose statement of financial condition is set forth. The information is to be given as to all of the accounts specified whether they are presently carried on the books or not. Paragraph (h) does not call for an audit, but only for a survey or review of the accounts specified. It should not be detailed beyond a point material to eligible accountholders and others.

(3) *Revaluation of property.* (i) If there were any material increases or decreases in investments, in property, plant and equipment, or in intangible assets, resulting from revaluing such assets, state: (*a*) In what year or years such revaluations were made; (*b*) the amounts of such increases or decreases, and the accounts affected, including all related entries; and (*c*) if in connection with such revaluations any related adjustments were made in reserve accounts, state the accounts and amounts with explanations.

(ii) Information is not required as to adjustments made in the ordinary course of business, but only as to major revaluations made for the purpose of entering on the books current values, reproduction cost, or any values other than original cost.

(iii) No information need be furnished with respect to any revaluation entry which was subsequently reversed or with respect to the reversal of a revaluation entry recorded prior to the period if a statement as to the reversal is made.

(4) *Other changes in surplus.* If there were any material increases or decreases in surplus, other than those resulting from transactions specified above, the closing of the profit and loss account or the declaration of payment of dividends, state (i) the year or years in which such increases or decreases were made; (ii) the nature and amounts thereof; and (iii) the accounts affected, including all material related entries. Paragraph (3)(iii) shall also apply here.

(5) *Predecessors.* The information shall be furnished, to the extent it is material, as to any predecessor of the applicant from the beginning of the period to that date of succession, not only as to the entries made respectively in the books of the predecessor or the successor, but also as to the changes effected in the transfer of the assets from the predecessor. However, no information need be furnished as to any one or more predecessors which, considered in the aggregate, would not constitute a significant predecessor.

(6) *Omission of certain information.* (i) No information need be furnished as to any subsidiary, whether consolidated or unconsolidated, for the period prior to the date on which the subsidiary became a majority-owned subsidiary of the applicant or of the predecessor for which information is required above.

(ii) No information need be furnished to any one or more unconsolidated subsidiaries for which separate financial statements are filed if all subsidiaries for which the information is so omitted, considered in the aggregate as a single subsidiary, would not constitute a significant subsidiary.

(iii) Only the information specified in paragraph (3) need be given as to any predecessor or any subsidiary thereof if immediately prior to the date of succession thereto by a person for which information is required, the predecessor or subsidiary was in insolvency proceedings.

Item 18. *Consents of experts and reports.* (a) The proxy and information statement shall briefly describe all consents of experts filed pursuant to section 563b.3(n).

(b) The statement shall contain a report of the independent public accountants who have certified the financial statements and other matters in the statement.

Instruction. The instruction to Item 15 shall apply to paragraph (a) of this Item.

Item 19. *Attachments.* There shall be attached to the proxy and information statement distributed to eligible account holders and association members a copy of the applicant's plan of conversion as preliminarily approved by the Corporation. There may also be attached to such statement a copy of any stock option or stock purchase plan described under item 14.

FORM FA

[FACING SHEET]

FEDERAL HOME LOAN BANK BOARD

Federal Savings and Loan Insurance Corporation

Washington, D.C. 20552

Application for Final Approval of Conversion

(Exact name of applicant as specified in charter)

(Street address of applicant)

(City, State, and zip code)

(Date of application)

ITEMS

Item 1. With respect to each matter voted upon at the meeting of members to consider the plan of conversion and related to such plan, state the total number of votes eligible to be cast; the total number of votes cast in favor of each such matter; and the percentage of votes necessary to approve each such matter.

Item 2. State the actual price proposed by the applicant pursuant to § 563b.9(d). If it is not feasible to state such actual price, state the final price range pursuant to § 563b.9(d).

EXHIBITS

Exhibit 1. Attach a statement by an independent public accountant or independent transfer agent that: (1) Such accountant or transfer agent has mailed, or supervised the mailing of, the proxy and information statements, order forms, proxy forms, and warrants or rights, if applicable, to eligible account holders and association members in accordance with §§ 563b.8 and 563b.9; (2) such accountant or transfer agent has received the completed proxy forms; (3) such accountant or transfer agent has reviewed the applicant's systems and procedures for calculating the pro rata entitlement of eligible account holders, has completed a test check of such calculation and has reviewed written inquiries received by the applicant respecting the amount of the securities allocated to inquiring eligible account holders on a test basis for the purpose of stating that, based on his review, he is aware of no indications that the entitlements were calculated in a manner inconsistent with the plan; (4) all votes cast by proxy were cast in accordance with the choice or choices made on each proxy form; and (5) in his opinion, the results reported pursuant to Item 1 of this form accurately reflect such choices.

Exhibit 2. Attach an opinion of counsel to the effect that: (1) The meeting of members was held in accordance with all requirements of applicable State and Federal law and regulation; and (2) all requirements of State law applicable to the conversion, including State and Canadian securities laws, have been complied with, except to the extent that the granting of final approval by the Corporation is such a requirement.

Exhibit 3. Attach a copy of the pricing materials required by section 563b.9(g) in support of the information contained in Item 2.

Exhibit 4. Attach a certified copy of each resolution adopted at the meeting of the members to consider the plan of conversion.

Exhibit 5. Attach copies of all exhibits and other information required by Form PA and Part 563b and not previously submitted.

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260 as amended; 12 U.S.C. 1725, 1726, 1730; sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan. No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

Interested persons are invited to submit written data, views, and arguments, to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue NW., Washington, DC 20552, by March 12, 1973, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

By the Federal Home Loan Bank Board.

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

Notice of Proposed Rule Making

No. 7—Pt. III——1

V 38 - 7
JAN 11 73
XUM

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 125]

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Environmental Protection Agency. The proposed regulations describe, pursuant to the authority contained in sections 402 and 405 of the Federal Water Pollution Control Act Amendments of 1972 (86 Stat. 816 et seq.; Public Law 92-500 (1972)) (hereinafter referred to as the "Act"), the policy and procedures for issuing or denying permits under sections 402 and 405 of the Act.

Section 402 of the Act creates a National Pollutant Discharge Elimination System under which the Administrator of the Environmental Protection Agency may, after opportunity for public hearing, issue permits for the discharge of any pollutant or combination of pollutants, upon condition that such discharge will meet all applicable requirements of the Act relating to effluent limitations, water quality standards and implementation plans, new source performance standards, toxic and pretreatment effluent standards, inspections, monitoring and entry provisions, and guidelines establishing ocean discharge criteria.

Prior to the promulgation of guidelines specifying the requirements of the Act indicated in the preceding paragraph, the Administrator may issue permits under conditions which he determines are necessary to carry out the provisions of the Act. Permit holders (for all point sources, other than publicly owned treatment works) are required to achieve, not later than July 1, 1977, effluent limitations which require the application of best practicable (waste) control technology currently available. Publicly owned treatment works are required to achieve secondary treatment by the same date. In addition, all point source dischargers must comply with applicable water quality standards requirements.

All discharges from point sources into the navigable waters, the waters of the contiguous zone, and the oceans are unlawful unless the discharger possesses a valid permit or is excluded from coverage by law or regulation. Dischargers required to obtain permits include, among other point sources, municipal and other publicly owned waste treatment works, industries discharging directly to navigable waters, and concentrated animal feeding operations.

Industrial, commercial, and residential discharges to municipal or other publicly owned waste treatment works, properly functioning marine engines, and certain discharges to wells associated with oil and gas production, among other exclusions listed in these regulations, do not require discharge permits.

These proposed regulations do not apply in any State where the Administrator has granted authority to a State to carry out a State permit program pursuant to section 402(a)(5) of the Act or where the Administrator has approved a State program pursuant to section 402(b) of the Act. In such cases, the Administrator will suspend issuance of permits pursuant to his authority, except with respect to Federal agencies and instrumentalities, for which the Administrator will continue to process permit applications in accordance with these regulations and will be the exclusive source of permits.

Section 405 of the Act provides that any discharge of sewage sludge that results in any pollutant from the sewage sludge entering the navigable waters is prohibited, except in accordance with a permit issued by the Administrator under section 405. These proposed regulations apply to the discharge of sewage sludge.

Prior to the adoption of the proposed regulations consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Office of Enforcement and General Counsel, Washington, D.C. 20460 by February 12, 1973.

WILLIAM D. RUCKELSHAUS,
Administrator.

JANUARY 5, 1973.

Subpart A—General

Sec.
125.1 Definitions.
125.2 Scope and purpose.
125.3 Law authorizing permits.
125.4 Exclusions.
125.5 Delegation of authority.

Subpart B—Processing of Permits

125.11 General provisions.
125.12 Application for permit.
125.13 Access to facilities.
125.14 Distribution of application and permit.
125.15 State certification.

Subpart C—Terms and Conditions of Permits

125.21 Prohibitions.
125.22 Conditions of permits.
125.23 Schedules of compliance.
125.24 Effluent limitations in permits.
125.25 Duration of permit.
125.26 Special categories of permits.
125.27 Monitoring, recording and reporting.

Subpart D—Notice and Public Participation

125.31 Formulation of tentative determinations.
125.32 Public notice.
125.33 Fact sheets.
125.34 Hearings and appeals.
125.35 Public access to information.

Subpart E—Miscellaneous

125.41 Objections to permit by another state.
125.42 Other legal action.
125.43 Environmental impact statements.

AUTHORITY: Secs. 402, 405 of the Federal Water Pollution Control Act Amendments of 1972 (86 Stat. 816 et. seq.; Public Law 92-500).

Subpart A—General

§ 125.1 Definitions.

Except as otherwise specifically provided,

(a) The term "Act" means the Federal Water Pollution Control Act, as amended, Public Law 92-500.

(b) The term "Administrator" means the Administrator of the U.S. Environmental Protection Agency.

(c) The term "applicable effluent standards and limitations" means all State and Federal effluent standards and limitations to which a discharge is subject under the Act, including, but not limited to, effluent limitations, standards of performance, toxic effluent standards and prohibitions, and pretreatment standards.

(d) The term "applicable water quality standards" means all water quality standards to which a discharge is subject under the Act and which have been (1) approved or permitted to remain in effect by the Administrator following submission to him pursuant to section 303(a) of the Act, or (2) promulgated by the Administrator pursuant to section 303(b) or 303(c) of the Act.

(e) The term "contiguous zone" means the entire zone established or to be established by the United States under Article 24 of the Convention of the Territorial Sea and the Contiguous Zone.

(f) The term "discharge" when used without qualification includes a discharge of a pollutant and a discharge of pollutants.

(g) The term "discharge of pollutant" and the term "discharge of pollutants" each means: (1) Any addition of any pollutant to navigable waters from any point source, (2) any addition of any pollutant to the waters of the contiguous zone or the ocean from any point source other than a vessel or other floating craft.

(h) The term "effluent limitations" means any restriction established by a State or the Administrator on quantities, rates, and concentrations of chemical, physical, biological, and other constituents which are discharged from point sources into navigable waters, the waters of the contiguous zone, or the ocean, including schedules of compliance.

(i) The term "Environmental Protection Agency" means the U.S. Environmental Protection Agency.

(j) The term "interstate agency" means an agency of two or more States established by or pursuant to an agreement or compact approved by the Congress, or any other agency of two or more States, having substantial powers or duties pertaining to the control of pollution as determined and approved by the Administrator.

(k) The term "municipality" means a city, town, borough, county, parish, district, association, or other public body created by or pursuant to State law and having jurisdiction over disposal of sewage, industrial wastes, or other wastes, or an Indian tribe or an authorized Indian tribal organization, or a designated and approved management agency under section 208 of the Act.

(l) The term "National Pollutant Discharge Elimination System" (hereinafter referred to as "NPDES") for the purpose of these regulations means the system for issuing, conditioning, and denying permits for the discharge of pollutants from point sources into the navigable waters, the contiguous zone, and the oceans, by the Administrator of the Environmental Protection Agency pursuant to section 402 of the Federal Water Pollution Control Act, as amended.

(m) The term "navigable waters" means the waters of the United States including the territorial seas.

(n) The term "new source" means any building, structure, facility, or installation from which there is or may be the discharge of pollutants, the construction of which is commenced after the publication of proposed regulations prescribing a standard of performance under section 306 of the Federal Water Pollution Control Act, as amended, which will be applicable to such source, if such standard is thereafter promulgated in accordance with section 306.

(o) The term "ocean" means any portion of the high seas beyond the contiguous zone.

(p) The term "permit" means any permit or equivalent document or requirement issued to regulate the discharge of pollutants.

(q) The term "person" means an individual, corporation, partnership, association, State, municipality, commission, or political subdivision of a State, or any interstate body.

(r) The term "point source" means any discernible, confined and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, rolling stock, concentrated animal feeding operation, or vessel or other floating craft, from which pollutants are or may be discharged.

(s) The term "pollutant" means dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and industrial, municipal, and agricultural waste discharged into water. It does not mean (1) "sewage from vessels" or (2) water, gas or other material which is injected into a well to facilitate production of oil or gas, or water derived in association with oil or gas production and disposed of in a well, if the well used either to facilitate production or for disposal purposes is approved by authority of the State in which the well is located, and if such State determines that such injection or disposal will not result in the degradation of ground or surface water resources.

(*Comment.* The legislative history of the Federal Water Pollution Control Act amendments reflects that the term "radioactive materials" as included within the definition of "pollutant" in section 502 of the Act covers only radioactive materials which are not encompassed in the definition of source, by-product or special nuclear materials as defined by the Atomic Energy Act of 1954, as amended, and regulated pursuant to the latter Act. Examples of radioactive materials not covered by the Atomic Energy Act and, therefore, included within the term "pollutant" are radium and accelerator produced isotopes. (H.R. Rep. 92-911, 92d Cong. 2d sess., 131, Mar. 11, 1972; 117 Cong. Rec. 17401, daily ed., Nov. 2, 1971; 118 Cong. Rec. 9115, daily ed., Oct. 4, 1972.))

(t) The term "pollution" means the man-made or man-induced alteration of the natural chemical, physical, biological, and radiological integrity of water.

(u) The term "Regional Administrator" means one of the Regional Administrators of the U.S. Environmental Protection Agency.

(v) The term "schedule of compliance" means a schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with an effluent limitation, other limitation, prohibition, or standard.

(w) The term "sewage" means human body wastes and the wastes from toilets and other receptacles intended to receive or retain body wastes.

(x) The term "sewage sludge" shall mean the solids and precipitates separated from wastewater by unit processes.

(y) The term "State" means a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

(z) The term "State water pollution control agency" means the State agency designated by the Governor, having responsibility for enforcing State laws relating to the abatement of pollution.

(aa) The term "territorial seas" means the belt of the seas measured from the line of ordinary low water along that portion of the coast which is in direct contact with the open sea and the line marking the seaward limit of inland waters, and extending seaward a distance of 3 miles.

(bb) The term "trade secrets" shall mean a secret method or process, not patented, but known only to certain individuals using it in compounding some article of trade having a commercial value.

(cc) The term "treatment works" means any devices and systems used in the storage, treatment, recycling, and reclamation of municipal sewage or industrial wastes of a liquid nature to implement section 201 of the Act, or necessary to recycle or reuse water at the most economical cost over the estimated life of the works, including intercepting sewers, outfall sewers, sewage collection systems, pumping, power, and other equipment, and their appurtenances; extension, improvement, remodeling, additions, and alterations thereof; elements essential to provide a reliable recycled supply such as standby treatment units and clear well facilities; and any works, including site acquisition of the land that will be an integral part of the treatment process or is used for ultimate disposal of residues resulting from such treatment.

§ 125.2 Scope and purpose.

(a) These regulations prescribe the policy and procedures to be followed in connection with applications for federally issued permits authorizing discharges into the navigable waters, the waters of the contiguous zone, and the oceans, during the periods that the Administrator of the Environmental Protection Agency may be authorized to issue such permits pursuant to sections 402 and 405 of the Act.

(b) These regulations do not prescribe policy or procedures where the Administrator has authorized a State program pursuant to section 402(a)(5) of the Act or where the Administrator has approved a State program pursuant to section 402(b) of the Act.

§ 125.3 Law authorizing permits.

(a) Section 301(a) of the Act provides that discharges without permits are unlawful. This section states, in part, that "Except in compliance with this section and sections 302, 306, 307, 318, 402, and 404 of this Act, the discharge of any pollutant by any person shall be unlawful."

(b) Section 402 of the Act establishes the National Pollutant Discharge Elimination System (NPDES). This section provides in part that "the Administrator may, after opportunity for public hearing, issue a permit for the discharge of any pollutant, or combination of pollutants, • • • upon condition that such discharge will meet either all applicable requirements under sections 301, 302, 306, 307, 308, and 403 of (the) Act, or prior to the taking of necessary implementing actions relating to all such requirements, such conditions as the Administrator determines are necessary to carry out the provisions of (the) Act."

(c) Section 405 of the Act prohibits the discharge of sewage sludge into navigable waters except in accordance with a permit issued by the Administrator under section 405. This section provides in part that "in any case where the disposal of sewage sludge resulting from the operation of a treatment works • • • (including the removal of in-place sewage sludge from one location and its deposit at another location) would result in any pollutant from such sewage sludge entering into the navigable waters, such disposal is prohibited except in accordance with a permit issued by the Administrator under this section."

(d) Unless specifically noted to the contrary, all provisions of these regulations concerning permits under section 402 of the Act, are applicable to permits under section 405 of the Act.

§ 125.4 Exclusions.

The NPDES does not apply to:

(a) Sewage from vessels (section 502(6));

(b) Any addition of any pollutant to the waters of the contiguous zone or the ocean from any vessel or other floating craft (section 502(12)(B));

V38-7 JAN 11 73 XUM

(c) Discharges from properly functioning marine engines [1];

(d) Water, gas, or other material which is injected into a well to facilitate production of oil or gas, or water derived in association with oil or gas production and disposed of in a well, if the well used either to facilitate production or for disposal purposes is approved by authority of the State in which the well is located and if such State determines that such injection or disposal will not result in the degradation of ground or surface water resources (section 502(6));

(e) Aquaculture projects (section 318); and

(f) Dredged or fill material (section 404).

§ 125.5 Delegation of authority.

(a) Subject to the appeal provisions of § 125.34 and the national security responsibility provision of § 125.35(c), the authority to issue and condition permits or to deny applications for discharges covered by the NPDES and by section 405 of the Act, is hereby delegated to each of the Regional Administrators of the Environmental Protection Agency for the area which he administers.

(b) The authority granted to the Administrator by sections 308(a) and 308 (b) of the Act, is hereby delegated to each of the Regional Administrators for the area which he administers.

Subpart B—Processing of Permits

§ 125.11 General provisions.

(a) All discharges of pollutants or combination of pollutants from all point sources into the navigable waters, the waters of the contiguous zone, or the ocean are unlawful and subject to the penalties provided by the Act, unless the discharger has a permit or is specifically relieved by law or regulation of the obligation of having a permit. When a permit has been issued, discharges must be consistent with the terms and conditions of such permit. Discharges in violation of permit terms and conditions may result in the institution of proceedings under the Act.

(b) The decision as to whether or on what conditions a permit authorizing a discharge will issue will be based upon an evaluation as to how such discharge will meet applicable requirements under the Act, or other applicable laws and regulations. Subsequent to the taking of necessary implementing actions relating to such requirements, all discharges in order to receive a permit must meet the requirements of sections 301, 302, 306, 307, 308, and 403, and all regulations pertaining thereto.

(c) In the period of time prior to the taking of necessary implementing actions relating to all applicable requirements under sections 301, 302, 306, 307, 308, and 403 of the Act, the Administrator may issue permits under such conditions as he determines are necessary to carry out the provisions of the Act. Any permit issued shall include any conditions necessary to insure compliance with any applicable requirements of sections 301, 302, 306, 307, 308, and 403 that become applicable prior to the issuance of the permit. Foremost among other factors to be considered prior to the taking of the necessary implementing actions is the requirement for abatement measures designed to achieve, not later than July 1, 1977, best practicable (waste) control technology currently available for the particular point source (other than publicly owned treatment works) as determined by the Regional Administrator based upon information available to him to date and his professional judgment taking into account the intent of sections, 301, 302, 306, 307, 308, and 403 of the Act. Likewise, publicly owned treatment works must achieve secondary treatment by July 1, 1977, or in accordance with the period specified in section 301(b)(1)(B) of the Act. Furthermore, any permit issued shall include any more stringent condition pursuant to section 301(b)(1)(C) of the Act necessary to insure compliance with any limitation, including those necessary to meet applicable water quality standards, treatment standards, or schedules of compliance, established pursuant to any State law or regulation (under authority preserved by section 510 of the Act) or any other Federal law or regulation, or required to implement any applicable water quality standard established pursuant to the Act. The likely impact or the existing impact of the discharge on the quality and uses of the receiving body of water where no adequate water quality standards exist also may have to be taken into account. In many cases the possibility of occurrence and the probability of effects of spills of materials from the point source are very important. In those cases spills should be considered. The objections of any State or interstate agency whose waters may be affected by the discharge shall be duly considered when making any permit decision.

§ 125.12 Application for a permit.

(a) An applicant for a permit must secure the required application form(s) from the Regional Administrator. Application form(s) must also be filed with the Regional Administrator.

(b) Any person who applied for a permit under the Refuse Act Permit Program operating under rules promulgated in the FEDERAL REGISTER on April 7, 1971 (33 CFR 209.131) and whose application has not been denied need not reapply for a permit under these regulations unless the discharge described in the application for a Refuse Act permit has substantially changed in nature, volume, or frequency. Such Refuse Act permit application shall be considered to be an application under the NPDES and shall be treated accordingly.

(c) Any person now discharging whose discharge was not covered by the Refuse Act Permit Program but which is now covered under the NPDES must apply for a permit on or before April 16, 1973.

(d) Any persons wishing to discharge into waters covered by the NPDES on or after June 16, 1973 (but who is not now discharging into such waters) must apply for a permit not later than 180 days in advance of the date on which it is desired to commence the discharge. If persons desire to discharge on or before June 15, 1973, they shall give at the minimum a 60-day notice; and if such notice is impossible they shall apply to the Regional Administrator for a variance.

(e) An application submitted by a corporation must be signed by an official of the rank of corporate vice president or above. In the case of a partnership or a sole proprietorship the application must be signed by a general partner or the proprietor respectively. In the case of a municipal, State, Federal, or other public facility, the application must be signed by the official having responsibility for the overall operation of the facility.

(f) Except as provided below, a fee of $100 will be charged in connection with each application for a permit which involves no more than one outlet from which a discharge will flow. If there is more than one outlet from which the discharge will flow, an additional $50 will be charged for each additional outlet. Agencies or instrumentalities of Federal, State, or local governments will not be required to pay any fee in connection with the filing of an application for a permit.

(g) Minor discharges are those whose discharge on every day of the year is less than 50,000 gallons unless their environmental impact, as determined by the Regional Administrator, is not insignificant. If there is more than one discharge from a facility and the total aggregate discharge from all discharges exceed 50,000 gallons on any day of the year then no discharge will be considered minor. Minor discharges will pay a fee of $10 per application. Where an application is filed for a permit for a minor discharge and where after review of the application the Regional Administrator believes that due to the particular characteristics of this discharge, it should not be considered to be a minor discharge, the applicant shall be advised of this determination and within a reasonable period of time, of not less than 30 days, shall be required to complete the normal application forms and provide the normal fees specified in these regulations.

(h) The fee structure set forth above will be reviewed from time to time as experience with the program is developed, and such fees may be revised. Fees collected shall be used to help defray the cost of administering the program. Checks should be made out to the order of "Environmental Protection Agency."

(i) Permittees who wish to continue to discharge subsequent to the expiration date of their permit must apply for reissuance of the permit using proper

[1] See Congressional Record for Oct. 10, 1972; page E8454, Extension of Remarks; Congressman Robert E. Jones of Alabama, Chairman of the Conference Committee "(The Conference Committee) would not expect the Administrator to require permits to be obtained for any discharges from properly functioning marine engines."

forms, not less than 180 days prior to the permit expiration date.

§ 125.13 Access to facilities and further information during evaluation of the application.

Permit application forms are designed to fit the normal situation for most facilities in the United States. Therefore, in many cases, further information including site visits may be necessary in order to evaluate the discharge completely and accurately. When the Regional Administrator determines that either further information or a site visit is necessary in order for the Environmental Protection Agency to evaluate the discharge, he shall so notify the applicant and in addition provide a date no later than 60 days hence by which time the requested information will be received and/or the site visit will be accomplished. In the event that a satisfactory response is not received the permit application may be issued or denied and the applicant so notified. Sections 308, 309, and 402(k) of the Act, also provide for sanctions in the event of noncompliance with reasonable requests for additional information.

§ 125.14 Distribution of application and permit.

(a) When an application for a permit is received Regional Administrators shall determine if the applicant has provided all of the information required by the application form and by this section.

(b) In order to assure that the Secretary of the Army acting through the Chief of Engineers has adequate time to evaluate the impact of the proposed discharge on anchorage and navigation, Regional Administrators will forward to the District Engineer in the appropriate District one copy of the application form immediately upon its receipt in the Regional Office in completed form. Accompanying the application will be notice that the Environmental Protection Agency has received a request for a permit to discharge and that the District Engineer has a stated number of days to evaluate the impact of granting such permit upon anchorage and navigation and to advise the Regional Administrator of his evaluation. District Engineers of the Corps of Engineers will normally be given 30 days to evaluate the impact on anchorage and navigation. Where the Regional Administrator finds that less time should be allowed he should so advise the District Engineer of such lesser period of time while at the same time outlining his reasons for such lesser period of time. In all cases the Regional Administrator should advise the District Engineer that failure to answer within the allotted period of time will be deemed to be a finding that anchorage and navigation will not be substantially impaired by granting of this permit. Where the District Engineer advises the Regional Administrator that anchorage and navigation of any of the navigable waters would be substantially impaired by the granting of a permit, such permit will be denied and the applicant shall be so notified. Where the District Engineer advises the Regional Administrator that the imposition of specified conditions upon the permit is necessary to avoid any substantial impairment of any of the navigable waters, then the Regional Administrator shall impose upon the permit those conditions so specified by the District Engineer. Where the District Engineer notifies the Regional Administrator that more time is needed for his evaluation, more time will be granted where it appears that the public interest warrants such extension.

(c) Upon receipt of an application which does not include a State certification where such certification is required by section 401 of the Act, the Regional Administrator will make available one copy of the application form to the State water pollution control agency for the State in which the discharge will occur. Accompanying the application will be a statement by the Regional Administrator that a request for a permit has been received by the Environmental Protection Agency, and that before such permit can issue, the State must certify that the discharge will comply with the applicable provisions of sections 301, 302, 306, and 307 or that there are no applicable effluent or other limitations under sections 301 and 302 and there are no applicable standards under sections 306 and 307, or deny such certification or waive its right to certify or deny. The Regional Administrator must also state that such certification or denial must be received within a reasonable period of time or a waiver will be deemed to have occurred.

(d) If a permit issues, a copy of the permit and, if not previously transmitted, a copy of the application forms, shall be transmitted to the State in which the discharge is located. Copies of these documents shall be available for observation and reproduction by the public in the Regional Office.

(e) Regional Administrators shall assist applicants for permits in coordinating the requirements of the Act, with those of appropriate public health agencies.

(f) Whenever the provisions of the Fish and Wildlife Coordination Act, 16 U.S.C. 662, apply, Regional Administrators shall consult with appropriate officials of the U.S. Department of the Interior and the U.S. Department of Commerce, and with the head of the agency exercising administration over the wildlife resources of the State in which the discharge will occur.

§ 125.15 State certification.

(a) Section 401(a)(1) of the Act, provides that "Any applicant for a Federal license or permit to conduct any activity including, but not limited to, the construction or operation of facilities, which may result in any discharge into the navigable waters, shall provide the licensing or permitting agency a certification from the State in which the discharge originates or will originate, or, if appropriate, from the interstate water pollution control agency having jurisdiction over the navigable waters at the point where the discharge originates or will originate, that any such discharge will comply with the applicable provisions of sections 301, 302, 306, and 307 of this Act. In the case of any such activity for which there is not an applicable effluent limitation or other limitation under sections 301(b) and 302, and there is not an applicable standard under sections 306 and 307, the State shall so certify." Where certification is required, no license or permit shall be granted until the certification has been obtained or has been waived. A waiver occurs when the certifying agency fails or refuses to act on a request for certification, within a reasonable period of time (which shall not exceed 1 year) after receipt of such request. Three months shall generally be considered to be a reasonable period of time. If, however, special circumstances identified by the Regional Administrator require that action on a permit application be taken within a more limited period of time, the Regional Administrator shall determine a reasonable lesser period of time, advise the certifying agency of the need for action by a particular date and that, if certification is not received by the date established, it will be considered that the requirement for certification has been waived. Similarly, if it appears that circumstances may reasonably require a period of time longer than 3 months, the Regional Administrator may afford the certifying agency up to 1 year to provide the required certification before determining that a waiver has occurred. Where such extension of time is made at the request of the certifying agency, the request must be in writing and must include the reasons for the request. The Regional Administrator shall check with the certifying agency at the end of the allotted period of time before determining that a waiver has occurred.

(b) Any certification provided shall set forth any effluent limitations and other limitations, and monitoring requirements necessary to insure compliance with any applicable effluent limitations and other limitations, under section 301 or 302 of the Act, standard of performance under section 306 of the Act, or prohibition, effluent standard, or pretreatment standard under section 307 of the Act, and with any other appropriate requirement of of State law set forth in such certification.

(c) Discharges from agencies or instrumentalities of the Federal Government, as provided in section 401(a)(6) of the Act, do not require certification pursuant to section 401. Regional Administrators will, however, make available one copy of any application from any Federal point source to the State in which the discharge is located and will request that the State, within a reasonable time, comment upon compliance of the discharge with the provisions of sections 301, 302, 306, and 307 and any other applicable State and local water quality requirements.

V 38 - 7 JAN 11 73 XUM

Subpart C—Terms and Conditions of Permits

§ 125.21 Prohibitions.

(a) No permit shall issue in cases where the applicant, pursuant to section 401 of the Act, is required to obtain a State or other appropriate certification that the discharge will comply with the applicable provisions of sections 301, 302, 306, and 307 and such certification was denied (section 401(a)).

(b) No permit shall issue where pursuant to section 401(a)(2) of the Act, the imposition of conditions cannot insure compliance with the applicable water quality requirements of all involved States.

(c) No permit shall issue if, in the judgment of the Secretary of the Army acting through the Chief of Engineers, anchorage and navigation of any of the navigable waters would be substantially impaired by the discharge (section 402(b)(6)).

(d) No permit shall issue for the discharge of any radiological, chemical, or biological warfare agent or high-level radioactive waste into the navigable waters (section 301(f)).

(e) No permit shall issue for any discharge from a point source in conflict with a plan approved pursuant to section 208(b) of the Act (section 208(e)).

(f) No permit shall issue for any discharge to the territorial sea, the waters of the contiguous zone, or the oceans prior to the promulgation of guidelines under section 403(c) of the Act unless the Regional Administrator determines it to be in the public interest (section 403(a)).

(g) No permit shall issue for any discharge to the territorial sea, the waters of the contiguous zone, or the oceans after promulgation of guidelines under section 403(c) except in compliance with such guidelines (section 403(a)).

(h) No permit shall issue for any discharge to the territorial sea, the waters of the contiguous zone, or the oceans, subsequent to the promulgation of guidelines pursuant to section 403(c) of the Act, where insufficient information exists to make a reasonable judgment as to whether the discharge complies with any such guidelines (section 403(c)(2)).

§ 125.22 Conditions of permits.

(a) Regional Administrators shall insure that the terms and conditions of all issued permits provide for and insure the following:

(1) That all discharges authorized by the permit shall be consistent with the terms and conditions of the permit; that facility expansions, production increases, or process modifications which result in new or increased discharges of pollutants must be reported by submitting a new application; that the discharge of any pollutant not identified and authorized by the permit or the discharge of any pollutant more frequently than or at a level in excess of that identified and authorized by the permit shall constitute a violation of the terms and conditions of the permit;

(2) That the permit may be modified, suspended, or revoked in whole or in part during its term for cause including, but not limited to, the following:

(i) Violation of any terms or conditions of the permit;

(ii) Obtaining a permit by misrepresentation or failure to disclose fully all relevant facts; and,

(iii) A change in conditions or the existence of a condition which requires either a temporary or permanent reduction or elimination of the authorized discharge;

(3) That the permittee shall permit the Regional Administrator or his authorized representative, and/or the authorized representative of the State water pollution control agency in the case of non-Federal facilities, upon the presentation of his credentials:

(i) To enter upon permittee's premises in which an effluent source is located or in which any records are required to be kept under terms and conditions of the permit;

(ii) To have access to and copy any records required to be kept under terms and conditions of the permit;

(iii) To inspect any monitoring equipment or method required in the permit; or,

(iv) To sample any discharge of pollutants.

(4) That the permit may not be transferred to a third party without the prior written approval of the Regional Administrator. Such prior written approval will be granted by the Regional Administrator where the transferee acquires a property interest in the point source and agrees in writing to fully comply with all the terms and conditions of the permit and the Act. Where the discharge is not in compliance with the terms and conditions of the permit or the Act at the time of the transfer, the transferee must agree in writing to bring the discharge into compliance with the terms and conditions of the permit and the Act, within the shortest reasonable period of time as determined by the Regional Administrator.

(5) That the permittee shall at all times maintain in good working order and operate at maximum efficiency any facilities or systems of control installed by the permittee to achieve compliance with the terms and conditions of the permit.

(6) The issuance of a permit does not convey any property rights either in real estate or material, or any exclusive privileges, nor does it authorize any injury to private property or invasion of rights, nor any infringement of Federal, State, or local laws or regulations; nor does it obviate the necessity of obtaining State or local assent required by law for the discharge authorized.

(7) That each permittee shall within 30 days from the day the permit was issued agree in writing to comply with all the terms and conditions of the permit and the Act. Such agreement of the permittee may be subject to the reservation of all of the permittee's rights under section 509 of the Act.

(b) Permits shall also include such special conditions as the Regional Administrator considers necessary or appropriate to specify and to assure compliance with applicable effluent limitations or other water quality requirements including schedules of compliance, treatment standards and such other conditions as the Regional Administrator considers necessary or appropriate to carry out the provisions of the Act. Permits shall also contain such other conditions as the District Engineer of the Corps of Engineers considers to be ncessary to insure that navigation and anchorage will not be substantially impaired. Also, conditions recommended by State water pollution control officials or other governmental officials may be added to permits if the Regional Administrator believes such recommended conditions will aid in carrying out the purposes of the Act. Furthermore, all permits will be conditioned upon achieving compliance with any applicable effluent limitations and other limitations, and monitoring requirements set forth on any certification pursuant to section 401 of the Act.

§ 125.23 Schedules of compliance in permits.

Regional Administrators shall follow the procedures below in setting schedules of compliance in permits:

(a) With respect to any discharge which is not in compliance with applicable effluent standards and limitations, applicable water quality standards, and other applicable requirements, the permittee shall be required to take specific steps to achieve compliance with the following:

(1) Any schedule of compliance contained in (i) applicable effluent standards and limitations; or, (ii) water quality standards, if more stringent; or (iii) any other applicable requirements, if more stringent; or

(2) In the absence of any applicable schedule of compliance in the shortest, reasonable period of time, such period not to be extended beyond July 1, 1977.

(b) In any case where the period of time for compliance specified in paragraph (a) of this section exceeds 9 months one or more interim dates shall be specified for which the permittee shall achieve interim requirements; in no event shall more than 9 months elapse between interim dates. Interim dates and the final date for compliance shall fall on the last day of February, April, June, August, October, and December.

(c) Not later than fourteen (14) days following each interim date and the final date of compliance the permittee shall provide the Regional Administrator with written notice of the permittee's compliance or noncompliance with the interim or final requirements.

§ 125.24 Effluent limitations in permits.

In the application of effluent standards and limitations, water quality standards, and other applicable requirements, the Regional Administrator shall for each permit, specify average and maximum daily quantitative limitations for the level of pollutants in the authorized discharge of terms of weight or other appropriate expression. Where a schedule of compliance is included as a condition in a permit, effluent limitations shall be included for the interim period as well as for the period following the final compliance date.

§ 125.25 Duration of permit.

(a) No permit will issue for a period longer than 5 years.

(b) Permits of less than 5 years duration may issue in appropriate cases and Regional Administrators shall give great weight to the advice of State or interstate water pollution control officials on the appropriate duration for particular permits.

(c) All permits will be for a fixed term.

§ 125.26 Special categories of permits.

(a) *Disposal of pollutants into wells.* If an applicant for a permit proposes to dispose of pollutants into wells as part of a program to meet the proposed terms and conditions of a permit, the Regional Administrator shall specify additional terms and conditions in the permit which shall (1) prohibit the proposed disposal, or (2) control the proposed disposal in order to prevent pollution of ground and surface waters and to protect the public health and welfare.

(b) *Discharges from publicly owned treatment works.* (1) If the permit is for a discharge from a publicly owned treatment works, the Regional Administrator shall require the permittee to provide notice to the Regional Administrator of the following:

(i) Any new introduction of pollutants into such treatment works from a source which would be a new source as defined in section 306 of the Act if such source were discharging pollutants;

(ii) Any new introduction of pollutants which exceeds 10,000 gallons on any one day into such treatment works from a source which would be subject to section 301 of the Act if such source were discharging pollutants; and

(iii) Any substantial change in volume or character of pollutants being introduced into such treatment works by a source introducing pollutants into such works at the time of issuance of the permit.

(2) Such notice shall include information on—

(i) The quality and quantity of effluent to be introduced into such treatment works, and

(ii) Any anticipated impact of such change in the quantity or quality of effluent to be discharged from such publicly owned treatment works.

(3) The permittee shall require any industrial user of such treatment works to comply with the requirements of sections 204(b), 307, and 308 of the Act. Any industrial user subject to the requirements of section 307 of the Act shall be required by the permittee to prepare and transmit to the Regional Administrator periodic notice (over intervals not to exceed 9 months) of progress toward full compliance with section 307 requirements.

§ 125.27 Monitoring, recording and reporting.

(a) Any permit shall be subject to such monitoring requirements as may be reasonably required by the Regional Administrator, including the installation, use, and maintenance of monitoring equipment or methods (including, where appropriate, biological monitoring methods).

(b) Any discharge which

(1) Averages more than 50,000 gallons per operating day,

(2) The Regional Administrator requires to be monitored, or

(3) Contains toxic pollutants for which an effluent standard has been established by the Administrator pursuant to section 307(a) of the Act, shall be monitored by the permittee for at least the following:

(i) Flow (in gallons per day); and

(ii) All of the following pollutants;

(A) Pollutants (measured either directly or indirectly through the use of accepted correlation coefficients or equivalent measurements) which are subject to reduction or elimination under the terms and conditions of the permit;

(B) Pollutants which the Regional Administrator finds, on the basis of information available to him, could have a significant impact on the quality of navigable waters;

(C) Pollutants specified by the Administrator, in regulations issued pursuant to the Act, as subject to monitoring;

(c) Each effluent flow or pollutant required to be monitored pursuant to Paragraph (b) of this section shall be monitored at intervals sufficiently frequent to yield data which reasonably characterizes the nature of the discharge of the monitored effluent flow or pollutant. Variable effluent flows and pollutant levels shall be monitored at more frequent intervals than relatively constant effluent flow and pollutant levels which may be monitored at less frequent intervals.

(d) The Regional Administrator shall specify recording requirements for any permit which requires monitoring of the authorized discharge consistent with the following:

(1) The permittee shall maintain records of all information resulting from any monitoring activities required of him in his permit;

(2) Any records of monitoring activities and results shall include for all samples;

(i) The date, exact place, and time of sampling;

(ii) The dates analyses were performed;

(iii) Who performed the analyses;

(iv) The analytical techniques/methods used; and,

(v) The results of such analyses;

(3) The permittee shall be required to retain for a minimum of 3 years any records of monitoring activities and results including all original strip chart recordings for continuous monitoring instrumentation and calibration and maintenance records. This period of retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the permittee or when requested by the Regional Administrator.

(e) The Regional Administrator shall require periodic reporting (at a frequency of not less than once per year) on the proper NPDES reporting form of monitoring results obtained by a permittee pursuant to monitoring requirements in a permit. Such reporting periods, whose length shall be determined by the Regional Administrator, shall end on the last day of February, April, June, August, October, and/or December.

Subpart D—Notice and Public Participation

§ 125.31 Formulation of tentative determinations.

The Regional staff shall formulate and prepare tentative determinations with respect to a permit in advance of public notice of the proposed issuance or denial of the permit. Such tentative determinations shall include at least the following:

(a) A proposed determination to issue or to deny a permit for the discharge described in the application; and,

(b) If the determination proposed in paragraph (a) of this section is to issue the permit, the following additional tentative determinations;

(1) Proposed effluent limitations for those pollutants proposed to be limited;

(2) A proposed schedule of compliance, as explained in § 125.23, including interim dates and requirements, for meeting the proposed effluent limitations; and,

(3) A brief description of any other proposed special conditions (other than those required by § 125.22) which will have a significant impact upon the discharge described in the application.

§ 125.32 Public notice.

(a) Public notice of every complete application for a permit shall be circulated in a manner designed to inform interested and potentially interested persons of the discharge and of the proposed determination to issue or to deny a permit for the discharge. Public notice of public hearings shall be circulated in a manner designed to inform interested and potentially interested persons of the discharge and of the intention to hold a public hearing on the matter of a permit being issued for the discharge. Procedures for the circulation of public notice shall include at least the following:

(1) Notice shall be circulated within the geographical area of the proposed discharge; such circulation shall include any one of the following:

(i) Posting in the post office and public places of the municipality nearest the premises of the applicant in which the effluent source is located;

(ii) Posting near the entrance to the applicant's premises and in nearby places; and,

V38-7 JAN 11 73 XUM

(iii) Publishing in local newspapers and periodicals, or, if the local newspaper is not a daily newspaper, in a daily newspaper of general circulation;

(2) Notice shall be mailed to any person or group upon request; and

(3) The Regional Administrator shall add the name of any person or group upon request to a mailing list to receive copies of notices for all applications within the State or within a certain geographical area.

(4) Regional Administrators shall notify other appropriate government agencies of each complete application for a permit and of public hearings and shall provide such agencies an opportunity to submit their written views and recommendations on each complete application.

(b) (1) Where notice is being given of an application for a permit, the Regional Administrator shall provide a period of not less than thirty (30) days following the date of the public notice during which time interested persons may submit their written views concerning the tentative determinations or request that a public hearing be held. All written comments submitted during the 30-day comment period shall be retained by the Regional Administrator and considered in the formulation of his final determinations with respect to the application.

(2) Where notice is being given of a public hearing, the Regional Administrator shall provide a period of not less than 30 days following the date of the public notice during which time interested persons may prepare themselves for the hearing.

(c) The contents of public notice shall include at least the following:

(1) Name, address, phone number of Regional Office issuing the public notice;

(2) Name and address of each applicant;

(3) Brief description of each applicant's activities or operations which result in the discharge described in the application (e.g., municipal waste treatment plant, steel manufacturing, drainage from mining activities);

(4) Name of waterway to which each discharge is made and a short description of the location of each discharge on the waterway;

(5) A statement of the Regional staff's tentative determination to issue or deny a permit for the discharge described in the application;

(6) A brief description of the procedures for the formulation of final determinations, including the 30-day comment period required by paragraph (b) of this section and any other means by which interested persons may influence or comment upon those determinations; and

(7) Address and phone number of premises at which interested persons may obtain further information, request a copy of the fact sheet described in § 125.33, and inspect and copy all application forms and related documents.

(d) If individual States in connection with applications for certification required by section 401 of the Act wish to enter into agreements for joint public notice concerning proposed discharges, the Regional Administrator may, after consulting with Headquarters, approve mutually satisfactory agreements and such agreements, once published in the FEDERAL REGISTER, shall supersede this § 125.32.

(e) Any public notice issued under this section may describe more than one discharge except that each discharge will be described separately.

§ 125.33 Fact sheets.

Prior to issuance of public notice the Regional Administrator shall prepare and, following public notice, shall send, upon request to any person a fact sheet with respect to the application described in the public notice. The contents of such fact sheets shall include at least the following information:

(a) A sketch or detailed description of the location of the discharge described in the application;

(b) A quantitative description of the discharge described in the application which includes at least the following:

(1) The rate or frequency of the proposed discharge; if the discharge is continuous, the average daily flow in gallons per day or million gallons per day;

(2) The average summer and winter temperatures of the discharge in degrees Fahrenheit; and,

(3) The average daily discharge in pounds per day of any pollutants which are present in significant quantities or which are subject to limitations or prohibition under sections 301, 302, 306, or 307 of the Act and regulations published thereunder;

(c) The tentative determinations required under § 125.31;

(d) A brief citation, including a brief identification of the uses for which the receiving waters have been classified, of the water quality standards and effluent standards and limitations applied to the proposed discharge; and,

(e) A more detailed description of the procedures for the formulation of final determinations than that given in the public notice including:

(1) The term of the 30-day comment period required by § 125.32 and the address where comments will be received;

(2) Procedures for requesting a public hearing and the nature thereof; and

(3) Any other procedures by which the public may participate in the formulation of the final determinations.

§ 125.34 Hearings and appeals.

(a) *Definitions.* (1) "Party" means any affected person who files a request for a hearing meeting the requirements of paragraph (b) of this section and whose request is not denied.

(2) "Affected person" means the Environmental Protection Agency; the water pollution control agency of any State or States in which the discharge or proposed discharge shall originate, or which may be affected by such discharge; the applicant; and any foreign country, or other interested person or persons.

(b) *Initiation of hearings.* Any affected person may within 30 days of the first day of public notice of an application for a permit pursuant to § 125.32 request the Regional Administrator to hold a public hearing to consider the issuance of a permit under this part. Upon receipt of any such request, stating with particularity any objections to the issuance of the proposed permit, and the issues of fact, law, or policy which are proposed to be considered at the hearing, the Regional Administrator shall fix a time and place for the public hearing. After the filing of the initial request, any other affected person may file a request under this subsection. Regional Administrators shall deny any requests not meeting the requirements of this subsection. Such denial shall be accompanied by a brief written statement setting forth the reasons for his denial.

(c) *Location of hearings.* All proceedings conducted pursuant to this section shall be held in the State of the discharge or other appropriate area.

(d) *Notice of hearing.* Public notice of the public hearing shall be given as provided for by § 125.32.

(e) *Presiding Officer.* After granting a public hearing in accordance with paragraph (b) of this section the Regional Administrator shall appoint a qualified person to serve as Presiding Officer for such hearing. No official who participated in the development of proposed conditions for the permit to be considered at such hearing may serve as Presiding Officer.

(f) *Hearing file.* Upon his appointment pursuant to paragraph (e) of this section, the Presiding Officer shall establish a hearing file. The hearing file shall include the permit application and supporting data, the staff recommendation for proposed permit conditions, the request or requests for the hearing, any data or material submitted in justification thereof, and such other material as the Presiding Officer deems relevant to the hearings. The hearing file shall be available for inspection by any person subject to the requirements of § 125.35.

(g) *Representation.* At the hearing, any party may appear on his own behalf, or may be represented by counsel or by any other authorized representative.

(h) *Prehearing conferences.* (1) In the discretion of the Presiding Officer, prehearing conferences may be held prior to any hearing or hearing on appeal held pursuant to this section. All parties will be given reasonable notice of not less than 10 days of the time and location of the conference. In the discretion of the Presiding Officer, persons other than parties may be included in attendance. At the conference, the Presiding Officer may:

(i) Obtain stipulations and admissions, and identify disputed issues of fact and law.

(ii) Mark and admit exhibits.

(iii) Set a hearing schedule which includes definite or tentative times for as many of the following as are deemed necessary by the Presiding Officer:

(A) Oral and written statements.

(B) Submission of written direct testimony as required by the Presiding Officer.

(C) Oral direct and cross-examination, if any is permitted.

(D) Oral argument, if any is permitted.

(E) Submission of proposed findings of fact.

(2) The results of any conference shall be reduced to writing by the Presiding Officer and made part of the hearing file.

(i) *Conduct of hearings.* (1) Hearings shall be conducted by the Presiding Officer in an orderly but expeditious manner. Any party shall be permitted to submit oral or written statements concerning the proposed permit, and to present views and recommendations thereon. In the discretion of the Presiding Officer, other persons may be allowed to present oral statements for the hearing record. All persons will be allowed to present written statements for the hearing record.

(2) The Presiding Officer shall have discretion to establish reasonable limits upon the time allowed for statements of witnesses, and for arguments of parties, or their counsel or representatives.

(3) In view of the need for an expeditious hearing, and the cross-examination provided in paragraph (i)(5) of this section, no cross-examination shall be permitted in hearings held pursuant to paragraph (b) of this section, except as provided in paragraph (i)(6) of this section.

(4) Hearings shall be reported verbatim. Copies of transcripts of proceedings may be purchased by any person from the Environmental Protection Agency.

(5) All written statements, charts, tabulations, and similar data offered in evidence at the hearing shall, upon a showing satisfactory to the Presiding Officer of their relevancy and materiality, be received in evidence and shall constitute a part of the hearing file.

(6) In the discretion of the Presiding Officer exercised before the hearing begins, the hearing may be held in conformity with the requirements of paragraphs (l), (m), (n) of this section. If the hearing is held in conformity with such requirements, no request for a hearing on appeal may be filed under paragraphs (k) and (n) of this section and any issues specified in the requests for hearings shall be considered.

(j) *Initial decision.* On the basis of the hearing file and the evidence adduced at the hearing, the Presiding Officer shall determine whether the proposed permit conditions meet the requirements of the Act. If he determines that the proposed conditions do not meet such requirements, he shall set forth such conditions as he determines are necessary to comply with the requirements of the Act, or shall determine that the permit should be denied. The decision of the Presiding Officer shall be provided to all parties and be available to the public within 20 days of the completion of the hearing. Such initial decision shall constitute the final decision of the Regional Administrator with regard to the application for a permit unless within 10 days of the date of the Presiding Official's decision, any party files with the Regional Administrator a request for a hearing on appeal or for findings and opinion. If no such request is filed, the Regional Administrator shall issue the permit promptly with conditions established by the Presiding Officer or shall deny the permit according to the decision of the Presiding Officer.

(k) *Availability of hearing on appeal.* (1) Any party requesting a hearing on appeal shall submit his request in writing to the Administrator through the Regional Administrator. Any such request shall set forth in detail the basis of the request, and shall identify any expert witnesses which are requested to testify, and any issues of fact concerning the proposed discharge with respect to which cross-examination of further testimony of witnesses, or further evidence or argument in rebuttal is necessary. The Administrator shall grant the request for a hearing on appeal if he determines:

(i) That the request presents material issues of fact relating to the issuance of the proposed permit; and

(ii) That such issues require cross-examination or further evidence, testimony, or argument.

(2) Upon granting a request for a hearing on appeal the Administrator shall specify in writing those issues which meet the requirements of paragraphs (k)(1)(i) and (ii) of this section.

(l) *Conduct of hearing on appeal.* (1) The Administrator shall designate an official of the Environmental Protection Agency to serve as Presiding Officer for the hearing on appeal. No official who participated in the initial hearing and decision under this section, or who participated in the development of proposed conditions for the permit considered at such hearing, may serve as Presiding Officer on appeal.

(2) The Presiding Officer shall conduct the hearing on appeal in an orderly but expeditious manner. The parties may offer oral or written testimony, subject to the exclusion by the Presiding Officer of irrelevant, immaterial, and repetitious evidence.

(3) The hearing on appeal shall be confined to those issues specified by the Administrator pursuant to paragraph (k)(2) of this section.

(4) Witnesses shall be required to make oath or affirmation.

(5) Witnesses may, in the discretion of the Presiding Officer, be examined or cross-examined by the Presiding Officer, the parties, or their representatives. Among the factors to be considered by the Presiding Officer in determining whether or not to allow cross-examination are:

(i) Whether witness credibility, veracity, and demeanor are relevant to a fair resolution of factual issues; and

(ii) Whether, without cross-examination, parties would otherwise have an adequate opportunity to rebut opposing evidence.

To insure fair and expeditious consideration of all material issues, the Presiding Officer shall have discretion to limit the time allowed for examination and cross-examination. The Presiding Officer may exclude any testimony not relevant to the issues specified by the Administrator pursuant to paragraph (k)(2) of this section.

(6) Hearings on appeal shall be reported verbatim. Copies of transcripts of proceedings may be purchased by any person from the Environmental Protection Agency.

(7) All written statements, charts, tabulations, and similar data offered in evidence at the hearing shall, upon a showing satisfactory to the Presiding Officer of their relevancy, and materiality, be received in evidence and shall constitute a part of the hearing file.

(8) Parties shall have the right to present for the record oral argument, and argument or evidence in rebuttal, within reasonable time limits set by the Presiding Officer.

(9) The decision of the Presiding Officer in a hearing on appeal shall be issued according to the provisions of paragraph (j) of this section.

(m) *Official notice.* In any hearing or hearing on appeal under this section, the Presiding Officer may take official notice of any general, technical or scientific fact or material within the specialized knowledge of the Environmental Protection Agency. All parties shall be notified of any fact or material so noticed, and shall be afforded an opportunity to contest such facts or material.

(n) *Findings of fact and opinion.* At any time prior to 10 days following the issuance of the decision of the Presiding Officer in a hearing or hearing on appeal held pursuant to this subpart, any party may request the Presiding Officer to issue findings of fact and an opinion with regard to issues raised at the hearing or hearing on appeal. The party shall specify the issues on which findings and an opinion are requested. In the discretion of the Presiding Officer, parties may be required to submit proposed findings of fact within a period of not more than 20 days. The Presiding Officer shall issue his findings of fact and opinion no later than 20 days following the receipt of a request for such findings and opinion unless he requires the submission of proposed findings of fact. Where the submission of proposed findings of fact are required the Presiding Officer shall issue his findings of fact and opinion no later than 20 days following the end of the period he specified for receipt of such proposed findings. The findings of fact and opinion shall become part of the record, and shall be made available to all parties participating in the hearing or hearing on appeal. In the case of a hearing under paragraph (b) of this section, any party may submit a request for a hearing on appeal within 10 days following the issuance of the findings and opinion.

V 38 - 7 JAN 11 73 XUM

§ 125.35 Public access to information.

(a) Certifications pursuant to section 401 of the Act, the comments of all governmental agencies on a permit application, and all information and data provided by an applicant or a permittee identifying the nature and frequency of a discharge shall be available to the public without restriction. All other information (other than effluent data) which may be submitted by an applicant in connection with a permit application or which may be furnished by a permittee in connection with required periodic reports shall also be available to the public unless the applicant or permittee specifically identifies and is able to demonstrate to the satisfaction of the Regional Administrator or his authorized representative that the disclosure of such information or a particular part thereof to the general public would divulge methods or processes entitled to protection as trade secrets.

(b) Where the applicant or permittee is able to demonstrate to the satisfaction of the Regional Administrator or his authorized representative that the disclosure of the information or a particular part (other than effluent data) thereof would result in methods or processes entitled to protection as trade secrets being divulged, the Regional Administrator shall treat the information or the particular part (other than effluent data) as confidential and not release it to any unauthorized person. Such information may be divulged to other officers, employees, or authorized representatives of the United States concerned with carrying out the Act.

(c) Notwithstanding paragraphs (a) and (b) of this section, the Administrator, when the national security requires, may withhold any information from the public.

Subpart E—Miscellaneous

§ 125.41 Objections to permit by another State.

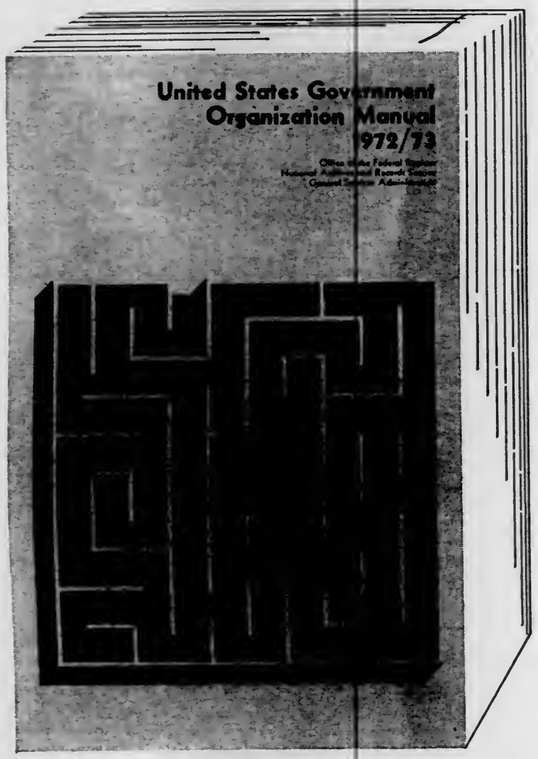
(a) Whenever following receipt of the certification described in § 125.14 the Regional Administrator determines that a discharge may affect the quality of the waters of any State other than the State that made the certification, the Regional Administrator shall, within 30 days of such certification, notify such other State and the applicant of his determination and shall transmit to such other State a copy of the fact sheet described in § 125.22 and upon request a copy of the application. If such other State determines that the discharge will affect the quality of its waters so as to violate any water quality requirement in such State such other State shall have a period of 60 days beginning with the date notice from the Regional Administrator was received within which to notify the Regional Administrator in writing of its objection to the issuance of a permit and to request a public hearing on the objection. Upon receipt of such request, the Regional Administrator shall hold a hearing in conformity with § 125.34 herein. Based upon the record, the Regional Administrator shall issue a permit: *Provided*, That if the imposition of conditions cannot assure compliance with the applicable water quality requirements of all of the involved States, the Regional Administrator shall deny the permit.

(b) Each affected State shall be afforded an opportunity to submit written recommendations to the Regional Administrator which the Regional Administrator may incorporate into the permit if issued. Should the Regional Administrator fail to incorporate any written recommendations thus received, he shall provide to the affected State or States a written explanation of his reasons for failing to accept any of the written recommendations.

(c) Where an interstate agency has authority over waters that may be affected by the issuance of a permit, it shall be afforded to rights of a State pursuant to paragraphs (a) and (b) of this section.

§ 125.42 Other legal action.

Except as provided in section 402(k) of the Act, the mere filing of an application for a permit to discharge into waters covered by the NPDES will not preclude legal action in appropriate cases for violation of the Federal Water Pollution Control Act. The institution of either a civil or criminal action by the United States may not preclude the acceptance or continued processing of a permit application.



§ 125.43 Environmental impact statements.

Section 511(c)(1) of the Act provides that with the exception of permits for new sources as defined in section 306, no action of the Administrator taken pursuant to the Act shall be deemed a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

30-year Reference Volumes

Consolidated Indexes and Tables

Presidential Proclamations and Executive Orders

Consolidated subject indexes and tabular finding aids to Presidential proclamations, Executive orders, and certain other Presidential documents promulgated during a 30-year period (1936–1965) are now available in two separately bound volumes, published under Title 3 of the Code of Federal Regulations, priced as follows:

Title 3, 1936–1965 Consolidated Indexes $3.50

Title 3, 1936–1965 Consolidated Tables $5.25

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office
Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962–8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for filing, publishing, and making available to the public, regulations and legal notices issued by the Executive Branch of the Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

TRADE INFORMATION—Office of Special Representative for Trade Negotiations announces public hearing on 2–9–73 regarding trade agreement between European Economic Community and United Arab Republic 1421

DECLASSIFICATION OF NATIONAL SECURITY INFORMATION—Commerce Dept. and Interstate Commerce Comm. issue regulations on public availability and classification procedures (2 documents) 1383, 1393

VETERINARY AND AGRICULTURAL INSPECTORS—USDA increases hourly rates for overtime services (2 documents); effective 1–7–73 ..... 1377, 1380

COMMODITY LOAN PROGRAM—USDA rules redeemed commodities ineligible as new security; effective 1–12–73 1379

NEW DRUGS—FDA proposes to withdraw approval of certain vitamins with high niacin content; comments by 2–12–73 1404

ANTIDUMPING—
Treasury Dept. determines that record changers from the United Kingdom are not being sold at less than fair value 1403
Tariff Comm. issues notice of investigation on manual hoists from Luxembourg; hearing on 2–20–73 1422

MEETINGS—

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

Title 6—ECONOMIC STABILIZATION

Chapter III—Price Commission

PART 300—PRICE STABILIZATION

Cafeterias and Restaurants Operated by Prenotification Firms

The purpose of this amendment to § 300.51 of the regulations of the Price Commission is to permit a prenotification firm to increase the price of an item of food or beverage served in a cafeteria, restaurant, or similar facility, owned and operated by that firm for the serving of food and beverage to its employees, without complying with the prenotification requirements of paragraph (a) or (b) of that section.

The Price Commission has received requests from several prenotification firms for an exception from the prenotification requirements of paragraphs (a) and (b) of § 300.51 for an increase in the price of an item of food or beverage served in cafeterias owned and operated by those firms for its employees. It appears that each of these firms operates its cafeteria on a nonprofit basis for the convenience of its employees, absorbs the overhead costs of the operation, and customarily prices the items of food and beverage to recover only direct out-of-pocket expenses and costs.

Recently, the Price Commission granted an exception from the prenotification requirements of § 300.51 (a) and (b) for increases in prices for food and beverage items sold in an employee cafeteria which was owned and operated by a prenotification firm. Experience under that exception indicates that a similar exception may be granted to any prenotification firm for an increase in the price of an item of food or beverage sold in a cafeteria, restaurant, or similar facility owned and operated by that firm on a nonprofit basis for the benefit and convenience of its employees. Section 300.51(1) as adopted herein provides for such an exception subject to the conditions and limitations prescribed in subparagraphs (1) through (4) of that section. The word "restaurant" as used in this amendment and as defined by the Cost of Living Counsel (Ruling 1972–35; 37 FR 6118) includes carryouts, lunch counters, and diners.

Since this amendment is needed to provide relief from restrictive provisions, the Price Commission finds that further notice and public procedure thereon are impracticable and unnecessary and that good cause exists to make it effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Public Law 91–379, 84 Stat. 799; Public Law 91–558, 84 Stat. 1468; Public Law 92–8, 85 Stat. 13; Public Law 92–15, 85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92–210; Executive Order No. 11640, 37 FR 1213, Jan. 27, 1972; Cost of Living Council Order No. 4, 36 FR 20202, Oct. 16, 1971)

In consideration of the foregoing, Title 6 of the Code of Federal Regulations is amended as set forth herein, effective January 12, 1973.

Issued in Washington, D.C., on January 9, 1973.

C. JACKSON GRAYSON, JR.,
Chairman, Price Commission.

1. Section 300.51 is amended by adding a new paragraph (l) at the end thereof to read as follows:

§ 300.51 **Prenotification firms.**

* * * * * *

(l) *Firm operated cafeterias and restaurants; prenotification.* A prenotification firm may increase the price for an item of food or beverage served in a cafeteria, restaurant, or similar facility owned and operated by that firm, without the prenotification required by paragraph (a) or (b) of this section, if—

(1) The cafeteria, restaurant, or facility is operated on a nonprofit basis primarily for the benefit and convenience of the firm's employees;

(2) The customary pricing practice of the firm for the operation of the cafeteria, resturant, or facility is to reach a "break-even" point on direct out-of-pocket expenses and costs, and to subsidize the indirect (overhead) expenses and costs;

(3) Any operating deficit incurred by the firm for the operation of the cafeteria, restaurant, or facility is not included as a part of its direct or indirect labor costs; and

(4) The price increase is charged for the purpose of recovering only direct out-of-pocket expenses and costs for the items of food or beverage concerned.

[FR Doc.73-719 Filed 1-11-73;8:45 am]

Title 7—AGRICULTURE

Chapter III—Animal and Plant Health Inspection Service, Department of Agriculture

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Overtime Work at Border Ports, Seaports, and Airports

Agricultural quarantine inspectors of the U.S. Department of Agriculture are charged with performing inspection duties relating to imports and exports at border ports, seaports, and airports. Such services may be performed outside the regular tour of duty of the inspector when requested by a person, firm, or corporation and the charge for such overtime is recoverable from those requesting the services. The following docket increases the hourly rates for such services performed on a Sunday or holiday, or at any other time outside the regular tour of duty. These increases are commensurate with salary increases provided Federal employees in accordance with the Federal Pay Comparability Act of 1970 (Public Law 91–656), and Executive Order 11691 dated December 15, 1972. Further, a technical amendment deletes an erroneous reference to Subchapter G of Chapter I of Title 9, Code of Federal Regulations.

Pursuant to the authority conferred by the Act of August 28, 1950 (64 Stat. 561; 7 U.S.C. 2260), § 354.1 of Part 354, Title 7, Code of Federal Regulations, is amended to read as follows:

§ 354.1 **Overtime work at border ports, seaports, and airports.**

(a) Any person, firm, or corporation having ownership, custody or control of plants, plant products, animals, animal products, or other commodities or articles subject to inspection, laboratory testing, certification, or quarantine under this chapter and Subchapter D of Chapter I, Title 9 CFR, who requires the services of an employee of the Plant Protection and Quarantine Programs, on a Sunday or holiday, or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of Sunday or holiday or overtime service request the Plant Protection and Quarantine Programs inspector in charge to furnish inspection, laboratory testing, certification, or quarantine service during such overtime, or Sunday or holiday period, and shall pay the Government therefor at the rate of $15.44 per man-hour per employee on a Sunday and at the rate of $10.72 per man-hour per employee for holiday or any other period; except that for any services performed on a Sunday or holiday, or at any time after 5 p.m. or before 8 a.m. on a weekday, in connection with the arrival in or departure from the United States on a private aircraft or vessel, the total amount payable shall not exceed $25 for all inspectional services performed by the Customs Service, Immigration and Naturalization Service, Public Health Service, and the Department of Agriculture. A minimum charge of 2 hours shall be made for any Sunday or holiday or unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or which is performed by an employee on his regular workday beginning either at least 1 hour before his scheduled tour

V 38 - 8 JAN 12 73 XUM

of duty or which is not in direct continuation of the employee's regular tour of duty. In addition, each such period of Sunday or holiday or unscheduled overtime work to which the 2-hour minimum charge provision applies which requires the employee involved to perform additional travel may include a commuted traveltime period the amount of which shall be prescribed in administrative instructions to be issued by the Deputy Administrator, Plant Protection and Quarantine Programs for the areas in which the Sunday or holiday or overtime work is performed and such period shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from the place at which the employee performs such Sunday or holiday or overtime duty if such travel is performed solely on account of such Sunday or holiday or overtime service. With respect to places of duty within the metropolitan area of the employee's headquarters, such commuted travel period shall not exceed 3 hours. When inspection, laboratory testing, certification, or quarantine services are performed at locations outside the metropolitan area in which the employee's headquarters is located, one-half of the commuted travel period applicable to the point at which the services are performed shall be charged when duties involve overtime that begins less than 1 hour before the beginning of the regular tour and/or is the continuation of the regular tour of duty. It will be administratively determined from time to time which days constitute holidays.

(b) The plant protection and quarantine programs inspector in charge in honoring a request to furnish inspection, laboratory testing, quarantine, or certification service, shall assign employees to such Sunday or holiday or overtime duty with due regard to the work program and availability of employees for duty.

(c) As used in this section—

(1) The term "private aircraft" means any civilian aircraft not being used to transport persons or property for compensation or hire, and

(2) The term "private vessel" means any civilian vessel not being used (i) to transport persons or property for compensation or hire, or (ii) in fishing operations or in processing of fish or fish products.

(64 Stat. 561; 7 U.S.C. 2260)

Effective date. The foregoing amendment shall become effective January 6, 1973, when it shall supersede 7 CFR 354.1, as amended January 19, 1972.

Determination of the hourly rate for overtime services and of the commuted traveltime allowances depends entirely upon facts within the knowledge of the Department of Agriculture. It is to the benefit of the public that this amendment be made effective at the earliest practicable date. Accordingly, pursuant to the administrative provisions of 5 U.S.C. 553, it is found upon good cause that notice and public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest and good cause is found for making this amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 8th day of January 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 568]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period January 14–20, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.868 Lemon Regulation 568.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continues to improve on sizes 115 and larger. Average price is $4.95 per carton. Track and rolling supplies at 95 cars were down 33 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication herein in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 9, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period January 14, 1973, through January 20, 1973, is hereby fixed at 200,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 11, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-860 Filed 1-11-73;11:10 am]

[Grapefruit Reg. 89]

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida Indian River grapefruit that may be shipped to fresh market during the weekly regulation period January 15 through 21, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 912. The quantity of grapefruit produced in the Indian River District in Florida so fixed was arrived at after consideration of the total available supply of Indian River grapefruit, the quantity currently available for market, the fresh market demand for Indian River grapefruit, Indian River grapefruit prices, and the relationship of season average returns to the parity price for Florida grapefruit.

§ 912.389 Grapefruit regulation 89.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 912, as amended (7 CFR Part 912), regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Indian River Grapefruit Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the Act.

(2) The need for this section to limit the quantity of Indian River grapefruit that may be marketed during the ensuing week stems from the production and marketing situation confronting the Indian River grapefruit industry.

(i) The committee has submitted its recommendation with respect to the total quantity of grapefruit which it deems advisable to be handled during the next succeeding week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the market demand for Indian River grapefruit is showing some strength. Prices, f.o.b. per ⅘ bushel carton, for the week ended January 7, 1973, averaged $2.60 for white seedless and $3 for pink seedless. Shipments for the week ended January 7, 1973, and for the previous week were 415 carlots and 230 carlots, respectively. On January 7, 1973, there were 11,115 carloads of Indian River grapefruit remaining for interstate shipments, while 4,385 carlots have been shipped to date.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of grapefruit which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until February 12, 1973 (5 U.S.C. 553), because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time, and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Indian River grapefruit, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Indian River grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 9, 1973.

(b) *Order.* (1) The quantity of grapefruit grown in the Indian River District which may be handled, is hereby fixed at 200,000 standard packed boxes, during the period January 15 through January 21, 1973.

(2) As used in this section, "handled," "Indian River District," "grapefruit," and "standard packed box" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 10, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-769 Filed 1-11-73;8:45 am]

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regs., Amdt. 4]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—General Regulations Governing Price Support for the 1970 and Subsequent Crops

REDEEMED COMMODITIES INELIGIBLE

The regulations issued by the Commodity Credit Corporation published at 35 FR 7363, as amended, containing the General Regulations Governing Price Support for the 1970 and Subsequent Crops of Grain and Similarly Handled Commodities are hereby amended as follows:

A new paragraph (f) is added to § 1421.4 to prohibit, with certain exceptions, loans on collateral which have been redeemed from the loan and purchase program. Paragraph (f) reads as follows:

§ 1421.4 Eligibility requirements.

* * * * * *

(f) *Redeemed loan collateral.* Except as provided in §§ 1421.6(d) and 1421.18 (d) with respect to the transfer of a farm-storage loan to warehouse storage, a producer shall not reoffer as security, or repledge as collateral, for repayment of a CCC loan any commodity that has been previously so mortgaged or pledged.

Since this amendment is needed to carry out the loan and purchase program more effectively, compliance with the notice of proposed rule making and public participation procedure would be impractical and contrary to the public interest. Therefore, this amendment is issued without compliance with such procedure.

(Secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 105, 107, 301, 401, 405, 63 Stat. 1051, as amended; 15 U.S.C. 714b and c; 7 U.S.C. 1441, 1447, 1421, 1425)

Effective date: January 12, 1973.

Signed at Washington, D.C., on January 3, 1973.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

[FR Doc.73-697 Filed 1-11-73;8:45 am]

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

PART 299—IMMIGRATION FORMS

Documentary Requirements

Reference is made to the notice of proposed rule making which was published in the FEDERAL REGISTER on November 1, 1972 (37 FR 23274), pursuant to section 553 of title 5 of the United States Code (80 Stat. 383) and in which there were set forth proposed amendments pertaining to the exemption from the labor certification requirement of aliens seeking to enter the United States to engage in a commercial or agricultural enterprise in which they have invested or are in the process of investing capital.

The representations which were received concerning the proposed rules of November 1, 1972, have been considered. Those proposed rules have been amended in the following respects: In proposed § 212.8(b), item (4) has been amended

V 38-8 JAN 12 73 XUM

by deleting the requirement that the enterprise "reasonably be expected to be of prospective benefit to the economy of the United States and not intended solely to provide a livelihood for the investor and his family"; by deleting the words "his own" immediately preceding the word "capital"; by changing "$25,000" to read "$10,000,"; by deleting the words "exclusive of goodwill or personal skills"; and by adding a new clause at the end thereof which reads: "and who establishes that he has had at least 1 year's experience or training qualifying him to engage in such enterprise."

The proposed rules, as modified, are hereby adopted:

In § 212.8(b), subparagraph (4) is amended to read as follows:

§ 212.8 Certification requirement of section 212(a)(14).

. . . . . .

(b) *Aliens not required to obtain labor certification.* * * * (4) an alien who establishes on Form I–526 that he is seeking to enter the United States for the purpose of engaging in a commercial or agricultural enterprise in which he has invested, or is actively in the process of investing, capital totaling at least $10,000, and who establishes that he has had at least 1 year's experience or training qualifying him to engage in such enterprise. * * *

The list of forms in § 299.1 *Prescribed forms* is amended by adding the following form and reference thereto in alphabetical and numerical sequence:

§ 299.1 Prescribed forms.

. . . . . .

Form No.	*Title and description*
I–526	Request for Determination that Prospective Immigrant is an Investor.

. . . . . .

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

The basis and purpose of the above-prescribed regulations are to clarify the rules pertaining to exemption from the labor certification requirement of aliens coming to engage in a commercial or agricultural enterprise by specifying a minimum capital investment of $10,000, and to provide that the alien establish that he has had at least 1 year's experience or training qualifying him to engage in such enterprise.

In accordance with the provisions of section 553 of title 5 of the United States Code (80 Stat. 383), this order shall become effective on February 12, 1973.

Dated: December 21, 1972.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

[FR Doc.73–650 Filed 1–11–73;8:45 am]

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 97—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

Overtime, Night, and Holiday Inspection and Quarantine Activities at Border, Coastal, and Airports

Veterinary Services inspectors of the U.S. Department of Agriculture are charged with performing inspection duties relating to imports and exports at border ports, ocean ports, and airports. Such services may be performed outside the regular tour of duty of the inspector when requested by a person, firm, or corporation, and the charge for such overtime is recoverable from those requesting the services. The following amendment increases the hourly rates for such services performed on a Sunday or holiday, or at any other time outside the regular tour of duty. These increases are commensurate with salary increases provided Federal employees in accordance with the Federal Pay Comparability Act of 1970 (Public Law 91–656), and Executive Order 11691.

Therefore, pursuant to the authority conferred by the Act of August 28, 1950 (64 Stat. 561; 7 U.S.C. 2260), § 97.1 of Part 97, Title 9, Code of Federal Regulations, is amended to read as follows:

§ 97.1 Overtime work at laboratories, border ports, ocean ports, and airports.[1]

Any person, firm, or corporation, having ownership, custody, or control of animals, animal byproducts, or other commodities subject to inspection, laboratory testing, certification, or quarantine under this subchapter and Subchapter G of this chapter, and who requires the services of an employee of Veterinary Services on a holiday or Sunday or at any other time outside the regular tour of duty of such employee, shall sufficiently in advance of the period of overtime or holiday or Sunday service request the Veterinary Services inspector in charge to furnish inspection, laboratory testing, certification or quarantine service during such overtime or holiday or Sunday period and shall pay the Administrator of the Animal and Plant Health Inspection Service at a rate of $15.44 per man-hour per employee on a Sunday and at a rate of $10.72 per man-hour per employee for holiday or any other period; except that for any services performed on a Sunday, or holiday, or at any time after 5 p.m. or before 8 a.m. on a weekday, in connection with the arrival in or departure from the United States of a private aircraft or vessel, the total amount payable shall not exceed $25 for all inspectional services performed by the Customs Service, Immigration and Naturalization Service, Public Health Service, and the Department of Agriculture. A minimum charge of 2 hours shall be made for any Sunday or holiday or unscheduled overtime duty performed by an employee on a day when no work was scheduled for him or which is performed by an employee on his regular workday beginning either at least 1 hour before his scheduled tour of duty or which is not in direct continuation of the employee's regular tour of duty. In addition, each such period of Sunday or holiday or unscheduled overtime work to which the 2-hour minimum charge provision applies which requires the employee involved to perform additional travel may include a commuted traveltime period the amount of which shall be prescribed in administrative instructions to be issued by the Deputy Administrator, Veterinary Services for the ports, stations, and areas in which the employees are located and shall be established as nearly as may be practicable to cover the time necessarily spent in reporting to and returning from such overtime or holiday or Sunday duty if such travel is performed solely on account of such overtime or holiday or Sunday service. With respect to places of duty within the metropolitan area of the employee's headquarters, such commuted travel period shall not exceed 3 hours. When inspection, laboratory testing, quarantine or certification services are performed at locations outside the metropolitan area in which the employee's headquarters are located, one-half of the commuted traveltime period applicable to the point at which the services are performed shall be charged when duties involve overtime that either begins less than 1 hour before the beginning of the regular tour and/or is in continuation of the regular tour of duty: *Provided, however,* That periods of unscheduled overtime or holiday service performed by laboratory personnel shall be limited to Saturdays, Sundays, and holidays, and shall further be limited to hours which normally constitute a regular workday. It shall be administratively determined from time to time which days constitute holidays.

[1] For designated ports of entry for certain animals, animal semen, poultry, and hatching eggs see 9 CFR 92.1 through 92.3; and for designated ports of entry for certain purebred animals see 9 CFR 151.1 through 151.3.

(b) As used in this section—

(1) The term "private aircraft" means any civilian aircraft not being used to transport persons or property for compensation or hire, and

(2) The term "private vessel" means any civilian vessel not being used (i) to transport persons or property for compensation or hire, or (ii) in fishing operations or in processing of fish or fish products.

(64 Stat. 561, 7 U.S.C. 2260)

Effective date. The foregoing amendment shall become effective January 8, 1973, when it shall supersede 9 CFR 97.1, effective January 19, 1972.

Determination of the hourly rate for overtime services and of the commuted traveltime allowances depends entirely upon facts within the knowledge of the Department of Agriculture. It is to the benefit of those who require such overtime services, as well as the public generally, that this amendment be made effective at the earliest practicable date. Accordingly, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and other public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 8th day of January 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73–695 Filed 1–11–73;8:45 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 73–GL–1; Amdt. 39–1584]

PART 39—AIRWORTHINESS DIRECTIVES

Hartzell Propellers

There has been a report of a separation of a blade at the shank of a Hartzell propeller. The cause of the failure is believed to result from corrosion-induced fatigue cracks in the blade shank retention area. Since this condition may exist or develop in other blades of a similar design, an airworthiness directive is being issued to require inspection and rework, or replacement of the propeller blades.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89) § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

HARTZELL. Applies to all models HC–92ZK, HC–92WK, and BHC–92WK Series Propellers with 8447, W8447, and LW8447 type blades used on the Lycoming O–360 and IO–360 series engines installed on but not limited to the Beech 95 and Piper PA–24 Aircraft.

Compliance required as indicated, unless already accomplished. To prevent blade shank failures, accomplish the following:

(a) Propellers with 950 or more hours in service since new or last overhaul, must be inspected and reworked in accordance with paragraphs (d), (e), and (f) within the next 50 hours time in service after the effective date of this AD, and every 1,000 hours in service from the last inspection.

(b) Propellers with less than 950 hours in service since new or last overhaul as of the effective date of this AD, must be inspected and reworked in accordance with paragraphs (d), (e) and (f) prior to the accumulation of 1,000 hours in service since new, or last overhaul, and every 1,000 hours from the last inspection.

(c) Propellers whose hours in service since new or last overhaul are unknown will be assumed to have a total of 950 hours minimum since new or last overhaul and thus must be inspected and reworked in accordance with paragraphs (d), (e), and (f) within the next 50 hours after the effective date of this AD, and every 1,000 hours from the last inspection.

(d) Remove the blades from the propeller and visibly inspect each blade in the shank area for corrosion. Any indications of corrosion should be lightly polished with a fine grit emery cloth only. In the event the corrosion is not removed completely after .003" material has been removed, replace corroded blades before further flight with blades to which this AD does not apply, or have been inspected and altered in accordance with this directive.

(e) Inspect each blade in the blade shank area for cracks by the penetrant method. Replace any cracked blades before further flight with blades to which this AD does not apply, or have been inspected and altered in accordance with this directive.

(f) Shot peen the blade shank area in accordance with Hartzell Bulletin No. 83 dated October 18, 1962, revised December 27, 1972, or later FAA approved revision, or an equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Great Lakes Region. On previously shot peened blades, the shot peening should only be repeated if the shot peened surface is worn or marked in any way below the pebble grain of the shot peened surface.

(g) Upon submission of substantiating data through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, Great Lakes Region, may adjust the repetitive inspection interval specified in this AD.

(Hartzell Bulletins No. 83 dated Oct. 18, 1962, revised Dec. 27, 1972, No. 83 Supplement No. 1 dated Feb. 11, 1963, No. 83 Supplement No. 4 dated Nov. 27, 1972, No. 83 Supplement No. 5 dated Dec. 27, 1972 and Overhaul Manuals Nos. 105(—), 110(—) and 114(—) also pertain to this subject.)

This amendment becomes effective January 19, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on January 5, 1973.

R. O. ZIEGLER,
Acting Director, Great Lakes Region.

[FR Doc.73–700 Filed 1–11–73;8:45 am]

[Airspace Docket No. 72–GL–44]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 20955 of the FEDERAL REGISTER dated October 5, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation regulations so as to designate a transition area at Big Rapids, Mich.

Interested persons were given 45 days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on December 15, 1972.

R. O. ZIEGLER,
Acting Director, Great Lakes Region.

In § 71.181 (38 FR 435), the following transition area is added:

BIG RAPIDS, MICH.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of Roben-Hood Airport (latitude 43° 43'13" N., longitude 85°29'52" W.) and within 5 miles each side of the White Cloud VOR 047° radial extending from a 8-mile radius area to the VOR, excluding the portion overlying the Reed City transition area.

[Airspace Docket No. 72–GL–45]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On pages 20952 and 20953 of the FEDERAL REGISTER dated October 5, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation regulations so as to designate a transition area at New Castle, Ind.

Interested persons were given 45 days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

V38-8 JAN 12 73 XUM

Issued in Des Plaines, Ill., on December 15, 1972.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (38 FR 435), the following transition area is added:

NEW CASTLE, IND.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of New Castle-Henry County Municipal, Sky Castle Airport (latitude 39°51'50" N., longitude 85°19'24" W.).

[FR Doc.73-702 Filed 1-11-73;8:45 am]

[Airspace Docket No. 72-GL-48]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 20953 of the FEDERAL REGISTER dated October 5, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation regulations so as to alter a transition area at Galesburg, Ill.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Des Plaines, Illinois, on December 15, 1972.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (38 FR 435), the following transition area is amended to read:

GALESBURG, ILL.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Galesburg Municipal Airport (latitude 40°56'24" N., longitude 90°25'48" W.); within 5 miles east and 8 miles west of the Galesburg VOR 019° radial extending from the VOR to 12 miles north of the VOR; within 5 miles northwest and 8 miles southeast of the VOR 214° radial extending from the VOR to 12 miles southwest of the VOR; within a 5-mile radius of the Monmouth Municipal Airport (latitude 40°55'42" N., longitude 90°38'06" W.).

[Airspace Docket No. 72-GL-51]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On page 20954 of the FEDERAL REGISTER dated October 5, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.171 of Part 71 of the Federal Aviation regulations so as to alter the control zone at Muncie, Ind.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on December 15, 1972.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.171 (38 FR 351), the following control zone is amended to read:

MUNCIE, IND.

Within a 5-mile radius of Delaware County-Johnson Field (latitude 40°14'26" N., longitude 85°23'43" W.); within 2½ miles each side of the Muncie VOR 125° radial, extending from the 5-mile-radius zone to 6½ miles southeast of the VOR; within 2½ miles each side of the Muncie VOR 017° radial, extending from the 5-mile-radius zone to 6½ miles north of the VOR; and within 3½ miles each side of the Muncie VOR 320° radial, extending from the 5-mile-radius zone to 10 miles northwest of the VOR. This control zone is effective during the specific dates and times established in advance by a notice to airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

[FR Doc.73-704 Filed 1-11-73;8:45 am]

[Airspace Docket No. 72-GL-52]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On pages 20954 and 20955 of the FEDERAL REGISTER dated October 5, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.171 of Part 71 of the Federal Aviation regulations so as to alter the control zone at Cleveland, Ohio (Burke-Lakefront Airport).

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Illinois, on December 15, 1972.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.171 (38 FR 351), the following control zone is amended to read:

CLEVELAND, OHIO (BURKE-LAKEFRONT AIRPORT)

Within a 5-mile radius of the Burke-Lakefront Airport (41°31'02" N., 81°41'04" W.); within 2 miles each side of the Burke-Lakefront ILS localizer northeast course, extending from the 5-mile radius zone to the OM, excluding the portion overlying the Cleveland, Ohio (Cleveland-Hopkins International Airport) control zone. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

[FR Doc.73-705 Filed 1-11-73;8:45 am]

[Airspace Docket No. 72-GL-53]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On page 20955 of the FEDERAL REGISTER dated October 5, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.171 of Part 71 of the Federal Aviation regulations so as to alter the control zone at Columbus, Ohio (Ohio State University).

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., March 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Illinois, on December 15, 1972.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.171 (38 FR 351), the following control zone is amended to read:

COLUMBUS, OHIO (OHIO STATE UNIVERSITY AIRPORT)

Within a 5-mile radius of the Ohio State University Airport (latitude 40°04'40" N., longitude 83°04'30" W.); within 3 miles each side of the 273° and 090° bearings from the airport extending from the 5-mile radius zone to 8½ miles west and east of the airport, excluding that portion within the Columbus, Ohio (Port Columbus International Airport) control zone. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airmen's Information Manual.

Title 15—COMMERCE AND FOREIGN TRADE

Subtitle A—Office of the Secretary of Commerce

PART 4a—CLASSIFICATION, DECLASSIFICATION AND PUBLIC AVAILABILITY OF NATIONAL SECURITY INFORMATION

Subtitle A of Title 15 is amended by adding a new Part 4a to read as follows:

Subpart A—Introduction

Sec.
4a.1 Purpose.
4a.2 Policies.
4a.3 Department of Commerce National Security Classification Review Committee.

Subpart B—Classification

4a.21 General.
4a.22 Security classification categories.
4a.23 Authority for classification of documents.

Subpart C—Declassification and Review

4a.31 General policy.
4a.32 General declassification schedule.
4a.33 Exemptions from General declassification schedule.
4a.34 Systematic reviews.
4a.35 Mandatory review of exempted material.
4a.36 Review of classified material for declassification purposes.

Subpart D—Access to Classified Information and Materials

4a.41 Historical researchers.
4a.42 Access by former Presidential appointees.

AUTHORITY: Sec. 5 of E.O. 11652.

Subpart A—Introduction

§ 4a.1 Purpose.

These regulations govern the handling of classified information or material that originates in or comes under the jurisdiction of the Department of Commerce. Their purpose is to assure that classified information is protected, but only to the extent and for such period as is necessary.

§ 4a.2 Policies.

The use and application of security classification shall be limited to only that information which is truly essential to the national security. In no case shall information be classified in order to conceal inefficiency or administrative error, to prevent embarrassment to a person or department, to restrain competition or independent initiative, or to prevent for any other reason the release of information which does not require protection in the interest of national security. If the classifier has any substantial doubt as to which security classification category is appropriate, or as to whether the material should be classified at all, he should take the less restrictive course of action. Both unnecessary classification and overclassification shall be carefully avoided.

§ 4a.3 Department of Commerce National Security Classification Review Committee.

The Secretary has established the Department of Commerce National Security Classification Review Committee pursuant to section X of the Presidential Directive of May 17, 1972. The committee is composed of the Director, Departmental Office of Investigations and Security (Chairman), and representatives from the Departmental Offices of General Counsel, Organization and Management Systems, and Personnel. Additionally, the Chairman may from time to time identify other organizations of the Department to furnish representation.

(a) This committee shall have responsibility for the following functions:

(1) To resolve all suggestions and complaints concerning the implementation and administration of E.O. 11652 and the Directive of May 17, 1972, including those concerning overclassification, failure to declassify, or delays in declassification not otherwise resolved.

(2) To review all appeals of requests for records under the Freedom of Information Act (title 5 U.S.C., section 552) when the proposed denial is based on their continued classification under E.O. 11652.

(3) To recommend to the Secretary of Commerce appropriate administrative action to correct abuse or violation of any provision of E.O. 11652 or the Directive of May 17, 1972.

(b) All suggestions, complaints or appeals to this committee should be addressed to the Director, Departmental Office of Investigations and Security, Room 5044, Main Commerce Building, 14th Street between E and Constitution Avenue NW., Washington, DC 20230.

Subpart B—Classification

§ 4a.21 General.

Official information or material which requires protection against unauthorized disclosure in the interest of the national defense or foreign relations of the United States (hereinafter collectively termed "national security") shall be classified in one of three categories, namely Top Secret, Secret or Confidential, depending upon the degree of its significance to national security. No other categories shall be used to identify official information or material as requiring protection in the interest of national security, except as otherwise expressly provided by statute. These classification categories are described and discussed in § 4a.22 below.

§ 4a.22 Security classification categories.

(a) *Top Secret.* Top Secret refers to that national security information or material which requires the highest degree of protection. The test for assigning Top Secret classification shall be whether its unauthorized disclosure could reasonably be expected to cause exceptionally grave damage to the national security. Examples of "exceptionally grave damage" include armed hostilities against the United States or its allies; disruption of foreign relations vitally affecting the national security; the compromise of vital national defense plans or complex cryptologic and communications intelligence systems; the revelation of sensitive intelligence operations; and the disclosure of scientific or technological developments vital to national security. The classification Top Secret shall be used with the utmost restraint.

(b) *Secret.* Secret refers to that national security information or material which requires a substantial degree of protection. The test for assigning Secret classification shall be whether its unauthorized disclosure could reasonably be expected to cause serious damage to the national security. Examples of "serious damage" include disruption of foreign relations significantly affecting the national security; significant impairment of a program or policy directly related to the national security; revelation of significant military plans or intelligence operations; and compromise of significant scientific or technological developments relating to national security. The classification Secret shall be sparingly used.

(c) *Confidential.* Confidential refers to that national security information or material which requires protection. The test for assigning Confidential classification shall be whether its unauthorized disclosure could reasonably be expected to cause damage to the national security.

§ 4a.23 Authority for classification of documents.

No official of the Department of Commerce is authorized to originally classify information or material Top Secret. The authority to originally classify information or material as Secret shall be restricted solely to those offices within the executive branch which are concerned with matters of national security, and shall be limited to the minimum number absolutely required for efficient administration. In the Department of Commerce, such authority shall be exercised only by the Secretary and certain senior principal deputies or assistants, including: (a) Secretarial Officers and their deputies; (b) specified Heads of Departmental Offices; (c) Heads of Operating Units and their deputies; and (d) such other officials as the Secretary may designate in writing. Any exceptions must be justified in a memorandum addressed to the Director of the Departmental Office of Investigations and Security. The authority to originally classify information or material Confidential shall be exercised by officials who have Secret classification authority and by such other officials as they may designate in writing.

Subpart C—Declassification and Review

§ 4a.31 General policy.

When a classification determination is made, it is necessary to determine how long the classification shall last in accordance with Subpart B of this part. Classified information and material shall

V38-8 JAN 12 73 XUM

be downgraded and declassified as soon as there are no longer any grounds for continued classification.

§ 4a.32 General Declassification Schedule.

(a) *Top Secret.* Information or material originally classified Top Secret shall become automatically downgraded to Secret at the end of the second full calendar year following the year in which it was originated, downgraded to Confidential at the end of the fourth full calendar year following the year in which it was orignated and declassified at the end of the 10th full calender year following the year in which it was originated.

(b) *Secret.* Information and material originally classified Secret shall become automatically downgraded to Confidential at the end of the second full calendar year following the year in which it was originated, and declassified at the end of the eighth full calendar year following the year in which it was originated.

(c) *Confidential.* Information and material originally classified Confidential shall become automatically declassified at the end of the sixth full calendar year following the year in which it was originated.

(d) *Applicability of the General Declassification Schedule to previously classified material.* Information or material classified before June 1, 1972, and which was assigned to Group 4 under Executive Order 10501, as amended by Executive Order 10964, shall be subject to the General Declassification Schedule. All other information or material classified before June 1, 1972, whether or not assigned to Groups 1, 2, and 3 of Executive Order 10501, as amended, shall be excluded from the General Declassification Schedule. However, at any time after the expiration of 10 years from the date of origin it shall be subject to a mandatory classification review and disposition under the same conditions and criteria that apply to classified information and material created after June 1, 1972.

§ 4a.33 Exemptions from General Declassification Schedule.

(a) Certain classified information or material may warrant some degree of protection for a period exceeding that provided in the General Declassification Schedule. As the Department no longer has Top Secret originating authority, it likewise has no exemption authority for classified information or material originated after June 1, 1972. When exemption is deemed necessary, the person seeking such exemption shall mark the document "Tentative Exempt" citing appropriate category and make application to the Departmental National Security Classification Review Committee. If the committee concurs, the application shall be forwarded to the Department having primary interest in the subject matter for a final determination.

(b) Requests for exemption shall be kept to the absolute minimum consistent with national security requirements and shall be restricted to the following categories:

(1) *Category 1.* Classified information or material furnished by foreign governments or international organizations and held by the United States on the understanding that it be kept in confidence.

(2) *Category 2.* Classified information or material specifically covered by statute, or pertaining to cryptography, or disclosing intelligence sources or methods.

(3) *Category 3.* Classified information or material disclosing a system, plan, installation, project or specific foreign relations matter the continuing protection of which is essential to the national security.

(4) *Category 4.* Classified information or material the disclosure of which would place a person in immediate jeopardy.

§ 4a.34 Systematic reviews.

All information and material classified after the effective date of the order and determined in accordance with Chapter 21, 44 U.S.C. (82 Stat. 1287) to be of sufficient historical or other value to warrant preservation shall be systematically reviewed on a timely basis by each operating unit of the Department or its successor for the purpose of making such information and material publicly available in accordance with the determination regarding declassification made by the classifier under section 5 of Executive Order 11652. During each calendar year the Department shall segregate to the maximum extent possible all such information and material warranting preservation and becoming declassified at or prior to the end of such year. Promptly after the end of such year the Department responsible, or the Archives of the United States if transferred thereto, shall make the declassified information and material available to the public to the extent permitted by law.

§ 4a.35 Mandatory review of exempted material.

(a) All classified information and material originated after June 1, 1972, which is exempted under § 4a.33 from the General Declassification Schedule, shall be subject to a classification review by the originating department at any time after the expiration of 10 years from the date of origin provided:

(1) A department or member of the public requests a review;

(2) The request describes the record with sufficient particularity to enable the Department to identify it; and

(3) The record can be obtained with only a reasonable amount of effort.

(b) Information or material which no longer qualifies for exemption under § 4a.33 shall be declassified. Information or material continuing to qualify under § 4a.33 shall be so marked and, unless impossible, a date for automatic declassification shall be set.

§ 4a.36 Review of classified material for declassification purposes.

(a) *Review of classified material over 10 years old.* Members of the public or departments may direct requests for mandatory review for declassification to the Director, Office of Investigations and Security, Room 5044, Main Commerce Building, 14th Street between E and Constitution Avenue NW., Washington, DC 20230, who shall in turn refer such requests to the appropriate operating unit for action. The operating unit which has been assigned action shall immediately acknowledge receipt of the request in writing. If the request requires the rendering of services for which fair and equitable fees should be charged pursuant to title 5 of the Independent Offices Appropriations Act, 1952, 65 Stat. 290, 31 U.S.C. 483a, the requester shall be so notified. The office which has been assigned action shall thereafter make a determination within 30 days of receipt or shall explain the reasons why further time is necessary. If at the end of 60 days from receipt of the request for review no determination has been made, the requester may apply to the Departmental National Security Classification Review Committee. Should the office assigned action on a request for review determine that under the criteria set forth herein continued classification is required, the requester shall promptly be notified and, whenever possible, provided with a brief statement as to why the requested information or material cannot be declassified. The requester may appeal any such determination to the Departmental Committee and the notice of determination shall advise him of this right. Should the Departmental Committee determine on appeal that continued classification is required, the requester shall be notified and, whenever possible, provided with a brief statement as to why the requested information cannot be declassified. The requester may appeal such determination to the Interagency Classification Review Committee and the notice of determination shall advise him of this right.

(b) *Declassification of classified information or material after 30 years.* All classified information or material which is 30 years old or more, whether originated before or after June 1, 1972, shall be declassified under the following conditions:

(1) All information and material classified after June 1, 1972, shall, whether or not declassification has been requested, become automatically declassified at the end of 30 full calendar years after the date of its original classification except for such specifically identified information or material which the head of the originating Department personally determines in writing at that time to require continued protection because such continued protection is essential to the national security or disclosure would place a person in immediate jeopardy. In such case, the head of the Department shall also specify the period of continued classification.

(2) A request by a member of the public or by a Department to review for declassification documents more than 30 years old shall be referred directly to the Archivist of the United States, and he shall have the requested documents reviewed for declassification in accordance with the above. If the information or material requested has not been transferred to the General Services Administration for accession into the Archives, the Archivist shall, together with the head of the Department having custody, have the requested documents reviewed for declassification. Classification shall be continued in either case only where the head of the Department concerned makes at that time the personal determination required above. The Archivist shall promptly notify the requester of such determination and of his right to appeal the denial to the Interagency Classification Review Committee.

(c) *Burden of proof for administrative determinations.* For purposes of administrative determinations under paragraphs (a) and (b) of this section, the burden of proof is on the originating department to show that continued classification is warranted.

(d) *Availability of declassified material.* Upon a determination under paragraphs (a) and (b) of this section that the requested material no longer warrants classification, it shall be declassified and made promptly available to the requester, if not otherwise exempt from disclosure under section 552(b) of title 5 United States Code (Freedom of Information Act) or other provisions of law.

(e) *Classification review requests.* A request for classification review must describe the document with sufficient particularity to enable the Department to identify it and obtain it with a reasonable amount of effort. Whenever a request is deficient in its description of the record sought, the requester should be asked to provide additional identifying information whenever possible. Before denying a request on the ground that it is unduly burdensome, the requester should be asked to limit his request to records that are reasonably obtainable. If the requester still does not describe the records sought with sufficient particularity, or the record requested cannot be obtained with a reasonable amount of effort, the requester shall be notified of the reasons why no action will be taken and of his right to appeal such decision. (See paragraph (a) of this section.)

Subpart D—Access to Classified Information and Materials

§ 4a.41 Historical researchers.

Persons outside the executive branch who are engaged in historical research projects may be authorized access to classified information or material, provided that:

(a) It is determined that such access is clearly consistent with the interests of national security.

(b) The material requested is reasonably accessible and can be located and compiled with a reasonable amount of effort.

(c) The person agrees to safeguard the information and to authorize a review of his notes and manuscript, and also agrees that such classified information or material will not be published or otherwise compromised.

(d) An authorization for access shall be valid for a period of 2 years from the date of issuance and may be renewed under regulations of the issuing Department.

§ 4a.42 Access by former Presidential appointees.

(a) Persons who previously occupied policy-making positions to which they were appointed by the President, may be authorized access to classified information or material which they originated, reviewed, signed, received or which was addressed to them while in public office.

(b) Upon the request of any former official, such information as he may identify shall be reviewed for declassification in accordance with the provisions of section 5 of E.O. 11652.

(c) The former Government officials referred to herein do not include members or employees of the White House Staff or Presidential special committees or commissions.

PETER G. PETERSON,
Secretary of Commerce.

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R-411, Order 465]

UNIFORM SYSTEM OF ACCOUNTS FOR NATURAL GAS COMPANIES (CLASS A AND CLASS B)

Accounting and Rate Treatment of Advance Payments for Gas Development and Production

DECEMBER 29, 1972.

On July 3, 1972 this Commission issued a renotice of its proposed rule making in Docket No. R-411 (37 FR 13559, July 11, 1972) proposing to determine whether the advance payment program is stimulating activity toward increasing the supply of natural gas sufficiently to justify the extension of rate base treatment of advances made after December 31, 1972.[1]

In addition, on October 24, 1972, this Commission issued a notice (37 FR 23363, Nov. 2, 1972) requesting comments on or suggested modifications of our proposed rule making. Docket No. R-411 based on the review of the summary[2] of responses to the questionnaire[3] filed by all pipeline companies that filed advance agreements with us in accordance with Orders No. 410 (44 FPC 1142) and No. 410-A (45 FPC 135), Docket No. R-380, and No. 441 (36 FR 21961), Docket No. R-411.

The object of the notice of July 3, 1972, was to afford all parties further opportunity to comment on (1) the question of continuing the rate base treatment of advances beyond the December 31, 1972, termination data; (2) allowing exploration and lease acquisition costs to be included in Account 166 to receive rate base treatment; (3) treating specified advances to pipeline affiliates the same as similar advances to independent producers; and (4) requiring simple interest at the rate of 7 percent per year to be paid by the producer to the pipelines on such advances. Comments were invited from interested parties to be submitted by July 31, 1972, on the renotice of proposed rule making and by November 3, 1972, for comments on the Summary of Responses to the Commission questionnaire, FPC Form No. 102, "Survey of Status of Development Under Terms of Advance Payment Agreement."

The total of 49 respondents' filing comments in the Commission's renotice of proposed rule making in Docket No. R-411 consists of 21 independent producers (including seven small producers), 13 interstate pipelines, three distributors, and eight affiliated companies making separate filings. Two associations and two State commissions also filed comments. Four respondents requested a conference to discuss the renotice, but because of the time element and the apparent completeness of the responses, the conferences were not scheduled.

Many respondents, in answering the four specific questions posed by us in the renotice, expressed reservations, qualifications or suggested variations. Producers, pipelines, distributors, and the associations overwhelmingly stressed higher field prices for both new and flowing gas as the only practical solution to the critical natural gas supply problem.

Sixteen producers (including the seven small producers), nine pipelines, three distributors, four affiliated companies, two associations, and one State commission generally favored continuation of advances beyond the December 31, 1972, cutoff date established by Order No. 441. Three producers, four pipelines, four affiliated companies, and one State commission opposed continuation.

Five pipelines reported substantial success in acquiring new gas reserves through the advances program. Information submitted on the questionnaires filed by these companies complements their conclusion. One of the most aggressive of the companies using the advances program stated "advance payments are virtually the only means by which pipeline companies are presently able to

[1] Termination date set in Order No. 441, issued Nov. 10, 1971, in Docket No. R-411.

[2] "Summary of Advance Payment Status Report," (accumulated and tabulated by the FPC staff) in the public file and available for inspection in the Commission's Office of Public Information and included in Attachment D, which is filed as part of the original document.

[3] Responses to the Commission's questionnaire are in the public file and available for inspection in the Commission's

[4] See Attachment A, List of Respondents.

V 38 I 8 JAN 12 73 XUM

acquire gas reserves on a long term basis," stating further that advances activity has been greatly reduced under the more restrictive requirements of Order No. 441.

Another pipeline, on the other hand which has just recently become active in the advances program reported that in their experience it is the small independent producers that are making a significant portion of the discoveries in their area and are particularly dependent on advances since many operate with marginal capital and have limited access to conventional sources of financing. Statements by the small producer respondents confirm this comment. One small producer reported drilling 114 oil and gas wells in 1971 and is continuing an aggressive exploration and development program in 1972. Another small producer reported having participated in exploration programs in the offshore area of Southern Louisiana, assisted by advance payments from an interstate pipeline. Still another reported that it has drilled nine gas discovery wells since November 1970 and has contracted for advances based on computed reserves of each well.

Six respondents referred to their previous statements in Dockets Nos. R–380 and R–411 to support their position in opposition to extending rate base treatment of advances beyond December 31, 1972. Two pipelines also contend their capital structure is weakened and they will have difficulty funding new facilities if the advances program is continued.

Three producers based their opposition on the argument of possible discrimination by the interstate pipelines in favor of their producing affiliates over the nonaffiliated independent producers.

Responses to our question as to whether lease acquisition and exploration costs should be allowed rate base treatment showed 16 supporting, 16 opposing, eight limiting rate base treatment to exploration costs and excluding lease acquisition, and nine respondents taking no position. Those opposing inclusion of these advances in rate base (Account 166) argue that any attempt to add to proven reserves by stimulating drilling activity will necessarily increase lease costs by virtue of more producers competing for a limited number of leases, without producing corresponding increases in proven reserves of gas. Those approving the inclusion of these advances in Account 166 argue that since Order No. 441 excluded these advances from rate base, the level of advances has seriously declined.

Our policy of treating independent producers and pipeline affiliates alike is supported by 25 respondents who favor allowing rate base treatment of advances to a pipeline affiliated producer. Ten respondents (seven large producers, one small producer, a producer association and a State commission) oppose such treatment citing economic advantage and preferential treatment because of affiliate relationships.

The question of requiring the producers to pay 7 percent simple interest on advances was opposed by 32 respondents with only three supporting the proposal. Fourteen respondents did not comment. Most respondents opposing the interest requirement commented that this would offset the basic incentive of the advances program and would be counterproductive.

We issued on October 24, 1972, "Notice of comment period on summary of responses to the renotice," (37 FR 23363, Nov. 2, 1972) to give interested parties an opportunity to comment on the Summary of Advance Payment Status Report, compiled from the questionnaire. (See footnote 2 above.)

Nine respondents[5] filed comments on the summary, maintaining their positions taken in response to our original notice of proposed rule making in Docket No. R–411. Respondents opposing continuation of rate base treatment of advances challenge both the significance of the data reported as well as its accuracy and adequacy. Two of these parties have attempted to make a cost determination by simply dividing total dollars advanced by the total reserve volume currently reported by the pipelines. This approach ignores the repayment requirements of the advance agreements as well as the fact that the cost passed on to the consumers is limited to the return on rate base and related taxes. Also ignored is the fact that exploration and development programs funded by the advances have not been completed, particularly those supported by advances, subject to Order No. 441, which have been in effect less than a year. Consequently the reserve volumes attributable to advances programs can reasonably be expected to increase when the drilling programs are completed.

Upon review of the responses to the renotice of proposed rule making Docket No. R–411, the data filed by the pipelines in answer to our advance payment questionnaire, the responses filed on the notice of the summary of the data compiled by this Commission in response to the questionnaire, and other data available to us, the following determination has been made:

All advances for which a contractual agreement was executed prior to the issuance of this order shall receive rate base treatment in accordance with the provisions of Orders Nos. 410 and 410–A in Docket No. R–380 or Order No. 441 issued in this docket, as appropriate. Advances for which contractual agreements were executed on or after the date of issuance of this order shall be treated as ordered herein. For rate base purposes advances to pipeline affiliated producers shall be treated the same as advances to independent producers.

Attachment D schedules II (a) and (b) show that proved reserves[6] obtained in the lower 48 amount to 8.7 trillion cubic feet (Tcf) from advances subject to Order Nos. 410 and 410–A and 0.8 Tcf from advances subject to Order No. 441 for a total of 9.5 Tcf. Assuming that the total of pre-441 advances in the lower 48 States ($481,849,239) are covered on the average in 5 years, there is a 1 year lag between the advance and commencement of recoupment and an average cost to the consumer of 13 percent for return and taxes; we estimate that the added cost to the consumer for the 8.7 Tcf of proven reserves will be approximately 2.5 cents per Mcf over the field price of gas purchased from those reserves.

Considering that the above reported data shows that advances to date have resulted in the addition of approximately 9½ Tcf of proven gas reserves in the lower 48 States and in view of our analysis of all of the responses to the renotice and our review of the program of advances in general, we find that rate base treatment of advances to producers has "represented a justifiable experiment in the continuing search for solutions to our Nation's critical shortage of natural gas."[7] Therefore, in view of the "temporary nature * * * and * * * ongoing experimental character"[8] of the advances program, it is reasonable and appropriate that the program be extended for the period ending December 31, 1973, and that all advances made pursuant to contractual agreements executed after the issuance of this order, but not later than December 31, 1973, be made subject to the provisions of this order.

In Order No. 441 we stated:

[5] See Attachment B, List of Respondents, which is filed as part of the original document.

[6] Proven reserves of natural gas are the estimated quantities of natural gas which geological and engineering data demonstrate with reasonable certainty to be recoverable in the future from known natural oil and gas reservoirs under existing economic and operating conditions.

Reservoirs are considered proven if economic producibility is supported by either actual production or conclusive formation tests. The area of a reservoir considered proved includes: (1) That portion delineated by drilling and defined by gas-oil, gas-water, or oil-water contacts; and (2) the adjoining portions not yet drilled but which can be reasonably judged as economically productive on the basis of available geological and engineering data. In the absence of information of fluid contacts, the lowest known structural occurrence of hydrocarbons controls the lower proven limit of the reservoir.

Reserve estimates are prepared for total recoverable natural gas, nonassociated gas and associated-dissolved gas. Estimates do not include (1) gaseous equivalents of natural gas liquids expected to be recovered from reservoir natural gas it is produced; or (2) nonhydrocarbon gases.

[7] Public Service Commission of New York v. F.P.C., —— F. 2d ——, CADC No. 71–1161, issued May 19, 1972 denying rehearing to —— F. 2d ——, CADC No. 71–1161, issued Mar. 29, 1972.

[8] Public Service Commission of New York v. F.P.C., —— F. 2d ——, CADC issued Mar. 29, 1972.

No advance may be included in Account 166 unless such advance is to be repaid in full by either delivery of natural gas or other consideration. Such repayment shall be completed within 5 years or as otherwise authorized by the Commission, from the date gas deliveries commence or the date it is determined that recovery will be in other than gas.

Our purpose in requiring the full recoupment of the advances was to ensure that the customers of the pipeline would not be charged for a project which resulted in a total or partial failure. This objective may also be accomplished by requiring the advancing pipeline itself to absorb any amounts of the advance not recovered either by gas or other economic consideration from the recipient of the advance. We adopt this approach in light of our initial and continuing intention to treat these advances as interest-free loans from the pipeline. Also, this approach will afford the pipeline added flexibility in negotiating with producers.

However, if 5 years elapses from the time the advance has been included in Account 166 and during such time no gas deliveries have commenced or no determination has been made that the recovery will be in economic consideration other than gas, the pipeline shall at the end of the 5-year period, remove the advance from Account 166 and cease rate base treatment thereof, unless otherwise directed by the Commission.

Moreover, if an advance which is or has been included in Account 166 results in the finding of proven reserves of natural gas, gas deliveries commence, but no gas flows to the advancing pipeline, the advance shall be removed from Account 166 immediately, if not already removed, and any revenues collected as a result of the advance being included in rate base shall be refunded by the pipeline company to their customers within 12 months after the removal of the advance from Account 166, unless otherwise directed by the Commission. Where there is partial recovery of the advance by gas, the amount of the advance removable from Account 166 and the amount of revenues refundable, shall be appropriately apportioned. It should be noted that, in considering rate base treatment for these advances, the Commission will consider whether or not a sufficient portion of the reserves found or expected to be found as a result of the advance is dedicated to the pipeline making such advance.

Our renotice of rulemaking herein sought comments as to the advisability of requiring an annual interest rate of 7 percent on advance payments made to producers by pipelines. Our main concern is that the pipeline's customers be protected from the risk of nonrecoverable advances, and if the pipeline and producer can agree to meet that objective, it is not appropriate for us to require a 7 percent annual interest rate to be paid to the pipeline by the producer. The great majority of those commenting on this issue indicated that the interest charge would offset the basic incentive of the advances program and would be counter-productive by making advances a less attractive source of funds to producers. Therefore, the 7 percent interest provision will not be adopted.

In Order No. 441 we excluded advances for exploration and lease acquisition from rate base (Account 166) because we found at that time:

That advances for exploration and lease acquisition have not (been) shown to be an effective vehicle for stimulating the widespread participation (of pipelines) in natural gas production for which their encouragement was intended.

Turning now to Attachment D, Schedule II(a) we find that proved reserves of 5.58 Tcf, all in the lower 48 States, have been developed from such advances under Order Nos. 410 and 410–A. Perhaps more significantly, we find that of the total dollars advanced in the lower 48 States[7] ($491,849,239), 67 percent ($329,502,382), was for lease acquisition and exploration and the resulting volume of proved reserves represents 64 percent of the total proved reserves (8.7 Tcf) developed in the lower 48. If the total proved and potential reserves in that area (8.7 Tcf plus 4.2 Tcf or 12.9 Tcf) were considered then lease acquisition and exploration account for 8.74 Tcf or 68 percent of all the reserves developed in the lower 48.

It is clear then that advances for exploration and lease acquisition have resulted in significant production activity. However, the comments indicate that advances for lease acquisition may have been a contributing factor in the bidding up of the price of the leases. Therefore we shall henceforth allow advances for exploration in rate base while continuing to exclude advances for lease acquisition from rate base.

In Order No. 441, we also imposed restrictions on rate base treatment of advances when a working interest or economic interest was retained by a pipeline affiliate. Upon review of the comments and the situation in general, we find that such treatment is inconsistent with our stated policy of treating pipeline affiliates equally with independent producers. As we stated in Opinion No. 568 (42 F.P.C. 743, 752);

Pipeline producers are henceforth to be treated on a parity with independent producers. By so doing we are encouraging intensified exploration by the pipeline producers. (Emphasis added) We would anticipate that gas produced from leases acquired after the issuance of this opinion would be promptly dedicated in the public interest to assure the adequacy of the supply of natural gas.

The majority of respondents agree with this position, stating that disallowing a working or other economic interest to a pipeline affiliate offers no economic advantage. It should be noted that under Order No. 441 pipeline affiliates, upon receipt of an advance, do not have the degree of freedom that independent producers have to negotiate agreements with other producers to develop the gas. Moreover, if a pipeline affiliate is allowed a working or economic interest, the cost to the customers of the pipeline is the same as when a pipeline makes an advance to an independent producer and retains no working or other economic interest. For these reasons, advances by the pipeline company to its affiliate who obtains a working or other economic interest, may include such advances in the rate base (Account 166). However, as noted above, advances shall not be used for lease acquisition.

Order Nos. 410, 410–A, and 441 allowed only advances made to producers within the lower 48 States to be included in Account 166 and receive rate base treatment. This same restriction shall apply to advances subject to this order. The proper treatment for advances made in the North American continent outside the lower 48 States where such production will be accessible by pipeline to the lower 48 States is the subject of a notice of proposed rule making in Docket No. R–466 issued simultaneously with this order.

To better reflect the intentions of Accounts 166 and 167, we are revising the titles to read:

166 advances for gas, exploration, development, and production.
167 other advances for gas.

Consistent with the amendments to § 154.63 of the regulations under the Natural Gas Act adopted herein, the Commission plans to consider those amounts allowed in Account 166, as rate base items, where found reasonable and appropriate.

The Commission finds:

(1) The notice and opportunity to participate in this proceeding with respect to the matters presently before this Commission through the submission, in writing, of data, views, comments and suggestions in the manner as described above are consistent and in accordance with all procedural requirements therefor as prescribed in section 553 of Title 5 of the United States Code.

(2) The amendments of this Commission's uniform system of accounts, regulations under the Natural Gas Act and Annual Report Form No. 2 schedules herein prescribed are necessary and appropriate for the administration of the Natural Gas Act.

(3) Since the revised schedules of FPC Form No. 2 are being prescribed for the reporting year 1972, good cause exists for making the amendments adopted herein effective immediately.

(4) Since the amendments prescribed herein, which are not included in the notice of this proceeding, are consistent with the prime purpose of the proposed rule making, further compliance with the notice provision of 5 U.S.C. 553 is unnecessary.

This Commission acting pursuant to the authority granted by the Natural Gas Act, as amended, particularly by sections 4, 5, 7, 15, and 16 (52 Stat. 822, 823, 824, 825, 829, and 830 (1938); 56 Stat. 83, 84 (1942); 61 Stat. 459 (1947); 76 Stat. 72 (1962); 15 U.S.C. 717c, 717d, 717f, 717n, and 717o, orders:

V 38 - 8 JAN 12 73 XUM

PART 154—RATE SCHEDULES AND TARIFFS

(A) Statement E—Working Capital, in paragraph (f) description of statements, of § 154.63 in part 154, Rates Schedules and Tariffs, Subchapter E—Regulations Under the Natural Gas Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows: Item (b) in the first sentence of the second paragraph of Statement E is revised by changing the date following the words "prior to" from "January 1, 1973," to "January 1, 1974," Schedules E–1 and E–2 are also amended. As amended, this portion of Statement E reads as follows:

§ 154.63 Changes in a tariff, executed service agreement or part thereof.

* * * * * * *

(f) *Description of Statements.* * * *

Statement E—Working Capital. * * *

The components of working capital may include * * * (b) an allowance for the average of 13 monthly balances of materials and supplies, prepayments, the unrecovered portion of advances to suppliers in Account 166 made under contracts executed prior to January 1, 1974, and gas for current delivery from underground storage. * * *

* * * * * * *

Schedule E–1 setting forth monthly balances for materials and supplies, prepayments, and advances in such detail as to disclose, either by subaccounts regularly maintained on the books or by analysis of the principal items included in the main account, the nature of the charges included therein.

Schedule E–2 setting forth monthly balances of material and supplies, prepayments, and advances on purchased gas for 2 years immediately preceding the 12 months of actual experience used in the filing.

* * * * * * *

PART 201—UNIFORM SYSTEM OF ACCOUNTS FOR NATURAL GAS COMPANIES

(B) This Commission's Uniform System of Accounts for Class A and Class B Natural Gas Companies prescribed by Part 201, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

1. In the Chart of Balance Sheet Accounts, the title of account "166, Advance Payment for Gas Development and Production," and account "167, Other Advance Payments for Gas" is amended. As so amended, the chart of accounts read:

Balance Sheet Accounts

ASSETS AND OTHER DEBITS

* * * * * * *

3. CURRENT AND ACCRUED ASSETS

* * * * * * *

166 Advances for gas exploration, development and production.
167 Other advances for gas.

* * * * * * *

2. In the Balance Sheet Accounts section, the title and text of account "166, Advance Payments for Gas Development and Production" and account "167, Other Advance Payments for Gas," is amended to read as follows:

Balance Sheet Accounts

ASSETS AND OTHER DEBITS

* * * * * * *

3. CURRENT AND ACCRUED ASSETS

* * * * * * *

166 Advances for gas exploration, development and production.

A. This account shall include all advances made within the lower 48 States for gas (whether called "advances," "contribution," or otherwise) to others, including advances to affiliated or associated companies; for exploration, development or production (but not to include lease acquisition) of natural gas, when such advances are to be repaid in full by either delivery of gas or other consideration. Under each agreement with payee, such payments must be made prior to initial gas deliveries, or if the agreement provides for advances on a well by well basis, each incremental payment must be made prior to deliveries from an incremental well, or prior to Federal and/or State authorization, as appropriate. Noncurrent advances not to be repaid within a 2-year period shall be reclassified and transferred to Account 124, Other Investments, for balance sheet purposes. This transfer is for reporting purposes only and has no effect on accounting or rate making.

B. When a pipeline obtains a working interest as a result of funds advanced to producers, such amounts shall be included in appropriate production accounts. When an associated company obtains a working interest as a result of funds advanced from a pipeline company, the pipeline shall include such amounts in Account 123, Investment in Associated Companies, or Account 146, Accounts receivable from Associated Companies, as appropriate, for formal contractual commitments made during the period of November 10, 1971 (effective date of Order 441) to the date of the issuance of Order No. 465.

C. Outstanding advances shall be fully reduced within 5 years, or as otherwise authorized by the Commission, from the date gas deliveries commence or the date it is determined that recovery will be in other than gas. This account shall be credited with advances not fully recovered within the 5-year period, and the unrecovered portion charged directly to Account 426.5, Other Deductions. A sufficient portion of all gas taken should be credited to the related outstanding advance so as to eliminate the advance within the 5-year period or as otherwise authorized by the Commission upon request by the pipeline company. The reduction of the outstanding advance should not be dependent on a buyer purchasing more than 100 percent of the minimum take or pay quantity provided in the contract.

D. Where recovery is by gas, recovered advance shall be credited to this account and charged to the appropriate gas purchase account.

E. When an advance results in a source of proven reserves of natural gas, but none flows to the pipeline company making such advances, the amount of the advance shall be removed from this account and recorded in Account 167. Any revenues collected as a result of the advance being included in rate base shall be refunded by the pipeline company to their customers within 12 months after the removal of the advance from this account, unless otherwise directed by the Commission. Where there is partial recovery of the advance by gas, in this situation, the amount of the advance transferred from this account to Account 167 and the amount of revenues refundable shall be appropriately apportioned.

F. If 5 years elapses from the time the advance has been included in this account and during such time no gas deliveries have commenced or no determination has been made that the recovery will be in economic consideration other than gas, the pipeline shall at the end of the 5-year period, transfer the advance from this account to Account 167, and cease rate base treatment thereof, unless otherwise directed by the Commission.

G. Whenever as a result of an advance included in this account, a pipeline receives any amount in excess of a full recovery of the advance, such amount must be credited to Account 813, Other Gas Supply Expenses. If the income or return is received in other than money, it shall be included at the market value of the assets received.

H. If the recipient of an advance is unable to repay it in full, through no fault of the pipeline or contractual provisions, in gas or other assets, the unpaid or nonrecoverable portion must be credited to this account at the time such amount is recognized as nonrecoverable. Nonrecoverable advances significant in amount must be eliminated within 5 years from the date of determination as nonrecoverable by either a charge to Account 435, Extraordinary Deductions, or when authorized by the Commission, by a transfer to Account 186, Miscellaneous Deferred Debits, and amortization to Account 813, Other Gas Supply Expenses. Nonrecoverable advances insignificant in amount should be charged directly to Account 813 in the year recognized as nonrecoverable.

I. No transfers shall be made from this account to any other accounts, unless otherwise provided herein, except as authorized by the Commission upon request by the pipeline company.

J. Three copies of any agreement concerning advances will be filed with the Secretary within 30 days of the initial related entry in Account 166.

NOTE A: This account may include advances for exploration (including lease acquisition costs) made according to the provision of Order Nos. 410 and 410–A, for which a contractual commitment was made prior to the date of Order No. 441. All advances made from October 2, 1970 (issue date of Order No. 410), to November 10, 1971 (issue date of Order No. 441), shall be subject to the provisions of Order Nos. 410 and 410–A.

NOTE B: This account shall not include advances for exploration (including lease acquisition costs) in accordance with Order No. 441, for which a contractual commitment was made from November 10, 1971 (issue date of Order No. 441), to the date of the issuance of Order No. 465.

NOTE C: All advances made from November 10, 1971 (issue date of Order No. 441), to the date of the issuance of Order No. 465 shall be subject to the provisions of Order No. 441.

NOTE D: This account shall not include advances expended for delay rentals, nonproductive well drilling or abandoned leases where such advances are related to lease acquisition, except in accordance with Note A and Note B to this account.

NOTE E: To keep the Commission informed when an advance is nonrecoverable by any means the company must submit the full details including copies of Federal and State plugging and abandonment reports involved as soon as such fact becomes known.

167 Other advances for gas.

This account shall include all advances not properly includible in Account 166, exclusive of amounts advanced where a working interest is obtained.

PART 260—STATEMENT AND REPORTS (SCHEDULES)

(C) The schedule pages 110, entitled Comparative Balance Sheet—Statement A, 210A, Gas Prepayment under Purchase Agreements, and 210B, entitled Advances for Gas Prior to Initial Deliveries or Commission Certification (Account 124, 166, and 167), in F.P.C. Form No. 2, Annual Report for Natural Gas Companies (Class A and Class B) prescribed by § 260.1, Chapter I, Title 18 of the Code of Federal Regulations is amended as set out in Attachment C hereto.*

(D) Subparagraph (c) of § 260.1, Part 260, Subchapter G, Chapter I, Title 18 CFR, is amended by adding a new schedule title, "Advances for Gas Prior to Initial Deliveries or Commission Certification (Account 124, 166, and 167)" immediately following, "Prepaid Gas Purchases Under Purchase Agreements." As amended, the subparagraph reads:

§ 260.1 Form No. 2, annual report for natural gas companies (Class A and Class B).

* * * * * * *

(c) This annual report contains the following schedules:

* * * * * * *

Advances for Gas Prior to Initial Deliveries or Commission Certification (Accounts 124, 166, and 167).

(E) This order is effective as of December 29, 1972.

(F) The Secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.682]

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

PART 42—VISAS: DOCUMENTATION OF IMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

Miscellaneous Amendments

Part 41, Chapter I, Title 22 of the Code of Federal Regulations is amended to authorize a consular or immigration officer to terminate the validity of a nonimmigrant visa upon entry of a final order of voluntary departure and/or deportation rather than upon institution of proceedings against an alien as presently provided.

Part 42, Chapter I, Title 22 of the Code of Federal Regulations is amended to establish guidelines on the amount and nature of capital an alien has invested or is in the process of investing in a commercial or agricultural enterprise in order not to be considered within the purview of section 212(a)(14) of the Immigration and Nationality Act, as amended.

1. Subparagraph (4) of § 41.122(e) is amended to read as follows:

§ 41.122 Validity of visas.

* * * * * * *

(e) *Termination of validity by consular or immigration officer.* * * *

(4) A final order of deportation or a final order granting voluntary departure with an alternate order of deportation is entered pursuant to 8 CFR Part 3, or 8 CFR Part 242;

* * * * * * *

2. Subdivision (ii)(*d*) of subparagraph (14) of § 42.91(a) is amended to read as follows:

§ 42.91 Aliens ineligible to receive visas.

(a) * * *

(14) * * *

(ii) The following persons are not considered to be within the purview of section 212(a)(14) and do not require a labor certification: * * *

(*d*) An alien who establishes by documentary evidence that he is seeking to enter the United States for the purpose of engaging in a commercial or agricultural enterprise in which he has invested, or is actively in the process of investing, capital totaling at least $10,000, and who establishes that he has had at least 1 year's experience or training qualifying him to engage in such enterprise; and * * *

* * * * * * *

Effective date. These amendments shall become effective on February 12, 1973.

The provisions of the Administrative Procedure Act (80 Stat. 383; 5 U.S.C. 553) relative to notice of proposed rule making are inapplicable to this order because the regulations contained herein involve foreign affairs functions of the United States. (Sec. 104, 66 Stat. 174; 8 U.S.C. 1104)

For the Secretary of State.

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter X—Federal Insurance Administration, Department of Housing and Urban Development

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or under the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). The entry reads as follows:

§ 1914.4 Status of participating communities.

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area
North Carolina	Dare	Manteo, Town of	I 37 055 2870 01	North Carolina Office of Water and Air Resources, Department of Natural and Economic Resources, Post Office Box 27687, Raleigh, NC 27611. Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 3—Department of Health, Education, and Welfare

PART 3–1—GENERAL

PART 3–3—PROCUREMENT BY NEGOTIATION

Miscellaneous Amendments

Chapter 3, Title 41, Code of Federal Regulations, is amended as set forth below. The purpose of these amendments is to provide a policy governing the use of contracts conditioned upon the availability of funds and to prohibit the use of certain types of agreements not authorized by the Federal Procurement Regulations.

It is the general policy of the Department of Health, Education, and Welfare to allow time for interested parties to participate in the rule making process. However, the amendments herein involve administrative matters. Therefore, the public rule making process is deemed unnecessary in this instance.

Subpart 3–1.3—General Policies

1. Table of contents of Subpart 3–1.3 is amended to add the following:

Sec.
3–1.354 Contracts conditioned upon availability of funds.

2. Subpart 3–1.3 is amended to add a new § 3–1.354 which reads as follows:

§ 3–1.354 Contracts conditioned upon availability of funds.

(a) *General.* In those situations where it is necessary to initiate a procurement properly chargeable to funds of the new fiscal year prior to the availability of such funds, contracts may be entered into conditioned upon the availability of funds. In these cases, the supplies or services shall not be accepted until the funds are available to the contracting officer for the procurement and until the contracting officer has given notice, confirmed in writing, to the contractor of the availability of funds. Appropriate records shall be maintained to ensure adequate control of funds.

(b) *Limitations.* Contracts conditioned upon the availability of funds shall be used only for operation, maintenance and continuing services (e.g., janitorial services, garbage removal, utilities, rentals) which are necessary for normal operation and for which the Congress consistently appropriates funds.

(c) *Contract clause.* The following clause shall be inserted in all solicitations and resultant contracts:

AVAILABILITY OF FUNDS

Funds are not presently available for this procurement. The Government's obligation hereunder is contingent upon the availability of appropriated funds from which payment for the contract can be made.

No legal liability on the part of the Government for payment of any money shall arise unless and until funds are made available to the Contracting Officer for this procurement and notice of such availability, to be confirmed in writing by the Contracting Officer, is given to the Contractor.

Subpart 3–3.4—Types of Contracts

1. Table of contents of Subpart 3–3.4 is amended to add the following:

Sec.
3–3.450 Unauthorized types of agreements.
3–3.450–1 Letters of intent.
3–3.450–2 Memorandums of understanding.

§ 3–3.450 Unauthorized types of agreements.

§ 3–3.450–1 Letters of intent.

(a) *Description.* A letter of intent is an informal, unauthorized agreement between the Government and a prospective contractor which indicates that products or services will be produced after completion of funding and/or other contractual formalities. Such letters of intent are often solicited by prospective contractors or may be originated by Government personnel.

(b) *Policy.* (1) The practice of issuing letters of intent is not authorized by the Federal Procurement Regulations and is therefore prohibited. HEW personnel shall not issue such letters for the following reasons:

(i) While such letters of intent may disclaim Government liability, they may induce potential contractors to initiate costly preparations in anticipation of contract award.

(ii) Procurements announced in such letters do not always materialize. The result may be costly to the Government, the prospective contractor, or both. If the author of the letter of intent is an authorized contracting agent of the Department, the Government may be bound by his action, even though the action is contrary to sound procurement practices and/or fiscal regulations. If the author of the letter of intent lacks procurement authority, the prospective contractor may incur substantial expenditures for which he may not recover from the Government, but for which he may seek to hold the unauthorized author personally liable. (See Subparts 1–1.4, of this title and 3–1.4 of this chapter.)

(iii) The issuance of a letter of intent may violate the "Anti-Deficiency Act" (31 U.S.C. 665).

(2) It is recognized that potential contractors have a need to obtain procurement information at the earliest possible moment in order to make timely preparations. To this end, procurement personnel are expected to move as efficiently and expeditiously as possible on all procurement actions. It is not permissible, however, to issue letters of intent to circumvent the requirements of FPR and HEWPR.

(c) *Exceptions.* The prohibition against letters of intent does not preclude the award of contracts conditioned upon the availability of funds under conditions which warrant such contracts (see § 3–1.354 of this chapter).

§ 3–3.405–2 Memorandums of understanding.

(a) *Description.* A "memorandum of understanding" is an unauthorized agreement, usually drafted during the course of negotiations, to modify mandatory FPR and HEWPR provisions in such a manner as to make them more acceptable to a prospective contractor. Such memorandums may bind the contracting officer and his successors not to exercise rights given the Government under the contract, or may contain other matters directly contrary to the language of the solicitation or prospective contractual document.

(b) *Policy.* Use of memorandums of understanding described in Paragraph (a) of this section, is not authorized. Any change in a solicitation or contract shall be made by amendment or modification to that document. When a change to a prescribed contract clause is considered necessary, a deviation shall be requested in accordance with § 3–16.5003 of this chapter.

(5 U.S.C. 301, 40 U.S.C. 486(c))

Effective date. These amendments shall be effective on January 12, 1973.

Dated: January 5, 1973.

N. B. HOUSTON,
Deputy Assistant Secretary for Administration.

[FR Doc.73–710 Filed 1–11–73;8:45 am]

Title 49—TRANSPORTATION

Chapter X—Interstate Commerce Commission

PART 1280—CLASSIFICATION AND DECLASSIFICATION OF NATIONAL SECURITY INFORMATION AND MATERIAL

The following regulations are issued pursuant to Executive Order 11652 of March 8, 1972 (37 FR 5209), entitled "Classification and Declassification of National Security Information and Material" and the National Security Council Directive of May 17, 1972, implementing that Executive order.

The Interstate Commerce Commission security regulations have been approved by the Interagency Classification Review Committee; the following parts thereof affecting the public are published as required by the above-cited Executive order and directive.

Sec.
1280.1 Purpose.
1280.2 Authority to classify.
1280.3 Commission review committee.
1280.4 Review of classified materail for declassification purposes.
1280.5 Historical research and access by former Government officials.

AUTHORITY: Executive Order 11652 (37 FR 5209, Mar. 10, 1972) and National Security Council Directive of May 17, 1972 (37 FR 10053, May 19, 1972)

§ 1280.1 Purpose.

To set forth those provisions of the Interstate Commerce Commission Security Regulations to the extent they affect the general public.

§ 1280.2 Authority to classify.

Classifying authority of national security information or material is vested in and only may be exercised by the Chairman of the Interstate Commerce Commission.

§ 1280.3 Commission review committee.

The Commission review committee shall consist of the Chairman of the Interstate Commerce Commission who shall serve as Chairman; the General Counsel, who shall serve as Vice Chairman; the Secretary of the Commission; and the Managing Director; and the Administrator of the Bureau or Office originating a document which has to be classified.

§ 1280.4 Review of classified material for declassification purposes.

(a) *Mandatory review of exempted material.* All classified information and material originating in the Interstate Commerce Commission after March 1, 1973, which is exempt from the General Declassification Schedule, and classified information originating in the Commission prior to March 1, 1973, assigned to Group 1, 2, or 3 of Executive Order 10501, as amended, shall be subject to a classification review by the originator at any time after the expiration of 10 years from the date or origin provided:

(1) A department or member of the public requests a review;

(2) The request describes the record with sufficient particularity to enable the Commission to identify it; and

(3) The record can be obtained with only a reasonable amount of effort.

(b) *Systematic reviews.* All information and material classified after March 1, 1973, and determined in accordance with Chapter 21, 44 U.S.C. to be of sufficient historical or other value to warrant preservation shall be systematically reviewed on a timely basis by each Bureau or Office of the Commission for the purpose of making such information and material available to the public in accordance with the determination regarding declassification made by the classifier. During each calendar year, each Bureau or Office shall segregate to the maximum extent possible all such information and material warranting preservation and becoming declassified at or prior to the end of such year. Promptly after the end of such year, the Commission or the Archives of the United States if transferred thereto, shall make the declassified information and material available to the public to the extent permitted by law.

(c) *Review for declassification of classified material over 10 years old.* Members of the public or departments may direct requests for mandatory review for declassification under section 5 (C) and (D) of Executive Order 11652 (hereafter referred to as the Order) to the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423. The Secretary shall in turn assign the request to the appropriate bureau or office head for action. In addition, the Secretary of the bureau or office which has been assigned action shall immediately acknowledge receipt of the request in writing. If the request requires the rendering of services for which fair and equitable fees should be charged pursuant to 31 U.S.C. 483(a) the requester shall be so notified. The bureau or office which has been assigned action shall thereafter make a determination within 30 days of receipt or shall explain the reasons why further time is necessary. If at the end of 60 days from receipt of the request for review no determination has been made, the requester may apply to the Commission review committee for a determination. Should the bureau or office assigned action on a request for review determine that under the criteria set forth in section 5(B) of the Order a continued classification is required, the requester shall promptly be notified, and whenever possible, provided with a brief statement as to why the requested information or material cannot be declassified. The requester may appeal any such determination to the Commission review committee and the notice of determination shall advise him of this right.

(d) *Appeals to the Commission review committee for declassification.* The Commission review committee shall establish procedures to review and act within 30 days upon all applications and appeals regarding requests for declassification. The review committee is authorized to overrule previous determinations in whole or in part when, in its judgment, continued protection is no longer required. If the committee determines that continued classification is required under the criteria of section 5(B) of the Order it shall promptly so notify the requester and advise him that he may appeal the denial to the Interagency Classification Review Committee.

(e) *Review of classified material over 30 years old.* A request by a member of the public or by a Department, to review for declassification, documents more than 30 years old, shall be referred directly to the Archivist of the United States and he shall have the requested documents reviewed for declassification. If the information or material requested has not been transferred to the General Services Administration for accession into the Archives, the Archivist shall, together with the Chairman of the Commission, have the requested documents reviewed for declassification. Classification shall be continued in either case only where the Chairman of the Inter-

V38-8 JAN 12 73 XUM

state Commerce Commission makes at that time the personal determination required by section 5(E)(1) of the Order. The Archivist shall promptly notify the requester of such determination and of his right to appeal the denial to the Interagency Classification Review Committee.

(f) *Burden of proof for administrative determinations.* For purposes of administrative determinations under paragraph (c), (d), or (e) of this section, the burden of proof is on the originating Agency to show that continued classification is warranted within the terms of the Order.

(g) *Availability of declassified material.* Upon a determination under paragraph (c), (d), or (e) of this section, that the requested material no longer warrants classification, it shall be declassified and made promptly available to the requester, if not otherwise exempt from disclosure under section 552(b) of title 5 U.S.C. (Freedom of Information Act) or other provision of law. As required by section 5(C) of the Order, a request for classification review must describe the document with sufficient particularity to enable the Commission to identify it with a reasonable amount of effort. Whenever a request is deficient in its description of the record sought, the requester should be asked to provide additional identifying information whenever possible. Before denying a request on the grounds that it is unduly burdensome, the requester should be asked to limit his request to records that are reasonably obtainable. If nontheless the requester does not describe the records sought with sufficient particularity, or the record requested cannot be obtained with a reasonable amount of effort, the requester shall be notified of the reasons why no action will be taken and of his right to appeal such decision.

§ 1250.5 Historical research and access by former Government officials.

(a) Upon written request, persons outside the executive branch engaged in historical research projects or persons who have previously occupied policy-making positions to which they were appointed by the President, other than those referred to in section II of the Order, may have access to classified national security information if the Chairman:

(1) Determines that access is clearly consistent with the interests of national security; and

(2) Takes appropriate steps to assure that classified information or material is not published or otherwise compromised.

Access granted a person by reason of his having previously occupied a policy-making position shall be limited to those papers which the former official originated, reviewed, signed or received while in public office.

(b) Every applicant for access shall, beforehand, agree in writing to the following:

(1) That he will protect any classified information made available to him in accordance with provisions of the Order.

(2) To a review of his notes and manuscript for the sole purpose of determining that no classified information or material is contained therein.

These regulations are effective March 1, 1973.

Dated: January 3, 1973.

[SEAL] ROBERT L. OSWALD,
Secretary.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 918]

FRESH PEACHES GROWN IN GEORGIA

Findings and Determination Regarding Continuation in Effect of Amended Marketing Agreement and Order

Pursuant to the applicable provisions of Marketng Agreement No. 99, as amended, and Order No. 918, as amended (7 CFR Part 918), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), notice was given in the FEDERAL REGISTER (37 FR 24914) that a referendum would be conducted among the growers who, during the period January 1, 1972, through October 31, 1972 (which period was determined to be a representative period for the purpose of such referendum), were engaged, in Georgia, in the production of peaches for market to determine whether a majority of such growers favor the termination of the amended marketing agreement and order.

Upon the basis of the results of the aforesaid referendum, which was conducted durng the period December 1 to December 12, 1972, both dates inclusive, it is hereby found and determined that the termination of the amended marketing agreement and order, regulating the handling of fresh peaches grown in Georgia, is not favored by the requisite majority of such growers.

Dated: January 8, 1973.

PHILIP C. OLSSON,
Deputy Assistant Secretary.

[FR Doc.73-694 Filed 1-11-73;8:45 am]

[7 CFR Part 928]

PAPAYAS GROWN IN HAWAII

Proposed Handling Limitations

This proposal, if accepted, would extend the currently effective grade and size requirements for Hawaiian Papayas through December 31, 1973 which are as follows: For interstate shipments, Hawaii No. 1 with a 10 ounce minimum size. For intrastate shipments, Hawaii No. 2 with a 12 ounce minimum size, except Hawaii No. 1, and Hawaii Fancy which have a 14 and 16 ounce minimum size, respectively.

Consideration is being given to the following proposal submitted by the Papaya Administrative Committee, established pursuant to the marketing agreement and Order No. 928 (7 CFR Part 928), regulating the handling of papayas grown in Hawaii, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The proposal is to amend § 928.303 (Papaya Regulation 3; 37 FR 28410) to continue the effective period of said regulation to include all papaya shipments during 1973. It is the committee's recommendation that said regulation be continued through December 31, 1973 in order to continue to provide consumers with good quality fruit consistent with (1) the overall quality of the crop, and (2) improving returns to producers pursuant to the declared policy of the act. The present regulation ends January 31, 1973.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment shall file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112; Administration Building, Washington, D.C. 20250, not later than January 22, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

As proposed to be amended § 928.303 paragraph (a) preceding subparagraph (1), will read as follows:

§ 928.303 Papaya Regulation 3.

(a) *Order.* During the period January 1, 1973 through December 31, 1973 no handler shall ship any container of papayas:

* * * * * *

Dated: January 9, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-728 Filed 1-11-73;8:45 am]

Rural Electrification Administration

[7 CFR Part 1701]

UNDERGROUND ELECTRIC DISTRIBUTION PLANT

Specification for 15 kv. and 25kv. Underground Primary Cable

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to amend REA Bulletin 44-1, Specifications and Standards for Materials and Equipment, to provide for the issuance of revised specifications for power cable for underground electric distribution plant.

Persons interested in the revised specification may submit written data, views, or comments to the Director, Power Supply, Management and Engineering Standards Division, Room 3313, South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, not later than February 12, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Power Supply, Management and Engineering Standards Division, during regular business hours.

A copy of the proposed revision of this REA specification, designated as REA U-1, may be secured in person or by written request from the Director, Power Supply, Management and Engineering Standards Division. A summary of the proposed changes in each section of the specification is as follows:

PROPOSED CHANGES IN REA SPECIFICATION FOR 15 KV. AND 25 KV. PRIMARY UNDERGROUND POWER CABLE

SECTION 1—Changed to include conductor sizes No. 2 AWG through 1000 kcmil for both 15 kv. and 25 kv. cable.

SEC. 3—Changed to allow for compressed and compact conductor stranding.

SEC. 4—Changed to allow only extruded semiconducting conductor shield.

SEC. 6—Changed to provide for insulation shield thickness to be a function of cable size, in accordance with the specifications of the Insulated Power Cable Engineers Association (IPCEA).

SEC. 7—Changed to allow a reduced concentric neutral with the minimum number of No. 14 AWG copper wires as follows:

Insulated conductor size (AWG or kcmil) copper or aluminum	*Number of neutral wires*
No. 2 AWG through No. 3/0 AWG	6
4/0 through 349 kcmil	9
350 kcmil through 700 kcmil	12
701 kcmil through 1,000 kcmil	18

The maximum length of lay was decreased to 8 times the cable diameter unless other provisions are made to control the spacing between wires, in which case the maximum length of lay may be 10 times the cable diameter.

The minimum thickness of a flat trap neutral is changed to .025 inch. The provision for 90 percent coverage was changed to provide coverage and conductance at least equal to the round wire construction.

SEC. 8—The dimension requirements were modified slightly to agree with specifications by the association of Edison Illuminating Cos.

There were also a few minor editorial changes to coordinate references in this specification to other national specifications.

Dated: January 5, 1973.

DAVID A. HAMIL,
Administrator.

[FR Doc.73-699 Filed 1-11-73;8:45 am]

V38-8 JAN 12 73 XUM

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 7175]

BRITISH AIRCRAFT CORPORATION VISCOUNT MODEL 744, 745D, AND 810 SERIES AIRPLANES

Proposed Airworthiness Directive

Amendment 39–231 (31 FR 6790), AD 66–12–3 requires inspection of the nacelle structure tubes and end fittings for cracks, corrosion, and replacement, as necessary, on British Aircraft Corporation Model 744, 745D, and 810 series airplanes. After issuing Amendment 39–231, due to reports of further internal corrosion of the tubular nacelle structure aft of the engines, that could cause failure of the nacelle structure tubes and end fittings, the FAA determined that the requirement should be revised to require periodic inspections of the nacelle structure tubes and end fittings for cracks and corrosion. Therefore, the FAA is considering superseding Amendment 39–231 with a new AD that requires periodic inspection of the nacelle structure tubes and end fittings for cracks and internal corrosion, and replacement, if necessary.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments, as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before February 12, 1973, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the rules docket for examination by interested persons.

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation regulations by adding the following new airworthiness directive:

BRITISH AIRCRAFT CORPORATION. Applies to Viscount Model 744, 745D, and 810 series airplanes.

Compliance is required as indicated.

To prevent failures of the nacelle structure tubes and end fittings on high time engine nacelle structures due to fatigue and corrosion, accomplish the following:

(a) For airplanes which have not been inspected in accordance with paragraph (h) of AD 66–12–3 prior to the effective date of this AD,

(1) Within the next 500 landings or 12 calendar months, whichever occurs sooner, after the effective date of this AD, and thereafter at intervals not to exceed 7,500 landings from the last inspection, comply with paragraph (e); and

(2) Within the next 500 landings after the effective date of this AD or before an accumulation of 19,000 total landings, whichever occurs later, and thereafter at intervals not to exceed 7,500 landings from the last inspection, comply with paragraph (d).

(b) For airplanes which have accumulated more than 5,500 landings since compliance with paragraph (h) of AD 66–12–3, within the next 2,000 landings after the effective date of this AD, or before an accumulation of 19,000 total landings, whichever occurs later, and thereafter at intervals not to exceed 7,500 landings from the last inspection, comply with paragraphs (d) and (e).

(c) For airplanes which have accumulated less than 5,500 landings since compliance with paragraph (h) of AD 66–12–3 on the effective date of this AD, within 7,500 landings after compliance with paragraph (h) of AD 66–12–3 or, before an accumulation of 19,000 total landings, whichever occurs later, and thereafter at intervals not to exceed 7,500 landings from the last inspection, comply with paragraphs (d) and (e).

(d) Inspect the engine nacelle structure tubes and end fittings for cracks at the positions specified for the applicable technique in figures 1 and 2 of British Aircraft Corporation (BAC) Ltd., Preliminary Technical Leaflet (PTL) No. 258, Issue 4 (700 Series), dated August 31, 1971, or No. 122, Issue 4 (800/810 Series), dated August 31, 1971, using dye penetrant, radiographic, and ultrasonic resonance methods in accordance with Techniques 1, 3, and 4, respectively, of the applicable PTL or an FAA-approved equivalent.

(e) Inspect the engine nacelle structure tubes for internal corrosion at the positions specified for Technique 2 in figures 1 and 2 of BAC Ltd. PTL No. 258, Issue 4 (700 Series), dated August 31, 1971, or No. 122, Issue 4 (800/810 Series), dated August 31, 1971, using the radiographic method in accordance with Technique 2 of the applicable PTL or an FAA-approved equivalent.

(f) If, during an inspection required by paragraph (a), (b), or (c), any end fittings are found cracked, or any tubes are found cracked or corroded beyond the limits specified in the applicable PTL, before further flight replace the affected parts with serviceable parts of the same part number.

This supersedes Amendment 39–231 (31 FR 6790), AD 66–12–3.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on January 4, 1973.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 207, 212, 378]

[Docket No. 25092; EDR–240; SPDR–3136]

INCLUSIVE TOUR CHARTERS BY TOUR OPERATORS AND FOREIGN TOUR OPERATORS

Authorization

Notice is hereby given that the Civil Aeronautics Board has under consideration proposed amendments to Parts 207 and 212 of its economic regulations (14 CFR Parts 207, 212) to authorize certificated route air carriers and, subject to certain conditions, foreign route air carriers to perform inclusive tour charters, and related amendments to Part 378 of the special regulations (14 CFR Part 378). The principal features of the proposed amendments are discussed in the attached explanatory statement, and the proposed amendments are set forth in the proposed rules. The amendments are proposed under the authority of sections 101(3), 204(a), 401, 402, 407, and 416(a) of the Federal Aviation Act of 1958, as amended (72 Stat. 737 (as amended by 75 Stat. 467, 76 Stat. 143, 82 Stat. 867, 84 Stat. 921), 743, 754, 757, 766, and 771; 49 U.S.C. 1301, 1324, 1371, 1372, and 1386).

Interested persons may participate in the proposed rule making by submission of twelve (12) copies of written data, views, or arguments, pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before February 12, 1973, will be considered by the Board before taking final action on the proposed rules. Copies of such communications will be available for examination by interested persons in the docket section of the Board, Room 712 Universal Building, 1825 Connecticut Avenue NW., Washington, DC upon receipt thereof.

Dated: January 9, 1973.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

EXPLANATORY STATEMENT

Part 378 of the Board's Regulations (14 CFR Part 378) authorizes, subject to conditions, inclusive tour charters (ITC's) by tour operators and foreign tour operators. Basically, an ITC is one in which the charterer is a tour operator who arranges a package tour, consisting of air and surface transportation and ground accommodations, which he in turn sells at a fixed price to individual members of the public. Part 378 reflects the fact that, at the present time, only U.S. supplemental air carriers and certain foreign charter air carriers[1] are authorized under Part 208 and their applicable section 402 permits, respectively, to perform the air transportation portion of such tours, i.e., to charter all or part of an aircraft to tour operators.

Trans World Airlines, Inc. (TWA) has filed a petition for rule making which would amend Parts 207 and 378 so as to authorize certificated route air carriers to perform inclusive tour charters. Answers to this petition have been filed by Capitol International Airways, Inc. (Capitol), the National Air Carrier Association, Inc. (NACA), acting on behalf of its member supplemental air carriers,[2] and the Department of Transportation (DOT). A parallel petition has also been filed by KLM Royal Dutch Airlines (KLM), for rule making which would amend Parts 212 and 378 so as to authorize foreign route air carriers to operate inclusive tour charters in foreign air transportation. No answers have been filed to KLM's petition.

Upon consideration of these petitions and answers, the Board has determined, for the reasons hereinafter discussed, to institute rule making proceedings with respect to the proposals of TWA and KLM.

Before discussing the reasons for taking this action, we shall first dispose of two motions separately filed by NACA with respect to the instant petitions.

By these motions, NACA has requested the Board to consolidate the petitions of TWA and KLM with the three rule making petitions which NACA filed on August 31, 1972, and to consider all five rule making petitions in a single proceeding.[3] The three NACA petitions request, inter alia: (1) Liberalization of certain provisions of Part 378 so as to authorize the supplemental carriers to perform one-stop inclusive tour charters; (2) substantial contraction of the existing charter authority of U.S. and foreign route air carriers through amendment of Parts 207 and 212; and (3) adoption of a policy statement with respect to passenger fares in foreign air transportation.

In support of its instant motions, NACA argues that the relief sought by its three rule making petitions constitutes a single integrated package of regulatory reform involving issues which are closely interrelated with those raised by the petitions of TWA and KLM. NACA contends that extending ITC authority to the scheduled carriers will have an adverse competitive impact on the supplemental carriers, unless the Board undertakes a concomitant expansion of the ITC market and adoption of what NACA urges to be a realistic policy with respect to passenger fares in international air transportation.

An answer opposing the motions has been filed jointly by a number of trunkline air carriers (referred to herein as the "trunkline carriers"). TWA and KLM have also filed answers opposing the motions. The opponents argue that NACA's petitions should be rejected as lacking merit, and that, in any event, NACA's petitions should not be consolidated with those of TWA and KLM, since each of NACA's proposals is far-reaching and raises significant questions of both law and policy, as compared with the simple and straightforward proposals of TWA and KLM. Consolidation of NACA's petitions would thus unduly delay the grant to scheduled carriers of ITC authority, which is clearly in the public interest. The trunkline carriers further argue that NACA's motions are a "transparent attempt" to have the Board simultaneously expand the authority of the supplementals as a "trade off," if it decides to grant the petitions of TWA and KLM.

We have determined to deny NACA's motions. Although all the five petitions in question involve charters, there is no close interrelationship between the relief sought in the NACA petitions and that requested by the petitions of TWA and KLM. In our view, the narrow issue of whether the Board should permit scheduled carriers to operate inclusive tour charters can and should be considered independently of the broader revisions to the Board's charter regulations proposed by NACA, since the former would merely equalize the charter authority of the scheduled and supplemental carriers, with respect to participation in the ITC market, while the latter would entail consideration of many important and multifaceted issues involving the basic nature of inclusive tour services as well as of the competition between scheduled and supplemental carriers for the charter market. Moreover, consolidation of NACA's proposals would transform the present rule making into an omnibus proceeding in which the limited issue of scheduled carrier ITC authority is likely to become obscured. Thus, consolidation of NACA's petitions would unduly delay consideration of the proposed charter authority which is the subject of the instant proceeding, and would not be conducive to the proper dispatch of the Board's business.

We turn now to the legal issue involved in our consideration of the petitions in this proceeding.

TWA contends that the 1968 amendment to section 401(e)(6) of the Act[4]—the so-called Pickle amendment—requires the Board to grant the authority requested in its petition. That section, as amended, reads:

> Any air carrier, other than a supplemental air carrier, may perform charter trips (including inclusive tour charter trips) or any other special service, without regard to the points named in its certificate, or the type of service provided therein, under regulations prescribed by the Board.

TWA argues that by adding the parenthetical phrase "(including inclusive tour charter trips)," Congress created a new substantive legal right for scheduled carriers to perform ITC's, which statutory right cannot be withheld by the Board.

At the opposite extreme, DOT argues the Board cannot grant the proposed authority unless and until it finds that such action is justified under the "conventional standards of public convenience and necessity." Support for this view, it is said, can be found in a statement made by Senator Monroney, the then Chairman of the Senate Aviation Subcommittee, with respect to the Pickle amendment, to the effect that: "[t]he Senate assumes that such authority would not be granted without satisfactory demonstration that an expansion of inclusive tour charter programs was required by the conventional standards of public convenience and necessity."

Viewing the legislative history of the Pickle amendment as a whole, we cannot accept DOT's contention that a finding of public convenience and necessity is a prerequisite to the grant of authority to scheduled carriers to perform inclusive tour charters. We believe that the language quoted by DOT can properly be construed to mean no more than that it was assumed by the Senate that the Board's exercise of control over route carriers' ITC authority would be consistent with the public interest, just as in the Board's regulation of the other types of charter service. Indeed, in addition to his remarks which are cited by DOT, Senator Monroney also stated, with respect to the Pickle amendment:

> Since the House amendment clearly makes it clear that inclusive tour charters are indeed charters for the purposes of section 401(e)(6) and does not otherwise alter that section or any other provision of the Act conferring regulatory jurisdiction on the Board, it follows that the Board will continue to enjoy precisely the same control over the scheduled carriers' charters that it had under existing law. (Cong. Rec., Sept. 15, 1968, at S. 10721)

On the other hand, since, for the reasons hereinafter discussed, we have decided to institute rule making proceedings looking toward the extension of ITC authority to route carriers we need not now reach the question whether TWA is correct in contending that we are statutorily required to grant such authority.

Turning to the merits of the petition, the Board is of the tentative opinion that it is in the public interest to authorize all U.S. scheduled air carriers and all foreign route air carriers to operate inclusive tour charter services. Accordingly, we are proposing to amend Parts 207, 212, and 378 of our regulations to reflect such authority.[5]

To begin with, it is the announced policy of the U.S. Government that "both scheduled carriers and supplemental carriers should be permitted a fair opportunity to compete in the bulk air transportation market."[6] Consistent

---

[1] Those holding permits expressly authorizing them to perform inclusive tour charters.

[2] Overseas National Airways, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., and World Airways, Inc.

[3] NACA has also filed a separate motion requesting simultaneous consideration of its three rule making petitions. Seaboard World Airlines, Inc. and certain trunkline carriers, jointly, have filed answers opposing the motion. An answer in support of the motion has been filed by Johnson Flying Service, Inc. We will dispose of this motion in the course of considering the subject petitions.

[4] Public Law 90–514 (S. 3566), Sept. 26, 1968.

[5] The attached proposed rules also include amendments to various provisions of Part 378 which prescribes substantive requirements for carriers which operate inclusive tour charters.

[6] "Statement of International Air Transportation Policy," approved by the President, June 22, 1970.

V 38 - 8 JAN 12 73 XUM

with that policy we recently expressed the view in the course of our disapproval of IATA Resolution 045, that the scheduled carriers should be able to provide charter services to the full extent which the Board has found to be required in the public interest.[7] Since inclusive tour charters are a well established part of the charter market we now believe that the scheduled carriers' freedom to compete for this charter business should no longer be impaired.

Although ITC authority has heretofore been confined to supplemental carriers, the Board has never regarded the ITC market to be inherently and necessarily the exclusive province of these carriers, or that such exclusive authority is essential to insure indefinitely the continued economic viability of the supplemental industry. Rather, we think that, as has been expressed by both Congress and the Board on several occasions, ITC's are designed to provide one of several alternative methods for facilitating low-cost travel by large numbers of the traveling public who could not otherwise afford to use air transportation services. Addition of the scheduled carriers to the ITC market will further this objective considerably, since making available to the public a wider range of tour programs, frequencies and destinations, than are offered under present regulations, will provide immediate benefit to both the public and the scheduled carriers. In light of the broad promotional objectives of the Act, the need to meet the ever-burgeoning demand for low-cost charter travel, and the desirability of achieving greater uniformity in our regulation of the various classes of direct air carriers, we have therefore tentatively concluded that we should authorize the United States and foreign route air carriers to participate in the inclusive tour charter market.

A related question is whether the route carriers' access to the ITC market should be circumscribed by conditioning their authority to perform such charters in a manner which is more restrictive than that in which our present regulations restrict supplementals' ITC authority. Capitol and NACA request that the proposed authority be limited solely to markets in which the route carriers provide regularly scheduled nonstop service. In support of this request, they argue that there is no conceivable public need for granting unconditional and unrestricted ITC authority to route carriers; that a grant of such unlimited authority would cause untold economic damage to the supplemental carriers in both international and domestic markets at a time when they can ill afford to suffer a further decline in their operating revenues; and that since the route carriers have already made substantial inroads into ITC markets through the use of various promotional fares, they should not now be further enabled to overrun this market through the grant of new unrestricted ITC authority.

We are not prepared, at this juncture, to circumscribe the proposed charter authority as urged by the supplemental carriers. Historically, ITC's have constituted but a small fragment of the supplementals' total charter business, so that the proposed authority will clearly not invite massive invasion, by the route carriers, into charter markets which have heretofore been the lifeblood of the supplemental operators. Moreover, as previously indicated, NACA has filed a petition for rule making which seeks substantial restriction of the on-route and off-route charter authority of the scheduled carriers. In the interest of expeditiously providing equal authority[8] for all classes of direct air carriers to perform ITC services, we believe it is more appropriate to consider the proposals of the aforementioned parties—insofar as they are directed only toward the limited issue of ITC authority—in the context of the broader issues raised by the NACA petition.

We turn now to the question of the scope of the proposed authority for U.S. scheduled carriers in relation to international air transportation. Experience has shown that inclusive tour programs offered in international markets typically involve a series of tours spanning an entire charter season, with ITC flights scheduled to depart at regular intervals until the program is completed. Whereas U.S. scheduled carriers may perform "on-route" charters without limitation, their "off-route" charters are subject, inter alia, to restrictions on frequency and regularity.[9] These restrictions, which are designed to prevent any semblance of "scheduled off-route charter" services, would clearly preclude U.S. route carriers from operating as off-route charters the transportation services needed to sustain the typical international ITC program. For this reason, we believe that the ITC authority we propose to confer on U.S. route carriers will, as a practical matter, permit substantial operations only in on-route ITC markets in the international market even if the proposed authority is not expressly so limited.

Since it is reasonable to expect that foreign governments will desire comparable authority for their scheduled carriers, under considerations of comity and reciprocity, we are also proposing to authorize foreign route carriers to perform inclusive tour charters. However, we believe that any new ITC authority for foreign route carriers should, to the extent feasible, be reasonably coextensive with that which, as the foregoing discussion makes clear, we expect to be actually usable by U.S. route carriers. The regulatory scheme which we have designed to accomplish this purpose is described hereinbelow.

1. *ITC authority.* Under the proposed rule, foreign route carriers would have authority to perform ITC's only in homeland-U.S. markets wherein they perform comparable individually ticketed services. Thus, they would be authorized to perform inclusive tour charter trips between points in the United States and points in the particular foreign carrier's home country between which it is authorized by permit to and does, in fact, provide regularly scheduled service.[10] With the exception next discussed, no other ITC trips by a foreign scheduled carrier would be authorized under the proposed authority, whether such trips are to be performed "on-route" or "off-route" for the purposes of Part 212.[11]

2. *Additional ITC authority.* We have tentatively concluded that an exception to the foregoing should be made so as to enable the Board to grant to foreign route carriers ITC authority broader in scope than that outlined above. To that end, the proposed rule includes a provision under which ITC operations which do not fall within the aforedescribed category of charter services may be performed to the extent that prior approval, in the form of a Statement of Authorization, to conduct such operations is obtained from the Board, just as we now require approval of all charter trips which are considered "off-route" for a foreign route carrier under Part 212. It will be our intention to confine this exception to instances where such additional ITC authority has been agreed to by the United States in a bilateral intergovernmental understanding with respect to nonscheduled services, unless special or unusual circumstances are shown to exist which would warrant granting the authority requested.

Statements of authorization to perform inclusive tour charters for which prior approval is required will be issued to the extent and for such periods of time as the Board deems in the public interest.[12] As indicated, it will be our policy to authorize inclusive tour charter operations which are covered by, and consistent with, the terms of a nonscheduled air services agreement between the United States and the foreign nation which is the domicile of the applicant and the terms of the applicant's foreign air carrier permit.

All of the procedural requirements prescribed in § 212.5 with respect to applications for Statements of Authorization to conduct off-route charter trips will apply also to applications which request authority to perform inclusive tour charters; however, applicants for ITC authority will be required to refer, in their applications, to the nonscheduled air services agreement or understanding between the United States and the foreign nation which is the domicile of the applicant wherein the applicant has been designated to provide the services covered by the application. The proposed rule requires such applications to be filed with the Board not less than 90 days prior to the date when the applicant proposes to commence inclusive tour charter operations.

One final matter requires discussion. Consistent with present regulations, the proposed authority will apply to foreign-originated inclusive tours as well as to ITC's originating in the United States. Yet, except with respect to foreign charter carriers whose permits expressly provide otherwise,[13] our present regulations require all ITC's, including those which originate in a foreign country to conform to the exact regulatory framework which we have prescribed for ITC's in Part 378. We are aware that many foreign countries have laws and regulations governing inclusive tours which, in various respects, are less restrictive than our own ITC regulations. Accordingly, we would be prepared to grant waivers from our own ITC requirements to the extent necessary to sanction the performance of an inbound ITC, so long as it is operated in accordance with the originating country's ITC rules which are, in turn, consistent with the basic ITC concept embodied in Part 378, to insure that the ITC travel is sufficiently distinguishable from individually ticketed service. The foregoing policy would be extended also to U.S. direct air carriers including supplemental air carriers, insofar as they may operate ITC's originating in such foreign countries.

It is proposed to amend Parts 207, 212, and 378 of the Board's regulations (14 CFR Parts 207, 212, 378) as follows:

PART 207—CHARTER TRIPS AND SPECIAL SERVICES

1. Amend § 207.11 (b) and (c) by adding new subparagraphs (8) and (6), respectively, as follows:

§ 207.11 Charter flight limitations.

Charter flights (trip) in air transportation shall be limited to the following:

* * * * * *

(b) * * *

(8) By a tour operator or a foreign tour operator as defined in Part 378 of this chapter; or

(c) * * *

(6) By a tour operator or foreign tour operator as defined in Part 378 of this chapter:

Provided, That with respect to paragraph (c) of this section each person engaging less than the entire capacity of an aircraft shall contract and pay for 40 or more sets: *And provided further*, That paragraph (c) of this section shall not be construed to apply to movements of property.

PART 212—CHARTER TRIPS BY FOREIGN AIR CARRIERS

1. Amend the table of contents by changing the title of § 212.4, the table as amended to read in pertinent part as follows:

Sec.
212.4 Limitation on the operations of off-route charter trips and certain inclusive tour charter trips.

2. Amend § 212.1 by inserting in alphabetical order, a new definition of "inclusive tour charter trip" to read as follows:

§ 212.1 Definitions.

For the purposes of this part:

* * * * * *

"Inclusive tour charter trip" means a charter trip performed in accordance with the provisions of Part 378 of this chapter.

* * * * * *

3. Amend the title and text of § 212.4 to read as follows:

§ 212.4 Limitation on the operation of off-route charter trips and certain inclusive tour charter trips.

A foreign air carrier shall not perform any off-route charter trips or inclusive tour charter trips for which prior approval is required unless specific authority in the form of a statement of authorization to conduct such charter trip has been granted by the Board: *Provided, however*, That no Statement of Authorization shall be required for the performance of a charter trip as provided in § 212.8(a)(4-a) in cases of emergency: *Provided, also*, That emergency charters for commercial traffic shall be reported in accordance with § 212.14. An emergency charter within the meaning of this section shall not include such circumstances as cancellation of flights due to periodic overhaul of aircraft or delay in the delivery of newly acquired aircraft, and a foreign air carrier may not provide emergency charter trips on any day in each of three or more successive calendar weeks for any single direct air carrier without a statement of authorization.

4. Amend paragraphs (a) and (b) of § 212.5, the paragraphs as amended to read as follows:

§ 212.5 Statements of authorization; application.

(a) Application for a statement of authorization shall be submitted on CAB Form 433 to the Civil Aeronautics Board, addressed to the attention of the Director, Bureau of Operating Rights. Upon a showing of good cause, such application may be transmitted by cablegram or telegram or may be made by telephone: *Provided, however*, That an application for the performance of a charter transporting commercial traffic for another direct air carrier or direct foreign air carrier (as provided in § 212.8(a)(4-a)) must be submitted on CAB Form 433, and a copy thereof shall be served upon the Federal Aviation Administration, marked for the attention of Director, Flight Standards Service, and upon each certificated air carrier which is authorized to serve the same general area in which the proposed charter trips are to be performed. Each applicant shall keep on file with the Director, Bureau of Operating Rights, a copy of its current standard form of charter agreement. Each application shall contain an abstract of the charter agreement setting forth the names and addresses of the operator, the charterer, and their agents, if any; a description of the proposed operations, type of aircraft to be flown; and, if reciprocity has not previously been established or if any changes have occurred since the previous Board finding thereon, documentation to establish the extent to which the nation which is the domicile of the applicant grants a similar privilege with respect to U.S. air carriers. Applications to perform inclusive tour charter trips for which prior approval is required shall refer to the bilateral agreement or understanding between the United States and the foreign nation which is the domicile of the applicant whereunder the applicant has been designated to provide the charter services covered by the application. A true copy of the charter agreement actually consummated shall be transmitted to the Director, Bureau of Operating Rights, as soon as practicable, but in no event later than fifteen (15) days after consummation.

[7] Order 72-3-112, Mar. 31, 1972. Resolution 045 of the International Air Transportation Association (IATA) had embodied the member carriers' agreement on rules with respect to charters in international air transportation. Several of those rules were more restrictive than the Board's own charter regulations.

[8] We note in this connection our recent authorization, on an experimental basis, of Travel Group Charters (TGC's) to be operated by all certificated air carriers and foreign air carriers having section 402 permits (SPR-61, Sept. 27, 1972).

[9] These restrictions are particularly stringent in the transatlantic, transpacific and mainland-Hawaii markets, where they are imposed on an "area" basis, rather than on a point-to-point single market basis. Thus, any flight between a point in the 48 contiguous States and a point in one of these "areas" is counted against the total number and frequency of flights authorized between a single pair of points; however, with respect to the transatlantic and transpacific markets, the "area" wide restrictions do not apply to off-route charter trips performed by a carrier between a point in the United States and a point in a country to which said carrier is certificated to serve.

[10] A carrier will be deemed to have engaged in regularly scheduled service in a particular market if it performs at least two round trips per week in such markets pursuant to published schedules.

[11] For example, an inclusive tour charter trip performed by a foreign route carrier between a point in the United States named in its permit and a point in a country intermediate to the carrier's homeland (and also so named) would not be authorized, although such trip would be considered "on-route" for said carrier under Part 212.

[12] Under present regulations, statements of authorization to perform off-route charters are issued on an individual-trip basis; however, with respect to applications to operate inclusive tour charters, such statements could authorize a limited or unlimited number of charter flights over a definite or indefinite period of time, depending on the scope of the international agreement applicable to the ITC operations covered by the application.

[13] With several exceptions, these permits authorize the performance of inbound ITC's in accordance with the terms, conditions and limitations in licenses issued to such carriers by the country in which the tour originates.

V 38 I 8 JAN 12 73 XUM

(b) Applications shall be filed with the Board at least 5 days in advance of the date of the commencement of the proposed flight, except that applications for authority to conduct planeload cargo charters may be filed not less than 48 hours in advance of the proposed flight:

Provided, however, That an application for the performance of a charter transporting commercial traffic for another direct air carrier or direct foreign air carrier (as provided in § 212.8(a)(4–a)) shall be filed with the Board at least 45 days in advance of the date of the commencement of the proposed flights: *And provided further,* That an application for authority to perform inclusive tour charter trips for which prior approval is required shall be filed with the Board not less than 90 days prior to the date of the commencement of the proposed flights. Upon a showing that good cause exists for failure to adhere to the above requirements and that waiver of these requirements is in the public interest, applications later submitted may be considered by the Board.

• • • • • •

5. Amend § 212.6 by revising paragraph (a) and adding a new paragraph (b–1), the section as amended to read in pertinent part as follows:

§ 212.6 Issuance of Statement of Authorization.

(a) If the Board finds that the proposed charter trip or trips meet the requirements of this part, that the foreign nation which is the domicile of the applicant grants a similar privilege with respect to U.S. air carriers, and that such charter trip or trips are otherwise in the public interest, it will issue a Statement of Authorization for the conduct of the trip or trips set forth in the application. Such Statement of Authorization may be withheld, conditioned or limited by the Board as the public interest may require.

(b) In passing upon the requirements of the public interest • • •

(b–1) Statements of Authorization to perform inclusive tour charter trips for which prior approval is required will be granted to the extent and for such periods of time as the Board deems in the public interest. In determining whether such charter trips are in the public interest the Board will consider whether the authority sought is covered by and consistent with the terms of a nonscheduled air services agreement or understanding between the United States and the foreign nation which is the domicile of the applicant and the terms of the applicant's foreign air carrier permit.

• • • • • •

6. Amend § 212.8 (a) and (b) by adding new subparagraphs (8) and (6), respectively, as follows:

§ 212.8 Charter flight limitations.

Charter flights (trips) shall be limited to foreign air transportation performed by a foreign air carrier holding a foreign air carrier permit issued pursuant to section 402 of the Act authorizing such carrier to engage in foreign air transportation on an individually ticketed or individually way-billed basis—

(a) Where the entire capacity • • •

(8) By a tour operator or foreign tour operator as defined in Part 378 of this chapter when such charter flights are performed between points in the United States and points in the foreign nation which is the domicile of the chartering carrier between which it holds authority under a foreign air carrier permit to, and does in fact, provide regularly scheduled service; or, in all other cases, if authority in the form of a Statement of Authorization (see § 212.4) to conduct such charter flights has been granted by the Board. For the purposes of this section a carrier shall be deemed to provide regularly scheduled service between a particular pair of points on its permit if it provides at least 2 round trips per week between such points and publishes flight schedules which specify the times, days of the week and places between which such flights are performed.

(b) • • •

(5) By a travel group charter organizer on behalf of a travel group, pursuant to Part 372a of this chapter;

(6) By a tour operator or foreign tour operator as defined in Part 378 of this chapter when such charter flights are performed between points in the United States and points in the foreign nation which is the domicile of the chartering carrier between which it holds authority under a foreign air carrier permit to, and does in fact, provide regularly scheduled service; or, in all other cases, if specific authority in the form of a Statement of Authorization (see § 212.4) to conduct such charter flights has been granted by the Board. The term "regularly scheduled service shall have the meaning set forth in paragraph (a)(8) of this section."

Provided, That with respect to paragraph (b) of this section each person engaging less than the entire capacity of an aircraft shall contract and pay for 40 or more seats: *And provided further,* That paragraph (b) of this chapter shall not be construed to apply to movements of property.

PART 378—INCLUSIVE TOUR CHARTERS

1. Amend the title to Part 378 to read as set forth above.

2. Amend the Table of Contents by changing the title of § 378.19, the table as amended to read in pertinent part as follows:

Sec.
378.19 Inclusive tours operated by U.S. certificated air carriers or foreign route air carriers for foreign tour operators.

3. Amend § 378.1 to read as follows:

§ 378.1 Applicability.

This part establishes the terms and conditions governing the furnishing of inclusive tours in interstate, overseas, and foreign air transportation by supplemental air carriers, certificated route air carriers and tour operators, and in foreign air transportation by foreign route air carriers, certain foreign charter air carriers and foreign tour operators. This part also relieves tour operators from various provisions of the Act and the Board's regulations for the purpose of enabling them to provide inclusive tours to members of the general public utilizing aircraft chartered from supplemental air carriers, certificated route air carriers, foreign route air carriers, and certain foreign charter air carriers. It also sets forth the circumstances and conditions under which supplemental air carriers, certificated route air carriers, and foreign route air carriers may charter to foreign tour operators, and contains a limited declination of exercise of jurisdiction over the latter. The provisions of this regulation shall not be construed as limiting any other authority to engage in air transportation issued by the Board. Nothing contained in this part shall be construed as repealing or amending any provisions of any of the Board's regulations, unless the context so requires.

4. Amend § 378.2 by: Revising paragraphs (a) and (d); deleting and reserving paragraph (f); and adding new paragraph (h), the section as amended to read in pertinent part as follows:

§ 378.2 Definitions.

As used in this part, unless the context otherwise requires:

(a) "Inclusive tour charter" means the charter of the entire capacity of an aircraft or of less than the entire capacity of an aircraft (provided that the remaining capacity of the aircraft is under charter by a person or persons authorized to charter aircraft under § 207.11 (c), § 208.6(c), or § 212.8(b), respectively, of this chapter) by a tour operator or, with respect to tours which originate in a foreign country, by a foreign tour operator for the carriage by a direct air carrier of persons traveling in air transportation on inclusive tours.

• • • • • •

(d) "Tour operator" means any citizen of the United States, as defined in section 101(13) of the Federal Aviation Act, as amended, 49 U.S.C. 1301(13) (other than a direct U.S. air carrier), authorized hereunder to engage in the formation of groups for transportation on inclusive tours.

• • • • • •

(f) [Reserved]

• • • • • •

(h) "Direct air carrier" means (1) a route air carrier holding a certificate of public convenience and necessity issued under section 401(d)(1) of the Act; (2) a supplemental air carrier holding a certificate of public convenience and necessity issued under section 401(d)(3) of the Act to perform inclusive tour charters; (3) a foreign route air carrier holding a permit issued under section 402 of the Act authorizing it to engage in foreign air transportation on an individually ticketed or individually waybilled basis; and (4) a foreign charter air carrier which holds a permit issued under section 402 of the Act authorizing it to perform inclusive tour charters, but only to the extent that such tours are to be performed subject to the provisions of this regulation.

5. Amend paragraph (i) of § 378.13 to read as follows:

§ 378.13 Tour prospectus.

The prospectus shall be filed in duplicate and shall include two copies of the following: • • •

• • • • • •

(i) Samples of solicitation material proposed by the tour operator or foreign tour operator (all sales advertising and solicitation materials employed by the tour operator or foreign tour operator shall state the name of the direct air carrier to be utilized).

6. Amend § 378.14 to read as follows:

§ 378.14 Charter contract.

The charter contract between the tour operator or foreign tour operator and the direct air carrier shall evidence a binding commitment on the part of the carrier to furnish the air transportation required for the tour or tours covered by the contact.

7. Amend § 378.15 to read as follows:

§ 378.15 Tariffs to be filed for charter trips.

No direct air carrier shall perform any charter trips for inclusive tours unless such carrier shall have on file with the Board a currently effective tariff showing all rates, fares, and charges for such charter trips and showing the rules, regulations, practices, and services in connection with such transportation.

8. Amend paragraphs (b) and (c), respectively, of § 378.16, the paragraphs as amended to read as follows:

§ 378.16 Surety bond.

• • • • • •

(b) The direct air carrier and the prospective tour operator or foreign tour operator may elect, in lieu of furnishing a surety bond as provided under paragraph (a) of this section, to comply with the requirements of paragraph (b) (1) and (2) of this section as follows:

(1) The tour operator or foreign tour operator shall furnish a surety bond in a minimum amount of $10,000 per flight up to a maximum amount of $200,000 for a series of 20 or more flights, for the protection of the tour participants, the bond to continue in effect until completion of the tour or series of tours: *Provided, however,* That the liability of the surety to any tour participant shall not exceed the tour price.

(2) The direct air carrier and tour operator or foreign tour operator shall enter into an agreement with a designated bank, the terms of which shall provide that all deposits by tour participants paid to tour operators or foreign tour operators and their retail travel agents shall be deposited with and maintained by the bank subject to the following conditions:

(i) On sales made to tour participants by tour operators or foreign tour operators the participant shall pay by check or money order payable to the bank; on sales made to tour participants by retail travel agents, the retail travel agent may deduct his commission and remit the balance to the designated bank by check or money order: *Provided,* That, the travel agent agrees in writing with the tour operator or foreign tour operator that if the tour is canceled, the travel agent shall remit to the bank the full amount of commission previously deducted or received within 10 days after receipt of notification of cancellation of the tour;

(ii) The bank shall pay the direct air carrier the charter price for the transportation not earlier than 60 days (including day of departure) prior to the scheduled day of departure of the originating or returning flight, upon certification of the departure date by the air carrier: *Provided,* That, in the case of a round-trip charter contract to be performed by one carrier, the total round-trip charter price shall be paid to the carrier not earlier than 60 days prior to the scheduled day of departure of the originating flight;

(iii) The bank shall reimburse the tour operator or foreign tour operator for refunds made by the latter to the tour participant upon written notification from the tour operator or foreign tour operator;

(iv) If the tour operator, foreign tour operator or the direct air carrier notifies the bank that a tour has been canceled, the bank shall make applicable refunds directly to the tour participants;

(v) After the charter price has been paid in full to the direct air carrier, the bank shall pay funds from the account directly to the hotels, sightseeing enterprises, or other persons or companies furnishing surface accommodations or services in connection with the tour or series of tours upon presentation to the bank of vendors' bills and upon certification by the tour operator or foreign tour operator of the amounts payable for such surface accommodations or services and the persons or companies to whom payment is to be made: *Provided, however,* That the total amounts paid by the bank pursuant to paragraph (b)(2) (ii) and (v) of this section shall not exceed 80 percent of the total deposits received by the bank less any refunds made to tour participants pursuant to paragraph (b)(2) (iii) and (iv) of this section;

(vi) As used in this section, the term "bank" includes a bank, savings and loan association, or other financial institution insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation;

(vii) The bank shall maintain a separate accounting for each tour;

(viii) Notwithstanding any provisions above, the amount of total deposits required to be maintained in the depository account of the bank may be reduced by one or both of the following: The amount of any surety bond in the form prescribed herein in excess of the minimum bond required by paragraph (b)(1) of this section; an escrow with the designated bank of Federal, State, or municipal bonds or other negotiable securities which are publicly traded on a securities exchange: *Provided,* That such other securities shall be substituted for cash in an amount no greater than 80 percent of their market value at time of deposit in escrow with the bank: *And provided, further,* That should the valuation of such other securities decrease in an amount in excess of 20 percent of the valuation at time of original deposit, additional securities shall be placed in escrow so as to compensate for such decrease in value below 20 percent;

(ix) Except as provided in paragraph (b)(2) (ii), (iii), (iv), (v), and (viii) of this section, the bank shall not pay out any funds from the account prior to 2 banking days after completion of each tour, when the balance in the account shall be paid to the tour operator or foreign tour operator, upon certification of the completion date by the direct air carrier.

(c) The bond required under paragraphs (a) and (b) of this section shall insure the financial responsibility of the tour operator or foreign tour operator and the supplying of the transportation and all other accommodations, services, and facilities, in accordance with the contract between the tour operator or foreign tour operator and the tour participants, and shall be in the form set forth as Appendix A following § 378.31.[14] Such bond shall be issued by a bonding or surety company (1) whose surety bonds are accepted by the Interstate Commerce Commission under 49 CFR 1084.6; or (2) which is listed in Best's Insurance Reports (Fire and Casualty) with a general policyholders' rating of "A" or better. The bonding or surety company shall be one legally authorized to issue bonds of that type in the State in which the tour originates. For purposes of this section, the term "State" includes any territory or possession of the United States, or the District of Columbia. The bond shall be specifically identified by the issuing surety with a company bond numbering system so that the Board may identify the bond with the specific tour or tours to which it relates: *Provided, however,* That these data may be set forth in an addendum attached to the bond which addendum must be signed by the tour operator and the surety company. It shall be effective on or before the date the Tour Prospectus is filed with the Board. If the bond

[14] Filed as part of reissued document (SPR–40).

V38-8 JAN 12 73 XUM

does not comply with the requirements of this section, or for any reason fails to provide satisfactory or adequate protection for the public, the Board will notify the direct air carrier and the tour operator or foreign tour operator, by registered or certified mail, stating the deficiencies of the bond. Unless such deficiencies are corrected within the time set forth in such notification, the subject tour or tours shall in no event be operated.

* * * * *

9. Amend the title and text of § 378.19 to read as follows:

§ 378.19 Inclusive tours operated by U.S. certificated air carriers or foreign route air carriers for foreign tour operators.

(a) At least 90 days in advance of the date of departure of the proposed tour or series of tours to be operated by a U.S.-certificated air carrier or foreign route air carrier for a foreign tour operator as defined in § 378.2(d-1)(i), such carrier shall file with the Civil Aeronautics Board (Director, Bureau of Operating Rights) a Tour Prospectus which shall contain the following information:

(1) Name and address of the foreign tour operator;

(2) The proposed date and time of each flight;

(3) Equipment to be used, including the aggregate number of each type of aircraft and capacity;

(4) The tour itinerary, including hotels (name and length of stay at each), and sightseeing or other arrangements, if any;

(5) The tour price per passenger;

(6) The number of persons expected to participate in the tour;

(7) Charter price of the aircraft;

(8) The individually ticketed air fare, computed as provided in § 378.2(b)(4).

(b) A U.S.-certificated air carrier or foreign route air carrier operating an inclusive tour for a foreign tour operator shall require full payment of the total charter price prior to commencement of the air transportation.

10. Amend paragraph (a) of § 378.20 to read as follows:

§ 378.20 Post tour reporting.

(a) Within 30 days after termination of a tour or series of tours, the direct air carrier and tour operator or foreign tour operator shall jointly file with the Board (Supplementary Services Division, Bureau of Operating Rights) a post-tour report: *Provided*, That in the case of a series of tours which exceeds 6 months between commencement of the first tour and departure of the last tour, the direct air carrier and tour operator or foreign tour operator shall file a joint interim report within 30 days after the expiration of 6 months from commencement of the first tour, covering tours terminated during such 6 months. The post-tour and interim report shall indicate whether or not the tours authorized hereunder were, in fact, performed. To the extent that the operations differed from those described in the prospectus filed under § 378.10, such differences shall be fully detailed including the reasons therefor. However, the making of such an explanation shall not of itself operate as authority for or excuse any such deviation. The report shall be in the form attached described in Appendix A to this part.[15]

* * * * *

11. Amend § 378.30 to read as follows:

§ 378.30 Waiver.

A waiver of any of the provisions of this regulation may be granted by the Board upon its own initiative, or upon the submission by a direct air carrier of a written request therefor: *Provided*, That such a waiver is in the public interest and it appears to the Board that special or unusual circumstances warrant a departure from the provisions set forth herein.

[Delegation Order No. 48]

CHIEF, TECHNICAL SERVICES DIVISION

Authority To Maintain the National Firearms Register and Transfer Record

1. Pursuant to the authority vested in the Director, Bureau of Alcohol, Tobacco and Firearms, by 26 CFR 179.101, there is hereby delegated to the Chief, Technical Services Division, the custody and control of the National Firearms Registration and Transfer Record, and the authority to execute certifications relative thereto.

2. The authority delegated herein may be redelegated to Criminal Investigators, Firearms Enforcement Analysts and Explosives Enforcement Analysts in the Technical Services Division.

3. This order supersedes Alcohol, Tobacco and Firearms Division Order No. 71-20, dated September 23, 1971.

Date of issue and effective date: December 29, 1972.

FOREIGN CURRENCIES

Rates of Exchange

JANUARY 3, 1973.

The Federal Reserve Bank of New York, pursuant to section 522(c), Tariff Act of 1930, as amended (31 U.S.C. 372(c)), has certified the following rates of exchange which vary by 5 percent or more from the quarterly rate published in Treasury Decision 72-285 for the Australia dollar and the Ceylon rupee. Therefore, as to entries covering merchandise exported on the dates listed, whenever it is necessary for Customs purposes to convert such currency into currency of the United States, conversion shall be at the following daily rates:

Australia dollar:	
Dec. 26, 1972	$1.2726
Dec. 27, 1972	1.2730
Dec. 28, 1972	1.2730
Dec. 29, 1972	1.2732
Ceylon rupee:	
Dec. 28, 1972	0.1480

RECORD CHANGERS FROM THE UNITED KINGDOM

Determination of Sales at Not Less Than Fair Value

On November 2, 1972, there was published in the FEDERAL REGISTER a notice of tentative negative determination (37 FR 23365) that record changers from the United Kingdom are not being, nor are likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)) (referred to in this notice as "the Act").

The statement of reasons for the tentative determination was published in the above-mentioned notice and interested parties were afforded an opportunity to make written submissions and to present oral views in connection with the tentative determination.

No written submissions or requests to present oral views having been received, I hereby determine that, for the reasons stated in the tentative determination, record changers from the United Kingdom are not being, nor are likely to be, sold at less than fair value (section 201(a) of the Act; 19 U.S.C. 160(a)).

This determination is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)) and § 153.33(c), Customs Regulations (19 CFR 153.33(c)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

Soil Conservation Service

RED BOILING SPRINGS WATERSHED PROJECT, TENN.

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, Department of Agriculture has prepared a draft environmental statement for the Red Boiling Springs Watershed Project, Macon and Clay Counties, Tenn., USDA-SCS-ES-WS-(ADM)-73-21(D).

The environmental statement concerns a plan for flood prevention and land treatment in the Red Boiling Springs area, Macon and Clay Counties, Tenn. The planned works of improvement include conservation land treatment, supplemented by five floodwater retarding structures.

This draft environmental statement was transmitted to CEQ on January 4, 1973.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, D.C. 20250.

Soil Conservation Service, USDA, 561 U.S. Courthouse, Nashville, Tenn. 37203.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

Red Boiling Springs Watershed Project, Tenn., Notice of Availability of Draft Environmental Statement.

Please use name and number of statement above when ordering. The estimated cost is $4.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Paul M. Howard, State Conservationist, Soil Conservation Service, 561 U.S. Courthouse, Nashville, Tenn. 37203.

Comments must be received within 60 days of the date the statement was transmitted to CEQ in order to be considered in the preparation of the final environmental statement.

WILLIAM B. DAVEY,
Deputy Administrator for Watersheds Soil Conservation Service.

Office of Minority Business Enterprise

EXECUTIVE COMMITTEE OF ADVISORY COUNCIL FOR MINORITY ENTERPRISE

Notice of Public Meeting

Pursuant to the provisions of the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776) notice is hereby given that a public meeting of the Executive Committee of the Advisory Council for Minority Enterprise will be held on January 24, 1973, in the Savoy Room of the Ramada Inn, 14th and Thomas Circle NW., Washington, D.C. The meeting will convene at 8:30 a.m. and will be open to the public. Any member of the public who wishes to do so may file a written statement with the Committee, before or after the meeting. Such statements may be filed at 1000 Vermont Avenue, Washington, D.C. (202/967-3922). Interested persons may make oral statements at the meeting to the extent that the time available for the meeting permits.

The Executive Committee develops plans and policies and serves as an overall steering committee for review and coordination of the work of the Advisory Council for Minority Enterprise and its committees. The January 24, 1973 meeting will be held for these purposes.

Dated: January 5, 1973.

CHARLES STEIN,
Executive Secretary of the Executive Committee.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

BIOLOGICAL PRODUCTS

Status of Biological Substances Used for Detecting Bacterial Endotoxins

This notice is issued to inform all interested persons of the applicability of the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and the regulations promulgated thereunder (21 CFR Part 273) to biological substances for detecting bacterial endotoxins in human blood and in drugs for human use.

Section 351 of the Public Health Service Act prohibits the sale, barter, or exchange, in interstate or foreign commerce, or within the District of Columbia, of any virus, therapeutic serum, toxin, antitoxin, vaccine, blood, blood component or derivative, allergenic product, or analogous product or arsphenamine or its derivatives (or any other trivalent organic arsenic compound) applicable to the prevention, treatment, or cure of diseases or injuries of man, unless such products have been propagated or manufactured and prepared at an establishment holding an unsuspended and unrevoked license, issued by the Secretary of Health, Education, and Welfare, to propagate or manufacture, and prepare such products.

It has come to the attention of the Commissioner of Food and Drugs that a lysate prepared from the circulating blood cells (amebocytes) of the horseshoe crab (*Limulus polyphemus*) has been shown to be a sensitive indicator of the presence of bacterial endotoxins. Such a product can be employed as an in vitro test in detecting clinical endotoxemia, and for the detection of bacterial endotoxins (pyrogens) in biological products and other drugs or fluids for parenteral administration to man. It is well known that the administration of fluids containing bacterial endotoxins can produce shock, fever, and death.

The Commissioner of Food and Drugs, who is charged with administering section 351 of the Public Health Service Act and the provisions of 21 CFR Part 273, finds that such a product is a biological product applicable to the prevention or treatment of disease in man, in that utilization for the detection of bacterial endotoxins to prevent unsafe drugs from being administered or to diagnose the existence of endotoxemia in man renders it subject to section 351 of the Public Health Service Act, and to the 21 CFR Part 273 regulations, particularly § 273.101 (i) and (k).

The Commissioner recognizes the value of such a product when employed for the prevention or treatment of disease in man by the detection of bacterial endotoxins to prevent the administration of unsafe drugs or to diagnose the presence of endotoxemia in man. Standards designed to insure their continued safety, purity, and potency, therefore are in the process of being developed and will be set forth in regulations as soon as feasible. Until such standards are established, a license for such a product will not be issued.

At the present time, all drugs subject to a pyrogen test are required to be tested by the rabbit pyrogen test. The Limulus test therefore cannot be used as the final pyrogen test on a drug to determine whether it is suitable for administration to man. Information has been received, however, indicating that this test has value as an in-process test because results are obtained quickly. Although the Commissioner finds that such a use is subject to licensing under section 351 of the Public Health Service Act, he has concluded that the Limulus test shall be exempt at this time from the requirement for a license solely for use as an in-process test, pending the development of suitable additional standards. This exemption is conditioned upon the requirement that the labeling on such a product clearly limits its use to in-process testing of drugs, and states that the test is not suitable either as a replacement for the official rabbit pyrogen test or as a diagnostic tool for determining the presence of endotoxemia in man.

This notice is issued pursuant to the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to the Commissioner.

Dated: January 5, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-648 Filed 1-11-73;8:45 am]

[DESI 11073; Docket No. FDC-D-541; NDA 11-073]

WAMPOLE LABORATORIES

Vastran Forte Capsules; Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Vastran Forte Capsules containing niacin (375 mg.) with ascorbic acid, riboflavin, thiamine mononitrate, cyanocobalamin, pyridoxine hydrochloride, and calcium pantothenate; marketed by Wampole Laboratories, 35 Commerce Road, Stamford, CT 06904 (NDA 11-073).

The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that this fixed combination drug, offered for hypercholesteremia, will have the effects that it purports or is represented to have under the conditions of use prescribed, recommended or suggested in the labeling.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before February 12, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election on or before February 12, 1973, will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before February 12, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after February 12, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: December 27, 1972.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.73-647 Filed 1-11-73;8:45 am]

Health Services and Mental Health Administration

MENTAL HEALTH NEW CAREERS TRAINING REVIEW COMMITTEE

Notice of Meeting

The Administrator, Health Services and Mental Health Administration, announces the meeting date and other required information for the following National Advisory body scheduled to assemble the month of January 1973.

Committee name	Date/time/place	Type of meeting and/or contact person
Mental Health New Careers Training Review Committee.	Jan. 18-19, 1 p.m., Conference Room L, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open, 1-2 p.m., Jan. 18, closed, remainder of meeting; contact Vernon R. James, Room 8C-06, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., Code 301—443-1333.

Purpose. The Committee is charged with the initial review of grant applications for Federal assistance in the program area administered by the New Careers Training Branch, Division of Manpower and Training Programs, National Institute of Mental Health, related to mental health new careers training and makes recommendations to the Division of Manpower and Training Programs, the Director of the National Institute of Mental Health, and the National Advisory Mental Health Council.

Agenda. The Committee will be open for reports and announcements of administration and program developments from 1-2 p.m. on January 18. From 2 p.m. on January 18 thru January 19, 1973, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Health Services and Mental Health Administration, pursuant to the provisions of Public Law 91-463, section 10(d).

Items for discussion are subject to change due to priorities as directed by the President of the United States, or the Secretary of Health, Education, and Welfare.

A roster of members may be obtained from the contact person listed above.

Dated: January 4, 1973.

ANDREW J. CARDINAL,
Acting Associate Administrator for Management, Health Services and Mental Health Administration.

ATOMIC ENERGY COMMISSION

[Dockets Nos. 50–329A, 50–330A]

CONSUMERS POWER CO.

Notice and Order for Third Prehearing Conference

Take notice that a third prehearing conference will be held in the subject proceeding on January 25, 1973, at 10 a.m., local time, in Courtroom No. 3, U.S. Court of Claims, 717 Madison Place NW., Washington DC 20005.

The primary purpose of the proposed prehearing conference is to:

1. Hear oral argument on applicant's "Motion for Order Modifying Procedural Schedule" and have the Board rule on such motion;
2. Determine the status of outstanding subpenas and notices for the taking of depositions; and
3. Discuss procedures for expediting this case.

Issued at Washington, D.C., this 10th day of January 1973.

It is so ordered.

THE ATOMIC SAFETY AND LICENSING BOARD,
JEROME GARFINKEL,
Chairman.

[Docket No. 22364; Order 73–1–21]

U.S. MAINLAND-HAWAII FARES

Order Regarding Reduction in Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 9th day of January 1973.

By petition dated December 22, 1972, Western Air Lines, Inc. (Western) requests that the Board amend Order 72–5–100 (U.S. Mainland-Hawaii Fares case) to the extent necessary to permit it to establish lower coach fares in the Sacramento-Hawaii market than are prescribed by the aforesaid order.

In support of its request, Western asserts that at present there is no single-plane service in the Sacramento-Honolulu market, but that it plans to schedule single-plane service via San Francisco as of January 5, 1973.[1] However, present Sacramento-Honolulu coach fares involve a $30 round trip add-on to the San Fransico-Honolulu fares, and many people avail themselves of less costly methods of transportation between Sacramento and San Francisco. Western alleges that a reduction in fares is required if its planned single-plane service is to be competitive, and proposes to reduce present one-way peak and offpeak coach fares in this market $7.[2]

In the 12 months ended October 31, 1972, Western carried less than two passengers per day in each direction between Sacramento and Honolulu at other than first-class fares. The annual reduction in revenues resulting from application of the proposed reduced fares to existing traffic would be $10,248, or $28 per day. Consequently, a gain of one round-trip passenger per day would more than offset the reduction in revenues from existing passengers. Western expects to carry 40 passengers per day in each direction as a result of its revised service pattern and reduced fares.

No objections have been filed.

In our opinion, a valid basis exists in this case for an exception to the fare construction formula established in Order 72–5–100. Western believes that it can develop the Sacramento-Hawaii market by providing single-plane service, but not at the present fare level which exceeds the San Francisco-Hawaii fares by $30 round trip. We are inclined to agree that the additional traffic required to support through service from Sacramento to Hawaii could not be developed at the present fare level, in light of less costly alternative means of traveling to the San Francisco gateway. In view of the particular circumstances of this case, a $7 (one-way) reduction in the Sacramento-Hawaii coach fares appears warranted.

Procedures. The exception made herein to Order 72–5–100 will become effective on the fifth day following service of this order if no objections are filed within that time. Tariffs implementing the exception made herein will not be accepted prior to the expiration of the time for the filing of objections hereto. In light of the fact that the through service is to be introduced on January 5, 1973, tariffs may be filed in conformity with the findings herein on 1 day's notice if no objections are filed within such period. If objections are filed, further proceedings shall be conducted in such manner as the Board may deem appropriate, and tariffs inconsistent with Order 72–5–100 will not be accepted until the Board rules on the objections.

Accordingly, upon consideration of the foregoing:

It is ordered, That:

1. An exception to the provisions of paragraph 5 of the ultimate findings in Order 72–5–100 is granted Western Air Lines, Inc., to the extent that such provisions preclude the establishment of a YH class one-way fare of $130 and a YL class one-way fare of $115 between Honolulu and Sacramento.
2. If no objections to the preceding ordering paragraph are filed with the Board within 5 days of the date of service of this order, that paragraph will become final. If objections are filed within 5 days of the service of this order, further proceedings in connection therewith shall be conducted in such manner as the Board may deem appropriate.
3. Except to the extent granted herein, the request of Western Air Lines, Inc., to amend Order 72–5–100 is denied; and
4. A copy of this order will be served upon Western Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.73–726 Filed 1–11–73;8:45 am]

[1] Western's service to Hawaii from Sacramento has been provided via connection at Los Angeles.

[2] Western notes that the Sacramento-San Francisco fare reduction would not apply to local traffic (which Western cannot carry because of a closed-door restriction) and would be a proportional reduction only, viz, the reduction between Sacramento and San Francisco would apply only when the ultimate destination is Hawaii.

FEDERAL POWER COMMISSION

ALASKA POWER SURVEY—TECHNICAL ADVISORY COMMITTEE ON ECONOMIC ANALYSIS AND LOAD PROJECTION

Agenda of Meeting

Meeting to be held in Room GO–3, Federal Building, Anchorage, Alaska, on January 24, 1973, at 9 a.m.

Presiding: Dr. Dale E. Swanson, Chairman.

1. Meeting call to order.
2. Objectives and purposes of meeting.
A. Chairman's statement.
B. Progress reports:
a. Income, population and the economy.
b. Population pattern.
c. Changes in demand for power.
d. Projection of power requirements.
e. Report preparation.
C. Review of study scope.
D. Work plan to complete subcommittee assignment.
E. Time schedule.
F. Other business pertinent to subcommittee assignment.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee, which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP66–369]

AMOCO GAS CO.

Notice of Redesignation

JANUARY 4, 1973.

By petition filed November 20, 1972, Amoco Gas Co. informed the Commission that its corporate name has been changed from Pan American Gas Co. to Amoco Gas Co. by certificate of amendment of certificate of incorporation dated January 18, 1971, effective February 1, 1971.

Accordingly the declaration of exemption issued to Pan American Gas Co. in Docket No. CP66–369 (35 FPC 983) pursuant to section 1(c) of the Natural Gas Act is redesignated as that of Amoco Gas Co.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73–654 Filed 1–11–73;8:45 am]

[Docket No. RI73–174]

AMOCO PRODUCTION CO.

Order Providing for Hearing

JANUARY 3, 1973.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness

V38-8 JAN 12 73 XUM

of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf* Rate in effect	Cents per Mcf* Proposed increased rate	Rate in effect subject to refund in dockets Nos.
RI73-174	Amoco Production Co	568	[4] 3	Phillips Petroleum Co. (Guymon-Hugoton Field, Texas County, Okla., Hugoton Area).	$165	12-4-72		[1] 12-5-72	[2] 11.5961	[3] [5] 13.89129	

*The pressure base is 14.65 p.s.i.a.
[1] Pursuant to Opinion No. 586.
[2] Rates computed on basis of 172.928 percent of Amoco's base price of 7.9056 cents plus applicable tax reimbursement (172.928 percent=16.22 cents—Phillips' current resale rate÷9.3796 cents—Phillips' base price as of Jan. 18, 1965, the date Phillips amended its contract with Michigan-Wisconsin to provide for fixed periodic price escalations only). Phillips contends that correct contractually due rate should be computed on base of 157.891 percent of 7.9056 cents. (157.891 percent=16.22 cents÷10.2729 cents—Phillips' current base price.)
[3] Sweet gas rate. Subject to deduction of 0.4466 cent if gas is sour.
[4] Includes unexecuted quality statement filed Dec. 4, 1972, such statement is accepted subject to the understanding that the filing reflects an incorrect rate of 14.25 cents instead of the proper rate of 13.89129 cents, assuming arguendo that Amoco's contract interpretation here is correct.

Amoco's proposed increased rate does not exceed the applicable area rate ceilings established in Opinion No. 586 for the Hugoton-Anadarko Area. There is, however, a dispute between Amoco and Phillips as to whether the rate proposed here is authorized under the subject contract. Accordingly, the proposed rate is suspended for 1 day from the date of filing (the date an acceptable filing would be effective under Opinion No. 586), pending completion of Dockets Nos. RI71-691 and RI73-70 which involve the same contractual issues presented here.

Amoco's proposed increased rate and charge exceed the applicable area price level for increased rates as set forth in the Commission's Statement of General Policy No. 61-1, as amended (18 CFR 2.56).

CERTIFICATION OF ABBREVIATED SUSPENSION

Pursuant to § 300.16(1)(3) of the Price Commission rules and regulations, 6 CFR 300 (1972), the Federal Power Commission certifies as to the abbreviated suspension period in this order as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by Area Rate Proceeding, Docket No. AR61-1, et al., Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in Permian Basin Area Rate Case, 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this Commission if such rates are contractually authorized and are at or below the area ceiling.

(2) In the instant case, the requested increases do not exceed the ceiling rate for a 1-day suspension.

(3) By Order No. 423 (36 FR 3464) issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act (15 U.S.C. 717c(d) in a situation where the proposed rate exceeds the increased rate ceiling, but does not exceed the ceiling for a 1-day suspension.

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage. (See Opinions Nos. 595, 598, and 607, and Order No. 435.) In these circumstances and for the reasons set forth in Order No. 423 the Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

[Project No. 2493—Washington]

PUGET SOUND POWER & LIGHT CO.

Availability of Environmental Statement

JANUARY 5, 1973.

Notice is hereby given that on December 29, 1972, as required by the Commission rules and regulations under Order 415, as amended, a final staff environmental statement prepared by the Commission's staff pursuant to section 102 (2)(C) of the National Environmental Policy Act of 1969 (Public Law 91-100) was placed in the public files of the Federal Power Commission. This statement deals with an application for license filed pursuant to the Federal Power Act by Puget Sound Power & Light Co., for its constructed Snoqualmie Falls project.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, DC and its San Francisco Regional Office. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The project is located on the Snoqualmie River in the region of Snoqualmie and Falls City in King County, Wash.

The project consists of a small concrete diversion dam and two generating plants with a combined installed capacity of 40,850 kw. Plant No. 1 was constructed in a cavern beneath the falls. Plant No. 2 is located one-quarter-mile downstream from the falls.

[Docket No. CI73-293, etc.]

BELCO PETROLEUM CORP. ET AL.

Extension of Time and Postponement of Hearing

JANUARY 5, 1973.

On December 29, 1972, Texaco Inc. (Docket No. CI73-335), Tenneco Oil Co. (Docket No. CI73-336), and Belco Petroleum Corp. Agent (Docket No. CI73-293), (Applicants) filed a request for an extension of time to and including January 29, 1973, within which Applicants and all the intervenors in support thereof shall file their direct cases, and for a postponement of the hearing from January 25, 1973, to February 15, 1973. The Applicants also request that February 9, 1973, be established as the date for the filing of reply evidence by the other intervenors and Commission Staff, and that parties having common interests be permitted to combine for the purpose of presenting evidence and participating in the hearing.

Upon consideration, notice is hereby given that the dates set by the order issued December 26, 1972, are modified as follows:

Service of direct case of each of the applicants and all intervenors in support thereof—January 26, 1973.
Service of Commission Staff's direct case—February 12, 1973.
Service of direct case of the intervenors in opposition—February 12, 1973.
Rebuttal by applicants—February 21, 1973.
Commencement of hearing—February 28, 1973 (10 a.m., e.s.t.).

Disposition of the request that parties having common interests be permitted to combine for the purpose of presenting evidence and participating in the hearing will be made by subsequent order.

KENNETH F. PLUMB, *Secretary.*

BOSTON EDISON CO.

Extension of Time

JANUARY 4, 1973.

On December 19, 1972, Commission Staff Counsel filed a motion for extension of service dates as established by the order issued July 28, 1972.

Upon consideration, notice is hereby given that the procedural dates fixed by the order issued July 28, 1972, in the above-designated matter are postponed as follows:

Staff service date—February 2, 1973.
Intervenors service date—February 16, 1973.
Company rebuttal service date—March 2, 1973.
Prehearing conference—March 13, 1973 (10 a.m., e.s.t.).
Hearing date—March 20, 1973 (10 a.m., e.s.t.).

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-657 Filed 1-11-73;8:45 am]

[Docket No. RP73-65]

COLUMBIA GAS TRANSMISSION CORP.

Proposed Change in Tariff

JANUARY 5, 1973.

Take notice that Columbia Gas Transmission Corp. (Columbia), on November 30, 1972, tendered for filing certain revised tariff sheets to its FPC Gas Tariff, Original Volume No. 1, proposed to become effective as of August 1, 1972. The proposed tariff sheets are submitted pursuant to the Commission's Order Nos. 452 and 452-A in Docket No. R-406, permitting natural gas pipeline companies to submit a purchased gas cost adjustment provision (PGA clause) to be included in their tariffs under § 154.38 (d)(4) of the Commission's regulations under the Natural Gas Act.

Columbia requests that the Commission waive the notice requirements and certain other provisions of the regulations: (i) to permit the determination of PGA rate changes by Columbia's rate zones, rather than on an overall basis; (ii) to permit Columbia to limit rate changes tracking pipeline supplier rate changes to twice a year, except in the event of major pipeline rate changes; and (iii) to permit this filing to become effective as of August 1, 1972. Columbia indicates that the propriety of waivers (i) and (ii) were recognized by the Commission in its order issued September 11, 1972, in Docket No. RP73-12.

Columbia submitted a cost and revenue study based upon the 12-month period ended July 31, 1972, adjusted for the annualization of both costs and revenues, particularly including the "Blue Water Project" costs. The study shows that revenues at Commission approved rate levels for August 1, 1972, are deficient by $1.2 million. Columbia's filing also indicates that the net effect of changes in gas supplier rates since August 1, 1972, would increase its purchased gas

V38-8 JAN 12 73 XUM

cost $8.3 million annually by December 31, and that by March 1, 1973, Columbia will have paid approximately $5.2 million in increased charges not reflected in the August 1 rate levels approved by Commission order issued October 19, 1972, in Docket No. RP71-18, et al.

Copies of the filing have been mailed to all jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 15, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Columbia's proposed tariff sheets and rate filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-658 Filed 1-11-73;8:45 am]

CONSUMERS POWER CO.

[Docket No. E-7803]

Order Providing for Hearing, Suspending Proposed Increased Rates Charges, and Granting Interventions

JANUARY 5, 1973.

Consumers Power Co. (Consumers Power) on November 6, 1972, tendered for filing proposed changes to its contracts with 19 customers in the State of Michigan as supplements to its FPC rate schedules applicable to wholesale electric service, to become effective on January 6, 1973.[1]

The rate schedule changes would increase rates and charges in the annual amount of approximately $1,542,000 based upon operations in the calendar year 1971, representing a 20-percent overall increase in charges to the 19 customers. The new rate increase demand charges by 77 cents per kilovoltampere per month and increase energy charges by 0.05 cent (½ mill) per kilowatt hour. In addition, the contract changes would increase the billing demand interval for all wholesale customers from a 15-minute interval to a 30-minute interval and also change the method of calculating the minimum charge for partial purchase customers.

In support of the proposed rate increase, Consumers Power states that its earnings have become inadequate due to inflation; that its current rates yield only a 4.5-percent return from wholesale service on a 1971 test year basis; that it is experiencing construction expenditures of approximately $379 million in 1972; and that it expects to expend over $2 billion in construction activities by the end of 1976. The rate filing includes cost of service and financial data based upon rate of return allowance of 8.0 percent.

Copies of the filing were served upon Consumers' jurisdictional customers and the Michigan Public Service Commission. The Commission issued notice of the filing which was published in the FEDERAL REGISTER on December 13, 1972 (37 FR 26547). Petitions for leave to intervene were filed by Edison Sault Electric Co., the "Cities/Co-ops" group, jointly,[2] and Alpena Power Co.

The Cities/Co-ops petition also included a motion to reject the filing, or in the alternative, to provide for hearing and suspend it for 5 months. In support of its motion to reject the filing, Cities/Co-ops alleges that Consumers engages in unlawful anticompetitive practices. Petitioner contends, furthermore, that the Commission has a "duty not to allow increased rates to go into effect which would further this unlawful purpose" and it alternatively, requests that the Commission "refuse to accept [the] filing • • • except upon the imposition of conditions", i.e., that Consumers perform certain acts presumably related to abatement of its charges of unlawful practices.

Alpena Power also included a motion to reject Consumers' rate filing, citing section 12 (renegotiation of rate) of its contract with Consumers which provides for rate changes by a renegotiation procedure. Alpena's motion also indicates that in 1971 the contract was amended by the parties in several respects, one of which was the addition to section 6 (Rates), of the following:

Charges Approved by Regulatory Authorities:

The foregoing provisions of this rate are subject to such future revisions and amendments thereof, supplements thereto or substitutions therefor, as may be approved from time to time by any governmental regulatory authority or authorities having jurisdiction in the premises.

Alpena's motion contends that Consumers has made a "unilateral" rate filing "in advance of renegotiation," that there is no language in the contract, as amended, which permits such change, and it therefore must be rejected on the grounds of the holding in Mobile and Sierra.[3] We disagree with Alpena's construction of its contract as amended for we find nothing in the contract which indicates that renegotiation is required as a prerequisite to the contract rate's being reviewed by this Commission in any of the procedures authorized by the provisions of the Federal Power Act, including either section 205 or 206 thereof. Since the language of the amendment provides for rate changes "from time to time", the rate is a "going" rate, not a "fixed" rate.[4] In our view therefore, the amendment of the rates section 6 has added another, not necessarily exclusive, method of changing the rates. This additional method does not nullify, or reduce to "surplusage," the provisions for renegotiation contained in section 12, as contended by Alpena. Accordingly, we shall deny Alpena's motion to reject the filing.

Our review of the rate filing and the motions of Cities/Co-ops and Alpena indicates that rejection of the filing is not justified. However, the issues raised by the pleading, with the exception of the unilateral rate filing issue on which we have ruled herein, as well as other issues raised by our review of the filing may require development in evidentiary proceedings. The proposed changes in rates and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in rate schedules as proposed to be amended in this docket, and that the tendered rate schedules be suspended as hereinafter provided.

(2) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the rate schedule changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(3) Participation of the above-named persons in this proceeding may be in the public interest.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held, commencing with a prehearing conference on May 15, 1973, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classifications and services contained in Consumers' FPC Electric Rate Schedules as proposed to be revised herein.

(B) At the prehearing conference on May 15, 1973, Consumers' prepared testimony (Statement P) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of § 1.18 of the Commission's rules of practice.

(C) On or before May 4, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before May 22, 1973. Any rebuttal evidence by Consumers shall be served on or before June 5, 1973. Cross-examination of the evidence filed will commence on June 19, 1973.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, and shall prescribe relevant procedural matters not herein provided.

(E) Pending hearing and a final decision in this proceeding, Consumers' proposed rate schedules, tendered on November 6, 1972, are suspended and the use thereof deferred until June 6, 1973.

(F) Cities/Co-ops and Alpena's motions to reject are denied.

(G) The above-named petitioners are hereby permitted to intervene in these proceedings, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene and *provided, further,* That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in these proceedings.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-7906]

DETROIT EDISON CO.

Proposed Changes in Rates and Charges

JANUARY 5, 1973.

On December 8, 1972, the Detroit Edison Co. (Edison) tendered for filing a proposed superseding supplements to its present contract as supplemented with its wholesale for resale customer, Consumers Power Co. (Consumers). The proposed change would increase revenues from jurisdictional sales and services by $2,133,572 or 20.84 percent based on test year ending September 30, 1972, to become effective on January 1, 1973, or as soon thereafter as permitted by the Commission.

Any person desiring to be heard or protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 22, 1973. Protest will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-159]

GRAND VALLEY TRANSMISSION CO.

Notice of Application

DECEMBER 26, 1972.

Take notice that on December 18, 1972, Grand Valley Transmission Co. (Applicant), Post Office Box 986, Billings, MT 59103, filed in Docket No. CP73-159 a budget-type application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the Commission's regulations thereunder, for a certificate of public convenience and necessity authorizing the construction, for a 1-year period from the date of authorization, and operation of certain natural gas purchase facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas in various producing areas generally coextensive with said system.

The total cost of the facilities proposed herein is not to exceed $30,000, with no single project to exceed a cost of $10,000.

Any person desiring to be heard or make any protest with reference to said application should on or before January 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.18 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commssion on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

[Docket No. RP73-4]

GREAT LAKES GAS TRANSMISSION CO.

Further Extension of Time

JANUARY 4, 1973.

On December 22, 1972, TransCanada PipeLines Limited filed a motion for extension of time of the procedural dates previously fixed by notice issued November 27, 1972, in the above-designated

V38 I8 JAN 12 73 XUM

matter. The motion states that the dates requested were agreed to by all parties at the prehearing conference held on December 19, 1972.

Upon consideration, notice is hereby given that the procedural dates fixed by notice issued November 27, 1972, are further modified as follows:

Service of Great Lake's evidence on original cost issue—February 20, 1973.
Service of intervenor evidence—March 20, 1973.
Service of Great Lake's rebuttal evidence—April 20, 1973.
Commencement of cross-examination—May 8, 1973 (10 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-661 Filed 1-11-73;8:45 am]

[Docket No. CI73-143]

GREAT PLAINS LAND CO.

Postponement of Procedural Dates

DECEMBER 27, 1972.

On December 21, 1972, counsel for Great Plains Land Co. requested an extension of time for filing testimony as required by order issued December 13, 1972, in the above matter.

Upon consideration, notice is given that the time for filing testimony by the applicant in the above matter is postponed to and including January 15, 1973, other procedural dates are postponed accordingly as follows:

Testimony and exhibits of intervenor—February 9, 1973.
Hearing—February 13, 1973.

MARY B. KIDD,
Acting Secretary.

[Docket No. E-7900]

IOWA SOUTHERN UTILITIES CO.

Notice of Application

JANUARY 4, 1973.

Take notice that on December 11, 1972, Iowa Southern Utilities Co. (Applicant) filed an application for an order pursuant to section 204 of the Federal Power Act authorizing the issuance of $10 million principal amount of first mortgage bonds.

Applicant is incorporated under the laws of the State of Delaware with its principal business office at Centerville, Iowa, and is engaged in the electric utility business in 24 counties in Iowa.

The bonds will be dated February 1, 1973, and mature February 1, 2003, and will bear interest at a rate to be determined by competitive bidding pursuant to the Commission's regulations. It is anticipated bids will be opened February 1, 1973.

The proceeds from the issuance of the bonds will be used to repay bank loans and short-term notes issued in the form of commercial paper and to finance in part the Applicant's construction program for 1973 and 1974, the principal item of which, is $20,500,000 for the Applicant's 28 percent ownership share in a 520,000 kilowatt turbogenerator at the Neal Station near Sioux City, Iowa. Any person desiring to be heard or to make any protest with reference to the application should on or before January 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

MESA PETROLEUM CO.

Extension of Time and Postponement of Hearing

JANUARY 4, 1973.

On December 29, 1972, Kansas Power & Light Co. (KP&L) requested an extension of time within which to file its direct testimony and exhibits as required by order issued December 22, 1972. The request states that none of the parties had any objection to the request. On January 3, 1973, Mesa Petroleum Co. filed a telegram requesting a postponement of the hearing from January 16, 1973, to January 22, 1973. The telegram states that counsel for KP&L, Panhandle Eastern Pipe Line Co., and the Commission staff have no objection to the request and have agreed to the January 22 date.

Upon consideration, notice is hereby given that the time is extended to January 10, 1973, within which all parties shall file direct testimony and evidence as required by the order issued December 22, 1972. The hearing is postponed to January 22, 1973, at 10 a.m., e.s.t.

[FR Doc.73-667 Filed 1-11-73;8:45 am]

[Docket No. E-7866]

NEW ENGLAND POWER POOL

Order Accepting for Filing, Suspending Proposed Notice for Cancellation and Permitting Intervention

DECEMBER 29, 1972.

By order issued on September 21, 1972, in Docket No. E-7690, the Commission provided that section 12 of the New England Power Pool NEPOOL Agreement become effective on October 1, 1972. Section 12 deals with the operation of central dispatch of energy.

Braintree, Mass., Electric Light Department (Braintree) was a NEPEX signatory but due to their objection to certain provisions of the NEPOOL Agreement did not choose to become a signatory of NEPOOL. This placed Braintree in the position of losing the benefits of centralized dispatch as provided under both the NEPEX Agreement and the NEPOOL Agreement. Braintree and NEPOOL entered into an agreement on October 1, 1972, allowing Braintree to furnish and receive energy and reserve service through December 31, 1972, as if it were a NEPOOL participant.

By letter dated November 28, 1972, the NEPOOL Management Committee filed a notice of cancellation to the agreement providing that any service Braintree was receiving pursuant to the agreement would be terminated as of December 31, 1972.

The Commission in its December 19, 1972, order upon reconsideration and application for rehearing in Docket No. E-7690 recognized Braintree's situation and made comment as follows:

> While the cancellation of NEPEX services to nonsignatories of the NEPOOL Agreement is not a primary issue in this proceeding, adequate electrical service to all consumers is always of major concern to the Commission. The cancellation of a previously provided service without mutual agreement as to an adequate replacement service will be reviewed by the Commission when the NEPOOL executive committee files its notice of cancellation of the NEPEX service to Braintree, Mass., Electric Department. If deemed appropriate, the Commission can suspend the cancellation of service for as much as 5 months from the date of the notice of cancellation. In the event service arrangements have not been agreed to between the parties at the expiration of any provided suspension period, the Commission can at that time provide a forum for Braintree to seek appropriate protection and relief pursuant to the Federal Power Act.

Pursuant to the notice provided in this docket, Braintree on December 27, 1972, filed comments with regard to the proposed notice of cancellation and requested intervention in the proceeding. Their comments in pertinent part informed the Commission that replacement service would be provided to Braintree by Boston Edison Co. through a previously filed rate schedule (FPC Rate Schedule No. 44) beginning on January 1, 1973.

Braintree further informed the Commission that they are in the course of negotiating with Boston Edison to determine how their agreement might be modified or interpreted, in view of the emergence of NEPEX and NEPOOL in either of the events: (1) Braintree joined NEPOOL, or; (2) remained outside NEPOOL operating under its agreement with Edison. The comments state that while Braintree and Edison have not yet been able to reach agreement on all the terms of their proposed supplemental agreement:

> The discussions have, however, gone far enough so that there have been reached sufficient mutual understandings covering the interpretation of the existing interconnection agreement so that Braintree believes that its best interest will be served by remaining out of NEPOOL for the present. In essence, Braintree believes its agreement with Edison is clear, and Edison will not dispute its utilization to provide to Braintree scheduled and unscheduled outage service at incremental costs plus 12½ percent of such incremental cost, the pricing to be done on an hourly basis upon data furnished by NEPEX after the end of the month. Braintree will provide the same service to Edison at the same rates. If, as may be the case, it is impractical for Edison and Braintree to engage in economy interchanges, it is understood that Braintree is entitled to an economy exchange with NEPOOL on a nonparticipant basis. Meanwhile, Braintree will continue to purchase all capacity, required to serve its firm load, as needed in excess of Braintree's capacity in generating units and unit power entitlements, less 15 percent.

Braintree further states that they have not reached agreement with Boston Edison and the interpretation of such § 15.19 of the NEPOOL Agreement as applied to scheduled or unscheduled outage services by Edison to Braintree. Braintree interprets this provision to apply to such service whether it be supplied to a participant or to a nonparticipant of NEPOOL; therefore Edison capability responsibility will not be affected if it supplies such service during a peak hour, and therefore capability responsibility costs will not enter into the determination of Edison's incremental costs for outage service to Braintree. Braintree however, states that they do not have any belief as to what Edison's position is regarding this point. If the interpretation of the provision is as Braintree believes, Braintree states that they: "should be able to operate adequately on an interchange basis with Edison under the agreement dated March 25, 1969 (FPC Rate Schedule No. 44), and have plans to commence such operations on January 1, 1973." They do, however, further state that: "in view of the fact that Edison and Braintree have not yet executed their contemplated supplemental agreement, Braintree will not be able, until after at least 1 month's experience, to give the Commission assurance that no disputes will arise in connection with the instant matter."

Inasmuch as it appears that all parties are diligently making an effort to reach an agreement which will provide Braintree and its consumers with adequate replacement service to those previously provided by NEPEX, the Commission is constrained to provide Braintree with a reasonable amount of time in which to achieve those goals. Since Boston Edison Co. and Braintree are continuing negotiations with regard to supplemental services to be provided Braintree and since there is no indication that a reasonable suspension of the notice of cancellation of service provided through NEPOOL will adversely affect the NEPOOL Agreement, this Commission shall order a 45-day suspension of the notice of cancellation of NEPOOL services to the Braintree, Mass., Electric Light Department.

The Commission feels that removing the time pressure from the negotiating parties in order to provide a period of further negotiation without the impending threat of cancellation of existing service can only serve the public interest without prejudicing the rights of any of the parties affected hereby. This period will also provide an opportunity for both NEPOOL and Boston Edison Co. to file comments with the Commission.

The Commission will not order at this time any further proceedings in this matter. Should this matter not be terminated to the satisfaction of all the parties concerned at the expiration of the 45-day suspension period on February 15, 1973, the Commission at that time will consider appropriate additional proceedings.

The Commission finds:

(1) The Notice of Cancellation of the Agreement for Energy Exchange between the NEPOOL participants and Braintree Electric Light Department, dated as of October 1, 1972, may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful under the Federal Power Act.

(2) Participation of Braintree, Mass., Electric Light Department in this proceeding may be in the public interest.

(3) It is necessary and proper in the public interest and to aid the enforcement of the provisions of the Federal Power Act that the Commission suspend the notice of cancellation as hereinafter provided.

(4) In the event that this proceeding is not concluded prior to the termination of the suspended period herein ordered, the Commission will enter upon a hearing for purposes of determining what relief if any, the Commission can grant to Braintree, Mass., Electric Light Department.

The Commission orders:

(A) The NEPOOL Management Committee's Notice of Cancellation of the agreement for energy exchange between the NEPOOL participants and Braintree Electric Light Department dated as of October 1, 1972, is hereby accepted for filing and suspended for 45 days until February 15, 1973, as hereinafter provided.

(B) The Braintree, Mass., Electric Light Department is hereby permitted to intervene in this proceeding on the subject of the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting the rights and interests specifically set forth in their statement of comment and petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition that they might be aggrieved because of any order or orders issued by the Commission in this proceeding.

By the Commission.

[SEAL] MARY B. KIDD,
Acting Secretary.

[FR Doc.73-668 Filed 1-11-73;8:45 am].

V 38 - 8 JAN 12 73 XUM

[Docket No. E-7867]

OHIO POWER CO.

Order Accepting for Filing

JANUARY 3, 1973.

On December 4, 1972, Ohio Power Co. (Ohio Power) tendered for filing proposed changes in its FPC Rate Schedule No. 18 which would increase Ohio Power's jurisdictional revenues by $951,065 annually. The changes primarily reflect increased demand and energy charges and a revised fuel adjustment clause.

Notice of the filing was issued on December 19, 1972, requiring petitions to intervene or protest by December 27, 1972. Timely petition to intervene was filed jointly by Allied Chemical Corp., Blaw Knox Co., Mobay Chemical Co., PPG Industries, Inc., and Triangle Conduct & Cable Co. (intervenors). A notice of intervention was filed by the West Virginia Public Service Commission. The petitioners for intervention have requested additional time to study the filing and submit pleadings. Therefore, in order to determine the necessity of an evidentiary hearing, the Commission requests that the intervenor, Allied et al., and the staff submit offers of proof within thirty (30) days from the issuance of this order to support their position as to the lawfulness of the proposed rates. Within 15 days from the service of such offers of proof, Ohio Power may file its answer to such pleadings. Upon review of the pleadings, the Commission will determine if a full evidentiary hearing is justified and set such further procedural dates as may be necessary.

Our review indicates that the applicant's fuel adjustment clause may not conform with the requirements of § 35.14(a)(1) of the Commission's Regulations under the Federal Power Act. A fuel adjustment clause should, in the public interest and as a matter of regulatory policy, be designed, with respect to the fuel cost component of purchased power, to recover the seller's cost of the fuel which is consumed to generate such power, as distinguished from the purchaser's cost of fuel attributable to such power. New England Power Company, Docket No. E-7541 (Opinion No. 633, mimeo p. 17, issued October 30, 1972). The applicant's fuel adjustment clause may be improper in that it may impute its own changes in fuel costs to its power purchases. We will order the applicant, therefore, to show cause by January 31, 1973, why it should not be required to change its fuel adjustment clause in conformity with the principles enunciated in New England Power Company, supra.

Pending the Commission's determination of whether an evidentiary hearing is necessary, it is appropriate that the proposed increased rates be suspended for a period of one (1) day.

The Commission finds:

(1) Participation in this proceeding of the above-named petitioners to intervene may be in the public interest.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission request offers of proof from the intervenors and staff concerning the lawfulness of the rates and charges contained in Ohio Power's Rate Schedule No. 18 as proposed to be amended in this docket, and that the tendered rate schedule be suspended as hereinafter provided.

(3) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(4) The placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

The Commission orders:

(A) The aforementioned proposed rate schedules, tendered for filing on December 4, 1972, are accepted for filing subject to the terms and conditions of this order.

(B) The above-named petition to intervene is hereby granted subject to the Commission's rules of practice and procedure: *Provided, however,* The participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in its petition to intervene; and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any orders entered in this proceeding.

(C) Not more than thirty (30) days after the issuance of this order, the Commission staff and the intervenors shall submit offers of proof as to the lawfulness of the proposed rate increases from which the Commission can make a finding as to the necessity of an evidentiary hearing.

(D) Not more than fifteen (15) days after the service of such offers of proof, Ohio Power may file its answer to such pleadings.

(E) Pursuant to sections 205, 206, and 209 of the Federal Power Act and the Commission's rules of practice and procedure, the applicant shall show cause on or before January 31, 1973, why its fuel adjustment clause should not be changed to conform to the principles set forth in the Commission's Opinion No. 633.

(F) Pending a final decision in this proceeding, Ohio Power's proposed rate schedule tendered December 4, 1972, is suspended and the use thereof deferred until January 6, 1973, subject to refund as provided by section 205(e) of the Federal Power Act and the regulations thereunder.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-670 Filed 1-11-73;8:45 am]

[Docket No. E-7853]

OTTER TAIL POWER CO.

Notice of Application

JANUARY 4, 1973.

Take notice that on December 4, 1972, Otter Tail Power Co. (Applicant) of Fergus Falls, Minn., filed an application seeking an order, pursuant to section 204 of the Federal Power Act, authorizing the issuance of $12 million principal amount of First Mortgage Bonds, Series Due 2003.

The bonds are to be issued under the Applicant's indenture of mortgage dated July 1, 1936, as amended and supplemented and as to be supplemented by a 31st supplemental indenture to be dated as of February 2, 1973. The interest rate of the bonds will be determined by competitive bidding pursuant to the Commission's regulations under the Federal Power Act. The bonds will not be redeemable prior to February 1, 1978, at the option of the company through a refunding which has an interest cost to the company less than the interest cost of the bonds.

Proceeds realized from the issuance and sale of the bonds will be used for refunding of short-term borrowing from commercial banking institutions and through the sale of commercial paper in 1972 and 1973 to pay the expense of the company's construction program.

Any person desiring to be heard or to make any protest with reference to such application should, on or before January 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-669 Filed 1-11-73;8:45 am]

[Docket No. E-7795]

PHILADELPHIA ELECTRIC CO.

Order Denying Rehearing and Amending Prior Order

JANUARY 4, 1973.

The borough of Lansdale (Lansdale), on December 5, 1972, filed an application for rehearing and stay, as supplemented on December 20, 1972, of the Commission's order issued November 22, 1972, in the above-captioned proceeding, as amended and corrected by order issued December 11, 1972. Philadelphia Electric Co. (Philadelphia), on December 21, 1972, filed a petition for waiver of the Commission's rules to permit it to file an answer to Lansdale's application for rehearing, together with the answer. On December 29, 1972, Lansdale filed an answer to Philadelphia's petition.

In our opinion a discussion of the background of this proceeding will be helpful to an understanding of our disposition of Lansdale's application for rehearing. Philadelphia and Lansdale entered into a contract dated March 20, 1964,[1] by which Philadelphia was to furnish electric service to Lansdale up to 8,000 kw. demand. By contract dated November 12, 1971,[2] Philadelphia agreed to furnish Lansdale electric service in excess of 8,000 kw., up to 29,000 kw. Philadelphia, on May 1, 1972, filed in Docket No. E-7726 an increase in rates to Lansdale under the November 12, 1971, contract. The Commission, by order issued August 31, 1972, rejected that increase together with the November 12, 1971, contract as being in violation of the Mobile-Sierra[3] doctrine. On October 24, 1972, Philadelphia tendered for filing a rate schedule for electric service to Lansdale in excess of 8,000 kw. In our November 22, 1972, order, as amended and corrected by the December 11, 1972, order, we suspended Philadelphia's rate schedule for 1 day to November 25, 1972, provided for hearing thereon, and required Philadelphia to submit the November 12, 1971, contract as part of its case-in-chief in order for us to determine whether that contract is in the public interest under the circumstances of this case.

In its application for rehearing Lansdale requests the Commission to reject Philadelphia's rate schedule tendered on October 24, 1972, or otherwise preclude its effectiveness prior to hearing and decision and to clarify its intent as to its asserted investigation of the November 12, 1971, contract to make clear that it is undertaken pursuant to section 206 of the Federal Power Act. In the alternative Lansdale requests that the effective date of the October 24, 1972, filing be stayed pending appeal, or at the very least, suspended for 5 months. In support of its application, Lansdale contends and argues, inter alia: (1) The Commission is inconsistent in directing Philadelphia to file its November 12, 1971, contract with Lansdale and also accepting for filing and suspending for 1 day the October 24, 1972, rate schedule as it results in putting two conflicting rate schedules into effect simultaneously; (2) the filing of October 24, 1972, is barred by the November 12, 1971, contract just as Philadelphia's unilateral filing in Docket No. E-7726 was barred; (3) even if the October 24, 1972, filing were valid under the Sierra-Mobile doctrine, a 5 months' suspension of the filing is required by § 300.307 of the Price Commission regulations; and (4) the error of the order of November 22, 1972, lies in allowing the October 24, 1972, filing to become effective prior to the resolution of section 206 proceedings and it is requested that this part of the November 22, 1972, order be stayed pending appeal by Lansdale. In its supplement to its application for rehearing Lansdale contends that the Commission should require Philadelphia to file the November 12, 1971, contract and that the Commission's orders of November 22, 1972, and December 11, 1972, are irreconcilably inconsistent with the Commission's order of December 15, 1972, in Appalachian Power Company, Docket No. E-7775, in which the Commission rejected a rate increase filing under section 205 of the Federal Power Act as an impermissible unilateral rate increase not authorized by the terms of the existing contracts between the company and the municipalities under the Mobile-Sierra doctrine.

We believe that Philadelphia has shown sufficient reasons to justify the filing of an answer to Lansdale's application for rehearing. In its answer Philadelphia contends and argues inter alia: (1) In view of the fact that the Commission rejected the November 12, 1971, contract the contract of March 20, 1964, which provided only for service of up to 8,000 kw. to Lansdale remains in effect but since Lansdale had begun taking an excess of 8,000 kw. Philadelphia could not render service in excess of that provided for in the March 20, 1964, contract without filing an appropriate rate schedule applicable to such additional service; (2) Philadelphia cannot be barred by the Mobile-Sierra cases from increasing its rates by the November 12, 1971, contract as the Mobile-Sierra cases involved attempts to change existing contracts filed and approved by the Commission whereas the November 12, 1971, contract was a new contract offering Lansdale an entirely different service from that which it was then receiving and that contract was rejected by the Commission; and (3) the October 24, 1972, filing is not an attempt to make a unilateral change in an existing rate schedule but is an initial rate applicable to such demands for power and energy Lansdale may take in excess of the demands Philadelphia is authorized to serve under the March 20, 1964, contract.

In its answer of December 29, 1972, Lansdale contends that the November 12, 1971, contract is a valid agreement effective on that date and that, contrary to Philadelphia's assertions, it is of no consequence with respect to the applicability of the Mobile-Sierra rule that Philadelphia has refused to file the original November 12, 1971, agreement as required by the Federal Power Act and the Commission's regulations.

In our order of August 31, 1972, we referred to Carolina Power and Light Company, Docket No. E-7564 (Opinion No. 608 issued January 13, 1972, rehearing denied, Opinion No. 608A, issued February 22, 1972) wherein we indicated that in our judgment the Mobile-Sierra rule is inconsistent with sound regulatory policy in that it has the effect of limiting our authority under section 206(a) of the Federal Power Act. We have more recently indicated our concern over the fixed rate contract concept in Duke Power Company, Docket No. E-7557 (Opinion No. 641 issued December 18, 1972). In our August 31, 1972, order referred to above we further indicated that the Mobile-Sierra rule is currently the law and that we will continue to be governed by its principles; however, it is our intention in future cases involving new fixed rate contracts to scrutinize the provisions of each such contract in order to determine whether they are in the public interest.

We now add as a guideline for this and future proceedings that inasmuch as we consider fixed rate contracts generally to be not in the public interest it is our intent to strictly construe such existing contracts so as to permit no enlargement of rights or obligations thereunder absent a clear showing of necessity to meet the public interest.

In the instant proceeding there are three possible arrangements under which Philadelphia might render service to Lansdale: (1) The 1964 fixed rate contract for providing service up to 8,000 kw. per day, (2) the alleged fixed rate contract of November 12, 1971, and (3) the proposed rate schedules tendered for filing by Philadelphia on October 24, 1972.

The alleged fixed rate contract of November 12, 1971, has never been accepted nor approved by this Commission. It has, therefore, never become a lawful contract under which service subject to our jurisdiction may be rendered. Consistent with our expressed intent in future cases to scrutinize the provisions of new fixed rate contracts in order to determine whether they are in the public interest we herein find that the alleged fixed rate contract of November 12, 1971, is presumptively not in the public interest. In our August 31, 1972, order our reference to new fixed rate contracts contemplated contracts agreed to by the necessary parties and tendered to this Commission for filing. Philadelphia's refusal in the instant proceeding to file the November 12, 1971, contract and Lansdale's characterization of that instrument as a fixed rate contract subject to the Mobile-Sierra rule satisfies us that it is not in the public interest to require Philadelphia to tender that contract for filing. Submission of such contract is not material to our disposition of the pleadings before us.

The 1964 fixed rate contract providing for service of up to 8,000 kw. per day was duly tendered for filing, accepted by this Commission and made effective. As indicated, supra, it is our intention to strictly construe the provisions of that contract, absent a showing of public interest requiring some other interpretation. Accordingly, we fined that Lansdale is not entitled to full requirements service under the terms of that contract nor partial requirements service in excess of 8,000 kw. per day. In the hearing

[1] Rate Schedule FPC No. 24.

[2] Rate Schedule FPC No. 37.

[3] F.P.C. v. Sierra Pacific Power Company 350 U.S. 348 (1956); United Gas Pipe Line Company v. Mobile Gas Service Corporation 350 U.S. 332 (1956).

V 38 8 JAN 12 73 XUM

hereinafter ordered Lansdale may however proffer evidence, material and relevant, in order to show that an enlargement of the rights and obligations created in that contract is demanded by the public interest.

The rate schedule tendered for filing by Philadelphia on October 24, was suspended for 1 day and set for hearing in our order of November 22, 1972. In that order the proposed rates were to be effective on and after November 25, 1972. Philadelphia indicates that service in excess of 8,000 kw. was rendered to Lansdale starting September 1, 1972, in spite of the fact that no contract or tariff was then on file with this Commission and effective for this service. We are compelled to find that Philadelphia rendered such service at the risk that it would be compensated therefor at the rates contained in the 1964 contract. We will therefore not modify our November 22, 1972, order to provide an earlier effective date. The suspension and hearing provisions of that order are in our opinion correct.

The Commission orders:

(A) Ordering paragraph (A), and the phrase "and its contract with Lansdale dated November 12, 1971", of ordering paragraph (B) of our order of November 22, 1972, are hereby stricken.

(B) Our order of December 11, 1972, is vacated.

(C) All provisions of our orders of August 31, 1972, in Docket No. E-7726 and November 22, 1972, not inconsistent with the provisions of this order remain in full force and effect.

(D) Lansdale's application for rehearing and stay is denied.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-671 Filed 1-11-73;8:45 am]

[Docket No. E-7897]

PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE

Proposed Changes in Rates and Charges

JANUARY 4, 1973.

Take notice that Public Service Company of New Hampshire (Company) on December 28, 1971, tendered for filing proposed changes in its FPC Rate Schedule No. 50. The filing consists of an agreement dated August 9, 1971, between New Hampshire Electric Cooperative, Inc. (Cooperative), and the Company for partial requirements resale service and would result in a decrease in the Company's revenues from jurisdictional sales and services of approximately $13,270 based on the 12-month period following October 1, 1970.

The Company states that the provisions of the rate schedule as tendered are similar to those of FPC Rate Schedule No. 50 except modified to the extent necessary to provide for the separation for billing purposes of the ingoing electricity into various categories of electricity. The rate charged for resale service electricity is the same as that in effect under the present rate schedule. No facilities are to be installed or modified in order to supply the electric service under the proposed rate schedule.

The Company requests that the Commission waive the 30-day-notice requirement and permit the rate schedule to become effective as of October 1, 1970.

Copies of this filing were served on the Cooperative and interested State commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-672 Filed 1-11-73;8:45 am]

[Docket No. R-433; Order 459]

MOBIL OIL CORP. AND ASSOCIATED GAS DISTRIBUTORS

Gas Reserves Dedication; Order Denying Rehearing

JANUARY 5, 1973.

Mobile Oil Corp. (Mobil) on December 6, 1972, filed an application for rehearing of the Commission's Order No. 459 issued November 10, 1972, in the above-entitled proceeding. The Commission there established a form for reporting new gas reserves in Texas Gulf Coast and Southern Louisiana by the purchaser upon request of the producer for the purpose of implementing the refund credit and contingent rate escalation provisions of Opinions Nos. 595 and 598.[1]

Mobil in its application for rehearing claims that the Commission erred in making the filing of the form for new gas reserves voluntary, instead of mandatory. In support thereof, Mobil states that certain producers will have no obligation and no incentive to request pipelines to file these reports because they will receive no benefit from the "contingent" area rate escalations for flowing gas in Opinions Nos. 595 and 598. Specifically, Mobil refers to those producers who are (1) new entrants into a given producing area, (2) pipeline affiliates, or (3) applying to sell natural gas under the new optional procedure set forth in the Commission's Order No. 455.

Section 1.4 of the UDC settlement proposal provides that the purchaser upon request by the producer shall file a report with respect to new gas reserves.[2] It is thus clear that reports under that proposal were not to be mandatory. As a result, Order No. 459 made the filing of the form prescribed therein voluntary. Moreover, even though a given producer may receive no specific benefit, it may request its pipeline to report the new gas reserves, and we expect the producer to do so. We shall therefore deny Mobil's application for rehearing.

Associated Gas Distributors (AGD) also filed an application for rehearing of Order No. 459 on December 11, 1972, in which they contend that producers should receive credit only for those new gas reserves coming within the American Petroleum Institute (API) definition of proved reserves. The form adopted in Order No. 459 provides in Item No. 14 for the reporting of proved reserves as that term is defined by the API and in Item No. 15 for the reporting of new reserves that are outside the limits of the API definition but are in conformity with the definition of new gas reserves contained in § 1.4 of the UDC settlement proposal. Reserves reported in both Items Nos. 14 and 15 of the form will count for contingent escalation and refund credit purposes. The use of the UDC definition of new gas reserves in the form not only conforms with the settlement proposal approved in Opinion No. 598, but also eliminates the many problems involved in requiring or permitting changes in previously accepted estimates. Consequently, we shall deny AGD's application for rehearing.

The applications for rehearing of Mobil and AGD present no new facts or principles of law which were not fully considered by the Commission in Order No. 459, or, which having now been considered, warrant any modification of that order.

The Commission orders:

The applications for rehearing of Order No. 459 filed by Mobil on December 6, 1972, and AGD on December 11, 1972, are defined.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[FR Doc.73-674 Filed 1-11-73;8:45 am]

[1] The form will also be used to implement the refund credit provisions of Opinion No. 607-A (Other Southwest Area).

[2] The UDC settlement proposal is the United Distribution Companies' settlement proposal for the Southern Louisiana Area (Opinion No. 598, Appendix A) which was supported by the overwhelming majority of consumer, pipeline, and producer interests. The proposal was not only approved by the Commission in Opinion No. 598, but the refund credit and contingent rate escalations in Opinion No. 595 were patterned after similar provisions in that proposal.

[Docket No. C173-63]

SOUTHERN UNION GATHERING CO.

Further Extension of Time

JANUARY 4, 1973.

On December 29, 1972, Southern Union Gathering Co. and Aztec Oil & Gas Co. filed a motion for a further extension of time within which evidence is to be filed and a postponement of the date for hearing in the above-designated matter established by order issued September 29, 1972, as amended by notices issued October 10, 1972, November 3, 1972, and November 28, 1972. The motion states that the New Mexico Public Service Commission has no objection to the motion in view of Aztec's agreement to defer the effective date of its rate increase to March 22, 1973.

Upon consideration, notice is hereby given that the time is further extended to and including January 29, 1973, within which prepared testimony and exhibits shall be filed. The hearing is postponed to February 1, 1973, at 10 a.m. (e.s.t.), in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-675 Filed 1-11-73;8:45 am]

[Docket No. CP73-20, etc.]

TRANSCO ENERGY CO. ET AL.

Order Granting Interventions, Request for Disclaimer and Declaratory Order, Dismissing One Application in Whole and Another in Part, and Establishing Procedures

JANUARY 4, 1973.

On July 24, 1972, Transco Energy Co. (Energy) filed in Docket No. CP73-20 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a "substitute natural gas"[1] plant and the sale for resale of the plant output to Transcontinental Gas Pipe Line Corp. (Transco), its corporate parent.[2] The proposed synthetic gas plant would be located at Twin Oaks, Upper Chichester Township, Delaware County, Pa., and would gasify naphtha from unnamed domestic and foreign sources into approximately 250,000 Mcf of synthetic gas per day.

Also on July 24, 1972, Transcontinental Gas Pipe Line Corp. (Transco) filed in Docket No. CP73-21 an application pursuant to section 7(c) of the Natural Gas Act for authorization to construct, install, and operate a purchase meter station, approximately 1,650 feet of 30-inch pipeline, and a tap on its existing Marcus Hook-Woodbury loop facilities in Delaware County, Pa.[3] The proposed facilities are intended to connect Transco's existing facilities with Energy's synthetic gas plant, which is the subject of Energy's companion certificate application in Docket No. CP73-20. Transco further requests permission to include the cost of synthetic gas purchased from Energy within the operation of its purchased gas adjustment tariff which is the subject of the application filed in Docket No. RP73-3.

On November 2, 1972, Energy filed in Docket No. CP73-20 a request for disclaimer of jurisdiction over the facilities for which it had sought authorization in that docket, or, alternatively a temporary certificate of public convenience and necessity to construct them.[4] Energy in its request for disclaimer relies, inter alia, on the decision of the Presiding Examiner (now Administrative Law Judge) issued in the Algonquin SNG proceedings, cited above.

On September 1, 1972, Gulf Oil Corp. (Gulf) filed in Docket No. CI73-168 a petition requesting that the Commission issue a declaratory order stating that the sale of naphtha by Gulf to Energy for reformation into synthetic gas would not be subject to the Commission's jurisdiction.[5]

A notice of intervention in Dockets Nos. CP73-20 and CP73-21 was timely filed by the Public Service Commission for the State of New York (New York). In its notice, New York requests a formal hearing. Petitions to intervene in the same dockets have been timely filed, except where indicated by an asterisk, as follows:

[1] For reasons unknown Columbia LNG Corp. filed two late petitions to intervene in Docket No. CP73-20, one on Sept. 11, 1972, and one on Nov. 17, 1972.

[2] The companies who make up the Petrochemical Group are listed in its petition to intervene.

A formal hearing was requested by the Petrochemical Group, and by Philadelphia Gas Works.

A notice of intervention was timely filed in Docket No. CI73-168 by New York. Petitions to intervene were timely filed in that docket by Columbia LNG Corp., Long Island Lighting Co., Phillips Petroleum Co., and Southern Natural Gas Co.

The disposition of Energy's application in Docket No. CP73-20, of Energy's subsequent request for disclaimer in that docket and of Gulf's petition for declaratory order in Docket No. CP73-168 is controlled, we believe, by our Opinion No. 637, issued December 7, 1972, in the above-cited Algonquin SNG proceedings. In the Algonquin SNG case we adopted the Administrative Law Judge's holding that naphtha, its sale and transportation, is not subject to our jurisdiction. We similarly concluded that the synthetic gas to be produced at Algonquin SNG's proposed plant is not "natural gas" as a matter of law, and, accordingly, that the facilities to be employed in the manufacture and transportation of purely synthetic gas are not subject to our jurisdiction. As a consequence of our holdings in Algonquin SNG, we dismissed the application filed pursuant to section 7(c) of the Natural Gas Act requesting authorization to construct and operate the proposed synthetic gas manufacturing plant, pipelines and related facilities to carry synthetic gas, and to sell synthetic gas to Algonquin Gas Transmission Co. A similar result is required here. Accordingly, we hereby dismiss Energy's application, described above, in Docket No. CP72-20, grant Energy's request for disclaimer of jurisdiction in the same docket, and grant Gulf Oil Corp.'s petition for declaratory order filed in Docket No. CI73-168.

That portion of Transco's filing in Docket No. CP73-21 which requests authorization to construct and operate pipeline and related facilities for the transportation of synthetic gas must also be dismissed under the Algonquin SNG rationale. Transco's request that the cost of synthetic gas be included within the operation of its purchased gas adjustment tariff, on the other hand,

[1] We shall refer to the product of the proposed Energy plant as synthetic gas, in keeping with our Opinion No. 637, issued Dec. 7, 1972, in Algonquin SNG Inc. et al., Docket No. CP72-35 et al.

[2] Notice of the application was issued Aug. 4, 1972, and published in the FEDERAL REGISTER on Aug. 11, 1972 (37 FR 16238).

[3] Notice of the application was issued Aug. 4, 1972, and published in the FEDERAL REGISTER on Aug. 11, 1972, (37 FR 16238).

[4] Energy had maintained in its application in Docket No. CP73-20 that it would become a "natural gas company" upon receipt of the certification requested.

[5] Notice of Gulf petition was issued Sept. 25, 1972, and published in the FEDERAL REGISTER on Sept. 30, 1972 (37 FR 20595).

V38-8 JAN 12 73 XUM

is clearly a matter within the Commission's jurisdiction. As we stated in Algonquin SNG, a mixture of synthetic and natural gas is "natural gas" subject to Commission regulation. The rate treatment to be afforded such gas, and other matters related to its purchase, transportation, and sale for resale including public interest considerations under sections 4, 5, and 7 of the Act, thus raise issues appropriately addressed in evaluating the desirability of the project proposed.

We note in this connection that the Transco application does not seek authorization to purchase, transport, or sell the jurisdictional pipeline mixture. We shall, however, construe its application as seeking such authorization, and we require such amendment of the Transco application as may be necessary to furnish the basis for the hearing hereinafter provided for.

Owing to the relatively high price of the synthetic gas Transco would purchase, transport, and sell under the instant proposal, and in light of, inter alia, the existing natural gas shortage which dictates the need for conservation and careful allocation of gas, we consider it appropriate that Transco should present data explaining what part such gas will fill in serving the needs of Transco's customers. Accordingly, we shall by separate letter order require Transco and certain of its customers to submit detailed end-use data pertinent to the transportation and sale of its proposed synthetic and natural gas mixture. Upon satisfactory response to our letter order, we shall set the proceedings herein for formal hearing as requested by New York and petitioners whose intervention is hereby allowed.

We find it appropriate in the public interest that each of the petitions to intervene listed in the above-named dockets be granted. So that the rights and interests of those filing to intervene in Docket No. CP73-20, hereby dismissed, may be properly represented, we shall allow their intervention in Docket No. CP73-21 without the need for an additional filing.

The Commission finds:

(1) The transportation and sale of naphtha is not subject to Commission jurisdiction.

(2) The facilities proposed for the manufacture and transportation of unmixed synthetic gas are not subject to our jurisdiction.

(3) It is necessary and appropriate that end-use data as specified in a companion letter order to be issued herein should be submitted and evaluated in connection with these proceedings.

(4) It is desirable that the above-listed petitioners be allowed to intervene in the dockets in which they have filed, and that those filing in Docket No. CP73-20 be deemed intervenors in Docket No. CP73-21.

The Commission orders:

(A) The application of Transco Energy Co. in Docket No. CP73-20 is hereby dismissed.

(B) Transco Energy Co.'s request for disclaimer of jurisdiction in Docket No. CP73-20 is hereby granted.

(C) The Petition of Gulf Oil Co. for declaratory order in Docket No. CI73-168 is hereby granted.

(D) Each of the above-named petitioners and State commissions is permitted to intervene in the proceedings in which they filed, subject to the rules and regulations of the Commission. Petitioners filing to intervene in Docket No. CP73-20 are hereby deemed intervenors in Docket No. CP73-21: *Provided, however,* That the participation of all such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in the petitions to intervene: *And provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved by any order or orders entered in these proceedings.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[Docket No. E-7836]

WISCONSIN POWER & LIGHT CO.

Proposed Changes in Rates and Charges

JANUARY 5, 1973.

Take notice that Wisconsin Power & Light Co. (Company) on November 10, 1972, tendered for filing proposed changes in its FPC Rate Schedule No. 81, Supplement No. 1. The filing consists of a wholesale power contract dated October 9, 1972, between the city of Wisconsin Dells, Wis., and the Company which is intended to supersede, replace, and cancel the above rate schedule.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 12, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-677 Filed 1-11-73;8:45 am]

FEDERAL RESERVE SYSTEM

FIRST CITY BANCORPORATION OF TEXAS, INC.

Order Granting Conditional Approval of Acquisition of Banks

First City Bancorporation of Texas, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 3(a)(3) of the Act (12 USC 1842(a)(3)), to acquire the successors by acquisition of assets and assumption of liabilities to (1) Highland Village State Bank (Highland Village), Houston, and (2) First State Bank of Clear Lake City (Clear Lake), Clear Lake City, Tex. The successor banks to Highland Village and Clear Lake have no significance except as a means to facilitate the acquisition of voting shares of Highland Village and Clear Lake. Accordingly, the proposed acquisitions are treated herein as proposed acquisitions of the shares of Highland Village and Clear Lake.

Notice of the applications affording opportunity for interested persons to submit comments and views has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 10 banks with total deposits of approximately $1.6 billion, representing about 5.2 percent of deposits of commercial banks in Texas and is the third largest banking organization in the State.[1] Applicant also has interests in 15 other banks, ranging from 0.02 to 14.3 percent of voting shares. Acquisition of Highland Village (deposits of about $29 million) or Clear Lake (deposits of about $9 million), or both, would not result in a significant increase in the concentration of banking resources in Texas.

The Department of Justice filed comments with regard to the proposed acquisition of Highland Village and concluded that Applicant's acquisition of that bank would have a significantly adverse effect on competition in the Houston market. The Department takes the position that the Houston market is concentrated and that acquisition by Applicant, which is the largest banking organization in the market (on the basis of deposits), of Highland Village, which ranks as the 40th largest bank in the Houston market, would be anticompetitive. The Department further states that the present affiliation between Applicant and Highland Village is tenuous and

[1] All banking data are as of Dec. 31, 1971, and reflect bank holding company formations and acquisitions approved by the Board through Sept. 15, 1972.

there is a reasonable probability that the affiliation would be dissipated in the relatively near future. The Board has received no comment from the Department of Justice with respect to the application relative to Clear Lake.

Applicant asserts that Highland Village is closely tied to Applicant and that essentially the proposed acquisition is merely a corporate reorganization. Applicant further states that its lead bank, the largest in the Houston market, is a wholesale institution and does not compete with Highland Village which is a rather small retail bank located in one of the Houston suburbs. In addition Applicant contends that the Houston market is not a concentrated one, that concentration of resources there has decreased over the past 10 years, and is likely to continue in that direction.

Applicant presently controls approximately 19 percent of deposits in the Houston market and ranks as the largest banking organization there.[2] Clear Lake is a small bank and is located almost 22 miles from the City of Houston. Highland Village, although substantially larger than Clear Lake, is not a large bank by the standards of the Houston market, and its location, almost 6 miles from the downtown Houston area, is not particularly attractive for purposes of entry. In fact, neither Highland Village nor Clear Lake is an attractive point of entry into the Houston market for bank holding companies located outside of that market.

On the basis of the aforestated facts, the Board regards competitive considerations as consistent with approval of the applications. However, Applicant's present share ownership and influence with with respect to South Main and Heights Bank,[3] both located in Houston, Tex., present some adverse competitive considerations with respect to the applications herein. In the Board's judgment, common control over (1) Highland Village and Clear Lake, and (2) South Main and Heights banks, four banks located in the Houston market, would be anticompetitive. Although Applicant's ownership of voting shares in South Main is only 8.9 percent and, in Heights Bank only 0.5 percent, it is clear, from the record, that Applicant has more than a little influence over those banks; the existence of common stockholders and interlocking directors (between (a) Applicant's system and (b) South Main and Heights banks) add to Applicant's influence with respect to those banks. The Board has denied approval for the acquisition of additional shares in South Main and Heights State banks by Applicant (Order dated Jan. 4, 1973) because the Board concluded that an extension of Applicant's influence over those banks would be anticompetitive and not in the public interest. Consistent with those conclusions, the Board is of the view that Applicant's retention of its present influence over the South Main and Heights banks presents competitive considerations adverse to approval of Applicant's acquisition of the two Houston market banks subject of the applications herein. Accordingly, the Board proposes to approve the applications herein on condition that Applicant divest itself of direct or indirect control, or control through one or more other persons, of any and all voting shares, in excess of 5 percent of the voting shares, of (1) South Main Bank and (2) of Heights State Bank, such divestiture to be effected within 6 months after the effective date of this order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas.

The financial and managerial resources and prospects of Applicant, its subsidiaries, and of Clear Lake and of Highland Village are regarded as generally satisfactory, particularly in view of the commitment of Applicant to provide additional capital for its lead bank. These considerations are consistent with approval of the applications. The convenience and needs of the community to be served are also consistent with approval of the applications. The Board finds that the two proposed acquisitions are in the public interest, provided the Applicant effects the aforementioned divestitures, and should be approved on condition that such divestitures are effected within a 6-month period.

On the basis of the record, and for the reasons summarized above,[4] the applications are approved, on condition that Applicant divest itself on or before June 4, 1973, of direct or indirect control, or control through one or more persons, of any and all voting shares in excess of 5 percent of the (a) South Main Bank and (b) Heights State Bank. The acquisitions shall not be consummated (a) before February 3, 1973, nor (b) later than April 4, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority. The time allowed herein for divestiture may be extended for good cause by the Board or by the Federal Reserve Bank of Dallas.

By order of the Board of Governors,[5] effective January 4, 1973.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.73-586 Filed 1-11-73;8:45 am]

[2] The Houston banking market is approximated by the Houston Standard Metropolitan Statistical Area (SMSA), which includes Clear Lake City.

FIRST CITY BANCORPORATION OF TEXAS, INC.

Order Denying Approval for Acquisition of Banks

First City Bancorporation of Texas, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire the successors by acquisition of assets and assumption of liabilities to (1) South Main Bank (South Main) and (2) Heights State Bank (Heights Bank), both located in Houston, Tex. The successor banks to South Main and Heights Bank have no significance except as a means to facilitate the acquisition of voting shares of South Main and Heights Bank. Accordingly, the proposed acquisitions are treated herein as proposed acquisitions of the shares of South Main and of Heights Bank.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 10 banks with total deposits of approximately $1.6 billion, representing about 5.2 percent of deposits of commercial banks in Texas and is the third largest banking organization in the State.[1] Applicant also has interests in 15 other banks ranging from 0.02 to 14.3 percent of voting shares. Acquisition of South Main (deposits of about $72 million) and acquisition of Heights Bank (deposits of about $60 million) would result in no significant increase in the concentration of banking resources in Texas.

The Department of Justice filed comments on each of the proposed transactions and concluded that the acquisition by Applicant of either South Main or Heights Bank (or both) would have significantly adverse effects on competition in the Houston market. The Department takes the position that the Houston market is concentrated and that an acquisition by Applicant, which is the largest banking organization in the market on the basis of deposits, of either (or both) of the two additional banks, which rank respectively 14th and 17th in the Houston market, would be anticompetitive. The Department further states that the affiliation between Applicant and each of the

[1] All banking data are as of Dec. 31, 1971, and represent bank holding company formations and acquisitions approved by the Board through Sept. 15, 1972. Applicant's share of Texas and Houston area deposits does not include the deposits of Highland Village State Bank, Houston, Tex., and First State Bank of Clear Lake City, Clear Lake City, Tex., the acquisitions of which by Applicant have been conditionally approved by the Board as of this date.

V 38 I 8 JAN 12 73 XUM

two banks sought to be acquired is tenuous and that there is a reasonable probability that it would be dissipated in the relatively near future.

In reply to Justice's comments, Applicant asserts that the Houston market is not a concentrated one, particularly when compared to banking markets of comparable size. Applicant also urges that the level of concentration in Houston has decreased over the past 10 years and there is every indication of such a trend continuing into the future. Applicant further asserts that South Main and Heights Bank are strongly tied to Applicant and that the proposed acquisitions are a corporate reorganization rather than acquisitions of independent units. Applicant also states that its lead bank is a wholesale institution and does not compete with either South Main or Heights Bank which are oriented toward a different type of customer and business than is the lead bank.

Applicant presently controls about 19 percent of the deposits in the Houston market and ranks as the largest banking organization there.[2] Both South Main and Heights Bank are in or immediately adjacent to the downtown Houston area; South Main is only 1 mile south of Applicant's lead bank and Heights Bank is approximately 2.5 miles north and west of the lead bank of Applicant. On the basis of location and size, each of the two proposed acquisitions is an attractive entry vehicle for a holding company wishing to enter the Houston market.

The Board recognizes that the Houston banking market is an attractive one for entry, and deems it important that banks of the size and location of South Main and Heights Bank be available as entry points by outside banking organizations that would be able to provide meaningful competition to large banking organizations, such as Applicant. The Board also concludes that the addition of South Main's or Heights Bank's market shares to Applicant's would strengthen the market position of Applicant in Houston without providing any offsetting public benefits.

Applicant has strongly urged that the acquisitions of South Main and Heights Bank are not acquisitions of independent banks, but constitute rather the restructuring of existing corporate relationships. Applicant acquired a stock interest in Heights Bank about 12 years after it was organized and owns approximately 0.5 percent of the voting shares of Heights Bank. Applicant asserts that itself, its lead bank, and Heights Bank have many officers and directors in common. However, this common sharing of officers and directors appears to rest on shares held by a large number of individuals (rather than corporate entities) who have interests in both Applicant and Heights Bank. It appears that directors and officers of Applicant own approximately 15.3 percent of Heights Bank stock, and 146 shareholders who own 50 percent of Applicant's stock own approximately 55 percent of Heights Bank stock. Such individual holdings lack the permanence of a corporate holding and on the facts herein, a termination or diffusion would tend to lead to the end of the sharing of common officers and directors. This is particularly likely inasmuch as the number of individuals in the smallest "control group" postulated by Applicant apparently exceeds 15.

The same analysis can be made with regard to South Main. Applicant owns a larger share of the voting stock of South Main than of Heights Bank, but the total still is only 8.9 percent. Applicant did not acquire a stock interest in South Main until some 8 years after it was initially chartered. Again the fact that there are common officers and directors existing among Applicant, its lead bank, and South Main is not a compelling consideration in view of the fact that this control rests on shares owned by a large number of individuals associated with Applicant. It appears that 137 shareholders who own over 50 percent of Applicant's stock own 44 percent of South Main's stock. Many of these individuals have greatly disparate interests in Applicant and its lead bank on the one hand, and South Main on the other; i.e., a shareholder with a large equity interest in Applicant generally seems to have a small equity in South Main. As in Heights Bank, the number of individuals in the smallest "control group" apparently exceeds 15. It is not an unlikely prospect that common ownership will be diminished or terminated in the foreseeable future and that South Main may become a viable competitor in the market, independent of the influence of Applicant.

The Board concludes, therefore, that competitive considerations weigh against approval of the acquisition of either South Main or Heights Bank by Applicant.

The financial and managerial resources and prospects of Applicant and its subsidiaries are regarded as generally satisfactory, particularly in view of the commitment of Applicant to provide additional capital for its lead bank. The financial and managerial resources and prospects of South Main and Heights Banks are also regarded as generally satisfactory whether as subsidiaries of Applicant or as independent institutions. These considerations are consistent with approval of the applications, but lend no weight for approval. The convenience and needs of the community involved are also consistent with approval of the applications, but do not present considerations to outweigh adverse competitive effects which would arise from acquisition of South Main or Heights Bank by Applicant. The Board finds that neither of the proposed acquisitions is in the public interest and each should be denied.

On the basis of the record, the applications are denied for the reasons summarized above.[3]

By order of the Board of Governors,[4] effective January 4, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc. 73-587: Filed 1-11-73;8:45 am]

[2] The Houston banking market is approximated by the Houston Standard Metropolitan Statistical Area (SMSA).

[3] Dissenting statement by Governors Daane and Sheehan filed as part of the original document and available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Dallas.

RENEGOTIATION BOARD

EXCESSIVE PROFITS AND REFUNDS

Notice of Interest Rate

Notice is hereby given that, pursuant to section 105(b)(2) of the Renegotiation Act of 1951, as amended, the Secretary of the Treasury has determined that the rate of interest applicable, for the purposes of said section 105(b)(2) and section 108 of such act, to the period beginning on January 1, 1973, and ending on June 30, 1973, is 7⅛ percent per annum.

Dated: January 9, 1973.

RICHARD T. BURRESS,
Chairman.

[FR Doc.73-651 Filed 1-11-73;8:45 am]

SMALL BUSINESS ADMINISTRATION

MAXIMUM INTEREST RATES

Establishment

Notice is hereby given that the Small Business Administration has established as the maximum interest rate per annum that participating lending institutions may charge on guaranteed loans (except revolving line of credit) approved on or after January 1, 1973, pursuant to section 7(a) of the Small Business Act, as amended, section 402 of the Economic Opportunity Act of 1964, as amended, and section 502 of the Small Business Investment Act, as amended, the following interest rate: eight and three-quarters (8¾%) per centum per annum. On immediate participation loans approved on or after January 1, 1973, the maximum interest rate shall be seven and three-quarters (7¾%) per centum per annum. Said maximum interest rates shall remain in effect until further amendment or revision.

This notice implements the notification of maximum interest rates as provided in § 120.3(b)(2)(vi) of Part 120 (36 FR 21332).

Effective date: January 1, 1973.

THOMAS S. KLEPPE,
Administrator.

[FR Doc.73-691 Filed 1-11-73;8:45 am]

[License Application No. 05/05-5091]

GLENCO ENTERPRISES, INC.

Notice of Application for License as a Limited Small Business Investment Company

An application for a license to operate as a limited small business investment company under the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Glenco Enterprises, Inc. (applicant) with the Small Business Administration (SBA) pursuant to Section 107.102 of the SBA rules and regulations governing Small Business Investment Companies (13 CFR 107.102 (1972)).

The officers and directors of the applicant are as follows:

Edward L. Wilkerson, President, Director, 1464 East 105th Street, Cleveland, OH 44106.

Lewis F. Wright, Jr., Vice President, Director, 18502 Scottsdale Boulevard, Shaker Heights, OH 44122.

Griffin M. Allen, Secretary-Treasurer, Director, 1257 East 105th Street, Cleveland, OH 44108.

The applicant, an Ohio corporation, with its principal place of business located at 1257 East 105th Street, Cleveland, OH 44106, will begin operations with $150,000 of paid-in capital, consisting of 3,000 shares of common stock. All of the issued and outstanding stock will be owned by six stockholders, each owning 500 shares.

According to the company's stated investment policy its investments will be made solely in small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the applicant under that management, including adequate profitability and financial soundness in accordance with the Small Business Investment Act and the SBA rules and regulations.

Any person may, not later than January 29, 1973, submit written comments to SBA on the proposed licensee. Any such communication should be addressed to the Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

A copy of this notice shall be published in a newspaper of general circulation in Cleveland, Ohio.

Dated: January 3, 1973.

ANTHONY G. CHASE,
Deputy Administrator.

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

[Docket No. 73-1]

TRADE INFORMATION COMMITTEE

Notice of Public Hearing

Notice of public hearing requesting views regarding Trade Agreement between European Economic Community and the United Arab Republic effective January 1, 1973.

Notice is hereby given pursuant to § 2003.2 of the regulations of the Trade Information Committee of the Office of the Special Representative for Trade Negotiations (36 FR 23620, Dec. 11, 1971) that a public hearing will be held beginning at 10 a.m. on February 9, 1973, in Conference Room 730, 1800 G Street NW., Washington, DC, for the purpose of providing an opportunity to the public to present all facts and views pertaining to the effect on the United States of the arrangements provided in the Trade Agreement between the European Economic Community and the United Arab Republic effective January 1, 1973.

Interested parties are invited to express their views on this subject in person at the aforementioned public hearing provided they notify the Chairman of the Trade Information Committee, Office of the Special Representative for Trade Negotiations, 1800 G Street NW., Room 725, Washington, DC 20506, by January 26, 1973, of their desire to appear. Requests should be submitted in an original and fifteen copies which must be legibly typed, printed, or duplicated and must include the following information:

(a) The name, address, and telephone number of the party submitting the request;

(b) The name, address, telephone number, and official position of the person submitting the request on behalf of the party referred to in subparagraph (a);

(c) A brief indication of the interest of, and the position to be taken by, the party;

(d) The name, address, and telephone number of the person or persons who will present oral testimony; and

(e) The amount of time desired for the presentation of oral testimony.

Requests to present oral testimony should not contain any confidential information. Any requests marked "For Official Use Only" or similarly marked will not be accepted.

Each party will be notified if his request to appear has been granted. If not, the reasons for the denial shall be given. If so, he will be notified of the date on which he is scheduled to appear and the amount of time allotted for his presentation. (The Committee reserves the right to restrict the time allotted for presentation of oral testimony.) Each party desiring to present oral testimony will also be required to submit a written brief to the Chairman of the Trade Information Committee which must be received by February 2, 1973. The brief must include a statement in nonconfidential form of the position taken and supporting arguments. It must be submitted in not less than 20 copies which must be legibly typed, printed, or duplicated.

Interested parties not wishing to appear in person may also submit written briefs to the Chairman of the Trade Information Committee.

Parties are encouraged to support their briefs with all available information, including material that may be of a confidential nature. Reference should be had to § 2003.8 of the regulations of the Committee governing information exempt from public inspection. All written materials other than confidential information filed with the Committee in connection with the hearing will be open to public inspection by appointment, at Room 725, 1800 G Street NW., Washington, DC 20506.

Interested parties should note that pursuant to § 2003.4(d), a "written brief shall state clearly the position taken and shall describe with particularity the evidence supporting such position." Among the subjects which parties discuss in their briefs, it would be useful if at least the following were presented in detail:

(a) The exact nature of the foreign trade arrangements and actions which are to be examined, and the evidence supporting a description of these arrangements and actions;

(b) The effect upon the United States of the arrangements and actions described, and in particular, whether and to what extent U.S. industries, firms, or workers are harmed;

(c) A careful legal analysis of U.S. and foreign country international obligations relating to the arrangements and actions;

(d) Possible responses or actions of the United States to the arrangements or actions discussed in (a);

(e) The effect of such U.S. responses or actions not only on the United States but on foreign countries, including countries participating in arrangements and actions discussed in (a); and

(f) The responses or actions of the United States discussed in (d) which the interested party recommends or prefers.

JOHN JACKSON,
General Counsel, Acting Chairman, Trade Information Committee.

TARIFF COMMISSION

[AA1921-113]

MANUAL HOISTS FROM LUXEMBOURG

Notice of Investigation and Hearing

Having received advice from the Treasury Department of December 29, 1972, that manual hoists from Luxembourg are being, or are likely to be sold at less than fair value, the U.S. Tariff Commission has instituted an investigation under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Hearing. A public hearing in connection with the investigation will be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets NW., Washington, D.C., beginning at 10 a.m., e.s.t. on February 20, 1973. All parties will be given an opportunity to be present, to produce evidence, and to be heard at such hearing. Requests to appear at the public hearing should be received by the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., not later than noon, Thursday, February 15, 1973.

Issued: January 9, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

DEPARTMENT OF LABOR

Office of the Secretary

[Secretary's Order No. 39-72]

CONTROL OF DATA AND INFORMATION COLLECTED BY THE BUREAU OF LABOR STATISTICS

DECEMBER 29, 1972.

1. *Purpose.* To establish policy and procedures for the handling of data and information collected by the Bureau of Labor Statistics and employed or processed either by the Bureau, by or for some other Administration or Office within the Department, or by persons or agencies outside the Department in order to protect the confidentiality of information regarding specific firms or individuals. Among other things, this order is intended to centralize and clarify the authority and responsibility for application to such data and information of the provisions of 5 U.S.C. 552 and 29 CFR Part 70.

2. *Background.* The Bureau of Labor Statistics of the Department of Labor (referred to hereinafter as BLS) collects a large quantity of individual and establishment data in the course of its operations. A great deal of this data is provided voluntarily by individuals and establishments who would not themselves make it available to members of the public. This voluntary cooperation is facilitated by informants' understanding that information supplied by them will not be publicly disclosed or used in such a way as to constitute an unwarranted invasion of personal privacy, a serious financial disadvantage to such informant, or a disclosure of privileged or confidential trade secrets and commercial or financial information. The continuing availability of such information furnished voluntarily and accepted under a pledge of confidentiality is essential to the maintenance of BLS and various other departmental programs. In recent years there has been a growth in the number of Federal-State and intra and interdepartmental cooperative programs as well as an expanded use of contractors and of computer technology in information processing. Consequently, the application of the Department of Labor's policy on confidentiality needs to be clarified in the light of these changed circumstances.

3. *Policy.* It is the policy of the Department of Labor:

(a) That all data collected by BLS shall, at all times, be subject to the primary jurisdiction and control of the Commissioner of Labor Statistics in regard to any matter involving the public or intragovernmental disclosure of such data.

(b) That all employees of the Department shall be subject to rules promulgated by the Commissioner of Labor Statistics governing the disclosure of confidential data and information collected by BLS. (Commissioner's Administrative Order No. 6-2.)

(c) That no official or employee of the Department regardless of the subdivision he represents who, under rules promulgated by the Commissioner of Labor Statistics, has access to or knowledge of data collected by BLS, shall disclose any information from or pertaining to such data in such a way as to identify any individual respondent or other data source to any person except pursuant to the written approval of the Commissioner of Labor Statistics.

4. *Scope.* This policy applies to all administrations and offices of the Department of Labor and to all programs and projects including Federal-State cooperative programs sponsored or participated in by the Department in which BLS data is processed or employed.

5. *Definitions.* For the purposes of this Secretary's order:

(a) Data includes, but is not limited to, information provided by individuals subject to a pledge of confidentiality.

(b) Individual includes, but is not limited to, a person, household, corporation, or other business or public service enterprise.

6. *Assignment of responsibilities.* (a) The "Commissioner of Labor Statistics" is responsible for approving the confidentiality policies and procedures relating to the protection of BLS data in connection with any activities of non-BLS organizations within or outside the Department of Labor which provide collection or processing support services to BLS programs or are otherwise allowed access to such data. The Commissioner will certify that all relevant activities of such an organization meet the appropriate standards of confidentiality before any BLS data is entrusted to that organization for any purpose. In addition, he will have the responsibility pursuant to 29 CFR Part 70 for passing upon all requests for public disclosure of data collected by BLS whether the data requested is in the physical possession of that Bureau or not.

(b) The "Solicitor of Labor" is responsible for reviewing and approving the confidentiality policies and procedures promulgated by the Commissioner of Labor Statistics in the light of the Department's general disclosure regulations, 29 CFR Part 70, the Freedom of Information Act (5 U.S.C. 552) and any other pertinent provisions of law.

(c) The "heads of Administrations and Offices" of the Department of Labor are assigned the responsibility for promulgating, implementing, and insuring continued compliance with procedures and policies consistent with this Secretary's Order.

7. *Directives Affected.* Secretary's Order No. 25-72 is canceled by this order.

8. *Effective date.* This order is effective immediately.

Signed at Washington, D.C., this 29th day of December 1972.

J. D. HODGSON, *Secretary of Labor.*

INTERSTATE COMMERCE COMMISSION

[Notice 154]

ASSIGNMENT OF HEARINGS

JANUARY 9, 1973.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC-29392 Sub 18, Les Johnson Cartage Co., now assigned January 22, 1973 (1 week), at Chicago, Ill., is postponed to February 12, 1973, at the Holiday Inn, 644 North Lake Shore Drive, Chicago, IL.

MC 113362 Sub 249, Ellsworth Freight Lines, Inc., now being assigned hearing February 1, 1973 (2 days), at Omaha, Nebr., in a hearing room to be later designated.

No. 35655, Clougherty Packing Company v. Burlington Northern, Inc., et al., now assigned January 31, 1973, at Washington, D.C., postponed indefinitely.

RRA-No. MC 1289, Asacon Auto Transport, Inc., now assigned January 30, 1973, at Washington, D.C., postponed to February 26, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 134477 Sub 24, Schanno Transportation, Inc., now assigned February 5, 1973, at New York, N.Y., is canceled and application dismissed.

MC 136849 Sub 1, E & H Distributing Co., now assigned February 13, 1973, at Carson City, Nev., canceled and reassigned to February 13, 1973, at the auditorium of Atomic Energy Commission, 2753 South Highland, Las Vegas, NV.

MC-C-7166, Travel Center of Waterbury, Inc. v. Continental Trailways, Inc., et al., MC-C-7631, Travel Center of Waterbury, Inc. v. Eastern Ski Tours, Inc., et al., now assigned January 29, 1973, at New York, N.Y., will be held in Room B-2231, 26 Federal Plaza, New York, N.Y.

MC-F-11644, Maplewood Equipment Co.—Control & Merger—Inter-City Transportation Co., Inc., et al., FD 27179, Maplewood Equipment Co., now assigned January 31, 1973, at Newark, N.J., will be held at the Robert Treat Hotel, 50 Park Place.

MC 1367 Sub 5, Owl Transfer and Storage Co., Inc., now assigned February 5, 1973, at Seattle, Washington, will be held in Room 4054, Federal Office Building, 909 First Avenue.

MC 42894, Frank M. Herbert, Inc., now assigned January 15, 1973, at New York, N.Y., is cancelled and transferred to modified procedure.

MC 98701 Sub 3, Cleveland Express, Inc., now being assigned hearing April 2, 1973, at Knoxville, Tenn., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD, *Secretary.*

FOURTH SECTION APPLICATIONS FOR RELIEF

JANUARY 9, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with § 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before January 29, 1973.

FSA No. 42601—*Iron or Steel Articles to Harlingen, Tex.* Filed by Southwestern Freight Bureau, Agent (No. B-371), for interested rail carriers. Rates on iron or steel articles, in carloads, as described in the application, from points in eastern, southern, southwestern and western territories, to Harlingen, Tex.

Grounds for relief—Rate relationship.

Tariff—Supplement 355 to Southwestern Freight Bureau, Agent, tariff I.C.C. 4753. Rates are published to become effective on February 8, 1973.

FSA No. 42602—*Blacks from Points in Louisiana and Texas.* Filed by Southwestern Freight Bureau, Agent (No. B-374), for interested rail carriers. Rates on blacks (carbon gas or oil blacks) and blacks, chemical carbon, in carloads, as described in the application, from specified points in Louisiana and Texas, to Institute, W. Va.

Grounds for relief—Rate relationship.

Tariff—Supplement 44 to Southwestern Freight Bureau, Agent, tariff I.C.C. 4983. Rates are published to become effective on February 16, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73-714: Filed 1-11-73;8:45 am]

[Notice 191]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the applications. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before February 1, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74110. By order entered December 15, 1972, the Motor Carrier Board approved the transfer to Sallee Horse Vans, Inc., Lexington, Ky., of the operating rights set forth in Certificate No. MC-107933, issued March 8, 1966, to Murlogg Farm Van Co., Inc., Louisville, Ky., authorizing the transportation of livestock, other than ordinary, for breeding, racing, show, and other special purposes, and in the same vehicle with such livestock, personal effects of attendants, trainers, and exhibitors, and supplies and equipment used in the care and exhibition of such animals, between points in New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Alabama, Florida, Louisiana, Texas, Oklahoma, Nebraska, Kansas, Iowa, Missouri, Illinois, Indiana, Ohio, Kentucky, Michigan, Tennessee, and Arkansas. R. Bruce Lankford, 217 East Main Street, Georgetown, KY 40324, and Theodore Polydoroff, Suite 600, 1250 Connecticut Avenue NW., Washington, DC 20036, attorneys for applicants.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 1]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 9, 1973.

The following are notices of filing of applications* for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 9279 (Sub-No. 5 TA), filed December 27, 1972. Applicant: C. P. CRASKA, INC., 207 Cosby Manor Road, Utica, NY 13502. Applicant's representative: Murray Kishtein, 118 Bleecker Street, Utica, NY 13501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts, dairy products and meat packinghouse articles, from Syracuse, N.Y.*, to points in the Counties of Bradford, Cameron, Crawford, Elk, Erie, Forest, McKean, Potter, Tioga, Venango, and Warren in the State of Pennsylvania, *returned, refused, and rejected commodities of the same description in the reverse direction*, for 180 days. Supporting shipper: Claude Stewart, Traffic Manager, John Morrel & Co. (1400 North Weber Avenue), Sioux Falls, SD 57103. Send protests to: District Supervisor Morris H. Gross, Interstate Commerce Commission, Room 104 O'Donnell Building, 301 Erie Boulevard West, Syracuse, NY 13202.

*Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 38 - 8 JAN 12 73 XUM

No. MC 20546 (Sub-No. 17 TA), filed December 22, 1972. Applicant: C. MALONE TRUCKING, INC., Rear 154 Newton Street, Waltham, MA 02154. Applicant's representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Lumber* from Providence, R.I., to points in Maine, Massachusetts, Connecticut and Rhode Island, for 180 days. Supporting shippers: Shepard & Morse Lumber Co., 2001 Beacon Street, Brooklyne, MA 02146; Blanchard Lumber Co., Mill Pond Road, Walpole, Mass. 02081 and A. C. Dutton Lumber Corp., Providence R.I. Terminal, Poughkeepsie, N.Y. 12603. Send protests to: James F. Martin, Jr., Assistant Regional Director, Interstate Commerce Commission, Bureau of Operations, 150 Causeway Street, Boston, MA 02114.

No. MC 27754 (Sub-No. 17 TA), filed December 21, 1972. Applicant: FRANK J. KUBLY TRANSFER, INC., Post Office Box 135, Highway 11–81 East, Monroe, WI 53566. Applicant's representative: Rolfe E. Hanson, 121 West Doty Street, Madison, WI 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese*, from Hopkinton, Delaware County, Iowa, to Monroe, Wis., and return of *cheese factory supplies*, for 180 days. Supporting shipper: J. S. Hoffman Co., Division Anderson Clayton Foods, Post Office Box 295, 1301 18th Street, Monroe, WI 53566. Send protests to: Barney L. Hardin, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 139 West Wilson Street, Room 202, Madison, WI 53703.

No. MC 56679 (Sub-No. 71 TA), filed October 24, 1972. Applicant: BROWN TRANSPORT CORP., 125 Milton Avenue SE., Atlanta, GA 30315. Applicant's representative: B. K. McClain (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment because of size or weight), serving the terminal site of Harper Motor Lines, Inc., at the junction of U.S. Highway 29 and South Carolina Highway 8, near West Pelzer, S.C., as an off-route point in connection with applicant's present regular route operations between Elberton, Ga., and Greenville, S.C., under Docket MC–56679 Sub 61TA (permanent authority application pending in Docket MC 56679 Sub 63), for 180 days. NOTE: Applicant states that the requested authority can be joined with its present authority held in Docket MC 56679 and effective subs thereunder, in order to provide through service to, from, and between the above-named terminal site near West Pelzer, S.C., on the one hand, and, on the other, all of applicant's presently authorized service points, and for the purpose of interchanging with connecting carrier's at the above-named terminal site near West Pelzer, S.C. Supporting shipper: Brown Transport Corp., 125 Milton Avenue SE., Atlanta, GA 30315. Send protests to: William L. Scroggs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 309, 1252 West Peachtree Street NW., Atlanta, GA 30309.

No. MC 94350 (Sub-No. 1 TA), filed December 29, 1972. Applicant: TRANSIT HOMES, INC., Post Office Box 1628, Haywood Road at Transit Drive, Greenville, SC 29602. Applicant's representative: Mitchell King, Sr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles in initial shipments and *buildings*, in sections, mounted on wheeled undercarriages, from points of manufacture from North Windham, Maine, to points in New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, and Vermont, for 180 days. Supporting shipper: New England Heritage Homes, Inc., North Windham, Maine. Send protests to: E. E. Strotheid, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 300 Columbia Building, 1200 Main Street, Columbia, SC 29201.

No. MC 98964 (Sub-No. 11 TA), filed December 4, 1972. Applicant: PALMER BROTHERS, INCORPORATED, 960 North 1200 West, Post Office Box 37, Orem, UT 84057. Applicant's representative: William S. Richards, 900 Walker Bank Building, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (A) *General commodities* (except commodities in bulk, household goods as defined by the Commission, and commodities requiring special equipment and handling), (1) between Salt Lake City, Utah, and Fillmore, Utah, over U.S. Highway 91, serving all intermediate points between Levan and Fillmore, including Levan; (2) between Salt Lake City and Delta, Utah, serving points within the area of Delta extending 50 miles on the west, 32 miles on the north, 20 miles on the east, 13 miles on the south of Delta, as follows: (a) Between Salt Lake City and Santaquin over U.S. Highway 6; (b) between Salt Lake City and Holden over U.S. Highway 91, thence to Delta over Utah Highway 91, thence to Delta over Utah Highway 26; (c) between Salt Lake City and Nephi, over Highway 91, thence to Delta over Utah Highways 132 and 148, and return over the same route, serving all intermediate points and the off-route point of Jericho, Utah; (3) between Salt Lake City, Utah, and Silver City, Utah, over U.S. Highway 91 to Santaquin, Utah, and U.S. Highway 6 from Santaquin, Utah, to Silver City, Utah, and all intermediate points between Payson, Utah, and Silver City, Utah; (4) between Payson, Utah, and Santaquin, Utah, over U.S. Highway 91, serving all intermediate points; (5) between Santaquin, Utah, and Jericho, Utah, serving all intermediate points, over U.S. Highway 6, service to off-route points south of Payson, Utah; (6) between Delta, Utah, and the Utah-Nevada State line over U.S. Highway 6, serving all off-route points 25 miles on either side of said Highway 6; (7) between Salt Lake City, Utah, and Provo, Utah, over U.S. Highway 91, serving all intermediate points in Utah County;

(8) Between Salt Lake City, Utah, on the one hand, and points including and lying between (a) Fairview and Kanab; and (b) Mona and Pigeon Hollow Junction, on the other hand, over the following routes: (a) Between Salt Lake City and Spanish Fork over U.S. Highway 91; (b) between Springville and junction of U.S. Highways 50 and 6, about 4 miles east of Spanish Fork, over U.S. Highway 50; (c) between Spanish Fork and Thistle over U.S. Highway 6; (d) between Thistle and Utah-Arizona State line over U.S. Highway 89, and alternate U.S. Highway 89; (e) between Salina and, but not including Emery over Utah Highway 10; (f) between Spanish Fork and Nephi over U.S. Highway 91; (g) between Nephi and Pigeon Hollow Junction over Utah Highway 11; (h) between Moroni and Mount Pleasant over Utah Highway 116; (i) between Nephi and Gunnison over U.S. Highway 91 and Utah Highway 28, serving all intermediate points and all off-route points which are located in Sanpete County, and off-route points of Auroro, Sigurd, Venice, Glenwood, Annabella, Austin, and Monroe in Sevier County; and points between the junction of U.S. Highway 89 and Utah Highway 22, over Utah Highway 89 and Utah Highway 22, over Utah Highways 22 and 54 to and including Escalante and serving Ruby's Inn and all off-route points within 10 miles of U.S. Highway 89 in Kane County; (9) between Salt Lake City, Utah, and points intermediate between Salt Lake City and Sigurd, Utah, on the one hand, and points in Wayne County, Utah, on the other, over U.S. Highways 91 and 89 and Utah Highways 28, 24, and 117, serving the off-route points of Burriville, Koosharem, and Greenwich on Utah Highway 62 and Fish Lake on Utah Highway 25; and between Green River, Utah, and Hanksville, Utah, over Utah Highway 24; (10) between Richfield, Utah, and Sigurd, Utah, and all points in Wayne County, Utah, and between all points in Wayne County over U.S. Highway 89 and Utah Highways 28, 24, and 117; also serving the off-route points of Burriville, Koosharem, and Greenwich, on Utah Highway 62 and Fish Lake on Utah Highway 25; also serving between Green River, Utah, and Hanksville, Utah, over Utah Highway 24; also the right to use Utah Highways 50 and 24 as an alternate route in serving points in Wayne County, particularly Hanksville, in case of emergency only, such emergency, being an event which would make the use of Utah Highway 24 between U.S. Highway 89 and points to be served by applicant impassible.

Over irregular routes: Between points in Kane, Garfield, Sevier, Piute, Millard, and Juab Counties, Utah; *Provided, however*, That such service is restricted against transportation service to all points situated on U.S. Highway 91 or Interstate 15 in Millard County south of the town of Fillmore; (11) between Fredonia, Ariz., and Kanab, Utah, over U.S. Highway 89A; (12) between Kanab, Utah, and Page, Ariz., serving Page, Ariz., and a 25-mile radius of Page, Ariz., from Kanab, Utah, over U.S. Highway 89 to Page, Ariz., and return over the same route, serving all intermediate points and points within 25 miles of Page, Ariz. (B) Regular routes: *Coal*, from Salt Lake City, Utah, to Dugway, Utah, as follows: From Salt Lake City to Mills Junction, Tooele County, over U.S. Highway 40, from Mills Junction to the intersection of the road going to St. John and Utah Highway 36 over said Highway 36; thence to St. John, Utah, over Utah Highway 58; thence to Dugway, Utah, over Army access road, and return together with service from railroad at St. John and/or Stockton, Utah, to Dugway Proving Grounds, together with the alternate route from Salt Lake City to Timpie, Utah, over U.S. Highway 40, thence over unnumbered State Highway to Dugway, and return, with the right to serve the intermediate point of Timpie, Utah; and (C) *salt*, from the plants of Morton Salt Co., at Saltair, Utah, to points including lying between (a) Fairview and Marysdale and (b) Mona and Pigeon Hollow Junction, Utah, over U.S. Highway 40 between Saltair and Salt Lake City and thence over U.S. Highway 89. No local service shall under this certificate be rendered between Saltair or Salt Lake City, on the one hand and points north of Fairview and Mona on the other, for 180 days. NOTE: Applicant states that it does intend to interline with all existing carriers at Salt Lake City, Utah, and Page, Ariz., applicant is presently authorized in certificate of registration to transport general commodities between Salt Lake City, Utah, and points south to the Utah-Arizona line. This application includes request for the authority issued in the registered authority, MC–98964, plus additional authority request from the State line to Page and Fredonia, Ariz. Supported by: There are approximately 26 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Lyle D. Helfer, Bureau of Operations, Interstate Commerce Commission, 5239 Federal Building, 125 South State Street, Salt Lake City, UT 84111.

No. MC–103786 (Sub-No. 6 TA), filed December 7, 1972. Applicant: SCHJONEMAN TRUCKING, INC., Post Office Box 237, 703 South Main Street, Colby, WI 54421. Applicant's representative: Nancy J. Johnson, Suite 100, The Tregent Building, 4506 Regent Street, Madison, WI 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Winona, Minn., to points in Wisconsin except counties of Jackson, Clark, Wood, Marathon, Portage, Adams, Juneau, Monroe, and Vernon, Wis., for 150 days. Supporting shipper: American Oil Co., 500 North Michigan Avenue, Chicago, IL 60611. Send protests to: Barney L. Hardin, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 139 West Wilson Street, Room 202, Madison, WI 53703.

No. MC–107010 (Sub-No. 46 TA), filed December 21, 1972. Applicant: BULK CARRIERS, INC., Post Office Box 423, Auburn, NE 68305. Applicant's representative: Leonard A. Jaskiewicz, Suite 501, 1730 M Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer, fertilizer material, and ammonium nitrate*, in bulk, or in bags, from Farmland Industries, Inc., plantsite or warehouse at or near Hastings, Nebr., to points in Colorado, Kansas, South Dakota, and Wyoming, for 180 days. Supporting shipper: Robert E. Chipley, Farmland Industries, Inc., 3315 North Oak Trafficway, Kansas City, MO. Send protests to: Max H. Johnston, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 320 Federal Building and Courthouse, Lincoln, Nebr. 68508.

No. MC 111729 (Sub-No. 366 TA), filed December 18, 1972. Applicant: AMERICAN COURIER CORPORATION, 2 Nevada Drive, Lake Success, NY 11040. Applicant's representative: John M. Delany (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Business papers, records, audit and accounting media of all kinds*, between Madison, Wis., on the one hand, and, on the other, Gray, South Bend, and Terre Haute, Ind., Bloomington, Joliet, Springfield, Ill., Cincinnati, and Columbus, Ohio; and (2) *biological laboratory samples, blood specimens, serum specimens, and business papers, records, and accounting media* moving therewith, between Morristown, N.J., on the one hand, and, on the other, Boston, Mass., and Providence, R.I., for 90 days. Supporting shippers: Management Data Systems, 315 West Gorham Street, Madison, WI 53703; Diagnostic Sciences, Inc., 146 Speedwell Avenue, Morris Plains, NJ 07950. Send protests to: Anthony D. Giaimo, District Supervisor, Bureau of Operations, 26 Federal Plaza, New York, NY 10007.

TRANS UNITED, INC.

Extension of Additional Points

Order. At a session of the Interstate Commerce Commission, Review Board No. 3, held at its office in Washington, D.C., on the 17th day of November 1972.

Investigation of the matters and things involved in this proceeding having been made, and said review board, on the date hereof, having made and filed a report herein containing its findings of fact and conclusions thereon:[1]

It is ordered, That said application, except to the extent granted in said report, be, and it is hereby, denied.

And it is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 218, and 221(c) of the Interstate Commerce Act within 90 days after the date of service hereof, or within such additional time as may be authorized by the Commission, the grant of authority made in said report shall be considered as null and void and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Review Board No. 3.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

No. 8—Pt. II——1

V 38 - 8 JAN 12 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions, Modifications and Supersedeas Decisions

Area wage determination decisions. Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and Supersedeas Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494), as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule making procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

Set forth below in this document are the following: A new Area Wage Determination Decision number AP–602 for the States of Illinois, Indiana, Kentucky, Missouri, Ohio, and West Virginia.

Modifications to Area Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

Arizona	AP–223 (AP–258), Aug. 18, 1972.
Georgia	AP–106 (AP–149); AP–107 (AP–148), July 21, 1972.
Idaho	AM–6,711 (AP–257), March 24, 1972.

Supersedeas Decisions to Area Wage Determination Decisions for the following States (the numbers of the decisions being superseded and their dates of publication in the FEDERAL REGISTER are listed with each State; the Supersedeas Decision numbers are in parentheses following the numbers of the decisions being superseded):

Arkansas	AP–319, Aug. 25, 1972. AP–365, Dec. 8, 1972.
Idaho	AP–228, Aug. 25, 1972.
Kansas	AP–500, Aug. 11, 1972. AP–516; AP–517, Dec. 8, 1972.
Louisiana	AP–363, Dec. 1, 1972.
Massachusetts	AP–415, Sept. 1, 1972.
Missouri	AP–516; AP–517, Dec. 8, 1972.
Pennsylvania	AM–1,855; AM–1,858; AM–1,861; AM–1,866, Aug. 20, 1971. AP–423; AP–424, Sept. 29, 1972. AP–429; AP–430, Oct. 6, 1972.
Texas	AP–343; AP–344; AP–345, Sept. 29, 1972. AP–355, Nov. 3, 1972. AP–371, Dec. 22, 1972.

Signed at Washington, D.C., this 5th day of January 1973.

WARREN D. LANDIS,
Assistant Administrator,
Wage and Hour Division.

NEW DECISION

STATES: Illinois, Indiana, Kentucky, Missouri, Ohio, and West Virginia

DECISION NUMBER: AP-602

DATE: Date of Publication

DESCRIPTION OF WORK: Dredging on the Illinois River between Miles 0.0 and 80.0; the Ohio River between Miles 950.0 and 122.0; and the Upper Mississippi River between Miles 0.0 and 195.0.

	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	Apr. Tr.	Others

SUPERSEDEAS DECISION

STATE: Arizona
DECISION NO.: AP-258
COUNTY: Statewide
DATE: Date of Publication

Supersedes Decision No. AP-223, dated August 18, 1972, in 37 FR 16730.

DESCRIPTION OF WORK: Heavy and Highway Construction

*Establish a point 35 miles due north from the city hall of the City of Flagstaff and establish another point 35 miles due north from the city hall of the City of Kingman, then draw a straight line from the first point to the second point and extend that same line to the intersection of the Arizona-Nevada State Line. Establish a third point 35 miles due north of the city hall of the City of Holbrook and draw a straight line from the first point to the third point and from the third point extend a line due east to the intersection of the Arizona-New Mexico State Line.

REQUIREMENTS FOR PREPARATION, ADOPTION, AND SUBMITTAL OF IMPLEMENTATION PLANS

Proposed Transportation Control Measures

XUM

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 51]

TRANSPORTATION CONTROL MEASURES

Requirements for Preparation, Adoption, and Submittal of Implementation Plans

On August 14, 1971 (36 FR 15486), the Administrator of the Environmental Protection Agency promulgated as 42 CFR Part 420 regulations for the preparation, adoption, and submittal of State implementation plans under section 110 of the Clean Air Act, as amended (hereafter referred to as the Act). Those regulations were republished November 25, 1971 (36 FR 22369), as 40 CFR Part 51, amended December 17 and December 30, 1971.

On June 20, 1972 (37 FR 12155), the Administrator of the Environmental Protection Agency published notice of rule making that proposed amendments to 40 CFR Part 51 designed to provide a clearer explanation of requirements related to compliance schedules, revisions to compliance schedules and the requirements for public hearings. It is assumed that these proposed amendments will be promulgated as published for the purpose of the below proposed amendments to 40 CFR Part 51.

The Act and the Administrator's regulations (40 CFR Part 51) require States to take steps to reduce emissions from transportation sources where necessary to attain and maintain national ambient air quality standards. Accordingly, certain States were advised on May 31, 1972 (37 FR 10842), July 27, 1972 (37 FR 15080), and on October 28, 1972 (37 FR 23085), that they would have to submit, no later than February 15, 1973, definitive transportation control plans, including identification of the specific transportation control measures to be implemented, demonstration of the adequacy of these measures for attainment and maintenance of the national standards, and a detailed timetable for obtaining any necessary legal authority and for taking of all other steps necessary to implement the various measures. The Environmental Protection Agency, in cooperation with the Department of Transportation, will provide assistance to the States in the development of their transportation control plans.

The Requirements for Preparation, Adoption, and Submittal of Implementation Plans (40 CFR Part 51) set forth regulations to be followed by the States relative to implementation plans. Except as proposed to be changed herein, those regulations are to be followed in preparation of transportation control plans. In order to fully advise States in the area of transportation control measures, it is necessary to include additional information in the requirements. The principal additions proposed as amendments are described below:

(1) Public hearings for transportation control measures are required—§ 51.4(f).

(2) Administrative and enforcement procedures for transportation control measures must be described in the transportation control plan—§ 51.14(a)(3).

(3) Transportation or other emissions control measures shall not result in an increase in the concentration of any pollutant to a level exceeding a national standard—§ 51.14(c)(1).

(4) New emission factors have been published for light- and heavy-duty gasoline powered vehicles including growth rates, vehicle miles traveled, altitude, and deterioration factors—§ 51.14(f).

(5) Transportation control measures must include procedures for monitoring emissions from transportation sources—§ 51.19(d).

(6) Additional subsections and appendixes are added to cover the following:

(a) Documentation requirements for transportation control methodology and data—§ 51.14(c)(5) and Appendix M.

(b) Estimates of emissions reductions achieved by inspection, maintenance and retrofit of in-use vehicles—§ 51.14(h)(2) and Appendix N.

The Environmental Protection Agency will promulgate transportation control measures in States that do not meet the requirements of section 110 of the Act, as stated on May 31, 1972 (37 FR 10846), or that fail to comply with the timetables for acquisition of legal authority and taking of other steps (40 CFR 52.6). In the latter case, the plans promulgated by EPA may be different from the States' plans.

The Environmental Protection Agency has published the results of an investigation of certain transportation control measures in "Prediction of the Effects of Transportation Controls on Air Quality in Major Metropolitan Areas", final report (The Six Cities Study) November 20, 1972. Additional information is contained in "Evaluating Transportation Controls to Reduce Motor Vehicle Emissions in Major Metropolitan Areas, Final Report," November 20, 1972. Both reports are available from EPA, Air Pollution Technical Information Center, Research Triangle Park, N.C. These reports may be used by a State considering such control measures as motor vehicle restrictions, work schedule changes, expanded mass transit, increased vehicle occupancy, auto-free zones, parking taxes, traffic engineering measures to improve traffic flow and land use planning. The EPA document, "Control Strategies for In-Use Vehicles," November 1972, provides information on the use of inspection, maintenance, retrofit, and gaseous fuel conversion approaches to transportation controls. This report is available from the EPA, Mobile Source Pollution Control Program, 401 M Street SW., Washington, DC 20460.

States preparing transportation control plans are encouraged to consider the relative costs and social and economic impacts of alternative control strategies. As stipulated in § 51.2 of Requirements for Preparation, Adoption, and Submittal of Implementation Plans (40 CFR Part 51), nothing in these requirements shall be construed in any manner as discouraging the consideration of such factors, in addition to air quality effects, in the development of control strategies. States are urged to provide for timely and thorough public notification of the operations and requirements of proposed transportation control measures.

States preparing transportation control plans are also urged to give special consideration to §§ 51.12(a) and 51.14(c)(1) concerning the maintenance of the national ambient air quality standards and the offsetting of emissions increases due to growth in motor vehicle traffic and other factors. Consideration should be given to the possibility that certain improvements in transportation systems (e.g., traffic flow improvements, construction of fixed-guideway mass transit facilities) may stimulate gradual increases in motor vehicle traffic and, consequently, in emissions from transportation sources. Transportation control plans should include provisions as necessary to prevent such emissions increases from leading to pollutant concentrations that exceed the national ambient air quality standards.

Interested persons may participate in this rule making by submitting written comments in triplicate to the EPA, Land Use Planning Branch, Office of Air Quality Planning and Standards, Research Triangle Park, N.C. 27711. All relevant comments received not later than 30 days after the date of publication of this notice will be considered. Receipt of comments will be acknowledged, but substantive responses to individual comments will not be provided. Comments received will be available for public inspection during normal business hours at the Office of Public Affairs, 401 M Street SW., Washington, DC 20460. The changes proposed by this notice, with appropriate modification, will be effective upon republication in the FEDERAL REGISTER. This notice of proposed rule making is issued under the authority of section 301(a) of the Clean Air Act (42 U.S.C. 1857 et seq.).

Dated: January 5, 1973.

WILLIAM D. RUCKELSHAUS,
Administrator,
Environmental Protection Agency.

Part 51 of Title 40, Code of Federal Regulations is proposed to be amended as follows:

1. In § 51.1, new paragraphs (r), (s), (t), (u), (v), (w), and (x) are added as follows:

§ 51.1 Definitions.

• • • • • •

(r) "Transportation Control Measure" means any measure, such as reducing vehicle use, changing traffic flow patterns, or decreasing emissions from individual motor vehicles, that is directed toward reducing emissions of air pollutants from transportation sources.

(s) "Vehicle Trip" means any movement of a motor vehicle from one location to another that results in the emission of air pollutants by the motor vehicle.

(t) "Trip Type" means any class of vehicle trips possessing one or more characteristics (e.g., work, nonwork; peak, offpeak; freeway, nonfreeway) that distinguish vehicle trips in the class from vehicle trips not in the class.

(u) "Vehicle type" means any class of motor vehicles (e.g., precontrolled, heavy duty vehicles, gasoline powered trucks) whose emissions characteristics are significantly different from the emissions characteristics of motor vehicles not in the class.

(v) "Traffic flow measure" means any measure, such as signal light synchronization, freeway metering and curbside parking restrictions, that is taken for the purpose of improving the flow of traffic and thereby reducing emissions of air pollutants from motor vehicles.

(w) "Roadway type" means any class of roadway facility that can be broadly categorized as to function and assigned average speed and capacity values, e.g., expressway, arterial, collector, and local.

(x) "Time period" means any period of time designated by hour, month, season, calendar year, averaging time, or other suitable characteristics, for which ambient air quality is estimated.

2. In § 51.4, paragraph (f) is added as follows:

§ 51.4 Public hearings.

• • • • • •

(f) The State shall, prior to adoption of transportation control measures deferred beyond the statutory deadline for submittal of implementation plans, conduct one or more public hearings as required in paragraphs (a) through (d) of this section.

3. In § 51.5, paragraphs (d) and (e) are added as follows:

§ 51.5 Submission of plans; preliminary review of plans.

• • • • • •

(d) Submission to the Administrator shall be accomplished by delivering 10 copies of the transportation control portions of the plan to the appropriate regional office. Such portions shall be adopted by the State and submitted by the Governor.

(e) Upon request of a State, the Administrator will provide preliminary review of the draft transportation control measures or portions thereof in advance of the date such measures are due. Such requests shall be made as provided in paragraph (c) of this section and shall not operate to relieve a State of its responsibility for adopting and submitting transportation control measures in accordance with prescribed due dates.

4. In § 51.14, paragraph (a)(3) is added, paragraphs (c)(1) and (c)(5) are revised, and paragraphs (f), (g), and (h) are added. As amended, § 51.14 reads as follows:

§ 51.14 Control strategy: Carbon monoxide, hydrocarbons, photochemical oxidants, and nitrogen dioxide.

• • • • • •

(a) • • •

(3) The plan shall contain:

(i) A description of enforcement methods including, but not limited to, procedures for monitoring compliance with the selected traffic control measures, procedures for handling violations, and a designation of enforcement responsibilities (i.e., air pollution control agency, State police).

(ii) Proposed or adopted rules and regulations pertaining to the selected transportation control measures.

(iii) A description of administrative procedures to be used in implementing all selected transportation control measures.

(iv) A schedule designating dates by which legal authority necessary to implement the plan will be obtained, other significant steps in the implementation of the plan will be achieved, and each control measure will be implemented.

• • • • • •

(c) *Adequacy of control strategy* (1) The plan shall demonstrate, by means of a proportional model or diffusion/photochemical model or other procedure which is adequate and appropriate, that the control strategy included in each plan for a region classified as priority I is adequate for attainment and maintenance of the national standard(s) to which such control strategy applies. Control measures shall not result in an increase in the concentration of any pollutant to a level that exceeds a national ambient air quality standard. The plan shall include provisions as necessary to prevent such increases in concentrations as a result of traffic increases that may be stimulated by transportation control measures.

• • • • • •

(5) The plan shall show that the control strategy including transportation control measures will result in the degree of emissions reduction indicated to be necessary by a proportional model, diffusion model, or other procedure which is adequate and appropriate. The plan shall contain a summary of the computations, assumptions, and judgments used to determine the emissions reductions that will result from application of the control strategy to each point source, and each group of area sources. Such summary shall be included in a table similar to that presented in Appendix D to this part. The plan also shall contain a summary of the data, computations, assumptions, and judgments used to develop any transportation control measures that are a part of the control strategy. Such a summary shall as a minimum contain the material described in Appendix M to this part. The detailed computations and data shall be retained by the State and made available for inspection by the Administrator at his request.

• • • • • •

(f) *Motor vehicle emission factors.* The States required to submit transportation control plans must, except as noted below, use current emission factors and methodology to calculate emissions from gasoline powered motor vehicles. The current emission factors and methodology are presented in "Compilation of Air Pollutant Emission Factors," EPA report No. AP-42, revised semiannually, and in superseding EPA interim reports. These are available from the EPA, Office of Air Quality Planning and Standards, Research Triangle Park, N.C. 27711. If emissions other than those presented in the EPA report are used, the substantiating justification must be submitted with the transportation control measures.

(g) *Air quality baseline.* The concentrations of carbon monoxide and photochemical oxidants set forth in the State plan as approved and promulgated on May 31, 1972 (37 FR 10842) (40 CFR Part 52), should be used as the air quality baselines for computation of the emissions reductions through transportation control measures required to meet national standards. More recent air quality data may be used where adequate and appropriate. However, such data must be compatible with the emissions inventory for the region involved and justification submitted for the appropriateness of its use. Revised air quality data should be submitted to the appropriate EPA regional office at the earliest possible date for evaluation and approval to preclude plan disapproval resulting from the use of faulty air quality data.

(h) *Transportation control strategies.* Information and requirements for States which are considering transportation control measures involving inspection, maintenance and retrofit of in-use motor vehicles are presented in Appendix N to this part.

5. In § 51.19, paragraph (d) is added as follows:

§ 51.19 Source surveillance.

• • • • • •

(d) Procedures for obtaining and maintaining data on actual emissions reductions achieved as a result of implementing transportation control measures. In the case of measures involving inspection, maintenance, or retrofit, these data shall include the results of an emission surveillance program designed to determine actual average per vehicle emissions reductions attributable to inspection, maintenance and/or retrofit. In the case of measures based on traffic flow changes or reductions in vehicle use, the data shall include observed changes in vehicle miles traveled (VMT) and average speeds. The data shall be maintained in such a way as to facilitate comparison of the planned and actual efficacy of the transportation control measures.

6. In this part, Appendix M is added as follows:

APPENDIX M—TRANSPORTATION CONTROL SUPPORTING DATA SUMMARY

When transportation control measures of any type are to be imposed, the plans shall

V38-8 JAN 12 73 XUM

contain a summary of the data, computations, and rationale used to develop the transportation control measures that will result in the required reduction of emissions. Such a summary shall, as a minimum, contain the material described below. Suggested procedures for obtaining and coding information about air pollutant emissions from stationary and mobile sources have been published.[1] The detailed computations and data shall be retained by the State agency and made available for inspection by the Administrator at his request.

1. The transportation control plan shall display total emissions of hydrocarbons (HC), carbon monoxide (CO), and nitrogen oxides (NOx), subdivided into emissions from mobile and stationary sources, that will occur with and without implementation of the transportation control measures in each region or subregion and time period in which a proportional or other air quality model is used to determine air quality. These data shall be projected for at least 5 years in 1-year intervals starting with the year in which the national ambient air quality standards are to be achieved. The data shall be displayed in a format similar to table 1.

2. If the transportation control measures, either in their application or their effect, distinguish between trip types or vehicle types, the transportation control plan shall display vehicle miles traveled and emissions of HC, CO, and NO_x due to each trip type or vehicle type that will occur with and without implementation of the transportation control measures in each region or subregion and time period in which a proportional or other air quality model is used to determine air quality levels. A strategy that results in different percent emission reductions of HC, CO, or NOx for different trip or vehicle types should distinguish between trip or vehicle types in its effect. The data shall be displayed in a format similar to table 2.

3. If the transportation control measures include traffic flow measures, the transportation control plan shall display average speeds and vehicle miles traveled according to roadway type (freeway, arterial, local/collector) that will occur with and without implementation of the transportation control measures in each region or subregion and time period in which proportional or other air quality model is used to determine air quality levels. The plan shall also display emissions of HC, CO, and NO_x from mobile sources, subdivided according to roadway type, that will occur with and without implementation of the transportation control measures in each region or subregion and time period in which a proportional or other air quality model is used to determine air quality. The data shall be displayed in a format similar to table 2.

4. If the effectiveness of the transportation control measures depends in whole or in part on voluntary public response to changes in prices or taxes, mass transit improvements, or other incentives or disincentives affecting vehicle emissions, travel frequency, mode, location, time of day or other characteristics of travel demand, the transportation control plan shall display the demand elasticities or other appropriate quantitative measures of public response to such incentives or disincentives that were used to evaluate the effects on emissions of the incentives or disincentives. The sources of these elasticities or other quantitative measures shall be described.

5. The sources of all traffic data, such as vehicle miles traveled and speeds by trip type, vehicle type, and roadway type, used in evaluating the effects upon air quality of the transportation control measures shall be described in the transportation control plan.

6. The assumptions, judgments and computations used to develop the information in items 1 through 4 above shall be summarized in the transportation control plan.

A transportation control plan that fails to include any element of data required by this appendix will be acceptable only if the plan presents the data and analytic procedures used to estimate the effects on air quality of the selected transportation control measures and provides adequate justification for the use of such data and procedures.

TABLE 1

The data required by paragraph 1 above shall be displayed in a table similar to the following:

	Emissions*			
	Mobile		Stationary	
	With transportation control measures	Without transportation control measures	With transportation control measures	Without transportation control measures

* Indicate pollutant.

TABLE 2

The data required by paragraphs 2 and 3 above shall be displayed in a table similar to the following:

Subregion_____
Time period_____

Trip type and roadway type	Emissions[1] (or VMT or speeds)[2]				
	Vehicle type—1		Vehicle type—2		Continue with other vehicle types as appropriate
	With transportation control measures	Without transportation control measures	With transportation control measures	Without transportation control measures	
Work:					
Freeway					
Arterial					
Collector					
Local					
Shopping:					
Freeway					
Arterial					
Collector					
Local					

[1] Indicate pollutant.
[2] The table need contain only those entries appropriate to the transportation control measures included in the plan.
NOTE: Continue with other trip types as appropriate.

7. In this part, Appendix N is added as follows:

APPENDIX N—EMISSIONS REDUCTIONS ACHIEVABLE THROUGH INSPECTION, MAINTENANCE AND RETROFIT OF LIGHT DUTY VEHICLES

1. *General.* This appendix presents estimates of emissions reductions that, in the judgment of the Administrator, are likely to be achievable through application of inspection, maintenance, and retrofit measures to in-use motor vehicles. To the extent possible, these estimates are based on empirical data. However, lack of data in some areas has necessitated some extrapolation of empirical data using engineering judgment. The sources of empirical data and the bases for judgments are discussed in paragraph 6 of this appendix.

The emissions reductions estimates presented herein are subject to considerable uncertainty. The emissions reductions actually realized in a transportation control program may be greater or less than the estimated reductions. The estimates should therefore be regarded as useful primarily for current planning purposes. Any transportation control plan incorporating in-use vehicle emission control approaches, whether those specifically cited in this appendix or alternatives proposed by a State, must provide, as required by 40 CFR 51.19d, for field verification of the emissions actually achieved in the implemented programs and, as required by section 110(a)(2)(H) of the Act, for any revisions of the transportation control plan that may be indicated thereby.

The approaches to in-use vehicle emissions control cited herein are those judged to be most generally applicable by the Administrator considering the information currently available to him. States are encouraged to consider other approaches that may be applicable to their particular situations. Data and analyses supporting the emissions reductions claimed for alternative approaches must be submitted with the transportation control plan. Several alternative approaches are discussed in a report entitled "Control Strategies for In-use Vehicles," available from EPA, Mobile Sources Pollution Control Program, 401 M Street SW., Washington, DC 20460.

States proposing inspection/maintenance or retrofit programs are encouraged to consider the effects on the implementation of their plans of inequities that may arise in connection with these programs. Such inequities may include premature failure or inadequacy of retrofit components, improper or inadequate workmanship at inspection and repair facilities, inconvenient numbers, locations, and operating schedules for inspection, retrofit, and repair facilities, and inadequate public notice of inspection maintenance and retrofit requirements.

The States are also encouraged to give consideration to transportation control measures based on reductions in vehicle use and traffic flow measures. Nothing in this appendix is intended to suggest that transportation control approaches based on inspection, maintenance, and retrofit should necessarily be considered preferable to approaches based on reductions in vehicle use or traffic flow measures.

2. *Definitions.* a. "Precontrolled vehicles" means light duty vehicles sold nationally (except in California) prior to 1968 model year and light duty vehicles sold in California prior to the 1966 model year.

b. "Controlled vehicles" means light duty vehicles sold nationally (except in California) in the 1968 model year and later and light duty vehicles sold in California in the 1966 model year and later.

c. "Loaded emissions test" means a sampling procedure for exhaust emissions which requires exercising the engine under stress (i.e., "loading") by use of a dynamometer to stimulate actual driving conditions.

d. "Idle emission test" means a sampling procedure for exhaust emissions which requires operation of the engine in the idle mode only.

e. "Retrofit" means the addition or removal of an item of equipment, or a required adjustment, connection, or disconnection of an existing item of equipment, for the purpose of reducing emissions.

f. "Inspection/maintenance" means a program to reduce emissions from in-use vehicles through identifying vehicles that need emissions control related maintenance and requiring that maintenance be performed.

g. "Idle adjustments" means a series of adjustments which include idle RPM, idle air/fuel ratio and basic timing.

3. *Inspection/maintenance of light duty vehicles.* (a) Reductions:

The following average annual reductions in exhaust emissions per vehicle are estimated to be achievable through implementation of an inspection/maintenance program using a loaded emission test:

	Percent
Hydrocarbons	12
Carbon Monoxide	10
Nitrogen Oxides	0

To obtain these reductions an inspection/maintenance program must provide for inspection of each vehicle at least once per year. More frequent inspection and maintenance is expected to provide larger average emissions reductions, although at greater cost. During the first inspection cycle of an inspection/maintenance program, emissions reductions may be assumed only to the extent consistent with the portion of the vehicle population that has been inspected by that time.

b. The average reductions cited above are applicable for all gasoline-powered light duty motor vehicles (except motorcycles) which are included in the inspection/maintenance program.

c. Requirements:

An acceptable inspection/maintenance program must include:

(i) Provisions for regular periodic inspection of all vehicles for which emissions reductions are claimed.

(ii) Provisions for the establishment of inspection failure criteria consistent with the claimed reductions.

(iii) Provisions to ensure that failed vehicles receive the maintenance necessary to achieve compliance with the inspection standards. This might include sanctions against individual owners or repair facilities, retest of failed vehicles following maintenance, a certification program to insure that repair facilities performing the required maintenance have the necessary equipment, parts and knowledge to perform the tasks satisfactorily, and/or other measures.

(iv) A program of enforcement to insure that vehicles are not intentionally readjusted or modified subsequent to the inspection and/or maintenance in such a way as would cause them to no longer comply with the inspection standards. This might include spot checks of idle adjustments and/or a suitable type of physical tagging.

d. Alternative approaches:

Inspection/maintenance programs employing approaches other than emissions testing using a loaded emissions test may be capable of achieving emissions reductions for vehicles of certain model years. Idle emissions inspection, extensive engine parameter inspection, and mandatory maintenance procedures are discussed in the Environmental Protection Agency report "Control Strategies for In-Use Vehicles." Inspection/maintenance approaches other than those using a loaded emissions test, or emissions reductions greater than those cited in paragraph 3.a using a loaded emissions test, will be acceptable only if sufficient data are provided to justify the emissions reductions claimed.

4. *Retrofit of light duty vehicles*—(a) *Reductions.* The following reductions in exhaust emissions per vehicle are estimated to be achievable through installation of specific classes of retrofit devices on the specific model year classes of vehicles noted. Since retrofitted vehicles are expected to be subject to periodic inspection and maintenance (see Paragraph 4.2), the reductions cited are to be applied to a maintained vehicle emissions baseline. For example, if a 12 percent reduction in hydrocarbon emissions is claimed for inspection/maintenance, the reduction in hydrocarbon emissions due to a retrofit approach should be calculated after the vehicle's original emission rate for hydrocarbons has been reduced by 12 percent.

(i) Pre-controlled vehicles:

[In percent]

Retrofit option	Average reduction per vehicle		
	HC	CO	NO_x
Lean idle air/fuel ratio adjustment and vacuum spark advance disconnect	25	9	23
Oxidising catalytic converter and vacuum spark advance disconnect	68	63	48
Air bleed to intake manifold	21	58	0
Exhaust gas recirculation and vacuum spark advance disconnect	12	31	48

(ii) Controlled vehicles.

[In percent]

Retrofit option	Average reduction per vehicle		
	HC	CO	NO_x
Oxidizing catalytic converter	50	50	0
Exhaust gas recirculation	0	0	40
Oxidizing catalytic converter and exhaust gas recirculation	50	50	40

During the installation phase of a retrofit program, emissions reductions may be assumed only to the extent consistent with the portion of the vehicle population on which retrofit devices have been installed by that time.

(b) *Applicability.* The emissions reductions cited above for precontrolled vehicles are applicable to all gasoline-powered light duty motor vehicles (except motorcycles) sold nationally (except in California) prior to the 1968 model year or in California prior to the 1966 model year.

The emissions reductions cited above for installation of oxidizing catalytic converters on controlled vehicles are applicable to all gasoline-powered light duty motor vehicles (except motorcycles) sold nationally (except in California) in the 1968 through 1974 model years or in California in the 1966 through 1974 model years.

The emissions reductions cited above for installation of exhaust gas recirculation on controlled vehicles are applicable to all gasoline-powered light duty motor vehicles (except motorcycles) sold nationally (except in California) in the 1968 through 1972 model years or in California in the 1966 through 1971 model years.

(c) *Requirements.* An acceptable retrofit program must include:

(i) A method of ensuring that personnel installing the retrofits have the knowledge required to perform the needed tasks satisfactorily and have an adequate supply of retrofit components and that these components will be capable of achieving the claimed reductions.

(ii) Provisions for emissions testing at the time of retrofit installation or some other positive assurance that the retrofit device is installed and operating correctly.

(iii) Provisions for inspection of each retrofitted vehicle at least once per year.

(iv) Provisions for the establishment of inspection standards for retrofitted vehicles consistent with the emissions reductions claimed. Particular attention must be paid in this regard to catalytic converter retrofits as the reductions cited in paragraph 4.a do not include possible irreversible catalyst deterioration over time.

(v) Provisions to ensure that vehicles failing inspection receive the maintenance necessary to achieve compliance with the inspection standards.

(vi) In the case of retrofit programs that include the use of catalytic converters requiring unleaded fuel, provisions to ensure that vehicles utilizing this type of retrofit will not use leaded gasoline and that adequate supplies of lead-free gasoline will be available if Federal regulations will not insure availability, and provided that such provisions are not in violation of section 211(c)(4) of the Act.

(d) *Alternative approaches.* Retrofit programs employing approaches other than those cited above may be capable of achieving emissions reductions for vehicles of certain model years. For example, addition of vacuum spark advance disconnect to the air bleed to intake manifold approach may be feasible for precontrolled vehicles. Alternative retrofit approaches or retrofit emissions reductions

[1] Environmental Protection Agency, A Guide for Compiling a Comprehensive Emission Inventory, APTD–1135, June 1972. Available from Air Pollution Technical Information Center, EPA, Research Triangle Park, N.C. 27711.

V 38 - 8 JAN 12 73 XUM

greater than those cited in paragraph 4.a will be acceptable only if sufficient data and analyses are provided to justify the emissions reductions claimed.

5. *Inspection/maintenance or retrofit of vehicles other than light duty vehicles.* The inspection/maintenance and retrofit approaches discussed above may be applicable to certain classes of motor vehicles other than those cited. In particular, the States are encouraged to consider the application of such approaches to motor vehicles in the 6,000 to 10,000 lb. GVW class. In many cases, these vehicles are constructed and operated in a manner similar to light-duty vehicles. However, the present lack of test data for application of inspection/maintenance or retrofit approaches to vehicles of this type prevents the inclusion of data on achievable emissions reductions for such vehicles in this appendix. Transportation control strategies employing inspection/maintenance or retrofit of vehicles other than light-duty vehicles will be acceptable only if sufficient data and analyses are provided to justify the emissions reductions claimed.

6. *Bases for emissions reductions cited in paragraphs 3 and 4*—(a) *Inspection/maintenance.* The reductions cited in paragraph 3.a for inspection/maintenance using a loaded emissions test were derived from test data obtained by EPA in evaluating the initial emissions reductions achieved when a fleet of precontrolled and controlled light duty vehicles are subjected to a loaded emissions inspection test and the vehicles failing that test were serviced in private maintenance garages. The results of that study are presented in the EPA report, "Control Strategies for In-Use Vehicles." The observed average initial reductions were 25 percent (HC), 19 percent (CO), and 0 percent (NOx).

It is expected that in an actual inspection/maintenance program the average emissions reductions achieved will be substantially less than the initial reductions observed in the study, since there will be deterioration of emissions-related components and adjustments between periodic inspection and maintenance events. While the currently available data on such deterioration are inadequate to accurately predict the consequences of this effect, some correction for deterioration is necessary. Therefore, giving consideration to the current frequency of voluntary maintenance and the emissions reductions typically achieved by existing maintenance procedures, it has been assumed that linear deterioration to before-maintenance emissions levels will occur over the 12-month period following maintenance. As a result, the average effectiveness for annual inspection is estimated to be one-half of the initial effectiveness following maintenance.

Data on the effectiveness of inspection/maintenance programs in reducing emissions are available only for light duty vehicles through the 1971 model year. The effectiveness of inspection/maintenance programs in reducing emissions from future model year vehicles will depend primarily on the extent to which emissions from those vehicles increase in use as a result of repairable malfunctions and on the ability of the inspection test to accurately identify vehicles having such malfunctions. These factors can be evaluated only after substantial numbers of such vehicles have been in use for some time. However, for implementation planning purposes, it has been assumed that emissions reductions estimated to be achievable for current light duty vehicles will be applicable for future model years as well.

Available data indicate that initial emissions reductions attainable through inspection/maintenance programs using an idle mode emissions test, are comparable to those attainable when a loaded emission test is used. However, it is anticipated that, in practice, programs based on an idle mode test only, will be substantially less effective than these data suggest. This is because only limited maintenance (in contrast to the extensive maintenance performed in the loaded emissions tests) is generally required in achieve compliance with an idle emissions test. Such maintenance may not achieve improvements in true mass emissions under typical driving conditions. Furthermore, an idle mode test alone can often be satisfied with combinations of engine adjustments that accomplish little or no true emissions reductions in terms of emissions measured over a driving cycle representative of typical urban driving conditions (the Federal Certification Test Procedure). Quantitative estimates of the loss in emissions reduction effectiveness due to these effects are not presently available.

Inspection and maintenance programs using engine parameter inspection or mandatory maintenance approaches may also be effective for vehicles of certain model years. However, such approaches must be tailored to relate to the specific engine and emissions control systems of the vehicles to be inspected and/or maintained. Depending upon inspection and maintenance procedures and the number and choice of engine parameters included in the program, substantial variations in emissions reductions are to be expected.

Because of the above considerations, it has been concluded that generally applicable estimates of achievable emissions reductions can be derived from currently available data only for programs which use a loaded emissions test. States considering inspection and/or maintenance programs based on alternative approaches should take the factors mentioned above into account where estimating and justifying emissions reductions expected from such programs. More detailed discussion of these matters may be found in the EPA report "Control Strategies for In-Use Vehicles."

(b) *Retrofit*—(i) *Pre-controlled vehicles.* The reductions cited in paragraph 4.a for precontrolled vehicles are based upon test data obtained in evaluating the initial emissions reductions obtained when various types of retrofit emissions control systems were fitted to fleets of tuned precontrolled light duty vehicles. The results of these studies are presented in the EPA "Control Strategies for In-Use Vehicles." In each case, the mean emissions reductions observed have been adopted as being most representative of the initial emissions reductions which may be achieved in an actual retrofit program.

Only very limited data are currently available on the deterioration of emissions performance of retrofit vehicles. These data, which are discussed in the EPA report "Control Strategies for In-Use Vehicles," indicate the need for periodic inspection and maintenance of retrofitted vehicles if the attainment and maintenance of the retrofit emissions reductions cited in paragraph 4.a is to be assured. Based upon the available data and the requirements for inspection and maintenance of retrofitted vehicles at least once per year, and considering the nature of the emissions control techniques employed in each retrofit approach, it appears that the average annual emissions reductions per retrofitted vehicle can approach the observed mean initial reductions if suitable inspection and maintenance criteria are adopted. Accordingly, it has been assumed for planning purposes that the observed initial emissions reductions will not be affected by deterioration.

(ii) *Controlled vehicles.* Data which could serve as a basis for estimating emissions reductions achievable through retrofitting controlled light duty vehicles are quite limited. As a result, the emissions reductions cited for this class of vehicles in paragraph 4.a were developed by extrapolating the data for retrofitting precontrolled light-duty vehicles.

The techniques of lean idle air/fuel ratio adjustment, vacuum spark advance disconnect, and air bleed to intake manifold are not considered to be generally applicable to controlled vehicles. This is because these emissions control approaches are either incorporated into or may be inconsistent with emissions control techniques already applied to many controlled vehicles.

Exhaust gas recirculation (EGR) is considered generally applicable only to those vehicles not substantially controlled for nitrogen oxides emissions. Therefore, EGR as a retrofit approach is applicable in 1968 through 1972 models sold nationwide (outside of California), except for an insignificant number of 1972 vehicles already equipped with EGR. Incorporation of EGR into a significant number of 1972 models sold in California limits the general applicability of this retrofit approach to 1966 through 1971 controlled vehicles sold in California.

Oxidizing catalytic converters are considered to be potentially applicable as retrofits through the 1974 model year. Beyond the 1974 model year, the presently anticipated design of emissions control systems required to meet Federal new car emissions standards is considered to preclude retrofitting using currently available retrofit technology.

The following paragraphs describe the bases for the emissions reductions cited for retrofit of controlled vehicles.

Oxidizing catalytic converters. Test data indicate that catalytic converter retrofits to precontrolled vehicles can achieve emissions reductions of 68 percent (hydrocarbons), 63 percent (carbon monoxide), and 48 percent (nitrogen oxides) when combined with vacuum spark advance disconnect. Presently available data suggest that deterioration may not be significant with retrofit-type catalysts.

Experience to date with prototype 1975 emissions control systems suggests that retrofit catalytic converters are capable of achieving substantial reductions of hydrocarbon and carbon monoxide emissions from controlled light-duty vehicles. While studies of precontrolled vehicles have provided evidence that retrofit catalysts may also achieve some reduction of nitrogen oxides emissions, the extent of this reduction is too highly dependent on the air/fuel ratio in the catalyst to be extrapolated to controlled vehicles with reasonable certainty.

In experiments conducted to date, installation of retrofit catalysts on precontrolled vehicles has been accompanied by vacuum spark advance disconnect. In addition, a lean idle air/fuel ratio adjustment has normally been included in the installation procedures. As neither of the latter two modifications is generally applicable to controlled vehicles, it is prudent to anticipate that reductions of hydrocarbon and carbon monoxide emissions achieved by retrofit catalysts on controlled vehicles may be less than those observed with precontrolled vehicles.

The cited emissions reductions of 50 percent (hydrocarbons), 50 percent (carbon monoxide), and 0 percent (nitrogen oxides) are estimates consistent with the foregoing considerations and the results obtained with precontrolled vehicles.

Exhaust Gas Recirculation (EGR). Emissions reductions of 12 percent (hydrocarbons), 31 percent (carbon monoxide), and 48 percent (nitrogen oxides) have been observed as a result of retrofitting precontrolled

light duty vehicles with EGR accompanied by vacuum spark advance disconnect. Experience with 1973 emissions control systems for new cars suggests that EGR retrofits can achieve substantital reductions of nitrogen oxides emissions from controlled vehicles not already equipped with EGR or equivalent nitrogen oxides emissions control systems.

Much of the hydrocarbon control and some of the nitrogen oxides control observed with EGR retrofits to precontrolled vehicles is attributable to the vacuum spark advance disconnect. This is not generally applicable to controlled vehicles. In addition, the design features responsible for much of the carbon monoxide reduction observed with precontrolled vehicles are likely to be already incorporated into many controlled vehicles. It is therefore prudent to expect that EGR retrofits to controlled vehicles may achieve somewhat smaller reductions of nitrogen oxides emissions than have been observed with precontrolled vehicles and no reductions of hydrocarbon and carbon monoxide emissions.

The cited emissions reductions of 0 percent (hydrocarbons and carbon monoxide) and 40 percent (nitrogen oxides) are estimates consistent with the foregoing considerations and the results obtained with precontrolled vehicles.

EGR and oxidizing catalytic converter retrofit for controlled vehicles affect different pollutants and operate independently on different parts of the engine. Therefore, when the two retrofits are combined, the emissions reductions obtained from each can be considered additive.

PHASE III

No. 8—Pt. IV——1

V 38 - 8 JAN 12 73 XUM

Presidential Documents

Title 3—The President

EXECUTIVE ORDER 11695

Further Providing for the Stabilization of the Economy

On August 15, 1971, I issued Executive Order 11615 establishing a freeze on prices, rents, wages and salaries for a period of 90 days from the date of that order and establishing the Cost of Living Council as the agency with primary responsibility for administering the Economic Stabilization Program.

Subsequently, I issued Executive Order 11627 which continued the Cost of Living Council and established a Pay Board and a Price Commission. Under the terms of that order, the Cost of Living Council established broad stabilization goals for the Nation and the Pay Board and Price Commission, acting through their respective Chairmen, prescribed specific standards, criteria and regulations and made rulings and decisions aimed at carrying out goals of the Economic Stabilization Program.

On December 22, 1971, I signed into law amendments to the Economic Stabilization Act of 1970. To reflect changes made by these amendments and to reaffirm the existing delegation of authority to the Cost of Living Council, I substituted Executive Order 11640.

As the result of efforts under the Economic Stabilization Program, by public officials and private citizens alike, the rate of inflation has been significantly reduced. However, in furtherance of the goals and for the reasons set forth in my message to the Congress of this date, I have determined that to continue to stabilize the economy, reduce inflation, minimize unemployment, improve the Nation's competitive position in world trade, and protect the purchasing power of the dollar, all in the context of sound fiscal management and effective monetary policies, the Economic Stabilization Program should be continued, building upon the solid foundation of achievement accomplished in the past and redirecting our efforts to respond to the needs of the current year.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes of the United States, particularly the Economic Stabilization Act of 1970, as amended, it is hereby ordered as follows:

SECTION 1. (a) The Cost of Living Council (hereinafter referred to as the "Council"), established by section 2 of the Executive Order 11615 of August 15, 1971, is hereby continued.

(b) The Council shall be composed of the following members: The Secretary of the Treasury, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Labor, the Secretary of Health, Education, and Welfare, the Secretary of Housing and Urban Development, the Director of the Office of Management and Budget, the Chairman of the

V 38 - 8 JAN 12 73 XUM

Council of Economic Advisers, the Director of the Office of Emergency Preparedness, the Special Assistant to the President for Consumer Affairs and such others as the President may, from time to time, designate. The Secretary of the Treasury shall serve as Chairman of the Council and the Chairman of the Council of Economic Advisers shall serve as Vice Chairman. The Chairman of the Board of Governors of the Federal Reserve System shall serve as adviser to the Council.

(c) There shall be a Director of the Cost of Living Council who shall be appointed by the President, be a member of the Council, be a full-time official of the United States, be the Council's Chief Executive Officer, and be compensated at the rate prescribed for Level III of the Executive Schedule by section 5314 of Title 5 of the United States Code.

SEC. 2. (a) Except as otherwise provided in subsection (b) of this section, all the powers and duties conferred upon the President by the Economic Stabilization Act of 1970, as amended, are hereby delegated to the Chairman of the Council, including, without limitation, the power and duty to make the determinations and take the actions required or permitted by the act.

(b) The authority conferred by or pursuant to this order shall not extend to the prices charged for raw agricultural products until after the first sale thereof.

(c) The Council shall develop and recommend to the President policies, mechanisms and procedures to achieve and maintain stability of prices and costs in a growing economy. To this end it shall consult with representatives of agriculture, industry, labor, State and local governments, consumers and the public, including the National Commission on Productivity.

(d) In all of its actions the Council shall be guided by the need to maintain consistency of price and wage policies with fiscal, monetary, international, and other economic policies of the United States.

(e) The Council shall inform the public, agriculture, industry, and labor concerning the need for controlling inflation and shall encourage and promote voluntary action to that end.

SEC. 3. (a) All orders, regulations, circulars, rulings, notices or other directives issued and all other actions taken by any agency pursuant to Executive Order 11588, as amended, Executive Order 11615, as amended, Executive Order 11627, as amended, and Executive Order 11640, as amended, and in effect on the date of this order are hereby confirmed and ratified, and shall remain in full force and effect as if issued under this order, unless or until altered, amended, or revoked by the Chairman or by such competent authority as the Chairman may specify, and shall be administered by the Chairman or by such competent authority as the Chairman may specify.

(b) The Chairman shall take such steps as are necessary to make appropriate disposition of actions in process under the Economic Stabilization Program and to effect an orderly transfer of stabilization functions pursuant to this order.

(c) This order shall not operate to defeat any suit, action, prosecution, or administrative proceeding, whether heretofore or hereafter commenced, with respect to any right possessed, liability incurred, or offense committed prior to this date.

(d) Renegotiation provisions in price, rent, wage or salary contracts which are dependent for their operation on modification or termination of the Economic Stabilization Program are hereby declared inoperative as unreasonably inconsistent with the goals of the Economic Stabilization Program. Except to the extent permitted pursuant to the provisions of section 4(a), this order shall not operate to permit:

(i) A retroactive increase in prices, rents, wages or salaries for goods or services sold or leased or work performed while the prices, rents, wages or salaries were subject to the rules of the Price Commission or the Pay Board, or

(ii) A prospective increase in prices, rents, wages or salaries under the terms of a contract subject to a Price Commission or Pay Board decision and order, except to the extent consistent with such decision and order.

SEC. 4. (a) The Chairman, in carrying out the provisions of this order, may continue to (i) prescribe definitions for any terms used herein, (ii) make exceptions or grant exemptions, (iii) issue regulations and orders, (iv) provide for the establishment of committees and other comparable groups, and (v) take such other actions as he determines to be necessary or appropriate to carry out the purposes of this order.

(b) The Chairman may redelegate to any agency, instrumentality, or official of the United States any authority under this order, and may, in administering this order, utilize the services of any other agency, Federal or State, as may be available or appropriate.

(c) On request of the Chairman, each executive department or agency is authorized and directed, consistent with law, to furnish the Council with any available information which the Council may require in the performance of its functions, and shall provide such other assistance in carrying out the provisions of this order as is permitted by law.

SEC. 5. (a) The Construction Industry Stabilization Committee (hereinafter referred to as the CISC) established by section 2 of Executive Order 11588 of March 29, 1971, is hereby continued and shall continue to act as an agency of the United States. The CISC shall perform such functions with respect to the stabilization of wages and salaries in the construction industry as the Chairman of the Council may delegate to it.

(b) The CISC shall be composed of twelve members. The CISC shall include four members representative of labor organizations in the construction industry, four members representative of employers in the construction industry, and four members representative of the public. The CISC shall conduct its proceedings in such manner as will be conducive to the proper dispatch of its business and to the ends of justice.

(c) The craft dispute boards (hereinafter referred to as "boards") established by associations of contractors and national and international

V 38 - 8 JAN 12 73 XUM

unions under section 2 of Executive Order 11588 are hereby continued. Each board shall be composed of appropriate labor and management representatives. The boards shall perform such functions with respect to the stabilization of wages and salaries in the construction industry as the Chairman of the Council may prescribe.

(d) Upon a determination by a board or the CISC that a proposed wage or salary increase is not acceptable and certification of that determination by the Chairman of the Cost of Living Council the following actions shall be taken.

(i) In implementing the provisions of the Davis-Bacon Act of March 3, 1931 (46 Stat. 1494, as amended) and related statutes the provisions of which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act, and including State statutes or laws requiring similar wage standards, the Secretary of Labor and all States shall not take into consideration any wage or salary increases in excess of that found to be acceptable in making determinations under that act and related statutes.

(ii) In order to assure that unacceptable wage rates shall not be utilized in Federal or federally-related construction, the heads of all Federal departments and agencies, subject to the direction and coordination of the Chairman of the Cost of Living Council:

(1) shall review all plans for construction and financial assistance for construction in localities in which wage or salary increases have been certified by the Chairman of the Cost of Living Council to be unacceptable and shall, on the basis of that review, determine whether such plans can be approved or continued; and

(2) shall review current and prospective construction contracts for Federal construction and for construction on projects receiving Federal financial assistance in the area affected by a certification by the Chairman of the Cost of Living Council and shall, on the basis of such review, determine whether such contracts can be awarded or continued.

SEC. 6. (a) There is hereby established the Cost of Living Council Committee on Health to be composed of the Director of the Council, who shall be its Chairman, the Vice Chairman of the Council, the Secretary of the Treasury, the Secretary of Health, Education, and Welfare, the Director of the Office of Management and Budget, and such others as the President may, from time to time, designate. The Committee shall review Government activities significantly influencing health care expenses and make recommendations to the Chairman of the Council concerning these matters.

(b) There is hereby established a Health Industry Advisory Committee. This Committee shall be composed of such members as the President may, from time to time, appoint. The President shall designate the Chairman of the Committee. The Committee shall provide advice to the Council on the operation of the Economic Stabilization Program in the health industry and other matters related to health care expenses.

SEC. 7. (a) There is hereby established the Cost of Living Council Committee on Food which shall be composed of the Chairman of the

Council, who shall be its Chairman, the Vice Chairman of the Council, the Director of the Council, the Secretary of Agriculture, the Director of the Office of Management and Budget and such others as the President may, from time to time, designate. The Committee shall review Government activities significantly affecting food costs and prices and make recommendations to the Chairman of the Council concerning these matters.

(b) There is hereby established a Food Industry Advisory Committee. This Committee shall be composed of such members as the President may, from time to time, appoint. The President shall designate the Chairman of the Committee. The Committee shall provide advice to the Council on the operation of the Economic Stabilization Program in the food industry and other matters related to food costs and prices.

SEC. 8. There is hereby established a Labor-Management Advisory Committee. This Committee shall be composed of such members as the President may, from time to time, appoint. The Committee shall provide advice to the Chairman of the Council on methods for improving the collective bargaining process and for assuring wage and salary settlements consistent with gains in productivity and the goal of stemming the rate of inflation.

SEC. 9. The Committee on Interest and Dividends established by section 9 of Executive Order 11627 is hereby continued. The Committee shall be composed of the Chairman of the Board of Governors of the Federal Reserve System, the Secretary of the Treasury, the Secretary of Commerce, the Secretary of Housing and Urban Development, the Chairman of the Federal Deposit Insurance Corporation, the Chairman of the Federal Home Loan Bank Board, and such others as the President may, from time to time, designate. The Chairman of the Board of Governors of the Federal Reserve System shall serve as Chairman of the Committee. This Committee shall, subject to review by the Council, formulate and execute a program for obtaining voluntary restraints on interest rates and dividends.

SEC. 10. (a) The Pay Board and Price Commission established by sections 7 and 8 of Executive Order 11627 are hereby abolished effective not more than 90 days from the date of this order or such earlier date as the Chairman of the Cost of Living Council may designate. The Board and the Commission during this transition period shall provide for winding up any outstanding matter involving them subject to the direction of the Chairman of the Council.

(b) The Committee on the Health Services Industry established by section 10 of Executive Order 11627 is hereby abolished.

(c) The Committee on State and Local Government Cooperation established by section 11 of Executive Order 11627 is hereby abolished.

(d) The Rent Advisory Board established by section 11A of Executive Order 11627, as amended, is hereby abolished.

V 38 - 8 JAN 12 73 XUM

(e) The Chairman of the Council shall make appropriate provision for the disposition of the records, property, personnel, and funds relating to the agencies and committees abolished by this section.

(f) In order that the confidential status of any records affected by this order shall be fully protected and maintained, the use of any confidential records transferred pursuant to this section shall be so restricted by the Chairman of the Council as to prevent the disclosure of information concerning individual persons or firms to persons who are not engaged in functions or activities to which such records are directly related, except as provided for by law or as required in the final disposition thereof pursuant to law.

SEC. 11. (a) Whoever willfully violates this order or any order or regulation continued or issued under authority of this order shall be subject to a fine of not more than $5,000 for each such violation. Whoever violates this order or any order or regulation continued or issued under authority of this order shall be subject to a civil penalty of not more than $2,500 for each such violation.

(b) The Chairman of the Council may in his discretion request the Department of Justice to bring actions for injunctions authorized under section 209 of the Economic Stabilization Act of 1970, as amended, whenever it appears to him that any person has engaged, is engaged, or is about to engage in any acts or practices constituting a violation of any regulation or order continued or issued pursuant to this order. The relief sought may include a mandatory injunction commanding any person to comply with any such order or regulation and restitution of monies received in violation of any such order or regulation.

(c) The Chairman of the Cost of Living Council, or his duly authorized agent, shall have authority for any purpose related to the Economic Stabilization Act of 1970, as amended, to sign and issue subpoenas for the attendance and testimony of witnesses and the production of relevant books, papers, and other documents, and to administer oaths, all in accordance with the provisions of section 206 of the Economic Stabilization Act of 1970, as amended.

SEC. 12. Executive Order 11588 of March 29, 1971, Executive Order 11640 of January 26, 1972, Executive Order 11660 of March 25, 1972, and Executive Order 11674 of June 29, 1972, are hereby superseded.

Richard Nixon

THE WHITE HOUSE,
January 11, 1973.

[FR Doc.73-874 Filed 1-11-73;12:16 pm]

Title 6—ECONOMIC STABILIZATION

Chapter I—Cost of Living Council

PART 130—COST OF LIVING COUNCIL PHASE III REGULATIONS

Part 130 is added to Title 6, chapter I, Code of Federal Regulations. This part sets forth the Cost of Living Council Phase III Regulations in accordance with the policies and principles established in the Economic Stabilization Act and Executive Order No. 11695. These regulations supersede the provisions of Part 101 of Chapter I, Chapter II (Pay Board Regulations) and Chapter III (Price Commission Regulations) of Title 6, Code of Federal Regulations except as provided with respect to the food industry, health industry, and construction industry. However, the provisions of Chapters II and III serve as a guide in applying the general price and pay standards set forth in subpart B of this part.

As a result of the Economic Stabilization program and public cooperation with its policies, the rate of inflation has been significantly reduced. As explained in the President's message to Congress, the White House fact sheet on phase III, which are attached as an appendix to these regulations, and Executive Order No. 11695, it is necessary to continue the Economic Stabilization Program in this changed form. There is a continued need to stabilize the economy, reduce inflation, minimize unemployment, improve the Nation's competitive position in world trade, protect the purchasing power of the dollar, all within the context of sound fiscal management and effective monetary policies. The Economic Stabilization Program should be continued, building upon the solid foundation of achievement accomplished in the past and redirecting its efforts to respond to the needs of the current year.

Because the immediate implementation of Executive Order No. 11695 is required, and because the purpose of these regulations is to provide immediate guidance as to Cost of Living Council decisions, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making these regulations effective in less than 30 days. Interested persons may submit comments regarding these regulations. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Washington, D.C. 20507.

These regulations are effective as of January 11, 1973.

DONALD RUMSFELD,
Director, Cost of Living Council.

Subpart A—General

Sec.
130.1 Scope.

Subpart B—Goals; General Standards for Prices, Wages, and Salaries

130.10 Goals.
130.11 Standards.
130.12 General wage and salary standard.
130.13 General price standard.

Subpart C—Reporting and Recordkeeping

130.20 Scope.
130.21 Price reporting firms; reporting requirements.
130.22 Price recordkeeping firms; recordkeeping requirements.
130.23 Pay adjustments to be reported; reporting requirements.
130.24 Pay adjustments subject to recordkeeping; recordingkeeping requirements.

Subpart D—Exemptions—Items Not Included in Coverage

130.30 General.
130.31 Agricultural products, seafood products, and raw sugar price adjustments.
130.32 Real estate and insurance premiums.
130.33 Certain price adjustments.
130.34 Certain pay adjustments.
130.35 Miscellaneous.

Subpart E—Small Business Exemption

130.40 Exemption of firms with 60 or fewer employees.

Subpart F—Special Rules Applicable to the Food Industry

130.51 Scope.

Subpart A—General

§ 130.1 Scope.

(a) This part supersedes the provisions of Part 101 and Chapters II (Pay Board Regulations) and III (Price Commission Regulations) of this title, except insofar as hereinafter provided with respect to the food industry, the health industry, and the construction industry. However, the provisions of Chapters II and III of this title serve as a guide in applying the general price and pay standards set forth in subpart B of this part.

(b) Reports due under prior rules: Any report required to be filed with the Pay Board or the Price Commission under the provisions of Chapter II or III or any rule, order or regulation of the Pay Board or Price Commission in effect on January 10, 1973 for any reporting period which ended on or before that date and which was not filed by that date, shall be filed with the Council in the form and within the time in which it would have been filed with the Pay Board or the Price Commission.

(c) Renegotiation provisions in price, rent, wage, or salary contracts which depend for their operation upon the modification or termination of the Economic Stabilization Program are hereby declared inoperative as unreasonably inconsistent with the goals of the Economic Stabilization Program. This part shall not operate to permit:

(i) A retroactive increase in prices, rents, wages or salaries for goods or services sold or leased or work performed while the prices, rents, wages, or salaries were subject to the rules of the Price Commission or the Pay Board, or

(ii) A prospective increase in prices, rents, wages, or salaries under the terms of a contract subject to a Price Commission or Pay Board decision and order, except to the extent consistent with such decision and order.

Subpart B—Goals; General Standards for Prices, Wages and Salaries

§ 130.10 Goals.

The goals of the Economic Stabilization Program are to reduce the rate of inflation further in 1973 and to establish general confidence in reasonable stability of prices beyond 1973. Reduction in the rate of inflation to 2½ percent or below by the end of 1973 is proposed as a guide to both Government

V38-8 JAN 12 73 XUM

policies and private behavior. The Economic Stabilization Program is designed to encourage private behavior that is consistent with those goals.

§ 130.11 Standards.

This subpart establishes standards for private behavior which are intended to be applied voluntarily and on a self-administered basis and which are consistent with achieving the national goals of the Economic Stabilization Program. The standards do not apply to price adjustments in the food industry or in the health services industry, to rate increases by public utilities, or to pay adjustments affecting employees of firms in the food industry, the health services industry, or the construction industry.

§ 130.12 General wage and salary standard.

The general wage and salary standard is a 5.5 percent increase per annum. The standard shall apply to any pay adjustment payable with respect to an appropriate employee unit after January 10, 1973. Adjustments in excess of the standard may be made only as necessary to reflect qualified fringe benefits or to prevent gross inequities, serious market disruptions, or localized shortages of labor. The policies and principles, including the computation methods, contained in the Pay Board's regulations in effect on January 10, 1973, can be used in applying the standard. No wage or salary increase should be placed into effect which is unreasonably inconsistent with the standard or the goals of the Economic Stabilization Program.

§ 130.13 General price standard.

The general standard for price adjustments is that a person may increase prices above those authorized or lawfully in effect on January 10, 1973, to reflect increased costs so long as his profit margin does not increase over that which prevailed during the base period as modified herein. Alternatively, a person may increase prices by a weighted annual average of 1.5 percent over prices authorized or lawfully in effect on January 10, 1973, to reflect increased costs without limitation as to profit margin. Adjustments in excess of the standard may be made only as necessary for efficient allocation of resources or to maintain adequate levels of supply. The principles and policies contained in the Price Commission's regulations in effect on January 10, 1973, can be used in applying the standard. No price increase should be placed into effect which is unreasonably inconsistent with the standard or the goals of the Economic Stabilization Program.

Subpart C—Reporting and Recordkeeping

§ 130.20 Scope.

The provisions of this subpart do not apply to price adjustments in the food industry or in the health services industry, to rate increases by public utilities, or to pay adjustments affecting employees of firms in the food industry, the health services industry, or the construction industry.

§ 130.21 Price reporting firms; reporting requirements.

(a) A price reporting firm is a firm with annual sales or revenues of $250 million or more.

(b) Each price reporting firm shall submit quarterly reports to the Council with information on prices, costs, and profits in accordance with regulations issued by the Council.

§ 130.22 Price recordkeeping firms; recordkeeping requirements.

(a) A price recordkeeping firm is a firm with annual sales or revenues of $50 million or more.

(b) Each price recordkeeping firm shall maintain information on prices, costs, and profits in accordance with regulations issued by the Council.

§ 130.23 Pay adjustments to be reported; reporting requirements.

(a) A pay adjustment which applies to or affects 5,000 or more employees must be reported to the Council.

(b) Reporting of such pay adjustments shall be submitted to the Council in accordance with regulations issued by the Council.

§ 130.24 Pay adjustments subject to recordkeeping; recordkeeping requirements.

(a) A pay adjustment which applies to or affects 1,000 or more employees is subject to recordkeeping requirements.

(b) Records with respect to each such pay adjustment shall be maintained in accordance with regulations issued by the Council.

Subpart D—Exemptions—Items not Included in Coverage

§ 130.30 General.

Price adjustments and pay adjustments with regard to the property, services, wages, and salaries set forth in this subpart are exempt from and not included in the coverage of this title.

§ 130.31 Agricultural products, seafood products, and raw sugar price adjustments.

(a) *Raw agricultural products.* (1) Subject to the special rule set forth below, the sale of agricultural products which retain their original physical form and have not been processed is exempt. Processed agricultural products are products which have been canned, frozen, slaughtered, milled, or otherwise changed in their physical form. Packaging is not considered a processing activity. Examples:

Exempt	*Nonexempt*
Live cattle, calves, hogs, sheep, and lambs.	Carcasses and meat cuts.
Live poultry	
Raw milk	Pasteurized milk and processed products such as butter, cheese, ice cream.
	Frozen, dried, or liquid eggs.
Sheared or pulled wool.	Wool products.
	Processed and blended honeybutter product.
Mohair.	
Hay: Bulk, pelleted, cubed, or baled.	Dehydrated alfalfa meal or alfalfa meal pellets.
Wheat	Flour.
Feed grains including:	
Corn	Mixed feed.
Sorghum	Cracked corn.
Barley	Rolled barley.
Oats	Rolled oats.
Soybean	Soybean meal and oil.
Leaf tobacco	Cigarettes and cigars.
Baled cotton, cottonseed, cotton lint.	Cotton yarn, cottonseed oil, cottonseed meal.
	Frozen french fries, dehydrated potatoes.
Unmilled rice	Milled rice.
	Roasted, salted, or otherwise processed nuts.
	Canned or freeze dried mushrooms.
Fresh hops.	
Sugar beets and sugarcane.	Refined sugar.
Maple sap.	
All seeds for planting.	Seeds processed for other uses.
Raw coffee bean	Roasted coffee bean.
	Canned and frozen vegetables.
	Dill pickles.
	Package slaw.
	Popped popcorn.
Stumpage or trees cut from the stump.	Milled lumber.
	Canned fruit or juices.
	Glazed citrus peel.
	Canned grapes, wine.
	Applesauce.
	Canned prunes and prune juice.
	Canned olives.
	Floral wreath.
Garden plants.	

(2) Special rule: Only the first sale by the producer or grower of those agricultural products which are of a type sold for ultimate consumption in their original physical form is exempt. Examples of these products are:

Shell, eggs packaged or loose.	Tomatoes.
Raw honeycomb honey.	Lettuce.
Fresh potatoes, packaged or not.	Sweet corn.
All raw nuts—shelled and unshelled.	Brussel sprouts.
Fresh mushrooms.	Beets.
Fresh mint.	Unpopped popcorn.
Dried beans, peas, and lentils.	All fresh or naturally dried fruits, packaged or not, including:
All fresh vegetables and melons including:	Fresh oranges.
	Grapes and raisins.
	Apples.
	Peaches.
Strawberries.	Honeydews.
Grapefruit.	Escarole.
Pears.	Garlic.
Lemons.	Artichokes.
Plums and prunes.	Eggplant.
Cherries.	Avocados.
Cranberries.	Blueberries.
Onions.	Apricots.
Green beans.	Tangerines.
Cantaloupe.	Olives, uncured.
Cucumbers.	Nectarines.
Cabbage.	Raspberries.
Carrots.	Blackberries.
Watermelons.	Figs.
Green peas.	Tangelos.
Asparagus.	Limes.
Pepper.	Dates.
Broccoli.	Papayas.
Cauliflower.	Bananas.
Spinach.	Pomegranates.
Green lima beans.	Currants.
	Persimmons.
	Cut flowers.

(b) *Dressed broilers and turkeys and raw seafood products.* The first sale by (1) a producer of broilers or turkeys or (2) a producer or fisherman of raw seafood products including those which have been shelled, shucked, iced, skinned, scaled, eviscerated, or decapitated is exempt.

(c) *Raw sugar prices.* Raw sugar price adjustments which are controlled under the Sugar Act of 1948, as amended.

§ 130.32 Real estate and insurance premiums.

(a) *Real estate*—(1) *Sales.* (i) Unimproved real estate.

(ii) Real estate with improvements completed prior to August 15, 1971.

(iii) Real estate with improvements completed on or after August 15, 1971, if—

(*a*) The sales price is determined after the completion of construction; or

(*b*) The sales price is determined before the completion of construction and the wage rates estimated by the builder at the time the price is determined are not subsequently reduced by any action under the Economic Stabilization Program.

(2) *Rentals.* All rentals of residential and nonresidential real property.

(b) *Insurance premiums.* (1) Premiums charged for the following lines of insurance purchased or renewed after November 13, 1971:

(i) Reinsurance of all kinds.

(ii) Ocean marine insurance.

(iii) Inland marine insurance on a bid basis applicable to facilities of transportation and communication.

(iv) Life insurance, annuities, and endowments (including individual and group contracts of: Ordinary and term life insurance, fixed and variable annuities, and endowments of all kinds); but excluding credit life insurance of any kind.

(v) Individually negotiated and rated insurance contracts written in excess of a self-insured retention of at least $100,000.

(2) Premiums charged for the following sublines of aviation insurance purchased or renewed after September 1, 1972:

(i) Hull insurance.

(ii) Liability insurance for bodily injury (excluding passenger hazard) caused by an aircraft.

(iii) Liability insurance for property damage caused by an aircraft.

§ 130.33 Certain price adjustments.

(a) *Federal, State, and local governments.* (1) Price adjustments including rent adjustments for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, or similar thing of value or utility, performed, furnished, provided, granted, prepared, issued, or transferred by any Federal department, agency, or other instrumentality including the Postal Service and wholly owned Government corporations as defined in the Government Corporation Control Act of 1945, as amended.

(2) Price adjustments including rent adjustments by State and local governments for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, facilities, materials, or similar thing of value or utility, performed, furnished, provided, granted, prepared, issued, or transferred including tuition and other charges for schools, colleges, and universities owned or operated by a State and local government; except, however, that fees or charges for health services (but not health service fees levied on all students as a condition of enrollment) and for utility services (including, gas, electricity, telephone, telegraph, public transportation by vehicle or pipeline, but not including water or sewage disposal services) provided directly or indirectly by a State and local government are not exempt under the provisions of this section.

(b) *Tuition fees of private nonprofit educational organizations.* Tuition fees and other charges by private schools, colleges, and universities not operated for profit; except that: (1) Fees and charges resulting in income which is subject to tax under Part III of Subchapter F of the Internal Revenue Code of 1954, as amended, as unrelated business taxable income and (2) medical fees and charges, other than a health service fee levied on all students as a condition of enrollment, are not exempt under the provisions of this section.

(c) *Custom products and services.* (1) The following products when custom made to individual order:

(i) Leather goods.

(ii) Wigs and toupees.

(iii) Fur apparel.

(iv) Jewelry.

(2) The following custom services when provided to individual order;

(i) Tailoring of clothing.

(ii) Framing of pictures and mirrors.

(iii) Taxidermy.

(d) *Exports, imports, ocean shipping rates, and foreign air transportation.* (1) Exports, including products sold to a domestic purchaser who certifies that the product is for export.

(2) Imports, but only the first sale into U.S. commerce.

(3) International ocean shipping rates.

(4) All rates, fares, and charges for foreign air transportation (as defined by the Federal Aviation Act, 49 U.S.C. 1301 (21)) which are set forth in tariffs filed with the Civil Aeronautics Board or which are established or approved by the Civil Aeronautics Board.

(e) *Damaged and used products.* Damaged and used products other than products which have been rebuilt, repackaged, baled, reassembled, or otherwise processed.

(f) *Government property.* (1) Abandoned or confiscated property sold by any Federal, State, or local government agency pursuant to authorization of a court.

(2) Property sold by the United States, including lease-sales.

(g) *Transactions in gold.* Transactions in gold on the domestic market under license from the Secretary of the Treasury pursuant to the Gold Reserve Act of 1934 as amended, and regulations issued pursuant thereto.

(h) *Securities and financial instruments.* (1) Securities as defined in § 101.2

(2) Property subject to net leases as defined in 26 U.S.C. 163(d)(4)(a).

(3) Commercial paper.

(4) Commodity futures sold on an organized commodities exchange but not including the commodity (unless otherwise exempt).

(i) *Brokerage fees charged on a securities exchange.* Brokerage fees, charged for the trading of securities on a securities exchange, that are subject to the jurisdiction of the Securities and Exchange Commission, when the Securities and Exchange Commission has certified that such fees are consistent with the objectives of the economic stabilization program.

(j) *Retail firms, including restaurants.* Price adjustments of retail firms, including restaurants, with annual sales or revenues of less than $100,000.

(k) *Fees and charges imposed by Indian Tribal Councils.* Price adjustments, including rent adjustments, for any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, commodity, or similar thing of value or utility, performed, furnished, sold, leased, provided, granted, prepared, issued, or transferred by any Indian Tribal Council which is formally recognized by a State or the Federal Government are exempt whether or not all or part of a particular transaction takes place on or off Indian Tribal lands.

(l) *U.S. tanker rates.* Rates for the transportation of goods in a coastwise voyage by sea as defined in 46 U.S.C. section 88, in tank vessels built in and documented under the laws of the United States and owned by persons who are citizens of the United States, or tank vessels to which the privilege of engaging in the coastwise trade is extended by

V 38 I 8 JAN 12 73 XUM

section 13 or 808 of title 46 of the United States Code.

(m) *Silver.* Price adjustments for (1) commercial grade silver in refining shapes, (2) silver content in ores and done, (3) silver coins, and (4) other forms of silver sold for manufacturing or professional uses.

§ 130.34 Certain pay adjustments.

(a) *Federal pay adjustments.* Federal Government employees' pay adjustments which are based upon Federal law and regulations and are determined by Presidential directives, including therein pay adjustments in the compensation and allowances of members of the Armed Forces; employees of the Judicial and of the Legislative Branch of the Federal Government: *Provided, however,* This section shall not exempt pay adjustments affecting employees of the U.S. Postal Service.

(b) *Pay adjustments affecting certain U.S. citizens.* Pay adjustments which apply to or affect U.S. citizens who reside and are employed outside the United States and the District of Columbia.

(c) *Professional athletes.* Pay adjustments of professional athletes, and pay adjustments of managers and coaches of professional athletes, when such managers and coaches are employed by professional sports organizations employing professional athletes.

§ 130.35 Miscellaneous.

(a) Royalties and other payments from the sale of copyrights, manuscripts, and like materials prepared for publication.

(b) Dues paid to a nonprofit organization.

(c) Antiques and art objects including paintings, etchings, and sculpture.

(d) Collectors' coins and stamps.

(e) Rock and stone specimens including precious stones and mounting into which precious stones are set.

(f) Handicraft objects.

(g) The first sale of mint oil and maple syrup or sugar.

(h) The first sale of dehydrated fruits.

(i) *Films.* Price adjustments for motion pictures and television productions when such price adjustments are made by producers or distributors of motion pictures and television productions.

Subpart E—Small Business Exemption

§ 130.40 Exemption of firms with 60 or fewer employees.

(a) *Applicability—firms existing on or before December 31, 1971—(1) General.* Subject to the provisions of (a) (2) and (3) of this section, price and pay adjustments (but not rent increases or adjustments) of any firm, existing on or before December 31, 1971, including a local government, with an average of 60 or fewer employees (determined as provided in paragraph (a)(3) of this section are exempt from and not included in the coverage of this title.

(2) *Exemption not applicable.* The exemption provided for in paragraph (a) (1) of this section shall not be applicable to:

(i) A firm which in its fiscal year ending prior to May 2, 1972 had annual sales or revenues of $50 million or more;

(ii) A firm which on May 2, 1972, was an institutional or noninstitutional provider of health services (as defined in §§ 300.18 and 300.19 of this title);

(iii) A firm which on May 2, 1972, was engaged in construction as defined by section 11 of Executive Order 11588 (3 CFR, 1971 Comp., p. 147);

(iv) A firm, if the pay adjustments immediately preceding the effective date of this regulation, applicable to or affecting 50 percent or more of its employees, were set by a master employment or other employment contract which was negotiated on a joint or association basis or on an industry, area, group, or other similar basis and which covered more than 60 employees; or

(v) Pay adjustments applicable to or affecting those employees in firms otherwise exempt under this paragraph whose pay adjustments immediately preceding the effective date of this regulation were set or which are set at any time thereafter by a master employment or other employment contract described in subdivision (iv) of this subparagraph which covered more than 60 employees.

(3) *Determination of average number of employees.* The average number of employees for firms in existence on or before December 31, 1971, shall be computed by dividing the sum of the number of employees employed in the pay periods which included June 30, September 30, and December 31, 1971, and March 31, 1972, by the number of such pay periods for which any such firm was in existence.

(b) *Applicability—firms coming into existence on or after January 1, 1972.* (1) *General.* Subject to the provisions of paragraphs (b) (2) and (3) of this section, price and pay adjustments (but not rent increases or adjustments) of any firm coming into existence on or after January 1, 1972, including a local government, with an average of 60 or fewer employees (determined as provided in paragraph (b)(3) of this section) are exempt from and not included in the coverage of this title.

(2) *Exemption not applicable.* The exemption provided for in paragraph (b)(1) of this section shall not be applicable to:

(i) A firm which at any time during its first four calendar quarters after March 31, 1972, had annual sales or revenues of $50 million or more;

(ii) A firm which at any time during its first four calendar quarters after March 31, 1972, was an institutional or noninstitutional provider of health services (as defined in §§ 300.18 and 300.19 of this title);

(iii) A firm which at any time during its first four calendar quarters after March 31, 1972, was engaged in construction as defined by section 11 of Executive Order No. 11588 (3 CFR 1971 Comp., p. 147);

(iv) A firm, if the pay adjustments at any time during its first four calendar quarters after March 31, 1972, applicable to or affecting 50 percent or more of its employees, were set by a master employment or other employment contract which was negotiated on a joint or association basis or on an industry, area, group or other similar basis and which covered more than 60 employees;

(v) Pay adjustments applicable to or affecting those employees in firms otherwise exempt under this paragraph whose pay adjustments immediately preceding the effective date of this regulation were set or which are set at any time thereafter by a master employment or other employment contract described in subdivision (iv) of this subparagraph which covered more than 60;

(vi) A firm which is deemed to have an average of more than 60 employees in any calendar quarter in its first four calendar quarters, including its fourth calendar quarter, after March 31, 1972; or

(3) *Determination of average number of employees.* The average number of employees for firms coming into existence on or after January 1, 1972, shall be computed as follows:

(i) For its first calendar quarter after March 31, 1972, the average number of employees shall be deemed to be 60 or fewer until such time as the number of employees in that first calendar quarter after March 31, 1972, exceeds 60;

(ii) If the firm was deemed to have an average of 60 or fewer employees in the pay period which included the last day of its first calendar quarter after March 31, 1972, it shall be deemed to have 60 or fewer employees during its second calendar quarter after March 31, 1972;

(iii) A firm shall compute its average number of employees for its third calendar quarter after March 31, 1972, by dividing by two the sum of the number of employees employed in the pay period which included the last day of its first two calendar quarters after March 31, 1972;

(iv) A firm shall compute its average number of employees for its fourth calendar quarter after March 31, 1972, by dividing by three the sum of the number of employees employed in the pay period which included the last day of its first three calendar quarters after March 31, 1972; and

(v) If the firm's average number of employees was deemed to be 60 or fewer for its first four calendar quarters after March 31, 1972, its average number of employees shall be permanently established for the purpose of this paragraph by dividing by four the sum of the number of employees employed in the pay period which included the last day of its first four calendar year quarters after March 31, 1972.

(c) Definitions.

(1) "Employee" means any person residing in and employed in the several States or the District of Columbia for whom an employer is required to pay taxes imposed pursuant to the Federal Insurance Contributions Act, 1939, as amended, 26 U.S.C. sec. 3101, et seq. (FICA), and any person otherwise excluded from FICA coverage, who (i) performs services for any firm as an agent-driver, or commission-driver engaged in the distribution of milk for his principals; or (ii) is defined as an "employee" in 26 U.S.C. sec. 3121(d).

(2) "Local government" includes any town, village, city, or similar entity which was incorporated by authority of the State and which has and exercises local legislative powers, and any county, town, township, or similar entity which is a subdivision of the State or county and which possesses and exercises some powers of local self-government; any school district which is an independent governmental unit and any special district classified as an independent governmental unit created for the sole purpose of performing one or more municipal functions. An "independent governmental unit" is one which meets the criteria for classifying governmental units used by the Department of Commerce, U.S. Bureau of the Census, in the 1967 Census of Governments, "Governmental Organizations," beginning at p. 13.

Subpart F—Special Rules Applicable to the Food Industry

§ 130.51 Scope.

This subpart establishes special mandatory rules applicable to price adjustments and pay adjustments by manufacturers, service organizations, wholesalers, and retailers in the food industry unless exempted under the provisions of Subpart E of this part.

§ 130.52 Price Reporting: Wholesalers and retailers.

A wholesaler or retailer with annual sales or revenues of $250 million or more must report quarterly, in accordance with regulations issued by the Council, information as to markups and profit margin.

§ 130.53 Price Recordkeeping: Wholesalers and retailers.

A wholesaler or retailer must maintain quarterly records in accordance with regulations issued by the Council, as to markups and profit margin.

§ 130.54 Price Reporting: Manufacturers and service organizations.

A manufacturer or service organization with annual sales or revenues of $250 million or more shall submit quarterly reports to the Council in the form and within the time such reports were required under regulations of the Price Commission in effect on January 10, 1973.

§ 130.55 Price Recordkeeping: Manufacturers and service organizations.

Manufacturers and service organizations must maintain information on prices, costs, and profits in accordance with regulations issued by the Council.

§ 130.56 Wholesalers and retailers—price rules.

A wholesaler or retailer remains subject to regulations of the Price Commission in effect on January 10, 1973, with respect to permissible price levels with the following modifications:

(a) The definition of base period is superseded by the definition in Subpart L of this part;

(b) Customary initial percentage markup may be applied and reported on the basis of total sales by the wholesaler or retailer or any other level of item or category control;

(c) Customary initial percentage markup may be increased to reflect on a dollar-for-dollar basis Government-mandated operating cost increases; and

(d) Only firms with $250 million or more in annual sales or revenues are subjust to the requirements for prenotification and reporting; and

(e) §§ 300.13(b)(c)(d)(e) and 300.13a of this title are hereby revoked.

§ 130.57 Manufacturers and service organizations—price rules.

Manufacturers and service organizations remain subject to the rules and regulations of the Price Commission in effect on January 10, 1973, except that only firms with $250 million or more in annual sales or revenues are subject to the requirements for prenotification and reporting and except that the definition of base period profit margin is superseded by the definition in Subpart L of this part. The Council shall succeed to and assume all applicable rights, duties, and obligations of the Price Commission as contained in the rules and regulations of the Price Commission applicable to manufacturers and service organizations. Whenever under those rules and regulations authorizations from or reports to the Price Commission are required, such authorizations and reports shall be obtained from or made to the Council in the form and within the time required under regulations of the Price Commission in effect on January 10, 1973.

§ 130.58 Pay adjustments.

Pay adjustments affecting employees in the food industry remain subject to the classification, prenotification, and reporting requirements of the Council and the rules and regulations of the Pay Board in effect on January 10, 1973. The Cost of Living Council shall succeed to and assume all applicable rights, duties, and obligations of the Pay Board contained therein. Whenever authorizations from or reports to the Pay Board are required under those rules and regulations, such authorizations shall be obtained from and reports made to the Council in the form and within the time required under regulations of the Pay Board in effect on January 10, 1973.

Subpart G—Special rules applicable to Providers of Health Services

§ 130.60 Scope.

This subpart establishes mandatory rules applicable to price adjustments and pay adjustments by providers of health services.

§ 130.61 Price adjustments.

Price adjustments by institutional and noninstitutional providers of health services remain subject to the classification, prenotification, and reporting requirements of the Council and the rules and regulations of the Price Commission in effect on January 10, 1973, except that §§ 300.18(g) and 300.19(d) of this title are hereby revoked. The Cost of Living Council shall succeed to and assume all applicable rights, duties, and obligations of the Price Commission contained therein. Whenever under those rules and regulations authorizations from or reports to the Price Commission are required, such authorizations and written reports shall be obtained from or made to the Council in the form and within the time required under regulations of the Price Commission in effect on January 10, 1973.

§ 130.62 Pay adjustments.

Pay adjustments affecting employees in the health industry remain subject to the classification, prenotification, and reporting requirements of the Council and the rules and regulations of the Pay Board in effect on January 10, 1973. The Cost of Living Council shall succeed to and assume all applicable rights, duties, and obligations of the Pay Board contained therein. Whenever authorizations from or reports to the Pay Board are required under those rules and regulations, such authorizations shall be obtained from and reports made to the Council in the form and within the time required under regulations of the Pay Board in effect on January 10, 1973.

Subpart H—Special Rules Applicable to the Construction Industry

§ 130.70 Scope.

This subpart establishes special rules applicable to prices and pay adjustments in the construction industry.

§ 130.71 Prices.

Final payments under any construction contract all or part of which is performed by construction workers whose wages and salaries are subject to review by the Construction Industry Stabilization Committee (CISC), shall be renegotiated if the wage and salary level of construction workers used in determining the final payment is reduced pursuant to the provisions of the contract concerned relating to renegotiation, or if there are no such provisions in the contract, pursuant to customary renegotiation procedures and practices of the construction industry. The amount by which the final payment with respect to any contract shall be reduced as a result of the renegotiation must fairly reflect the results of the CISC action, including any allowable cost increases resulting therefrom.

§ 130.72 Pay adjustments.

Pay adjustments affecting employees in construction remain subject to the

V 38 - 8 JAN 12 73 XUM

classification, prenotification, and reporting requirements of the Council and the rules and regulations of the Pay Board and the Construction Industry Stabilization Committee in effect on January 10, 1973. The Cost of Living Council shall succeed to and assume all applicable rights, duties, and obligations of the Pay Board contained therein.

Subpart I—Special Rules Applicable to Public Utilities

§ 130.80 Scope.

This subpart applies to each rate increase authorized under law to be placed into effect after January 10, 1973, by any publicly, privately, cooperatively, or municipally owned public utility, whether or not that rate increase is approved by a regulatory agency. These standards shall be applied by public utilities whether or not subject to a regulatory agency, and by regulatory agencies.

§ 130.81 Rules.

Increases in rates for public utilities effective January 10, 1973, should be consistent with the following criteria:

(a) The increase is cost-justified and does not reflect future inflationary expectations;

(b) The increase is the minimum required to assure continued adequate and safe service or to provide for necessary expansion to meet future requirements;

(c) The increase will achieve the minimum rate of return needed to attract capital at reasonable costs and will not impair the credit of the public utility; and

(d) The increase takes into account expected and obtainable productivity gains.

Subpart J—Challenge Procedures

§ 130.90 Purpose and scope.

This subpart establishes the procedures under which the Council may challenge price or pay increases which have occurred or are proposed.

§ 130.91 General.

When any report required by Part 130 of this chapter or any audit or investigation discloses, or the Council otherwise discovers, that a person appears to have implemented or is about to implement a price increase or a wage or salary increase which is unreasonably inconsistent with the general price and pay standards set forth in this chapter or the goals of the Economic Stabilization Program, the Council may conduct proceedings to challenge such conduct and issue appropriate orders in accordance with the provisions of this subpart.

§ 130.92 Notice of challenge.

The Council shall begin proceedings under this Subpart J by issuing a notice of challenge to the person involved stating that the Council has reason to believe that conduct which is unreasonably inconsistent with the standards set forth in this chapter has occurred or is about to occur.

§ 130.93 Temporary orders.

If the Council finds that such action is necessary to further the goals of the Economic Stabilization Program, it may, in the notice of challenge, order the person to whom it is directed to take steps temporarily to suspend or halt the conduct being challenged.

§ 130.94 Public hearings.

If the Council determines that such action is necessary to further the goals of the Economic Stabilization Program, it may order public hearings to be held with respect to the conduct being challenged.

§ 130.95 Reply.

(a) Within 10 days of receipt of a notice of challenge issued under § 130.92, the person to whom the notice of challenge is issued may file an answer in writing. In addition, a person may respond to the Council by personal appearance and may be accompanied by counsel. If a person wishes to appear in person, he must request an appointment; the request must be made promptly so that a time and place may be set within the period provided for reply. The Council will extend the period for reply for good cause shown.

(b) If a person does not reply within the time allowed by a notice of challenge, the challenged conduct will be considered unreasonably inconsistent with the general standards as alleged and the Council may issue whatever permanent order would be appropriate.

(c) The burden of producing evidence that the challenged conduct is not unreasonably inconsistent with the standards is upon the person who has taken or proposed the conduct.

(d) An order promulgated under this section is not subject to judicial or any other review with respect to any finding of fact or conclusion of law which could have been raised in proceedings before the Council but was not.

§ 130.96 Order.

(a) If the Council finds, after the person has filed a reply under § 130.95, that no conduct has occurred or is about to occur which is unreasonably inconsistent with the standards or the goals of the Economic Stabilization Program or that for any other reason the issuance of an order would not be appropriate, it will issue a decision so stating, and if necessary an order revoking or modifying any prior temporary order.

(b) If the Council finds that conduct unreasonably inconsistent with the standards or the goals of the Economic Stabilization Program has occurred or is about to occur and that an order is appropriate, it will issue a decision so stating, specifying the nature and extent of the unreasonably inconsistent conduct and, if necessary, issue an order implementing the decision. The decision will state the findings and conclusions upon which it is based.

(c) Orders issued hereunder may prescribe prospectively:

(1) A specific price or wage or salary;

(2) Special reporting requirements; and

(3) Any other requirement which is reasonable and appropriate to accomplish the purposes of the Economic Stabilization Program.

§ 130.97 Modification or rescission.

(a) *General.* The person to whom an order is issued under § 130.96 may file a request for modification or rescission of that order in accordance with the procedures set forth in this section.

(b) *Where to file.* A request for modification or rescission may be filed with the Cost of Living Council, Washington, D.C. 20506.

(c) *When to file.* A request for modification or rescission shall be filed within 10 days of receipt of the order issued under § 130.96.

(d) *Contents of request.* A request for modification or rescission shall—

(1) Be in writing and signed by the applicant;

(2) Be designated clearly as a request for modification or rescission;

(3) Identify the order which is the subject of the request;

(4) Point out the alleged error in the order;

(5) Contain a concise statement of the grounds for the request for modification or rescission and the requested relief;

(6) Be accompanied by briefs, if any; and

(7) Be marked on the outside of the envelope "Request for Modification or Rescission."

(e) *Preliminary processing by the Council.*

(1) A request for modification or rescission of an order issued under § 130.96 will be considered by the Council only if it:

(i) Is made by a person to whom the order sought to be modified or rescinded was issued;

(ii) Is timely; and

(iii) Makes a prima facie showing of error.

(2) The Council may summarily reject a request for modification or rescission which is not made by a person to whom the order was issued, or which is not timely filed, or which fails to make a prima facie showing of error.

(3) When the request for modification or rescission meets the requirements set forth in subparagraph (1) of this paragraph, the Council on its own motion or for good cause shown may temporarily suspend the order appealed from and then proceed in accordance with § 130.96.

Subpart K—Reassertion of Mandatory Controls

§ 130.100 Purpose and scope.

This subpart describes the circumstances under which the Council may reassert mandatory controls over an industry, sector of the economy, or a part thereof.

§ 130.101 Issuance of special rules.

Whenever the Council in the course of administering the Economic Stabilization Program determines that the goals

of the program would be significantly advanced by reasserting controls over an industry, sector of the economy, or a part thereof, it may issue a special rule providing, on a prospective basis, for the stabilization of prices or wages and salaries, on a mandatory basis, in that industry, sector of the economy or part thereof.

§ 130.102 Public hearings.

If the Council determines that such action is necessary to further the goals of the Economic Stabilization Program, it may order public hearings with respect to special rules issued or to be issued pursuant to this subpart.

Subpart L—Definitions

§ 130.110 Definitions.

"Act" means the Economic Stabilization Act of 1970, as amended.

"Annual sales or revenues" means the total gross receipts of a firm during its most recent fiscal year, from whatever source derived, except that it does not include gross receipts of or from a foreign branch or division of such a firm, or the gross receipts of or from a wholly or partially owned foreign entity such as a corporation, partnership, joint venture, association, trust, or subsidiary, if the gross receipts of such foreign entity, branch, or division are derived primarily from transactions with other foreign firms. A foreign entity, branch, or division is one located outside the several States and the District of Columbia. However, gross receipts of domestic entities from U.S. export sales and from sales to firms in the Commonwealth of Puerto Rico are included in the determination of annual sales or revenue.

"Appropriate employee unit" means a group composed of all employees in a bargaining unit or in a recognized employee category. Such bargaining unit or employee category may exist in a plant or other establishment or a department thereof, or in a company, or in an industry, or in a government unit or in an agency, or instrumentality thereof, and shall be determined so as to preserve, as nearly as possible, contractual or historical wage and salary relationships.

"Base period" means any two, at the option of the person concerned, of the following fiscal years: That person's last 3 fiscal years ending before August 15, 1971, and any fiscal year completed on or after that date. In determining a base period for the purpose of computing a profit margin during a base period, a weighted average of its profits during the 2 years chosen shall be used.

"Council" means the Chairman of the Cost of Living Council established by Executive Order 11615 (3 CFR, 1971 Comp., p. 199) and continued under the provisions of Executive Order 11695, or his delegate.

"Employer" means a firm which employs one or more persons who receive a wage or salary.

"Exception" means a waiver directed to an individual firm in a particular case which relieves it from the requirements of a rule, regulation, or order issued pursuant to the act.

"Exemption" means a general waiver of the requirements of all rules, regulations, and orders issued pursuant to the act.

"Firm" means any person, corporation, association, estate, partnership, trust, joint-venture, or sole proprietorship or any other entity, however organized including charitable, educational, or other eleemosynary institutions, and the Federal and State and local governments. For purposes of this definition, a firm includes any entity listed in the preceding sentence that is part of or is directly or indirectly controlled by the firm. A person will be deemed to control any firm which is controlled directly or indirectly by such person, his spouse, children, grandchildren, or parents.

"Nonprofit organization" or one which is "not operated for profit" is a firm which is defined as a nonprofit organization in section 501(c) and is exempt under section 501(a) of the Internal Revenue Code of 1954, amended.

"Pay adjustment" means a change in wages and salaries which includes all forms of direct and indirect remuneration or inducement to employees by their employers for personal services, which are reasonably subject to valuation, including but not limited to: Vacation and holiday payments; bonuses; layoff and severance pay plans; supplemental unemployment benefits; night shift overtime, and incentive pay; employees contributions for insurance plans (but not including Federal public plans, e.g. old-age, survivors, health, and disability insurance under the social security system, Railroad Retirement Acts, Federal Insurance Contributions Acts, Federal Unemployment Tax Acts, and Civil Service Retirement Acts, and not including any workman's compensation or unemployment insurance plan pursuant to State law whether the participation of the employer is optional or obligatory), savings, pension, profit sharing, annuity funds, and other deferred compensation and welfare benefits (including payments to or on behalf of retirees); payments in kind; job prerequisites; housing allowances; uniform and other work clothing allowances (but not including employer-required uniforms and work clothing whether or not for safety purposes); cost-of-living allowances; commission rates; stock options; fringe benefits; and benefits which result in more pay per hour or other unit of work or production (e.g. by shortening the workday without a proportionate decrease in pay). Notwithstanding the foregoing definition of pay adjustment, contributions by any employer for:

(a) Any pension, profit sharing, or annuity and savings plan which meets the requirements of section 401(a), 404(a)(2), or 403(b) of the Internal Revenue Code of 1954;

(b) Any group insurance plan; or

(c) Any disability and health plan;

are not to be included in wages and salaries unless such contributions are determined to be unreasonably inconsistent with the standards issue pursuant to section 203(b) of the Act. Further, notwithstanding the foregoing definition of pay adjustment, pay adjustments paid to persons earning less than $2.75 per hour to increase their compensation up to $2.75 per hour are not to be included in wages and salaries.

"Pay Board" means the Board established pursuant to section 7 of Executive Order 11627 (3 CFR, 1971 Comp., p. 218).

"Prenotification" means notice submitted to the Price Commission or Pay Board relating to a proposed price adjustment or pay adjustment.

"Price adjustment" means an increase in the unit price of property or services or a decrease in the quality of substantially the same property or services.

"Price Commission" means the Commission established pursuant to section 8 of Executive Order 11627.

"Professional athlete" means any individual who undertakes or engages in, as a means of livelihood or for economic gain, either individually or as an employee of a professional sports organization, competitive sporting events requiring physical agility or strength.

"Profit margin" means the ratio that operating income (net sales less cost of sales and less normal and generally recurring costs of business operations, determined before nonoperating items, extraordinary items, and income taxes) bears to net sales as reported on the person's financial statement prepared in accordance with generally accepted accounting principles consistently applied.

"Public utility" means a person that furnishes service to the public or a recognized segment of the public, whether or not that person is under the jurisdiction of a regulatory agency, including gas, electric, telephone, telegraph, public transportation by vehicle or pipeline, water, and sewage disposal services, but not including water or sewage disposal services furnished by a government agency or instrumentality.

"Real estate with improvements" means land upon which there is a structure, dwelling, or other building. It does not mean land on which roads, water, sewer, or drainage facilities have been constructed.

"Regulatory agency" means any commission, board, or other legal body existing under law which has jurisdiction to regulate prices and services offered by a public utility.

"Retail firm" means a firm whose annual sales or revenues are primarily from the sale of goods to ultimate consumers.

"Security" means any note, stock, treasury stock, bond, debenture, evidence of indebtedness, certificate of interest or participation in any profit-sharing agreement, collateral-trust certificate,

V 38 I 8 JAN 12 73 XUM

preorganization certificate or subscription, transferable share, investment contract, voting-trust certificate, certificate of deposit for a security, fractional undivided interest in oil, gas, or other mineral rights, or, in general, any interest or instrument commonly known as a "security," or any certificate of interest or participation in temporary or interim certificate for, receipt for, guarantee of, or warrant or right to subscribe to or purchase, any of the foregoing.

"State and local governments" means the several States and the District of Columbia, a municipality or other political subdivision, authority, commission, board, district, public corporation or other agency or instrumentality of the several States and the District of Columbia and any board, commission, agency, or other instrumentality of a local government.

APPENDIX

THE WHITE HOUSE

To the Congress of the United States:

During 1969, the annual rate of inflation in the United States was about 6 percent. During my first term in office, that rate has been cut nearly in half and today the United States has the lowest rate of inflation of any industrial country in the free world.

In the last year and a half, this decline in inflation has been accompanied by a rapid economic expansion. Civilian employment rose more rapidly during the past year than ever before in our history and unemployment substantially declined. We now have one of the highest economic growth rates in the developed world.

In short, 1972 was a very good year for the American economy. I expect 1973 and 1974 to be even better. They can, in fact, be the best years our economy has ever experienced—provided we have the will and wisdom, in both the public and private sectors, to follow appropriate economic policies.

For the past several weeks, members of my administration have been reviewing our economic policies in an effort to keep them up to date. I deeply appreciate the generous advice and excellent suggestions we have received in our consultations with the Congress. We are also grateful for the enormous assistance we have received from hundreds of leaders representing business, labor, farm and consumer groups, and the general public. These discussions have been extremely helpful to us in reaching several central conclusions about our economic future.

One major point which emerges as we look both at the record of the past and the prospects for the future is the central role of our Federal monetary and fiscal policies. We cannot keep inflation in check unless we keep Government spending in check. This is why I have insisted that our spending for fiscal year 1973 not exceed $250 billion and that our proposed budget for fiscal year 1974 not exceed the revenues which the existing tax system would produce at full employment. I hope and expect that the Congress will receive this budget with a similar sense of fiscal discipline. The stability of our prices depends on the restraint of the Congress.

As we move into a new year, and into a new term for this administration, we are also moving to a new phase of our economic stabilization program. I believe the system of controls which has been in effect since 1971 has helped considerably in improving the health of our economy. I am today submitting to the Congress legislation which would extend for another year—until April 30 of 1974—the basic legislation on which that system is based, the Economic Stabilization Act.

But even while we recognize the need for continued Government restraints on prices and wages, we also look to the day when we can enjoy the advantages of price stability without the disadvantages of such restraints. I believe we can prepare for that day, and hasten its coming, by modifying the present system so that it relies to a greater extent on the voluntary cooperation of the private sector in making reasonable price and wage decisions.

Under phase III, prior approval by the Federal Government will not be required for changes in wages and prices, except in special problem areas. The Federal Government, with the advice of management and labor, will develop standards to guide private conduct which will be self-administering. This means that businesses and workers will be able to determine for themselves the conduct that conforms to the standards. Initially and generally we shall rely upon the voluntary cooperation of the private sector for reasonable observance of the standards. However, the Federal Government will retain the power—and the responsibility—to step in and stop action that would be inconsistent with our anti-inflation goals. I have established as the overall goal of this program a further reduction in the inflation rate to 2½ percent or less by the end of 1973.

Under this program, much of the Federal machinery which worked so well during phase I and phase II can be eliminated, including the Price Commission, the Pay Board, the Committee on the Health Services Industry, the Committee on State and Local Government Cooperation, and the Rent advisory Board. Those who served so ably as members of these panels and their staffs—especially Judge George H. Boldt, Chairman of the Pay Board, and C. Jackson Grayson, Jr., Chairman of the Price Commission—have my deep appreciation and that of their countrymen for their devoted and effective contributions.

This new program will be administered by the Cost of Living Council. The Council's new Director will be John T. Dunlop. Dr. Dunlop succeeds Donald Rumsfeld who leaves this post with the Nation's deepest gratitude for a job well done.

Under our new program, special efforts will be made to combat inflation in areas where rising prices have been particularly troublesome, especially in fighting rising food prices. Our anti-inflation program will not be fully successful until its impact is felt at the local supermarket or corner grocery store.

I am therefore directing that our current mandatory wage and price control system be continued with special vigor for firms involved in food processing and food retailing. I am also establishing a new committee to review Government policies which affect food prices and a non-Government advisory group to examine other ways of achieving price stability in food markets. I will ask this advisory group to give special attention to new ways of cutting costs and improving productivity at all points along the food production, processing, and distribution chain. In addition, the Department of Agriculture and the Cost of Living Council yesterday and today announced a number of important steps to hold down food prices in the best possible way—by increasing food supply. I believe all these efforts will enable us to check effectively the rising cost of food without damaging the growing prosperity of American farmers. Other special actions which will be taken to fight inflation include continuing the present mandatory controls over the health and construction industries and continuing the present successful program for interest and dividends.

The new policies I am announcing today can mean even greater price stability with less restrictive bureaucracy. Their success, however, will now depend on a firm spirit of self-restraint both within the Federal Government and among the general public. If the Congress will receive our new budget with a high sense of fiscal responsibility and if the public will continue to demonstrate the same spirit of voluntary cooperation which was so important during phase I and phase II, then we can bring the inflation rate below 2½ percent and usher in an unprecedented era of full and stable prosperity.

RICHARD NIXON.

THE WHITE HOUSE,
January 11, 1973.

THE WHITE HOUSE

PHASE III

Background

The anti-inflationary policies of the last 4 years have sharply reduced the inflation rate. Whereas 4 years ago prices were rising, according to various measures, around 5 or 6 percent a year, by the end of 1972 the rate had been cut nearly to half that level. This progress has given the United States the lowest inflation rate of any free industrial country.

The decline of inflation in the past year was accompanied by the largest rise of civilian employment in history and a substantial drop in the rate of unemployment. All-in-all, 1972 was a very good year for the American economy.

The main element leading to this good performance was a balanced use of fiscal and monetary policy. The excess demand which generated the 1965–68 inflation was first removed; thereafter a steady expansion was promoted so as to reduce unemployment without reviving inflationary demand conditions. Since August 15, 1971, these fundamental measures have been supplemented by price and wage controls.

Prospects are exceedingly favorable for further economic expansion and reduced inflation in 1973 and 1974. These can be the best years in America's economic history. There are two trouble spots in this prospect.

One is that Federal spending may be so pumped up that the same forces are released that caused the earlier inflation. The other is that food prices may continue their recent rapid rise. The administration will resist both of these dangers vigorously.

The administration will submit a budget in which expenditures do not exceed $250 billion in the current fiscal year and do not exceed the revenues that the existing tax system would yield at full employment in the next fiscal year. Details of these expenditures will be contained in the budget to be published on January 29. To stay within these totals is the essential requirement of sound economic policy in 1973.

New actions and procedures to deal with the food price problem are described in this fact sheet below.

The National Goal in the Fight Against Inflation

Our goal is to reduce the rate of inflation further in 1973 and to establish general confidence in the reasonable stability of prices beyond 1973. Specifically, we propose as a guide to the policies of Government as well as to private behavior that the rate of inflation should be reduced to 2½ percent or below by the end of 1973. The Government's fiscal and monetary policies will be directed to that goal. The Government will manage its own actions that affect prices in particular sectors, such as food, so as to help in this effort. Government will provide guidance as to private behavior that would be most consistent with the goal. And where necessary the Government will take further steps to assure that private behavior is consistent with the national goal.

The Place of Controls

The system of controls that began on August 15, 1971 with the 90-day freeze and continued with Phase II made a valuable contribution to the economic record of 1972. It helped to reduce inflation and put a damper on inflationary expectations. It also helped to bring about a situation in which wages were in better balance with living costs and the wages of the workers coming up for new wage decisions were in better balance with the wages of those who had previously obtained increases. Much has been done to pave the way for price stability.

These results were achieved in a manner that was fair, that did not impair production or productivity in any significant degree and that did not impose large administrative costs.

To help in assessing the place of controls in the future, an extensive consultation process was undertaken. Sixty-three consultation meetings were held. The over 400 individuals who participated represented a complete spectrum of interests. The views and comments obtained were most helpful.

After reviewing the results of this consultation process and the experience gained from operating the present system, it is clear that the burdens of a control system will mount in the coming period if the present system continued for long unchanged in an expanding economy. Red tape and administrative burdens, both for the government and for the public would expand. Delays and interferences with the normal conduct of business would become more serious. Inequities in the treatment of different individuals and businesses would multiply. Incentives to efficiency and investment would be weakened.

Features

Therefore the system is being modified to achieve its continuing contribution to the anti-inflation effort with less danger of injury to the economy. The main features of the modified system are:

The Government will develop standards for private conduct that would be consistent with the national anti-inflation goal. The wage standard will be developed with the advice of management and labor.

The standards will be self-administered. That is, businesses and workers will be able to determine by themselves what conduct conforms reasonably to the guides and will not require prior approval for their actions. —Voluntary behavior consistent with the standards and the goal will be expected.

Procedures will be established which will permit the Government to see whether conduct is reasonably consistent with the standards.

The Government will retain authority to set mandatory rules, controlling future conduct, where it appears that voluntary behavior is inconsistent with the goals of the program. To this end the President is asking for a 1-year extension of the Economic Stabilization Act.

Special programs will be maintained for food, health service, construction, and interest and dividends.

The Pay Board and the Price Commission are terminated. The Cost of Living Council will manage the Economic Stabilization Program during this phase.

Today's Action

The following actions will be taken today:

1. The President has established a goal to reduce the rate of inflation further in 1973 to 2½ percent or below by the end of 1973.

2. Except in special areas (food, health, construction industry, and interest and dividends) the present program will be replaced by one which is self-administering and based on voluntary compliance.

3. Pay and Price Divisions have been established in the Cost of Living Council. The Price Commission and Pay Board cease to exist.

4. A Labor-Management Advisory Committee is being established.

5. A request has been forwarded to the Congress for a 1-year extension of the Economic Stabilization Program.

6. Dr. John Dunlop has been named by the President as the new Director of the Cost of Living Council.

7. An Executive order implementing the program has been signed with an effective date of January 11, 1973.

SUMMARY OF THE PROGRAM

The General Standards

As a general guide for prices, increases of prices above presently authorized levels should not exceed increases of costs. Even where costs have increased prices should not be increased if the firm's profit margin exceeds the firm's base-period profit margin. Alternatively, a firm may increase prices to reflect increased cost without regard to its profit margin if the firm's average price increases would not exceed 1.5 percent in a year. The definition and measurement of costs, price, profits, etc., can be guided by the regulations already established by the Price Commission, which are presumably known to the firms involved.

The base period for calculation of the profit-margin guide is revised to permit inclusion of any fiscal year that has been concluded since August 15, 1971.

The existing general standards of the Pay Board can be taken for the present as a guide to appropriate maximum wage increases unless and until they are modified. A Labor-Management Advisory Committee is being established to advise the Cost of Living Council on whether the standards should be modified and, if so, how. Certain minor modifications are being announced at this time and published in the FEDERAL REGISTER.

The details of the phase III program are briefly summarized below.

Monitoring

The Cost of Living Council staff and the Internal Revenue Service under the direction of the Cost of Living Council will monitor performance through:

Reviewing reports received from firms and employee units;

Spot checks and audits of firm records; and

Use of Government and trade data.

Price Reporting and Recordkeeping

With the exception of firms subject to special rules (food and health) or exceptions:

All firms with sales of more than $50 million (approximately 3,500 firms) are required to keep records of profit margin changes as well as price changes which will permit the computation of weighted average price increases. Firms will have the obligation of producing these upon request.

All firms with sales of $250 million or more (approximately 800 firms) are required to file quarterly reports concerning any weighted average price change and their profit margin.

Regulated industries will be guided by the general criteria listed in present Price Commission regulations and restraint is expected to be reflected in their actions and the actions of the regulatory agencies.

Requirements will not apply to rental units not already exempt under the present program. Landlords are expected to exercise restraint but no standards or binding requirements will be issued. This step is taken in view of the expanding supply of rental units, increasing vacancy rates and the modest rate of inflation shown in this sector. It is estimated that the present program affects less than 30 percent of residential rental units.

Wage Reporting and Recordkeeping

With the exception of units subject to special rules (food, health, and construction) or exceptions:

All employee units of 1,000 or more will be required to keep records of wage rate changes. They will have the obligation of producing these upon request.

All employee units of 5,000 or more will be required to file reports with CLC indicating wage rate changes.

Reserve Authority and Action of the Cost of Living Council

The Cost of Living Council reserves the authority to establish mandatory standards where that is necessary to assure that future action in a particular industry is consistent with the national goal.

Upon learning through its monitoring of prices and labor negotiations that action has been or is about to be taken that is not consistent with the standards or the goals of the program, the Cost of Living Council can use its authority to issue a temporary order setting interim price and wage levels. This would allow the Council to:

Require parties to supply information and assurances demonstrating that their actions are not or will not be inconsistent with the standards or goals of the program.

Hold public hearings.

Issue a special rule or order of the Council setting out a specific legally binding level for proposed price or pay action that would restrain an industry or firm from that point on. Such a rule or order could include the requirement to roll back already effected price or wage increases.

Food

Food processors will be required mandatorily to comply with present regulations, somewhat modified, including prenotification and approval of cost-justified price increases. Food retailers will be held to present margin markups. Minor administrative modifications will be made. Pay units in the food processing and retailing industries will continue to be covered by present regulations.

A committee drawn from the Cost of Living Council will be established. It will be chaired by the Chairman of the Cost of Living Council and composed of the Chairman of the Council of Economic Advisers, Secretary of Agriculture, Director of the Office of Management and Budget, and Director of the Cost of Living Council. The committee's purpose will be to review and recommend appropriate changes in Government policies having an adverse effect on food prices.

Health

The present controls applicable to this sector will be continued until appropriate modifications are recommended by the committee described below.

A committee drawn from the Cost of Living Council will be established. It will be chaired by the Director of the Cost of Living Council and composed of the Chairman of the Council of Economic Advisers, the Director of the Office of Management and Budget, and the Secretaries of the Treasury and Health, Education, and Welfare. (The Secretary of Health, Education, and Welfare is

V 38 - 8 JAN 12 73 XUM

being added to the Cost of Living Council.) The committee's purpose will be to review and make appropriate recommendations concerning changes in Government programs that could lessen the rise of health costs.

An advisory committee composed of knowledgeable individuals outside the Federal Government will be established. It will have a broad mandate and will advise the Cost of Living Council on such matters as the operation of controls in the health industry and changes in Government programs that could help alleviate the rise of health costs. This committee will also work to mobilize insurance companies and other third-party payers to use their influence to curb the rise in health costs.

Construction

The present Construction Industry Stabilization Committee will continue its work with the twin goals of improving the bargaining structure in the industry and achieving additional progress in bringing the rate of wage growth in this sector into line with the general wage growth in the economy.

Rules are provided to insure that modifications in the wage growth rate can be reflected by adjustments in construction prices.

Interest and Dividends

The present highly successful voluntary program will be continued under the direction of the Committee on Interest and Dividends chaired by Dr. Arthur Burns of the Federal Reserve.

Structure

The Cost of Living Council will be continued and its membership expanded to include:

The Secretary of Health, Education, and Welfare.

Mrs. Anne Armstrong, Counselor to the President.

The Price Commission and Pay Board and all advisory committees will terminate effective not more than 90 days from the date of the Executive order or such earlier date as the COLC Chairman determines. The Price Commission and Pay Board authority and staff will be transferred to the Cost of Living Council.

The following units will be established or reestablished by a new Executive order:

The Cost of Living Council.

Labor-Management Committee.

Cost of Living Council Committee on Food.

Food Industry Advisory Committee.

Cost of Living Council Committee on Health.

Health Industry Advisory Committee.

Construction Industry Stabilization Committee.

Committee on Interest and Dividends.

It is estimated that the Economic Stabilization Program personnel will be decreased from the present, about 4,000, to about 2,000 positions.

Transition

New regulations and requirements will take effect immediately.

Parties covered by present program rules will be required to comply with all such rules up to the effective date of the new regulations. Price-wage changes or profit developments occurring at a time when they are subject to present program rules will be subject to review and enforcement even after the new regulations have taken effect. Parties required to report under present rules will be obligated to report in the regular manner all developments occurring under these rules prior to this date.

While the Price Commission and Pay Board will terminate operations, their staffs will immediately be assigned to the Cost of Living Council to handle the orderly disposition of pending matters including the application of present regulations to matters occurring while they were in effect, particularly annual profit margin reports.

A major program of placement will be undertaken by the Director's office of the Cost of Living Council to assist Pay Board and Price Commission and advisory committee employees in finding suitable employment as the workload decreases.

The Legislation

A 1-year extension of the present Economic Stabilization Act is requested.

[FR Doc. 73-911 Filed 1-11-73;3:36 pm]

COST OF LIVING COUNCIL

COST OF LIVING COUNCIL ORDER NO. 14

Delegation of Authority

Pursuant to the authority vested in me as Chairman of the Cost of Living Council by Executive Order No. 11695 (hereinafter referred to as the Order), it is hereby ordered as follows:

1. There is delegated to the Director of the Cost of Living Council all of the authorities delegated to the Chairman of the Cost of Living Council by the Order.

2. Significant policy decisions shall be made by the Director after consultation with the Chairman of the Cost of Living Council or the Cost of Living Council as appropriate.

3. The Director of the Cost of Living Council is authorized to redelegate any or all of the authorities set out in such Order that he deems necessary for the orderly and efficient exercise of the authority delegated to him.

4. Cost of Living Council Orders 3, 4, 6, 7, 12, and 13 are hereby superseded.

5. This delegation shall be effective as of January 11, 1973.

GEORGE P. SHULTZ,
Chairman, Cost of Living Council.

[FR Doc.73-934 Filed 1-11-73;5:30 pm]

COST OF LIVING COUNCIL ORDER NO. 15

Delegation of Authority

Pursuant to the authority delegated to me by Executive Order No. 11695, it is hereby ordered as follows:

1. There is hereby delegated to the Commissioner of Internal Revenue (the Commissioner), subject to the policy guidance and direction of the Director of the Cost of Living Council (the Director), authority to perform the following functions:

(a) Operation and maintenance of local service and compliance centers established in support of the Economic Stabilization Program in Standard Metropolitan Statistical Areas and such other places as the Commissioner may determine;

(b) Dissemination of information and informal guidance in response to inquiries from the public, except that inquiries received with respect to firms with annual sales or revenues of $50 million or more or pay units of 1,000 employees or more shall be forwarded to the Director for response;

(c) All functions previously delegated to the Secretary of the Treasury, the Commissioner or District Directors of the Internal Revenue Service applicable to the food industry or the health services industry by the Pay Board or the Price Commission, except that matters involving firms with annual sales or revenues of $50 million or more or pay units of 1,000 employees or more shall be forwarded to the Director for response;

(d) Conducting investigations as directed by the Director;

(e) Receiving, investigating, and resolving by obtaining compliance, where possible, complaints received with respect to program violations in the food industry and the health services industry and recommending enforcement action to the Director, where necessary; and

(f) Maintaining adequate records and the making of periodic reports to the Director.

2. All executive departments and agencies shall furnish such necessary assistance to the Commissioner as may be authorized by law.

3. The Commissioner may redelegate to any agency, instrumentality, or official of the United States any authority under this Order, and may, in carrying out the functions delegated by this Order, utilize the services of any other agencies, Federal or State, as may be available and appropriate.

4. Cost of Living Council Orders 5, 8, and 9 and all prior delegations of authority from the Pay Board or the Price Commission to the Secretary of the Treasury, the Commissioner, or District Directors of the Internal Revenue Service are hereby superseded, except that actions in process relating to Phase II matters shall be expeditiously completed.

5. This delegation shall be effective as of January 11, 1973.

GEORGE P. SHULTZ,
Chairman, Cost of Living Council.

[FR Doc.73-935 Filed 1-11-73;5:30 pm]

COST OF LIVING COUNCIL ORDER NO. 16

Delegation of Authority

Pursuant to the authority vested in me by Executive Order No. 11695, it is hereby ordered as follows:

1. There is delegated to the Construction Industry Stabilization Committee (hereinafter referred to as the "Committee") acting through its Chairman authority to assure generally conformance of any increases in any wage or salary in the construction industry to the provisions of this Order. In carrying out its functions the Committee shall give particular attention to improving the collective bargaining process in the construction industry and to the rationalization of the wage structure within geographic areas and between crafts within a particular area.

2. Each craft dispute board established under authority of section 2 of Executive Order No. 11588 and continued under section 5(b) of Executive Order No. 11695 has the responsibility to determine whether wages and salaries are acceptable in accordance with the criteria established pursuant to this Order.

3. (a) It shall be the responsibility of each board, in relation to the craft or branch over which it has jurisdiction, to provide advice and assistance in an effort to resolve any unresolved collective bargaining disputes over wages and salaries and to promptly examine every collective bargaining agreement negotiated on or after March 29, 1971, and to determine in accordance with the criteria established pursuant to this Order whether wage and salary increases in the agreement are acceptable and may thus be approved. The board shall make determinations within a reasonable time and shall notify the parties and the Committee of action taken. When it is determined by the board that a wage or salary increase is not acceptable, the board shall also notify the Chairman of the Cost of Living Council.

(b) Each board shall also have the authority to examine collective bargaining agreements negotiated prior to March 29, 1971, which contain wage or salary increases scheduled to take effect on or after such date to determine whether any increase is unreasonably inconsistent with the criteria established pursuant to this Order.

4. (a) Upon receipt of notification by a board that it has found a wage or salary increase acceptable, the Committee shall have fifteen days in which to determine whether it will assume jurisdiction over the matter. If the Committee does not determine within that time, and so notify the parties and the board, that it will assume jurisdiction, the board's determination will be deemed final and the increase may take effect. If the Committee determines that it will assume jurisdiction it shall be a violation of this Order to implement the increase unless and until the Committee affirms the board's initial determination. The Committee shall notify the parties, the board and the Chairman of the Cost of Living Council of its final action.

(b) The Committee is also authorized, upon its own motion, if a board has not yet reported or an appropriate board has not been established, to review any proposed wage or salary increase to determine its acceptability.

(c) Unless and until an increase in wage or salary has been approved in accordance with the provisions of sections 3(a) and 4 of this Order, it shall be a violation of this Order to put such wage or salary increase into effect.

V 38 I 8 JAN 12 73 XUM

5. Upon a determination by a board or the Committee that a proposed wage or salary increase is not acceptable and certification of that determination by the Chairman of the Cost of Living Council the following actions shall be taken.

(a) In implementing the provisions of the Davis-Bacon Act of March 3, 1931 (46 Stat. 1494, as amended) and related statutes the provisions of which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act, and including State statutes or laws requiring similar wage standards, the Secretary of Labor and all States shall not take into consideration any wage or salary increase in excess of that found to be acceptable in making determinations under that Act and related statutes:

(b) In order to assure that unacceptable wage rates shall not be utilized in Federal or federally-related construction, the heads of all Federal departments and agencies, subject to the direction and coordination of the Chairman of the Cost of Living Council:

(1) shall review all plans for construction and financial assistance for construction in localities in which wage or salary increases have been certified by the Chairman of the Cost of Living Council to be unacceptable and shall, on the basis of that review, determine whether such plans can be approved or continued; and

(2) shall review current and prospective construction contracts for Federal construction and for construction on projects receiving Federal financial assistance in the area affected by a certification by the Chairman of the Cost of Living Council and shall, on the basis of such review, determine whether such contracts can be awarded or continued.

(c) The Committee and the boards shall make public their determinations specifying the craft and area affected and the wages or salaries deemed unacceptable.

6. The Committee shall establish criteria, subject to approval by the Chairman of the Cost of Living Council, to be applied in determining whether any wage or salary increase is acceptable.

7. The parties to a labor contract negotiated in the construction industry shall promptly submit that contract to the appropriate board or boards. Where there is no appropriate board to consider the acceptability of a proposed wage or salary increase, the affected national or international union, and the affected association of contractors shall promptly submit that contract to the Committee.

8. The Committee, subject to approval by the Chairman of the Cost of Living Council, is authorized to issue such rules and regulations as may be necessary to provide for the expeditious and effective conduct of its responsibilities under this Order and to effectuate its purposes. Such authority of the Committee under this section shall include the authority to issue such rules and regulations as may be necessary to assure the effective operation of any board which may be established under this Order, and to provide for the resolution of impasses within any board.

9. (a) The term "construction" shall mean, for the purpose of this Order (1) all work relating to the erecting, construction, altering, remodeling, painting, or decorating of installations such as buildings, bridges, highways and the like, when performed on a contract basis, but shall not include maintenance work performed by workers employed on a permanent basis in a particular plant or facility for the purpose of keeping such plant or facility in efficient operating condition; (2) the transporting of materials and supplies to or from a particular building or project by the workers of the contractor or subcontractor performing the construction or the manufacturing of materials, supplies, or equipment on the site of a project by such workers; and (3) all other work classified as construction in section 5.2(g) of Part 5, Title 29 of the Code of Federal Regulations.

(b) The term "wage or salary" will mean, for the purpose of this Order, all wage or salary rate schedules and economic benefits established pursuant to a collective bargaining agreement in the construction industry.

10. (a) Subject to approval by the Chairman of the Cost of Living Council, the Chairman of the Committee may redelegate to any agency, instrumentality, or official of the United States any authority under this Order and may, in carrying out the functions delegated to him by this Order, utilize the services of any other agencies, Federal or State, as may be available and appropriate.

(b) Subject to approval by the Chairman of the Cost of Living Council, the Chairman of the Committee shall have the authority to sign and issue subpenas for the attendance and testimony of witnesses and the production of relevant books, papers, and other documents, and to administer oaths, all in accordance with section 206 of the Economic Stabilization Act of 1970, as amended, for any purpose related to the Act.

(c) Subject to approval by the Chairman of the Cost of Living Council, the Chairman of the Committee may recommend to the Department of Justice enforcement action designed to assure compliance with this Order and the regulations and orders of the CISC.

11. This Order shall be effective immediately.

GEORGE P. SHULTZ,
Chairman, Cost of Living Council.

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for filing, publishing, and making available to the public, regulations and legal notices issued by the Executive Branch of the Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 6—ECONOMIC STABILIZATION

Rulings—Internal Revenue Service, Department of the Treasury

[Price Commission Ruling 1973-1; Cost of Living Council Ruling 1973-1]

CHANGE IN BUSINESS PRACTICES

Price Commission and Cost of Living Council Ruling

Facts. Husband (H) and wife (W) jointly own 12 single-family rental residences. On August 22, 1972, Cost of Living Council Ruling 1972–103 (37 FR 16833), appeared in the FEDERAL REGISTER. The ruling contained the following paragraph:

> Since no person can be related to a partnership so as to be a "member of the family" (as defined in section 318 of the Internal Revenue Code of 1954, as amended) of the partnership and since the partnership itself owns or has an interest in only four rental units, those units are exempt.

H and W upon reading this ruling set up three jointly owned partnerships and transferred ownership of the 12 rental units to the partnerships. As a result each partnership now owns four rental units, but each partnership has the same two partners, H and W.

Issue. Are the 12 units considered exempt from the economic stabilization rent regulations?

Ruling. No. The units are not now considered exempt from the rent regulations, Economic Stabilization Regulation §§ 301.1–301.451, 37 FR 13226 (1972). Regulation § 301.304 provides that "no lessor or owner may make any changes in his leasing or business practices with respect to any residence subject to this part for the purpose of avoiding compliance with any provision of this part."

The owners of these residences have made a change in business practices to avoid compliance with all of the provisions of the rent regulations. The change in the form of ownership to circumvent these provisions is a change in business practices.

This ruling has been approved by the general counsels of the Price Commission and the Cost of Living Council.

Dated: January 8, 1973.

LEE H. HENKEL, Jr.,
Chief Counsel,
Internal Revenue Service.

Approved: January 8, 1973.

SAMUEL R. PIERCE, Jr.,
General Counsel,
Department of the Treasury.

[FR Doc.73-742 Filed 1-12-73;8:45 am]

[Price Commission Ruling 1973-2]

NONREGULATED ACTIVITIES OF PUBLIC UTILITIES

Price Commission Ruling

Facts. A regulated public utility providing gas is the parent corporation of a subsidiary which supplies water service to 37 customers. The parent proposes to increase water rates and claims that the subsidiary is an unregulated public utility. The State utility commission does not regulate the water rates on the basis of the small gross income generated by the subsidiary. Furthermore, when the parent approaches the State commission for increases in its rate structure, the State utility commission does not consider the subsidiary's revenues in approving rate increases requested by the parent.

Issue. Is the proposed increase in rates of the subsidiary governed by Economic Stabilization Regulation, 6 CFR 300.301–300.311 (1972)—"Public Utilities" or by Regulation § 300.14—"Service Organization"?

Ruling. The proposed rate increase cannot go into effect unless justified under § 300.14. Section 300.14(a)(1) provides that the service regulation does not apply to public utilities covered under Subpart C (§§ 300.301–300.311). Section 300.309 provides "those activities and subsidiaries of a regulated public utility which are not regulated by a regulatory agency and the revenues of which are not included by a regulatory agency in the ratemaking process for that public utility, are not subject to this subpart (meaning Subpart C), but are subject to the provisions of Price Commission Regulations."

Section 300.309 lists two criteria which define the nonutility activity of a regulated public utility. Because the water service meets both criteria outlined in § 300.309, it does not fall under Subpart C. The water service subsidiary is governed by § 300.14 as it is not amenable to Subpart C, and any increases above base price can be made only to reflect increases in allowable costs.

This ruling has been approved by the general counsel of the Price Commission.

[Price Commission Ruling 1973-3]

NO FLOOR ON RENT DECREASE

Price Commission Ruling

Facts. The voters in State X will vote on whether to substantially decrease real property taxes in the State. If the initiative is successful, landlords could suddenly be faced with 50 percent decreases in the real property taxes on their buildings. Economic Stabilization Regulations, § 301.102, 37 FR 20251 (1972), provides that such decreases must be passed on to the tenants over a 12-month period.

Issue. Is the landlord required to decrease rents to levels below the rent charged on May 25, 1970, due to substantial decreases in real property taxes?

Ruling. Yes. Section 203(a) of the Economic Stabilization Act of 1970, Public Law 92–210 (1971), states: "The President is authorized to issue such orders and regulations as he deems appropriate, accompanied by a statement of reasons for such orders and regulations, to (1) stabilize prices, rents, wages, and salaries at levels not less than those prevailing on May 25, 1970, except that prices may be stabilized at levels below those prevailing on such date if it is necessary to eliminate windfall profits or if it is otherwise necessary to carry out the purposes of this title * * *" The President delegated his authority under section 203(a) to the Cost of Living Council which in turn redelegated part of this authority to the Price Commission. The Commission decided that in the case of some decreases in allowable costs it would be necessary to stabilize rents at levels below those prevailing on May 25, 1970 in order to carry out the purposes of the Act. In order to implement this decision the Price Commission promulgated Economic Stabilization Regulations, § 301.102(a) which states: "Notwithstanding any other provision of this part, the rent charged for any residence shall be reduced to reflect decreases in allowable costs in accordance with this paragraph." Thus, the rent may be decreased below the floors set by other sections of the rent regulations. Further evidence of this intent is provided by additional language in the same section which provides: "When no increase in allowable costs allocable to a residence occurred after August 15, 1971, but a decrease in those costs occurred after that date, the rent of the residence shall be reduced by the amount of the decrease." Thus the landlord will have to decrease his rent even if it has not been increased over the base level.

Section 301.102(a) affects only the amount of rent charged, not the base rent. Before applying that section the rent allowable under Economic Stabilization Regulations, § 301.101, 37 FR 13226 (1972), should be computed. The

V38-9 JAN 15 73 XUM

decrease mandated by § 301.102(a) should then be subtracted from such rent in order to arrive at the amount that may be charged.

This ruling has been approved by the General Counsel of the Price Commission.

[FR Doc.73-744 Filed 1-12-73;8:45 am]

[Price Commission Ruling 1973-4]

EVEN DOLLAR CATEGORY PRICING SYSTEM

Price Commission Ruling

Facts. Retailer A has historically priced its merchandise in even dollars or in multiples of $1. Almost all merchandise is sold at three for a dollar, two for a dollar, $1, $2, etc. The firm's stores are organized into departments, and prices are established and changed for items within departmental product groups by considering the effect of the even dollar prices on consumer acceptance and the average markup A desires to earn in each department. A has not customarily set and changed prices on each item within a department to reflect cost and cost changes on that item. Rather, A has customarily determined prices for a group of items in order to achieve a particular weighted average markup for the entire group. A can demonstrate that while some prices being charged are in excess of base prices, the weighted average markup for each product group for a fiscal quarter, which is A's shortest accounting period, is not in excess of the weighted average markup earned for that product during its last fiscal year ending before August 15, 1971.

Issue. May A continue to use its customary pricing practice so long as the weighted average markup for each product group for each shortest accounting period not to exceed a fiscal quarter is not in excess of the weighted average markup earned for that product group in its last fiscal year ended before August 15, 1971?

Ruling. Yes. A may continue to use its customary pricing practice. This method of pricing is a type category pricing, and the limiting markup which may not be exceeded for any particular product group is the weighted average markup earned on that merchandise category during the firm's last fiscal year ending before August 15, 1971.

A retailer may not charge a price after November 13, 1971, in excess of the base price if such price would result in a customary initial percentage markup (CIPM) in excess of its limiting CIPM. Economic Stabilization Regulations, 6 CFR 300.13 (1972). If a firm does not meet one of the determining tests for category pricing provided in Price Commission Ruling 1972-151, 37 F.R. 8562 (1972), it must control prices on a item-by-item level. Firm A cannot be said to have priced its goods in a manner that produced a certain percentage markup on each product since A's item price changes rarely reflect cost changes in the specific item. A has priced its goods in even dollar amounts in accordance with the markup it desired to earn on each group of products. Under the facts of this case, A qualifies as a category pricer.

Pursuant to Economic Stabilization Regulations 6 CFR 300.13 (1972), a retailer or wholesaler is limited to the customary markup prevailing during its last fiscal year prior to August 15, 1971, or, at its option, its last markup applied prior to November 14, 1971. Since a category pricer sets prices to obtain an average markup over time, such a pricer cannot be said to have had a last markup prior to November 14, 1971, unless it prices all items simultaneously. Therefore, A is limited to the weighted average markup which it earned on the same product group during its last fiscal year prior to August 15, 1971.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1973-5]

LENGTH OF LEASE

Price Commission Ruling

Facts. In the State of New York a landlord and tenant entered into an agreement for the lease of an apartment on December 13, 1968. The lease was for a term of 2 years (February 1, 1969 to January 1, 1971) at a monthly rental of $370. Under the terms of the agreement, tenant was given the option to renew for an additional year at a monthly rental of $385. On November 23, 1970, the tenant notified the landlord in writing that he decided to exercise the option and would remain in the apartment for another year until January 1, 1972.

Issue. Whether the 2-year lease containing an option to renew for an additional year, constitutes a single lease or whether the exercise of the option constitutes a new lease?

Ruling. This lease is one lease of 3-year duration. Such terminology such as execute a lease, renew a lease, enter into a lease, or duration of a lease mentioned in Economic Stabilization Regulation, 6 CFR 301.2 (1972) are undefined in the stabilization regulations.

The Price Commission looks to local law for the definition of this term. Under New York law, the tenant's exercise of an option to extend the term accomplishes not a new lease but simply a promulgation of the original agreement for a further period; once the option is exercised, the original lease is deemed one for the entire term. Matter of Harvey Holding Corp., 297 N.Y. 113, 75 NE. 2d 619 (1947). Although the results in some States may vary, one must look to local law for interpretation of such terms.

This ruling has been approved by the General Counsel of Price Commission.

[Price Commission Ruling 1973-6]

PC-51, FIRMS MAKING REDUCTION PURSUANT TO PRICE COMMISSION PROFIT MARGIN ORDER

Price Commission Ruling

Facts. Firm A, a prenotification firm, exceeded its base period profit margin for its 1971 fiscal year and was ordered by the Price Commission to reduce prices by three times the revenues derived from above-base price sales during the fiscal year, or three times the amount of the profit margin excess, whichever is less.

During its 1971 fiscal year, the firm exceeded its base period profit margin by $2 million. The amount of revenues derived from price increases from November 14, 1971, to the end of its 1971 fiscal year was $33,000. Consequently, the amount of the price reductions required by the Price Commission order is $99,000 ($33,009×3).

Issue. What adjustments must firm A make in the Form PC-51 it files during its 1972 fiscal year as a result of the price reductions it made?

Ruling. Economic Stabilization Regulations, 6 CFR 300.54(g) (1972), provides that firms which make price reductions pursuant to a Price Commission order for exceeding their base period profit margin may not deduct from their revenues the amount of those reductions. Thus, a corresponding adjustment is required in reporting operating profit to the Price Commission for the fiscal quarter in which the reductions are made.

This adjustment is made in a supplement to Form PC-51 by adding the amount of price reductions actually made pursuant to the order to the amount reported on line 5 of Form PC-51 submitted for the period in which the reductions are made. No adjustment should be made to cost of goods sold or operating expenses. Therefore, in the supplemental calculation, line 9 of Form PC-51 (operating income) will be increased by the amount of price reductions made pursuant to the order during the fiscal quarter for which the form is prepared.

This ruling has been approved by the General Counsel of the Price Commission.

[FR Doc.73-747 Filed 1-12-73;8:45 am]

[Price Commission Ruling 1973-7]

PRICING LIMITATION FOR LOW-PROFIT WHOLESALE FIRMS

Price Commission Ruling

Facts. Wholesalers X, Y, and Z are "low-profit firms" as defined in Economic Stabilization Regulations, 6 CFR 300.31 (1972). X, Y, and Z are each eligible, under this section, to effect price increases reasonably calculated to bring the firm to its applicable profit margin.

X sells goods to retailers at a price equivalent to X's landed invoice cost of the goods plus a "service fee" which varies with the dollar amount of goods purchased by the retailer. X adds 10 percent of the cost to all sales of under $1,000, 5 percent of the cost to all sales between $1,000 and $5,000, and 3 percent of the cost to all sales of $5,000 or more.

Y sells goods to retailers at a price equivalent to Y's landed invoice cost of the goods plus a markup over this cost which varies with the physical volume of goods purchased by the retailer. Y adds 10 percent of the cost to all sales of under 100 lbs., 5 percent of the cost to all sales from 100 lbs. to 500 lbs., and 3 percent of the cost to all sales of over 500 lbs.

Z sells goods at a price equivalent to Z's landed invoice cost of the goods plus a markup over this cost which varies with the type of customers. Z adds 10 percent of the cost to all sales made to retail outlets, 5 percent of the cost to all sales made to other wholesaler distributors, and 3 percent of the cost to all sales made to industrial users of the products.

Issue. How do wholesalers X, Y, and Z calculate the maximum allowable selling price of each item under § 300.31?

Ruling. Under Economic Stabilization Regulations, 6 CFR 300.13, (1972), retailers and wholesalers determine maximum selling price by applying the customary initial percentage markup (CIPM) to the landed invoice cost of the product. CIPM is defined in Economic Stabilization Regulations, 6 CFR 300.5 (1972), as "the markup applied to the cost • • • of merchandise when first offered for sale, determined on an item, product line, department, store, or other pricing unit basis, according to the person's customary pricing practice." Economic Stabilization Regulations, 6 CFR 300.31(e) (1972), provides: "No • • • wholesaler may, in the course of any of its fiscal years, increase the price of any of its products under this [§ 300.31] by an amount which results in an increase of more than 8 percent of the customary initial percentage markup of such products." Thus, for the purpose of the low profit regulation, § 300.31, a wholesaler's maximum selling price for each item or group of items is determined by applying a markup of 108 percent of the applicable CIPM to the landed invoice cost of the goods. Price Commission Ruling 1972-251, 37 FR 20833.

X may, therefore, charge a price no higher than the price equivalent to X's cost of goods plus such cost multiplied by 108 percent of X's CIPM, in this case the applicable "service fee." Thus, X may add 10.8 percent of the cost to all sales of under $1,000, 5.4 percent to all sales between $1,000 and $5,000, and 3.24 percent to all sales of $5,000 or more.

Y may charge a price no higher than the price equivalent to Y's cost of the goods plus such cost multiplied by 108 percent of Y's applicable CIPM. Thus Y may add 10.8 percent of the cost to all sales under 100 lbs. to 500 lbs., and 3.24 percent to all sales of over 500 lbs.

Z may charge a price no higher than the price equivalent to Z's cost of the goods plus such cost multiplied by 108 percent of Z's applicable CIPM. Thus Z may add 10.8 percent of the cost to all sales to retail outlets, 5.4 percent to all sales to other wholesaler distributors, and 3.24 percent to all sales to industrial users of the products.

This ruling has been approved by the General Counsel of the Price Commission.

[FR Doc.73-748 Filed 1-12-73;8:45 am]

[Price Commission Ruling 1973-8]

SPECIAL ASSESSMENTS

Price Commission Ruling

Facts. Lessor X owns six residences. On June 1, 1972, a one-time special assessment fee for sewage hookup to one of the residences became payable to the city in which that residence was located. On December 1, 1972, the first installment of an increased property tax on that residence will become due and payable to the city. Section 301.101(a)(2) of the regulations permits rent to be increased above the base rent to pass through increases in allowable costs which occur after August 15, 1971. The recovery of an increase in allowable cost attributable to the period after December 28, 1971, which could have been passed through in an increased rent but was not is permitted under § 301.101 (a)(2)(v). Economic Stabilization Regulations, 6 CFR 301.101(a)(2) (1972). Following proper notification, X wishes to increase the rent on the residence to reflect both the special assessment for the sewage hookup payable on June 1, 1972, and the increase in the real estate taxes payable on December 1, 1972.

Issue. May rent be increased or the increase in allowable costs be calculated to take account of a special assessment which is payable prior to July 4, 1972?

Ruling. No. Prior to July 4, 1972, a special assessment was not considered to be an allowable cost. Only special assessments payable after that date can be used to increase rent or to calculate an allowable cost increase.

The rent regulations in Part 301 in effect from December 28, 1971 through July 3, 1972 permitted a rent in excess of the base rent to be charged to reflect increases in allowable costs dollar-for-dollar. Those regulations stated that, "Special assessments imposed by any governmental authority are not considered to be an item of allowable costs." Economic Stabilization Regulations, 6 CFR 301.102(b)(1)(ii), 36 FR 25387 (1971). This rule was changed in the publication of the rent regulations in Part 301 in 37 FR 13226 (1972). In the introductory material to the July 4, 1972, regulations it was stated that, "Special assessments are now considered as items of allowable costs, whereas they were previously excluded."

Because the definition of allowable costs in the rent regulations of July 4, 1972, was not made retroactive, special assessments payable prior to July 4, 1972, are not considered allowable costs which may be used to calculate an allowable cost increase. Therefore, in calculating the amount of the increase in allowable costs under § 301.101(a)(2)(ii), X must exclude all special assessments payable before July 4, 1972. He may increase rent to reflect the increase in real estate taxes for leases entered into on or after December 1, 1972, the date the increased taxes are payable, or as provided for in a lease entered into before that date.

It is true that § 301.101(a)(2)(v) of the regulations permits a recovery of a rent increase which may have been charged for the period after December 28, 1971, due to increases in allowable costs which have not been passed through in an increased rent, Price Commission Ruling 1972-250, 37 FR 20832 (1972). However, under the regulations in effect at the time the special assessment was payable in this case no rent increase was allowed for that cost. X may therefore not increase rent now under § 301.101 (a)(2)(v) to recover the increase in allowable costs due to the special assessment which was payable on June 1, 1972.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 282, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period January 5–11, 1973. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 282 (38 FR 744). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i), (ii), and (iii) of § 907.582 (Navel Orange Regulation 282 (38 FR 744)) are hereby amended to read as follows:

§ 907.582 Navel Orange Regulation 282.

* * * * *

(b) *Order.* (1) * * *

(i) District 1: 760,000 Cartons;

(ii) District 2: 142,000 Cartons;

(iii) District 3: 48,000 Cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: January 10, 1973.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-832 Filed 1-12-73;8:45 am]

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 2—RULES OF PRACTICE

Definition of "AEC Personnel"

The Atomic Energy Commission has adopted an amendment to its rules of practice in 10 CFR Part 2 which refines the definition of "AEC personnel" as used in that part.

Section 2.4 of Part 2 now includes within the definition of "AEC personnel" persons who are "consultants * * * of the AEC." In order to clarify the scope of the term "consultants * * * of the AEC," the amendment adopted specifically includes within that definition persons who are acting in the capacity of consultants to the Commission, regardless of the form of the contractual arrangements under which such persons render consultant services. Thus, employees of AEC contractors are included in the definition of AEC personnel (for §§ 2.270 and 2.740 purposes only) to the extent that they act as consultants to the Commission, even though there is no special contract for consulting services between the Commission and such employees.

The clarification of the definition in § 2.4 has the effect of making applicable to employees of AEC contractors and other persons acting as consultants to the Commission, regardless of the form of the contractual arrangements, § 2.270 (h), which deals, inter alia, with attendance and testimony of "AEC personnel."

Since the amendment which follows relates to rules of agency procedure and practice, notice of proposed rule making and public procedure thereon are not required by section 553 of Title 5 of the United States Code and the amendment may be made effective without the customary 30 day notice.

Effective date. Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendment to Title 10, Chapter 1, Code of Federal Regulations, Part 2, is published as a document subject to codification, to be effective on January 15, 1973.

1. Section 2.4(p) of 10 CFR Part 2 is amended to read as follows:

§ 2.4 Definitions.

* * * * *

(p) "AEC personnel" means (1) AEC employees, (2) for the purpose of §§ 2.720 and 2.740 only, persons acting in the capacity of consultants to the Commission, regardless of the form of the contractual arrangements under which such persons act as consultants to the Commission; and (3) members of advisory boards, committees, and panels of the AEC; members of boards designated by the Commission to preside at adjudicatory proceedings; and officers or employees of Government agencies, including military personnel, assigned to duty at the AEC.

* * * * *

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

For the Atomic Energy Commission.

Dated at Washington, D.C., this 27th day of December 1972.

PAUL C. BENDER,
Secretary of the Commission.

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. T]

PART 220—CREDIT BY BROKERS AND DEALERS

Ninety Day Restriction in Special Cash Account

The Board of Governors, pursuant to section 7 of the Securities Exchange Act of 1934 (15 U.S.C. 78g), has amended § 220.4(c)(8) of Regulation T, "Credit by Brokers and Dealers," effective January 2, 1973.

The amendment clarifies that the computation of the 90-day freeze provided for in § 220.4(c)(8) begins with the trade date of the sale of a security with respect to which the customer has not previously paid for the cost of the purchase within the allotted 7 business days, rather than with the trade date of such purchase.

The text of the amendment reads as follows:

§ 220.4 Special accounts.

* * * * *

(c) *Special cash account.* * * *

(8) Unless funds sufficient for the purpose are already in the account, no security other than an exempted security shall be purchased for, or sold to, any customer in a special cash account with the creditor if any security other than an exempted security has been purchased by such customer in such an account, and then, for any reason whatever, without having been previously paid for in full by the customer, the security has been sold in the account or delivered out to any broker or dealer during the preceding 90 days: *Provided,* That an appropriate committee of a national securities exchange or a national securities association, on application of the creditor, may authorize the creditor to disregard for the purposes of this subparagraph any given instance of the type therein described if the committee is satisfied that both creditor and customer are acting in good faith and that circumstances warrant such authorization. For the purposes of this subparagraph, the cancellation of a transaction, otherwise than to correct an error, shall be deemed to constitute a sale. The creditor may disregard for the purposes of this subparagraph a sale without prior payment provided full cash payment is received within the period described by subparagraph (2) of this paragraph and the customer has not withdrawn the proceeds of sale on or before the day on which such payment (and also final payment of any check received in that connection) is received. The creditor may so disregard a delivery of a security to another broker or dealer provided such delivery was for deposit into a special cash account which the latter broker or dealer maintains for the same customer and in which account there are already sufficient funds to pay for the security so purchased; and for the purpose of determining in that connection the status of a customer's account at another broker or dealer, a creditor may rely upon a written statement which he accepts in good faith from such other broker or dealer.

* * * * *

By order of the Board of Governors, January 2, 1973.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.73-759 Filed 1-12-73;8:45 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 72-NE-31; Amdt. 39-1583]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky Model S-61 Helicopters

There have been reports of cracking and loose or missing screws in the outboard end of the main rotor blades on Sikorsky Model S-61 helicopters, and their military counterparts, which could result in loss of the tip cap with a possible loss or impairment of aircraft controllability. Since this condition is likely to exist or develop in other helicopters of the same type design, an airworthiness directive is being issued to require inspection of the affected area for cracks and loose or missing screws and repair or replacement of cracked or loose parts as necessary.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SIKORSKY. Applies to all Sikorsky S-61A, S-61L, S-61N, S-61R helicopters certificated in all categories.

Compliance required as indicated.

To prevent operation with loose or missing screws or cracks in the outboard end of main rotor blades including the tip cap and tip cap bracket accomplish the following:

(a) Inspect main rotor blades, series S6115-20501, series S6115-20601 and series S6117-20101 with less than 2,000 hours time in service on the effective date of this AD for loose or missing screws or cracks at the outboard end of the main rotor blade spar, tip cap or tip cap bracket, in accordance with Sikorsky Service Bulletin No. 61B15-9A dated November 9, 1972, or later FAA approved revisions, or equivalent inspection approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region, within the next 30 hours time in service unless already accomplished and at intervals thereafter within 30 hours time in service from the last inspection until 2,000 hours are reached, after which inspect in accordance with (b) below. If screws are missing or loose and cannot be secured, replace main rotor blades prior to further flight. If cracks are found, repair or replace the affected part in accordance with Sikorsky Service Bulletin No. 61B15-9A dated November 9, 1972 prior to further flight.

(b) Inspect main rotor blades, series S6115-20501, series S6115-20601 and series S6117-20101 with 2,000 hours or more time in service on the effective date of this AD for loose or missing screws or cracks at the outboard end of the main rotor blade spar, tip cap or tip cap bracket in accordance with Sikorsky Service Bulletin No. 61B15-9A dated November 9, 1972, or later FAA approved revisions, or equivalent inspection approved by the Chief, Engineering and Manufacturing Branch, FAA, New England Region, prior to first flight of each day. If screws are missing or loose and cannot be secured, replace main rotor blade prior to further flight. If cracks are found, repair or replace the affected part in accordance with Sikorsky Service Bulletin No. 61B15-9A dated November 9, 1972 prior to further flight.

This amendment becomes effective January 24, 1973.

(Sec. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Mass., on January 3, 1973.

FERRIS J. HOWLAND,
Director, New England Region.

[FR Doc.73-737 Filed 1-12-73;8:45 am]

[Airspace Docket No. 72-RM-22]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Area

On December 8, 1972, FR Doc. 72-21074 was published in the FEDERAL REGISTER (37 FR 26102) which amends Part 73 of the Federal Aviation Regulations, effective 0901 G.m.t., February 1, 1973, by revoking restricted area R-2601A and altering restricted areas R-2601B and R-2602 at Fort Carson, Colo. One of the changes involved deleting "B" from the identification of R-2601B, in Part 73. A similar deletion should also have been made in Part 71, Subpart D—Continental Control Area. Action is taken herein to make this change.

Since this amendment is minor in nature with no substantive change in the regulations, notice and public procedure thereon are unnecessary, and good cause exists for making this amendment effective on less than 30-days notice.

In consideration of the foregoing, effective on January 15, 1973, FR Doc. 72-21074 (37 FR 26102) is amended, as hereinafter set forth. Add "In § 71.151 (38 FR 341) 'R-2601B Fort Carson, Colo.' delete the letter 'B' from the identification."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 5, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-734 Filed 1-12-73;8:45 am]

[Airspace Docket No. 72-RM-33]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to alter the time of designation

V 38 I 9 JAN 15 73 XUM

of restricted areas R–6401, Deseret, Utah, and R–6403, Tooele, Utah, and to reduce the lateral boundaries of R–6403.

The Department of the Army has advised that they no longer have a requirement for continuous time of designation for R–6401 and R–6403 but that their needs can be satisfied if the restricted areas are designated from 0800 to 2000 local time—Monday through Friday. Additionally, the Department of the Army has determined that the lateral dimensions of R–6403 can be reduced and still contain the activity for which it was designated.

Since this amendment restores airspace to the public use and relieves a restriction, notice and public procedure thereon are deemed unnecessary and good cause exists to make this amendment without regard to the 30-day period preceding effectiveness.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective on January 15, 1973, as hereinafter set forth.

1. Section 73.64 (38 FR 670) R–6401, Deseret, Utah. The time of designation "Continuous" is deleted and "0800 to 2000 local time, Monday through Friday" is substituted therefor. The word "Ordnance" in the using agency is deleted and the word "Army" is substituted therefor.

2. Section 73.64 (38 FR 670) R–6403, Tooele, Utah, is revoked and the following is substituted therefor:

R–6403, TOOELE, UTAH

BOUNDARIES

Beginning at lat. 40°30'44" N., long. 112°27'30" W.; to lat. 40°29'32" N., long. 112°27'30" W.; to lat. 40°29'32" N., long. 112°29'15" W.; to lat. 40°30'44" N., long. 112°29'15" W.; to the point of beginning.

Designated altitudes. Surface to 9,000 feet MSL.

Time of designation. 0800 to 2000 local time, Monday through Friday.

Using agency. Commanding Officer, Tooele Army Depot, Tooele, Utah.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 5, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–733 Filed 1–12–73;8:45 am]

[Airspace Docket No. 72–SO–128]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Areas

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to alter restricted areas R–7101, Culebra Island, Puerto Rico, and R–7104, Vieques Island, Puerto Rico. R–7101 is to be divided into two subareas and both R–7101 and R–7104 are to be reduced in size.

The alterations to R–7101 and R–7104 were recommended by the U.S. Navy to promote better utilization of airspace and to allow the civil aviation community easier access to the islands of Culebra and Vieques.

Since this amendment restores airspace to the public use and relieves a restriction, notice and public procedure thereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 1, 1973, as hereinafter set forth.

In § 73.71 (38 FR 677)

1. Amend the description for R–7101, Culebra Island, Puerto Rico, to read as follows:

R–7101 CULEBRA ISLAND, PUERTO RICO

SUBAREA A

Boundaries. That airspace over Culebra Island and surrounding waters.

Beginning at lat. 18°22'40" N., long. 65°15'00" W.; to lat. 18°18'57" N., long. 65°19'02" W.; to lat. 18°16'40" N., long. 65°19'02" W.; to lat. 18°15'20" N., long. 65°20'15" W.; thence clockwise along the 3-nautical-mile limit from the shoreline to point of beginning.

Designated altitudes. Surface to FL 500.

Time of designation. Continuous.

Controlling agency. Federal Aviation Administration, San Juan ARTC Center.

Using agency. Commander Fleet Air Caribbean/Atlantic Fleet Weapons Range, NAS Roosevelt Roads, Puerto Rico.

SUBAREA B

Boundaries. That airspace over the waters south of Culebra Island.

Beginning at lat. 18°15'20" N., long. 65°20'15" W.; to lat. 18°16'40" N., long. 65°19'02" W.; to lat. 18°15'15" N., long. 65°14'00" W.; thence clockwise along the 3-nautical-mile limit from the shoreline to point of beginning.

Designated altitudes. Surface to FL 500.

Time of designation. Continuous.

Controlling agency. Federal Aviation Administration, San Juan ARTC Center.

Using agency. Commander Fleet Air Caribbean/Atlantic Fleet Weapons Range, NAS Roosevelt Roads, P.R.

2. Amend R–7104 Vieques Island, Puerto Rico, as follows:

a. After the words, "• • • The airspace over Vieques Island and the surrounding waters • • •" delete the words "• • • extending to the 3-nautical-mile limit from the shoreline • • •." and substitute the following therefor:

"• • • beginning at lat. 18°02'45" N., long. 65°27'05" W.; to lat. 18°13'10" N., long. 65°25'27" W.; thence clockwise along the 3-nautical-mile limit from the shoreline to point of beginning • • •."

b. Delete all after the words "• • • Using agency • • •." and substitute the following therefor: "• • • Commander Fleet Air Caribbean/Atlantic Fleet Weapons Range, NAS Roosevelt Roads, Puerto Rico • • •."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 8, 1973.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–731 Filed 1–12–73;8:45 am]

[Airspace Docket No. 72–SW–83]

PART 73—SPECIAL USE AIRSPACE

Revocation of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to revoke restricted area, R–6304 Camp Bowie, Tex.

R–6304 was designated as a joint-use restricted area for VFR night aerial photography because the exploding flash powder charge and free falling dud cartridges associated with the operation constituted a hazard to nonparticipating aircraft using the same airspace. Subsequent to its designation, the utilization of R–6304 was minimal due to numerous complaints from the populace living in the Brownwood, Tex. area. No future use is anticipated because of the lack of an adequate noise abatement solution.

Since this amendment restores airspace to the public use and relieves a restriction, notice and public procedure thereon are deemed unnecessary and good cause exists to make this amendment effective without regard to the 30-day period preceding effectiveness.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective on January 15, 1973, as hereinafter set forth.

Section 73.63 (38 FR 669) R–6304 Camp Bowie, Tex., is revoked.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on January 5, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73–732 Filed 1–12–73;8:45 am]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C–2332]

PART 13—PROHIBITED TRADE PRACTICES

California Textures, Inc., and Richard Oliver

Subpart—Importing, manfacturing, selling, and transporting flammable wear: § 13.1060 *Importing, manufacturing, selling, and transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, California Textures, Inc., et al., City of Commerce, Calif., Docket No. C–2332, Dec. 12, 1972]

In the Matter of California Textures, Inc., a Corporation, and Richard Oliver, Individually and as an Officer of Said Corporation

Consent order requiring a Commerce, Calif., manufacturer of carpets and rugs, among other things, to cease manufacturing, selling, and distributing carpeting which does not meet the acceptable criteria for carpeting under the Flammable Fabrics Act, as amended.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent California Textures, Inc., a corporation, its successors and assigns, and its officers, and respondent Richard Oliver, individually and as an officer of said corporation and respondents' agents, representatives, and employees directly or through any corporation, subsidiary, division or other device, do forthwith cease and desist from manufacturing for sale, selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any product, fabric, or related material; or manufacturing for sale, selling, or offering for sale, any product made of fabric or related material which has been shipped or received in commerce, as "commerce," "product," "fabric," and "related material" are defined in the Flammable Fabrics Act, as amended, which product, fabric, or related material fails to conform to an applicable standard or regulation continued in effect, issued or amended under the provisions of the aforesaid Act.

It is further ordered, That respondents notify all of their customers who have purchased or to whom have been delivered the products which gave rise to this complaint, of the flammable nature of said products and effect the recall of said products from such customers.

It is further ordered, That the respondents herein either process the products which gave rise to the complaint so as to bring them into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products.

It is further ordered, That respondents herein shall, within ten (10) days after service upon them of this order, file with the Commission a special report in writing setting forth the respondents' intentions as to compliance with this order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the products which gave rise to the complaint, (2) the identity of the purchasers of said products, (3) the amount of said products on hand and in the channels of commerce, (4) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products and effect the recall of said products from customers, and of the results thereof, (5) any disposition of said products since February 26, 1972, and (6) any action taken or proposed to be taken to bring said products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or to destroy said products, and the results of such action. Respondents will submit with their report, a complete description of each style of carpet or rug currently in inventory or production. Upon request, respondents will forward to the Commission for testing a sample of any such carpet or rug.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: December 12, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

[FR Doc.73–761, Filed 1–12–73;8:45 am]

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R–469; Order 467]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Utilization and Conservation of Natural Gas

JANUARY 8, 1973.

This order contains a statement of policy by the Commission on priorities-of-deliveries by jurisdictional pipeline companies during periods of curtailment. The Commission proposes to implement such policy in all matters arising under the Natural Gas Act.

When applied in specific cases, opportunity will be afforded interested parties to challenge or support this policy through factual or legal presentation as may be appropriate in the circumstances presented. It is the Commission's intention in this statement to focus the attention of all parties concerned with the natural gas industry upon the general policy views of the Commission in advance of the filing of particular applications with the Commission and thereby to permit affected entities the opportunity to evolve a rational energy resource development program considering national energy goals and objectives as they may be stated from time-to-time, and to minimize the complexity and length of administrative proceedings before this Commission.

Concurrently, the Commission is issuing, in Docket No. R–467, Utilization and Conservation of Natural Resources—Natural Gas, a notice of proposed policy statement pertaining to the priorities of usage of our natural gas supply. In this notice, we discussed the critical shortage of natural gas supply and its effect on this Nation's progress. We then found that it was necessary to promulgate procedures that would maximize high priority of usage for this natural resource. We adopt that discussion here and find, based on that analysis, that procedures should be adopted to maximize the high priority usage of natural gas during curtailment periods on a pipeline's system.

General Discussions. As stated in that notice, the Commission has been called upon to determine the propriety of curtailment procedures to be invoked by jurisdictional pipeline companies during periods of curtailed deliveries. In reaching its decisions, the Commission has reviewed the records in those proceedings and, based upon those reviews, has concluded that the customers' use of the natural gas fall into certain set categories. Accordingly, we believe that those categories are generally applicable industry-wide and can be utilized for establishing priorities-of-delivery during periods of short supply on any jurisdictional pipeline's system. We, of course, recognize that extraordinary circumstances may preclude the strict adherence to the priorities established and, consequently, we will permit those persons who allege that their circumstances require such extraordinary treatment to file petitions for relief under § 1.7(b) of our rules of practice and procedure. Barring such circumstances, our review of those curtailment proceedings and our knowledge of the industry convinces us that the priorities-of-delivery set forth below should be applied to all jurisdictional pipeline companies during periods of curtailment.

The curtailment procedures to be followed must have as their basic objective the protection of deliveries for the residential and small volume consumers who cannot be safely curtailed on a daily basis and requiring, as the initial level of curtailment, reduction in deliveries for large volume interruptible sales. As we pointed out in our Ark-La decision [1]

[1] Arkansas-Louisiana Gas Co., —— FPC ——, Docket No. RP71–122, issued Jan. 5, 1973.

V 38 9 JAN 15 73 XUM

issued concurrently herewith (mimeo, pp. 17–18):

We are impelled to direct curtailment on the basis of end use rather than on the basis of contract simply because contracts do not necessarily serve the public interest requirement of efficient allocation of this wasting resource. In time of shortage, performance of a firm contract to deliver gas for an inferior use, at the expense of reduced deliveries for priority uses, is not compatible with consumer protection.

Secondly, we have determined that interruptible sales are for the most part, predicated on end-use considerations; those customers, be they direct sales or indirect sales, who require gas for human needs service or nonsubstitutable industrial service do not contract on an interruptible basis. Interruptible service, at the lower rates charged for such service, envisions interruption. And accordingly, interruptible customers can most reasonably be expected to have alternate fuel facilities already operational. We conclude, therefore, that curtailment should first fall on those who have not historically borne the full-fixed costs of providing gas service, particularly since these customers are best prepared to accept interruptions in service and clearly do not require uninterrupted service for protection of life or property.

Finally, if curtailment reaches beyond the level of interruptible service into firm contract service, we commit ourselves to the proposition that large volume boiler fuel usage is inferior and should be curtailed before other firm service. Aside from the established physical fact that combustion of natural gas for raising steam in boilers and its subsequent conversion into electricity or mechanical energy results in a loss of roughly two-thirds of the heating value of the gas used—which we regard as unacceptably inefficient in time of shortage—we note also that those who use gas as boiler fuel generally can substitute other fuels more readily and at lower overall cost than other gas users; additionally, pollution control is more practical because of the large size of individual installations. Other fuels generally can be physically substituted in large boiler fuel applications with less inconvenience and less possible adverse consequences than in other industrial applications, such as direct fired uses, and other uses demanding precise temperature control, flame characteristics, instantaneous response and atmosphere quality. Finally, subordinating boiler fuel use with its comparative ease of substitutability, to other large scale industrial and commercial uses should tend to minimize plant and business closings and the attendant economic loss from decreased production and payrolls, and the personal hardships of unemployment [Footnote omitted].

In establishing the priorities-of-service for the use of the natural gas supply, it is obvious that some direct and indirect customers use their supply of natural gas for similar end-use purposes. Customers with similar usages for the fuel should be accorded the same treatment to avoid any undue discrimination or preference among them. Accordingly, we will place the direct and indirect customers in the same priority-of-service position when their use of natural gas is comparable.

In determining our priority-of-service listing, we are cognizant of the economic impacts that will flow from that listing. However, we believe that we have no choice but to impose certain restrictions on the sale of natural gas within the limits of our jurisdiction during this time of supply shortages. Our decision is made with full knowledge that certain sales to ultimate consumers are beyond our jurisdiction. In those instances, we solicit the cooperation of State authorities to aid implementation of this program.

The Commission finds:

(1) The notice and effective date provisions of 5 U.S.C. 553 do not apply with respect to the policy statement here adopted.

(2) It is appropriate and in the public interest in administering the Natural Gas Act to adopt the policy statement as herein ordered.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly sections 4, 5 and 7 (52 Stat. 822, 823, 824, 825; 56 Stat. 83, 84; 61 Stat. 459; 76 Stat. 72; 15 U.S.C. 717c, 717d, 717f), orders:

A. Part 2 of the Commission's general rules of practice and procedure, general policy and interpretations, Subchapter A, Chapter I, Title 18 of the Code of Federal Regulations is amended by adding new § 2.78(a) as follows:

§ 2.78 Utilization and Conservation of Natural Resources—Natural Gas.

(a) The national interests in the development and utilization of natural gas resources throughout the United States will be served by recognition and implementation of the following priority-of-service categories for use during periods of curtailed deliveries by jurisdictional pipeline companies:

(1) Residential, small commercial (less than 50 Mcf on a peak day).

(2) Large commercial requirements (50 Mcf or more on a peak day) and firm industrial requirements for plant protection, feedstock, and process needs.

(3) All industrial requirements not specified in paragraph (a) (2), (4), (5), (6), (7), or (8) of this section.

(4) Firm industrial requirements for boiler fuel use at less than 3,000 Mcf per day, but more than 1,500 Mcf per day, where alternate fuel capabilities can meet such requirements.

(5) Firm industrial requirements for large volume (3,000 Mcf or more per day) boiler fuel use where alternate fuel capabilities can meet such requirements.

(6) Interruptible requirements of less than 1,500 Mcf per day.

(7) Interruptible requirements of intermediate volumes (from 1,500 Mcf per day through 3,000 Mcf per day).

(8) Interruptible requirements of more than 3,000 Mcf per day.

The priorities-of-deliveries set forth above will be applied to the deliveries of all jurisdictional pipeline companies during periods of curtailment on each company's system; except, however, that, upon a finding of extraordinary circumstances after hearing initiated by a petition filed under § 1.7(b) of the Commission's rules of practice and procedure, exceptions to those priorities may be permitted.

The above list of priorities requires the full curtailment of the lower priority category volumes to be accomplished before curtailment of any higher priority volumes is commenced. Additionally, the above list requires both the direct and indirect customers of the pipeline that use gas for similar purposes to be placed in the same category of priority.

B. The amendment provided for herein shall be effective as of January 8, 1973.

C. The Secretary shall cause prompt publication of this Order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-825 Filed 1-12-73;8:45 am]

[Docket No. R-406; Order 452-B]

PART 154—RATE SCHEDULES AND TARIFFS

Purchased Gas Cost Adjustment Provision

JANUARY 8, 1973.

By Order No. 452 issued April 14, 1972 (37 FR 12489, June 24, 1972),[1] the Commission amended § 154.38(d) of the Commission's regulations under the Natural Gas Act to permit the inclusion of a purchased gas cost adjustment provision (PGA Clause) in natural gas pipeline companies' FPC Gas Tariffs. We did not, however, amend § 154.52 of our regulations which recognizes and permits the filing of special operating agreements.

As we stated in Order No. 452–A issued June 13, 1972, it is the Commission's intent that the PGA clause be a complete replacement for the concept of purchased gas tracking authority. We further stated that no requests for purchased gas tracking authority other than in a PGA clause would be entertained by this Commission. Under these circumstances we find it necessary and in the public interest to amend Section 154.52 of the Regulations Under the Natural Gas Act to require that purchased gas cost tracking under special operating agreements filed pursuant to that section comply fully with the PGA requirements of § 154.38(d)(4).

The Commission finds:

(1) Adoption of this amendment to the Commission's regulations under the Natural Gas Act is necessary and appropriate for the administration of the Natural Gas Act.

(2) The revision prescribed in ordering paragraph (A) is consistent with the primary purpose of the rule making in this proceeding. Further compliance with the requirements of 5 U.S.C. section 553, including notice and public procedure, are therefore unnecessary.

(3) The revision prescribed herein to § 154.52 of the Commission's regulations under the Natural Gas Act is necessary and appropriate for carrying out the provisions of the Natural Gas Act.

The Commission, acting pursuant to the provisions of the Natural Gas Act, as amended, particularly sections 4, 10, and 16 (52 Stat. 822, 826 and 830; 76 Stat. 72; 15 U.S.C. §§ 717c, 717i, and 717o), orders:

(A) Subchapter E, Regulations Under the Natural Gas Act, Chapter I, Title 18 of the Code of Federal Regulations, is amended by adding § 154.52(c) immediately after § 154.52(b) as follows:

§ 154.52 Exception to form and composition of tariff.

* * * * *

(c) Purchased gas cost tracking under special operating arrangements filed pursuant to this section shall conform to to the requirements set forth in § 154.38(d)(4).

(B) The amendment to the Commission's regulations under the Natural Gas Act contained in ordering paragraph (A) above is effective as of January 8, 1973.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] MARY B. KIDD, *Acting Secretary.*

[FR Doc.73-827 Filed 1-12-73;8:45 am]

[1] This order was adopted on Dec. 29, 1972, before Commissioner Walker left the Commission.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Phenylbutazone

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (47–712V) filed by Philips Roxane, Inc., 2621 North Belt Highway, St. Joseph, MO 64502, proposing the safe and effective use of an additional size phenylbutazone tablet for the treatment of dogs. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135c.57 is amended in paragraph (c)(1) as follows:

§ 135c.57 Phenylbutazone tablets and boluses.

* * * * *

(c)(1) *Specifications.* The drug is in tablet form with each tablet containing 100 milligrams or 200 milligrams of phenylbutazone.

* * * * *

Effective date. This order shall be effective on January 15, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: January 8, 1973.

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES

[T.D. 7252]

PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES

Manufacturers Excise Tax on Tires and Tubes

In order to clarify the regulations under section 4071 of the Internal Revenue Code of 1954, the following amendment of the Manufacturers and Retailers Excise Tax Regulations is hereby adopted:

PARAGRAPH 1. Section 48.4071–2 is amended by adding a new subparagraph (3) immediately after subparagraph (2) of paragraph (b) of such section, which reads as follows:

§ 48.4071–2 Determination of weight.

* * * * *

(b) *Alternative method of determining weight of tires and inner tubes.* * * *

(3) For purposes of this paragraph, the term "manufacturer" means manufacturer, importer, or producer.

Because this Treasury decision is of a clarifying nature, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 553(b) of title 5 of the United States Code, or subject to the effective date limitations of subdivision (d) of such section.

(Sec. 4071, Internal Revenue Code of 1954 80 Stat. 331; 26 U.S.C. 4071, sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS, *Commissioner of Internal Revenue.*

Approved: January 9, 1973.

FREDERIC W. HICKMAN, *Assistant Secretary of the Treasury.*

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 0—COMMISSION ORGANIZATION

Office of Executive Director

Order. In the matter of editorial amendment of Part 0 of the Commission's statement of organization with respect to the Office of the Executive Director.

This order is being issued to reflect organization changes in the Office of the Executive Director that were adopted in actions by the Commission on December 4 and 21, 1972.

These amendments relate to internal Commission organization, and hence, the prior notice, procedure, and effective date provisions of the Administrative Procedure Act are not applicable. Authority for the promulgation of these amendments is contained in sections 4(i) and 5 (b) and (d) of the Communications Act of 1934, as amended, and in § 0.231(d) of the Commission's rules.

Accordingly, it is ordered, Effective January 19, 1973, that in Part 0 of Chapter I of Title 47 of the Code of Federal Regulations, § 0.12 (c) and (h) are revised to read:

§ 0.12 Units in the Office.

* * * * *

(c) Financial Management Division.

* * * * *

(h) Records Management Division.

* * * * *

Adopted: January 8, 1973.

Released: January 10, 1973.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] JOHN M. TORBET, *Executive Director.*

[Docket No. 19572; FCC 73-8]

PART 97—AMATEUR RADIO SERVICE

Radio Control of Remote Model Craft and Vehicles

Report and order. In the matter of Amendment of Part 97 of the rules insofar as they pertain to the radio control of remote model craft and vehicles, Docket 19572, RM–1951.

1. The Commission adopted a notice of proposed rule making in the above entitled matter on August 16, 1972, which was published in the FEDERAL REGISTER on August 29, 1972 (37 FR 17497). Interested persons were invited to file comments on or before September 29, 1972, and reply comments on or before October 10, 1972. The notice was in response to a petition, RM–1951, filed by the Academy of Model Aeronautics and proposed the incorporation of special provisions into the rules to exempt certain low

V 38 N 9 JAN 15 73 XUM

power amateur radio stations used only for transmitting signals for the control of model vehicles of all types.

2. Formal comments were filed by C. T. Williams; Dr. Walter A Good; Robert F. Aberle; Kraft Systems, Inc.; Michael L. Gilbertson; Dick Jansson Radio Control Corp.; American Radio Relay League (ARRL); and Academy of Model Aeronautics (AMA). All respondents supported the proposal. No comments were received expressing opposition.

3. As claimed by the petitioner, respondents also state the present rules governing the Amateur Radio Service are overly restrictive when applied to radio remote control of model aircraft. Petitioner requested comparability between the rules governing like-type operation in the Amateur Radio Service and the Citizens Radio Service, where remote control is also permitted. In support of this request, respondent Williams states:

As a long-time user of six meters for model control purposes, I have felt strongly that the rules of Part 97, as written, were clearly designed for two-way communications between licensed amateurs, and were more restrictive than necessary for the low-power, short-range, essentially one-way type of transmissions used in model control activities.

A similar opinion was stated by respondent Aberle:

It is my opinion the R/C flyers have, in fact, avoided six meters because of the additional recordkeeping and expense associated with its use. Adoption of this proposal would, in my estimation, act as an incentive for increased six meter R/C flying activities. This is a very important consideration since our "R/C" citizens bands are presently very congested.

4. The AMA petition also requested the special provisions for radio control equally apply to transmissions used for telemetering purposes. Our Notice stated that the petitioner did not furnish details and rationale for this request, and we requested interested parties having information and suggestions in this area to submit same for consideration. One formal comment received in this regard was from respondent Gilbertson, who stated:

• • • there are several small manufacturers producing telemetering devices specifically designed for remote controlled model aircraft. Perhaps the greatest usage at this time is a device used by glider/sailplane modelers to transmit changes in altitude and/or barometric pressure in order to maximize use of the thermal and wind currents necessary to fly this type of aircraft. Other telemetering devices currently available or contemplated include airborne air-speed indicators, tachometers, engine temperatures, etc. which are useful in experimentation and design of various model craft.

5. Representatives of the AMA visited the Commission and demonstrated an application of telemetering technology to model aircraft flying. The transmitter was installed in a flyable model, and operated in the 144 MHz amateur frequency band with F3 emission at a power level of less than 200 milliwatts. The only parameter telemetered was an indication of change in the aircraft rate-of-climb. The AMA representatives reported that some model aircraft can attain altitudes approaching those reached by full size aircraft. Additionally, the AMA formal comments state:

Other functions such as speed and altitude have been telemetered for experimental purposes and these are also in need of the same provisions as proposed for the radio control transmission since they are used only when the model is airborne and under control. It is, therefore, proposed that the same provisions apply to telemetry transmissions related to the model aircraft where the telemetry units would be operated on amateur frequencies above 144 MHz and employing power inputs of less than 200 milliwatts.

6. The Dick Jansson Radio Control Corp. comments state they have low power telemetry devices for model sailplanes in production. Furthermore, respondent states:

With the sensitive receivers available today, this telemetry unit can be heard for a range of 200 foot on the ground, and I have personally experienced a 4,000-foot line-of-sight in air range • • •.

7. Currently, the only authorized use of telemetry in the Amateur Radio Service is in the OSCAR 6 satellite station WA3 NDS. In this instance, certain rules applicable to all amateur radio stations were temporarily waived pending the adoption of rules for space radio stations. This satellite uses two telemetry transmitters. Several parameters are sequentially transmitted using A1 emission, and the transmitters can be commanded on and off by radio remote control. Identification is accomplished by transmitting the letters "HI" in Morse Code.

8. The ARRL comments support the adoption of § 97.99 as proposed in the notice of proposed rule making. The filing states:

The potential benefits to the Amateur Radio Service far outweigh any possible adverse impact. It is respectfully suggested, however, that the Commission's report and order clearly state that such operations will not be entitled to protection from interference from other amateur radio stations operating in compliance with the various rules.

9. Inasmuch as no objections were filed in response to our notice of proposed rule making, and since no additional information has been brought to our attention, we believe the special provisions for amateur radio stations used only for radio control of remote model crafts and vehicles should be adopted as proposed in the notice.

10. While we are sympathetic with the request of the AMA for additional special provisions for telemetering, we find the request is not adequately supported. Even a 200 milliwatt transmitter operating at high altitudes can be heard over areas of hundreds of miles, and would not compare to the very limited coverage of a control transmitter located at ground level. Therefore, exceptions to the identification and control requirements cannot be made for telemetry stations operating in the Amateur Radio Service.

11. The ARRL in its comments expresses concern about interference which may occur from amateur radio stations operating normally on frequencies used for remote-control purposes. Operation in any amateur band, for any purpose, is always subject to interference from other stations. The Amateur Radio Service per se is one involving a high degree of frequency sharing. It would be naive, to say the least, to attempt to write a rule which would purport to give a measure of protection to any emissions permitted within the amateur bands. Section 97.125 prohibits willful or malicious interference to any radiocommunication. Amateurs are expected to abide by the provisions of that rule. Nevertheless, the nature of the remote control function for model aircraft may make it impossible for amateurs to realize that interference is being caused. Users of amateur frequencies in accordance with the new § 97.99 should be aware of the possibilities of such interference and take whatever measures are practicable in the way of advance coordination and planning to ensure the greatest degree of satisfactory operation.

12. We find the attached amendments to the rules are necessary and desirable, and in the public interest. Authority for adoption of these amendments is contained in sections 4(i) and 303 of the Communications Act of 1934, as amended.

13. Because the rules adopted herein relieve restrictions pertaining to the use of amateur radio stations used only for radio control of remote model craft and vehicles, the effective date provision of the Administrative Procedure Act (5 U.S.C. 553) does not apply: *Accordingly, it is ordered,* That effective January 15, 1973, Part 97 of the Commission's rules is amended as set forth below.

14. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: January 4, 1973.

Released: January 8, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

Part 97 of the Commission's rules is amended as follows:

1. Section 97.99 and undesignated headnote "Special Provisions" are added to read as follows:

SPECIAL PROVISIONS

§ 97.99 Stations used only for radio control of remote model crafts and vehicles.

An amateur transmitter when used for the purpose of transmitting radio signals intended only for the control of a remote model craft or vehicle and having mean output power not exceeding one watt may be operated under the special provisions of this section provided an executed Transmitter Identification Card (FCC Form 452-C) or a plate made of a durable substance indicating the station call sign and licensee's name and address is affixed to the transmitter.

(a) Station identification is not required for transmissions directed only to a remote model craft or vehicle.

(b) Transmissions containing only control signals directed only to a remote model craft or vehicle are not considered to be codes or ciphers in the context of the meaning of § 97.117.

(c) Notice of operation away from authorized location is not required where the portable or mobile operation consists entirely of transmissions directed only to a remote model craft or vehicle.

(d) Station logs need not indicate the times of commencing and terminating each transmission or series of transmissions.

2. In § 97.101, the headnote is amended to read as follows:

§ 97.101 Mobile stations aboard ships or aircraft.

Title 49—TRANSPORTATION

Chapter I—Department of Transportation

SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM-80; Amdt. 172-18, 173-68]

PART 172—COMMODITY LIST OF HAZARDOUS MATERIALS CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 170–189 OF THIS CHAPTER

PART 173—SHIPPERS

Phosphorus Pentasulfide

The purpose of this amendment to the Department's Hazardous Materials Regulations is to identify phosphorus pentasulfide by name as a flammable solid and to prescribe packaging requirements for its transportation.

On March 10, 1971, the Hazardous Materials Regulations Board published a notice of proposed rule making, Docket No. HM-80; Notice 71-7 (36 FR 4626) which proposed to classify phosphorus pentasulfide as a flammable solid. On July 18, 1972, the Board published another notice of proposed rule making in Docket No. HM-80, superseding Notice 71-7 (Notice 72-8 (37 FR 14239)). This later notice repeated the proposal to classify the material as a flammable solid and, in addition, proposed specification packaging. Several comments were received on this later notice.

One commenter objected to classification of the subject material as a flammable solid. In his comments, he referred to Docket No. HM-103, an advance notice of proposed rule making on a DOT Hazardous Information System (37 FR 12660), and cited that document as support for classification as a "Dangerous When Wet" material. The advance proposal, as set forth in Docket No. HM-103, does not establish "Dangerous When Wet" as a separate hazard classification, but rather establishes that the material has an additional hazard that is proposed to be specifically identified. It is contemplated that such materials will be classed and labeled as flammable solids. Therefore, since the Board does not intend to propose this additional hazard as a classification, the Board has classed this material as a flammable solid.

Some commenters pointed out that costly modification of certain bin-type packagings would be necessary if the Board pursued its proposed action. Six incidents involving phosphorus pentasulfide have been reported, three of which involved fire. The Board has considered the cost/benefit aspects of the rule and, in view of the incidents that have occurred and the experiences noted in the development of DOT specification 56 and the experience with present packaging, it has concluded that such modifications are warranted. Strengthening of the side-opening door closure in these types of packaging has been a concern of the Board for some time. This conclusion is consistent with its decision in the amendments to Docket HM-68 (37 FR 2885 and 3524) which were based on observed deficiencies in the closure which resulted in sifting of certain materials. The Board acknowledges that these modifications will require a certain period of time in order that the flow of traffic of this material will not be disrupted and is of the opinion that an 8-month modification period is reasonable if no further incidents occur. In this respect, the Board advises shippers to exercise special precautions in preparing these packagings for shipment during the interim period. Some commenters requested that the regulations provide for nonspecification (DOT) packaging. However, other commenters objected to the use of any packaging other than DOT specification packaging. After considering the incidents involving this material, and considering the nature of the product, the Board does not find justification for authorizing other than DOT specification packaging except for material that is fused solid.

One commenter suggested that the packaging for phosphorus pentasulfide be limited to the packaging authorized for phosphorus sesquisulfide. Adoption of such packaging criteria would severely restrict available packaging options for shipment and would in fact entail a substantial deviation from present practices for packaging this chemical. After reviewing the properties of the material and transportation experience with packaging now in use, the Board is of the opinion that DOT specification packagings should be prescribed, but that the restriction to use only packagings now listed in § 173.225 is not warranted. However, the Board does agree that the packaging used must be water-tight, i.e., a packaging design to prohibit the ingress of water, and has provided such a requirement in this amendment.

The note for specification 53 portable tanks indicating that new construction is not authorized has not been included in § 173.225(b)(2) because this specification is no longer shown in Part 178 and continued use is controlled by the requirements of § 173.32(d). The note would be redundant.

In consideration of the foregoing, 49 CFR Parts 172 and 173 are amended as follows:

I. In § 172.5 paragraph (a), the List of Hazardous Materials is amended as follows:

§ 172.5 List of hazardous materials.

(a) • • •

Article	Classed as—	Exemption and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
Phosphorus pentasulfide	F.S	No exemption, 173.225	Yellow	11 pounds.

• • • • • • • •

II. (A) In Part 173 table of contents, § 173.225 is amended to read as follows:

Sec.
173.225 Phosphorus sesquisulfide and phosphorus pentasulfide.

(B) In § 173.225, the heading is amended; paragraph (b) is added to read as follows:

§ 173.225 Phosphorus sesquisulfide and phosphorus pentasulfide.

• • • • • •

(b) Phosphorus pentasulfide must be packed as follows:

(1) In any packaging prescribed in § 173.154 which will not permit water to come in contact with the lading.

(2) Specification 53 or 56 (§§ 178.251, 178.252 of this subchapter). Metal portable tank.

NOTE 1: Non-DOT specification metal portable tanks or bins similar to specification 53 or 56 may be used until August 30, 1973

(3) Metal drum not over 15 gallons capacity. Authorized only for phosphorus pentasulfide fused into a solid mass before transportation.

This amendment is effective June 30, 1973. However, compliance with the regulations as amended herein is authorized immediately.

(Sec. 831–835, title 18, United States Code, section 9 of the Department of Transportation Act, 49 U.S.C. 1657; title VI, sec. 902(h), Federal Aviation Act of 1958, 49 U.S.C. 1421–1430, 1472(h), and 1655(c))

V 38 9 JAN 15 73 XUM

Issued in Washington, D.C., on January 8, 1973.

MAC E. ROGERS,
Board Member for the Federal Railroad Administration.

KENNETH L. PIERSON,
Alternate Board Member for the Federal Highway Administration.

Ordinary break					A or E.
Damaged rail					C.

REMEDIAL ACTION

NOTE:
A—Assign person designated under § 213.7 to visually supervise each operation over defective rail.
B—Limit operating speed to 10 m.p.h. over defective rail.
C—Apply joint bars bolted only through the outermost holes to defect within 20 days after it is determined to continue the track in use. In the case of classes 3 through 6 track, limit operating speed over defective rail to 30 m.p.h. until angle bars are applied; thereafter, limit speed to 50 m.p.h. or the maximum allowable speed under § 213.9 for the class of track concerned, whichever is lower.
D—Apply joint bars bolted only through the outermost holes to defect within 10 days after it is determined to continue the track in use. Limit operating speed over defective rail to 10 m.p.h. until angle bars are applied; thereafter, limit speed to 50 m.p.h. or the maximum allowable speed under § 213.9 for the class of track concerned, whichever is lower.
E—Apply joint bars to defect and bolt in accordance with § 213.121 (d) and (e).
F—Inspect rail 90 days after it is determined to continue the track in use.
G—Inspect rail 30 days after it is determined to continue the track in use.
H—Limit operating speed over defective rail to 50 m.p.h. or the maximum allowable speed under § 213.9 for the class of track concerned, whichever is lower.
I—Limit operating speed over defective rail to 30 m.p.h. or the maximum allowable speed under § 213.9 for the class of track concerned, whichever is lower.

Chapter X—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1116]

PART 1033—CAR SERVICE

Lehigh Valley Railroad Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 8th day of January 1973.

It appearing, that the West Pittston-Exeter Railroad Co. (WPE), in Docket AB 67, has requested authority to abandon operations over its entire line of railroad; that the Lehigh Valley Railroad Co. (John F. Nash and Robert C. Haldeman, Trustees) (LV) has requested authority in Finance Docket No. 27266 to acquire and operate the line of the WPE; that the WPE has consented to immediate operation over its line by the LV; that such operation by the LV over the tracks of the WPE will provide continued railroad service to shippers served by such tracks; that operation by the LV over the aforementioned WPE tracks is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1116 **Service Order No. 1116.**

(a) *Lehigh Valley Railroad Co. (John F. Nash and Robert C. Haldeman, Trustees) authorized to operate over tracks of West Pittston-Exeter Railroad Co.* The Lehigh Valley Railroad Co. (John F. Nash and Robert C. Haldeman, Trustees) (LV) be, and it is hereby, authorized to operate over the entire line of the West Pittston-Exeter Railroad Co. (WPE), located in Luzerne County, Pa., pending final disposition of the applications of the LV in Finance Docket No. 27266 to acquire and operate the WPE, and of the WPE in Docket AB 67 to abandon operations of its entire line.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(c) *Rates applicable.* Inasmuch as this operation by the LV over tracks of the WPE is deemed to be due to carrier's disability, the rates applicable to traffic moved by the LV over these tracks of the WPE shall be the rates which were applicable on the shipments at the time of shipment as originally routed.

(d) *Effective date.* This order shall become effective at 11:59 p.m., January 10, 1973.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., June 30, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 45—PUBLIC WELFARE

Chapter I—Office of Education, Department of Health, Education, and Welfare

PART 177—FEDERAL, STATE, AND PRIVATE PROGRAMS OF LOW-INTEREST LOANS TO STUDENTS IN INSTITUTIONS OF HIGHER EDUCATION

Special Allowances

Subparagraph (3) of § 177.4(c), *Special allowances,* which deal with the payment to lenders of the allowances authorized by section 2 of the "Emergency Insured Student Loan Act of 1969" (Public Law 91-95) is amended to provide for the payment of such an allowance for the period October 1, 1972, through December 31, 1972, inclusive.

As so amended § 177.4 reads as follows:

§ 177.4 **Payment of interest benefits, administrative cost allowances, and special allowance.**

* * * * * * *

(c) *Special allowances.* * * *

(3) Special allowances are authorized to be paid as follows:

* * * * * * *

(xiv) For the period October 1, 1972, through December 31, 1972, inclusive, a special allowance is authorized to be paid in an amount equal to the rate of three-fourths of 1 percent per annum of the average unpaid balance of disbursed principal of eligible loans.

(Sec. 2, 83 Stat. 141)

Dated: January 3, 1973.

JOHN OTTINA,
Acting Commissioner of Education.

Approved: January 10, 1973.

ELLIOT L. RICHARDSON,
Secretary of Health, Education, and Welfare.

V38-9 JAN 15 73 XUM

Proposed Rule Making

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 295]

SPECIAL PACKAGING

Modification of Testing Procedures

Section 295.10, setting forth the procedure for testing "special packaging" as defined in section 2(4) of the Poison Prevention Packaging Act of 1970, was promulgated in the FEDERAL REGISTER of November 20, 1971 (36 FR 22152).

Regarding test failures, § 295.10(a) (3) provides that in the case of unit packaging a test failure shall be any child who opens or gains access to the number of individual units which may constitute the amount that may produce serious personal injury or serious illness, or a child who opens or gains access to more than 5 individual units, whichever number is lower, during the full 10 minutes of testing. Upon further consideration, the Commissioner of Food and Drugs concludes that the "more than 5 individual units" specification constituting a test failure is unnecessarily restrictive and is tending to stifle initiative in the packaging industry toward the development of suitable unit packaging because of the inability of present technology to meet this level of performance.

A review of the data generated by protocol testing of unit packaging initiated by the Food and Drug Administration and of pertinent data from other sources indicates that a more realistic test failure specification would be "more than 8 individual units".

The present level was established to provide the packaging industry with parameters within which to develop unit packaging. It also involved an evaluation of an estimated attention span of children relative to opening unit packaging. Since unit packaging has the potential for being a very effective form of child protection packaging for many applications, particularly in the drug field, the test failure specifications should be the most realistic possible. A change from more than 5 to more than 8 individual units will not compromise safety or reduce the child protection quality of special packaging because the number of individual units constituting the amount that may produce serious personal injury or serious illness will prevail in establishing the test failure when such number is 8 or less.

Therefore, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5; 84 Stat. 1670–1672; 15 U.S.C. 1471–1474) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend § 295.10 *Testing procedure for special packaging* by revising the fifth sentence of paragraph (a) (3) to read "In the case of unit packaging, however, a test failure shall be any child who opens or gains access to the number of individual units which constitute the amount that may produce serious personal injury or serious illness, or a child who opens or gains access to more than 8 individual units, whichever number is lower, during the full 10 minutes of testing."

Interested persons may, on or before March 16, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: January 8, 1973.

SAM D. FINE,
Associated Commissioner for Compliance.

Coast Guard

[33 CFR Part 117]

[CGD 73-8 P]

ESCATAWPA AND PASCAGOULA RIVERS, MISS.

Proposed Drawbridge Operation Regulations

The Coast Guard is considering amending the regulations for the State Highway 63 drawbridge across the Escatawpa River and for the U.S. 90 Highway drawbridge across the Pascagoula River to allow additional closed periods in the morning and afternoon peak vehicular periods to permit a freer flow of vehicular traffic. The mayors of Pascagoula, Miss., and Moss Point, Miss., and the president of the Jackson County Board of Supervisors submitted a request for this amendment of the bridge operating regulations because of an increase in vehicle traffic caused by increased production at the Ingalls Shipbuilding Yards.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Eighth Coast Guard District, Customhouse, New Orleans, La. 70130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Eighth Coast Guard District.

The Commander, Eighth Coast Guard District, will forward any comments received before February 16, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by

1. Revising § 117.485 to read as follows:

§ 117.485 Escatawpa River, Miss.; Mississippi State Highway 63 Bridge; mile 1.0.

The draw need not be opened for the passage of vessels, from 6 a.m. to 6:45 a.m., 7 a.m. to 7:30 a.m., 3:25 p.m. to 4 p.m., and 4:15 p.m. to 5 p.m. Monday through Friday, except on national holidays, when the draw shall open promptly on signal. At all other times the draw shall open promptly on signal.

2. Revising § 117.495 to read as follows:

§ 117.495 Pascagoula River at Pascagoula, Miss., U.S. 90 Highway Bridge.

The draw shall be opened promptly on signal for the passage of vessels except that it need not be opened from 6:15 a.m. to 7:15 a.m., 7:25 a.m. to 8 a.m., 3:15 p.m. to 4:15 p.m., and 4:30 p.m. to 5:30 p.m., Monday through Friday, except on national holidays when the draw shall open promptly on signal. At all other times the draw shall open promptly on signal.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655 (g) (2); 49 CFR 1.46(c) (5), 33 CFR 1.05-1(c) (4))

Dated: January 8, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-791 Filed 1-12-73;8:45 am]

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-WA-13]

TERMINAL CONTROL AREA

Proposed Adoption; Extension of Time

On December 15, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 FR 26737) proposing the adoption of a Group I Terminal Control Area (TCA) for Dallas-Fort Worth, Tex. The deadline for public comment on the proposal was set for January 15, 1973.

Subsequent to publication of the TCA proposal, problems in distribution of the notice arose which require an extension of the comment period.

In consideration of the foregoing, the comment period for the proposed Dallas-Fort Worth TCA is extended to February 15, 1973. All communications received by that date will be considered before action is taken on the proposed TCA.

This action is taken under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on January 8, 1973.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-738 Filed 1-12-73;8:45 am]

[14 CFR Parts 71, 73]

[Airspace Docket No. 72-WA-67]

RESTRICTED AREA AND CONTINENTAL CONTROL AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would enlarge restricted area, R-4501A, Fort Leonard E. Wood, Mo., and raise the vertical limits to 18,000 feet m.s.l.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 601 East 12th Street, Kansas City, MO 64106.

All communications received on or before February 14, 1973, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the Office of the Regional Air Traffic Division Chief.

At the request of the Army, the Federal Aviation Administration proposes to change R-4501A, Fort Leonard E. Wood, by:

1. Increasing the southern boundary from 0 nautical mile at the southeast corner to eight-tenths nautical mile near the southwest corner.

2. Increasing the western boundary about one-fourth nautical mile.

3. Raising the ceiling to, but not including, 18,000 feet m.s.l.

4. Making the time of use: surface to 2,200 feet m.s.l.—continuous; 2,200 feet m.s.l. and above by NOTAM issued at least 24 hours in advance.

The proposed changes effecting 2,200 feet m.s.l. and above would permit the Army to fulfill training requirements for high-angle firing. Such exercises would normally be conducted on weekends about eight times annually (16 days).

These amendments are proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on January 5, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.73-735 Filed 1-12-73;8:45 am]

[14 CFR Part 73]

[Airspace Docket No. 72-SW-77]

RESTRICTED AREA

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations that would designate a new restricted area, R-5601D, in the vicinity of Fort Sill, Okla.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 1689, Fort Worth, Tex., 76101. All communications received on or before February 14, 1973 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would designate the following restricted area:

R-5601D FORT SILL, OKLA.

Boundaries. Beginning at lat. 34°38'15" N., long. 98°38'00" W.; to lat. 34°36'00" N., long. 98°46'45" W.; to lat. 34°42'15" N., long. 98°50'00" W.; to lat. 34°45'00" N., long. 98°40'30" W.; to lat. 34°43'30" N., long. 98°35'39" W.; to lat. 34°41'58" N., long. 98°39'43" W.; to lat. 34°41'58" N., long. 98°45'20" W.; to lat. 34°38'15" N., long. 98°45'20" W.; to point of beginning excluding the airspace above 6,000 feet m.s.l. south of a line from lat. 34°38'15" N., long. 98°38'00" W.; to lat. 34°38'15" N., long. 98°48'00" W.

Designated altitude. Surface to 16,500 feet m.s.l.

Time of designation. Sunrise to sunset.

Controlling agency. Federal Aviation Administration, Fort Worth ARTC Center.

Using agency. Commanding General, Fort Sill, Okla.

The proposed restricted area would contain a scoreable weapons release range and a safety buffer for range activities. The range is required by Air Force Reserve units based at Carswell AFB and Tinker AFB to conduct air-to-ground ordnance delivery training.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on January 5, 1973.

CLAUDE FEATHERSTONE,
Acting Chief, Airspace and Air Traffic Rules Division.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 1, 73]

[Docket No. 19667; FCC 73-23]

PROGRAM LOGS OF STANDARD BROADCAST STATIONS

Public Inspection and Retention

In the matter of petition for rule making to require broadcast licensees to maintain certain program records, Docket No. 19667, RM-1475.

1. The Commission has before it a petition for rule making filed by the National Citizens Committee for Broadcasting ("NCCB") and oppositions filed by the National Association of Broadcasters ("NAB"), WGN Continental Broadcasting Co. and by Haley, Bader and Potts on behalf of several licensees. The petition seeks a number of changes in our rules, changes which fall into two general categories: Public inspection of program logs and new recordkeeping requirements applicable to all programs other than sports and entertainment, particularly those involving discussion of controversial issues. As explained below, only the former is being considered in this proceeding.

2. Although part of NCCB's petition requires additional study before action on it can be taken, the portion dealing with public inspection of program logs does not require such study and thus may be acted upon at this time. As matters now stand, stations are required to maintain program logs and to keep them on file for 2 years for possible Commission inspection. They are not currently available for public inspection. NCCB would change the retention period from 2 years to the license term plus 90

V 38 9 JAN 15 73 XUM

days and it would open these logs to public inspection and copying. According to NCCB, community groups are not able to obtain a reliable analysis of a station's programing without being forced to conduct an elaborate and expensive monitoring of the station. In their view, being able to examine the logs of the days which form the composite week used in connection with the triennial renewal application, provides only incomplete and outdated information. Lacking access to program logs is described as an impediment to effective public involvement during the license term, and because of filing deadlines, is said to add unnecessary burden to filings in connection with renewal applications. Although strenuous oppositions have been lodged against NCCB's petition, for the most part these oppositions are directed at those portions of the petition that are not now at issue. Generally, however, the opposing parties express the view that enough material is available for public inspection and that if the composite week is sufficient for Commission use so should it be for public groups.

3. For several reasons we believe the proposal has sufficient merit to warrant further exploration. No new recordkeeping effort would be required, for the program logs to be inspected are those already kept by each station. As has been pointed out, a number of files are currently being maintained for public inspection and (length of retention aside) so the question is only one of adding an item to the current list. This does not appear to be unduly burdensome. As we have had occasion to note elsewhere, the public interest is not best served by community involvement delayed until renewal time and then expressed only through a petition to deny. For all concerned, a continuing dialogue is to be preferred, and we believe that availability of the logs might well be beneficial in this regard. Tentatively, it appears that the license term or 2 years, whichever is greater, would be the appropriate period for retention of the logs. Because material from these logs might be pertinent to issues raised in connection with a renewal application, we propose to require their retention until a final determination is reached regarding issuance of a license for a new term. Thus, under the proposed rule changes, upon issuance of a new license, material already 2-years old could be destroyed and the balance from the previous license term could be when it becomes 2-years old.

4. In addition to comments on the basic proposal itself, we desire comments on the location at which the logs should be kept. Because logs are bulky and may require special handling in storage to enable their easy retrieval, we wish to consider alternative locations for these logs, such as public libraries or the like. On balance, it appears that it might not be inappropriate to allow retention of the logs at a second location other than that of the main public file, so long as it is accessible during business hours, and the proposed language of § 1.526 makes provision for this.

5. In view of the foregoing, and pursuant to authority found in sections 4(i), 303 (g), (j), and (r) of the Communications Act of 1934, as amended, it is proposed to amend §§ 1.526, 73.115, 73.285, 73.585, and 73.673 as set out below.

6. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested persons may file comments on or before February 2, 1973, and reply comments on or before February 16, 1973. All submissions by parties to this proceeding or by persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

7. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. These documents will be available for public inspection during regular business hours in the Commission's public reference room at its headquarters, 1919 M Street NW., Washington, DC.

Adopted: January 4, 1973.

Released: January 8, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

PART 1—PRACTICE AND PROCEDURE

1. Section 1.526 would be amended by adding new paragraph (a)(6)[1] and by amending paragraph (d) to read as shown below (new language underscored).

§ 1.526 Records to be maintained locally for public inspection by applicants, permittees, and licensees.

(a) • • •

(6) The program logs for the station.

• • • • • •

(d) *Location of records.* The file shall be maintained at the main studio of the station, or at any accessible place (such as a public registry for documents or an attorney's office) in the community to which the station is or is proposed to be licensed, and shall be available for public inspection at any time during regular business hours. In the case of program logs, if the public file is maintained at the main studio of the station, the licensee may maintain the program logs at another location which meets the requirements of this paragraph. If the logs are maintained at such a separate location, arrangements shall be made so that the licensee will be able to make them available for the Commission inspection pursuant to § 73.116 of this chapter.

• • • • • •

[1] Under current numbering the new subsection would be (a)(6) but other changes currently being considered may require a renumbering should both changes be adopted.

PART 73—RADIO BROADCAST SERVICES

2. Section 73.115 is amended to read as follows:

§ 73.115 Retention of logs.

Program logs of standard broadcast stations shall be retained for the full license term to which they apply. Upon final determination, no longer subject to review, to renew the station's license for a new term, all logs over 2 years old need not be retained further, and the balance of the logs from the preceding license term may also be disposed of when they become 2 years old. Operating and maintenance logs of standard broadcast stations shall be retained for a period of 2 years: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided, further,* That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

NOTE: • • •

Section 73.285 is amended to read as follows:

§ 73.285 Retention of logs.

Program logs of FM broadcast stations shall be retained for the full license term to which they apply. Upon final determination, no longer subject to review, to renew the station's license for a new term, all logs over 2 years old need not be retained further, and the balance of the logs from the preceding license term may also be disposed of when they become 2 years old. Operating and maintenance logs of FM broadcast stations shall be retained for a period of 2 years: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided, further,* That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

4. Section 73.585 is amended to read as follows:

§ 73.585 Retention of logs.

Program logs of noncommercial educational FM broadcast stations shall be retained for the full license term to which they apply. Upon final determination, no longer subject to review, to renew the station's license for a new term, all logs over 2 years old need not be retained further, and the balance of the logs from the preceding license term may also be disposed of when they become 2 years old. Operating and maintenance logs of noncommercial educational FM broadcast stations shall be retained for a period of 2 years: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided, further,* That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

5. Section 73.673 is amended to read as follows:

§ 73.673 Retention of logs.

Program logs of television broadcast stations shall be retained for the full license term to which they apply. Upon final determination, no longer subject to review, to renew the station's license for a new term, all logs over 2 years old need not be retained further, and the balance of the logs from the preceding license term may also be disposed of when they become 2 years old. Operating and maintenance logs of television broadcast stations shall be retained for a period of 2 years: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided further,* That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

[FR Doc.73-795 Filed 1-12-73;8:45 am]

[47 CFR Parts 2, 81, 83, 91]

[Docket No. 19665; FCC 73-6]

INDUSTRIAL AND MARITIME MOBILE SERVICES

Frequencies, Standards and Procedures for Onboard Communications

In the matter of amendments of Parts 2, 81, 83, and 91—to provide frequencies, standards and procedures for onboard communications in the Industrial and Maritime Mobile Services, Docket No. 19665.

1. Notice of proposed rule making is hereby given in the above-entitled matter.

2. The Radio Technical Commission for Marine Services (RTCM) established its Special Committee 62, on onboard communications on November 21, 1968. Since formation of SC62, that group has conducted a thorough investigation into the uses and needs for onboard communications by U.S. registry vessels. This investigation has included multiple tests by several vessel operating companies into the use of VHF (156–162 MHz), or UHF (450–470 MHz), and a comparison of the relative merits of VHF versus UHF. As a result of its extensive studies and evaluation, SC62 concluded that there were more advantages to the use of UHF than there were to use of VHF.

3. There is a substantial background to use of mobile (hand-carried) units for intraship (onboard) communications. Hand-carried transceiver units have been in use aboard vessels for intraship communication for more than a decade. A recent survey of U.S. registry vessels indicates that the majority of these hand-carried units are operated on frequencies available to the Citizens Radio Service. The Citizens Radio Service frequencies employed were not made available for this specific usage, are subject to very heavy interference, are not available on a worldwide basis, and some countries look with disfavor upon their use by vessels within their ports and harbors. These hand-carried units were employed aboard ship for a number of reasons, such as contacting key crew personnel due to the large and increasing size of various classes of vessel and the need to improve the operational efficiency aboard ship.

4. In the attached below the Commission has, in general, fulfilled the recommendations of RTCM SC62. Below sets forth amendments to the Commission's rules to provide for the licensing aboard vessels of facilities for the handling of communications relating to the operation of the vessel. These communications are limited to the confines of the vessel, or within its immediate vicinity. Also sets forth below proposed rule amendments relating to frequencies, technical standards and type acceptance requirements of transmitters, supplemental eligibility requirements, points of communication, station records, logs, operator requirements, and station identification.

5. Obtaining frequencies for onboard communications in the UHF band poses problems. There is no exclusive maritime mobile frequency allocation above 300 MHz. In fact, the non-Government spectrum between 300 and 1,000 MHz is fully allocated.[1] Thus, it appears that an exclusive frequency allocation for onboard communications can be achieved only by clearing a number of frequency channels. Since the land mobile frequencies in the UHF portion of the spectrum are fully allocated and are generally heavily used in larger port areas, we do not think reallocation would be realistic particularly since there may be a possibility of meeting the onboard requirement by some compatible, coequal sharing arrangement with one of the land mobile services. Since the onboard requirement is for a short range system, the power requirements are quite moderate, i.e., 2 watts effective radiated power or less. We have a group of frequencies in the Business Radio Service limited to 3 watts plate power input and it appears that the low-power business uses can coexist with onboard installations with a minimum of harmful mutual interference. To establish suitable controls for shared use, the antenna height for shipboard installations will be limited to no higher than 10 feet above the vessel's wheelhouse overhead. In addition, the effective radiated power for all maritime operations will be limited to 2 watts which will provide an adequate power for both repeater and hand-carried transmitter operation. Since there may be a need for simultaneous operation of various vessels in close proximity when in harbors or cargo handling areas, four pairs of frequencies are proposed to provide for duplex or two frequency simplex with automatic retransmit facilities, as well as single frequency operation. The availability of additional channels will also allow for quick change of frequency if interference from Business Service operations is experienced. We emphasize that the maritime use of the frequencies is in no way to be protected from Business Service operations. The proposed rules provide for use of the frequencies on a shared and cooperative basis in the same manner as that permitted in the Business Radio Service.

6. It appears probable that considerable time will pass before all ships that may be involved in large oil transfer operations (See § 83.815(a)(2) below to this notice) will be equipped for onboard communications in the maritime mobile service. To accommodate situations where communications are necessary between ship and dock in either terminal, off-shore, storage complexes, or other areas where oil is transferred and a vessel is not suitably equipped, we propose to so modify the Petroleum and Business Radio Service rules in Part 91 as to designate the same frequencies as being available for the purpose in those services. Equipment licensed in either of the services could be taken aboard ship and used temporarily for the oil transfer purposes. Onboard mobile relay stations would be permitted. Only voice emission would be allowed and the rules would carry the same limitations in effective radiated power and antenna height as have been proposed for the maritime mobile service. Comments specific to this proposal are requested. In any event, the Business Radio Service rules would be amended to show the sharing with the Maritime Mobile Service as set forth below.

[1] Extensive efforts to provide additional radio spectrum space for the land mobile radio services to relieve existing congestion and provide for future growth has occurred in the actions taken in Dockets Nos. 18261 and 18262.

V38-9 JAN 15 73 XUM

7. In reference to proposed § 83.823 (Subpart Z, page 7 below), this section is set forth in this manner to facilitate understanding of the proposed operator requirements. Editorially, however, the Commission will incorporate the substance of this section into Subpart F—Operator Requirements, Part 83 of the rules, and this will be done at the time of adoption of the report and order in this proceeding.

8. The proposed amendments to the rules, as set forth in this notice and below, are issued pursuant to authority contained in sections 4(i) and 303 (a), (b), (c), (d), (e), (f), and (r) of the Communications Act of 1934, as amended.

9. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before February 20, 1973 and reply comments on or before March 2, 1973. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may take into account other relevant information before it, in addition to the specific comments invited by this notice.

10. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference room at its headquarters in Washington, D.C.

Adopted: January 4, 1973.

Released: January 9, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

A. Part 2, Frequency Allocations and Radio Treaty Matters; General Rules and Regulations, is amended as follows:

1. In § 2.1, the definition of Maritime Mobile Service is amended to add a note, to read as follows:

§ 2.1 **Definitions.**

• • • • •

Maritime mobile service. A mobile service between coast stations and ship stations, or between ship stations, in which survival craft stations may also participate.

NOTE: Including use of onboard stations.

• • • • •

PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA PUBLIC FIXED STATIONS

B. Part 81, Stations on Land in the Maritime Services and Alaska-Public Fixed Stations, is amended as follows:

1. In § 81.3, paragraph (b)(1) is amended to read as follows:

§ 81.3 **Maritime mobile service.**

• • • • •

(b) *Maritime and land mobile service*—(1) *Maritime mobile service.* A mobile service between coast stations and ship stations, or between ship stations, in which survival craft stations may also participate. (Includes use of onboard stations. Aircraft stations, when transmitting on frequencies allocated to the maritime mobile service, may communicate in this service with ship stations and coast stations.)

• • • • •

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

C. Part 83, Stations on Shipboard in the Maritime Services, is amended as follows:

1. In § 83.3, paragraph (b) is amended, and new paragraphs (n), (o) and (p) are added, to read as follows:

§ 83.3 **Maritime mobile service.**

• • • • •

(b) *Maritime mobile service.* A mobile service between coast stations and ship stations, or between ship stations, in which survival craft stations may also participate. (Includes use of onboard stations. Aircraft stations, when transmitting on frequencies allocated to the maritime mobile service, may communicate in this service with ship stations and coast stations.)

• • • • •

(n) *Onboard station.* A station in the maritime mobile service on board ship, including a combination of two or more onboard mobiles, or two or more onboard mobiles and an onboard repeater, intended to be used primarily for intraship operational communications on board ship and in the immediate vicinity of the ship, as related to ship security and protection, while the ship is in motion or moored.

(o) *Onboard mobile.* A hand-carried mobile transmitter and receiver operated as part on an onboard station.

(p) *Onboard repeater.* A transmitter and receiver operated as part of an onboard station, intended for the reception and automatic retransmission of signals between onboard mobiles.

2. In § 83.7, the existing paragraphs are lettered (a) through (i) and new paragraphs (j) and (k) are added, to read as follows:

§ 83.7 **Technical.**

• • • • •

(j) *Antenna power gain.* The ratio of the power required at the input of a half-wave dipole to the power supplied to the input of the given antenna to produce, in a given direction, the same field at the same distance. When not specified otherwise, the figure expressing the gain of an antenna refers to the gain in the direction of the radiation main lobe.

(k) *Effective radiated power (ERP).* The product of the antenna input power and the antenna power gain. This product should be expressed in watts and is referred to a half-wave dipole. (If specified in a particular direction, effective radiated power is based on the antenna power gain in that direction only.)

3. In § 83.22, add a new paragraph (h), to read as follows:

§ 83.22 **Administrative classification of stations.**

• • • • •

(h) Onboard stations.

4. In § 83.36, add a new paragraph (d), to read as follows:

§ 83.36 **Application forms for station authorizations.**

• • • • •

(d) FCC Form shall be used in applying for an onboard station license.

5. In § 83.131, a new paragraph (f) is added to read as follows:

§ 83.131 **Authorized frequency tolerance.**

• • • • •

(f) The frequency tolerance authorized for onboard stations operating on frequencies in the band 450–470 MHz is:

(1) Onboard repeater: 2.5 parts in 10^6.

(2) Onboard mobile: 5.0 parts in 10^6.

6. In § 83.132, a new subdivision (iv) is added to paragraph (a)(2), to read as follows:

§ 83.132 **Authorized classes of emission.**

(a) • • •

(2) • • •

(iv)

Frequency band	*Classes of emission*
For the frequency band 450–470 MHz---	F3

• • • • •

7. In § 83.134, a new paragraph (h) is added to read as follows:

§ 83.134 **Transmitter power.**

• • • • •

(h) The power employed by onboard stations when operating on frequencies in the 450–470 MHz band shall not exceed the following values:

Effective radiated power

(1) Onboard repeater---------- 2.0
(2) Onboard mobile---------- 2.0

(3) Onboard transmitters are not type accepted on the basis of effective radiated power. These transmitters will be type accepted on the basis of a carrier power of not more than 4.0 watts, with the transmitter terminated in a dummy load of matching impedance (not connected to an antenna). The licensee shall apply appropriate measures to assure that the effective radiated power does not exceed the value set forth in paragraphs (h) (1) and (2) of this section.

8. In § 83.137, paragraph (h) is amended to read as follows:

§ 83.137 **Modulation requirements.**

• • • • •

(h) Each transmitter [2] operated in the bands 156–162 and 450–470 MHz shall

[2] • • •

be equipped with an audio low-pass filter installed between the modulation limiter and the modulated (radio frequency) stage which, at audio frequencies between 3 kHz and 20 kHz, shall have an attenuation greater than the attenuation at 1 kHz by at least 60 $\log_{10}(f/3)$ decibels, where "f" is the audio frequency in kHz. At audio frequencies above 20 kHz the attenuation shall be at least 50 decibels greater than the attenuation at 1 kHz.

9. A new Subpart Z, entitled Use of Onboard Communications, is added to read as follows:

Subpart Z—Use of Onboard Communications

Sec.
83.811 Authorized frequencies.
83.813 Supplemental eligibility requirements.
83.815 Points of communication.
83.817 Antenna height.
83.819 Station records.
83.821 Station logs.
83.823 Operator requirements.
83.825 Identification of station.

AUTHORITY: Secs. 4(i), 303 (a), (b), (c), (d), (e), (f), (r) of the Communications Act of 1934, as amended.

Subpart Z—Use of Onboard Communications

§ 83.811 **Authorized frequencies.**

(a) The assigned frequencies set forth in paragraph (b) of this section may be used aboard vessels employing radiotelephony for onboard communications when authorized by station license. The frequencies are available on a shared and cooperative basis with stations operating in the Business Radio Service.

(b) The frequencies set forth in paragraph (b)(1) of this section may be used where an onboard repeater is employed. The frequencies to be used where an onboard repeater is not employed are set forth in subparagraph (2) of this paragraph.

(1) For two frequency simplex (duplex), paired as follows:

Pair	On-board repeater (MHz)	On-board mobile (MHz)
(i)	457.525	467.750
(ii)	457.550	467.775
(iii)	457.575	467.800
(iv)	457.600	467.825

(2) For single frequency simplex:

(MHz)
457.525, 457.550, 457.575, 457.600

§ 83.813 **Supplemental eligibility requirements.**

Subject to the basic eligibility requirements set forth in § 83.23, authorization for onboard stations may be granted to any person, or state or local government subdivision; or any agency of the Federal Government which is subject to the provisions of section 301 of the Communications Act: *Provided,* That an applicant for an authorization to operate an onboard station must show control or ownership of the vessel on which the onboard station is to be installed and operated.

§ 83.815 **Points of communication.**

(a) Subject to the conditions and limitations imposed by the terms of the particular station license or by applicable provisions of this part with respect to the use of particular radio-channels, onboard stations on board ships in the maritime mobile service are authorized to communicate with other mobile units of the same station:

(1) Aboard the same vessel for operational communications;

(2) From ship to dock for large oil transfer operations to prevent spillage; and

(3) In the immediate vicinity of the same vessel for operational communications relating to docking or life boat and emergency drills.

(b) An onboard station may not be used;

(1) For communication with any other station; or

(2) For the loading or unloading of cargo.

§ 83.817 **Antenna height.**

The center of the radiating system of the antenna shall be located no higher than 10 feet above the vessels wheel house overhead.

§ 83.819 **Station records.**

(a) Each onboard station shall be provided with records showing:

(1) The name of ship and identification of the onboard station;

(2) The number and type of repeater and mobile units used aboard the vessel under the onboard station authorization;

(3) The date and type of equipment which is added to, removed from, or replaces equipment used under the onboard station authorization;

(4) The date and time of any failure of the equipment to operate as required, together with the date and time of repair;

(5) The nature and date of repair or servicing of each repeater or mobile equipment used under the onboard station authorization; and

(6) The name, category of operator license, and license number of the person effecting repair or servicing of equipment employed under the onboard station authorization.

(b) The record specified in paragraph (a) of this section shall be maintained permanently aboard the ship.

(c) The station records shall be made available to authorized Commission personnel upon request.

§ 83.821 **Station logs.**

(a) Stations authorized for use aboard vessels for onboard communications in the band 450–470 MHz are not required to maintain a station log.

(b) In lieu of maintaining a log, the licensee shall assure:

(1) That the onboard station is operated in accordance with the Commission's rules applicable to that station;

(2) That personnel operating the mobile units are limited to designated members of the crew of the vessel aboard which the onboard station is authorized;

(3) That use of the onboard station is limited to communications between crew members aboard the same vessel; and shall prohibit use of the onboard station for communications with another vessel;

(4) That unnecessary transmissions are not made, as a means of avoiding harmful interference to other vessels within communication range which are employing the same frequencies.

§ 83.823 **Operator requirements.**

(a) All transmitter adjustments or tests during or coincident with installation, servicing, or maintenance of an onboard station, which may affect the proper operation of such station, shall be made by or under the immediate supervision and responsibility of a person holding a first- or second-class commercial radio operator license, either radiotelephone or radiotelegraph, issued by the Commission.

(b) Where the transmitter, either repeater or mobile, or both, of an onboard station is so designed that none of the operations necessary to be performed during the course of normal rendition of service may cause off-frequency operation or result in any unauthorized radiation, and the transmitter(s) are so installed that all controls which may cause improper operation or radiation are not readily accessible to the persons operating the transmitter(s), such transmitter(s) may be operated by an unlicensed person.

(c) Where all of the conditions set forth in paragraph (b) of this section are not fulfilled, transmitter(s) of an onboard station shall be operated by a person holding a first- or second-class commercial radiotelephone or radiotelegraph license issued by the Commission.

(d) Except under the circumstances specified in paragraph (a) of this section, and except as limited by paragraphs (b) and (c) of this section, no person, whether or not a licensed operator, is required to be in attendance at the repeater of an onboard station when transmitting during the normal rendition of service and when retransmitting by self-actuating means a signal received from another radio station or stations.

§ 83.825 **Identification of station.**

(a) Onboard stations using radiotelephony shall identify transmissions by announcement in the English language as set forth in paragraphs (b), (c), and (d) of this section.

(b) Identification of station shall include the name of the vessel, followed by a number or name designating the respective mobile unit(s), for example, the identification and call would be: "S.S. United States Mobile One this is Mobile Two".

(c) Identification shall be transmitted at the beginning and upon completion of each series of communications with other units of the onboard station when the vessel:

(1) Is in a port or harbor, in inland waters, within 20 miles of shore, or is in a busy shipping lane; or

V38-9 JAN 15 73 XUM

(2) Where the calls of one vessel are likely to be received aboard another vessel.

(d) Where identification is required by paragraph (b) or (c) of this section, station identification shall be transmitted at intervals not exceeding 15 minutes whenever transmission, or a series of transmissions, is sustained for a period exceeding 15 minutes.

PART 91—INDUSTRIAL RADIO SERVICES

D. Part 91, Industrial Radio Services is amended as follows:

1. In § 91.554, paragraph (a) is amended by adding new limitation designator 48 to certain frequencies and paragraph (b) is amended to include the new frequency limitation 48 as follows:

§ 91.551 Frequencies available.

(a) • • •

BUSINESS RADIO SERVICE FREQUENCY TABLE

Frequency or band MHz	Class of station(s)	General reference	Limitations
• • •	• • •	• • •	• • •
457.525	Mobile	Low power general use.	13, 33, 43, 48.
457.550	do	do	13, 33, 43, 48.
457.575	do	do	13, 33, 43, 48.
157.600	do	do	13, 33, 43, 48.
• • •	• • •	• • •	• • •
467.750	Mobile	Low power general use.	13, 33, 41, 48.
467.775	do	do	13, 33, 41, 48.
467.800	do	do	13, 33, 41, 48.
467.825	do	do	13, 33, 44, 48.
• • •	• • •	• • •	• • •

(b) • • •

(48) This frequency is available on a shared and cooperative basis with the maritime mobile service for on-board vessel communications.

• • • • • •

[FR Doc.73-804 Filed 1-12-73;8:45 am]

[47 CFR Part 73]

[Docket No. 19666; FCC 73-21]

TELEVISION BROADCAST STATIONS IN ITHACA, N.Y.

Proposed Table of Assignments

In the matter of amendment of § 73.606(b), *Table of assignments*, Television Broadcast Stations (Ithaca, N.Y.), Docket No. 19666.

1. The Commission proposes to remove the potential for severe restriction on the geographic sharing of television broadcast Channel 14 in the New York City-Northeastern New Jersey Urbanized Area by stations in the land mobile service.

2. When the Commission provided for land mobile sharing of Channels 14 and 15 in this area the University of the State of New York, State Education Department (USNY) held a construction permit for Station WIET on reserved Channel 14 at Ithaca, N.Y. Interference protection afforded to Station WIET by land mobile stations had a substantial adverse effect on use of Channel 14 by the land mobile stations as a result. Now that USNY has surrendered its construction permit, this restriction could be removed by replacing Channel *14 with Channel *65. If Channel *14 at Ithaca remains in the Table of Assignments in an unfrozen status, there is a possibility of having even more restriction on land mobile use of Channel 14 than that originally imposed by protection of Station WIET.

3. If there had not been an outstanding construction permit for use of Channel *14 at Ithaca, Channel *14 would have been frozen along with the other 17 assignments in the Table which were frozen to permit land mobile sharing. In its new status as an unfrozen and unused channel, the possibility of adverse effect on use of Channel 14 in New York City by land mobile stations places a risk on the sharing of Channel 14 that could put future land mobile stations in jeopardy.

4. Channel *65 is readily available to replace Channel *14. Such a channel switch would remove the threat of highly restrictive and inefficient use overhanging the sharing of Channel 14 by land mobile stations in New York City where available frequencies in the land mobile service are in critically short supply, and where frequency relief through efficient sharing of Channels 14 and 15 is essential.

5. Accordingly, pursuant to the authority contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend the Table of Assignments in § 73.606(b) of the Commission's rules as follows:

City	Channel No. Present	Channel No. Proposed
Ithaca, N.Y.	*14, 52	52, *65

6. Under the terms of the Canadian-U.S.A. Television Agreement of 1952, the proposal will require referral to Canada because Ithaca is located within 250 miles of the common border. Although all geographic minimum mileage separation requirements of the Agreement are met by the assignment of Channel *65 to Ithaca, Canadian concurrence is necessary.

7. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations interested parties may file comments on or before February 20, 1973, and reply comments on or before March 2, 1973. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

8. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all written comments, reply comments, pleadings, briefs, or other documents, shall be furnished the Commission.

9. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its Headquarters in Washington, D.C. (1919 M Street NW.).

Adopted: January 4, 1973.

Released: January 8, 1973.

[Docket No. 16259; FCC 73-11]

SECONDARY FREQUENCY ASSIGNMENTS IN CALIFORNIA, TEXAS, AND CHICAGO

Order Terminating Proceeding

In the matter of temporarily amending Parts 89, 91, and 93 of the Commission's rules to test the principle of secondary frequency assignments in California, Texas, and the city of Chicago, Ill., Docket No. 16259.

1. In our notice of proposed rule making in this proceeding (30 FR 13965, November 4, 1965), we proposed to test the principle of secondary frequency assignments in the land mobile radio services. This was one of a number of studies instituted at the time looking for means of providing frequency relief for the land mobile radio services.

2. The proposal in this docket met with varied reactions. Some parties opposed the plan outright. Others, while not objecting to it, as such, asked that frequencies allocated in the services in which they operated be excluded from the test. Based on this response, we did not feel that the experiment would produce meaningful results; and we delayed its implementation pending further study and evaluation. In the interim, we have taken a number of actions allocating additional spectrum space to the land mobile radio services; and the possibilities for greater interservice sharing of land mobile radio frequencies are now being examined in connection with other current programs. Thus, the need for the program advanced in this proceeding no longer obtains.

3. *Accordingly, it is ordered*, That the proceeding in Docket No. 16259 is terminated.

Adopted: January 4, 1973.

Released: January 8, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-800 Filed 1-12-73;8:45 am]

[1] Commissioner Johnson concurring in the result.

[47 CFR Part 93]

[Docket No. 13690; FCC 73-10]

TAXICAB RADIO SERVICE

Order Terminating Proceeding

In the matter of amendment of subpart I of Part 93 of the Commission's rules to redefine eligibility and to specify permissible locations of base stations in the Taxicab Radio Service, Docket No. 13690.

1. This proceeding was initiated by our notice of proposed rule making (25 FR 7160, July 28, 1960) to amend the rules governing the Taxicab Radio Service. The purposes of the proceeding were to clarify the intent of certain regulations in force at that time and to restrict the practice of some eligible taxicab companies of selecting site locations designed to afford radio coverage greater than was actually needed or justified for their taxicab operations.

2. Upon review of the comments of the parties, and based upon our own reexamination of the matter in the context of our experience in the regulation of the Taxicab Radio Service in the interim period of time, we have concluded that the contemplated amendments should not be adopted at this time; and, therefore, that the subject rule making should be closed.

3. *Accordingly, it is ordered*, That the proceeding in Docket No. 13690 is terminated.

Adopted: January 4, 1973.

Released: January 8, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. R-467]

UTILIZATION AND CONSERVATION OF NATURAL GAS

Proposed Policy Statement

JANUARY 8, 1973.

This notice submits for public comment a proposed policy statement of the Commission relative to the utilization of natural gas and the Commission's administration of the regulatory requirements of the Natural Gas Act, 15 U.S.C. 717 et seq. The Commission proposes to implement such policies, as they may ultimately be developed in the proceeding, in all matters arising under the Natural Gas Act.

When applied in specific cases, opportunity would be afforded interested parties to challenge or support the stated policies through factual or legal presentation as may be appropriate in the circumstances presented. It is the Commission's intention in this statement to focus the attention of all parties concerned with the natural gas industry upon the general policy views of the Commission in advance of the filing of particular applications with the Commission and thereby to permit affected entities the opportunity to evolve a rational energy resource development program considering national energy goals and objectives as they may be stated from time-to-time, and to minimize the complexity and length of administrative proceedings before this Commission.

The policies set forth herein are directed to the establishment of priorities in the use of natural gas. As stated, the priorities reflect public policy guidance which the Commission proposes to give for the benefit of all who may be concerned with the development and utilization of natural gas and other primary energy resources. Sections of the Natural Gas Act chiefly of concern are sections 1, 3, 4, 5, and 7, U.S.C. 717 b, c, d, and f. The Commission requests public comment to all aspects of the proposed policy, which policy is based, in part, on our analyses of curtailment proceedings that have come before us for decision.[1]

Concurrently, the Commission is issuing, in Docket No. R-468, Commission regulations under the Natural Gas Act, Parts 153, 154, 156, 157, a notice of proposed rule making to revise several sections of its regulations under the Natural Gas Act, 18 CFR 153.4, 154.38(b), 154.39, 156.5, and 157.14. These proposed revisions would specify certain conditions for natural gas pipeline rate schedules or tariffs to be filed pursuant to sections 4 and 5 of the Natural Gas Act, 15 U.S.C. 717 c, d, and provide for the submission of additional data in connection with applications filed pursuant to sections 3 and 7 of that Act, 15 U.S.C. 717 b, f.

The Commission is therefore seeking public comment upon the details of those proceedings.

The basic authority of the Commission to initiate this policymaking action is the Natural Gas Act, 15 U.S.C. 717(a) et seq., particularly 717 b, c, d, f, and o, and the Administrative Procedure Act, 5 U.S.C. 553. The responses to the proposed policy will be major determinants in the formulation of such policies as may be finally adopted by the Commission herein.

National policies. Being an industrialized society, this Nation is energy dependent and energy sensitive. Thus, there is an urgent need for continued evolution in the prudent development and utilization of the Nation's energy resources as well as the implementation of coordinated governmental energy programs. The well-being of the Nation and its citizens rests upon an energy production base, which drives the economy and provides the means to accomplish other national goals. See for example, the full-employment goals as stated in the Employment Act of 1946, 60 Stat. 23, 15 U.S.C. 1021 et seq., the environmental protection objectives of the National Environmental Policy Act of 1969, 83 Stat. 852, 42 U.S.C. 4321 et seq., and economic goals of the Economic Stabilization Act Amendment of 1971, 85 Stat. 743.

The articulation of energy utilization and conservation concepts in this proceeding will be of substantial assistance to the Commission and all who appear before it in the discharge of established regulatory programs of this Commission. The concepts should be of major assistance to other agencies of government—Federal, State, and local.

Natural gas. The provisions of the Natural Gas Act provide "• • • that the business of transporting and selling natural gas for ultimate distribution to the public is affected with the public interest, and that Federal regulation in matters relating to the transportation of natural gas and the sale thereof in interstate and foreign commerce is necessary in the public interest," 15 U.S.C. 717(a).

For several years, this Commission has been confronted with the problems of curtailment of deliveries by jurisdictional pipeline companies caused by a nationwide shortage in the supply of natural gas. Corrective measures have been, and are being, taken by this Commission to facilitate increased supplies. However, a balance between supply and demand has not yet been achieved. The Nation's proven gas reserve inventory for the contiguous 48 States continues to shrink. Demand factors arising from economic growth, population factors, and environmental requirements continue to increase.

Available data indicate that not all jurisdictional pipelines have been able to procure contracts for new supplies of gas in sufficient quantities to insure that all present and potential customers of natural gas will be able to receive an adequate supply in the foreseeable future. Interstate pipelines, in many instances, have been unable to provide additional service

[1] Commissioner Johnson concurring in the result.

V38-9 JAN 15 73 XUM

to existing customers or service to new customers and some major interstate pipelines are at the present time being forced to curtail deliveries of natural gas below existing contractual commitments.

Supply shortages may not be eliminated in the immediate future. The recent report on "National Gas Supply and Demand 1971–90, Staff Report No. 2," prepared by the Commission's Bureau of Natural Gas projects that the level of potential but unsatisfied demand for gas will rise to 17 trillion cubic feet by 1990. The staff estimates that between 1970 and 1990 accumulated potential demand will exceed projected supplies by more than 185 trillion cubic feet. Additionally, the Future Requirements Committee (FRC) estimates that (exclusive of field use) potential natural gas demand in the United States will increase from about 23.3 trillion cubic feet in 1971 to 28.5 trillion cubic feet in 1975. Based on this projection and on information concerning presently contracted or reasonably assured supplies, the FRC estimates that the gap between potential demand and reasonably assured supplies will increase from about 1 trillion cubic feet in 1971 to nearly 4 trillion cubic feet in 1975. Future Gas Requirements of the United States, Future Requirements Committee, Vol. No. 4, October 1971, page 3.

Pending resolution of the supply-demand question, there is need to evaluate the priorities of use of natural gas resources—as they have been established heretofore, chiefly by the interplay of economic market forces—the effects upon the natural gas industry, the ultimate consumer and the general public, the impacts upon environmental considerations, and the basic questions associated with the matter of conservation of energy. The priorities of use set forth in this proposed policy statement are designed to initiate that evaluation in the light of public interest considerations.

As the Commission has noted on many previous occasions, natural gas is the cleanest burning, and insofar as known today, the least polluting of all the fossil fuels. This is one of the reasons for its present enlarged demand and desirability as a fuel. In some metropolitan areas, air quality standards and regulations have placed great urgency on obtaining clean fuels and developing means for "clean" energy utilization.

It is recognized that the priorities of use of natural gas may have some adverse environmental impact at some point. The extent thereof will relate to the manner in which available gas supplies are utilized. In proposing this policy statement, the Commission desires to facilitate a general public awareness of this problem, a full discussion of the environmental factors, and an awareness of the overall costs of environmental protection.

Pollution abatement equipment and controls can function most effectively and at the lowest economic cost, when alternative fossil fuels are consumed in a few large units rather than in a larger number of small units. For that reason, certain of the proposals herein restrict the use of gas by large consumers who are best able to convert to less desirable alternatives in a least polluting manner. Also, since electricity is, in some regions of the country, the primary residential substitute for natural gas and since it takes approximately three B.t.u.'s of fossil fuel to produce one B.t.u. of electricity, the general priorities set forth herein propose limited uses for industrial boiler fuel, of which electricity generation is the major component, in favor of residential and commercial consumption.

General discussion. As stated heretofore, the Commission has ruled on the propriety of curtailment procedures to be invoked by jurisdictional pipeline companies during periods of curtailed deliveries. In reaching its decisions, the Commission reviewed the record in those proceedings and, based on those reviews, has concluded that the ultimate use of natural gas falls into certain set categories. We believe that those categories are generally applicable industrywide and can be used as a basis for establishing priorities to assure maximum high priority usage of this natural resource. We, of course, recognize that extraordinary circumstances may preclude the strict adherence to the priorities established and, in such alleged circumstances, those persons claiming an exemption should set forth the circumstances in the applications filed for the proposed service.

The priorities and proposed policy have as their highest priority deliveries for the residential and small volume consumers and follow basically the priorities set forth in our order issued concurrently herewith, which order sets forth the priorities-of-deliveries during periods of curtailment. The reasons for the order of priority here are similar to those in that order, since in each case the end-use of the natural gas consumed meets our concept of high priority usage. Thus, we herein adopt the reasons for the specific priority usage set forth in that order without repeating it herein.

Further, we are cognizant of the necessity for a continual review and implementation of policies as will forestall or hopefully preclude other pipeline companies from attaining similar shortage problems on their system and to promote the most efficient use of this natural resource during this time of short supply. To these ends, we solicit comments on several alternatives which may be considered in arriving at a rational solution to the optimum allocation of limited gas reserves at a time of shortage.

(1) Pipeline rates have been designed, in part, on the basis of economics. Thus, certain rates have been approved that encouraged industrial sales, which sales, in today's view, would be placed in a low priority status. Such rate design techniques will be reviewed to meet today's supply situation and should encompass such matters as elimination of conjunctive billing, modification of the Seaboard formula, separate rate for jurisdictional industrial service, elimination of annual contract demands and, in lieu thereof, the use of monthly or seasonal demands, and any other aspects of rate design relating to the principles of conservation of natural gas supply within the concepts set forth above.

(2) Certain contracts between pipelines and producers contain take-or-pay provisions that require pipelines to take gas at times of low demand for high priority usage. Accordingly, it may be advisable to revise those take-or-pay provisions to permit pipelines to husband their supplies of gas for superior end-use customers. Additionally, we may establish procedures to encourage pipelines to develop additional storage facilities, either on their own or in conjunction with other jurisdictional or nonjurisdictional companies. Such encouragement could be in the form of special rates or other incentives for the development of that additional storage capacity.

(3) In order to conserve our future supplies of natural gas, we will consider viewing all import and certificate requests in the context of end-use considerations applying the priorities hereinafter set forth. All requests for tariff changes relating to deliveries, such as requests for change or addition of delivery points, exchange agreements, volumetric changes to customers or classes of customers, and other proposals that bear on changing the usage of gas that has been previously certificated, may also be viewed in the context of the end-use considerations, and the priorities hereafter set forth.

(4) We are considering requiring each pipeline company to furnish us with a complete market study that will reflect end-usage of its present sales. Such a study may be used as the basis for initiation of abandonment proceedings to remove low priority usages from present sales volumes. Further, we are also considering a requirement that pipeline companies notify us in advance of the expiration of the primary term of each direct contract and resale service agreement and whether abandonment or renewal of that contract or service agreement will be sought by the pipeline. By such advance notice, we could determine whether to institute abandonment proceedings on our own motion.

The above four considerations are presented solely for the purpose of soliciting comment. We believe that comments from all interested parties on these proposals or on any other proposal that will further the goals set forth above will aid our deliberations in meeting today's challenges.

Proposed policy statement. The proposed policy statement constitutes a new § 2.78(b) Title 18, Code of Federal Regulations, Chapter I, Part 2, reading as follows: [3]

[3] See FR Doc. 73–825, which adds § 2.78 to 18 CFR, in the rules and regulations section of this issue of the FEDERAL REGISTER.

§ 2.78 Utilization and conservation of natural resources—natural gas.

• • • • •

(b) Except when extraordinary circumstances are found to exist, the public interest requires jurisdictional pipeline companies to recognize and implement the following priorities-of-service in submitting proposals to this Commission requesting service to new and/or additional direct and resale customers during this period of short supply of natural gas:

(1) Residential, small commercial (less than 50 Mcf on a peak day).

(2) Large commercial requirements (50 Mcf or more on a peak day) and firm industrial requirements for plant protection, feedstock, and process needs.

(3) All industrial requirements not specified in paragraph (b) (2), (4), (5), (6), (7), or (8) of this section.

(4) Firm industrial requirements for boiler fuel use at less than 3,000 Mcf per day, but more than 1,500 Mcf per day, where alternate fuel capabilities can meet such requirements.

(5) Firm industrial requirements for large volume (3,000 Mcf or more per day) broiler fuel use where alternate fuel capabilities can meet such requirements.

(6) Interruptible requirements of less than 1,500 Mcf per day.

(7) Interruptible requirements of intermediate volumes (from 1,500 Mcf per day through 3,000 Mcf per day).

(8) Interruptible requirements of more than 3,000 Mcf per day.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than February 28, 1973, data, views, comments, or suggestions in writing, concerning all or part of the amendment proposed herein. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C., during regular business hours. Submittals to the Commission should indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing requests a conference with the staff of the Federal Power Commission to discuss the proposed amendment. The staff, in its discretion, may grant or deny requests for a conference. The Commission will consider all written submittals before acting on the proposed amendment herein.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-824 Filed 1-12-73;8:45 am]

[18 CFR Parts 153, 154, 156, 157]

[Docket No. R-468]

NATURAL GAS UTILIZATION

Notice of Proposed Rule Making

JANUARY 8, 1973.

This notice submits for public comment a series of proposed revisions to the Commission's regulations under the Natural Gas Act, 15 U.S.C. 717 et seq., reflecting changes corresponding to the policy statement in Order No. 467 and the proposed statements of Commission policy which the Commission is noticing concurrently herewith in Docket No. R-467, Utilization and Conservation of Natural Resources—Natural Gas. The proposed revisions to the Commission's regulations under the Natural Gas Act would occur in §§153.4, 154.38(b), 154.39, 156.5, and 157.14, 18 CFR 153.4, 154.38 (b), 154.39, 156.5 and 157.14. They are described infra.

The Commission's purposes in articulating its general policies on the matter of natural gas utilization are set forth in the companion order and notice and need not be repeated herein. The separate rulemaking dockets are designed to facilitate separation and subsequent consideration of factors bearing upon general policy apart from the details of specific Commission regulation changes. The Commission believes that public participation in both dockets will be aided by this dichotomy.

The basic authority of the Commission to initiate this proposed rulemaking action is the Natural Gas Act, 15 U.S.C. 717 et seq., particularly 717, b, c, d, f, and o, and the Administrative Procedure Act, 5 U.S.C. 553. The responses received will be major determinants in the formulation of such rules as may be finally adopted by the Commission herein.

The revisions proposed herein are designed to secure additional information needed by the Commission in its administration of the Natural Gas Act in respect to various applications filed thereunder and to provide additional requirements specifying terms and conditions of rate schedules or tariffs acceptable for filing under the Natural Gas Act by natural gas pipelines, all in light of the stated policies on utilization of natural gas.

Further, the Commission, in its proposed amendment to § 154.38, is offering for comment a requirement that certain large volume industrial sales, both present and future, be made under interruptible contracts and rate schedules. The result of that proposal is anticipated to be achieved by December 31, 1974, and, in order to accomplish that result, some industrial sales made under firm contracts and certificated by us will require abandonment proceedings under section 7(b) of the Natural Gas Act. Accordingly, we are requiring pipeline companies to file such abandonment applications by June 30, 1974.

Accordingly, it is proposed to amend the regulations under the Natural Gas Act as follows:

PART 153—APPLICATION FOR AUTHORIZATION TO EXPORT OR IMPORT NATURAL GAS

Amend § 153.4 of Part 153, Subchapter E, Chapter I, Title 18 of the Code of Federal Regulations to read as follows:

§ 153.4 Required exhibits.

(a) • • •

Exhibit G. (1) Names and locations of areas to be served, showing the number of residential, firm commercial, firm industrial, residential space heating, commercial space heating, firm annual commercial and industrial interruptible at peak periods, interruptible customers, and other types of customers for each distribution system served; and the names and locations of each firm industrial, firm annual industrial interruptible at peak periods, and interruptible customer who is served directly or indirectly and whose estimated consumption exceeds 100 Mcf per day or 36,000 Mcf per year together with a description and explanation of the end use to which each of these industrial customers will put the gas.

• • • • •

PART 154—RATE SCHEDULES AND TARIFFS

Amend § 154.38(b) of Part 154, Subchapter E, Chapter I, Title 18 of the Code of Federal Regulations, by adding a new subparagraph to read as follows and redesignating the present paragraph subparagraph (1):

§ 154.38 Composition of rate schedule.

• • • • •

(b) *Availability.* • • •

(2) *Form of Filing.* Effective December 31, 1974, contracts providing year-round daily firm service shall be so drafted as expressly to be available only: (i) for direct and resale sales made on a firm basis to the user; (ii) for gas placed into storage; and (iii) for natural gas unavoidably used and/or lost in conjunction with the above. Separate firm rate schedules shall be provided to cover transportation and sales of natural gas which is transported and/or resold on an other than year-round firm basis, e.g., annual contract quantity service, or seasonal service, annual service interruptible at peak periods. Unless otherwise specifically permitted by the Commission, in all cases where the use of alternative fuels is feasible firm rate schedules and contracts shall not be available after December 31, 1974, for resale to or direct delivery to individual consumers in volumes greater than 1500 Mcf per day. Where required by statutory provisions, rate schedules shall be accompanied by appropriate applications pursuant to Section 7 of the Natural Gas Act which applications shall be filed by June 30, 1974.

• • • • •

V 38-9 JAN 15 73 XUM

Amend § 154.39 of Part 154, Subchapter E, Chapter I, Title 18 of the Code of Federal Regulations by adding a new paragraph (c) to read as follows:

§ 154.39 General terms and conditions.

. . . . . .

(c) The general terms and conditions of the tariff shall set forth the priorities of service to be observed in times of inadequate gas supply and/or capacity, both as to services rendered pursuant to FPC Gas Tariff rate schedules and as to services rendered directly to ultimate consumers, showing clearly the priority relationships of all tariff rate schedules and direct service contracts, and subdivided as necessary to show different priorities within individual tariff rate schedules and direct service contracts. The general terms and conditions of the tariff shall explain that on any day the gas entitlements in each priority class shall depend upon the usage of gas on that day and the tariff shall explain how these daily entitlements shall be determined.

PART 156—APPLICATIONS FOR ORDERS UNDER SECTION 7(a) OF THE NATURAL GAS ACT

Amend § 156.5(a)(10)(i) of Part 156, Subchapter E, Chapter I, Title 18 of the Code of Federal Regulations, to read as follows:

§ 156.5 Exhibits.

(a) *Exhibits to be submitted with application.* . . .

(10) *Exhibit I—Market data.* . . .

(i) Names and locations of areas to be served, showing the number of residential, firm commercial, firm industrial, residential space heating, commercial space heating, firm annual commercial and industrial interruptible at peak periods, interruptible customers, and other types of customers for each distribution system served; and the names and locations of each firm industrial, firm annual industrial interruptible at peak periods, and interruptible customer who is served directly or indirectly and whose estimated consumption exceeds 100 Mcf per day or 36,000 Mcf per year together with a description and explanation of the end use to which each of these industrial customers will put the gas.

. . . . . .

PART 157—APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY AND FOR ORDERS PERMITTING AND APPROVING ABANDONMENT UNDER SECTION 7 OF THE NATURAL GAS ACT

Amend § 157.14(a)(11)(i) of Part 157, Subchapter E, Chapter I, Title 18 of the Code of Federal Regulations, to read as follows:

§ 157.14 Exhibits.

(a) *To be attached to each application.* . . .

(11) *Exhibit I—Market data.* . . .

(i) Names and locations of areas to be served, showing the number of residential, firm commercial, firm industrial, residential space heating, commercial space heating, firm annual commercial and industrial interruptible at peak periods, interruptible customers, and other types of customers for each distribution system served; and the names and locations of each firm industrial, firm annual industrial interruptible at peak periods, and interruptible customer who is served directly or indirectly and whose estimated consumption exceeds 100 Mcf per day or 36,000 Mcf per year together with a description and explanation of the end use to which each of these industrial customers will put the gas.

. . . . . .

Any interested persons may submit to the Federal Power Commission, Washington, D.C. 20426, not later than February 28, 1973, data, views, comments, or suggestions, in writing, concerning all or part of the amendment proposed herein. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C., during regular business hours. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing requests a conference with the staff of the Federal Power Commission to discuss the proposed amendment. The staff, in its discretion, may grant or deny requests for a conference. The Commission will consider all written submittals before acting on the proposed amendment herein.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Mines

[30 CFR Part 90]

TRANSFER OF MINERS WITH EVIDENCE OF PNEUMOCONIOSIS

Proposed Requirements for Respirable Dust Sampling of Miners Electing Their Option of Transfer

Since promulgation of 30 CFR Part 90 on October 27, 1971 (36 FR 20601), experience in administering the procedures for transfer of miners with evidence of pneumoconiosis has demonstrated a need for more stringent monitoring of the exposure to respirable coal mine dust of those eligible miners who have elected to exercise the option of transfer afforded them by section 203(b) of the Federal Coal Mine Health and Safety Act of 1969, as amended.

Notice is hereby given that in accordance with the provisions of section 203 of the Act (83 Stat. 763; 30 U.S.C. 843), and pursuant to the authority vested in the Secretary of the Interior under section 508 of the Act (83 Stat. 803; 30 U.S.C. 957), it is proposed that Part 90 of Subchapter O, Chapter I, Title 30, Code of Federal Regulations be amended as set forth below.

Interested persons may submit written comments, suggestions, or objections to the Director, Bureau of Mines, Washington, D.C. 20240, no later than March 1, 1973. In order to facilitate consideration of these proposed amendments by interested persons, an explanation of the reasons for and purposes thereof is also set forth below.

JOHN B. RIGG,
Deputy Assistant Secretary of the Interior.

JANUARY 9, 1973.

1. When a miner is transferred under the provisions of section 203(b) of the Act, or when the operator reports that the miner requesting transfer is already working in a position where the concentration of respirable dust in the mine atmosphere meets the requirements of section 203(b), it is deemed advisable to require that an operator immediately take three samples of respirable dust and transmit them to the Bureau of Mines. These samples will enable the Bureau to ascertain at an early date whether the atmosphere to which the miner is exposed meets the requirements of section 203(b), and will ensure that corrective action is taken before the miner experiences a prolonged exposure to respirable dust levels in excess of those allowed under section 203(b). If the series of three samples shows a concentration of respirable dust in excess of the levels prescribed by section 203(b), the district manager of the coal mine health and safety district in which the mine is located shall notify the operator and the affected miner that such miner must be transferred in accordance with the provisions of Part 90. To ensure early measurement of exposure to respirable dust, 30 CFR 90.31 would be amended by adding thereto a new paragraph (c) as follows:

§ 90.31 Operator's transfer of miner; requirements.

. . . . . .

(c) Upon transferring the miner to such a position as is required by section 203(b) of the Act, or upon reporting that the miner who has exercised his option of transfer is already working in a position where the concentration of respirable dust in the mine atmosphere meets the requirements of section 203(b), the operator shall immediately take three samples of respirable dust from the mine atmosphere to which the miner is exposed on three consecutive normal production shifts, each of which is worked on a separate calendar day. Such respirable dust samples shall be taken and transmitted to the Bureau of Mines in accordance with the methods and manner prescribed in 30 CFR Part 70 or Part 71, as applicable.

2. When a Bureau health inspection or the operator's dust sampling program results in a notice of violation of the applicable respirable dust standard specified in 30 CFR Part 70 or Part 71 which affects the area of a mine where a miner who has exercised his option of transfer is working, such violation indicates that the miner may be exposed to concentrations of respirable dust in excess of the levels prescribed by sections 203(b) of the Act. In order to insure that such miners are not exposed to respirable dust concentrations in excess of the provisions of section 203(b), it is deemed advisable to require that the operator immediately take three samples of respirable dust from the mine atmosphere to which the miner who has exercised his option of transfer is exposed, whenever the operator is notified by the Bureau that the area of the mine in which such miner is working is in violation of the applicable respirable dust standard specified in 30 CFR Part 70 or Part 71. If the series of three samples shows a concentration of respirable dust in excess of the levels prescribed by section 203(b), the district manager of the coal mine health and safety district in which the mine is located shall notify the operator and the affected miner that such miner must be transferred in accordance with the provisions of Part 90. To provide this additional safeguard, 30 CFR Part 90 would be amended by adding thereto a new § 90.41 which would read as follows:

§ 90.41 Enforcement of option of transfer; violation of respirable dust standard; individual sampling procedure.

If the operator receives a notice of violation of the applicable respirable dust standard specified in Part 70 or Part 71 of this chapter, and such violation affects the area of the mine in which a miner who has elected to exercise his option of transfer is working, the operator shall immediately take three samples of respirable dust from the mine atmosphere to which such miner is exposed on three consecutive normal production shifts, each of which is worked on a separate calendar day. Such respirable dust samples shall be taken and transmitted to the Bureau of Mines in accordance with the methods and manner prescribed in 30 CFR Part 70 or Part 71, as applicable.

[FR Doc.73-829 Filed 1-12-73;8:45 am]

Fish and Wildlife Service

[50 CFR Part 17]

CONSERVATION OF ENDANGERED SPECIES AND OTHER FISH OR WILDLIFE

Proposed Additions and Deletions to List

Notice is hereby given, pursuant to the authority contained in the Endangered Species Conservation Act of 1969, 80 Stat. 926 (16 U.S.C. 668aa–668cc), as amended by 83 Stat. 275 (16 U.S.C. 668cc–1 to 668cc–6), that the Secretary of the Interior proposes to amend Title 50, Part 17, Appendix A, the "U.S. List of Endangered Foreign Fish and Wildlife," and Appendix D, "The U.S. List of Endangered Native Fish and Wildlife," of the Code of Federal Regulations.

The proposed amendment would add the following animals to Appendix A, the "U.S. List of Endangered Foreign Fish and Wildlife." This proposal is based upon evidence on file with the Bureau of Sport Fisheries and Wildlife, Washington, D.C., which shows these animals are threatened with worldwide extinction due to one or more of the following: (1) The destruction, drastic modification, or severe curtailment, or the threatened destruction, drastic modification, or severe curtailment of its habitat, or (2) its overutilization for commercial or sporting purposes, or (3) the effect on it of disease or predation, or (4) other natural or man-made factors affecting its continued existence.

Information in the "Where Found" column below is provided only for informative and advisory purposes, is not exhaustive nor inclusive and has no legal effect.

Common name	Scientific name	Where found
Yellow-footed rock wallaby.	*Petrogale xanthopus*	Australia.
Red kangaroo	*Megaleia rufa*	Do.
Eastern gray kangaroo.	*Macropus giganteus*	Do.
Western gray kangaroo.	*Macropus fuliginosus*	Do.
Desert bandicoot	*Perameles eremiana*	Do.
Gaimards rat-kangaroo.	*Bettongia gaimardi*	Do.
Quokka	*Setonix brachyurus*	Do.
Queensland hairy-nosed wombat.	*Lasiorhinus gillespiei*	Do.
Eastern native-cat.	*Dasyurus viverrinus*	Do.
Numbat	*Myrmecobius fasciatus*	Do.
Stick-nest rat	*Leporillus conditor*	Do.
Gould's mouse	*Pseudomys gouldii*	Do.
Magpie goose	*Anseranas semipalmata*	Do.
Freckled duck	*Stictonetta naevosa*	Do.
Plain wanderer	*Pedionomus torquatus*	Do.
Bustard	*Otis australis*	Do.
Ground parrot	*Pezoporus wallicus*	Do.
Aquatic box turtle.	*Terrapene coahuila*	Mexico.

Consistent with the foregoing proposal, and in recognition of the fact that by listing the species, the law will apply to their subspecies as well, it is further proposed to amend Appendix A, the "U.S. List of Endangered Foreign Fish and Wildlife" by deleting the following subspecies of the species named above:

Common name	Scientific name	Where found
Rusty numbat	*Myrmecobius fasciatus rufus.*	Australia.

This proposed amendment would add the following animals to Appendix D, "The U.S. List of Endangered Native Fish and Wildlife." This proposal is based upon evidence on file with the Bureau of Sport Fisheries and Wildlife, Washington, D.C., which shows each of these animals are threatened with extinction due to one or more of the following conditions: Its habitat is threatened with destruction, drastic modification, or severe curtailment, or overexploitation, disease, predation, or other factors, pose a severe enough threat that its survival requires assistance if the species is to survive.

MAMMALS

Common name	Scientific name
Utah prairie dog	*Cynomys parvidens.*
Northern Rocky Mountain wolf.	*Caprimulgus nocti-therus.*
Eastern cougar	*Felis concolor cougar.*

BIRDS

Mississippi sandhill crane.	*Grus canadensis pulla.*
Pureto Rico whip-poor-will.	*Batrachoseps aridus. okaloosae.*
Santa Barbara song sparrow.	*Melospiza melodia graminea.*

AMPHIBIANS

Common name	Scientific name
Desert slender sala-mander.	*Batrachoseps aridus.*

FISH

Okaloosa darter	*Etheostoma okaloosae.*

The Secretary of the Interior is not foreclosed, at the conclusion of the notice period below stated, from publishing a list which omits one or more of the species herein proposed for listing, or which retains subspecies herein proposed for delisting, or finally, which includes only some subspecies of the species herein proposed for listing.

Interested persons are invited to submit written comments, suggestions, or objections concerning the proposed amendments, to the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C. 20240. Comments received by March 16, 1973, will be considered.

SPENCER H. SMITH,
Director.

JANUARY 11, 1973.

[50 CFR Part 280]

EASTERN PACIFIC TUNA FISHERIES

Yellowfin Tuna

The resolution adopted by the Inter-American Tropical Tuna Commission at its 28th meeting held on December 20, 1972, in San Diego, Calif., recommends to continue in 1973 the experimental fishing program in effect since 1969.

In addition, for 1973, the Commission recommended removing the restrictions from part of the regulatory area to encourage exploratory fishing. The area to be opened up lies south and west of the Galapagos Islands.

The Commission's resolution for 1973, as in 1972, allows vessels of less than 400 short tons carrying capacity to fish for yellowfin tuna within the regulatory area

V38-9 JAN 15 73 XUM

during the closed season under such restrictions as may be necessary to limit the catch of yellowfin by such vessels to 6,000 tons during 1973. It has been the experience of the National Marine Fisheries Service that as much as 700 short tons of yellowfin are additionally available from the unused portion of the overall country 15 percent incidental catch. Thus, the yellowfin tuna to be allotted to the vessels under 400 short tons carrying capacity is 6,000 short tons, plus approximately 700 short tons which we expect will be available under the unused portion of the 15 percent incidental catch. In regard to the allocation of the 6,700 short tons, the National Marine Fisheries Service invites comments upon the desirability of combining the seiners of 300 short tons carrying capacity or less and the seiners 301–400 short tons carrying capacity into one allotment group. In the absence of general interest or a workable plan to combine the two groups of small seiners, or any interest in a redistribution of the allotments to the three categories of small vessels, the allotments and incidental catch rates for 1973 will remain the same as in 1972, namely:

(1) Purse seiners of 301–400 short tons carrying capacity, 900 short tons, 40 percent by round weight of each vessel's total catch.

(2) Purse seiners of 300 short tons carrying capacity or less, 3,500 short tons, 50 percent by round weight of each vessel's total catch.

(3) Bait and jig boats, 2,300 short tons, 50 percent by round weight of each vessel's established short ton carrying capacity.

Before final adoption of amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Regional Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, CA 90731, on or before January 26, 1973.

Interested persons will also be afforded an opportunity to comment orally on the proposed amendments at a public hearing to be held in the United Portuguese Club, 2818 Addison Street, San Diego, CA, beginning at 9:30 a.m., January 24, 1973. Any person who intends to testify at this hearing is requested to furnish in writing prior to the hearing his name and the name of the organization he represents, if any, to the said Regional Director.

The proposed amendments are issued under the authority contained in subsection (c) of section 6 of the Tuna Conventions Act of 1950, as amended (16 U.S.C. 955(e)), as modified by Reorganization Plan No. 4, effective October 3, 1970 (35 FR 15627).

Issued at Washington, D.C., and dated January 11, 1973.

The proposed amendment is described below.

1. Amend paragraph (g) of § 280.1 to read as follows:

§ 280.1 Definitions.

* * * * *

(g) *Regulatory area.* All waters of the eastern Pacific Ocean bounded by the mainland of the Americas and the following lines: Beginning at a point on the mainland where the parallel of 40° north latitude intersects the coast; thence due west to the meridian of 125° west longitude; thence due south to the parallel of 5° north latitude; thence due east to the meridian of 110° west longitude; thence due south to the parallel of 10° south latitude; thence due east to the meridian of 90° west longitude; thence due south to the parallel of 30° south latitude; thence due east to a point on the mainland where the parallel of 30° south latitude intersects the coast. Except that for 1973 only, the area encompassed by a line drawn starting at 110° west longitude and 3° north latitude extending east along 3° north latitude to 95° west longitude; thence south along 95° west longitude to 3° south latitude; thence east along 3° south latitude to 90° west longitude; thence south along 90° west longitude to 10° south latitude; thence west along 10° south latitude to 110° west longitude; thence north along 110° west longitude to 3° north latitude shall be excluded from the regulatory area to encourage exploratory fishing.

INDUSTRY ADVISORY COMMITTEE ON MARITIME POLICY

Notice of Meeting

The Industry Advisory Committee on Maritime Policy was established to serve as a nucleus for the exchange of views on military ocean transportation policies and programs and to provide an exchange of information between government and industry on current maritime problems of concern to the Department of Defense.

The first meeting of the Committee will be held at 9:30 a.m. on January 19, 1973. This meeting will be devoted to organization, discussion of current merchant marine problems, the formulation of the role, scope, objectives, and goals for the Committee, and will involve exclusively the expression of views and judgments of its members. Under authority of the notice of determination issued by the Assistant Secretary of Defense (Installations and Logistics), dated December 15, 1972, this meeting is closed to the public.

Dated: January 9, 1973.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division OASD (Comptroller).

DEPARTMENT OF AGRICULTURE

Forest Service

PROPOSED TIMBER MANAGEMENT PLAN, TONTO NATIONAL FOREST

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for a Proposed Timber Management Plan, Tonto National Forest.

The purpose of the statement is to consider probable environmental effects of the proposed timber management program.

The final environmental statement was filed with CEQ on January 4, 1973. (USDA–FS–FES(Adm) 72–25.)

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 14th Street and Independence Avenue SW., Washington, DC 20250.

USDA, Forest Service, Southwestern Region, 517 Gold Avenue SW., Albuquerque, NM 87101.

Tonto National Forest, Federal Building, Room 6208, 230 North First Avenue, Phoenix, AZ 85025.

Copies are available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151; and Colorado Plateau Environmental Advisory Council, Post Office Box 1389, Flagstaff, AZ 86001. Please refer to the name and number of the environmental statement above when ordering.

A limited number of single copies are available upon request to William D. Hurst, Regional Forester, Southwestern Region, U.S. Forest Service, 517 Gold Avenue SW., Albuquerque, NM 87101.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

Soil Conservation Service

PERIWINKLE CREEK FLOOD PREVENTION, UPPER WILLAMETTE PROJECT, OREGON

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, Department of Agriculture, has prepared a final environmental statement for the Periwinkle Creek Flood Prevention, Recreation and Drainage Project Measure, USDA–SCS–ES(Adm) 73–RD–2(F).

The environmental statement concerns a plan for reducing streambank erosion, sediment deposition, flood damage, drainage problems, and water pollution in the Periwinkle Creek area, Linn County, Oreg. The planned works of improvement include conservation land treatment, supplemented by 13,200 feet of floodway, 17,100 feet of open channels, two ponds, and recreation facilities for water-based recreation in two community parks.

The final environmental statement was filed with CEQ on January 8, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Soil Conservation Service, Washington Office, South Agriculture Building, Room 5105A, 12th Street and Independence Avenue SW., Washington, DC 20250.

USDA, Soil Conservation Service, Washington Building, 1218 Southwest Washington Street, Portland, OR 97205.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151 for $3 each. Please refer to the name and number of statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Dated: January 8, 1973.

KENNETH E. GRANT,
Administrator, Soil Conservation Service.

DEPARTMENT OF COMMERCE

National Bureau of Standards

CERTAIN PRODUCT AND COMMERCIAL STANDARDS

Notice of Intent To Withdraw

In accordance with § 10.12 of the Department of Commerce Procedures for the Development of Voluntary Product Standards (15 CFR Part 10, as revised, 35 FR 8349 dated May 28, 1972), notice is hereby given of the Department's intent to withdraw the following listed Product Standard (PS) and Commercial Standards (CS) for the reason that the more up-to-date standard identified parenthetically has been published for the products covered:

PS 2–66, "Standard Sizes of Blackboard Slate" (ASTM C 543–67, "Specifications for Slate Blackboards").

CS 9–65, "Builders' Template Hinges" (ANSI A156.7–1972, "Template Hinges").

CS 123–49, "Grading of Diamond Powder" (ANSI B74.16–1971, "Checking the Size of Diamond Abrasive Grain").

Any comments or objections concerning the intended withdrawal of these standards should be made in writing and directed to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, by March 1, 1973. The effective date of withdrawal will be not less than 60 days after the final notice of withdrawal. Withdrawal action will terminate the authority to refer to the standards as voluntary

V 38 9 JAN 15 73 XUM

standards developed under the Department of Commerce procedures, from the effective date of the withdrawal.

LAWRENCE M. KUSHNER,
Acting Director.

JANUARY 9, 1973.

[FR Doc.73-771 Filed 1-12-73;8:45 am]

CERTAIN SIMPLIFIED PRACTICE RECOMMENDATIONS

Notice of Intent To Withdraw

In accordance with § 10.12 of the Department of Commerce Procedures for the Development of Voluntary Product Standards (15 CFR Part 10, as revised, 35 FR 8349 dated May 28, 1970), notice is hereby given of the Department's intent to withdraw the eight Simplified Practice Recommendations (SPR) identified below. As a result of a review of these standards with interested industry groups, it has been tentatively determined that each of these Simplified Practice Recommendations is obsolete and revision of the standards would serve no useful purpose:

SPR 10-47 Milk and Cream Bottles.
SPR 58-36 Classification of Iron and Steel Scrap.
SPR 144-60 Paints, Varnishes, and Related Products.
SPR 174-65 Cast Iron Radiators.
SPR 230-48 Flat Veneer Products.
SPR 231-48 Coffee Grinds.
SPR 236-54 Delivery Cases for Glass Milk Bottles and Paperboard Milk Containers.
SPR 265-63 Forms for Two-Way Concrete Joist Floor and Roof Construction.

Any comments or objections concerning the intended withdrawal of any of these standards should be made in writing and directed to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, by March 1, 1973. The effective date of withdrawal will be not less than 60 days after the final notice of withdrawal. Withdrawal action will terminate the authority to refer to the standards as voluntary standards developed under the Department of Commerce procedures, from the effective date of the withdrawal.

LAWRENCE M. KUSHNER,
Acting Director.

JANUARY 9, 1973.

[FR Doc.73-763 Filed 1-12 73;8:45 am]

CERTAIN HOSPITAL SUPPLIES

Notice of Action on Proposed Withdrawal of Voluntary Product Standards

In accordance with the provisions of § 10.12 of the Department's published "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as amended; 35 FR 8349 dated May 28, 1970), notice is hereby given of the withdrawal of the 12 standards identified below. Each of these standards, Commercial Standard (CS) and Simplified Practice Recommendation (SPR), has been found to be obsolete, no longer technically adequate, no longer acceptable to and used by the industry, or otherwise not in the public interest.

CS 54-35 Mattresses for Hospitals.
CS 55-35 Mattresses for Institutions.
CS 114-43 Hospital Sheeting for Mattress Protection.
CS 136-46 Blankets for Hospitals (Wool, and Wool and Cotton).
CS 146-47 Gowns for Hospital Patients.
SPR 24-37 Hospital Beds.
SPR 85-52 Adhesive Plaster.
SPR 86-52 Surgical Gauze.
SPR 139-57 Surgical Dressings.
SPR 224-47 Medical and Surgical Hypodermic Needles (For Hospital Use).
SPR 239-50 Surgical Sutures—Nonbollable Type (Catgut, Silk, Nylon).
SPR 240-50 Clinical Utensils (Aluminum, Enameled Steel, Stainless Steel).

Public notice of the Department's intention to withdraw these standards was published in the FEDERAL REGISTER on November 21, 1972 (37 FR 24773), and a 45-day period was provided for the submission of comments or objections concerning the proposed withdrawal of any of these standards. No objections to the Department's intention of withdrawing any of these standards have been received by the National Bureau of Standards.

The effective date for the withdrawal of these standards will be March 16, 1973. This withdrawal action terminates the authority to refer to these standards as Voluntary Product Standards developed under the Department of Commerce Procedures.

LAWRENCE M. KUSHNER,
Acting Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-518; NADA No. 10-954V]

FORT DODGE LABORATORIES ET AL.

Various NADA's; Notice of Withdrawal of Approval of New Animal Drug Applications

In the FEDERAL REGISTER of November 4, 1972 (37 FR 23587), the Commissioner of Food and Drugs published an announcement proposing to withdraw approval of the following new animal drug applications:

1. Meprobamate, new animal drug application (NADA) No. 10-954V; by Fort Dodge Laboratories, Division of American Home Products Corp., Fort Dodge, Iowa 50501.

2. C-B-G Solution Improved, NADA No. 8-821V; by Jensen-Salsbery Laboratories, Division of Richardson-Merrell Inc., 2000 South 11th Street, Kansas City, KS 66103.

3. PTZ Capsules, NADA No. 2-513V; PTZ Drench, NADA No. 3-510V; PTZ Pellets, NADA No. 3-850V; Nicozine, NADA No. 5-160V; Coxitrol, NADA No. 5-219V; Vermi-Tabs, NADA No. 6-562V; and PTZ Drench with Lead Arsenate, NADA No. 8-241V; by Hess & Clark, Division of Rhodia, Inc., Ashland, Ohio 44805.

4. 0.5 percent Ophthalmic Solution Hydeltrone, NADA No. 11-433V, by Merck Sharp & Dohme Research Laboratories, Division of Merck & Co., Inc., Rahway, N.J. 07065.

5. Azium Ophthalmic Solution, NADA No. 13-727V; by Schering Corp., Galloping Hill Road, Kenilworth, N.J. 07033.

6. Chick'n Tee, NADA No. 9-910V; by E. R. Squibb & Sons, Inc., Georges Road, New Brunswick, N.J. 08903.

Neither the above named firms nor any other interested persons have filed a written appearance in response to the above cited notice. This is construed as an election by said persons not to avail themselves of the opportunity for a hearing.

Therefore, based on the grounds set forth in said notice of opportunity for a hearing, the Commissioner concludes that approval of said new animal drug applications should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 10-954V, NADA No. 8-821V, NADA No. 2-513V, NADA No. 3-510V, NADA No. 3-850V, NADA No. 5-160V, NADA No. 5-219V, NADA No. 6-562V, NADA No. 8-241V, NADA No. 11-433V, NADA No. 13-727V, and NADA No. 9-910V, including all amendments and supplements thereto, is hereby withdrawn effective January 15, 1973.

Dated: January 8, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Health Services and Mental Health Administration

REGIONAL HEALTH ADVISORY COMMITTEE, REGION II

Notice of Open Meeting

The Administrator, Health Services and Mental Health Administration, announces the meeting date and other required information for the following national advisory body scheduled to assemble the month of January 1973.

Committee name	Date, time, place	Type of meeting and/or contact person
Regional Health Advisory Committee, Region II.	Jan. 25, 9:30 a.m., Room 3105, 26 Federal Plaza, New York, N.Y.	Open, Contact Miss Irene Johnson, Room 3304, 26 Federal Plaza, New York, N.Y., Code 212-264-4993.

Purpose: To consult with and advise the regional health director on matters relating to health activities and functions of the Health Services and Mental Health Administration in region II. Also, the Committee is responsible for undertaking substantial review, study, and deliberation upon those broad major health and health-related problems and opportunities which may confront the region.

Agenda: Agenda items will cover discussion of Revenue sharing, the Allied Services Act, HR-1—Social Security Welfare bill, planned variation for selected model cities, and third party reimbursement.

Items for discussion are subject to change due to priorities as directed by the President of the United States, or the Secretary of Health, Education, and Welfare.

A roster of members may be obtained from the contact person listed above.

Dated: January 5, 1973.

JOHN H. KELSO,
Associate Administrator for Management, Health Services and Mental Health Administration.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

GENERAL AVIATION ACCIDENT PREVENTION INDUSTRY ADVISORY COMMITTEE

Notice of Meeting

Pursuant to section 10(a)(2) of Public Law 92-463, notice is hereby given of the meeting of the General Aviation Accident Prevention Industry Advisory Committee, at 9 a.m. on Tuesday, January 16, 1973, at the Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591 in Room 9-AB, ninth floor.

The items for discussion at the meeting will include the following:

1. Progress report of the General Aviation Accident Prevention Program.
2. Informing the pilot. Pilot-air traffic controller communication.
3. Physiological effects—Includes electromagnetic forces.
4. Magazine articles on accuracy.
5. Status report on implementation of changes of Parts 61 and 141.
6. Fuel system needs—General Aviation Aircraft.
7. Quality control, aircraft manufacturers, overhaul and inspection.

All persons interested in attending the meeting should contact the General Aviation Accident Prevention Program Coordinator, AFS-6, 800 Independence Avenue SW., Washington, DC 20591. The meeting will be open to the public.

Issued in Washington, D.C., on January 11, 1973.

C. R. MELUGIN, Jr.,
Acting Director, Flight Standards Service.

CIVIL AERONAUTICS BOARD

[Docket No. 23333; Order 73-1-18]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

JANUARY 8, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement, adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated December 28, 1972, names an additional specific commodity rate and the extension of an existing rate. These rates, as set forth below, represent reductions from the otherwise applicable general cargo rates.

Agreement CAB 23462	IATA commodity item No.	Description and rates
R-1.....	9512	Handicraft, other than wearing apparel, 163 cents per kilogram, minimum weight 100 kgs. From Ouagadougou to New York.
R-2.....	9910	Tableware, cutlery, and trophies, 91 cents per kilogram, minimum weight 200 kgs., 76 cents per kilogram, minimum weight 500 kgs. From Milan to New York.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the condition hereinafter ordered.

Accordingly, it is ordered, That:

Agreement CAB 23462, R-1 and R-2, be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications, provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions by January 18, 1973.

This order shall be effective and become the action of the Civil Aeronautics Board on January 8, 1973, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.73-830 Filed 1-12-73;8:45 am]

[Docket No. 24488; Order 73-1-20]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Research Programs

Issued under delegated authority January 8, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement was adopted at the Passenger Traffic Conferences held December 1972 in Geneva.

The agreement would amend an existing resolution governing IATA's North Atlantic Fares Monitoring and Research Program, and revalidate it through March 31, 1974. The amendments would remove references to the initial programs outlined when the resolution was originally adopted, with the intention that the work be carried forward on a continuing basis. We will herein approve the resolution, and condition it so as to require that copies of pertinent reports or other documents be submitted to the Board at the same time they are circulated to the carrier members of IATA.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the following resolution, which is incorporated in Agreement CAB 23463, is adverse to the public interest or in violation of the Act, provided that approval is subject to the condition hereinafter stated:

V38-9 JAN 15 73 XUM

IATA No.	Title	Application
019	North Atlantic Fares Monitoring and Research Program (revalidating and amending).	1/2; 1/2/3

Accordingly, it is ordered, That:

Agreement CAB 23463 be and hereby is approved, provided that copies of reports or other documents developed pursuant to the resolution and circulated to members shall be filed with the Board at the time of their circulation.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions by January 18, 1973.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for reveiw thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.73-381 Filed 1-12-73;8:45 am]

COMMISSION ON CIVIL RIGHTS

DISTRICT OF COLUMBIA STATE ADVISORY COMMITTEE

Notice of Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the District of Columbia State Advisory Committee will convene at 12:30 p.m. on January 17, 1973, in room 512 (conference room) of the U.S. Commission on Civil Rights, 1121 Vermont Avenue NW., Washington, DC 20425. Persons wishing to attend this meeting should contact the committee chairman, or the Mid-Atlantic Regional Office of the Commission at 2120 L Street NW., Washington, DC 20425. The purpose of this meeting will be to review the first draft of the report of the open meeting on discrimination of black businessmen by financial institutions in the District.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., January 10, 1973.

ISAIAH T. CRESWELL, Jr.,
Advisory Committee Management Officer.

[FR Doc.73-837 Filed 1-12-73;8:45 am]

NEW JERSEY STATE ADVISORY COMMITTEE

Notice of Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the New Jersey State Advisory Committee will convene at 7:30 p.m. on January 17, 1973, in room 730 (seventh floor) of the Federal Building, 970 Broad Street, Newark, NJ 07102. Persons wishing to attend this meeting should contact the Committee chairman, or the Mid-Atlantic Regional Office of the Commission at 2120 L Street NW., Washington, DC 20425. The purpose of this meeting will be (1) to develop a timetable for the proposed New Jersey prison project hearing and (2) to select the correctional institutions to be studied in the State of New Jersey.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., January 10, 1973.

ISAIAH T. CRESWELL, Jr.,
Advisory Committee Management Officer.

ENVIRONMENTAL PROTECTION AGENCY

HAZARDOUS MATERIALS ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Public Law 92-463, effective January 5, 1973, notice is hereby given that a meeting of the Hazardous Materials Advisory Committee will be held at 8:30 a.m., January 22, 1973, in Room 3305, Waterside Mall, 401 M Street SW., Washington, DC.

This is the regular monthly meeting of this Committee. The agenda includes the Staff Director's report, certain conflicts with laws on occupational health and pesticides, review of Community Health and Environmental Surveillance Study, progress on the study of nitrogenous materials in the environment, review of the National Conference on Pesticide Containers, progress on the herbicide study, environmental aspects of fire retardant chemicals, reports and comments by committee liaison representatives of the EPA Staff, and any items of interest from members.

The meeting will be open to the public. Any member of the public wishing to participate or present a paper should contact Dr. Winfred F. Malone, Staff Science Advisor, Hazardous Materials Advisory Committee, EPA, HEW North Building, Washington, D.C. The telephone number is area code 202 963-5117.

WILLIAM D. RUCKELSHAUS,
Administrator.

JANUARY 5, 1973.

[FR Doc.73-873 Filed 1-12-73;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 19473-19474; FCC 73R-3]

ROBERT COWAN WAGNER AND SOUTHEAST ARKANSAS RADIO, INC.

Memorandum Opinion and Order Enlarging Issues

In regard applications of Robert Cowan Wagner, Pineville, La., Docket No. 19473, File No. BP-18465; Southeast Arkansas Radio, Inc., Dermott, Ark., Docket No. 19474, File No. BP-18476; for construction permits.

1. By Memorandum Opinion and Order, FCC 72-235, released March 24, 1972, the Commission designated the above-captioned applications for hearing on several issues.[1] Presently before the Review Board is a petition to enlarge issues, filed April 14, 1972, by Southeast Arkansas Broadcasters, Inc. (KVSA), licensee of standard broadcast Station KVSA, McGehee, Arkansas.[2] KVSA requests the addition of financial, staffing, § 1.65, concealment, 307(b) programing and "public file" issues against Southeast Arkansas Radio, Inc. (Southeast).[3]

[1] A third application, that of Patrick H. Robinson, which was also designated for hearing, has since been dismissed by the Administrative Law Judge by Order, FCC 72M-682, released May 24, 1972.

[2] By Order of the Administrative Law Judge, FCC 72M-568, released May 1, 1972, KVSA's petition to intervene was granted and KVSA was made a party to this proceeding.

[3] Also before the Review Board are the following related pleadings: (a) Opposition, filed May 18, 1972, by Southeast; (b) Broadcast Bureau's comments, filed May 18, 1972; (c) reply, filed May 31, 1972, by KVSA; (d) [further] reply, filed Sept. 26, 1972, by KVSA; and (e) motion to strike (d), filed Sept. 29, 1972, by Southeast. The Review Board will accept the late-filed KVSA reply of May 31, 1972, because the tardiness is minor, the reply is unopposed, and relevant and important information is contained therein. The Board will, however, grant the motion to strike KVSA's second reply pleading, filed Sept. 26, 1972. Commission § 1.45 (b) requires replies to be filed within 5 days after the filing of any oppositions. KVSA's second reply is almost 4 months late and good cause for its filing has not been shown. Moreover, the information upon which the pleading is based was available at the time of the filing of the first KVSA reply. KVSA's second reply will, therefore, be dismissed.

FINANCIAL ISSUES

2. KVSA requests the addition of two issues essentially inquiring into: (a) Southeast's estimate of first year expenses; (b) its ability to meet second year expenses; (c) its equipment cost estimates; and (d) whether 100 shares of corporate stock have, in fact, been issued or merely subscribed. KVSA initially criticizes Southeast's estimate of first year expenses of $65,000, arguing that there is no showing to support this estimate and that, since the application indicates a full time staff of eight persons for a 10 kw. directional station requiring a first-class engineer at all times, the estimate appears to be unrealistically low. KVSA next argues that Southeast is attempting to evade Ultravision[4] requirements by postponing liability on its bank loan to the second year and beyond because, by the terms of that loan, payments begin during the second year of operation of the station and the amount then due is over $30,000. KVSA contends that such an amount, added to normal operating expenses, will far exceed estimated revenues and that, due to a high debt to asset ratio, Southeast will not be able to meet its financial obligations. Petitioner next attacks Southeast's estimate for cost of equipment, contending that the estimate of $60,300 is over 3 years old and does not reflect current market costs. Finally, petitioner argues that Southeast's application is "internally contradictory" in that it shows 100 shares of no par stock have been issued, whereas the corporation balance sheet lists these shares as subscribed, rather than issued.

3. In opposition, Southeast first explains that, while the stock in question was in fact subscribed and "considered" as issued, actual physical distribution was considered an unnecessary formality until the corporation became more than an applicant. Southeast notes that in order to eliminate any doubt, formal issuance has now occurred. In reference to the estimate for equipment costs, Southeast supplies a current estimate of $71,337 from its equipment supplier and a new credit letter. In regard to its estimate for first year operating expenses of $65,000, Southeast points to KVSA's operating expenses of $65,028 for 1971 and argues that over $16,000 of this amount was paid to KVSA stockholders, indicating that a similar station in the same geographic area[5] is operated for less than $50,000 a year. In this connection, Southeast declares that, contrary to KVSA's allegations, it will have a staff of only five full time and three part time employees and that the proposed station manager has agreed to serve without compensation if necessary. Southeast next supplies a proposed itemized operating budget which totals over $56,000, leaving a contingency fund of nearly $9,000.[6] Southeast relies on this budget to prove that its $65,000 estimate is accurate. In reference to petitioner's claim that it will not have sufficient funds for the second year of operation, Southeast points to its proposed budget which includes $9,000 interest for the bank loan payment and a $1,400 interest payment to the equipment supplier, and also argues that "it is folly to assume that the station would operate for an entire year and be unable to take in any revenues." Finally, Southeast notes that it filed a petition to amend its application to provide for a new bank loan of $150,000, which is $30,000 more than the old loan.[7] Southeast therefore contends that it has an excess of $36,000 over its actual requirments and that there is no basis for an inquiry into its financial qualifications.

4. The Broadcast Bureau supports petitioner's request for an inquiry into Southeast's ability to finance the second year of operation. However, the Bureau opposes an inquiry into the other matters raised by petitioner, believing that, as to the estimate of first year expenses and the equipment proposal, KVSA has failed to supply adequate specific factual allegations, and that the "contradiction" concerning the corporate stock arose from a minor "misnomer" in Southeast's balance sheet. KVSA's reply argues, inter alia, that because Southeast's staffing proposal is inadequate, the salaries are underestimated, and that the $16,000 payment to its stockholders represents salary paid to staff, rather than dividends.

5. The Review Board will not order an inquiry into the adequacy of Southeast's estimate for first year expenses, its estimate for equipment costs, or the circumstances surrounding the subscription and issuance of shares of stock. As to the first year operating expenses, Southeast has supplied an itemized budget of $65,000, with remaining first year cash requirements of $85,837 for equipment. Thus, Southeast's total first year cash requirements are estimated at $148,837. To meet this requirement, Southeast has shown that it has available a $150,000 bank loan and $35,668 in deferred credit from the equipment supplier; therefore, it appears to have available over $36,000 in excess of estimated cash requirements. Under these circumstances, the Board perceives no reason to question Southeast's first year financial proposal. Moreover, the Board is satisfied that the new estimate of the equipment supplier provides a reasonable and current estimate of that expense and that the confusion over whether the stock had in fact been issued was the result of an inadvertent and relatively insignificant error that has now been corrected by formal issuance. However, the Board believes that it must add a limited issue to inquire into Southeast's proposed second year financing. It is to be initially noted that the proposed bank loan of $150,000 provides for a moratorium on principal payments during the first year and a total term of 6 years ($25,000 per year). Also, by the terms of the credit arrangement with the equipment supplier, the $35,668 will be due in monthly payments during the second and third year of operation ($17,834 per year). These deferred payments will total $42,834 for the second year, exclusive of interest. By its own estimate, Southeast will also need approximately $65,000 for operating expenses, for a total second year cash requirement of $107,834. Southeast claims that this amount will be covered by revenues from the first and second year, although absolutely no substantiation of this claim is provided. Moreover, Southeast has set up an extremely thin corporate structure with a very high debt to asset ratio. Indeed, rather than supply risk capital, Southeast is relying solely on loans and deferred credit arrangements to finance its operation. In our view, these circumstances raise a serious question as to whether Southeast will be able to sustain itself during the second year of operation.[8]

ISSUES RELATING TO SOUTHEAST'S STAFFING PROPOSAL AND BUSINESS INTERESTS

6. KVSA also requests the addition of issues to determine whether Southeast has changed its staffing proposal[9] and the current status of the business interests of Bennie Ryburn, Sr. and Bennie Ryburn, Jr., principals in the Southeast application. In support of the requested issue as to staffing, KVSA attaches to its petition a copy of a newspaper article from the Dermott News, dated October 13, 1971, in which Billy Calhoun, a vice president of Southeast and proposed station manager, is quoted as stating that the proposed station "would employ 10 to 12 people, and possibly 15." KVSA argues that this statement indicates a change in Southeast's staffing proposal and should have been promptly reported. KVSA thus concludes that an issue is needed to determine "the amount of staff required" and a related Rule 1.65 issue. In reference to the business interests of the Ryburns, KVSA attaches a portion of an article from the Dumas Clarion, Dumas, Ark., dated January 12, 1972,

[4] In Ultravision Broadcasting Co., 1 FCC 2d 544, 5 RR 2d 343 (1965), the Commission stated that it would thereafter require applicants for commercial broadcast stations to make a showing that they can construct their station and operate for a period of 1 year thereafter without reliance on revenues.

[5] Station KVSA is licensed to McGehee, Ark., which is located 7 miles from Dermott, Southeast's proposed city of license.

[6] Southeast's proposed budget of $65,000 includes: $35,750 for salaries; $4,062 for administrative costs; $1,600 for leases on a transmitter and studio site; $3,900 for news services, and finance charges of $9,000 to the bank and $1,400 to the equipment supplier—with a contingency fund of $8,900.

[7] The amendment was accepted by the Administrative Law Judge by memorandum opinion and order, FCC 72M-731, released June 5, 1972. The amendment was further clarified by a later amendment, accepted by the Presiding Judge by order, FCC 72M-950, released July 25, 1972.

[9] Southeast's application proposes a staff of eight people.

V38 I9 JAN 15 73 XUM

which states that the above named Southeast principals purchased the majority of the stock of the Citizens Bank, Tillar, Ark. KVSA submits that this fact has not been reported to the Commission. KVSA alleges that the stock purchase is potentially more damaging to the Southeast application than a § 1.65 violation because, according to KVSA, Arkansas law prohibits a stockholder in three or more banks from borrowing from such banks.[10] KVSA states that "while [it] has no hard evidence that there are other undisclosed bank interests," Mr. Kinney, a KVSA principal, has "hearsay evidence" that Mr. Ryburn, Sr. has an interest in the "Farmers Bank of Hamburg," and others may have an interest in the "First State Savings and Loan Association of Monticello." If such were the case, argues petitioner, Southeast's proposed $120,000 loan would be "illegal" and its financial proposal would obviously be inadequate.

7. In opposition, Southeast attaches an affidavit from Billy Calhoun, in which he avers that he was misquoted in the newspaper article, and, in fact, stated only that the station could employ 10 to 12 or even 15 people, but that this would be sometime in the future and contingent on "the possibility that Southeast might someday get authority for nighttime broadcasts." With regard to the business interests of its principles, Southeast acknowledges that the Ryburns have acquired the majority stock in the Citizens Bank in Tillar, that between January 1971, and April 1972, Ryburn, Sr. held "a minority position in the Farmers Bank in Hamburg," and that he also had a "small interest in the First State Savings and Loan Association." It is alleged by Southeast that Mr. Ryburn did not report these interests to Southeast's attorneys because "he could not conceive of any way this acquisition[s] would affect the radio application" and that he did not attempt to conceal these acquisitions in any manner. Finally, Southeast contends that the Arkansas law referred to by KVSA does not apply to its loan because the stockholders of Southeast do not and have never owned a controlling interest in three or more banks as defined by the Statute; however, to avoid any doubt, Southeast states that it has obtained a new loan commitment of $150,000 from a different bank. (See note 7, supra.) Southeast concludes by noting that the Commission was informed by the original application that Mr. Ryburn was in the banking business and that the subsequent control of a second bank and a minority interest in a third bank has no effect on Southeast's qualifications and addition of the requested issues is therefore not warranted.

8. The Broadcast Bureau opposes addition of the issues relating to Southeast's staffing proposal, arguing that, without a supporting affidavit, the newspaper article is insufficient under § 1.229 (c) of the rules. As to the business interests of Southeast's principals, the Bureau supports the addition of a limited comparative issue only, arguing that the acquisitions "would have no effect on [Southeast's] qualifications" and, therefore, failure to report should not disqualify Southeast. In reply, KVSA argues that Southeast's failure to report Mr. Ryburn's interest requires addition of a Rule 1.65 issue. Petitioner also attacks the new loan commitment for failure to provide the terms of the loan as well as the necessary guarantees.

9. The Review Board will deny the requested issues relating to Southeast's staffing proposal but will add a comparative § 1.65 issue to inquire into Southeast's failure to report the Ryburns' additional banking interests. With regard to the staffing proposal, it is to be initially noted that there is no supporting affidavit of an individual with personal knowledge thereof, as required by § 1.229. In addition, Mr. Calhoun's averment, that his statement that the station "could" (rather than "would") employ 10 to 12 persons, is credible when viewed within the context of the article itself, which states that the comment was made during a question and answer period and the clause in the article immediately following the statement in question discusses the applicant's plans to apply for nighttime authorization sometime in the future. Accordingly, the Board does not believe that the allegations in this regard require either a staffing issue or a related Rule 1.65 issue. In reference to the business interests of the Ryburns, Southeast has admitted that it failed to inform the Commission that Mr. Ryburn has "gained control of a second bank and a minority position in a third bank." Such interests represent a significant change in the information contained in its application and could affect Southeast's financial qualifications because the Ryburns' financial status and stability appear to provide the central basis for the proposed bank loan commitments. Therefore, these bank interests should have been reported and the failure to do so requires addition of the requested § 1.65 issue. However, the failure to inform does not appear to be intentional and Southeast has come forward with a complete statement of the Ryburns' banking interests. Moreover, the Arkansas Statute is clearly no longer applicable due to the new bank loan commitment[11] and the violation is, at most, of questionable significance. Thus, the Board does not believe that this matter should reflect on the applicant's basic qualifications and the issue will be added on a comparative basis only. See RKO General Inc., (WNAC–TV), 34 FCC 2d 265, 24 RR 2d 16 (1972); Great Southern Broadcasting Co., 18 FCC 2d 599, 16 RR 2d 864 (1969); Minshall Broadcasting Co., Inc., 10 FCC 2d 647, 11 RR 2d 754 (1967). Cf. Media, Inc., 22 FCC 2d 486, 18 RR 2d 970 (1970).

PUBLIC FILE ISSUE

10. In support of its request for a "public file" issue, petitioner supplies the sworn statement of Mr. Alan W. Eastham of Dumas, Ark., who, KVSA states, was acting as "agent" for Abbott F. Kinney, president of KVSA. In his affidavit, Eastham avers that on April 4, 1972, he proceeded to inspect Southeast's public file and went to the location specified in the legal notice published in the Dermott News,[12] but the file was not there. According to KVSA, a service station is located at that address and is operated by a Mr. Alvin Torrence, who, Mr. Eastham says, told him that he (Mr. Torrence) "knew what Mr. Eastham was looking for" but that it had been moved and was now in the possession of Mr. Billy Calhoun, Southeast's proposed station manager. Mr. Eastham then states that Mr. Torrence tried to locate Mr. Calhoun but was unsuccessful. On April 5, 1972, the required notice of the Commission hearing date was published, as well as a new location of the local public file, and petitioner states that on April 6, 1972, Mr. Eastham telephoned that new location three times but received no answer.[13] In petitioner's opinion, these facts "indicate that there is a substantial question concerning whether there has been a violation of § 1.594 of the rules."

11. In opposition, Southeast submits the affidavit of Mr. Calhoun, in which he avers that the file was at the location specified in the March 1969 public notice until January 1970. At that time, Mr. Calhoun states, he moved the file to an office in his home—approximately six blocks away—because he has subleased the service station. Moreover, avers Calhoun, the operator of the station knew him and was willing to refer any inquiries concerning the file. Mr. Calhoun further states that Dermott is a "small town" and "we do business in a small town way." According to Calhoun, his office was never locked while the file was there and the file was openly in view and plainly marked. Finally, Mr. Calhoun

[10] According to petitioner, § 67–509 of the Arkansas Statutes reads as follows:

Any person or persons, and/or any company, co-partnership, corporation or other legal entity in which such person or persons own or control a substantial interest, owning either singly or jointly an aggregate of fifty percent (50%) or more of the capital stock of three (3) or more banks and/or trust companies, thus forming a chain or group of banks and/or trust companies, shall be, and are hereby prohibited from borrowing from, or becoming indebted to, such banks, and/or trust companies, thus owned and controlled, in any amount or in any manner.

[11] The terms thereof are more fully stated in a second letter from the Bank dated June 7, 1972, and accepted by the Administrative Law Judge by Order, FCC 72M–950, supra.

[12] Sections 1.580 and 1.594 of the rules require, inter alia, that an applicant publish a local notice indicating, respectively, that an application is on file with the Commission and that the Commission has established a hearing date. These sections also require that the notice state the location of the local file. Accordingly, in March 1969, Southeast published notice of its application, and on Apr. 5, 1972, notice of the hearing was published.

[13] The new location is the residence and informal office of Mr. Calhoun.

states that, in spite of the fact that the file has always been available, he has now made arrangements to move the file to the city clerk's office where it will be available to anyone who requests it.[14] The Broadcast Bureau also opposes the requested issue, contending that petitioner's allegations are too indefinite to add the issue; however, the Bureau maintains, the full circumstances should "be examined in light of Southeast's comparative qualifications."

12. The Review Board will add the requested public file issue. It is not disputed that, on two separate occasions, Eastham attempted to inspect Southeast's public file at the addresses stated in the required public notice and was unsuccessful each time. While Southeast attempts to explain Eastham's difficulties, it does not deny or contradict the basic fact that the file was not available to the public at either location. In this regard, we note that it is the applicant's responsibility to see to it that a copy of its application is always available for public inspection during normal business hours. The responsibility is the applicant's, and not, as Southeast suggests, the inspector's. The rule applies to all applicants, whether or not they do business in a "small town" way, as Southeast says it does. Moreover, in this case, it appears that, for a period of over 2 years (i.e., from January 1970, to April 1972), the public file was not available at the location stated in the local public notice. In view of the foregoing, the requested issue must be added. See Louis Vander Plate, 15 FCC 2d 285, 14 RR 2d 760 (1968).

307(b) PROGRAMING ISSUE

13. Finally, petitioner requests an issue to permit introduction of evidence on the program service presently provided by Station KVSA to Dermott. Petitioner explains that under the technical considerations of the 307(b) issue, Southeast would presumably receive a preference for providing a first local transmission facility; however, argues petitioner, the particular circumstances of this proceeding should negate such a presumption. In support, KVSA notes that McGehee, Ark., its city of license, is only 7 miles from Dermott and that KVSA's studios and transmitter are located midway between the two towns. Moreover, KVSA submits, it maintains dual local studio logs, telephone listings, and bank accounts, and is a member of numerous civic organizations in both towns and covers in detail all such meetings. KVSA also points to a resolution adopted by the Dermott City Council on October 11, 1971, praising KVSA's active participation in local community affairs. KVSA next refers to the ascertainment of community needs showing in its last renewal application, dated February 28, 1970, which shows that nearly one-third of the community leaders surveyed resided in Dermott and that a thorough investigation of the problems and needs of Dermott was made at that time. In addition, notes KVSA, much of its local affairs programing meets these needs as well as a number of the joint needs of both communities, such as merging of the school districts and area industrial development. Finally, in its effort to show that Dermott's needs are being met by existing programing, petitioner alleges that Abbott F. Kinney, president and general manager of KVSA, is a native of Dermott, presently resides there, and is totally familiar with and active in that community's needs and interests. The Broadcast Bureau supports KVSA's request. In opposition, Southeast insists that KVSA's programing proposal is far too limited to allow adequate coverage of the special needs and interests of Dermott, and that, although KVSA did survey Dermott community leaders, it has listed no programs to meet the ascertained needs, with the exception of the joint school program.

15. The Review Board believes that the petitioner's allegations are sufficient to constitute a threshold showing that Station KVSA's existing programing may be, at least to some extent, meeting the programing needs of Dermott at the present time and may therefore be of potential decisional significance. Cookeville Broadcasting Co., 19 RR 897 (1960); Boardman Broadcasting Co., 1 RR 2d 931 (1964); Charlottesville Broadcasting Corp., 1 FCC 2d 1323, 6 RR 2d 744 (1965). Southeast's claim that KVSA's programing is too limited to adequately meet Dermott's unique needs is contradicted by KVSA's strong showing that it is both aware of and presently programing for such needs. Nearly one-third of its most recent ascertainment survey was conducted in Dermott and specific programs are listed which attempt to satisfy the ascertained needs and interests. Thus, as noted by petitioner, the effect of a determination that Dermott's programing needs were being met by Station KVSA would be to potentially negate Southeast's possible preference as a first local transmission facility and, in turn, affect the ultimate determination of which community (Pineville or Dermott) has the greater need for a broadcast facility. "However, in accordance with our usual practice, the requested issue will be added on a contingent basis and is authorized only in the event that the [Southeast] proposal otherwise would prevail under standard section 307(b) criteria." Pettit Broadcasting Co., 30 FCC 2d 930, 934, 22 RR 2d 543, 548 (1971). See also Radio Collinsville, Inc., 14 FCC 2d 1058, 14 RR 2d 559 (1968).

16. *Accordingly, it is ordered,* That, the motion to strike, filed September 29, 1972, by Southeast Arkansas Radio, Inc., is granted, and the reply to opposition to KVSA petition to enlarge issues, filed September 26, 1972, by Southeast Arkansas Broadcasters, Inc. is dismissed; and

17. *It is further ordered,* That the petition to enlarge issues, filed April 14, 1972, by Southeast Arkansas Broadcasters, Inc. is granted to the extent indicated below, and is denied in all other respects; and

18. *It is further ordered,* That the issues in this proceeding are enlarged to include the following issues:

1. To determine whether Southeast Arkansas Radio, Inc. will have available sufficient funds to sustain its proposed station during the second year of operation and, in light of the evidence adduced pursuant thereto, whether the applicant is financially qualified; and

2. To determine whether Southeast Arkansas Radio, Inc. has failed to comply with Commission § 1.65, and if so, the effect thereof upon the applicant's comparative qualifications to be a Commission licensee; and

3. To determine whether Southeast Arkansas Radio, Inc. has complied with § 1.594 of the Commission's Rules, and if not, the effect thereof upon the applicant's basic or comparative qualifications to be a Commission licensee; and

4. In the event that Southeast Arkansas Radio, Inc. should be deemed superior under the ordinary criteria of the section 307(b) issue in the proceeding, to determine the extent to which programing of existing stations meet the local needs and interest of Dermott, Ark., and to determine in light of such evidence which of the applicants should be preferred under the 307(b) issue.

19. *It is further ordered,* That the burden of proceeding with the introduction of evidence under issue 1 shall be upon Southeast Arkansas Radio, Inc.; that the burden of proceeding with the introduction of evidence under the issues 2, 3, and 4 shall be upon Southeast Arkansas Broadcasters Inc. (KVSA); and that the burden of proof under the issues, 1, 2, 3, and 4 shall be upon Southeast Arkansas Radio, Inc.

Adopted: January 3, 1973.

Released: January 5, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[15]

[SEAL] BEN F. WAPLE,

Secretary.

[FR Doc.73-801 Filed 1-12-73;8:45 am]

[14] By an amendment filed July 14, 1972, Southeast indicates that its file is now located in the offices of the city clerk of Dermott and that the new location has been published in the local weekly newspaper.

[15] Board member Nelson absent.

[FCC 72-1127]

USE OF RECORDING DEVICES IN CONNECTION WITH TELEPHONE SERVICE

Memorandum Opinion and Order Re Waiver

1. Prior to 1948, the tariffs of the telephone companies prohibited telephone subscribers from using customer-provided recording devices in connection

V 38 9 JAN 15 73 XUM

with the telephone company-provided interstate and foreign message toll-telephone service or facilities. After a general investigation and hearing in Docket 6787, the Commission ruled in 1947 that such tariffs were unjust and unreasonable within the meaning of section 201(b) of the Act and, in 1948, the Commission ordered such tariffs canceled in favor of revised tariffs that would permit the use of such customer-provided devices provided that certain safeguards were imposed as prescribed by the Commission. The principal safeguard ordered by the Commission was that such devices could be used only if accompanied by connecting arrangements provided by the telephone carrier which would, among other things, transmit to the parties an automatic tone warning known as the "beep tone." (11 F.C.C. 1033 (1947); 12 F.C.C. 10005 (1947); 12 F.C.C. 10008 (1948).)

2. The "beep tone" requirement was based upon "the importance and desirability of privacy in telephone conversations" and the conclusion by the Commission that "such conversations should be free from any listening-in by others that is not done with the knowledge and authorization of the parties to the call." The Commission decided that "the use of recording devices should be permitted only when measures are in effect that assure notification to the parties that their conversation is being recorded", and that the transmission of a distinctive "beep tone" (plus a publicity program with regard thereto) was considered to be the best of the optional modes available at that time for providing such notification to the parties to telephone conversations. (11 FCC pages 1050–53.) The presently effective interstate (and intrastate) tariffs are in accord with the Commission's original decisions and orders. Thus, in the last 25 years the "beep tone" has become recognized throughout the United States as an automatic audible warning to a party to a telephone call that the call is being recorded and he has the option of asking that the recording be stopped or of terminating the conversation.

3. In 1970, the Commission adopted new broadcast rules [1] in Docket No. 18601, "Broadcast of Telephone Conservations," 23 F.C.C. 2d 1 (1970). In pertinent part, these rules require that a broadcast licensee, prior to recording a telephone conversation for broadcast, shall inform any party to the call that the licensee intends to broadcast the conversation, except where the party is otherwise cognizant of that intention, or where such awareness may be imputed. Certain broadcast licensees have informally complained to us that they prefer to use recording devices to prerecord "on the air" telephone conversations as an aid in carrying out their licensee responsibilities, but that they see no need for the allegedly disruptive "beep tone" under the new rules.

4. We believe that these broadcast rules and strict adherence thereto render unnecessary the present "beep tone" requirement of the tariffs insofar as it is applicable to the recording of telephone conversations for broadcast. Thus, assuming that a broadcast licensee complies with the aforementioned rules, the parties to the telephone conversation are aware that it is the intent of the licensee to broadcast the telephone conversation over the air where it will be overheard and/or freely recorded by the listening public. Therefore it appears that there is no need to transmit a "beep tone" in these circumstances as the parties have already agreed to the loss of privacy that would otherwise be protected by the "beep tone."

5. In view of the foregoing, we believe that we should waive our 1947–48 requirement and remove the "beep tone" requirement as to those telephone conversations that are recorded for broadcast. We are informed by the Bell System that, if we take this action, the telephone companies will amend the tariffs to provide for an appropriate exception in its tariff applicable to the recording of two-way telephone conversations for broadcast purposes. Our action herein will permit the filing of such tariff revisions.

6. In taking this action for the benefit of broadcast licensees who do not like to use the "beep tone" for "over the air" conversations, we wish to make clear that we expect full adherence on the part of all broadcast licensees to our rules requiring notice of intent to broadcast recorded telephone conversations and that, if future experience indicates a need for reimposing the "beep tone" or some other form of notice requirement, we will not hesitate to reverse or modify the action taken herein.

7. *Accordingly, it is ordered*, That the automatic tone warning requirements of our orders of November 26, 1947 and May 20, 1948 (12 FCC 10005; and 10008) are hereby waived with respect to connecting arrangements provided by the telephone companies to broadcast licensees when such connecting arrangements are used to record two-way telephone conversations broadcast over the air.

8. *It is further ordered*, That American Telephone & Telegraph Co. is hereby authorized to amend its tariff regulations in accordance with this memorandum opinion and order.

Adopted: December 13, 1972.

Released: December 20, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-803 Filed 1-12-73;8:45 am]

[1] Sections 73.126, 73.296, 73.592, 73.664, 73.1206.

[Docket Nos. 19519, 19581; FCC 73R-1]

WESTERN COMMUNICATIONS, INC., AND LAS VEGAS VALLEY BROADCASTING CO.

Memorandum Opinion and Order Enlarging Issues

In regard applications of Western Communications, Inc. (KORK–TV), Las Vegas, Nev., Docket No. 19519, File No. BRCT–327, for renewal of license; Las Vegas Valley Broadcasting Co., Las Vegas, Nev., Docket No. 19581, File No. BPCT–4465, for construction permit for new television broadcast station.

1. By order, FCC 72–503 (37 FR 12346, published June 22, 1972), 35 FCC 2d 517 the Commission designated for hearing the application of Western Communications, Inc. (Western) for renewal of its license to operate Station KORK–TV, Las Vegas, Nev., on fraudulent billing and misrepresentation issues. Thereafter, by order, FCC 72–767, released September 1, 1972, the Commission redesignated Western's application for hearing, together with the mutually exclusive application of Las Vegas Valley Broadcasting Co. for a new television broadcast station in Las Vegas. On August 11, 1972, Western filed the instant motion to enlarge issues; a supplement to the motion to enlarge issues was filed by Western on August 22, 1972.[1]

2. Western requests the Board to enlarge the issues in this proceeding to include the following issues.

To determine whether the programing of Station KORK–TV has been meritorious, particularly with regard to public service programs.

To determine, if in light of the evidence adduced pursuant to the foregoing issues the hearing record does not warrant denial of the renewal application, whether any willful or repeated violations of § 73.1205 of the Commission's rules (as specified in the July 12, 1972, Bill of Particulars) have occurred and, if so, to recommend to the Commission whether

[1] The Review Board also has before it: an opposition to the motion to enlarge issues, filed by Valley on Aug. 24, 1972; a petition for leave to file an opposition, filed Aug. 24, 1972, by Valley; the Broadcast Bureau's comments on motion to enlarge issues and supplement to motion to enlarge issues, filed Aug. 29, 1972; an opposition to supplement to motion to enlarge issues, filed by Valley on Sept. 5, 1972; an opposition to Valley's petition for leave to file and conditional reply to Valley's opposition, filed by Western, Sept. 6, 1972; Western's reply to Broadcast Bureau's comments, filed Sept. 11, 1972; and a conditional reply to Valley's opposition to supplement to motion to enlarge issues, filed by Western on Sept. 15, 1972. Since the Commission and all parties to this proceeding were on notice that Valley would be made a party and was in fact made a party to this proceeding by Commission order, FCC 72–767, supra, Valley's petition to file opposition will be granted, and its opposition considered herein.

a forfeiture should be issued against the licensee pursuant to section 503(b) of the Communications Act, the applicant having expressly waived the 1-year statute of limitations of section 503(b)(3) of the Communications Act with respect to the alleged violations of § 73.1205 of the Commission's rules, as specified in the July 12, 1972, Bill of Particulars.

Western concedes that its motion to enlarge issues is late but contends it has good cause for its late filing. In support of this contention, it states: That the motion was filed only 8 days after present counsel undertook to represent it; that to grant its petition would not unduly delay the proceeding since the presiding judge has continued the prehearing conference to afford new counsel an opportunity to prepare for the case; that no party would be prejudiced by the addition of the issues; and that the nature of the case is such that even if the Board did not find good cause for the late filing, the issues should be added on the Board's own motion in the interest of having a full and fair hearing on its application for renewal of license.

3. The Review Board is not persuaded that the change of counsel is good cause for accepting Western's late filed motion. The designation order, supra, appeared in the FEDERAL REGISTER on June 22, 1972; thus, all motions to enlarge issues should have been filed no later than July 7, 1972.[2] Western did not change counsel until August 3, 1972. However, in view of the facts that the renewal of an existing license is at stake and that the issues run to the character qualifications of the licensee, the Board will consider the merits of the motion. Western contends that since the issues in this proceeding allegedly flow from its operational practices, Commission precedent requires addition of a meritorious programing issue. The Review Board is satisfied that Western should be permitted to show meritorious past programing in the public interest.[3] However, as the Board has consistently held, such a showing must be limited to the licensee's performance before it learned that its license was in jeopardy, and the parties are free to argue the weight which should be accorded such evidence. Any mitigating effect of the evidence adduced pursuant to this issue must be limited to the fraudulent billing issue for, as the Board stated in Friendly Broadcasting Co., supra, if the licensee is found to have made willful misrepresentations to the Commission the fact that his station may have served the public interest, no matter how well, can be of no decisional significance. Finally, as to the question of the relevance of the evidence adduced under this issue to the comparative evaluation of the applicants, the Board notes that the presiding judge has initial jurisdiction, and therefore questions of this nature should be addressed to him in the first instances.

4. Western has also requested the Board to include an issue to determine whether a forfeiture might be in the public interest. As a preface to its request, Western expresses its willingness to waive the 1-year statute of limitation as provided by section 503(b)(2) of the Communications Act of 1934, as amended, with respect to alleged violations of § 73.1205 of the Commission's rules (as specified in the Bill of Particulars dated July 1972). It argues that a party for whose protection a statute is intended may waive the statute. Further, Western points out that the purpose of the forfeiture provision of section 503(b) of the Communications Act is to provide the Commission more flexibility in administering sanctions for rules' violation by its licensees, and contends that if Western is not permitted to waive the protection of the statute, it would deprive the Commission of that flexibility and effectively defeat the purpose of the statute.

5. The Broadcast Bureau contends that the Commission, in Belk Broadcasting Co., 29 FCC 2d 150, 21 RR 2d 989 (1971), determined that it had no power to impose a monetary forfeiture for alleged violations beyond the 1-year limitation imposed by section 503(b)(3) of the Communications Act, even though the applicant elected to waive the statute of limitations. This determination, the Bureau argues, effectively precludes a grant of Western's motion to include a forfeiture issue in this proceeding. The Bureau also urges that Western's request, set forth in its supplement to its motion to enlarge issues, must be denied because, even though some of the violations listed in the Bill of Particulars occurred less than 1 year before June 12, 1972 (the date of the designation order), the Commission did not include a written notice of apparent liability in that order and it is now too late to give the licensee such a notice.

6. The Review Board will deny Western's request to include a forfeiture issue in this proceeding. The Board is satisfied that the Commission's decision in Belk is controlling in this proceeding. The Board takes this action despite Western's argument that the Commission's statement of the law in the Belk case with respect to waiver of the statute of limitations is erroneous. The Board is satisfied that where there is a prior determination by the Commission with respect to a particular question of law, it is binding on the Review Board until that determination is reversed by either the Commission or the courts. Valley's request that the Board certify this question to the Commission will also be denied, because we see no useful purpose to be served by referring a question which has already been clearly and concisely answered by the Commission.

7. *Accordingly, it is ordered*, That the petition for leave to file an opposition to motion to enlarge issues and to find good cause for filing, filed August 24, 1972, by Las Vegas Valley Broadcasting Co. is granted;

8. *It is further ordered*, That the motion to enlarge issues, filed August 11, 1972, by Western Communications, Inc., is granted to the extent indicated herein, and is denied in all other respects;

9. *It is further ordered*, That the issues in this proceeding are enlarged as follows:

To determine whether the programing of Station KORK–TV has been meritorious, particularly with regard to public service programs.

10. *It is further ordered*, That the burdens of proceedings with the introduction of evidence and proof under the issue added herein shall be on Western Communications, Inc.

Adopted: January 2, 1973.

Released: January 4, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-802 Filed 1-12-73;8:45 am]

[2] Section 1.229 Motions to enlarge, change, or delete issues.

(a) A motion to enlarge, change or delete the issues may be filed by any party to a hearing.

(b) Such motions must be filed with the Commission not later than 15 days after the issues in the hearing have first been published in the FEDERAL REGISTER. Any person desiring to file a motion to enlarge, change, or delete the issues after the expiration of such 15 days must set forth the reason why it was not possible to file the petition within the prescribed 15 days. Unless good cause is shown for delay in filing, the motion will not be granted.

[Docket No. 17049; FCC 73-12]

POSSIBLE UTILIZATION OF RADIO COMMUNICATIONS TO ENHANCE SAFETY ON HIGHWAYS

Memorandum Opinion and Order Terminating Proceeding

In the matter of inquiry into possible use of radio communications to enhance safety on the highways, Docket No. 17049, RM–732.

1. This proceeding was initiated in 1966 (notice of inquiry, 31 FR 16380, Dec. 22, 1966) to obtain information and views as to whether, and if so how, radio communications could be employed to enhance safety on the highways. A number of interested parties submitted views and proposals, and some of the suggested methodology has been implemented by us. For example, in a separate proceeding in Docket No. 18705, we reserved "Channel 9" in the Citizens Band for emergency use, including the reporting of automobile accidents and hazardous road situations. Then, in Docket No. 18267, we adopted technical and operating standards for emergency radio call box systems, situated along highways, using frequencies in the 72–76 MHz band. Further, in Docket 17228, we made a "splinter" (7.5 kHz) channel available

V38-9 JAN 15 73 XUM

in the 150 MHz band in the Local Government Radio Service for use in providing emergency call box service. More recently, in rule making in Docket No. 19001, we made four frequency pairs in the 450–470 MHz range available for fixed station operation for highway emergency radio systems.

2. While these steps were taken in furthering the objectives of the inquiry, we do not feel its continuation would serve a useful purpose. Moreover, we are keeping abreast of current developments relating to possible future highway communication systems. This matter is being studied at this time, and we anticipate that these studies will lead eventually to further rule making or inquiry better designed to evaluate these new concepts. As we have mentioned, however, this inquiry has served its purpose and may now be closed.

3. In taking this action, it is also appropriate to dispose of the associated petition of the Automobile Manufacturers Association, Inc. (AMA), to institute rule making to establish a "Highway Emergency Locating Plan Service." For essentially the same reasons given for terminating our inquiry in this docket, we conclude that AMA's petition must be denied.

4. *Accordingly, it is ordered,* That the above-referenced petition for rule making, filed by the Automobile Manufacturers Association, Inc., is denied: *And it is further ordered,* That the inquiry in Docket No. 17049 is terminated.

Adopted: January 4, 1973.

Released: January 8, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[Docket No. 18732; FCC 73-13]

LAND MOBILE SPECTRUM UTILIZATION

Order Terminating Proceeding

In the matter of the report on a study of land mobile spectrum utilization prepared for the Commission by the Stanford Research Institute, Docket No. 18732.

1. This proceeding was initiated in 1969 by our notice of inquiry (34 FR 18488, Nov. 20, 1969). In this notice, we invited interested persons to submit comments, views, and information relevant to matters covered by the reports of the Stanford Research Institute on its study of land mobile spectrum utilization.

2. A number of comments were filed. They were evaluated by us, and the material set out in them has been considered by us in the development of our current spectrum management programs. This was the purpose of the inquiry; and that purpose having been served, it is appropriate to conclude the proceeding.

3. *Accordingly, it is ordered,* That the proceeding in Docket No. 18732 is terminated.

Adopted: January 4, 1973.

Released: January 8, 1973.

[Report 4334]

CLASS I TV DEVICES

General Action on Equipment Interpretation

JANUARY 4, 1973.

FCC Chief Engineer Raymond E. Spence has sent the following letter in response to a request by Electronic Industries Association (EIA) for an interpretation of the antenna transfer switch and isolation requirements for Class I TV devices:

This is in reply to your letter dated December 20, 1972, requesting an interpretation of the antenna transfer switch and isolation requirements for Class I TV devices.

Our rules, § 15.407, requires the receiver transfer switch to provide 60 db of isolation in either position, i.e., with the TV receiver connected to the antenna or with the receiver connected to the Class I TV device. You point out that equipments are produced in which the power to the Class I TV device is removed when the antenna is connected to the TV receiver thereby preventing the generation of RF interference from this device. You raise the question whether or not such equipment must meet the 60 db switch requirement in both positions. Please be advised that the 60 db isolation requirement between the antenna and the Class I TV device will be considered to be met, if the device is constructed so that power is removed from the Class I TV device when the switch connects the TV receiver to the antenna.

Should any further questions arise concerning this matter, please contact me.

MARINE VHF PUBLIC COAST STATIONS

Service Area Contour Data

DECEMBER 27, 1972.

Licensees of very high frequency (VHF) public coast radio stations are reminded of the requirement to submit service area contour data to the Commission. This requirement is contained in paragraph 27 of the report and order released May 31, 1972, and published in the FEDERAL REGISTER on June 7, 1972 in Docket No. 18944.

Paragraph 27 of the report and order reads in part: " • • • in order that the same type of information (as required of new applicants) will be available for all VHF public coast stations, we intend to require, at the time of termination of this docket, that licensees of VHF public coast stations, authorized prior to termination of the proceeding in this docket, submit within a period of 1 year service area contour data computed in accordance with the standards and procedures adopted in this Docket." The data submitted should include the plot of radials, calculation of average height, computation of field strength and service area contour, together with supporting information as set forth in the rules.

Licensees must submit the service area contour data showing their coverage areas, with supporting data, by July 6, 1973.

The new rules include a new Subpart R containing standards for computing VHF coverage. Subpart R was recently published by the Government Printing Office and distributed to subscribers of Volume IV of the Commission's rules and regulations via Transmittal Sheet No. 1. Section 81.313 of the Commission's rules requires that licensees of coast stations have a current copy of the regulations.

[FCC 73-4]

NONPAYMENT OF GRANT FEE

Rescission of Receiver Certification

JANUARY 5, 1973.

On April 11, 1972, the Commission granted certification to Sona Labs, Inc., 369 St. Marks Avenue, Brooklyn, NY 11328 for a land mobile communications receiver Model No. RAS 10 operating in the 152–174 MHz band, described in the application for certification as "FM Scanner Monitor receiver". The application for certification was signed by Herman R. Campbell who indicated he was president of Sona Labs, Inc.

Section 1.1120 of the Commission's rules, 47 CFR 1.1120, requires a grant fee, in the amount of $25, for certification of equipment of the kind for which certification was granted to Sona Labs, Model RAS 10.

Section 1.1102 of the Commission's rules, 47 CFR 1.1102, provides that where a grant fee is prescribed, the fee is payable within 45 days after the date of the grant. That section further provides:

All grants, approvals, and authorizations issued by the Commission are made subject to payment and receipt of the applicable fee within the required period. Failure to make payment of the applicable fee to the Commission by the required date shall result in the grant, authorization or approval becoming null and void and ineffective after that date.

Sona Labs, Inc., has not paid the grant fee required by §§ 1.1102 and 1.1120.

Attempts by the Commission to contact the applicant, Sona Labs, Inc., have proven unsuccessful. The applicant is no longer located at the address and telephone number given in the application, nor was any forwarding address or telephone number provided. We have also unsuccessfully attempted to contact Mr. Herman Campbell. In addition the Commission has been informed that Sona Labs, Inc., has filed bankruptcy proceedings, but we have been unable to determine if this is in fact true and if so in what court such proceedings have been initiated.

For the foregoing reasons, the Commission hereby gives notice that the certification granted to Sona Labs, Inc., on April 11, 1972, for its Model RAS 10 land mobile communications receiver is rescinded. Marketing of this equipment without certification will be in violation of § 2.803 of the Commission's rules, 47 CFR 2.803.

Action by the Commission January 4, 1973.[1]

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E-7906]

DETROIT EDISON CO.

Order Accepting for Filing and Suspending Revised Rate Schedule and Providing for Hearing

JANUARY 8, 1973.

On December 8, 1972, The Detroit Edison Co. (Edison) tendered for filing a proposed superseding supplement to its present contract as supplemented with its wholesale for resale customer, Consumers Power Co. (Consumers). The proposed changes would increase revenues from jurisdictional sales and services by $2,133,572 or 20.84 percent based on test year ending September 30, 1972, to become effective on January 1, 1973, or as soon thereafter as permitted by the Commission.

The filing was noticed on January 3, 1973, with the period for protests or petitions to intervene ending on January 22, 1973. The present filing involves no change in the fuel adjustment clause accepted by our order issued August 24, 1972, accepting the settlement of Docket No. E-7687. However, such a clause may not conform to the principles subsequently enunciated in Commission Opinion No. 633 issued October 30, 1972, in Docket No. E-7541, in that Edison's fuel costs may be imputed to its purchased power. Thus, the fuel clause will be investigated as part of the hearing in the proceeding.

Review of rate filing indicates that it raises certain issues which may require development in an evidentiary hearing. The proposed increases in rates and changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Edison's wholesale rates as proposed to be amended in this docket, and that the tendered tariff sheets be suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR, Ch. I), a public hearing shall be held, commencing with a prehearing conference on July 10, 1973, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classifications, and services contained in Detroit Edison's Electric Tariff as proposed to be revised herein.

(B) At the prehearing conference on July 10, 1973, Edison's prepared testimony together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of §§ 1.18 and 2.59 of the Commission's rules of practice.

(C) On or before June 5, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all interveners shall be served on or before June 19, 1973. Any rebuttal evidence by Edison shall be served on or before July 3, 1973. Cross-examination of the evidence filed will commence on July 17, 1973.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(E) Pending hearing and a final decision in this proceeding, Edison's proposed superseding supplement, tendered on December 8, 1972, is suspended and the use thereof deferred until June 8, 1973.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-781 Filed 1-12-73;8:45 am]

[Docket No. CI73-445]

GULF OIL CORP.

Notice of Application

JANUARY 9, 1973.

Take notice that on December 26, 1972, Gulf Oil Corp. (Applicant), P.O. Box 1589, Tulsa, OK 74102, filed in Docket No. CI73-445 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Co. from the Cleo Barton Well No. 1, Gheen (Lower Morrow) Field, Lipscomb County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 3,000 Mcf of gas per day pursuant to a letter agreement dated October 26, 1972. It is stated that the gas will be sold at 40 cents per million Btu for 1 year from initial date of delivery within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before January 25, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the

[1] Commissioner Johnson concurring in the result.

[1] Commissioners Burch (Chairman), Robert E. Lee, Johnson, H. Rex Lee, Reid, Wiley, and Hooks.

V 38 9 JAN 15 73 XUM

requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

MARY B. KIDD,
Acting Secretary.

[FR Doc.73-780 Filed 1-12-73;8:45 am]

[Docket No. E-7902]

ILLINOIS POWER CO.

Notice of Proposed Changes in Rates and Charges

JANUARY 3, 1973.

Take notice that Illinois Power Co. (IPC) on December 8, 1972, tendered for filing an agreement accompanied by a proposed amendment to its FPC Rate Schedule No. 9 —— an Interconnection Agreement between IPC and Indiana & Michigan Electric Co. (I&M). The proposed changes would result in a net increase in the revenues of IPC of $127,000.

According to IPC's transmittal letter, the parties have negotiated in good faith and have reached agreement on this proposed amendment. The amendment would increase the rate of compensation for electric energy (diversity energy) delivered under the aforementioned service agreement. IPC alleges the amendment is necessary to offset higher fuel costs. The parties propose to apply this change in the rate of compensation to energy delivered during the diversity exchange period starting October 1, 1972, and ending September 15, 1973. Finally, IPC requests an effective date of October 1, 1972, and accordingly requests a waiver pursuant to § 35.11 of the Commission's regulations.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions should be filed on or before January 22, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are available for public inspection at the Federal Power Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-783 Filed 1-12-73;8:45 am]

[Docket No. CP73-177]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

JANUARY 9, 1973.

Take notice that on January 3, 1973, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, IL 60603, filed in Docket No. CP73-177 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of gas with Tennessee Gas Pipeline Co., a Division of Tenneco, Inc. (Tennessee), from the Tenerias Field, Willacy County, Tex., and to obtain and operate facilities previously installed, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the exchange of natural gas on December 15, 1975, and constructed facilities consisting of a tap connection, measuring facilities, and a small booster station in order to effectuate this exchange, within the contemplation of § 157.22 of the regulations under the Natural Gas Act (18 CFR 157.29); Applicant proposes to continue said exchange, and to retain and operate said facilities, for a 1 year period, beginning at the end of the 60-day emergency period, which began on December 15, 1972, within the contemplation of § 2.70 of the Commission's general policy and interpretations.

Applicant proposes to cause Humble Oil & Refining Co. (Humble) to deliver up to 15,000 Mcf of natural gas per day to Tennessee, who will in turn deliver equivalent volumes of gas to Applicant at a point in San Juan De Carracitos Survey, Willacy County, Tex. Applicant states that the exchange is a straight gas-for-gas exchange and that such gas will be delivered at the pressure existing at the respective points of delivery.
